Registration decision statement¹ for *Cydia pomonella* Granulovirus isolate V-22

Health Canada's Pest Management Regulatory Agency (PMRA), under the authority of the *Pest Control Products Act*, is granting registration for the sale and use of CpGV V-22 Technical and Madex HP, containing the technical grade active ingredient *Cydia pomonella* granulovirus isolate V-22, to control codling moth (*Cydia pomonella*) and oriental fruit moth (*Grapholita molesta*) on stone fruits (Crop Group 12-09) and pome fruits (Crop Group 11-09).

This decision is consistent with the Proposed Registration Decision PRD2021-07, *Cydia pomonella* granulovirus isolate V-22 and Madex HP, which contains a detailed evaluation of the information submitted in support of this registration. The evaluation found that, under the approved conditions of use, the health and environmental risks and the value of the pest control products are acceptable. Health Canada received no comments on PRD2021-07.

Other information

The relevant test data on which the decision is based (as referenced in PRD2021-07) are available for public inspection, upon application, in the PMRA's Reading Room. For more information, please contact the PMRA's Pest Management Information Service by phone (1-800-267-6315) or by e-mail (pmra.info-arla@hc-sc.gc.ca).

Any person may file a notice of objection² regarding this registration decision within 60 days from the date of publication of this Registration Decision. For more information regarding the basis for objecting (which must be based on scientific grounds), please refer to the Pesticides section of the Canada.ca website (Request a Reconsideration of Decision) or contact the PMRA's Pest Management Information Service.

¹ "Decision statement" as required by subsection 28(5) of the *Pest Control Products Act*.

² As per subsection 35(1) of the *Pest Control Products Act*.
