## Minister's message

On behalf of Innovation Science and Economic Development Canada (ISED), I am pleased to present our report on fees for 2021–22.

The Service Fees Act provides a modern legislative framework that enables cost-effective delivery of services and, through better reporting to Parliament, improves transparency and oversight.

In 2021–22, with the ongoing effects of the COVID-19 pandemic, ISED continued to support the evolving needs of Canadians and the Canadian economy. This included supporting the release and implementation of standards for 5G ecosystems in a way that encourages a competitive wireless landscape while ensuring the resiliency of Canada's telecommunications infrastructure.

ISED is reporting total revenues in excess of \$9.5 billion for 2021–22, mainly due to the results of spectrum auctions, which had been delayed in 2020. ISED is reporting on a total of 533 fees, which represents an increase of 13 fees from the previous year following changes to patent rules and trademarks regulations and spectrum fees.

As the implementation of the Service Fees Act continues, I expect Canadians and Canadian businesses will benefit from increased transparency, accountability and predictability in the management of fees charged by ISED.

The Honourable François-Philippe Champagne, P.C., M.P.  
Minister of Innovation, Science and Industry

## About this report

This report, which is tabled under section 20 of the *Service Fees Act*, the *Low-Materiality Fees Regulations*, and subsection 4.2.8 of the Treasury Board *Directive on Charging and Special Financial Authorities*, contains information about the fees that Innovation, Science and Economic Development Canada (ISED) had the authority to set in fiscal year 2021–22.

The report covers fees that are subject to the *Service Fees Act* and exempted from the *Service Fees Act*.

For reporting purposes, fees are categorized by fee-setting mechanism. There are three mechanisms:

1. Act, regulation or fees notice  
The authority to set these fees is delegated to a department, minister or Governor in Council pursuant to an act of Parliament.
2. Contract  
Ministers have the authority to enter into contracts, which are usually negotiated between the minister and an individual or organization, and which cover fees and other terms and conditions. In some cases, that authority may also be provided by an act of Parliament.
3. Market rate or auction  
The authority to set these fees is pursuant to an act of Parliament or a regulation, and the minister, department or Governor in Council has no control over the fee amount.

For fees set by act, regulation or fees notice, the report provides totals for fee groupings, as well as detailed information for each fee.

Although the fees that ISED charges under the *Access to Information Act* were subject to the *Service Fees Act*, they are not included in this report. Information on ISED's access to information fees for 2021–22 is in our annual report to Parliament on the administration of the *Access to Information Act* which is posted on [ISED ATIP References Pages<sup>i</sup>](#).

## Remissions

In 2021–22, Innovation, Science and Economic Development Canada was subject to the requirements to issue remissions under section 7 of the *Service Fees Act* and subsection 4.2.4 of the Treasury Board *Directive on Charging and Special Financial Authorities* to remit a fee, in whole or in part, to a fee payer when a service standard was deemed not met. ISED's

remission policy and procedures, pursuant to the *Service Fees Act*, are on the following web page: Service Fees Remission Policy<sup>ii</sup>.

In 2021–22, ISED also issued remissions under its enabling legislation and under the *Financial Administration Act*. These remissions may have been for reasons other than not meeting a service standard.

Innovation, Science and Economic Development Canada's remission policy is on the following web page: Program Annexes - Innovation, Science and Economic Development Canada<sup>iii</sup>.

Order-in-council PC number SI /2022-22 is on the following web page: Remission Order for Certain Fees Under the Bankruptcy and Insolvency General Rules from March 31 to August 31, 2020<sup>iv</sup>.

The other sections of this report provide detailed amounts on ISED's remissions for 2021–22.

## Overall totals, by fee-setting mechanism

The following table presents the total revenue, cost and remissions for all fees that ISED had the authority to set in 2021–22, by fee-setting mechanism.

### Service standard

- [1,2] Processing time of two business days per transaction.
- [3,4] Processing time of 14 calendar days per transaction.
- [5] For the aeronautical and maritime services, complete mobile-only applications will be assessed within 21 calendar days of their receipt.
- [6] For the public information service, complete mobile-only applications will be assessed within 49 calendar days of their receipt.
- [7] For the radiodetermination and the developmental services, complete mobile-only applications will be assessed within 49 calendar days of their receipt.
- [8] For the land mobile service, light-licensed (i.e. no frequencies required) applications will be assessed within 21 calendar days of their receipt. Mobile-only (i.e. frequencies required) applications will be assessed within 49 calendar days of their receipt.
- [9] For the space service, complete mobile earth station applications will be assessed within 130 calendar days of their receipt.
- [10] For the land mobile service, light-licensed mobile (i.e. no frequencies required) applications will be assessed within 21 calendar days of their receipt. Mobile-only (i.e. frequencies required) applications will be assessed within 49 calendar days of their receipt.
- [11-18] For the fixed service, complete applications for fixed point-to-multipoint, point-to-transportable, and transportable to transportable stations will be assessed within 28 calendar days of their receipt. Service standards are paused when co-ordination with the US is required. For the satellite service, complete applications for fixed earth stations will be assessed within 49 calendar days. For the land mobile service complete applications for fixed stations will be assessed within 49 calendar days of their receipt. Service standards are paused when co-ordination with the US is required.
- [19-31,85-87] For the land-mobile service, completed applications for fixed stations will be assessed within 49 days of their receipt. Service standards are paused when co-ordination with the US is required.
- [32-39,84] For the satellite service, completed space station applications will be assessed within 130 calendar days of their receipt.
- [40-43,47-55] For new, first-come, first served terrestrial spectrum licences (where there is an established fee), applications will be assessed within 21 calendar days of their receipt.
- [44] Satellite (spectrum) licences for FSS and BSS applications will be assessed within 130 calendar days of their receipt.
- [45,46] Mobile satellite (spectrum) licences applications (completed) will be assessed within 130 calendar days of their receipt.
- [56] For radio authorizations received for the assignment of certain call signs in the amateur radio service, the issuance of authorizations is 28 calendar days.
- [57-83] Complete applications for fixed point-to-point will be assessed within 28 calendar days of their receipt. Service standards are paused when international co-ordination is required.

## Performance result

[1] The Service standard was met for 107 Registration applications on an annual total of 107 applications.

[2] The Service standard was met for 13,095 model listings (within 8,740 applications) on an annual total of 13,110 listings.

[3] The Service standard was met for 10 assessment applications on an annual total of 10 applications.

[4] The Service standard was met for 25 Technical expertise applications on an annual total of 25 applications.

[5-55, 57-83] Service Standards were MET for 11,083 of the 11,372 spectrum and radio licence applications received

[56] Service Standards were MET for 384 out of 384 radio authorizations received for the Assignment of Certain Call Signs in the Amateur Radio Service.

### Service standard

[1-162] Measurement Canada pledges to schedule an inspection 10 days from when the request is received. The service standard starts to apply from the time the inspector begins the inspection until testing is complete and the device owner or their representative is informed that the inspection is completed. Service Standards Table (hourly basis):

<https://www.ic.gc.ca/eic/site/mc-mc.nsf/eng/lm03952.html#Section4.0><sup>xxxvi</sup>

[163-192] Measurement Canada will issue a Certificate of designation upon confirmation of payment. The service pledge for issuing the certificate is 15 days for measuring devices where the Electricity and Gas inspection Act applies. Service Standards Table:

<https://www.ic.gc.ca/eic/site/mc-mc.nsf/eng/lm03952.html#Section3.0><sup>xxxvii</sup>

[193] For Authorized Service Providers recognized to verify meters or with delegated authority to certify standards or measuring apparatus under the authority of the Electricity and Gas Inspection Act, the service standard for providing this written confirmation is 5 calendar days following the completion of the audit or assessment.

[194-196] Measurement Canada will issue a Notice of Approval between 30 and 700 days after commencing the assessment depending on the complexity of the submission. Service Standard Table: <https://www.ic.gc.ca/eic/site/mc-mc.nsf/eng/lm03952.html#Section2.0><sup>xxxviii</sup>
