## Report on the *Privacy Act*

### Introduction

The *Privacy Act* (PA) protects the privacy of Canadian citizens and permanent residents against the unauthorized use and disclosure of personal information about themselves held by a government institution. It also provides individuals with a right of access to that information and the right to correct inaccurate personal information. In addition, the PA legislates how the government collects, stores, disposes of, uses and discloses personal information.

Section 72 of the PA requires the head of every federal government institution to submit an annual report to Parliament on the administration of the PA during the financial year. This annual report summarizes the administration of the PA within Defence Construction (1951) Limited (DCC) during 2020–21.

### Mandate of DCC

The principal mandate of DCC, pursuant to the *Defence Production Act* (DPA), is to meet the infrastructure and environmental needs of the Department of National Defence and the Canadian Armed Forces by providing quality services. DCC's mission is to provide timely, effective and efficient project delivery and full lifecycle support for infrastructure and environmental assets required for the defence of Canada.

DCC is an agent of the Crown incorporated for the purpose of carrying out the procurement for and delivering of defence infrastructure projects. The DPA defines a defence contract as a contract with an agent of Her Majesty that in any way relates to defence projects or to the designing, manufacturing, producing, constructing, finishing, assembling, transporting, repairing, maintaining, servicing or storing of, or dealing in defence projects.

DCC's Letters Patent permit DCC to take on, lease, or in exchange, procure, purchase or otherwise acquire, construct, alter, renovate, add to, improve, and to hold, manage, maintain, operate, supervise, repair, heat, lease, sell, salvage, realize or otherwise dispose of real and personal property—and in particular, lands and buildings. DCC reports to Parliament through the Minister of Public Services and Procurement.

### DCC's Access to Information and Privacy Office

DCC's Access to Information and Privacy (ATIP) Office is accountable for developing and implementing effective policies, guidelines, systems and procedures to ensure DCC meets its responsibilities under the *Access to Information Act* (ATIA) and the PA.

The main activities of the ATIP Office include the following:

- monitoring compliance with relevant Acts, regulations, procedures and policies;
- processing requests under both Acts;
- developing and maintaining policies, procedures and guidelines to ensure DCC respects the Acts;
- promoting awareness of the Acts within DCC to ensure employees know and understand their responsibilities;
- preparing annual reports to Parliament and other statutory reports, as well as other material Central Agencies may require;
- representing DCC in dealings with the Treasury Board of Canada Secretariat (TBS), the Information and Privacy Commissioners, and other government departments and agencies to determine how the Acts apply to DCC; and
- helping DCC meet its commitments to ensure openness and transparency through proactive and informal disclosure of information.

During 2020–21, the ATIP Office supported DCC's compliance with ancillary statutory requirements by doing the following:

- reporting travel and hospitality expenses of senior officials on the Open Government portal;
- responding to parliamentary questions (Order Paper Questions);
- responding to constituent inquiries; and
- reviewing DCC's corporate services contracts.

## Organizational Structure

During 2020–21, the ATIP Office had two full-time positions: the ATIP Coordinator and the ATIP Administrator. The ATIP Deputy Coordinator position was vacated during the reporting period, and a recruitment process was initiated to staff the role. As is the case for most institutions, recruitment and retention of qualified ATIP professionals is a significant challenge for DCC.

DCC was not party to any service agreements under section 73.1 of the PA during 2020–21.

---

## Delegation of Authority

Pursuant to section 73 of the *Privacy Act*, DCC's President has delegated his powers and duties to the ATIP Coordinator to allow the Corporation to meet its legislated requirements. These powers may be sub-delegated to the Deputy Coordinator, as required.

See Appendix A for the Delegation Order.

## Summary and Highlights of Activities

During 2020–21, the ATIP Office continued to monitor the TBS initiative to procure new ATIP processing software.

Members of DCC's ATIP team also offered privacy policy recommendations related to program function and responded to requests for privacy impact advice.

## Training and Awareness

During 2020–21, DCC continued to inform senior management of the volume of access to information and privacy requests and increase awareness of access to information and privacy issues.

The ATIP Office briefs DCC's five executives monthly and 20 senior managers twice a year. Topics covered in the presentation include the following:

- annual and quarterly comparisons of ATIP requests handled and pages reviewed;
- consultation requests, by region and government institution; and
- annual ATIP requests, by source type.

During 2020–21, the ATIP Office expanded its reporting to include DCC's Board of Directors. Through quarterly reports, the ATIP Office provides an overview of its activities administering the ATIA and the PA. Topics covered in the ATIP Board Report include the following:

- ATIP activities relating to legislative compliance;
- statistical reporting and new request summaries;
- corporate risk assessments; and
- issues identified through ATIP-related environmental scans.

A plain language policy document on the PA is accessible to all employees via the DCC intranet.

The ATIP Office created a training module for DCC employees based on the Canada School of Public Service's introductory online ATIP course. This self-directed training covers DCC's responsibilities under the ATIA and PA and is reviewed by the ATIP Coordinator annually.

Also, the ATIP Office continued to provide advice and guidance to regional and site employees on ATIP activities.

The ATIP Coordinator trained the ATIP Administrator on DCC ATIP processes and practices, and provided general training based on TBS resources, including the Interim Directive on the ATIA, Access to Information Regulations and Access to Information Manual.

## **Policies, Guidelines and Procedures**

Development and review of PA-related policies, guidelines and procedures, including DCC's Privacy Impact Assessment Policy, Privacy Breach Protocol, and Privacy Management Framework, continued into this reporting period.

In addition, the ATIP Office continued to use its refined tasking process to identify appropriate points of contact within each region. In the preceding reporting period, lead contacts were identified and compiled in a reference document for use by the ATIP Office. This document is updated regularly, with the goal of improving engagement of appropriate subject-matter experts when retrieving DCC-held records and responding to external consultation requests.

DCC has established and reminds employees of their obligations under DCC ATIP policies and procedures, and DCC's Code of Business Conduct, which incorporates the *Public Servants Disclosure Protection Act* by reference. The Code articulates expectations and provides procedures for the disclosure of wrongdoing under that Act. The Code also sets out DCC employees' obligations under the PA to help ensure effective and consistent administration of and compliance with the PA and its regulations.

Each year, DCC employees are required as a condition of employment to review their obligations and responsibilities under the Code and to actively acknowledge through an electronic process their continued compliance. DCC sends each employee an e-mail reminder and tracks responses through an automated system. This allows DCC to keep accurate records and to take appropriate follow-up action. New employees must pass an online test regarding the Code shortly after they are hired. In 2020–21, 100% of DCC's employees responded to the annual request for review, and all new hires completed the required test.

## **Overview of 2020–21 Operating Environment Impacting ATIP Activity**

DCC continues to modernize its IT infrastructure to ensure the Corporation keeps pace with industry and government partners in the use and application of technology for infrastructure and environment services. Since being affected by a cyber incident in September 2019, DCC has continued to update its IT systems in line with industry standards and is dedicated to ensuring efficiency and effectiveness.

DCC fully supports openness, transparency and accountability, guiding principles of the Government of Canada. However, DCC's ability to carry out ATIP activities was hindered by the circumstances and exceptional measures put in place to respond to the COVID-19 pandemic and protect the health and safety of its employees.

DCC took its lead from the Public Health Agency of Canada, and employees were supported in their transition to working from home whenever possible. This transition impacted the ATIP Office, whose employees faced, as did other Government of Canada ATIP personnel, the unprecedented reality of working in a new physical location and set-up, while trying to balance multiple work and home responsibilities.

As a result, DCC's ATIP Office operated at reduced capacity throughout 2020–21.
