## Introduction

On an annual basis, with few exceptions over the last two decades, the Aboriginal Programs Division at Fisheries and Oceans Canada has undertaken a licence, quota, and vessel valuation study to determine valuations for commercial fishing licences, quota, and vessels operating in the Pacific commercial fishery.

The information gathered by DFO over the last 20 years of studies has been used for a wide variety of purposes including:

- Informing licence retirement and reallocation programs
- Gauging and analyzing the economic health of the pacific fishing industry
- Developing policies around First Nations participation in the fishery and licence redistribution
- Estimating the impacts of policy decisions on the pacific fishery
- Estimation of potential treaty impacts on the commercial fishery

The continuity in methodology is important so that changes in values can be viewed in relation to changes in the fishery in general.

This year's report contains an assessment of commercial fishing licence and quota values between January 1, 2018 and December 31, 2018.

Where possible, the valuations in this report are based on individual market transactions. Where no or few markets transactions could be uncovered, anecdotal information may have been used; and, where no information could be uncovered, values from the 2017 study were relied upon. In short, this report is the contractor's best effort to summarize sometimes imprecise data into an existing time series of values.

Each valuation has a confidence level of the valuation, ranging from low to high. This is an attempt to quantify the contractor's professional opinion with regards to the accuracy of the valuation and is based on the number of individual transactions that were recorded, the quality of the information, and anecdotal information.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Summary: Year ending December 31, 2018

The following table summarizes the market capitalization of pacific commercial fishing licences and quota at December 31, 2018:

| Fishing Grouping | Fishery | Licence Desc. | \# of Licences | Average Licence Value (\$) | Aggregate <br> Licence <br> Value (\$) | Aggregate Quota Value (\$) | Average Quota Value (\$/Lb) | Total Licence \& Quota Value (\$) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Salmon | Salmon Seine | AS | 209 | \$423,206 | \$88,450,000 | \$ - |  | \$88,450,000 |
|  | Salmon Gillnet | AG | 812 | \$69,341 | \$56,305,000 | \$ - |  | \$56,305,000 |
|  | Salmon Troll | AT | 347 | \$199,280 | \$69,150,000 | \$ - |  | \$69,150,000 |
| Pelagics | Herring - Roe Seine | HS | 241 | \$99,025 | \$23,865,000 | \$ - |  | \$23,865,000 |
|  | Herring - Roe Gillnet | HG | 987 | \$39,517 | \$39,003,000 | \$ - |  | \$39,003,000 |
|  | Herring - <br> Spawn on Kelp | J | 34 | \$175,000 | \$5,950,000 | \$ - |  | \$5,950,000 |
|  | Tuna | USA 68 | 45 | \$225,000 | \$10,125,000 | \$ - |  | \$10,125,000 |
|  | Sardine | ZS | 24 | n/a | n/a | \$ - |  | n/a |
| Groundfish | Halibut | L | 342 | \$32,360 | \$11,067,120 | \$487,277,120 | 92.00 | \$498,294,240 |
|  | Sablefish | K | 41 | \$250,000 | \$10,250,000 | \$268,129,972 | 82.00 | \$278,379,972 |
|  | Groundfish <br> Trawl | T | 135 | \$48,800 | \$6,588,000 | \$282,416,439 | 1.85 | \$289,004,439 |
|  | Rockfish Inside | ZN | 53 | \$40,000 | \$2,120,000 | \$ - |  | \$2,120,000 |
|  | Rockfish <br> Outside | ZN | 158 | \$280,000 | \$44,240,000 | \$ - |  | \$44,240,000 |
|  | Lingcod Hook \& Line |  | n/a | n/a | n/a | \$32,271,520 | 15.00 | \$37,271,520 |
|  | Dogfish Hook <br> \& Line |  | n/a | n/a | n/a | \$2,266,681 | 0.125 | \$2,266,681 |
| Shellfish | Prawn | W | 187 | \$799,546 | \$149,515,139 | \$ - |  | \$149,515,139 |
|  | Crab | R | 189 | \$775,000 | \$146,475,000 | \$ - |  | \$146,475,000 |
|  | Shrimp | S | 207 | \$41,750 | \$8,642,250 | \$ - |  | \$8,642,250 |
|  | Geoduck | G | 50 | \$250,000 | \$12,500,000 | \$375,000,000 | 133.93 | \$387,500,000 |
|  | Sea Cucumber | ZD | 84 | \$1,300,000 | \$109,200,000 | \$ - |  | \$109,200,000 |
|  | Rea Sea Urchin | ZC | 80 | \$300,000 | \$24,000,000 | \$- |  | \$24,000,000 |
|  | Green Sea Urchin | ZA | 48 | \$100,000 | \$4,800,000 | \$ - |  | \$4,800,000 |
|  | Euphausid | ZF | 16 | \$40,000 | \$640,000 | \$ - |  | \$640,000 |
| Schedule II | Schedule II Species | C | 313 | \$17,000 | \$5,231,00 | \$ - |  | \$5,231,000 |
|  |  |  |  |  | \$828,206,509 | \$1,452,311,732 |  | \$2,280,518,242 |

The total value of licences and quota at December 31, 2018 is about $\$ 2.28$ billion, compared with the $\$ 2.33$ billion valuation for 2017. The distribution of values between fisheries varied from year to year.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## 2018 Market Value by Fishery Grouping

Percentage of market capitalization by fishing category are shown in the chart below:

## Percentage Change in Market Value by Fishery Grouping - 2018 vs 2017

Compared to 2017, total market capitalization decreased by 1\% in 2018. The following chart shows the percentage change for each fishery grouping shown:

## Top Six Fisheries Relative to Overall Licence and Quota Values (\$ millions)

As shown in the next chart, the six fisheries with the largest aggregate licence and quota valuations account for $74 \%$ of total value, while the remaining 18 fisheries make up $26 \%$

## Aggregate Licence and Quota Value (\$ millions) By Major Fishery Groupings

Aggregate value over the last 10 years is shown by fishery category in the chart below.

## Salmon

Salmon licence values have seen steady growth since 2014. Seine licence values had a spike in 2015 but have remained essentially the same through to 2018. Gillnet licences, however, have risen $28 \%$, and troll licences have risen $57 \%$ in anticipation of a profitable fishery in 2018. The following table provides a snapshot of the salmon category:

Aggregate Salmon Licence Value (\$ millions)

## Pelagics

After years of declining licence values from 2010-2015, there is a trend towards more historic values. In 2018 Roe Herring Gillnet values continued to rise and have increased 63\% in value since 2015 as resource estimates have regained some confidence. Seine licence values rose sharply in 2017 and have maintained their value through 2018 despite low profitability in the fishery.

Sardines have not shown up in BC waters for six straight years, the absence of a treaty between Canada and the USA, and the limited and tenuous rights associated with some of the USA 68 (tuna) licences, make this category difficult to evaluate.

The Spawn on Kelp fishery has previously been included in this report erroneously as it has no commercial valuation and is restricted to non-cash transactions within the Aboriginal Fishery. It has been removed from the 2018 Report.

The following table provides a snap shot of the pelagics category:

Aggregate Pelagics Licence Value (\$ millions)

## Groundfish

After a $7 \%$ growth in 2017, licence and quota values in the groundfish category dropped by $14 \%$ in 2018. This was driven by a $34 \%$ drop in halibut value due to both quota volume adjustments and a decrease in unit price. This correction must have been expected after prices soared and quotas were reduced for 2018. Groundfish, sablefish, and lingcod as uncut quota made some gains in 2018 which helped offset the loss in halibut values for the category. The Trawl fleet maintained a relatively steady value with regards to market capitalization. The following table provides a snapshot of the groundfish category:

## Aggregate Groundfish Licence and Quota Value (\$ millions)

## Shellfish

The shellfish dive fisheries showed significant growth again in 2018, with gains seen in all four fisheries. Geoduck value grew by $11 \%$ and red and green sea urchin showed massive gains of $23 \%$ and $67 \%$ respectively. Part of this growth has been attributed to higher market prices being found by flying the product live to Asian markets. Demand is strong and supply is short for access to this fishery, and many of the urchin and cucumber fisheries are incremental to the geoduck fishery. Sea cucumber also saw strong growth of $41 \%$. The following table provides a snapshot of shellfish dive fisheries:

## Shellfish Dive Fisheries - Aggregate Licence Value (\$ millions)

For the shellfish trap/trawl fisheries, prawn market capitalization regained most of the value lost in 2017 and the crab fishery gained $43 \%$ in value after a $5 \%$ drop in 2017.The following table provides a snapshot of the shellfish trap and trawl fisheries:

Shellfish Trap/ Trawl Fisheries - Aggregate Licence Value (\$ millions)

## Rates of Return - Leasing

The estimated rate of return for readily leased (typically non-vessel based or fisheries with IVQ) licences or quota for the valuation period is shown in the following table. Estimates are the contractor's best effort to capture a value for market lease rates that can vary widely:

| Fishery | Lease Rate | Quota/Licence Valuation | Rate of Return |
| :---: | :---: | :---: | :---: |
| Herring - Roe Seine | \$ 6,750.00 | \$ 99,024.90 | 6.8\% |
| Herring - Roe Gillnet | \$ 1,000.00 | \$ 39,516.72 | 2.5\% |
| Halibut | \$ 7.40 | \$ 92.00 | 8.0\% |
| Sablefish | \$ 5.50 | \$ 82.00 | 6.7\% |
| Trawl-Groundfish | \$ 0.13 | \$ 1.85 | 7.0\% |
| Trawl - Offshore Hake | \$ 0.005 | \$ 0.25 | 2.00\% |
| Rockfish Inside | \$ 1,200.00 | \$ 40,000.00 | 3.0\% |
| Rockfish Outside | \$ 7,500.00 | \$ 280,000.00 | 2.7\% |
| Lingcod Hook \& Line | \$ 0.40 | \$ 15.00 | 2.7\% |
| Dogfish Hook \& Line | \$ | \$ 0.12 | 0.0\% |
| Prawn | \$ 32,000.00 | \$ 799,546.20 | 4.0\% |
| Crab | \$ 40,000.00 | \$ 775,000.00 | 5.2\% |
| Geoduck | \$ 620,000.00 | \$ 7,500,000.00 | 8.3\% |
| Sea Cucumber | \$ 80,000.00 | \$ 1,300,000.00 | 6.2\% |
| Red Sea Urchin | \$ 6,500.00 | \$ 300,000.00 | 2.2\% |
| Green Sea Urchin | \$ 4,000.00 | \$ 100,000.00 | 4.0\% |

## Methodology

## Valuations Performed

The following table summarizes the scope of work and valuations carried out for this report:

| Fishery Grouping | Fishery | Gear | Valuations |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Average Vessel Value | Average Licence Value |  | Quota Value | Lease |
|  |  |  |  | Full Fee | Reduced |  |  |
| Salmon | Salmon | Seine | x | x | x |  | x |
|  | Salmon | Gillnet | x | x | x |  | x |
|  | Salmon | Troll | x | $\times$ | x |  | x |
| Pelagics | Herring - Roe | Seine | x | x | x |  | x |
|  | Herring - Roe | Gillnet | x | x | x |  | x |
|  | Herring - Spawn on Kelp |  |  |  |  |  |  |
|  | Tuna | Hook \& Line |  | x |  |  |  |
|  | Sardine | Seine |  |  |  |  |  |
| Groundfish | Halibut | Longline | x | x |  | $x$ | x |
|  | Sablefish | Longline/Trap | x | x |  | x | x |
|  | Groundfish Trawl | Trawl | x | $\times$ |  | x | x |
|  | Rockfish | Hook \& Line | x | x |  |  | x |
|  | Lingcod and Dogfish | Hook \& Line |  |  |  | x | x |
| Shellfish | Prawn | Trap | x | x |  |  | x |
|  | Crab | Trap | x | x |  |  | x |
|  | Shrimp | Trawl | x | $\times$ |  |  |  |
|  | Geoduck | Dive | x | $\times$ |  | x | $x$ |
|  | Sea Cucumber | Dive | $\times$ | x |  |  | x |
|  | Red Sea Urchin | Dive | x | x |  |  | x |
|  | Green Sea Urchin | Dive | x | x |  |  | x |
|  | Euphausiid | Trawl | x | $\times$ |  |  |  |
| Schedule II | Schedule II Species |  |  | x |  |  |  |

## Valuation Methodology

Information on commercial fishing licence and quota values were gained through interviews with individual licence holders, brokers, fishers, processors, industry publications, and anyone with knowledge of specific market transactions. Most valuations are a synthesis of multiple sources listed above, or in some cases where information could not be
uncovered, data from the 2017 report was utilized. The following is a list of information sources starting with the most preferred:

- Information based on actual transactions
- Anecdotal information on transactions or industry expert opinions on price levels
- Prices listed (but not transacted) from boat brokers or trade publications
- Contractor's judgement

## Licence/ Quota Stratification \& Valuation Criteria

The valuation for each licence type, quota including units (per licence, per foot, etc.) an indication of the number of transactions uncovered, and the confidence in the valuation are presented for each licence valued.

A general description is also included for:

- Licence designation (AS, AG, AT, etc.) including \# of areas, stacking, etc.)
- Nature of licence (vessel or party based)
- \# of commercial licences available
- The type of stratification utilized (per licence, per lb, etc.)
- \# of communal commercial licences available
- Vessel build (classic or modern)
- Licence management regime (Area licencing
- \# of vessels

## Valuation Trends

The valuation trend graphs were updated for each commercial fishery. It should be noted that these graphs are not adjusted for inflation, and in some cases, no new data was uncovered.

## Licencing Information

For more information than the brief synopses of licencing information provided in this report, please refer to the following sources:

- IFMP's: http://www.pac.dfo-mpo.gc.ca/fm-gp/ifmp-eng.html
- DFO Licencing: https://www.pac.dfo-mpo.gc.ca/fm-gp/licence-permis/licence-commercial-eng.html

## SALMON - Salmon Seine

## Background to Valuation

| General |  |  |
| :--- | ---: | ---: |
| Licence Designation | AS |  |
| Nature of Licence | Vessel-based |  |
| \# Commercial Licences | 209 |  |
| \# Communal Commercial Licences | 67 |  |
| Area Licencing? | Competitive with pilot IVQ |  |
| Stacking? | Yes |  |
| Competitive or Quota Management? |  |  |
|  |  |  |
| Valuation Parameters | Per Licence |  |
|  | n/a |  |
| Licence | Yes |  |
| Quota | Low |  |
| Vessels | $\approx 3$ |  |
| Amount of trading activity in category this year |  | Low |
| \# Transactions underlying valuation |  |  |
| Confidence in current year valuations |  |  |

## Current Valuation

Licence Value at December 31, 2018

| Category | \# Licences | Value/ Licence (\$) | Total Value (\$) |
| :--- | ---: | ---: | ---: | ---: |
| Full Fee | 194 | 425,000 | $82,450,000$ |
| Reduced Fee | 15 | 400,000 | $6,000,000$ |
| F | 67 | $\mathrm{n} / \mathrm{a}$ | $\mathrm{n} / \mathrm{a}$ |
| All AS | 209 | 423,206 | $88,450,000$ |

## Valuation Comments

- The valuation range for the period is $\$ 400,000-\$ 530,000$ (full fee).
- There was a low amount of market activity for salmon seine licences, and only one recorded transaction for ~\$500,000.
- Industry experts feel that these licences would be more fairly priced closer to \$250,000-\$300,000.
- 2018 was a speculative market based on future runs, there were buyers interested.
- No reduced fee licences were uncovered so valuation is an estimate.

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline, however the number of vessels has been updated. Fleet vessel valuation is imprecise and uses incomplete DFO datasets. The number of licenced vessels is drawn from DFO's Pacific Region Commercial Fishing Licences Database

| Salmon Seine | \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :--- | :--- | :--- | :--- | :--- |
| Classic Style | 100 | 184,000 | $18,433,615$ |
| Modern Style | 38 | 646,000 | $24,429,981$ |
| Total | 138 | 310,606 | $42,863,596$ |

## Licencing Trends

## Recent AS Licence Valuations (Nominal \$s - not adjusted for inflation)

Salmon seine licence prices have remained steady over the last 4 years. This lofty valuation in licence values from 2015 onwards seems based on speculation about the future profitability of the fishery. Some industry experts have suggested that current profits from the fishery would support a valuation closer to $\$ 250,000-\$ 300,000$. The 2018 season did not deliver as expected and 2019 prices could end up correcting slightly.

## Recent AS Licence Lease Rates (\$)

Salmon Seine licences were leasing for approximately \$5000 in 2018.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Aggregate Value of AS Licences (\$ millions by year)

While there were buyers for AS licences few people are wanting to sell in anticipation of a very profitable year in 2018. Some industry experts believe that there will be more activity in this licence category in 2019.

## AS Licence Counts by Category

The number of AS licences remained stable over 2018.

## Outlook/ Commentary

The outlook for the seine sector is uncertain given:

- The expected bumper year for 2018 did not materialize.
- Current licence holders are likely in a position to wait for the fishery to return to higher profit levels however the confidence level in future big returns appears to be dropping.
- The seine licences are highly dependent on salmon returns and foretasted pessimism could result in a correction of pricing in 2019.
- Some industry experts peg the value of a seine licence closer to $\$ 250,000$ to $\$ 300,000$.
- Currently many fishers are just making wages with little room for margins.

## SALMON - Salmon Gillnet

## Background to Valuation

| General |  |
| :--- | ---: |
| Licence Designation | AG |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 812 |
| \# Communal Commercial Licences | 340 |
| Area Licensing? | 3 areas |
| Stacking? | Yes |
| Competitive or Quota Management? | Competitive with pilot IVQ |
|  |  |
| Licence | Per Licence |
| Quota | $\mathrm{n} / \mathrm{a}$ |
| Vessels | Yes |
| Amount of trading activity in category this year | Med |
| \# Transactions underlying valuation | $\approx 25$ |
| Confidence in current year valuations | High |

## Current Valuation

Licence Value at December 31, 2018

| Category | \# Licences |  | Value/ Licence (\$) | Total Value (\$) |
| :--- | ---: | ---: | ---: | ---: |
| Full Fee | 705 | 70,000 | $49,350,000$ |  |
| Reduced Fee | 107 | 65,000 | $6,955,000$ |  |
| F | 340 | $\mathrm{n} / \mathrm{a}$ | $\mathrm{n} / \mathrm{a}$ |  |
| All AG | 1152 | 69,341 | $56,305,000$ |  |

## Valuation Comments

- The market value remained high for all AG licences due to speculation for large returns of Adam's River Sockeye and strong Chum Returns in the Georgia Straight.
- Valuation range for period: $\$ 35,000-\$ 75,000$ for reduced fee and $\$ 55,000$ to $\$ 90,000$ for full fee.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values
- Few reduced fee licences were uncovered so the confidence in the valuation for reduced fee is circumstantial.
- The pricing can vary considerably by area with Area E collecting the higher values and Area C the lowest.

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated and adjusted, and duplicate vessel counts were identified as vessels often stack multiple licences. Fleet vessel valuation is imprecise and uses incomplete datasets. The number of licenced vessels is drawn from one data source:

- DFO's Pacific Region Commercial Fishing Licences Database

| Salmon Gillnet |  | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :--- | :--- | :--- | :--- |
| Classic Style | 251 | 73,000 | $18,309,427$ |
| Modern Style | 293 | 162,000 | $47,496,121$ |
| Total | 544 | 120,966 | $65,805,548$ |

## Licencing Trends

## Recent AG Licence Valuations (Nominal \$s - not adjusted for inflation)

## Recent AG Licence Lease Rates (\$)

Lease rates in 2018 surged for a few of the speculative south coast salmon fisheries and lease rates for south coast D and E Licences got as high as $\$ 6000$. South coast licences in 2019 are expected to drop. Area C licences were leasing for around \$1500 in 2018.

## Aggregate Value of AG Licences (\$ millions by year)

AG Licence Counts by Category

## Outlook/ Commentary

- The speculative outlook for the Salmon Gillnet fishery is likely to wane with the general pessimism in the salmon fishery on the coast due to low stock abundance, anticipated returns, and prospective area closures.
- There was a lot of market activity in 2018 and it could continue into 2019 as prices begin to correct due to the less optimistic outlook.
- Industry experts are anticipating a drop in AG licences prices for 2019.

## SALMON - Salmon Troll

## Background to Valuation

| General |  |
| :--- | ---: |
| Licence Designation | AT |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 347 |
| \# Communal Commercial Licences | 85 |
| Area Licensing? | Competitive with pilot IVQ |
| Stacking? | Yes |
| Competitive or Quota Management? | Per Licence |
|  | $\mathrm{n} / \mathrm{a}$ |
| Licence | Yes |
| Quota | Med |
| Vessels | $\approx 15$ |
| Amount of trading activity in category this year | High |
| \# Transactions underlying valuation |  |
| Confidence in current year valuations |  |

## Current Valuation

Licence Value at December 31, 2018

| Category | \# Licences | Value/ Licence (\$) | Total Value (\$) |
| :--- | ---: | ---: | ---: | ---: |
| Full Fee | 337 | 200,000 | $67,400,000$ |
| Reduced Fee | 10 | 175,000 | $1,750,000$ |
| F | 85 | $\mathrm{n} / \mathrm{a}$ | $\mathrm{n} / \mathrm{a}$ |
| All AT | 432 | 199,280 | $69,150,000$ |

## Valuation Comments

- Values ranged from \$135,000 to \$250,000.
- Area F collects the highest value.
- Shorter AT licences are discounted while longer licences (50+feet) sell at a premium.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. The data set for 2018 excluded the counts for duplicate vessels that often stack multiple licences. Fleet vessel valuation is imprecise and uses imprecise, incomplete datasets. The number of licenced vessels is drawn from DFO's Pacific Region Commercial Fishing Licences Database.

| \# Salmon Troll | Avg. Vessels |  | Agalue (\$) | Agregate Value (\$) |
| :--- | :--- | :--- | :--- | :--- |
| Classic Style | 232 | 136,000 | $31,529,398$ |  |
| Modern Style | 47 | 262,000 | $12,357,542$ |  |
| Total | 279 | 157,301 | $43,886,940$ |  |

## Licencing Trends

Recent AT Licence Valuations (Nominal \$s - not adjusted for inflation)

Aggregate Value of AT Licences (\$ millions by year)

## AT Licence Counts by Category

## Outlook/ Commentary

- Area F (North Coast) is seen as the most desirable AT licence as there is less of a risk of Southern Resident closures and stocks tend to be healthier.
- Fishing on the coast is seen as sporadic and under threats from climate change, rights-based fisheries, Orcas, MPAs, forestry/habitat, and susceptible to the changing politics through the Pacific Salmon Treaty.
- The only real value in these licences is if the vessel has stacked multiple licences for a variety of areas or as an Area F licence.
- Licence value could drop significantly in 2019.

## PELAGICS - Roe Herring Seine

## Background to Valuation

| General |  |
| :---: | :---: |
| Licence Designation | HS |
| Nature of Licence | Party-based |
| \# Commercial Licences | 241 |
| \# Communal Commercial Licences | 11 |
| Area Licensing? | 5 areas |
| Stacking? | Yes (limited) |
| Competitive or Quota Management? | Pools (equal sharing) |
| Valuation Parameters |  |
| Licence | Per Licence |
| Quota | n/a |
| Vessels | Yes |
| Amount of trading activity in category this year | Very Low |
| \# Transactions underlying valuation | $\approx 2$ |
| Confidence in current year valuations | Low |

## Current Valuation

Licence Value at December 31, 2018

| Category | \# Licences | Value/ Licence (\$) | Total Value (\$) |
| :--- | ---: | ---: | ---: | ---: |
| Full Fee | 194 | 100,000 | $19,400,000$ |
| Reduced Fee | 47 | 95,000 | $4,465,000$ |
| F | 11 | $n / a$ | $n / a$ |
| All HS | 252 | 99,025 | $23,865,000$ |

## Valuation Comments

- Prices held steady at around $\$ 100,000$ for a licence so the fishery continues to show promise.
- There are a few buyers but only willing to pay up to around $\$ 100,000$ and most licence holders would prefer to just hang on to the licence in case the fishery continues on the recovery path and openings become profitable again.
- Industry experts have indicated there are primarily 2 buyers, and there seems to be a disconnect with the licence values and the profitability of the fishery.

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. The data set for 2018 excluded the counts for duplicate vessels that often stack multiple licences. Fleet vessel valuation is estimated and uses imprecise, incomplete DFO datasets.

| \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |  |
| :--- | :--- | :--- | :--- |
| Herring Seine | 21 | 175,000 | $3,718,750$ |
| Classic Style | 64 | 733,000 | $46,728,750$ |
| Modern Style | 85 | 593,500 | $50,447,500$ |
| Total |  |  |  |

## Licencing Trends

Recent HS Licence Valuations (Nominal \$s - not adjusted for inflation)

## Recent HS Licence Lease Rates (\$)

HS licences were leasing for approximately $\$ 6750.00$ in the Salish Sea area/Georgia Straight. Other leases that may be leased for the licencing fee, have little to no lease value and are underutilized.

## Aggregate Value of HS Licences (\$ millions by year)

HS Licence Counts by Category

## Outlook/ Commentary

- Resource healthier than thought and holding on that trend since 2017.
- Some participants predict that the future for herring fisheries lies in food and bait markets, though significant industry re-organization will need to occur.
- Very tight market for licence sales right now as licence holders do not seem interested in selling for what buyers are willing to pay.
- Some industry experts believe stocks are good, but the fishery will never be as lucrative as it was due to international pressure from Alaska and Russia.

## PELAGICS - Roe Herring Gillnet

## Background to Valuation

| General |  |
| :--- | ---: |
| Licence Designation | HG |
| Nature of Licence | Party-based |
| \# Commercial Licences | 987 |
| \# Communal Commercial Licences | 280 |
| Area Licensing? | Paluation Parameters |
| Stacking? | Pools (equal sharing) |
| Competitive or Quota Management? | yes |
|  | Per Licence |
| Licence | $\mathrm{n} / \mathrm{a}$ |
| Quota | $\mathrm{n} / \mathrm{a}$ |
| Vessels | Low |
| Amount of trading activity in category this year | $\approx 14$ |
| \# Transactions underlying valuation | High |
| Confidence in current year valuations |  |

## Current Valuation

Licence Value at December 31, 2018

| Category | \# Licences | Value/ Licence (\$) | Total Value (\$) |  |
| :--- | ---: | ---: | ---: | ---: |
| Full Fee | 743 | 41,000 | $30,463,000$ |  |
| Reduced Fee | 244 | 35,000 | $8,540,000$ |  |
| F | 280 | $n / a$ | n/a |  |
| All HG | 1267 | 39,517 | $39,003,000$ |  |

## Valuation Comments

- Values for this valuation ranged from \$38,000-\$50,000.
- There was an increase of activity this year from last year.
- As prices moved up a few sellers were willing to move forward on a deal.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline. Fleet vessel valuation is imprecise and uses imprecise and incomplete DFO datasets. The number of licenced herring roe gillnet vessels was drawn from 2015's valuation report and has not been updated as no vessel data for this category could be accessed as they are party-based licences and are not associated with particular vessels.

| \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |  |
| :--- | :--- | :--- | :--- |
| Herring Gillnet | 90 | 38,000 | $3,420,000$ |
| Classic Style | 210 | 132,000 | $27,720,000$ |
| Modern Style | 300 | 103,800 | $27,720,000$ |
| Total |  |  |  |

## Licencing Trends

Recent HG Licence Valuations (Nominal \$s - not adjusted for inflation)

Aggregate Value of HG Licences (\$ millions by year)

HG Licence Counts by Category

## Outlook/ Commentary

- Similarly, to herring roe seine but at less of an extreme, there seems to be a disconnect in the value of HG licences and the profitability of the fishery.
- Also, similarly to herring roe seine, there is slightly increased optimism that this fishery will return to be a steady income earner but not to the lucrative status enjoyed in the past.
- The market for HG licences is tight as current licence holders are not wanting to sell at current prices.

## PELAGICS - Tuna and Sardine

## Tuna (Category USA 68)

| General |  |
| :--- | ---: |
| Licence Designation | USA 68 |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 45 |
| \# Communal Commercial Licences | Valuation Parameters |
| Area Licencing? | No |
| Stacking? | No |
| Competitive or Quota Management? | Per Licence |
|  | n/a |
| Licence | n/a |
| Quota | Low |
| Vessels | = 0 |
| Amount of trading activity in category this year | Low |
| \# Transactions underlying valuation |  |
| Confidence in current year valuations |  |

## Current Valuation

Licence Value at December 31, 2018

| Category | \# Licences | Value/ Licence (\$) | Total Value (\$) |
| :---: | :---: | :---: | :---: | :---: |
| USA 68 | 45 | 225,000 | $10,125,000$ |

## Valuation Comments

- Most tuna fishers do not rely on the USA 68 licence, rather they seek a tuna permit under the schedule II privileges at a substantial savings.

## Sardine (ZS)

| General |  |
| :---: | :---: |
| Licence Designation | ZS |
| Nature of Licence | Party-based |
| \# Commercial Licences | 24 |
| \# Communal Commercial Licences | 0 |
| Area Licencing? | No |
| Stacking? | No |
| Competitive or Quota Management? | Quota |
| Valuation Parameters |  |
| Licence | Per Licence |
| Quota | n/a |
| Vessels | n/a |
| Amount of trading activity in category this year | None |
| \# Transactions underlying valuation | None |
| Confidence in current year valuations | ion provided |

## Current Valuation

Licence Value at December 31, 2018

| Category | \# Licences | Value/ Licence (\$) | Total Value (\$) |
| :---: | :---: | :---: | :---: |
| ZS | 24 | n/a | n/a |

## Valuation Comments

- 2018 marked the fifth consecutive season that sardines failed to materialize in BC waters, resulting in no harvest for the season.
- No transactions uncovered for this licence and likely no transactions at all took place.

## Licencing Trends

Recent ZS Licence Valuations (Nominal \$s - not adjusted for inflation)

## Outlook/ Commentary

- For the fifth straight year, sardine numbers remained below the cut-off level where directed fishing for the species could again be allowed.
- There are some indications of stronger sardine reproduction and changes in the decadal trends in ocean temperatures that could eventually lead to improvements in West Coast sardine numbers.

## GROUNDFISH - Halibut

## Background to Valuation

| General |  |
| :---: | :---: |
| Licence Designation | L |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 342 |
| \# Communal Commercial Licences | 92 |
| Area Licencing? | No |
| Stacking? | No |
| Competitive or Quota Management? | Quota |
| Valuation Parameters |  |
| Licence | Per Foot |
| Quota | Per lb (dressed head) |
| Vessels | Yes |
| Amount of trading activity in category this year | Low |
| \# Transactions underlying valuation | ~ 10 |
| Confidence in current year valuations | Med |

## Current Valuation

Licence \& Quota Value at December 31, 2018

| Category | \# Licences | Value per ft/ lb quota (\$) | Total Value (\$) |
| :---: | :---: | :---: | :---: |
| L Licences | 342 | \$ 800 | 11,067,120 |
| Quota | 5,295,947 | \$ 92 | 487,227,120 |
| Total Value |  |  | 498,294,240 |

## Valuation Comments

- Average licence value based on $\$ 800$ per foot.
- Price on halibut quota ranged from $\$ 84 / \mathrm{lb}$ - $\$ 95 / \mathrm{lb}$.
- Halibut quota prices have stabilized from highs of $\$ 130 / \mathrm{lb}$ in early 2017.
- Anticipated quota reductions may have affected values.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. Fleet vessel valuation is imprecise and uses imprecise incomplete DFO datasets. The number of licenced vessels is drawn from two data sources:

- DFO's Detailed Vessel Info Database
- DFO's Pacific Region Commercial Fishing Licences Database

| Halibut | \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :--- | :--- | :--- | :--- | :--- |
| Classic Style | 252 | 147,000 | $37,044,000$ |
| Modern Style | 89 | 268,000 | $23,852,000$ |
| Total | 341 | 178,581 | $60,896,000$ |

## Licencing Trends

Recent L Licence and Halibut Quota Valuations (Nominal \$s - not adjusted for inflation)

Recent Halibut Quota Lease Rates (\$ per lb)
 / Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Aggregate Value of L Licences and Halibut Quota (\$ millions by year)

L Licence Category by Category

## Outlook/ Commentary

- Industry experts indicate that a "ceiling" was hit in 2017 and subsequently the price of halibut quota and licences have fallen.
- Lease rates as low as $\$ 5 / \mathrm{lb}$ have been seen in 2018 although rates seem to be stabilizing at $\$ 7 / \mathrm{lb}$.

## GROUNDFISH - Sablefish

## Background to Valuation

| General |  |
| :---: | :---: |
| Licence Designation | K |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 41 |
| \# Communal Commercial Licences | 7 |
| Area Licencing? | No |

| Competitive or Quota Management? | Quota |
| Valuation Parameters |  |
| Licence | Per Foot |
| Quota | Perlb (j-cut) |
| Vessels | Yes |
| Amount of trading activity in category this year | Low |
| \# Transactions underlying valuation | $=3$ (quota) |
| Confidence in current year valuations | Low |

## Current Valuation

Licence \& Quota Value at December 31, 2018

| Category | \# Licences | Value/ Licence (\$) | Total Value (\$) |
| :---: | :---: | :---: | :---: |
| K Licence | 41 | 250,000 | 10,250,000 |
| Quota (j-cut) ${ }^{1}$ | 3,269,878 | \$ 82 | 268,129,972 |
| Total Value |  |  | 278,379,972 |

## Valuation Comments

- No licence transactions were uncovered for this year's valuation.
- The range on sablefish quota was $\$ 80 / \mathrm{lb}$ - $\$ 95 / \mathrm{lb}$ j-cut, or $\$ 55 / \mathrm{lb}$ - $\$ 64 / \mathrm{lb}$ round.
- Some industry experts believe that, prices will hold steady for the next year.

[^0]/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. Fleet vessel valuation is imprecise and uses imprecise incomplete DFO datasets. The number of licenced vessels is drawn from two data sources:

- DFO's Detailed Vessel Info Database
- DFO's Pacific Region Commercial Fishing Licences Database

| Sablefish | \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :--- | :--- | :--- | :--- | :--- |
| Classic Style | 28 | 200,000 | $5,600,000$ |
| Modern Style | 12 | 650,000 | $7,800,000$ |
| Total | 40 | 335,000 | $13,400,000$ |

## Licencing \& Quota Trends

Recent K Licence and Sablefish Quota Valuations (Nominal \$s - not adjusted for inflation)

Recent Sablefish Quota Lease Rates

Aggregate Value of K Licences and Sablefish Quota (\$ millions by year) ${ }^{2}$

K Licence Counts by Category

## Outlook/ Commentary

- Sablefish prices are holding steady after they briefly rose in early 2018 and then stabilized near the end of the season.
- There is not a lot of movement on K licences and they are rarely available on the market.
- The landed fish price of sablefish continues to be strong (comparable to halibut), but the costs associated with the fishery are higher. Further, there are fewer K licences, limiting the number of vessels that can actively fish.

[^1]/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## GROUNDFISH - Groundfish Trawl

## Background to Valuation

| General |  |
| :---: | :---: |
| Licence Designation | T |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 135 |
| \# Communal Commercial Licences | 4 |
| Area Licencing? | No |
| Stacking? | No |
| Competitive or Quota Management? | Quota |
| Valuation Parameters |  |
| Licence | Per Foot |
| Quota | Per lb |
| Vessels | Yes |
| Amount of trading activity in category this year | Low |
| \# Transactions underlying valuation | $\approx 1$ Licence, 3 quota |
| Confidence in current year valuations | Med |

## Current Valuation

Licence \& Quota Value at December 31, 2018

| Category | \# Licences/ lbs Quota, | Value per Foot/ lbs quota | Average Licence <br> (\$) | Total Value (\$) |
| :---: | :---: | :---: | :---: | :---: |
| T Licence | 135 | 800 | 48,800 | 6,588,000 |
| Uncut Quota | 106,224,735 | \$1.85 |  | 196,515,760 |
| Hake Outside* | 343,602,716 | \$0.25 |  | 85,900,679 |
| Total Value* | 449,827,451 |  |  | 289,004,439 |

## Valuation Comments

- Average licence value based on \$800 per foot and 61' vessel = \$48,800.
- The specific holding caps assigned to each T Licence greatly affect their value.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values
- Smaller T licences in the \$40,000 - \$50,000 range are often purchased just to hold quota where larger ones in the $\$ 200,000$ - $\$ 400,000$ range are sought after for larger holding caps and sold at a premium.
- The top 3 or 4 boats with large caps are in the millions value wise and are hard to evaluate as there are no new licences being created and they hold a large portion of the TAC.
- Only about 40 of the 132 licenced vessels are ever out on the water fishing.
- Many of the transactions on larger quantities of quota are based on \% of the TAC rather than a $\$ / L B$ rate. Many intricacies to pricing especially in the Hake fishery as quotas fluctuate widely.

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated and adjusted and duplicate vessel counts were identified as vessels often stack multiple licences. Fleet vessel valuation is imprecise and uses incomplete DFO datasets. The number of licenced vessels is drawn from DFO's Pacific Region Commercial Fishing Licences Database

| Trawl | \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :--- | :--- | ---: | ---: | ---: |
| Classic Style | 98 | 440,000 | $43,022,222$ |
| Modern Style | 34 | $1,375,000$ | $47,055,556$ |
| Total | 132 | 682,407 | $90,077,778$ |

## Licencing \& Quota Trends

Recent T Licence and Trawl Quota Valuations (Nominal \$s - not adjusted for inflation)

Recent Trawl Quota Lease Rates (\$ per lb)

Aggregate Value of T Licences and Trawl Quota (\$ millions by year)

T Licence Counts by Category

## Outlook/ Commentary

- Frozen at sea trawlers are continuing to drive prices down on Hake due to larger margins.
- Quota for uncut should hold steady through next year.
- Only about $1 / 2$ of the available TAC of Hake is caught and can expect an increase in the Frozen at Sea (FAS) fleet in coming years.
- Vessels less than 100 feet without significant holding caps are for the most part used for Tuna Fishing.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## GROUNDFISH - Rockfish Hook \& Line

## Background to Valuation

| General |  |
| :--- | ---: |
| Licence Designation | ZN |
| Nature of Licence | Party-based |
| \# Commercial Licences | 211 |
| \# Communal Commercial Licences | 50 |
| Area Licencing? | Yes |
| Stacking? | No |
| Competitive or Quota Management? |  |
|  | Per Licence |
|  | Valuation Parameters |
| Licence | Yes |
| Quota | Low |
| Vessels | $\approx 4$ |
| Amount of trading activity in category this year | Low |
| \# Transactions underlying valuation |  |
| Confidence in current year valuations |  |

## Current Valuation

Licence \& Quota Value at December 31, 2018

| Category | \# Licences | Value/ Licence (\$) | Total Value (\$) |
| :---: | :---: | :---: | :---: |
| ZN Inside | 53 | 40,000 | 2,120,000 |
| ZN Outside | 158 | 280,000 | 44,240,000 |
| ZN Total | 211 | 219,716 | 46,360,000 |

## Valuation Comments

- Very few ZN licence transactions were uncovered as not many typically change hands.
- The outside ZN in particular does not often move as it is coveted for its bycatch quota.
- The quota for the Rockfish species is allocated under the Groundfish Quota although quota can be transferred between Hook and Line and Trawl.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. The data set for 2018 excluded the counts for duplicate vessels that often stack multiple licences. Fleet vessel valuation is imprecise and uses imprecise, incomplete DFO datasets. The number of licenced vessels is drawn from DFO's Pacific Region Commercial Fishing Licences Database.

| ZN Outside | \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :---: | :---: | :---: | :---: |
| Classic Style | 93 | 136,000 | 12,585,348 |
| Modern Style | 49 | 286,000 | 14,145,753 |
| Total | 142 | 188,247 | 26,731,101 |
| ZN Inside | \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| Classic Style | 5 | 75,000 | 391,011 |
| Modern Style | 3 | 196,000 | 577,684 |
| Total | 8 | 118,700 | 968,695 |

## Licencing Trends

Recent ZN Licence Valuations (Nominal \$s - not adjusted for inflation)

Recent ZN Lease Rates (\$)

Aggregate Value of ZN Licences (\$ millions by year)

## ZN Licence Counts by Category

## Outlook/ Commentary

- Due to stock concerns for some rockfish species, ZN outside licences (and their bycatch) are highly coveted and basically a requirement to fish halibut.
- No licence holders let the ZN outside licences go as they need them for bycatch in their other fisheries.
- This licence is particularly important in the halibut fishery - and for long lining.
- Demand is very high for these licences as it was in the mid 2000s. Fishers require these licences and associated quota (through the Groundfish Quota) to be able to succeed in the halibut fishery. However, not many of these licences come up as most holders require them for their own fishery.

## GROUNDFISH - Lingcod and Dogfish

## Background to Valuation

Lingcod and dogfish are managed under an IVQ program where the permanent and temporary trades of quota is permitted. These fisheries do not have dedicated licence categories; however, they can be executed under the authority of any vessel-based licence. This makes these fisheries difficult to estimate for valuation purposes.

## Lingcod

About 4 transactions were uncovered for this report with values averaging around $\$ 15$ per lb.

Quota Value at December 31, 2018

| Category | Lbs of quota | Value/ Lb | Total Value |
| :---: | :---: | :---: | :---: |
| Lingcod Quota (H\&L) | $2,484,768$ | $\$ 15$ | $\$ 37,271,520$ |

- Lingcod leases in the hook and line fishery were in the 30-40 cents per lb range.
- The difference in lease rates can be attributed to the difference in cost of catching lingcod in different areas.
- The WCVI is the most efficient lingcod harvest area for the hook \& line fleet, while the north coast poses logistical challenges.

## Dogfish

No transactions were uncovered for this report but values from the previous year were ranging between \$0.11-\$ 0.12 and the prices have not changed significantly.

Quota Value at December 31, 2018

| Category | L.bs of quota | Value/ Lb | Total Value |
| :---: | :---: | :---: | :---: | :---: |
| Dogfish Quota (H\&L) | $18,889,012$ | $\$ 0.12$ | $\$ 2,266,681$ |

The dogfish fishery has not been very active and there was virtually no lease value again this year. The dogfish fishery struggles with challenging economics including logistics of getting product to market as well as low demand.

- The east coast of Canada holds a competitive advantage in this fishery because of the higher volume and proximity to market.
- No processors in BC that have secured markets overseas for the full utilization required to compete.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## SHELLFISH - Prawn by Trap

## Background to Valuation

| General |  |
| :--- | ---: |
| Licence Designation | W |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 187 |
| \# Communal Commercial Licences | No |

| Confidence in current year valuations |  |

## Current Valuation

Licence \& Quota Value at December 31, 2018

| Category | \# Licences | Value/ Foot (\$) | Total Value (\$) |
| :---: | :---: | :---: | :---: |
| W Licences | 187 | 21,786 | $149,513,179$ |

## Valuation Comments

- Average licence value based on \$21,786 per foot and 36.7' vessel = \$799,546.
- There is a wide range in values in W licence transactions because they often include vessels and fishing gear.
- Short licences trade for higher-per-foot values than longer ones, though longer licences still have a higher overall value.
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

| Licence Length (feet) |  | Value |
| :--- | :--- | :--- |
| 30 | $\$ 700,000$ | Value per foot |
| 42 | $\$ 850,000$ | $\$ 23,333$ |

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. The data set for 2018 excluded the counts for duplicate vessels that often stack multiple licences. Fleet vessel valuation is imprecise and uses incomplete datasets. The number of licenced vessels is drawn from DFO's Pacific Region Commercial Fishing Licences Database.

| Prawn | \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :---: | :---: | :---: | :---: |
| Classic Style | 112 | 162,000 | 18,144,000 |
| Modern Style | 73 | 325,000 | 23,725,000 |
| Total | 185 | 226,319 | 41,869,000 |

W Licence Country by Category

## Outlook/ Commentary

Prices for prawns were strong, especially for the fresh market. Licence value is expected to go up again this coming year as stock assessment and landings for 2018 improved from previous seasons.

## SHELLFISH - Crab

## Background to Valuation

| General |  |
| :--- | ---: |
| Licence Designation | R |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 189 |
| \# Communal Commercial Licences | 32 |
| Area Licencing? | Vareas |
| Stacking? | No |
| Competitive or Quota Management? | Competitive |
|  | Per Foot |
| Licence | n/a |
| Quota | Yes |
| Vessels | Low-Med |
| Amount of trading activity in category this year | $\approx 6$ |
| \# Transactions underlying valuation | Med |

## Current Valuation

Licence Value at December 31, 2018

| Category | \# Licences | Value/ Foot (\$) | Total Value (\$) |
| :---: | :---: | :---: | :---: |
| R Licences | 189 | 25,000 | $146,475,000^{3}$ |

## Valuation Comments

- Average licence value based on \$25,000 per foot and 31’ vessel = \$775000.
- Licences vary by length with longer licences holding a higher total value but a lower value per foot.
- The transactions researched ranged from $\$ 20,000 / \mathrm{ft}$ - $\$ 40,000 / \mathrm{ft}$.

[^2]- Crab licences lease in the $\$ 30,000$ to $\$ 40,000$ range; however, due to restrictions associated with vessel-based licences, they can be difficult to lease in general.
- Values range widely by area for crab licences:
» Areas $\mathrm{A}, \mathrm{E}$, and I are the highest value
» Areas $B, G$, and $H$ are middle value
» Area J is lowest value

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. The data set for 2018 excluded the counts for duplicate vessels that often stack multiple licences. Fleet vessel valuation is imprecise and uses incomplete DFO datasets. The number of licenced vessels is drawn from DFO's Pacific Region Commercial Fishing Licences Database.

| Crab | \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :--- | :--- | :--- | :--- | :--- |
| Classic Style | 87 | 144,000 | $12,528,000$ |
| Modern Style | 101 | 350,000 | $35,350,000$ |
| Total | 188 | 254,670 | $47,878,000$ |

## Licencing Trends

Recent R Licence Valuations (Nominal \$s - not adjusted for inflation)

## Aggregate Value of R Licences (\$ millions by year)

R Licence Counts by Category

## Outlook/ Commentary

- R licences will remain difficult to come by as most people who own them are actively fishing them and reluctant to sell at current market value.
- Pricing is going up due to increased speculation.
- Small variations in length can allow vessels to stack more pots making licences vary in value.
- Some areas are more valuable than others and are reflected in the price.

## SHELLFISH - Shrimp by Trawl

## Background to Valuation

| General |  |
| :--- | ---: |
| Licence Designation | S |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 207 |
| \# Communal Commercial Licences | 26 |
| Area Licencing? | No |
| Stacking? | No |
| Competitive or Quota Management? | Competitive |
|  |  |
| Licence | Per Foot |
| Quota | $\mathrm{n} / \mathrm{a}$ |
| Vessels | Yes |
| Amount of trading activity in category this year | Med |
| \# Transactions underlying valuation | ~7 |
| Confidence in current year valuations | Med |

## Current Valuation

Licence Value at December 31, 2018

| Category | \# Licences | Value/ Foot (\$) | Total Value (\$) |
| :---: | :---: | :---: | :---: |
| S Licences | 207 | 1,000 | $8,642,250$ |

## Valuation Comments

- An average licence value based on a $\$ 1,000$ per foot valuation and a $41^{\prime} 9$ average vessel length is $\$ 41,900$.
- For vessels over $40^{\prime}$ selling in the $\$ 60 \mathrm{~K}$ range, for vessels under $40^{\prime}$ go for around $\$ 28 \mathrm{~K}$.
- The value per foot remains unchanged from last years valuation, but the market capitalization has decreased again due to available licences.
- The lease market for shrimp licences is still very weak.

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. The data set for 2018 excluded the counts for duplicate vessels that often stack multiple licences. Fleet vessel valuation is imprecise and uses imprecise, incomplete DFO datasets. The number of licenced vessels is drawn from DFO's Pacific Region Commercial Fishing Licences Database.

| \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |  |
| :--- | :--- | :--- | :--- | :--- |
| Classic Style | 130 | 83,000 | $10,790,000$ |
| Modern Style | 55 | 167,000 | $9,185,000$ |
| Total | 185 | 107,973 | $19,975,000$ |

## Licencing Trends

Recent S Licence Valuations (Nominal \$s - not adjusted for inflation)

Aggregate Value of S Licences (\$ millions by year)

## S Licence Counts by Category

## Outlook/ Commentary

- Industry experts have indicated they believe that shrimp licences valuations are going to remain near current levels for the foreseeable future, citing disputes between DFO and industry on the management of the fishery.
- More surveys and increased TAC may be possible.

## SHELLFISH - Geoduck

## Background to Valuation

| General |  |
| :---: | :---: |
| Licence Designation | G |
| Nature of Licence | Vessel-based |
| \# Commercial Licences | 50 |
| \# Communal Commercial Licences | 5 |
| Area Licencing? | 3 areas |
| Stacking? | Yes |
| Competitive or Quota Management? | quota |
| Valuation Parameters |  |
| Licence | Per Licence |
| Quota | Per Block |
| Vessels | Yes |
| Amount of trading activity in category this year | Low (Licences w/ 10 blocks) |
| Med (Single quota blocks) | $\approx 7$ |
| \# Transactions underlying valuation | $\approx 1$ |
| Confidence in current year valuations | Low |

## Current Valuation

Licence \& Quota Value at December 31, 2018

| Category | \# Licences | Value/ Licence (\$) | Total Value (\$) |
| :--- | :--- | :--- | :--- | :--- |
| G Licences (tab) | 50 | 250,000 | $12,500,000$ |
| Quota Blocks | 500 | 750,000 | $375,000,000$ |
| Total Value |  |  | $387,500,000$ |

## Valuation Comments

- G tabs (licence only) have a \$250,000 average valuation.
- Quota block (1/10) values range from \$700,000-\$800,000.
- By the contractors estimate, a G licence with 10 blocks of quota would have an approximate value of $\$ 7.75 \mathrm{M}$ (\$250,000 licence plus $\$ 7.50 \mathrm{M}$ for 10 quota blocks).
/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. The data set for 2018 excluded the counts for duplicate vessels that often stack multiple licences. Fleet vessel valuation is imprecise and uses incomplete DFO datasets. The number of licenced vessels is drawn from DFO's Pacific Region Commercial Fishing Licences Database.

| Geoduck | \# Vessels | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :--- | :--- | :--- | :--- | :--- |
| Classic Style | 23 | 108,000 | $2,527,200$ |

## Recent G Licence Lease Rates

*The value trend for geoduck leases is shown below; the values shown are for a full G licence (including 10 quota blocks). The lease for a single quota block would be $1 / 10^{\text {th }}$ of the values shown.

Aggregate Value of G Licences (\$ millions by year)

G Licence Counts by Category

## Outlook/ Commentary

- The geoduck fishery's sustained high level of profitability has attracted large amounts of investment, but appeared to slow in 2018 due to lack of available licences or quota.
- Demand remains high for licences and quota access, but the market is very tight as not many people are looking to sell.
- Likely that the price of quota has peaked and could start to stabilize in 2019.
- Leasing average value is estimated at \$11/LB although \$17/LB rates were recorded in the 2018 season.

## SHELLFISH - Sea Cucumber

## Background to Valuation

| General |  |

Recent ZD Licence Lease Rates

/ Analysis of Commercial Fishing Licence, Quota, and Vessel Values

## Aggregate Value of ZD Licences (\$ millions by year)

## ZD Licence Counts by Category

## Outlook/ Commentary

- The market for sea cucumber licences is notoriously tight and there are lots of people looking to buy but not many licence holders looking to sell.
- Some industry experts see a disconnect between the price of the licence and the profitability of the fishery, still appears to be driven by speculative overseas investors.
- Demand remains strong for access to this fishery and a ZD licence compliments all the other dive fisheries well and therefore retains its value for the dive fleet.

## SHELLFISH - Red Sea Urchin

## Background to Valuation

| General |  |
| :--- | ---: |
| Licence Designation | ZC |
| Nature of Licence | Party-Based |
| \# Commercial Licences | 80 |
| \# Communal Commercial Licences | Valuation Parameters |
| Area Licencing? | 2 Areas |
| Stacking? | Yes |
| Competitive or Quota Management? | Quota |
|  | Per Licence |
| Licence | n/a |
| Quota | Yes |
| Vessels | Low |
| Amount of trading activity in category this year | $\approx 4$ |

| Confidence in current year valuations |  |

## Current Valuation

Licence \& Quota Value at December 31, 2018

| \# Licences | Value/ Licence (\$) | Total Value (\$) |  |
| :--- | :---: | :---: | :---: |
| ZC Licences | 80 | 300,000 | $24,000,000$ |

## Valuation Comments

- Transactions for ZC licences uncovered were much higher than 2016 and 2017 values.
- Transactions varied widely from a low of $\$ 240,000$ at the beginning of the year, to $\$ 350,000$ at the end of the year.

## Vessel Value

Aggregate fleet value is arrived at by using past data for average vessel value as a baseline; however, the number of vessels has been updated. The data set for 2018 excluded the counts for duplicate vessels that often stack multiple licences. Fleet vessel valuation is imprecise and uses incomplete DFO datasets. The number of licenced vessels is drawn from DFO's Pacific Region Commercial Fishing Licences Database.

| \# Ves Sea Urchin |  | Avg. Vessel Value (\$) | Aggregate Value (\$) |
| :--- | :--- | :--- | :--- | :--- |
| Classic Style | 13 | 81,000 | $1,036,800$ |
| Modern Style | 19 | 200,000 | $3,840,000$ |
| Total | 32 | 152,400 | $4,876,800$ |

## Licencing Trends

Recent ZC Licence Valuations (Nominal \$s - not adjusted for inflation)

Recent ZC Licence Lease Rates

## Aggregate Value of ZC Licences (\$ millions by year)

ZC Licence Counts by Category

## Outlook/ Commentary

- There seems to be a disconnect with the profitability of this fishery and current licence values.
- Few licences are being placed on the market resulting in upward price pressure in this licence category.
- Speculative overseas markets driving prices upwards.

## SHELLFISH - Green Sea Urchin

## Background to Valuation

| General |  |
| :--- | ---: |
