

CONTENTS

SUMMARY.....	1
SOMMAIRE	1
• Introduction to the volcanic- and sediment-hosted base-metal ore systems synthesis volume, with a summary of findings <i>J.M. Peter and M.G. Gadd</i>	3
• Genesis of hyper-enriched black shale Ni-Mo-Zn-Pt-Pd-Re mineralization in the northern Canadian Cordillera <i>M.G. Gadd, J.M. Peter, and D. Layton-Matthews</i>	15
• Carbonate-hosted deposits (Mississippi Valley-type, magnesite, and REE-F-Ba) of the southeastern Canadian Cordillera: a review and isotopic data comparison <i>S. Paradis, G.J. Simandl, N. Drage, R.J. D'Souza, D.J. Kontak, and Z. Waller</i>	39
• Organic geochemistry and petrology of sedimentary exhalative Pb-Zn and polymetallic hyper-enriched black shale deposits in the Selwyn Basin, Yukon <i>J.M. Peter, M.G. Gadd, C. Jiang, and J. Reyes</i>	89
• Paleoredox and lithogeochemical indicators of the environment of formation and genesis of the Monster River hyper-enriched black shale showing, Yukon <i>M.G. Gadd, J.M. Peter, T.A. Fraser, and D. Layton-Matthews</i>	113
• Distribution of trace elements in pyrite from carbonate-hosted sulfide deposits of southern British Columbia <i>S. Paradis, S.E. Jackson, D. Petts, G.J. Simandl, R.J. D'Souza, and T.S. Hamilton</i>	129
• Rare-earth element content of carbonate minerals in sediment-hosted Pb-Zn deposits, southern Canadian Rocky Mountains <i>G.J. Simandl, R.J. D'Souza, S. Paradis, and J. Spence</i>	165
• Petrographic, fluid-inclusion, and secondary ion mass spectrometry stable isotopic (O, S) study of Mississippi Valley-type mineralization in British Columbia and Alberta <i>D.J. Kontak, S. Paradis, Z. Waller, and M. Fayek</i>	203
• Indicator minerals in fine-fraction till heavy-mineral concentrates determined by automated mineral analysis: examples from two Canadian polymetallic base-metal deposits <i>H.D. Lougheed, M.B. McClenaghan, D. Layton-Matthews, and M.I. Leybourne</i>	247
• Geochemical evidence for a magmatic contribution to the metal budget of the Windy Craggy Cu-Co(±Zn) volcanogenic massive-sulfide deposit, northwestern British Columbia <i>M.I. Leybourne, J.M. Peter, M.A. Schmidt, D. Layton-Matthews, A. Voinot, and L. Mathieu</i>	287
• Three-dimensional magnetotelluric modelling of the Lalor volcanogenic massive-sulfide deposit, Manitoba <i>S.M. Ansari, E.M. Schetselaar, and J.A. Craven</i>	313
• Integrated analyses of density, P-wave velocity, lithogeochemistry, and mineralogy to investigate effects of hydrothermal alteration and metamorphism on seismic reflectivity: a summary of results from the Lalor volcanogenic massive-sulfide deposit, Snow Lake, Manitoba <i>E.M. Schetselaar, G. Bellefleur, and P. Hunt</i>	329
