INTRODUCTION

INTRODUCTION

This is an update of the Directory of Computer Software and Services.

It is intended to meet the continuing demand for the previous edition now both out-of-date and out-of-print.

The information contained in the directory does not imply any government endorsement of a company's capabilities. It simply reflects the products and services advertised by each company.

The information contained in this directory is also available on-line with Industry Canada's computerized Business Opportunities Sourcing System (BOSS).

Within Industry Canada, the focal point for computer software and service companies is the Information Technologies Industry Branch, telephone (613) 954-3286, fax (613) 952-8419. If further information is required on computer software and service firms, please contact the branch at the following address:

The background of the entire page is a painting. The top half is a solid, deep red. Below this, the scene transitions into a dark, moody landscape. In the foreground, there are several large, dark, rounded rocks. Scattered among the rocks and in the background are several large, vibrant red maple leaves, some of which are partially submerged in what appears to be a stream or a pool of water. The lighting is dramatic, with highlights on the edges of the leaves and the rocks, creating a sense of depth and texture.
