

## **Statement Outlining Results, Risks and Significant Changes in Operations, Personnel and Programs**

### **Introduction**

This quarterly financial report has been prepared as required by section 65.1 of the *Financial Administration Act* and in the form and manner prescribed by the Treasury Board. This report should be read in conjunction with the [2016-17 Main Estimates](#) and [Supplementary Estimates \(A\)](#). This quarterly report has not been subject to an external audit or review.

The Administrative Tribunals Support Service of Canada (ATSSC) is responsible for providing support services and facilities to 11 federal administrative tribunals by way of a single, integrated organization.

These services include the specialized services required by each tribunal (e.g. registry, research and analysis, legal and other mandate or case activities specific to each tribunal), as well as internal services (e.g., human resources, financial services, information management and technology, accommodations, security and communications).

Further information on the mandate, roles, responsibilities and programs of the ATSSC can be found by accessing [2016-17 Main Estimates](#).

### **Basis of Presentation**

This quarterly report has been prepared using an expenditure basis of accounting. The accompanying Statement of Authorities includes the ATSSC's spending authorities granted by Parliament and those used by the ATSSC, consistent with the Main Estimates and the Supplementary Estimates (A) for the 2016-17 fiscal year. This quarterly report has been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before moneys can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

When Parliament is dissolved for the purposes of a general election, section 30 of the *Financial Administration Act* authorizes the Governor General, under certain conditions, to issue a special warrant authorizing the Government to withdraw funds from the Consolidated Revenue Fund. A special warrant is deemed to be an appropriation for the fiscal year in which it is issued.

The ATSSC uses the full accrual method of accounting to prepare and present its annual departmental financial statements that are part of the departmental performance reporting process. However, the spending authorities voted by Parliament remain on an expenditure basis.

**Quarterly Financial Report**

**For the quarter ended September 30, 2016**

**Highlights of Fiscal Quarter and Fiscal Year to Date (YTD) Results**

The ATSSC’s financial structure is mainly composed of voted budgetary authorities namely, Vote 1— Program expenditures and vote-netted revenue authority, as well as statutory authorities for contributions to employee benefit plans.

For the period ending September 30, 2016, the ATSSC totalled authorities of \$82.1 million, including budgetary authorities of \$64.4 million and vote-netted revenue (VNR) of \$17.7 million. Budgetary authorities include an amount of \$58 million from the Main Estimates, \$2.9 million from the Supplementary Estimates (A) and \$3.5 million from Treasury Board Central Votes (Operating Budget Carry Forward). The VNR gives the department the authority to make recoverable expenditures on behalf of the Canada Pension Plan and the Employment Insurance Operating Account. Presented in Graph 1 below are the gross and net budgetary authorities and expenditures for the second quarter of 2016-17. For more details, refer to the Statement of Authorities.

**Graph 1: Comparison of budgetary authorities and expenditures for the quarter ended September 30, 2016, and September 30, 2015.**

The ATSSC collected \$4.4 million in revenues and incurred a total of \$36.6 million in expenditures in the first two quarters of 2016-17 for a total of \$32.2 million in net budgetary expenditures. This represents 50% of the total budgetary authorities. The majority of the expenditures relates to personnel (\$31.5 million), or 86% of the gross expenditures. The remaining 14% primarily comprises professional and

special services (mainly legal services and translation costs), transportation and communications (mainly travel costs), and rentals (mainly meeting rooms, software licences and network maintenance costs).

### **Significant Changes to Authorities**

(Please refer to the Statement of Authorities table)

As of September 30, 2016, the total authorities available for use for the year increased by \$1.1 million compared to the same quarter last year. This change is primarily due to an increase of \$1 million from Treasury Board Central Votes (Operating Budget Carry Forward). For both respective quarters ended September 30 of 2015-16 and 2016-17, the ATSSC's VNR authority remained unchanged at \$17.7 million.

### **Significant Changes to Revenues Collected**

(Please refer to the Statement of Authorities table)

The revenues collected in the second quarter ending September 30, 2016 increased by \$4.4 million. The increase can be attributed to a timing difference in the accounting of financial transactions.

### **Significant Changes to Expenditures**

(Please refer to the Departmental Budgetary Expenditures by Standard Object table)

Second quarter gross budgetary expenditures decreased from \$25.2 million in 2015-16 to \$18.1 million in 2016-17. This decrease of \$7.1 million consists of variances associated with the following:

- a decrease of \$6.5 million in other subsidies and payments expenditures which is related to a decrease in the advance payment compared to the same quarter last year issued to Employment and Social Development Canada (ESDC) for the administration of the Social Security Tribunal; and
- a decrease of \$0.6 million relating to various other expenditures.

### **Risks and Uncertainties**

The ATSSC has identified three key risks and responses for 2016-17.

As the caseload depends on external factors, it is often challenging for tribunals to predict their operational demands from year to year. There is a risk that caseload surges or other unexpected tribunal-specific operational demands could challenge the ATSSC's ability to provide the support services the tribunals require to fulfill their mandates. While the caseload is beyond the tribunals' control, strategies will be developed to address circumstances where tribunals face higher than expected demands. Emerging trends are being monitored to determine the potential impact on caseloads, legislative changes are being monitored to assess the impact on ATSSC resources, and budgets and allocations are monitored closely to appropriately reallocate resources if and where required.

There is also a risk that the ongoing change agenda both within the ATSSC and across government will challenge the organization's resiliency. Senior management will champion change, foster a culture of leadership at all levels and promote employee well-being. As well, the ATSSC will work closely with its partners, including tribunals, central agencies and departments, to synchronize the changes ahead so that resources are well positioned to implement and support change initiatives.

### **Quarterly Financial Report**

**For the quarter ended September 30, 2016**

Lastly, the ATSSC must maintain appropriate delivery capacity to meet the mandates and the evolving needs and priorities of the tribunals it serves. The ATSSC is in the process of developing a corporate policy framework and a multi-year implementation strategy taking into account identified gaps, risks and priorities.

The ATSSC supports 11 tribunals with different mandates, each operating under different statutes, regulations and policies. The risks identified are in keeping with those of a recently formed organization that is tasked with delivering existing support services while also seeking to improve its service delivery model. As the ATSSC continues to evolve and build organizational capacity, it will strive to meet its goal of being recognized as a centre of excellence for service delivery; innovative, efficient and effective operations; and improved access to justice.

### **Significant Changes in Relation to Operations, Personnel and Programs**

There has been no significant change to the programs or structure since the ATSSC was established on November 1, 2014. The Social Security Tribunal continues to be partially supported by ESDC as its transition to the ATSSC is still ongoing.
