-     - Amount too small to be expressed

For further information, order the April 1978 issue of Preliminary Unemployment Insurance Statistics (73-001-p) or Statistical Report on the Operation of the Unemployment Insurance Act (73-001, Quarterly, $\$ 1.05 / \$ 4.20$ ), or contact George Fincham (613-992-7461), Labour Division, Statistics Canada, Ottawa K1A OV1.

Preliminary Report on Unemployment Insurance Statistics, April 1978 - Advance Information
The number of persons drawing unemployment insurance benefits for the week ending April 15 totalled $948,000^{*}$, a drop of $4 \%$ from the previous month but 9\% more than in April 1977. Seven percent of the beneficiaries in the latest month reported some earnings from employment.

Unemployment insurance benefits paid to claimants in April amounted to $\$ 436^{*}$ million, down $7 \%$ from March but 23\% greater than in April 1977. For the first four months of 1978 , payments reached $\$ 1,882$ million compared with $\$ 1,559$ million in the same period of 1977, a rise of $21 \%$. The average weekly benefit advanced $9 \%$ to $\$ 109.97$ based on the year-to-date payments.

Some 217,000 claims were received in April from persons seeking benefit, an increase of 5\% from March and up 9\% from a year earlier. The claim load for the first four months of 1978 was $7 \%$ more than for the January-Apri! 1977. period - 935,000 compared to 878,000.
*The count of beneficiaries cannot be related to the benefit payments made during a month. Whereas the latter figure covers all benefit payments made during the month, the count of beneficiaries represents the number of persons receiving benefit for a specific week each month.

Domestic Washing Machines and Clothes Dryers, May 1978 - Advance Information
Canadian manufacturers' domestic sales of automatic washing machines were 27,305 units in May, down from 27,854 in May 1977. Conventional washing machine sales were 5,364 units compared to 5,451 (revised) a year earlier. Canadian sales of electric clothes dryers rose to 21,913 units from 20,321 in May 1977.

For further information, order the May issue of Domestic Washing Machines and Clothes Dryers (43002, 15థ/\$1.50), or contact Mr. Raj Sehdev (613-9920388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Domestlc Refrlgerators and Freezers, May 1978 Advance Information
Canadiañ manufacturers' domestic sales of refrigerators rose to 42,396 units in May from 39,009 a year earlier, and month-end stocks totalled 106,119 units, down from 112,756. Domestic sales of home and farm freezers increased to 23,637 . units from 22,932, and month-end stocks increased to 68,226 units from 57,818.

For further information, order the May issue of Domestic Refrigerators and Freezers (43-001, $15 \$ / \$ 1.50$ ), or contact Mr. Raj Sehdev (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

For further information, order Construction Price Statistics, Monthly Bulletin (62-007, $\$ 4$ per year), or contäct Mrs. G. A. John (613-994-5807), Prices Division, Statistics Canada, Ottawa K1A OV5.

Union Wage Rate Indexes including selected pay supplements are now available for May 1978.
Coal and Coke Statistics, March 1978 - Advance Information
March coal production decreased $5.1 \%$ to $2,850,139$ tons ( 2585603 metric tonnes) from 3,005,227 tons (2 726296 metric tonnes) a year earlier. Imports decreased to 11,207 tons ( 10167 metric tonnes) from 34,349 tons (31 161 metric tonnes). Industrial consumers used 2,825,178 tons ( 2562958 metric tonnes) of coal, up 432,723 tons ( 392560 metric tonnes) from March 1977 and 501,856 tons ( 455276 metric tonnes) of coke, down 20,697 tons ( 18776 metric tonnes).

For further information, order the March issue of Coal and Coke Statistics (45-002, 40¢/\$4), or contact David Madsen (613-992-4021), Energy and Minerals Section, Statistics Canada, Ottawa K1A 0T6.

Ollseeds, May 1978 - Advance Information Crushings of oilseeds for May, with oil produced and meal produced (all figures in metric tonnes):

- Soybeans: 68503.8 (11 502.8; 53 107.3).
- Rapeseed: 56400.3 (23 463.6; 31 269.5).

For further information, order Oilseeds Review (22006, \$1.05/\$4.20), or contact Mr. J.M. Huard (613-9949956), Agriculture Division, Statistics Canada, Ottawa K1A $0 L 7$.

Income Distributions by Size in Canada, 1975 (13-207) Errata
An errata pertaining to the 65-69 age of head category in tables 6, 8, 29, 39, 41, 78 and 79 is now available from the Data Dissemination Unit (613-992-4742), Consumer Income and Expenditure Division, Statistics Canada, Ottawa K1A OT6.

Provincial Government Employment, January-March 1978 - Advance Information
The general government services in Canada's provincíal and territorial governments (excluding British Columbia) reported gross payrolls for the first quarter of 1978 of $\$ 1,274.0$ million, an increase of $0.1 \%$ over the $\$ 1,273.0$ million jreported for the previous quarter of Octoper-December 1977. The number of employees reported for the last pay period in March 1978 was 351,496, an increase of $0.7 \%$ from the 349,220 reported for the same period in December 1977.

For further information, order the first quarter issue of Provincial Government Employment (72-007, $\$ 1.05 / \$ 4.20$ ), or contact Mrs. M.C. Roberts (613-9950676), Public Finance Division, Statistics Canada, Ottawa K1A 0T6.

## Travel Between Canada and Other Countries, May

 1978 - Advance InformationPreliminary statistics for May show that 2.6 million United States visitors entered Canada, down 4.9\% from May 1977. Canadian residents returning from the U.S. numbered 3.1 million, a decrease of $6.8 \%$ from May 1977. Visitors entering Canada from countries other than the U.S. totalled 145,700 , up $15.5 \%$, while Canadian travellers returning from these countries declined by $1.8 \%$ to 121,800 .

On a year-to-date basis, 8.6 million U.S. visitors entered Canada, a decline of 3.2\% from January-May 1977, while the number of Canadians returning from the U.S. decreased by $2.2 \%$ to 13.7 million. Visitors from other countries increased $9.8 \%$ to 358,900 , while Canadian residents returning from these countries totalled 834,800, an increase of $4.5 \%$ over the first five months of 1977.

For further information, order the May issue of International Travel - Advance Information (66-002, $15 ¢ / \$ 1.50$ ), or contact Mr. Mike Valiquette (613-9950847), International Travel Section, Statistics Canada, Ottawa K1A 0T6.

Production of Eggs and Poultry, May 1978 - Advance Information
Canadian egg production increased $0.8 \%$ to 40.2 million dozen in May from 39.9 million dozen a year earlier. The average number of layers was down 1.9\% to 23.6 million from 24.1 million while the number of eggs per 100 layers increased $2.8 \%$ to 2,046 from 1,991. Farm price of eggs sold for market decreased by $7.6 \%$ to 61.84 a dozen from 66.9¢ a dozen in May 1977.
For further information, order the May issue of Production of Eggs and Poultry (23-003, 30¢/\$3), or contact J.H. Dickson (613-994-9964), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Juvenile Court Statistics, 1974-1977 - Advance Information
Preliminary figures on the number of charges laid under the Juvenile Delinquents Act are available for certain provinces. For details contact Karen Maser (613-995-0855), Justice Statistics Division, Statistics Canada, Ottawa K1A 0T6.

Steel Ingots, Week Ended July 1, 1978 - Advance Information
Preliminary steel ingots production for the week ended July 1 was 299,894 short tons (272 059 t), an increase of $0.2 \%$ from the preceding week's total of 299,197 short tons ( 271427 t ). The comparable week's total in 1977 was a revised 260,146 short tons ( 236000 t). The index of production based on the average weekly output during 1967 of 183,227 short tons (166 211 t) equalling 100 was 163.7 in the current week, 163.3 a week earlier and 142.0 (revised) one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

[^0]Railway Carloadings, 7 Days Ended June 21, 1978 Published Only in the Daily
The volume of revenue freight loaded by railways in Canada totalled 3.9 million $\mathbf{t}(4.3$ million short tons) in the above-noted week, down $18.9 \%$ from the corresponding 1977 period. The prolonged major mining strike in Quebec and Newfoundland continued to influence total loadings and was the primary reason for a $34.8 \%$ drop in eastern division traffic. Movements originating west of the Lakehead were also down in the latest seven days, declining $0.7 \%$.

Container-trailer (piggyback) shipments increased $2.5 \%$ over-all. In the West a gain of $10.5 \%$ was recorded, while in the East a decrease of $0.2 \%$ occurred.
From January 1 through June 21, 1978, rail freight loadings aggregated 94.2 million t ( 103.9 million short
tons), a decline of $9.5 \%$ from 1977. Cumulative container-trailer (piggyback) traffic was up 4.7\%.

[^1]Industry Selling Price Index: Manufacturing (1971=100), May 1978 - Advance Information The Industry Selling Price Index for Manufacturing rose $0.4 \%$ to 186.3 in May from its revised April level of 185.6. The index was $7.3 \%$ higher than in May 1977 when it stood at 173.7. The major groups having the most effect on the total index in May were food and beverage industries, paper and allied industries and primary metal industries.
The food and beverage group index rose $2.3 \%$, due mainly to price increases of $9.2 \%$ for slaughtering and meat processors. The paper and allied industries index registered a decrease of $1.2 \%$, attributable to a decline of $1.7 \%$ for pulp and paper mills. The primary metals group index declined by $0.7 \%$, largely because of a $3.0 \%$ decrease for smelting and refining; iron and steel mills showed a partly-offsetting increase of $0.7 \%$.

Railway Operating Statistics, April 1978 - Advance Information
The six major Canadian railways reported total net income of $\$ 22.1$ million in April, an increase of $1.1 \%$ over April 1977. Total operating revenues increased $6.1 \%$ to $\$ 301.9$ million while operating expenses increased $6.5 \%$ to $\$ 279.7$ million.

Freight ton-miles increased $1.2 \%$ in the latest month, freight train-miles 1.9\% and freight car-miles 1.6\%. Passenger-miles were down 16.7\%.

For the first four months of 1978, operating revenues of the six railways were $8.0 \%$ higher than in 1977 while expenses increased $7.1 \%$. Net income rose $25.7 \%$ from the January-April 1977 period. Cumulative ton-miles were up $1.9 \%$ and passenger-miles increased $6.6 \%$.

For further information, order the April issue of Railway Operating Statistics (52-003, 30¢/\$3), or contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A $0 T 6$.

Farm Implement and Equipment Sales, January-May 1978 - Advance Information
Sales of farm implements and equipment (including repair parts) for January to May 1978 were valued at $\$ 469.8$ million, an increase of $17.9 \%$ over the JanuaryMay 1977 figure of $\$ 398.4$ million.
Repair parts for the latest period had a value of $\$ 68.4$ million compared with $\$ 62.1$ million in 1977.

For further information, order the May issue of Farm Implement and Equipment Sales (63-009, 15\$/\$1.50), or contact the Merchandisin'g and Services Division (613-996-9307), Statistics Canada, Ottawa K1A 0T6.

Farm Cash Receipts, January-May 1978
Preliminary estimates indicate that during the January-May period of 1978 farmers' total cash receipts from farming operations in all provinces except Newfoundland totalled $\$ 4,613.9$ million compared to $\$ 4,038.9$ million realized during the same period of 1977. These estimates include: cash receipts from the sale of farm products; Canadian Wheat Board participation payments on previous years' grain crops; cash advances on farm-stored grains in Western Canada; and deficiency payments made by the Agricultural Stabilization Board. No deduction is made
for the cost incurred by farmers in the production of the commodities sold.

For further information, order the May issue of Farm Cash Receipts (21-001, 30థ/\$3), or contact G. Andrusiak (613-994-9876), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Department Store Sales by Regions, May 1978
Department store sales totalled $\$ 603.0$ million in May, an increase of $11.7 \%$ from a year earlier. Sales were up in all regions of Canada.
Department store sales by regions for the latest month, with percentage changes from May 1977 in brackets:

- Ontario, $\$ 222.0$ million (12.7\%);
- Quebec, $\$ 119.9$ million (12.5\%);
- British Columbia, $\$ 91.4$ million ( $10.7 \%$ );
- Alberta, $\$ 80.1$ million ( $8.7 \%$ );
- Atlantic Provinces, $\$ 39.7$ million ( $14.1 \%$ )
- Manitoba, $\$ 33.9$ million (10.4\%);
- Saskatchewan; $\$ 15.9$ million ( $10.4 \%$ ).

For further information, order the May issue of Department Store Sales by Regions (63-004, \$1.50 a year).

Telephone Statistics, May 1978 - Advance Information
Canada's 13 major telephone systems reported revenues of $\$ 356.4$ million in May, up 18.5\% from May 1977. Operating expenses were $\$ 252.9$ million, an increase of $17.1 \%$. Net operating revenue at $\$ 103.5$ million showed an increase of $22.2 \%$ over May 1977. Telephone toll messages increased 11.9\% to 92.5 million.
For further information, order the May issue of Telephone Statistics (56-002, \$1.50 a year), or contact Patrick Crosby (613-996-9274), Transportation and Communications Division, Statistics Canada, Ottawa K1A $0 T 6$.

Stoves and Ranges, May 1978 - Advance Information Canadian manufacturers' domestic sales of electric stoves and ranges in May decreased by $8.2 \%$ to 34,448 units from 37,539 in May 1977. Closing inventory of these products fell $20.1 \%$ to 76,478 units from 95,719 a year earlier.

For further information, order the May issue of Stoves and Furnaces (41-005,30¢/\$3), or contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A $0 V 6$.

Raw Hides, Skins and Finished Leather, May 1978 Advance Information
In May, packers, dealers and tanners held 211,410 cattle hides, down from 238,953 a year earlier. Cattle hide receipts increased to 234,378 from 133,642 and wettings increased to 234,345 from 165,023.

For further information, order the May issue of Raw Hides, Skins and Finished Leather (33-001, 30¢/\$3), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Fruit and Vegetable Production, July 1978 - Advarice Information
Advance information is now available on the latest area, production and value for fruits and vegetables. For further information, order the July issue of Fruit and Vegetable Production (22-003, 40¢/\$3), or contact Karen Wardley (613-994-9994), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Canned and Frozen Fruits and Vegetables, May 1978 - Advance Information

Advance information from the Canned and Frozen Fruits and Vegetables report for the month of May is now available.
For further information, order the May issue of Canned and Frozen Fruits and Vegetables (32-011, $30 ¢ / \$ 3$ ), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Domestic and Foreign Control of Manufacturing Investment in Canada, 1976 to 1978
Manufacturing investment divided between Canadian and foreign control is now available for the years 1976 (actual), 1977 (preliminary) and 1978 (intentions). These data represent a further analysis of total manufacturing investment statistics released in Private and Public Investment in Canada, Outlook 1978 on March 15, 1978 in the Daily and on CANSIM (also catalogue 61-205).

The foreign control of manufacturing investment represents almost half of all capital expenditures in this sector. More specifically, capital expenditures by foreign controlled establishments are estimated at 48.6\% ( $\$ 3,059$ million) of the total program of $\$ 6,297$ million in 1978, 49.5\% ( $\$ 2,972$ million) of $\$ 6,007$ million in 1977 and $45.1 \%$ ( $\$ 2,465$ million) of $\$ 5,465$ million in 1976.

In year-over-year terms, for 1977 and 1978 there are sizeable fluctuations in the pattern of the increases of estimated capital expenditures between the Canadian and foreign controlled portions. In 1978, total manufacturing investment is projected to increase by $4.8 \%$ with the Canadian and foreign controlled increases expected to be $6.7 \%$ and $2.9 \%$, respectively. For 1977 , the total increase was $9.9 \%$ with Canadian controlled establishments having a $1.2 \%$ increase while foreign controlled establishments had a 20.6\% increase.

The data noted above are based on today's release of the Investment Statistics Service Bulletin Vol.4, No. 2 (catalogue 61-007, $\$ 2.80$ a year, available from Publications Distribution, Statistics Canada, Ottawa K1A 0T6). This bulletin contains for manufacturing, at the Canada level, capital and repair expenditures by country of control (United States, other foreign and Canada) for the 20 major industry groups and at the provincial level, breakdowns by country of control for total manufacturing only. The tabulations in this bulletin were prepared jointly by the Construction

Division and the Financial Flows and Multinational Enterprises Division of Statistics Canada. Enquiries relating to the bulletin should be directed to Mr. Duncan Lusick (613-994-9546), Construction Division, Statistics Canada, Ottawa K1A OT6.
(see table on next page)
Trusteed Pension Funds, First Quarter 1978 - Advance Information
The book value of total assets held by trusteed pension funds in Canada reached an estimated $\$ 30.9$ billion at March 31, 1978, an increase of $17.5 \%$ over the $\$ 26.3$ billion held at the end of the first quarter of 1977.

For further information, order the first quarter issue of Quarterly Estimates of Trusteed Pension Funds (74001, 35\$/\$1.40), or contact Mr. Earl Hanes (613-9922776), Pensions Section, Labour Division, Statistics Canada, Ottawa K1A OV2.

Industrial Chemicals, May 1978 - Advance Information
Canadian manufacturers shipped $70,936,228$ pounds ( 32176131 kg ) of polyethylene-type synthetic resins in May compared to $61,709,526$ pounds ( 27990970 kg ) in May 1977.

For further information, order the May issue of Specified Chemicals (46-002, 15\$/\$1.50), or contact Mr. J. Dornan (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Coal and Coke Statistics, 1976-Advance Information
Coal production increased $0.9 \%$ to $28,083,000$ tons (25 476469 metric tonnes) in 1976 from 27,843,000 tons (25 258745 metric tonnes) in 1975. Imports decreased to $16,091,821$ tons (14598 254 metric tonnes) from $17,420,348$ tons ( 15803473 metric tonnes). Industrial consumers used $22,622,049$ tons (20 522378 metric tonnes) of coal in 1976, up 317,447. tons ( 287983 metric tonnes, from 1975 and $5,916,152$ tons ( 5367042 metric tonnes) of coke, down 27,920 tons (25 329 metric tonnes).

Therapeutic Abortions, Canada, 1977 - Advance Information
This advance information relates to therapeutic abortions authorized under section 18 of the Criminal Law Amendment Act, 1969 and reported to Statistics Canada for 1977. It also includes figures of legal abortions reported to have been performed on Canadian residents under the jurisdictions of some of the states in the United States during 1977.

The 10 provinces and two territories reported that hospitals under their jurisdictions performed 57,620 therapeutic abortions during 1977. Canadian residents accounted for 57,564 therapeutic abortions or $99.9 \%$ of the total abortions performed.

The 57,564 abortions represented an abortion rate of about 16.0\% (number of therapeutic abortions as a percentage of estimated live births for 1977), an increase of $7.4 \%$ over the abortion rate of $14.9 \%$ for 1976. Abortion rates for the provinces and territories, based on estimated live births, were $30.0 \%$ in British Columbia, 24.9\% in the Yukon, 22.5\% in Ontario, 17.4\% in Alberta, $10.3 \%$ in Nova Scotia and $10 \%$ or less in the other reporting areas. The abortion rate for 1977 relative to 1976 decreased for Prince Edward Island and increased for the rest of the areas.

Incomplete figures for 1977 indicate that Canadian residents obtained 2,182 legal abortions in the United States - 1,486-abortions in upstate New York, 271 in New York City, 201 in the state of Minnesota, 200 in Maine, 19 in Vermont and five in Montana. The addition of these 2,182 legal abortions to the number performed on Canadian residents within this country would give a total of 59,746 legal abortions and an abortion rate of $16.6 \%$ of estimated live births for 1977.

Canadian abortion rates, based on the number of females between 15 and 44 years of age and live births and live births plus abortions, have been lower than similar rates for England and Wales and the United States, as shown in the accompanying table.

The 10 provinces and two territories reported that as of January 1, 1977, there were 265 hospitals with therapeutic abortion committees. There were 110 hospitals with therapeutic abortion committees in Ontario, 55 in British Columbia, 26 in Alberta, 24 in Quebec, 12 in Nova Scotia and 10 or less in the other provinces and territories.

Reports on selected demographic and medical characteristics were available for 57,131 abortion cases or $99.2 \%$ of the total of 57,564 abortion cases for Canadian residents in 1977.

More than $60 \%$ of the 57,131 women obtaining abortions were single, $29 \%$ were married and $11 \%$ were separated, divorced, widowed or living common law. The number of single women obtaining abortions increased by $2 \%$ between 1976 and 1977, and numbers decreased by the same percentage for married women.
About $31 \%$ of the women obtaining abortions were under 20 years of age, more than $30 \%$ were between 20 and 24 years old, more than $36 \%$ were between 25 and 39 and the remaining $3 \%$ were over 39 years of age.

At the time of abortion, more than $84 \%$ of the women were under 13 weeks pregnant and the remaining $16 \%$ were 13 weeks and over. The percentage of women under 13 weeks pregnant at pregnancy termination increased from $79 \%$ of total abortions in 1974 to $84 \%$ in 1977.

Fifty-nine percent of the women obtaining abortions had no previous deliveries, $16 \%$ one previous delivery, $14 \%$ two previous deliveries and the remaining $9 \%$ had at least three previous deliveries. In about 2\% of the abortion cases, the number of previous deliveries was not reported.

Of the 57,131 women having abortions, more than $9 \%$ were sterilized at the same time. The number of abortion cases concurrently sterilized decreased by about $3 \%$ between 1974 and 1977.

About $7 \%$ of the women obtaining abortions reported at least one previous spontaneous abortion and $11 \%$ had at least one previous induced abortion. There were complications reported in about $3 \%$ of the cases. The four leading abortion complications were: retained products of conception, occurring in $2.1 \%$, laceration of cervix, in $0.3 \%$, and haemorrhage and infection, each occurring in $0.2 \%$ of the total abortion cases.

In one of every three abortion cases, the woman was under 20 years of age. Of the women under 20 years of age having abortions $95 \%$ were single, 3\% were married and the other $2 \%$ were living common law or the marital status was not reported.
Full information will be contained in the publication Therapeutic Abortions, Canada, 1977 (82-211, \$1.05). Address inquiries to Mr. S. Wadhera (613-995-0861), or Mr. C. Nair (613-995-0862), Health Division, Statistics Canada, Ottawa K1A 0T6.

EstImates of Employees, April 1978 - Advance Information
Revised and updated data on estimates of employees by province and industry for the period January 1961 to December 1976 are included in catalogue No. 72516.

Monthly summary data is released on a regular basis in the Statistics Canada Daily. Detailed monthly information is published in catalogue 72-008, Estimates of Employees by Province and Industry, and is also available from Mr. G. Mahoney (613-992-3868), Labour Division, Statistics Canada, Ottawa K1A 0V2.

Steel Ingots, Week Ended July 8, 1978 - Advance Information
Preliminary steel ingots production for the week ended July 8 reached 320,224 short tons ( 290502 t ) an increase of $6.8 \%$ from the preceding week's total of 299,894 short tons ( 272059 t). The comparable week's total in 1977 was 263,753 short tons ( 239273 t). The index of production based on the average weekly output during 1967 of 183,227 short tons ( 166211 t) equalling (100) was 174.8 in the current week, 163.7 a week earlier and 143.9 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1AV6.

$r$ Revised figures.

Passenger Bus Statistics (Intercity And Rurai), May 1978 - Published Only In Statistics Canada Daily The accompanying table contains statistics on passenger bus carriers earning $\$ 500,000$ or more annually from intercity and rural bus operations. Cumulative data for the year serves as preliminary information on a significant portion of the industry until definitive annual statistics are available. Figures have been added showing total distance run and fuel consumed, using the International System of Units. This is the most modern version of the metric system, supported by the International Bureau of Weights and Measures. It is the system of units which Canada is adopting. The following observations apply to the data in this release:

- Data relating to other services such as charter or contract are specific to the surveyed passenger bus carriers and are not indicative of over-all charter and contract operations;
- Passengers paying a fare to the operator of one vehicle and travelling on a second or third vehicle on a transfer are counted for the first vehicle only;
- Total distance run in a revenue service includes distance run empty which was necessary to provide the revenue service.
For further information, contact the Chief (613-9969271), Surface Transport Section, Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

Urban Transit, May 1978 - Advancc Information
In May, 56 urban transit systems collected 104,996,372 initial passenger fares. The total distance run was $33,451,438$ miles ( 53834873 km ), and operating revenues amounted to $\$ 37,655,924$.
For further information, contact the Chief (613-9969271), Surface Transport Section, Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6 or order the May issue of Urban Transit (53$003,15 \$ / \$ 1.50$ ).

Peeler Logs, Veneers and Plywoods, April 1978 Advance Information
Canadian mills shipped $265,628,000$ square feet ( 24678000 m 2 ) 3/8" ( 9.525 mm ) basis of softwood plywood in April, up from 240,802,000 square feet (22 372000 m 2 ) in April 1977.

Shipments of hardwood plywood amounted to $32,869,000$ square feet ( 3053000 m 2 ) surface measure for April, an increase of $2.3 \%$ from the same month in 1977.

For further information, order the April issue of Peeler Logs, Veneers and Plywood (35-001, 30\$/\$3), or contact Mr. P.E. Martin (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Sales of Paints, Varnishes and Lacquers, May 1978 Advance Information
Producers' trade and industrial sales of paints, varnishes and lacquers totalled \$50,033,901 in May compared to a revised $\$ 46,515,539$ in May 1977.

For further information, order the May issue of Sales of Paints, Varnishes and Lacquers (46-001, 15 $\$ / \$ 1.50$ ), or contact Mr. J. Dornan (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Labour Force Survey, Week Ended June ' ${ }^{1} 7,1978$
Statistics Canada estimates that for the week ending June 17, 1978, the seasonally-adjusted employment level was, 10,070,000, an increase of 47,000 from May. The émployment lével rose for, all majorg agestex groups. The levelincreased by 5,000 for men 15:24 by 10,000 for women 15-24, by $24,000^{\prime \prime}$ formen $25^{\prime \prime}$ andover, and by 8,000 for women 24 and over.
By province, the seasonally=adjusted employment level increased in ©ntario: 24,000$)$ and Britishtolumbia $(11,000)$. The level showed littlegichangeint the other provinces.
The seasonally-adjusted unemployment level in June was 944,000 , a slight decrease of 5,000 from May. The level declined for men 15-24 ( $-9,000$ ) and women 25 and over $(-3,000)$. For men 25 and over, the level increased marginally $(6,000)$, while for women $15-24$, it showed little change.
Provincially, the seasonally-adjusted unemployment level decreased in New Brunswick $(-4,000)$ and Quebec $(-4,000)$. The level in the other provinces showed little or no change.
For the fourth consecutive month, the seasonallyadjusted national unemployment rate was 8.6. The rate decreased by 0.5 to 15.3 for men $15-24$, by 0.1 to 14.1 for women 15-24 and by 0.1 to 7.9 for women 25 and over. For men 25 and over, the rate showed no change.

The seasonally-adjusted unemployment rate decreased in all provinces except Alberta where it increased by 0.3 to 4.7. The rate declined by 0.6 to 17.3 in Newfoundland, by 0.4 to 9.7 in Prince Edward Island, by 0.1 to 10.7 in Nova Scotia, by 1.3 to 11.6 in New Brunswick, by 0.1 to 11.4 in Quebec, by 0.1 to 7.4 in Ontario, by 0.1 to 6.6 in Manitoba, by 0.3 to 5.0 in Saskatchewan, and by 0.2 to 7.8 in British Columbia.

The seasonally-adjusted national participation rate increased by 0.1 to 62.6 in June. The rate increased by 0.5 to 58.9 for women 15-24, while for men of the same age group, it declined by 0.2 to 69.4. For men 25 and over, the rate increased by 0.4 to 81.3, while it showed no change for women of the same age group.

The seasonally-adjusted employment/population ratio increased by 0.1 to 57.2 in June. The ratio increased for all major age/sex groups except for women 25 and over. The ratio rose by 0.2 to 58.8 for men 15-24, by 0.5 to 50.6 for women 15-24 and by 0.2 to 76.8 for men 25 and over. For women 25 and over, the ratio remained at 40.4 .

The unadjusted level of employment in June was $10,400,000$, compared to $10,044,000$ in June 1977. The unemployment level was 903,000 in June, compared to 814,000 last June. The unemployment rate was 8.0 , while a year ago, it was 7.5. The participation rate was 64.3, compared to 63.0 last June. The employment/population ratio was 59.1 , compared to 58.3 a year ago.

For further information, contact Rick Baxter (613-992-9543), Henry Pold (613-996-4214) or Bruce Petrie (613-996-3990).

Retall Trade, May 1978 - Advance information
Total retail trade sales for May reached $\$ 6,038.5$ million, an increase of $15.9 \%$ from $\$ 5,206.1$ million in May 1977. Sales increased in 26 of the 28 trade groups. The most significant advances were posted by the food group with sales of $\$ 1,447.1$ million up $17.5 \%$; motor vehicle dealers with sales of $\$ 1,382.1$ million, up $20.1 \%$ pharmacies, patent medicine and cosmetic stores with sales of $\$ 171.4$ million, up $15.5 \%$, and the "all other stores" group with sales of $\$ 680.8$ million, up $21.4 \%$. The only decreases in sales this month were in general merchandise stores, down $0.3 \%$ to $\$ 135.6$ million and furniture, T.V. radio and appliance stores, down 1.7\% to $\$ 40.2$ million.
All provinces showed sales increases from May 1977, ranging from 10.8\% for Saskatchewan to 22.9\% for Prince Edward Island. Montreal sales rose 14.1\%; Winnipeg 12.4\%; Toronto 13.2\% and Vancouver 19.0\%.
Revised total retail sales for April were $\$ 5,503.5$ million, up $7.7 \%$ from $\$ 5,106.9$ million in April 1977.
Seasonally-adjusted retail sales for May amounted to $\$ 5,714.1$ million, $2.2 \%$ higher than the $\$ 5,591.9$ million level of April. Sales rose over the month in 19 of the 28 trade groups with the most notable gains for department stores, general stores, service stations, pharmacies, patent medicine and cosmetic stores and the 'all other stores" group. The more significant decreased from the previous month were shown by combination (groceries and meat) stores, general merchandise stores and motor vehicle dealers. Sales advanced in all provinces except British Columbia.

For further information, order the May issue of Retail Trade (63-005,55\$/\$5.50), or contact the Retail Trade Section (613-996-9304), Merchandising and Services Division, Statistics Canada, Ottawa K1A OV4.
(see graphs on page 5)

Stocks of Dairy and Frozen Poultry Products, July 1 1978 - Advance Information.
Cold storage holdings of frozen poultry products at July 1 amounted to 47.3 million pounds compared with last year's total of 75.0 million pounds.

For further information, order the July issue of Stocks of Daiiy and Frozen Poultry Products (32-009, $30 ¢ / \$ 3$ ), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A $0 L 7$.

## Phonograph Records and Pre-recorded Tapes, May

 1978 - Advance InformationCanadian manufacturers produced 6,075,627 phonograph records in May 1978 compared with $5,608,496$ in May 1977. Production of pre-recorded tapes (8-track cartridges and cassettes only): 1,507,731 from 1,154,132.

For further information, order the May 1978 issue of Phonograph Records and Pre-recorded Tapes in Canada (47-004, 15¢/\$1.50), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Iron Ore, May 1978 - Advance Information
Canadian mines shipped $1,814,035$ short tons of iron ore in May compared with 6,189,719 short tons a year earlier. This brought the five months output to 8,706,426 short tons from 15,576,495 short tons a year earlier.

For further information, order the May 1978 issue of Iron Ore (26-005, 15\$/\$1.50), or contact Art Symons (613-992-0491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

## Employment, Canada

Unemployment, Canada

Steel Ingots and Plg Iron, June 1978 - Advance Information
Preliminary steel ingots production for June totalled 1,363,629 short tons (1 237063 t ). Preliminary pig iron production: 946,614 short tons ( 858754 t ).

For further information, order the June issue of Steel Ingots and Pig Iron (41-001, 15\$/\$1.40), or contact Mr. J.L. Barnes, (613-992-0388), Manufacturing and Primary Industries Division، Statistics Canada, Ottawa K1A OV3.

Radio and Teievision Receiving Sets, May 1978 Advance Information
Canadian manufacturers' domestic sales of "Made in Canada" colour television sets were 27,586 in May 1978. A year earlier, their sales were 19,014.

For further information, order the May 1978 issue of Radio and Television Receiving Sets (43-004, 30¢/\$3), or contact Mr. R.Raj Sehdev (613-002-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Sugar Saies, June 1978 - Advance Information
For June 1978, Canadian sugar refineries reported total sales of 111081386 kilograms ( $244,892,578 \mathrm{lbs}$ ) of all types of sugar, 97432901 kilograms (214,802,814 lbs.) in domestic sales and 13648485 kilograms ( $30,089,764 \mathrm{lbs}$.) in export sales.

For further information, contact Mr. T.P. Sterling (613-992-8619), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OT6.

## Consumer Price Index，June 1978

The All－items Consumer Price Index for Canada （1971＝100）advanced by $0.9 \%$ from 173.6 in May to 175.1 in June．As a result，the twelve－month rise between June 1977 and June 1978 stood at $9.2 \%$ ． Higher Food prices，up 2．0\％in the latest month were again largely responsible for this latest monthly rise． The index for All－items excluding Food increased by $0.4 \%$ with higher homeownership costs accounting for over one half of this rise．
Higher prices for beef cuts，up 11．1\％on average in the latest month，were largely responsible for the 2．2\％ increase in the Food at Home index．While fresh fruit prices increased，especially those for apples，fresh vegetable prices declined as the impact of the price increase for potatoes was more than offset by lower prices for lettuce and tomatoes．Price，increases for pork，other meat products and，in three of the Western provinces，for dairy products，were also recorded．

Higher housing charges，reflecting primarily in－ creased homeownership costs，was the largest contri－ buting factor in the $0.4 \%$ rise in the index for All－items excluding Food．Other notable factors included higher prices for some North American and imported model cars，selected clothing items，train and inter－city bus fares and recreational equipment．Gasoline prices and automobile insurance premiums recorded slight declines．Between June 1977 and June 1978，the index for All－items excluding Food advanced by 5．9\％．

Viewed in terms of goods and services，the price level of goods，including food，increased $1.1 \%$ in the latest month while that for services was up $0.4 \%$ ．As a result，between June 1977 and June 1978，the price level of goods increased by $10.7 \%$ while that for services rose by $6.6 \%$ ．

On a seasonally－adjusted basis，the All－items Consumer Price Index advanced by $0.6 \%$ between May and June：this comprised a $1.3 \%$ increase in the Food index and a $0.3 \%$ rise in the index for All－items excluding Food．

In June，the current annual rate of change in the CPI based on the seasonally－adjusted movement in the latest three－month period was $8.9 \% .$. ．

Import and Export Price and Volume Indexes, April 1978 - Advance Information
The current weighted import price index increased $1.5 \%$ and the export price index increased $1.2 \%$ in April 1978. On a fixed weight basis, the average increase per month since the beginning of the year has been $1.4 \%$ for imports and $1.0 \%$ for exports, the Canadian dollar having declined an average of $1 \%$ a month over the same period.

The $30 \%$ increase in April seasonally-adjusted import volume was an exceptionally large monthly increase. When averaged over the first four months of the year, import volume shows virtually no change compared with the same period in 1977.

Export volume grew 5.5\% in April, the year-to-date average being $9.2 \%$ higher than a year earlier.

For further information, order the May issue of the Summary of External Trade (65-001, 40\$/\$4).

General Wholesale Index, May 1978
The General Wholesale Index rose $0.1 \%$ to 600.6 in May from its revised April level of 600.0. The index was 7.0\% higher than in May 1977 when it stood at 561.3. The major groups which had the most effect on the total index in May were Animal Products; Wood Products, Vegetable Products and Non-ferrous Metals.

The Animal Products index rose 5.2\% due mainly to increases of $14.9 \%$ for livestick, $11.2 \%$ for fresh meats and $6.4 \%$ for cured meats. These increases were partially offset by a $4.8 \%$ decrease for fish.

The Wood Products index declined by 2.1\% largely on account of decreases of $3.1 \%$ for newsprint and wrapping paper and $5.1 \%$ for cedar.

The Vegetable Products index decreased by $1.2 \%$ reflecting decreases of $5.4 \%$ for tea, coffee and cocoa, $2.1 \%$ for grains and $4.6 \%$ for sugar and its products. Potatoes showed a 33.2\% increase.

The Non-ferrous Metals index decreased by $1.3 \%$. due in part to a 4.8\% decrease for silver.

Help Wanted Index, Second Quarter 1978
(Published in the Daily and Informat)
In the second quarter of 1978 the seasonally-adjusted Help Wanted Index (1969=100) declined to $152,7 \%$ lower than in the first quarter. Regionally, modest increases were recorded in British Columbia, Ontario and the Atlantic provinces. Decreases were shown in Quebec ( $-13 \%$ ) and Prairie provinces ( $-5 \%$ ).
Compared with the second quarter of 1977, the index rose by $2 \%$. The Atlantic provinces registered a decline of $21 \%$, the British Columbia index remained unchanged and increase of up to $5 \%$ were shown in the remaining regions.
For further information, contact George Fincham (613-992-7461), Labour Division, Statistics Canada, Ottawa K1A OV1.

Particle Board, May 1978 - Advance Information Canadian firms produced 67,422,000 square feet ( 6263000 m 2 ) 5/8" ( 15.9 mm ) basis of particle board in May 1978 compared with 48,464,000 square feet ( $4503000 \mathrm{m2}$ ) in 1977, an increase of $39.1 \%$.

For further information, order the May 1978 issue of Particle Board (36-003, 15\$/\$1.50), or contact Mr. C. Sturton (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Railway Carloadings
7-day period Ended June 30

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.

Piggyback traffic includes trailers and containers on flat cars.
All 1977 figures have been revised.

Railway Carloadings, 9 Days Ended June 30, 1978 Published Only in the Daily
Canadian railways loaded 5.2 million t ( 5.8 million short tons) of revenue freight during the last nine days of June, a decrease of $21.0 \%$ from 1977. This decrease was mainly due to a strike at iron ore mines in Labrador and Quebec. Western loadings also decreased by 1.7\%.

Container-trailer (piggyback) traffic decreased 0.9\% in the East and rose $9.1 \%$ in the West for an overall increase of $1.5 \%$.

From January to June, 1978 freight loadings totalled 99.5 million $t$ ( 109.6 million short tons), a decrease of 10.1\% from 1977. Container-trailer traffic showed an increase of $4.5 \%$.

For further information, contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

Fish Freezings and Stocks, May 1978 - Advance Information
Advance data from Fish Freezings and Stocks (catalogue 24-001) for the month of May, 1978 is now available.
For further information, order the May, 1978 issue of Fish Freezings and Stocks, (24-001, 40\$/\$4), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Ottawa K1A 0V6.

Raliway Transport Part V, 1977 - Advance Information
Revenue freight traffic handled by rail in Canada in 1977 totalled 272.5 million short tons or 247.2 million $t$, up 3.5\% from 1976.

Domestic loadings were up 4.2\% from 1976 to 250.7 million short tons ( 227.4 million t). Receipts from U.S. connections declined $3.5 \%$ to 21.9 million short tons or 19.8 million $\mathbf{t}$.

Of the six major commodity groups under which railway freight is reported, only two, Live Animals and End Products, showed traffic losses in 1977 when compared with 1976. Rail shipments of all types of live animals were lower than the previous year with cattle shipments (which accounted for $93.5 \%$ of the live animal category) down by $32.9 \%$. Among end products registering notable declines were passenger automobiles, other road motor vehicles and motor vehicle engines and accessories.

The Food, Feed, Beverages and Tobacco category increased $6.1 \%$ mainly due to a $27.5 \%$ increase in shipments of wheat.

The Crude Materials category, which accounted for over $52.0 \%$ of all freight carried by rail was up $3.0 \%$.

Carryings of Fabricated Materials were up $5.5 \%$ to 70.8 million short tons ( 64.3 million $t$ ) with lumber, potash and coke shipments being noticeably higher than the previous year.

Special Types of Traffic, due mainly to an increase in container-on-flat-car (COFC) movements, showed a small increase over 1976, rising $1.8 \%$. Non-carload freight rose 3.2\%.

For further information, order the 1977 edition of Railway Transport Part V (52-211, \$2.10), or contact J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A 076.

Railway Transport: Part VI, 1977 - Advance Information
Employment in the Canadian railway industry in 1977 (excluding those engaged in express, highway transport, telecommunications, hotels and other non-rail activities) averaged 110,578 persons, a $0.4 \%$ increase over 1976.

Compensation paid railway employees during the year amounted to $\$ 1,814.9$ million, an $8.8 \%$ increase from the previous year. A breakdown of earnings by railway function shows that wages of employees engaged directly in transportation services accounted for 42.3 cents of the average dollar paid in 1977. Wages of equipment maintenance and road maintenance workers took 24.5 and 20.1 cents respectively. Personnel classified as "general" received 13.1 cents.

Railway employees averaged $\$ 16,413$ per annum an $8.3 \%$ over 1976. The average hourly wage rate of $\$ 7.60$ represented an increase of 62 cents or $8.9 \%$.

Service hours paid for totalled 238.9 million for those employed in railway operations, down $0.1 \%$ from 239.1 million a year earlier.

For further information, order Railway Transport Part VI, 1977, (52-212, 70¢), or contact J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

Refined Petroleum Products, May 1978 - Advance Information
Preliminary information indicates Canadian refineries produced 48,274,000 barrels of refined petroleum products in May. This represents a decrease of 13.3\% compared with the latest available data for the corresponding month of the previous year (55,670,000).

Preliminary data for the month of May 1978 shows that net sales of all refined petroleum products amounted to $47,787,000$ barrels, an increase of $1.6 \%$
over the latest available data for the corresponding month of last year $(47,057,000)$.

For further information, order the May 1978 issue of Refined Petroleum Products (45-004, 40 $\$ / \$ 4$ ), or contact G.R. Kitchen (613-992-4021), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

## Additional Information

When names and telephone numbers are not provided, additional information can often be obtained from the regional User Advisory staff of Statistics Canada or from its Central Inquiries Service, Ottawa (613-992-4734).

Also, toll-free access to the regional statistical information service is provided in Charlottetown, Fredericton, Moncton, Saint John and Sydiney by calling the operator and asking for ZENITH 22066. Throughout Saskatchewan, the Regina office can be reached by dialing 1-800-667-3524. Throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

Consumer Credit, May 1978 - Advance Information Consumer credit outstanding on the books of selected credit holders reporting monthly was $\$ 26,110$ million at the end of May, 12.9\% more than a year earlier. Outstanding balances of selected credit holders at the end of May 1978 with percentage change from a year earlier:

- Chartered banks' personal loans: $\mathbf{\$ 2 0 , 1 6 0}$ million, $16.1 \%$.
- Quebec savings banks' personal loans: $\$ 96$ million, up 20.0\%.
- Life insurance companies' policy loans: $\$ 1,303$ million, up 3.4\%.
- Sales finance and consumer loan companies' loans: small $\$ 185$ million, down $12.7 \%$; large $\$ 1,463$ million, down $0.9 \%$; instalment sales paper $\$ 1,091$ million, down 1.0\%.
- Department stores and furniture, TV, radio and household appliance stores: $\$ 1,412$ million, up $7.5 \%$.
- Trust and Mortgage loan companies' personal loans: $\$ 400 p$ million, up $22.7 \%$.
- Credit holders reporting quarterly had combined outstanding balances of $\$ 6,632$ million at the end of the first quarter of 1978, up 15.4\% from a year earlier. The largest such credit holders, credit unions and caisses populaires, reported balances outstanding of $\$ 4,732$ p million, up $19.0 \%$. (Also included in the quarterly total: other retail stores, other credit-card issuers and public utilities.)
- Including quarterly reporters, outstanding balance at the end of the first quarter of 1978 totalled $\$ 31,751$ million, up $12.4 \%$ from a year earlier.
For further information, order the May issue of Consumer Credit (61-004, 30\$/\$3), or contact Retail Trade Section (613-996-9304 or telex 053-3585), Merchandising and Services Division, Statistics Canada, Ottawa K1A 0V6.
p preliminary

Sand and Gravel Plts, 1976 - Advance Information For 1976, sand and gravel pits total value added was $\$ 99,103,734$, a decrease of $3 \%$ from $\$ 102,305,229$ in 1975.

For further information, order the 1976 issue of Sand and Gravel Pits (26-215, \$0.70), or contact Art Symons (613-992-4091), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OT6.

Traveller Accommodation, 1976 - Advance Information
Total receipts reported by 17,910 traveller accommodation businesses in Canada for 1976 amounted to $\$ 3,064.2$ million. Included were hotels $(5,429)$ with reported receipts of $\$ 2,489: 2$ million and motels $(4,269)$ with $\$ 369.0$ million. The remaining $\$ 206.0$ million was accounted for by 8,212 other types of traveller accommodation firms (tourist homes, tourist courts and cabins, outfitters and tent and trailer campgrounds).

For further information, order the 1976 edition of Traveller Accommodation Statistics.(63-204, \$1.05), or contact J. Freda (613-996-9301), Merchandising and Services Division, Statistics Canada; Ottawa K1A OV4.

Dalry Factory Production, June 1978 - Advance Information
Production of creamery butter decreased $13.9 \%$ in June 1978 to 28.8 million pounds from 33.4 million pounds a year earlier. Cheddar cheese production increased $3.4 \%$ to 17.6 million pounds from 17.0 million pounds and production of ice cream mix decreased $6.3 \%$ to 3.6 million gallons from 3.9 million gallons.

For further information, order the June 1978 issue of the Dairy Factory Production (32-002, 15\$/\$1.50), or contact Mr. C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Stocks of Dairy and Frozen Poultry Products, July 1, 1978 - Advance Information
Cold storage holdings of creamery butter were up 71.4 million pounds on July 1 compared with last year's corresponding total of 49.1 million and stocks of cheddar cheese were down to 60.8 million pounds from 62.6 million. Stocks of skim milk powder decreased to 71.6 million pounds from 209.3 million and stocks of evaporated whole milk drecreased to 17.9 million pounds from 32.1 million.

For further information, order the July issue of Stocks of Dairy and Frozen Poultry Products (32-009, $30 \$ / \$ 3$ ), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A $0 L 7$.

Pulpwood and Wood Residue, May 1978 - Advance Information
Roundwood production increased 16.7\% to 1,039,925 cunits ( 2944000 m 3 ) in May 1978 from 890,922 cunits ( $2523000 \mathrm{m3}$ ) a year earlier. Consumption of roundwood and wood residue increased $3.8 \%$ to $2,445,185$ cunits ( 6924000 m 3 ) from 2,355,565 cunits ( 6669000 m 3 ) and the closing inventory of these two products decreased $9.3 \%$ to 8,504,045 cunits (24081 $000 \mathrm{m3}$ ) from $9,379,647$ cunits ( 2655900 m 3 ). Receipts of wood residue increased $7.3 \%$ to $1,051,509$ cunits ( 2977000 m 3 ) from 980,372 cunits ( 2774000 m 3 ).

For further information, order the May issue of Pulpwood and Wood Residue Statistics (25-001, 15\$/\$1.50), or contact Mr. C. Sturton (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Steel ingots, Week Ended July 151978 - Advance Information
Preliminary steel ingots production for the week ended July 15 reached 311,588 short tons ( 282668 t), a decrease of $2.7 \%$ from the preceding week's total of 320,224 short tons (290 502 t ). The comparable week's total in 1977 was 264,572 short tons ( 240016 t ). The index of production based on the average weekly output during 1967 of 183,227 short tons (166 211 t) equalling (100) was 170.1 in the current week, 174.8 a week earlier and 144.4 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Footwear Statistics, May 1976 - Advance Information May production of footwear of all types increased to 3,937,296 pairs from 3,314,525 in May 1977.

For further information, order the May 1978 issue of Footwear Statistics (33-002, 30\$/\$3), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Statitistics Canada's, Poilcy on Official Statistics
Given the increasing role of statistics in the implementatión of legislation, court decisions, contractual agreements and other legal or quasi-legal contexts, it may be useful to rêterate for readers of The Daily Statistics Canada's ground outes on the official status of its stătisticics."

The Daily is Statistics Canada's vehicle of first release and generally, providesindivice information on new compilations: new series or pupdatings existing series, the move cómplete detats of whichare indicated as being available in forthcoming publications and/or through a named officer or source within Statistics Canada. In a limited number of instánoes, complete data are furnished in The Dailyonlyatinus the latest figure promulgated by direct publication in The Daily (or by notification in The Daily of its availability) is the official statistic that may be attributed to Statistics Canada.
As should be clear from the foregoing, the use of the term "advance" in The Daily is not a comment on the degree of finality of particular statistics: rather, it defines them as the first highlights of statistics which are available elsewhere, either currently or prospectively, in more detail. Degrees of finality are indicated by qualifications such as "preliminary" or "revised". Typically, for instance, the latest (preliminary) statistics in many monthly series are shown in conjunction with statistics for earlier months once published as "preliminary" also, but which can now be shown as revised. More rarely it is considered useful to publish "first" estimates, based on partial returns, of certain monthly statistics that are subsequently refined to preliminary and then to revised status. (In this connection, it might be noted that the seasonallyunadjusted figures of the widely-used monthly Consumer Price Index and Labour Force statistics are not subject to such month-to-month revision, although their seasonally-adjusted values may be revised at longer intervals as more valid seasonal adjustment factors become available.)

Statistics published at less frequent intervals, e:g., quarterly and annually, are not normally shown as preliminary even though notice of their revision may. be given at the next round of publication. More generally many past series for different periods are revised when benchmark data - such as those from Decennial and Quinquennial Censuses - become available. Advance notice of such historical revisions will normally be given in The Daily.

Users who monitor particular series very closely will usually be aware of the patterns of short- and longerterm revision which characterize them. In case of doubt, clarification can always be secured from the appropriate subject-matter officer or area. The manner in which statistics produced by Statistics Canada, regardless of their indicated or apparent degree of
finality, are used is the responsibility, naturally, of the user. However, Statistics Canada has adopted as a goal of longer-term policy the objective of furnishing more complete information on the concepts, definitions, methods of compilation and quality of particular statistics so that users may have a better understanding of the statistics' valid uses and limitations.

Podiction, Consumption and Inventories of Rubber, May ${ }^{2}$ ? 8 - Advance Information
Nay production of rubber increased to $49,582,000$ pounds ( 22490000 kg ) compared with $45,880,000$ pounds ( 20810000 kg ) in May 1977. Consumption of subber decreased to 57,595,000 pounds (26 125000 kg ) compared with the revised $59,306,000$ pounds ( 26899000 kg ) for the same period last year.

For further information, order the May 1978 issue of Production, Consumption and Inventories of Rubber (33-003, 30 $\$ / \$ 3$ ), or contact Mr. R. Ralph (613-9922231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Feldspar and Quartz Mines, 1976 - Advance Information
For 1976, feldspar and quartz mines' total value added was $\$ 18,453,924$, an increase of $25 \%$ over $\$ 14,707,218$ in 1975.

For further information, order the 1976 issue of Feldspar and Quartz Mines (26-208, 70\$), or contact Art Symons (613-992-4091), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A $0 T 6$.

## Consumer Prịce Indexes for Regional Cities, June

 1978.
## Trechinical problems encountered with the new <br> CPI production system have forced a delay in the *introduction of the CPI Revision. Statistics Canada will advise users of the new month of introduction of the revision once these difficulties have been:resolved. Users should note that the release date for Regional Cities CPI containing datálof the reference month of July will nôw-be August 23, 1978.

Users are also advised that as of August 14, 1978 the telephone number for CPI-related inquiries is being changed from 613-994-9470 to 613-995-4078.
Between May and June, consumer price indexes rose in all regional cities with increases ranging from $0.5 \%$ in St. John's and Thunder Bay to $1.0 \%$ in Halifax: Higher prices for beef cuts and increased homeownership charges were largely responsible for these advances. Other important contributing factors were higher prices for poultry, fresh fruit, selected clothing items, some imported and North American model cars and train and inter-city bus fares. Lower prices were recorded for fresh vegetables, especially for lettuce and tomatoes, automobile insurance premiums and, in some cities, gasoline.

## St. John's

All-items: May to June 1978, up 0.5\%; June 1977 to June 1978, up 7.2\%.

Main contributors: higher prices for beef, poultry, and selected fresh fruit and vegetable items. Higher homeownership charges. Increased inter-city bus fares and higher prices for some new cars.

## Halifax

All-items: May to June 1978, up 1.0\%; June 1977 to June 1978, up 7.0\%.

Main contributors: higher prices for meat products, fresh fruit and potatoes while those for chicken and selected fresh vegetable declined. Increased shelter charges and higher fuel oil prices.

## Saint John

All-items: May to June 1978 up 0.8\%; June 1977 to June 1978, up $7.7 \%$.

Main contributors: increased prices for meat products, fresh fruit and restaurant meals, offset partially by lower prices for chicken and some fresh vegetables; higher homeownership charges. Increased driving lesson fees.

## Quebec City

All-items: May to June 1978, up 0.7\%; June 1977 to June 1978, up 7.9\%.

Main contributors: higher prices for meat products while those for selected fresh vegetables declined. Increased charges for both owned and rented accommodation. Prices also up for some new automobiles, while women's and children's clothing prices declined.

## Montreal

All-itmes: May to June 1978, up 0.9\%; June 1977 to June 1978, up 9.0\%.

Main contributors: higher prices for meat products, fresh fruit and restaurant meals offset partially by lower prices for some fresh fegetables; increased shelter charges. Prices also up for selected clothing items.

## Ottawa

All-items: May to June 1978, up 0.8\%; June 1977 to June 1978, up 8.5\%.

Main contributors: higher prices for meat products, chicken, selected fresh fruit and restaurant meals with some fresh vegetable prices declined. Increased shelter charges; higher prices for selected furniture items.

## Toronto

All-items: May to June 1978, up 0.9\%; June 1977 to June 1978, up 8.4\%.

Main contributors: higher prices for meat products, selected fresh fruit and restaurant meals. Increased homeownership charges. Prices up for selected clothing items and driving lessons.

## Thunder Bay

All-items: May to June 1978, up 0.5\%; June 1977 to June 1978, up 8.0\%.

Main contributors: higher prices for beef, pork and selected fresh fruit while those for some fresh vegetables declined. Prices up for selected clothing items and cigarettes. Gasoline prices declined.

## Winnipeg

Ali-items: May to June 1978, up 0.8\%; June 1977 to June 1978, up 8.4\%.

Main contributorss: higher prices for beef, chicken, fresh fruit and fresh milk, offset partially by lower fresh vegetable prices. Increased homeownership charges. Gasoline prices declined.

## Saskatoon

All-items: May to June 1978, up 0.8\%; June 1977 to June 1978, up 8.2\%.

Main contributors: higher prices for meat products, eggs and fresh milk while those for fresh vegetables declined. Higher homeownership charges. Prices also up for selected clothing items and gasoline.

## Regina

All-items: May to June 1978, up 0.7\%; June 1977 to June 1978, up 10.0\%.
Main contributors: higher prices for meat products, selected fresh fruit and fresh milk while those for some fresh vegetables declined. Increased homeownership charges. Gasoline prices declined.

## Edmonton

All-items: May to June 1978, up 0.9\%; June 1977 to June 1978, up 9.7\%.
Main contributors: higher prices for beef and selected fresh fruit while those for some fresh vegetables declined. Increased homeownersthip charges. Prices up for selected clothing items and beer for home consumption.

## Calgary

All-items: May to June 1978, up 0.9\%; June 1977 to June 1978, up 8.7\%.

Main contributors: higher prices for meat products and chicken, offset partially by lower prices for fresh produce. Increased homeownership charges. Prices also up for beer for home consumption.
(continued)

## Vancouver

All-items: May to June 1978, up 0.8\%; June 1977 to June 1978, up 8.2\%.

Main contributors: higher prices for meat products, fresh milk and restaurant meals while those for fresh produce declined; increased homeownership charges. Prices also up for selected clothing items and liquor for home consumption.
(see table on next page)

## p Preliminary estimates.

(1) Includes Yukon and Northwest Territories.
(2) Includes Prince Edward Island.

For further information, contact Mr. J.A. Boucek (613-9922006), or Ms. M. Beaubien (613-996-7148), Labour Division, Statistics Canada, Ottawa K1A OV1.

## Preliminary Report of Job Vacancies, Second Quarter 1978 - Advance Information

The preliminary estimate of the average number of jobs vacant on a daily basis during the second quarter of 1978 is $46,200^{*}$, an increase of $22 \%$ from 37,900 in the first quarter of 1978. Compared with the second quarter last year the number of vacancies decreased by 3,500 ( $7 \%$ ).

Vacancies for full-time jobs increased by $17 \%$ to 40,300 from 34,300 in the first quarter of 1978. Longerterm vacancies (jobs unfilled for more than four weeks) increased $12 \%$ to 13,700 .
For every 1,000 existing jobs in the second quarter of 1978 five were vacant, an increase of one from the previous quarter. The comparable rate a year ago was six per 1,000. The highest vacancy rates were in Alberta (nine per 1,000 ) and in Manitoba and Saskatchewan (both six per 1,000 ). The lowest vacancy rate occurred in New Brunswick (three per 1,000).
*The Job Vacancy Survey provides an estimate of the average number of vacancies available on any given day in a threemonth period. The estimate of this three-month average is derived from six observations taken at regular intervals. Consequently, the survey does not cover those vacancies which occur and are filled between individual observations.

In addition, the survey does not cover openings in agriculture, fishing, hunting, trapping and households. The Job Vacancy Survey is now being conducted by mail only personal interviews have been discontinued to reduce costs. Henceforth, estimatés obtained from data collected by mail will be adiusted by a factor based on the measured effect of interviews on estimates produced over the past seven years. The data derived from the Job Vacancy Survey, taken over time, are consistent and reliable indicators of trends in iob openings. For detailed definitions and design of the survey see Canadian Job Vacancy Survey. Technical Appendix, 1972 (71-521, 50¢).

Stocks of Frozen Meat Products, July 11978 Advance Information.
Total frozen meat in cold storage at the opening of the first business day of July amounted to 97.3 million pounds compared with 101.3 million last month and 112.0 million a year ago.

For further information, order the July issue of Stocks of Frozen Meat Products (32-012, 30¢/\$3), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Water and Air Pollution Abatement Expenditures Advance Infcrmation
Effective April 27, 1965 the Federal government implemented an incentive program granting an accelerated capital cost allowance to encourage expenditures by taxpayers on water pollution control equipment. An identical program for air pollution control equipment was implemented on March 13, 1970. Based on accepted applications processed to date; capital expenditures made under these programs for the period 1970 to 1975 totalled $\$ 223$ million and \$190 million respectively.

For further information, including details on expenditures by geographic region, industry, tax year, nature of pollutant, and method of pollution control, contact Mr. K.K. Lee (613-996-5980), Business Finance Division, Statistics Canada, Ottawa K1A 0T6.

## Crude Petroieum and Natural Gas Production, April

 1978 - Advance InformationCrude petroleum for April averaged 1,215,000 barrels/day (193 00 cubic metres/day), down $8.6 \%$ from 1,330,000 barrels/day ( 211000 cubic metres/day) in April 1977.
The net new production of natural gas for the same period averaged 9,690,000 Mcf./day (274 500 thousands of cubic metres/day), a decrease of $4.2 \%$ from 10,118,000 Mcf:/day ( 286000 thousands of cubic metres/day) in the previous year.

For further information, order the April issue of Crude Petroleum and Natural Gas Production (26-006, $30 \Phi / \$ 3$ ), or contact G. Kitchen (613-992-4021), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0T6.

## Consumer Price Indexes for Regional Cities of Canada

The indexes in this table measure within each city the percentage change in consumer prices from the base period to subsequent time periods. They cannot be used to compare levels of prices between cities.*

Population By Sex/Age, 1972-1975 - Advance Information
Intercensal estimates (formerly called revised estimates) contained in the accompanying table will be published in the coming weeks (catalogue no. 91-518, occasional), providing data by sex and single years of age as well as details on the methodology and the data sources and comments on the results and their interpretation. They replace the postcensal estimates by sex and age group previously published in catalogue no. 91-202 (annual) for 1972-1975. For previous years (1921-1971) the intercensal estimates have been published in catalogue no.91-512, occasional (July 1973).

For further information, contact Miss G. Caron (613-994-9317), Population Estimates and Projections Division, Census and Household Surveys Field, Statistics Canada, Ottawa K1S 5A4.
(see table on next page)
Stocks of Frult and Vegetables, July 11978 — Advance Information
Stocks of fruits, frozen and in preservatives, in storages and factories on July 1 totalled 30.7 million pounds compared with 26.3 million last year. Holdings of vegetables, frozen and in brine, totalled 54.6 million pounds ( 64.6 million in 1977).

For further information, order the July issue of Stocks of Fruit and Vegetables (32-010, 304/\$3), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Motor Vehicle Traffic Accidents, 1977 - Advance Information
Preliminary figures show that 5,260 persons were killed in motor vehicle traffic accidents in 1977, 0.7\% more than the 5,224 reported in 1976. The number of non-fatally injured victims also increased in 1977 to 213,499 (excluding Newfoundland) from 194,460 in 1976. These traffic accident figures will not necessarily agree with figures released in Crime and Traffic Enforcement Statistics (Cat. 85-206) which include certain non-traffic accidents investigated by police that did not occur on a highway, street or other public way.

For further information, contact M. McRae (613-9969274), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

Marrlages and Rates, Canada and the Provinces, 1976 - Advance Information

The number of marriages solemnized in Canada during 1976 totalled 193,343, a decline of $2.2 \%$ from the previous year. The rate per 1,000 population declined to 8.4 from 8.7 in $1975-3.4 \%$.
All the provinces except Prince Edward Island and Quebec registered declines in the rates: Prince Edward Island is the only province showing an increase in the rate in 1976 while the rate for Quebec remained unchanged from the previous year. The sharpest decline was registered in Manitoba.
The detail tabulations on marriages for 1976 will be published in the forthcoming publication Vital Statistics Volume II, Marriages and Divorces (84-205, \$1.05), for further information, contact D. Nagnur (613-9959593), Vital Statistics and Disease Registries Section, Health Division, Statistics Canada, Ottawa K1A 0T6.

Sales FInancing, May 1978 - Advance Information Sales finance companies purchased $\$ 346.7$ million of retail finance paper in May, an increase of 30.4\% compared with the $\$ 265.9$ million purchased in May 1977. The total purchases comprised $\$ 80.0$ million for passenger cars, $\$ 36.4$ million for other consumer goods, $\$ 143.0$ million for commercial vehicles and $\$ 87.3$ million for other commercial and industrial goods.

Wholesale financing undertaken by these companies during the first quarter of 1978 amounted to $\$ 2,029.0$ million, an increase of $3.8 \%$ over the $\$ 1,953.8$ million financed in January-March 1977.

For further information, order the May issue of Sales Financing (63-013, 30\$/\$3), or contact the Retail Trade Section (613-996-9304 or telex 053-3583), Merchandising and Services Division, Statistics Canada, Ottawa K1A OV6.

Railway Carloadings
7-day period ending July 7

|  |  |  |  |
| :--- | :--- | :--- | :--- | :--- |

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.

Piggyback traffic includes trailers and containers on fiat cars.
All 1977 figures have been revised - 1978 cumulative data also revised.

Railway Carioadings, 7 Days Ended July 7, 1978 -
Published Only in The Daily
Canadian railways loaded 3.6 million t ( 3.9 million short tons) of revenue freight during the first week of July, a decrease of 19.8\% from the same period in 1977. This decrease reflects a strike at iron ore mines in Quebec and Labrador. The decrease in the West was negligible at $0.1 \%$. Container-trailer (piggyback) traffic, however, increased $7.6 \%$ in total resulting from a $25.6 \%$ increase in the West and a $1.8 \%$ increase in the East. Year-to-date loadings totalled 103.0 million $t$ ( 113.6 million short tons) a decrease of $10.5 \%$ from 1977. Container-trailer (piggyback) traffic increased 4.6\%.

For further information, ocntact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6.

Births and Rates, 1975 and 1976 - Advance Information
The number of births to Canadian residents in 1976 totalled 359,987 , a $0.2 \%$ increase from that for 1975 of 359;323. The birth rate per 1,000 population, however, declined to 15.7 in 1976 from 15.8 for the previous year. Alberta and Newfoundland, as in the previous year, registered higher birth rates in 1976. Saskatchewan registered a higher annual increase than any other province.

Thie detail tabulations on births for the years 1975 and 1976 will be published in the forthcoming publication Vital Statistics Volume I, Births (84-204, $\$ 1.05$ ). For further information, contact D. Nagnur (613-995-9593), Vital Statistics and Disease Registries Section, Health Division, Statistics Canada, Ottawa K1A OT6.

Decorative Laminate Sheet, Second Quarter 1978 Advance Information
Domestic shipments of $1 / 8$ inch high pressure laminate sheet totalled 22.1 million square feet ( 2.1 mm 2 ) with a value of $\$ 8.8$ million in the second quarter of 1978. In the same quarter of 1977 totals were 20.9 million square feet ( 1.9 mm ) and $\$ 8.1$ million.

For further information, order the June quarter issue of Rubber and Plastic Products Industries (47-005, $\$ 1.40$ a year), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Ottawa K1A 0V6.

+ An attempt has been made to exclude loans to farmers which were not for farm business purposes.
* In the case of chartered banks and the FCC, the average of the outstandings at the end of each of the four calendar-year quarters was taken. In cases where quarterly data was not available, other methods were used, the most common of which was to assume that the total outstanding at the fiscal year-end (usually March 31) was representative of the average outstandings during the year. $\cdots$.
** Excluding Newfoundland, Yukon and*Northwest Territories.
(1) Includes supply companies, dealers; stores and all other unclassified credit sources.

Farm Debt Outstanding, 1977 - Advance Information Farm debt outstanding in Canada rose to $\$ 9.8$ billion in 1977, up approximately $15 \%$ from $\$ 8.5$ billion in 1976. Chartered banks played a prominent role in this increase; the average value of debt outstanding reported by the banks increased from $\$ 3.0$ billion in 1976 to $\$ 3.6$ billion in 1977 or about $20 \%$.
: An historical series for the years 1970-1976 and any further information may be obtained by contacting Mr. Michael Trant (613-994-9876), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Railway Transport: Part II, 1977 — Advance Information
Railway operating revenues rose $10.8 \%$ from the preceding year to $\$ 3,538.1$ million in 1977 while operating expenses"rose $8.9 \%$ to $\$ 3,349.0$ million. As a result, the industry reported operating income after taxes of $\$ 189.0$ million compared with $\$ 116.6$ million in 1976.

Freight revenues in 1977 rose 11.6\% and accounted for $83.0 \%$ of total operating revenues. Federal government payments to the railways increased $12.9 \%$ to $\$ 355.2$ million and passenger receipts reached $\$ 99.0$ million, an increase of $10.3 \%$.

Railway operating expenses for road and equipment maintenance were up $13.0 \%$ to $\$ 1,291.7$ million (these two accounts were responsible for $38.6 \%$ of total operating costs). Expenses for transportation operations accounted for $38.8 \%$.
The retained income balance at the close of 1977 was $\$ 760.3$ million compared with $\$ 765.6$ million at the beginning of the year. Total assets were increased by $\$ 592.1$ million to $\$ 13,898.2$ million.

For further information, order the 1977 edition of Railway Transport: Part II (52-208, \$1.05), or contact J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A $0 T 6$.

Tobacco Products - Cigarettes and Cigars, June 1978 - Advance Information

Production of cigarettes for June amounted to 5.5 billion compared to 6.0 billion for June 1977. Production of cigars totalled 40.4 million, down from 44.6 million in June 1977.

For further information, order the June issue of Production and Disposition of Tobacco Products (32022, $15 \$ / \$ 1.50$ ), or contact Mr. T. P. Sterling (613-9928619), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Steel Ingots, Week Ended July 22, 1978 - Advance Information
Preliminary steel ingots production for the week ended July 22 was 312,965 short tons ( 283917 t), a decrease of $2.1 \%$ from the preceding week's revised total of 319,634 short tons (289 967 t). The comparable week's total in 1977 was 232,874 short tons ( 211260 t). The index of production based on the average weekly output during 1967 of 183,227 short tons ( 166211 t) equalling 100 was 170.8 in the current week, 174.4 (revised) a week earlier and 127.1 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Real Domestic Product*, May 1978 - Advance Information
The seasonally-adjusted index of real domestic product ( $1971=100$ ) declined $0.2 \%$ to 132.1 in May from 132.4 in April. The index of industrial production decreased $0.8 \%$ in May. Goods-producing industries were down $0.5 \%$, while service-producing industries were down $0.1 \%$.
In goods-producing industries, agriculture, fishing and trapping, mining, manufacturing and utilities all recorded declines in output, while only forestry and construction experienced gains. Lower dairy and poultry production accounted for the decline in agriculture. The decline in mining was almost entirely due to a drop in metal mines output, which was affected by a further cutback in the production of nickel and copper. Mineral fuels was down slightly due to declining natural gas production. In manufacturing, non-durable manufacturing declined sharply, while durable manufacturing was unchanged from the April level. Within non-durable manufacturing, significant declines were reported in production of foods and beverages, tobacco products, chemicals, and refined petroleum products. Slight increases were reported in leather products, textiles, knitting mills, and clothing manufacturers. In durable manufacturing, five industry groups registered moderate increases, while three groups declined. Substantial increases were made in iron and steel mills and manufacturers of motor vehicle parts, while manufacturers of major appliances declined sharply. In May, output in utilities declined for the third consecutive month, reflecting continued weakness in demand for electric power and natural gas. Increased logging activity and pulpwood production accounted for the second consecutive monthly increase in forestry. The contruction industry recorded its fourth monthly increase since February; the gain in May was due to increased activity in both residential and non-residential building.
In May, the decline in service-producing industries was mostly attributable to transportation, storage and communications services which were down $0.8 \%$, and community, business and personal services. Trade, finance, insurance and real estate, and public administration and defence services were relatively unchanged from April. In transportation, storage and communication, substantial decreases were recorded in railway transport and grain elevators. In railway transport, the drop resulted from decreased volumes of grain, coal and motor vehicles transported. Wholesale and retail trade were relatively unchanged from the April level. A slight increase in wholesale merchants was offset by a decline in wholesalers of petroleum products. In retail trade, hardware and drug stores increased significantly, while food stores, department stores and motor vehicle dealers declined slightly. The decrease in community, business and
personal services was due mainly to declines in services to business manaqement and accommodation and food services.
*Users should note that the Indexes of Real Domestic Product have been revised for the period beginning January 1971 to date. For a continuous record of the indexes use publication 61-213, Real Domestic Product by Industry, 1971=100 for the 19711977 period and the May issue of publication 61-005 for the indexes for 1978.
For further information, order the May issue of Indexes of Real Domestic Product by Industry (including the Index of Industrial Production), (61-005, $40 \Phi / \$ 4)$, or contact R.W. Collins (613-995-0443), Industry Product Division, Statistics Canada, Ottawa K1A $0 T 6$.
(see tables on pages 3 and 4)
Papermakers and Other Felts, April-June 1978 Advance Information
During the June quarter, Canadian manufacturers shipped 340,859 pounds ( 154611 kg ) of woven and needled papermakers' felts and jackets valued at $\$ 5,444,888$ to Canadian mills. In the same quarter of 1977, totals were 357,503 pounds ( 162161 kg ) and \$5,100,698.
For further information, order the Miscellaneous Industries Service Bulletin (47-003, $35 \$ / \$ 1.40$ ), or contact Mr. E. Gluck (6.13-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Registered Nurses, 1976 - Advance Information
Socio-economic and demographic data on registered nurses for the year 1976 are now available. The tabulated data - available in computer printout form or on magnetic tape - include the variables of age, sex, marital status, place and date of basic nursing education, activity status, type of employer, position, area of responsibility, average number of hours worked per week, and the geographic locations of employment and residence.

Complete information will be published later in Health Manpower - Registered Nurses, 1976 (83220). For further information, contact Mr. F.J. Grabowiecki (613-995-9551), Health Division, Statistics Canada, Ottawa K1A 0T6.

Capital Expenditures Program, 1978 - A Mid-Year Review
Intended capital expenditures in Canada during 1978 are now estimated at $\$ 49,950$ million based on the results of the mid-year review recently completed by Statistics Canada. This total is $2 \%$ above the first estimate of $\$ 48,983$ million for 1978 and $7.4 \%$ above the $\$ 46,491$ million for 1977 shown in the March 15 release in The Daily and on CANSIM for Private and Public Investment in Canada, Outlook 1978 (61-205, \$1.05).

The new total for capital outlays for all construction at $\$ 32,169$ million is $0.8 \%$ above the $\$ 31,913$ million estimated earlier for 1978 and $6.3 \%$ higher than the $\$ 30,270$ million for 1977 . However, this small change masks the offsetting effects in the two principal components where a further gain of $3.2 \%$ for nonresidential construction was counter-balanced by a decline of $3.5 \%$ for housing construction since the first estimates for 1978. Non-residential construction is now expected to reach $\$ 21,226$ million compared with $\$ 20,569$ million shown earlier for 1978. The new amount is $9.8 \%$ above the $\$ 19,338$ million for 1977 Residential construction in 1978 is now estimated at $\$ 10,943$ million compared with the $\$ 11,344$ million estimated earlier for 1978 and only marginally above the $\$ 10,932$ million for 1977 . Both the current and original projection for housing in 1978 used the base of 230,000 starts. However, the current calculation reflects revisions to expected programs in the various provinces where some regional difference in unit cost for the same type of housing contributes to a lower overall total.

Capital spending plans for the acquisition of new machinery and equipment during 1978 now total $\$ 17,781$ million, $4.2 \%$ above the earlier estimate of $\$ 17,070$ million and $9.6 \%$ higher than the $\$ 16,221$ million for 1977.

Both the business and social capital groups show gains at mid-year with the business group showing a further increase of $3.7 \%$ for a total gain of $10.3 \%$ over 1977. The increase by the social capital group (institutions and governments) is $3.3 \%$ over the earlier estimate for 1978 and $7.5 \%$ above 1977.

Of the further gains in the business sector, estimates for agriculture show much more strength in the purchases of farm machinery than was expected earlier. The 1978 total for agriculture and fishing is now $\$ 3,247$ million, $10.5 \%$ above the $\$ 2,939$ million estimated earlier and $11.4 \%$ above the $\$ 2,914$ million for 1977. The second largest advance is for the utilities group ( $\$ 219$ million, $2.0 \%$ ) where the new total of $\$ 10,987$ million represents a gain of $17.3 \%$ over 1977. The further strength was shown in electric power (\$79 million, $1.3 \%$ ), railway transportation ( $\$ 48$ million, $7.8 \%$ ), water transport ( $\$ 43$ million, $31.4 \%$ ), urban transport ( $\$ 28$ million, $8.4 \%$ ), pipelines ( $\$ 25$ million, $6.7 \%$ ), grain elevators ( $\$ 24$ million, $32.5 \%$ ). Some reduction in the planned total is shown for air transport ( $\$ 40$ million, $-11 \%$ ). The communications group shows relatively minor changes at mid-year but at a level 10.1\% above 1977.

The preceding projected increase in manufacturing of $4.8 \%$ over 1977 is now revised to $8.3 \%$ for a new total of $\$ 6,503$ million. Most industries of this sector show further increases, the largest being in chemicals and chemical products which also includes the manufacture of heavy water ( $\$ 34$ million, $2.4 \%$ ). The other industries are as follows: metal fabricating (\$34 million, $16.0 \%$ ), food and beverages ( $\$ 31$ million,
5.9\%), non-metallic mineral products ( $\$ 28$ million, $11.1 \%$ ), wood products ( $\$ 20$ million, $7.3 \%$ ). In the case of petroleum and coal products, the increase at midyear of $\$ 31$ million ( $10.6 \%$ ) narrowed the projected decrease for that industry over 1977 from 22.3\% to $14 \%$. The primary metals group shows some reduction in plans at mid-year ( $\$ 18$ million, $-2.3 \%$ ) as does the paper and allied industries group ( $\$ 17$ million, $-2.2 \%$ ). The net effect is to reduce the gain over 1977 for primary metals to $\$ 38$ million ( $5.4 \%$ ) and to enlarge the decrease for paper products to $\$ 26$ million ( $-3.3 \%$ ). The level for transportation equipment is increased by only $\$ 15$ million ( $3.8 \%$ ), the new level over 1977 now showing an added $\$ 66$ million or a $18.7 \%$ gain

In the trade, finance, commercial group, more strength is indicated for 1978 than was expected earlier in the year. Further gains in capital spending plans of real estate developers, lessors of machinery and equipment, and of trade, contribute to most of the increase of $\$ 334$ million ( $6.3 \%$ ) to a new group total of $\$ 5,616$ million. The new level is now up $12.4 \%$ over the $\$ 4,996$ million in 1977.

In the primary industries group, the decrease from 1977 projected earlier for mining has been moderated somewhat by gains for uranium mining in the metals group and by coal in the non-metal mines group. However, additional declines for iron mining and for copper-gold-silver widen further the decrease of the metal mines group where the new total of $\$ 553$ million is $40.6 \%$ below the $\$ 932$ million in 1977 following completion of major development work last year. The total for the non-metal mines group is now $\$ 520$ million, up $\$ 36$ million from the first estimate for 1978 and up $\$ 52$ million or $11.2 \%$ from the $\$ 468$ million in 1977. Further marginal strength for petroleum and gas results in a new 1978 total of $\$ 2,750$ million for an increase of $\$ 113$ million or $4.3 \%$ over the $\$ 2,636$ million expended in 1977

In the social capital group, planned capital spending for 1978 by all three levels of goverment is increased at mid-year by $\$ 225$ million ( $3.8 \%$ ) to a new total of $\$ 6,166$ million, $7.9 \%$ above the 1977 total of $\$ 5,713$ million. The additions to total for institutions ( $\$ 24$ million, $1.6 \%$ ) raise the year-over-year increase to $5.8 \%$ at the new level of $\$ 1,576$ million compared with $\$ 1,490$ million last year.

In the provincial pattern of changes, the following are the new year-over-year changes for 1978 with the mid-year revision in parenthesis: Nova Scotia 19.2\% (6.9\%), Newfoundland 15.9\% ( $-0.1 \%$ ), New Brunswick $14.3 \%(-0.6 \%)$, British Columbia 11.6\% ( $-0.5 \%$ ), Saskatchewan 8.1\% (5.5\%), Alberta 7.3\% (3.8\%), Prince Edward Island 7.2\% (-1.2\%), Ontario 7.0\% (2.5\%), Yukon and Northwest Territories 6.2\% (3.9\%), Quebec $4.7 \%$ ( $0.5 \%$ ), Manitoba 0.5\% (1.6\%).

Additional statistics for the provinces by industry or according to private or public categories can be obtained from the CANSIM databank. Users are reminded to use the special matrices reserved for midyear data as well as the regular matrices containing the historical final data. Other information can also be obtained by contacting Duncan Lusick, Construction Division, Ottawa K1A 0T6. (Telephone 613-994-9546 to August 14, 1978 and 613-995-9013 after August 14, 1978).
(see tables on pages 6 to 10)

## Coal and Coke Statistics, April 1978 - Advance

 InformationCanadian coal production increased 5.6\% in April to 2,734,680 tons (2 480860 metric tonnes) from 2,590,775 tons ( 2350312 metric tonnes) a year earlier. Imports decreased to 938,167 tons ( 851091 metric tonnes) from 1,154,224 tons ( 1047094 metric tonnes). Industrial consumers used 2,382,458 tons (2 161330 metric tonnes) of coal, up 471,965 tons ( 428159 metric tonnes) from April 1977 and 471,689 tons (427 909 metric tonnes) of coke, down 27,839 tons ( 25255 metric tonnes).
For further information, order the April issue of Coal and Coke Statistics (45-002, 40\$/\$4), or contact David Madsen (613-992-4021), Energy and Minerals Section, Statistics Canada, Ottawa K1A OT6:

Estimates of Labour Income, May 1978 - Advance Information
Labour income for the month of May was estimated at $\$ 10.9$ billion, an increase of $\$ 919$ million or $9.2 \%$ from May 1977.
Adjusted for seasonal variation, wages and salaries increased by $\$ 72$ million between April and May to $\$ 9.9$ billion.
Detailed estimates for May will be published in the April-June issue of Estimates of Labour Income (72$005, \$ 1.05 / \$ 4.20$ ), or may be obtained upon request from Mrs. G. Gauthier (613-995-8067), Labour Income Section, Labour Division, Statistics Canada, Ottawa K1A OV2.
(see tables on pages 11 and 12)

Key Economic Series, Aúgust 1978
During the coming month, the release of Key Economic Series data is expected to be in accordance with the schedule outlined below. Where a range of dates is given for a series, this represents the period within which publication of the data can be reasonably expected, the variability taking account of circumstances peculiar to each series: Any range may be exceeded on rare occasions, for reasons unpredictable at this time.
July 28 to August 9: Unemployment Insurance Statistics, month of May;
August 1 to 4: Industry Selling Price Index, month of June;
August 8: Labour Force Survey, month of July;
August 8 to 10: General Wholesale Price Index, month of June;
August 15: Consumer Price Index (National), month of July;
August 15 to 17: Wholesale Trade, month of June;
August 15 to 22: Retail Trade, month of June;
August 16 to 22: Building Permits, month of June;
August 17 to 18: Index of Industrial Production, month of June;
August 18 to 23: Inventories, Shipments and Orders, month of June;
August 21 to 23: Consumer Credit, month of June;
August 21 to 25: Employment, Earnings and Hours, month of June;
August 23: Consumer Price Indexes for Regional Cities, month of July;
August 24 to 28: Real Domestic Product, month of June;

August 25: Preliminary Statement of Canadian Trade, month of July;
August 30 to September 1: Labour Income, month of June;
August 30 to September 8: Unemployment Insurance Statistics, month of June.

Notice of advance information availability: Field Crop Reporting Series No. 12, Telegraphic Crop Report, Prairie Provinces, on August 10, 1978 at 3p.m. E.D.S.T.; Field Crop Reporting Series No. 13, Stocks of Grain at July 31, on August 18, 1978 at 3p.m. E.D.S.T.; Field Crop Reporting Series No. 14, Preliminary Estimate, of Crop and summerfallow Acreages, on August 25, 1978 at 3p.m. E.D.S.T.; Field Crop Reporting Series No. 15, Telegraphic Crop Report, Canada, on August 31, 1978 at 3p.m. E.D.S.T.

It should be noted that the September schedule of Key Economic Series will appear in the Daily on August 29, 1978.

For any inquiry concerning the release of these series, please contact Mr. Jack Kerr (613-992-1548), Production Planning and Scheduling Division, Statistics Canada, Ottawa K1A 0T6.

## Production and Inventories of Process Cheese and Instant Skim Milk Powder, June

 1978 (32-024, 15¢/\$1.50)
## Employment, Earnings and Hours (Seasonally Adjusted), May 1978 - Advance Information

The first estimates of the Canadian industrial composite* index of employment (1961=100) for May 1978 indicated a $0.1 \%$ decline from April. All industry divisions recorded losses with the exception of mining (including milling), construction and trade which all showed increases. Ontario and the Prairie region registered decreases while the other regions posted gains.
Average weekly earnings rose by $0.6 \%$ at the national industrial composite level in May. Gains were recorded in all industry divisions except mining (including milling) and in all regions.
Average weekly hours were down in mining (including milling), unchanged in manufacturing and up in construction. Average hourly earnings showed no change in mining (including milling), increased in manufacturing but decreased in construction.

* Industrial composite is the sum of all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence. All statistics are based on returns received from employers having 20 or more employees in any month of the year. Notes on concepts and methods can be found in any issue of Employment, Earnings and Hours.
Detailed information for March and April will be published in the May issue of Employment, Earnings and Hours ( $72-002,70 \Phi / \$ 7$ ), and is also available from Mr. R. Ouellette (613-992-5613), Labour Division, Statistics Canada, Ottawa K1A OV2.
(see tables on pages 3-5)
Farm Input Price Indexes, June 1978 - Advance Information
Feed price indexes, Canada and five geographical regions, for June 1978 are now available.

For further information, contact Information Unit (613-994-9957), Industrial Prices Section, Prices Division, Statistics Canada, Ottawa K1A OV5.

Business Conditlons Survey, Canadian Manufacturing Industrles, July 1978 - Published only in the Statistics Canada Daily and Infomat
Canadian manufacturers expressed considerable optimism for expected production levels during the third quarter of 1978, in responding to the Business

Conditions Survey in manufacturing industries conducted during the first week of July. Although the proportion anticipating higher production at $33 \%$ of weighted response was down four points from the April survey and that expecting it to decline rose to 23\% from 13\% in April, the current survey results indicate a strong change from the opinion expressed in July 1977. At that time, 33\% forecast lower production in the third quarter of 1977 and just $21 \%$ expected it would be higher. Respondents are asked to allow for normal seasonal conditions in their replies.
A measurable proportion of written-in response expressed concern about strikes either in their own establishments or among their suppliers and customers. The percentage reporting a shortage of skilled labor rose to $12 \%$ in July from $9 \%$ in the preceding quarter.
It was the first time since the quarterly survey was initiated in January 1976 that the proportion reporting unfilled orders as higher than normal, at $19 \%$, edged ahead of that indicating a lower than normal backlog, at $18 \%$. Although just marginally positive, the July observation may be compared with the April results showing $14 \%$ higher and $20 \%$ lower. The July 1977 proportions were just $8 \%$ higher with $33 \%$ lower.
New orders levels are rising for $41 \%$ and declining for $11 \%$. Comparable April figures were $30 \%$ rising and $16 \%$ declining. A year ago these proportions were only $20 \%$ rising, with $27 \%$ declining.
Inventories of finished products on hand were too high for $16 \%$ and too low for $7 \%$. The preceding survey indicated they were too high for $16 \%$ and too low for $4 \%$. The July 1977 results indicated $23 \%$ felt finished stocks levels were too high and $4 \%$ too low.
Response from the July survey represented more than 7,000 manufacturing establishments whose shipments of goods of own manufacture totalled more than one-half of all shipments in these industries in 1975. Answers are weighted by attaching to each the value of shipments reported to the annual Census of Manufactures. Percentages are proportions of the total of weighted response indicating a specified condition (e.g. too high, too low or about the same) in answer to each question. The survey is conducted by the Shipments, Inventories and Orders Section (613-996-7008), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OT6.
(see tables on pages 6 and 7)

Note: The survey reflects management's opinion of expected production, current orders and inventory levels, and also current sources of production difficulties. Respondents were asked to allow for normal seasonal fluctuations. Individual replies were weighted by the value of the respondent's shipments as reported to the Census of Manufactures; these weighted replies were then summed and expressed as a percentage of all similarly weighted response to the particular question. Because of rounding and inclusion of reports indicating more than one source of difficulty, catego\%/ totals may differ from $100 \%$.

Intercensal Estlmates of the Population by Sex and Age Group, Canada and the Provinces, June 1, 19721975 - Errata
The tables on intercensal population estimates which were contained in the Daily Bulletin of Friday July 21, 1978 contained three errors. The corrected estimates are shown below:

| June 1. | Sex | Age <br> Group | Region | Corrected <br> Intercensal <br> Estimate |
| :--- | ---: | ---: | ---: | ---: |
| 1972 | Male | $25-29$ <br> 1972 | Manitoba <br> Female <br> Male | $55-59$ <br> Yukon <br> Canada |

Rallway Carloadings, 7 Days Ended July 14, 1978 Published Only in the Daily
Canadian loadings of rail freight in the above week totalled 3.9 million $t$ ( 4.3 million short tons), down $16.7 \%$ from the corresponding 1977 period. The prolonged strike of iron workers in Newfoundland and Quebec mines continued to influence loadings in the East (which fell 32.3\%) and was the primary reason for over-all traffic losses. Loadings west of the Lakehead were up $3.1 \%$.

Container-trailer (piggyback) shipments rose 6.9\% in the latest seven days, rising 2.8\% in the East and 20.0\% in the West.

From January 1 through July 14, 1978, railways in Canada originated 107.0 million t ( 117.9 million short tons) of revenue freight, a decline of $10.7 \%$ from the year-earlier period. The corresponding number of cars
loaded was $7.6 \%$ below the 1977 level. Cumulative container-trailer (piggyback) traffic showed a gain of 4.7\%.

For further information, contact J.R. Slattery (613-996-9271), Transportation and Communications' Division, Statistics Canada, Ottawa K1A OT6.
(see table on page 8)
Inventories, Shipments and Orders In Manufacturing Industrles, May 1978 - Advance Information
Commencing with this report, monthly estimates of inventories, shipments and orders in manufacturing for the period January 1975 to May 1978 have been adjusted and are now based on 1975 Census of Manufactures data. As a result, the preliminary estimates for May 1978 and other data in the accompanying tables are not directly comparable with previously-published series. These revised estimates incorporate newly-calculated factors for seasonal adjustment, a number of changes in the panel of reporting establishments and a large number of reported values that were not received in time for use in calculating the data published previously.

Comparable data from January 1975 forward are now in CANSIM data bank and will be published in the May issue of Inventories, Shipments and Orders in Manufacturing Industries (31-001, 55\$/\$5.50). For further information, contact H.D. Wightman (613-9967008), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.
(see tables on page 9)

| \% change | 3.2 | -1.7 | 1.6 |

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.
Piggyback traffic includes trailers and containers on flat cars.
All 1977 figures have been revised - 1978 cumulative data also revised.

EXPORES: IMPORTS AND TRADE BALANCE: ALL COUNTRIES

Preliminary Statement of Canadian Trade, June 1978 Seasonally-adjusted exports, on a balance-ofpayments basis, declined $9 \%$ to $\$ 3,717$ million in June, following a drop of nearly $15 \%$ in May. The June total was the smallest in 1978. In contrast, Canadian imports rose nearly $1 \%$ to $\$ 3,810$ million in June after a sharp decine of some $18 \%$ in the preceding month. A monthly merchandise trade deficit of $\$ 93$ million accordingly emerged for the first time since November 1976.

Both exports and imports, seasonally adjusted, advanced in the second quarter. Exports gained only marginally to $\$ 12,594$ million, while imports increased $10 \%$ to $\$ 12 ; 203$ million. The trade surplus contracted sharply from $\$ 1,457$ million in the first quarter to $\$ 391$ million in the second.

## Exports (Customs Basis)

Seasonally-adjusted exports to the United States declined $2.9 \%$ to $\$ 2,744$ million in June, following a sharper fall of $15 \%$ in the preceding month. Shipments
of a number of commodities were lower in June, including metallic ores, pulp, newsprint, chemicals, non-ferrous metals and automotive parts. Increased exports of some other industrial materials and passenger cars partly offset the decline.

Exports however rose almost $2 \%$ to reach a record high level of $\$ 8,907$ million in the second quarter of 1978. Led by motor vehicles and parts, higher shipments were also recorded for fish, fertilizers, chemicals, non-ferrous metals and other machinery and equipment. On account of lengthy strikes in the Quebec-Labrador region, exports of metallic ores fell substantially. Deliveries of crude oil, lumber and pulp were also lower in the June quarter.

The value of shipments to the U.S. accounted for $71.3 \%$ of total exports in the first half of 1978, up from $69.8 \%$ in the same period of 1977. The proportion of exports to other western-hemisphere countries also rose, but the shares of other destinations contracted. (continued)

"In the above table, export and import totals are shown on both a "customs" and a "balance-of-payments"basis. The figures on a customs basis are the totals of detailed merchandise trade data tabulated from customs documents according to procedures and concepts explained in Summary of External Trade. The figures on a balance-of-payments basis reflect a number of adiustments applied to the customs totals to make them consistent with the cnncepts and definitions used in the system of national accounts. The adjustments include timing adjustments to exports of crude petroleum, natural gas and wheat and to receipts and payments for capital equipment deduction of transportation charges included in the customs returns and the reduction of import values calculated for customs duty purposes to values which reflect transaction prices. For more information about these adjustments, please refer to Quarterly Estimates of the Canadian Balance of International Payments (67-001, \$1.05/\$4.20).

Seasonally-adjusted exports to overseas countries dropped nearly $20 \%$ to $\$ 973$ million in June, following a decline of $14.5 \%$ in May. Decreased shipments were recorded for many commodities, including cereals, metallic ores, non-ferrous metals, coal, motor vehicles and parts. Overseas shipments also declined on a quarterly basis, by $4.5 \%$ to $\$ 3,601$ million in the AprilJune period. Exports fell to all destinations except the United Kingdom and Japan. Shipments of fish, barley, metallic ores, coal, fertilizers, non-ferrous metals and motor vehicles were lower in the second quarter, but exports of wheat, rapeseed, asbestos, pulp, chemicals and non-automotive equipment increased.

## Imports (Customs Basis)

With a $9.5 \%$ rise to $\$ 2,868$ million in June, seasonallyadjusted imports from the U.S. recovered in part the $19.5 \%$ drop in May. Led by motor vehicles and parts, which accounted for roughly $40 \%$ of the over-all increase, imports of coal, other equipment and consumer goods also rose in June. Arrivals of food, machinery and some industrial materials declined.

Imports increased nearly $14 \%$ to a record quarterly total of $\$ 8,749$ million in the three months ending in June, following a smaller advance of $3 \%$ in the first quarter of 1978. The second quarter rise in imports was distributed over a large variety of commodities including food, coal, industrial materials, machinery, automotive products, other equipment and consumer goods.

The U.S. share of total imports declined slightly from $70.9 \%$ in the first half of 1977 to $70.7 \%$ in 1978, but was up from $68.7 \%$ in the same period of 1976.
Seasonally-adjusted imports from overseas countries stood at $\$ 976$ million in June, down nearly $17 \%$ from May, following a decline of similar magnitude in

May. As changes were small in imports from Japan and the European Economic Community, the June fall in imports was concentrated in arrivals from other overseas countries. The drop in total overseas imports was broadly distributed over fruits and vegetables, crude oil, trucks, non-automotive equipment and consumer products.

Imports from overseas countries in the second quarter however rose almost $4 \%$ to $\$ 3,545$ million, following a $5 \%$ advance in the first quarter. Increases in arrivals of food, some industrial materials, nonautomotive equipment and consumer goods were partly offset by decreased imports of coffee, metals and especially crude oil. Seasonally-adjusted imports of automotive goods remained virtually unchanged between the two quarters.

The importance of the E.E.C. and Japan as sources of Canadian imports expanded from $12.6 \%$ to $13.8 \%$ between the first six months of 1977 and 1978.
After rising irregularly during 1977, average prices of both exports and imports appear to have reached a plateau in the early months of 1978. With a larger rise from the corresponding period in 1977 in import prices than in export prices, Canada's terms of trade (the ratio of export to import prices) declined in line with the adjustment of exchange rates.

For further information on area and commodity trade, order the June issue of Summary of External Trade (65-001, 40థ/\$4).

Table 3
Imports From All Countries by Sections and Leading Commodity Groupings

Railway Carloadings, June 1978-Advance Information
Canadian railways loaded 19.2 million short tons (17.5 million t) of revenue freight in June, down $17.6 \%$ from a year earlier. The carriers received an additional 2.0 million short tons ( 1.8 million t) from the United States, an increase of 3.2\% Over June 1977

Commodity movements showing notable percentage changes in volume in the latest month included iron ore ( $-72.0 \%$ ); sand, gravel and crushed stone $(-19.0 \%)$; wheat ( $-7.8 \%$ ); phosphate rock ( $60.9 \%$ ); and potash ( $41.3 \%$ ). The sharp drop in loadings of iron ore was attributable to a strike of iron miners in Quebec and Newfoundland which was in its fourth month.

In the first half of 1978, rail freight loadings were $9.6 \%$ lower than in the January-June 1977 period, and receipts from the U.S. were down $3.7 \%$. Cumulatively, iron ore loadings fell $52.9 \%$. Logs and poles rose by $20.9 \%$, pulpwood chip shipments were up $18.7 \%$, sulphur increased $17.3 \%$, potash was up $14.5 \%$ and grain other than wheat showed a $13.8 \%$ gain.

For further information, order the June issue of Railway Carloadings (52-001, 30\$/\$3) or, for seasonally-adjusted revenue freight loadings, 'contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

The Dairy Review, May 1978 - Advance Information An estimated $1,654,846,000$ pounds of milk were produced for all purposes in May, up 0.5\% from May 1977:

This brought the total estimate of production during the first five months of 1978 to $6,603,696,000$ pounds, an increase of $1.4 \%$ from the January-May 1977 period.

For further information, order the June issue of The Dairy Review (23-001, 40¢/\$4); or contact Mr. C.M. Riach (613-994-9974), Agriculture Division, Statistics' Canada, Ottawa K1A 0L7.

Shipments of Corrugated Boxes and Wrappers, June 1978 - Advance Information
Canadian manufacturers shipped 1,699,661,000 square feet ( 157904000 m 2 ) of corrugated boxes and wrappers in June, an increase of $4.4 \%$ from 1,628,079,000 square feet ( $151254000 \mathrm{m2}$ ) a year earlier.

January-June shipments totalled $9,103,046,000$ square feet ( 845700000 m 2 ) in 1978 compared to 8,651,962,000 square feet ( 804647000 m 2 ) in 1977.
For further information, order the June issue of Shipments of Corrugated Boxes and Wrappers (36004, 15¢/\$1.50), or contact Mr. G.W. Barrett (613-9922371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Oilseeds, May 1978 - Advance Information
Crushings of oilseeds for May, with oil produced and meal produced (all figures in metric tonnes):

- Soybeans: 66667.6 (11 310.8; 51 635.8).
- Rapeseed: 51578.3 (21 058.7; 29 204.2).

For further information, order Grains and Oilseeds Review (22-007, \$2.80 a year), or contact J.M. Huard (613-994-9956), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Salt, June 1978 - Advance Information Canadian shipments of salt and salt content of brine increased to 551,211 short tons in June from 484,385 short tons a year earlier. This brought the six-months output to $3,480,639$ short tons in 1978 from $3,208,173$ short tons in 1977.
For further information, order the June issue of Salt (26-009, 15 $/ \$ 1.50$ ), or contact Art Symons (613-9920491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Roads and Bridges, 1976 - Advance Information Statistics on general contractors primarily engaged in road and bridge building have been compiled in a publication available soon. For financial and operational data on the industry, which included 1,040 establishments across Canada with total revenue of $\$ 2,225$ million in 1976, order The Highway, Roads, Street and Bridge Contracting Industry, 1976 (64-206, $\$ 1.05$ ) or contact G. Beauchamp or S. Parent (613-9949795). Construction Division, Statistics Canada, Ottawa K1A 0Z6.

Estimates of Employees, May 1978 - Advance Information
Revised and updated data on estimates of employees by province and industry for the period January 1961 to December 1976 are included in catalogue 72-516.
Monthly summary data is released on a regular basis in the Statistics Canada Daily. Detailed monthly information is published in catalogue 72-008, Estimates of Employees by Province and Industry, and is also available from Mr. G. Mahoney (613-992-3868), Labour Division, Statistics Canada, Ottawa K1A OV2.

Motor Vehicle Production, June 1978 - Advance Information
Production of passenger cars totalled 117,953 units in June compared to 129,940 a year earlier. January to June production was 622,060 units in 1978 compared to 687,070 in 1977. All commercial vehicies totalled 64,642 units compared to 57,801 : Year-to-date production rose to 367,548 units from 312,210 .

For further information order the June issue of Motor Vehicle Shipments (42-002, 15\$/1.50), or contact Mr. T. Raj Sehdev (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

The Residential and Non-residential General Building ContractIng Industry, 1976 - Advance Information
Results of the construction industry census indicate that the 9,637 general contractors in the building industry had total operating revenues of $\$ 8,120,682,566$ in 1976 . Of this figure, $\$ 7,837,689,520$ was derived from construction activity including $\$ 185,435,585$ worth of other than building (civil engineering) construction while the balance of the operating revenue, a volume of $\$ 282,993,046$, was from activities such as construction management, sales. of materials and rentals. Sub-contract volume inclưded in construction revenue totalled $\$ 3,368,430,119$ :
For further information; contact Pierre Schneider (613-994-9795), Construction Census Section, Construction Division, Statistics Canada, Ottawa K1A $0 V 6$.

Construction Machinery and Equipment Sales, 1977 Advance Information
The value of new construction machinery and equipment entering the market to end-users amounted to $\$ 1,638.4$ million in 1977, an increase of $4.7 \%$ over 1976. Sales of used construction machinery and equipment were valued at $\$ 268.0$ million in 1977 while rental revenue for all types of machinery amounted to $\$ 151.6$ million.
Further information will be contained in Construction Machinery and Equipment Sales, 1977 (63-220) and advance details can be obtained from the Merchandising and Services Division (613-996-9307), Statistics Canada, Ottawa K1A OV4.

Railway Operating Statistics, May 1978 - Advance Information
Six major Canadian railways reported combined net income of $\$ 22.1$ million in May, up $2.6 \%$ from May 1977. Total operating revenues increased $9.5 \%$ to $\$ 319.8$ million, while operating expenses rose $10.0 \%$ to $\$ 297.7$ million.
Freight ton-miles were down 7.1\% in May 1978; freight train-miles declined 3.4\%; and freight car-miles were $6.5 \%$ below the year-earlier level. Passengermiles were down $6.2 \%$ - a decline share by both commuter and inter-city services.

In the first five months of 1978, operating revenues of the six carriers were $8.3 \%$ above those of 1977 , while expenses were held to a $7.7 \%$ advance. Total net income rose $19.0 \%$ from the January-May 1977 period. Cumulative ton-miles were off $0.2 \%$ but passengermiles showed a $3.5 \%$ year-over-year gain.

For further information, order the May issue of Railway Operating Statistics (52-003, 30¢ $/ \$ 3$ ), or contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

Vinyl-asbestos Tile, June 1978 - Advance Information Canadian manufacturers produced 4,573 short tons ( 4149 t ) or $9,137,448$ square feet ( 848897 m 2 ) of vinyl-asbestos floor tile in June compared to 4,327 short tons ( 3925 t ) or $8,964,213$ square feet ( $832803 \mathrm{m2}$ ) in June 1977.
For further information, order the June issue of Production and Shipments of Floor Tiles (47-001, 15¢/\$1.50), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

## Steel Ingots, Week Ended July 29, 1978 - Advance

 InformationPreliminary steel ingots production for the week ended July 29 was 297,464 short tons ( 269855 t ), a decrease of $4.4 \%$ from the preceding week's revised total of 311,176 short tons (282 294 t ). The comparable week's total in 1977 was 266,300 short tons ( 241583 t ). The index of production based on the average weekly output during 1967 of 183,227 short tons ( 166211 t) equalling 100 was 162.3 in the current week, 169.8 (revised) a week earlier and 145.3 one year ago.
For further information contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Fall Enrolment in Canadian Universities, 1977 Advance Information
Full-time fall enrolment at Canadian universities decreased in 1977 by approximately $1 \%$ from 1976. The largest decline occurred in Ontario where full-time enrolment dropped almost 3\%. Part-time enrolment continued to grow at the national level with an increase of $6.7 \%$.

At the full-time level, there were 312,623 students in Bachelor programs, 24,717 students studying for a Master's degree and 9,681 studying for a Ph.D. Of the part-time total, 100,529 were Bachelor students, 20,472 Masters students and 3,490 Ph.D. candidates.

For further information, contact Louise Desramaux or Wally Watson (613-995-1105 or 1106), Postsecondary Education Section, Education, Science and Culture Division, Statistics Canada, Ottawa K1A $0 Z 5$.

## Oil Pipeline Transport, May 1978 - Advance Informa-

 tionCanadian oil pipe lines received $2,150,700$ barrels a day ( $341768 \mathrm{m3D}$ ) of crude oil, condensate, pentanes plus and refined petroleum product in May, down 8.4\% from the $2,348,600 \mathrm{~B} / \mathrm{D}(373216 \mathrm{~m} 3 \mathrm{D})$ received a year earlier. Receipts of domestic petroleum and products decreased $6.6 \%$ to $1,902,200 \mathrm{~B} / \mathrm{D}$ ( 302279 m 3 D ), while imported petroleum and products receipts decreased $20.3 \%$ to $248,500 \mathrm{~B} / \mathrm{D}$ (39 489 m 3 D ).

For further information, order the May issue of Oil Pipe Line Transport (55-001, 30¢/\$3), or contact G. Kitchen (613-992-4021), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A $0 T 6$.

Industrial Chemicals, June 1978 - Advance Information
Canadian manufacturers shipped $82,231,176$ pounds ( 37299434 kg ) of polyethylene-type synthetic resins in June compared to $71,590,799$ pounds ( 32473041 kg ) in June 1977.

For further information, order the June issue of Specified Chemicals (46-002, 15\$/\$1.50), or contact Mr. J. Dornan (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A $0 V 6$.

Sales of Cement, June 1978 - Advance Information Advance information on sales of cement as reported by Canadian producers for the month of June 1978 is now available.

For details, contact Gordon McWade (613-9920388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Import and Export Price and Volume Indexes, May 1978 - Advance Information
The current-weighted import price index increased $1.7 \%$ in May while the fixed-weighted index declined almost $1 \%$. Both current-and fixed-weighted export price indexes were slightly lower than in the preceding month.
Since December, the fixed-weighted import price index has risen $4.9 \%$ and the export price index has increased $4.2 \%$.
Seasonally-adjusted volumes of both imports and exports declined in May from high April levels. May import volume was about $1 \%$ higher than the first quarter average, but export volume was down nearly 4\% from the same period.
For further information, order the June issue of Summary of External Trade (65-001, 40¢/\$4).

Travel Between Canada and Other Countrles, June 1978 - Advance Information
Preliminary statistics for June show that 3.7 million United States visitors entered Canada, up $4.2 \%$ from June 1977. Visitors entering Canada from countries other than the U.S. increased by $14.1 \%$ to 231,000 . Canadian residents returning from visits to the U.S. numbered 3.3 million, almost unchanged from last year, while Canadian travellers returning from other countries decreased by $1.1 \%$ to 121,500 .
In the first six months of 1978, U.S. visitors decreased by $1.1 \%$ to 12.3 million while Canadians returning from the U.S. totalled 17.0 million, down 1.8\% from January-June 1977. There were 590,000 visitors from countries other than U.S., up $11.5 \%$, while 956,100 Canadians returned from these countries, an increase of $3.7 \%$ over 1977.

For further information, order the April-June issue of Travel Between Canada and Other Countries (66-001, $\$ 1.75 / \$ 7$ ), or contact Mr. Mike Valiquette (613-9950847), International Travel Section, Statistics Canada, Ottawa K1A 076.

Preliminary figures.
For further information order Building Permits, May 1978 (64-001, 70\$/\$7). Metropolitan Areas are based on 1976 Census Area definitions.

Building Permits, May 1978 - Advance Information Despite encouraging signs of greater building permits activity in Ontario, New Brunswick and Manitoba, the total value of proposed construction decreased 9.1\% to a seasonally-adjusted $\$ 1,017$ million in May from a revised $\$ 1,119$ million in April. In May 1977, the value of new building construction authorized was estimated at \$1,025 million.

During the month, residential permits remained weak at a seasonally-adjusted figure of $\$ 593$ million ( $\$ 603$ million in April) while non-residential permits dropped $17.2 \%$ from $\$ 516$ million in April to $\$ 424$ million in May. The decline in non-residential construction was caused by weaknesses in the commercial sector ( $\$ 254$ million in May compared to $\$ 306$ million in April) and in the public sector (\$96 million in May compared to $\$ 140$ million in April). New
industrial installations estimated at $\$ 74$ million were $6.5 \%$ higher than in April ( $\$ 70$ million).
In the residential sector, permits were issued for 8,125 new single-detached homes compared to a seasonally-adjusted 8,724 units in April, while 8,884 collective dwellings were authorized compared to 8,687 in April. Indications are that unless there is a marked improvement in the level of residential permits issued during June or July, there is little hope that housing starts will exceed an annual rate of 210,000 units in the coming months.

For further information, order the May issue of Building Permits (64-001, 70థ/\$7), or contact J.P. Delisle (613-995-8213), Construction Division, Statistics Canada, Ottawa K1A 0 T6.

## New Motor Vehicle Sales, June 1978 - Advance Information

New motor vehicles sold in June totalled 147,195 units, up 8.7\% from a year earlier. This included 88,733 passenger cars (up 10.7\%) and 38,968 commercial vehicles (up 20.4\%) manufactured in Canada and the U.S., and 18,055 passenger cars (down $15.2 \%$ ) and 1,439 commercial vehicles (down 12.7\%) manufactured overseas.

Total sales value increased $20.2 \%$ to $\$ 1,026.7$ million: Canadian and U.S. passenger cars sold for $\$ 580.9$ million (up 18.2\%) and commercial vehicles for $\$ 336.4$ million (up 31.4\%). Sales of passenger cars from overseas increased $2.4 \%$ to $\$ 101.2$ million and those of commercial vehicles held steady at $\$ 8.1$ million. Included in total commercial vehicles sold were 443 units of coaches and buses valued at $\$ 11.2$ million.

Seasonally-adjusted June sales of passenger cars manufactured in Canada and the U.S. increased 5.6\% from May to 70,635 units and those of passenger cars from overseas decreased $5.4 \%$ to 14,416 units. Similarly-adjusted sales of all commercial vehicles were up $2.8 \%$ to 32,968 units.

For the first six months of 1978, total sales reached 738,084 units (722,352 in 1977), with an accumulated value of $\$ 5,106.5$ million. This represented an increase of $12.6 \%$ in value over sales for January-June 1977.

For further information, order the June issue of New Motor Vehicle Sales (63-007, 30\$/\$3), or contact M. Kwilecki (613-996-9304), Retail Trade Section, Merchandising and Services Division, Statistics Canada, Ottawa K1A OV4.

Highway Construction Price Indexes, Fiscal 1977-78 - Advance Information

The Canada total index $(1971=100)$ at March 31, 1978 reached 198.2, an increase of $7.1 \%$ from a year earlier. Prices for new highway construction rose in all provinces over the 12 -month period, ranging from an increase of 1.0\% in British Columbia to a high of 14.5\% in Newfoundland.

For further information, order the third quarter issue of Construction Price Statistics, Quarterly Report (62008, $\$ 1.40 / \$ 5.60$ ), or contact Mr. R.J. Lowe (613-9949387), Prices Division, Statistics Canada, Ottawa K1A $0 V 5$.

Peach and Grape Crops, 1978 - Advance Information Niagara district peach and grape crops as of July 28 were forecast to be $17 \%$ and $26 \%$, respectively, higher than last year. The forecasts were based on actual fruit counts and weather conditions may affect fruit size and quality before picking.

For further information, order the August issue of Fruit and Vegetable Production (22-003, 40\$/\$3), or contact K.C. Wardley (613-994-9994), Horticultural Crops Unit, Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Crime Figures, 1977 (Preliminary) - Advance Information
Preliminary crime figures for 1977 show declines from 1976 in national rates per 100,000 population for total crimes of violence ( $-1.8 \%$ ) and property crimes ( $-1.3 \%$ ) while the rate for all criminal code offences remained constant.

Additional information may be obtained by contacting Mr. Jack Phillips (613-995-0855), Uniform Crime Reporting Unit, Justice Statistics Division, Statistics Canada, Ottawa K1A OT6.

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.

Piggyback traffic includes trailers and containers on flat cars.
All 1977 figures have been revised - 1978 cumulative data also revised.

Railway Carloadings, 7 Days Ended July 21, 1978 Published Only in the Daily
Canadian rail loadings totalled 3.9 million t ( 4.3 million short tons) in the above week, up slightly from the preceding seven-day period but down $12.1 \%$ from the 1977 week. The strike of iron workers in Quebec and Newfoundland which began in mid-March ended July 16. Iron ore loadings, however, were still well below normal in the above period and traffic losses of 30.4\% were recorded in the East. West of the Lakehead loadings rose $10.0 \%$.

Container-trailer (piggyback) shipments were up $2.5 \%$ in the latest week. Eastern loadings were virtually unchanged from a year earlier while in the West a $10.0 \%$ increase was recorded:

From January 1 through July 21, 1978, rail freight loadings were $10.8 \%$ below those of 1977, while cumulative container-trailer (piggyback) traffic was up by $4.6 \%$

For further information, contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6.

## Canadian Farm Products Index (1971=100), June 1978

 - Advance InformationThe Canadian Farm Products Index for June 1978 for Canada was 208.9, an increase of $1.7 \%$ from May.

For further details, order Industry Price Indexes (62011, $55 \Phi / \$ 5.50$ ), or contact Mrs. A.J. Sprott (613-9949957), Prices Division, Statistics Canada, Ottawa K1A $0 V 5$.

## (1) Monthly average

p Preliminary figures
For further information, order the May 1978 issue of Preliminary Unemployment Insurance Statistics (73-001p) or Statistical Report on the Operation of the Unemployment Insurance Act (73-001, Quarterly), or contact George Fincham (613-992-7461), Labour Division, Statistics Canada, Ottawa K1A 0V1.

## Preliminary Report on Unemployment Insurance

 Statistics, May 1978 - Advance InformationFor the week ending May 20, a total of 848,000 * claimants received unemployment insurance benefits, a decrease of $11 \%$ from the previous month but $15 \%$ more than in May 1977. Forty percent of the beneficiaries were female compared with $42 \%$ in May 1977.
In May, some \$453* million was disbursed in unemployment insurance benefits, up 4\% from April and up $25 \%$ from a year earlier. Payments to date in 1978 amounted to $\$ 2,335$ million, an increase of $21 \%$ from the January to May period of 1977. Residents of Quebec and Ontario received 62\% of the total benefits in the first five months, the Atlantic provinces, 18\%; British Columbia, 11\% and the Prairie provinces, 9\%.
Claims submitted by persons applying for benefit during May numbered 215,000 , a drop of $1 \%$ from the previous month but 7\% more than in May 1977. For the year to date, a total of $1,150,000$ claims were received compared with $1,078,000$ in 1977, a rise of $7 \%$. All provinces recorded increases of at least $5 \%$.

- The count of beneficiaries cannot be related to the benefit payments made during a month. Wheras the latter figure covers all benefit payments made during the month, the count ol beneficiaries represents the number of persons receiving benefit for a specific week each month.

Urban Transit, June 1978 - Advance Information In June, 56 urban transit systems collected 99,272,055 initial passenger fares. The total distance run was 31,897,036 miles ( 51333303 km ) and operating revenues amounted to $\$ 36,778,165$.

For further information, contact the Chief (631-9969271), Surface Transport Section, Transportation and Communications Division, Statistics Canada, Ottawa

K1A 0T6 or order the June issue of Urban Transit (53003, 15 $/$ /\$1.50).

Raw Hides, Skins"and Finished Leather, June 1978 Advance Information
In June, packers, dealers and tanners held 191,504 cattle hides, down from 229,536 a year earlier. Cattle hide receipts increased to 185,945 from 153,456 and wettings increased to 192,066 from $-161,206$.

For further information, order the June issue of Raw Hides, Skins and Finished Leáther (33-001, 30¢/\$3), or contact Mr. R. Ralph (613-992-2231), Manufacturing :and Primary Industries Division, Stätistics Canada, Ottawa K1A OV6.

Peeler Logs, Veneers and Plywoods, May 1978 Advance Information
Canadian mills shipped 259,981,000 square feet ( $24152000 \mathrm{m2}$ ) $3 / 8^{\prime \prime}$ ( 9.525 mm ) basis of softwood plywood in May, up from 229,614,000 square feet ( 21332000 m 2 ) in May 1977.

Shipments of hardwood plywood amounted to $31,075,000$ square feet ( 2886000 m 2 ) surface measure for May, an increase of $5.3 \%$ over the same month in 1977.

For further information, order the May issue of Peeler Logs, Veneers and Plywoods (35-001, 30¢/\$3), or contact Mr. P.E. Martin (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

$r$ Revised figures.

Passenger Bus Statistics (Intercity And Rural), June 1978 - Published Only In Statistics Canada Daily The accompanying table contains statistics on passenger bus carriers earning $\$ 500,000$ or more annually from intercity and rural bus operations. Cumulative data for the year serves as preliminary information on a significant portion of the industry until definitive annual statistics are available. Figures have been added showing total distance run and fuel consumed, using the International System of Units. This is the most modern version of the metric system supported by the International Bureau of Weights and Measures. It is the system of units which Canada is adopting.

The following observations apply to the data in this release:

- Data relating to other services such as charter or contract are specific to the surveyed passenger bus carriers and are not indicative of over-all charter and contract operations;
- Passengers paying a fare to the operator of one vehicle and travelling on a second or third vehicle on a transfer are counted for the first vehicle only;
- Total distance run in a revenue service includes distance run empty which was necessary to provide the revenue service.
For further information, contact the Chief (613-9969271), Surface Transport Section, Transportation and Communications Division, Statistics Canada, Ottawa K1A $0 T 6$.

Domestic Washing Machines and Clothes Dryers, June 1978 - Advance Information
Canadian manufacturers' domestic sales of automatic' washing machines totalled 34,904 units in June, down from 36,236 in June 1977. Conventional washing machine sales were 4,837 units compared to 5,845 (revised) a year earlier.

Canadian sales of electric clothes dryers declined to 27,938 units from 29,983.

For further information, order the June issue of Domestic Washing Machines and Clothes Dryers (43$002,15 \$ / \$ 1.50$ ), or contact Mr. T. Raj Sehdev (613-992-0388), Manufacturing and Primary Industries - Division, Statistics Cànada, Ottawa K1A OV6.

Asbestos, June 1978 - Advance Information
Canadian producers' shipments of asbestos decreased to 139,883 short tons in June from 143,251 short tons in June 1977. This brought year-to-date shipments to 702,014 short tons in 1978 from 806,106 short tons in 19.77.

For further information, order the June issue of, Asbestos (26-001, 15\$/\$1.50), or contact Art Symons (613-992-0491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Farm Cash Receipts, January-June 1978 - Advance Information

Preliminary estimates indicate that during the January to June period of 1978 farmers' total cash receipts from farming operations in all provinces except Newfoundland totalled $\$ 5,628.3$ million compared to $\$ 4,882.9$ million realized during the same period of 1977. These estimates include: cash receipts from the sale of farm products; Canadian Wheat Board participation payments on previous years' grain crops; cash advances on farm-stored grains in Western Canada; and deficiency payments made by the Agricultural Stabilization Board. No deduction is made for the cost
incurred by farmers in the production of the commodities sold:

For further information, order the June issue of Farm Cash Receipts (21-001, 30\$/\$3), or contact G. Andrusiak (613-994-9876), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Farm Implement And Equipment Sales, January-June 1978 - Advance Information
Sales of farm implements and equipment (including repair parts) for January to June 1978 were valued at $\$ 615.7$ million, an increase of $13.9 \%$ from the JanuaryJune 1977 figure of $\$ 540.4$ million.
Repair parts for the latest period had a value of $\$ 88.9$ million compared with $\$ 78.5$ million in 1977.

Unemployment, Canada

The Labour Force, July 1978
Canada's seasonally-adjusted unemployment rate edged down to $8.4 \%$ in July from $8.6 \%$ in June. The rate in July 1977 was 8.2\%.

Last month the employment level reached 10,132,000, up 62,000 from June. Unemployment decreased by 17,000 to a total of 927,000 persons. The seasonally-adjusted participation rate rose to 62.8\% from 62.6\%.

On a seasonally-adjusted basis, employment increased for men and women in the 15 to 24 age group by 23,000 and 15,000 , respectively. The level for men 25 and over was up by 5,000 and for women of the same age group it rose by 19,000 . The unemployment level
decreased by 6,000 for both men and women 15-24 and by 8,000 for men 25 and over. The level increased by 3,000 for women 25 and over.

Seasonally-adjusted July unemployment rates for the provinces, with June rates in brackets: Newfoundland $16.7 \%$ (17.3\%); Prince Edward Island 9.1\% (9.7\%); Nova Scotia 10.9\% (10.7\%); New Brunswick 12.9\% (11.6\%); Quebec 10.5\% (11.4\%); Ontario 7.3\% (7.4\%); Manitọba 6.7\% (6.6\%); Saskatchewan 3.9\% (5.0\%); Alberta 4.8\% (4.7\%); and British Columbia 7.7\% (7.8\%). (continued)

Without seasonal adjustment, the July labour force was $11,570,000$ with $10,644,000$ employed and 927,000 unemployed for an unemployment rate of $8.0 \%$. In June, the labour force was $11,304,000$ with $10,400,000$ employed and 903,000 unemployed for a rate of $8.0 \%$. In July 1977, the labour force numbered 11,100,000 with 10,222,000 employed and 878,000 unemployed for a rate of 7.9\%.

For further information, order the July issue of The Labour Force (71-001, 55\$/\$5.50).

Radio and Television Recelving Sets, June 1978 Advance Information
Canadian manufacturers' domestic sales of "Made in Canada" colour television sets totalled 8,016 units in June, down from 27,452 in June 1977.

For further information, order the June issue of Radio and Television Receiving Sets (43-004, 30\$/\$3), or contact Mr. Raj Sehdev (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

## Sales Financing, 1977 - Advance Information

Total retail instalment finance paper purchased during 1977 was $\$ 2,877.7$ million, up $2.6 \%$ over $\$ 2,803.7$ million in 1976. Balances outstanding rose $2.1 \%$ over the 12 -month period from $\$ 3,392.0$ million to $\$ 3,462.3$ million at year-end 1977.

Aggregate purchases in 1977 comprised \$1,029.1 million (down $4.2 \%$ from 1976) for consumer goods paper and $\$ 1,848.6$ million for commercial goods paper (up 6.9\%). Balances outstanding at year-end for these two types of finance paper were $\$ 1,086.1$ million (down $4.3 \%$ ) and $\$ 2,376.2$ million (up $5.3 \%$ ), respectively.
These companies also reported:

- Wholesale financing, with 1977 purchases of $\$ 8,239.6$ million (up $13.3 \%$ over 1976) and year-end balances of $\$ 1,991.0$ million (up 32.8\%);
- Lease and rental financing, with acquisitions of $\$ 329.8$ million in contracts during 1977 (up 23.2\%) and outstandings of $\$ 1,034.5$ million at year-end (up 8.4\%);
- Small loans outstanding of $\$ 207.9$ million;
- Other personal cash loan balances of $\$ 1,459.9$ million.
Further information will be contained in Sales Financing, 1977 (63-211, \$1.05), or contact the Retail Trade Section (613-996-9304 or telex 053-3585), Merchandising and Services Division, Statistics Canada, Ottawa K1A OV4.

[^11]Road Motor Vehicle Revenues, 1976 - Advance Information
Total provincial and territorial government revenues from motive fuel taxes, vehicle registrations and other road-related revenues totalled $\$ 2,216$ million in the fiscal year ending March 31, 1977, up 6.5\% from \$2,081 million in the 1975-76 fiscal year. Motive fuel taxes, which account for the bulk of this revenue, showed a gain of $3.9 \%$ to $\$ 1,564$ million in 1976 from $\$ 1,505$ million the year before.

Revenues collected by Revenue Canada from the $10 \Phi$ a gallon tax on gasoline totalled $\$ 766$ million during the 1976-77 fiscal year.

For further information, contact the Surface Transport Section (613-996-9271); Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6.

Radio and Television Broadcasting, 1977 - Advance Information
Privately-owned radio broadcasting revenues for the year ended August 31, 1977 were up 11\% from the previous year to $\$ 272$ million. Programming, technical, sales and administrative expenses rose $14 \%$ to $\$ 226$ million. Depreciation was $\$ 8$ million and interest expense was $\$ 6$ million. Other adjustments produced revenues of $\$ 4$ million. Net profit before tax was $\$ 36$ million, unchanged from the previous year.

Television broadcasting revenues increased 17\% to $\$ 331$ million. Programming, technical, sales and administrative expenses rose $21 \%$ to $\$ 255$ million. Depreciation was $\$ 14$ million and interest expense $\$ 8$ million. Other adjustments produced income of $\$ 7$ million. Net profit before tax was estimated at $\$ 61$ million, an increase of $3 \%$.

In addition, CBC operations produced revenues from sale of air-time of $\$ 66$ million compared to $\$ 59$ million in the previous period. The net cost of operating the CBC was $\$ 397$ million compared to $\$ 334$ million for the previous period.

Further details will be included in the 1977 issue of Radio and Television Broadcasting (56-204, 70\$). For further information; contact Pat Crosby (613-9969274), Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6.

## Cable Television, 1977 - Advance Information

Cable television revenues for the year ended August 31, 1977 were $\$ 233$ million, up $17 \%$ from $\$ 199$ million in the previous year.

Programming, technical, sales and administrative expenses increased $18 \%$ to $\$ 127$ million from $\$ 108$ million. Depreciation was estimated at $\$ 43$ million and interest expense at $\$ 20$ million, other income was $\$ 2$ million, leaving a profit before income tax of $\$ 45$ million compared to $\$ 36$ million the previous year, a 25\% increase.

Further information will be included in the 1977 issue of Cable Television (56-205, \$1.05). For further information, contact Patrick Crosby (613-996-9274), Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6.

(2) Included are the following major groups: 7. Clothing Industries, 15. Transportation Equipment Industries, 20. Miscellaneous Manufacturing Industries.

Industry Selling Price Index: Manufacturing (1971=100), June 1978 - Advance Information The Industry Selling Price Index for manufacturing rose $0.4 \%$ to 187.0 in June from its revised May level of 186.2. The index was $7.5 \%$ higher than in June 1977 when it stood at 173.9. The major groups having the most effect on the total index in June were food and beverage industries and primary metal industries.
The food and beverage major group index rose $0.8 \%$ due largely to price increases of $1.8 \%$ for slaughtering and meat processors, $3.2 \%$ for poultry processors, $1.3 \%$ for bakeries, $0.7 \%$ for miscellaneous food processors (n.e.s.) and $1.5 \%$ for soft drink manufacturers.

The primary metal major group index registered an increase of $0.9 \%$ due mainly to increases of $1.4 \%$ for smelting and refining, $0.4 \%$ for iron and steel mills and $1.5 \%$ for aluminum rolling, casting and extruding.
For further information, order the June issue of Industry Price Indexes ( $62-011,55 ¢ / \$ 5.50$ ), or contact Information Unit (613-996-1399 or 613-994-9957), Prices Division, Statistics Canada, Ottawa K1A OV5.

Production, Shipments and Stocks on Hand of Sawmills East of the Rockies, May 1978-Advance Information
Production of lumber in sawmills east of the Rockies increased in May to 538,936,000 feet board measure ( $1271748 \mathrm{m3}$ ) from a revised 414,920,000 feet board measure ( $979419 \mathrm{m3}$ ) in May 1977. Stocks on hand at the end of May 1978 totalled 1,059,988,000 feet board measure (2 501297 m 3 ).

For further information, order the May issue of Production, Shipments and Stocks on Hand of Sawmills East of the Rockies (35-002, 304/\$3), or contact Mr. P.E. Martin (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Production, Shipments and Stocks on Hand of Sawmilis in British Coiumbla, May 1978 - Advance Information
Sawmills in British Columbia produced $1,098.5$ million feet board measure ( $2592100 \mathrm{m3}$ ) of lumber and ties in May compared to 985.4 million feet board measure ( 2325300 m 3 ) a year earlier.
January to May production increased to 5,376.8 million feet board measure ( 12687800 m 3 ) in 1978 from $5,164.4$ million feet board measure ( 12186700 m 3 ) in 1977.
For further information, order the May issue of Production, Shipments and Stocks on Hand of Sawmills in British Columbia (35-003, 30¢/\$3), or contact Mr. P.E. Martin (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Department Store Sales by Regions, June 1978
Department store sales totalled $\$ 600.1$ million in June, an increase of $14.1 \%$ from a year earlier. Sales were up in all regions of Canada.
Department store sales by regions for the latest month, with percentage increases from June 1977 in brackets:

- Ontario, $\$ 222.5$ million (13.9\%);
- Quebec, $\$ 111.5$ million ( $9.9 \%$ );
- British Columbia, $\$ 96.1$ million (21.2\%);
- Alberta, $\$ 80.4$ million (14.8\%);
- Atlantic Provinces, $\$ 39.3$ million ( $11.0 \%$ );
- Manitoba, $\$ 33.5$ million ( $12.2 \%$ );
- Saskatchewan, $\$ 16.8$ million ( $14.4 \%$ ).

For further information, order the June issue of Department Store Sales by Regions (63-004, \$1.50 a year).

Iron Ore, June 1978 - Advance Information
Canadian mines shipped $2,354,200$ short tons of iron ore in June compared to $6,645,918$ short tons a year earlier. This brought the six-months output to 11,060,626 short tons in 1978 from 22,222,413 short tons in 1977.
For further information, order the June issue of Iron Ore (26-005, 15 $\$ / \$ 1.50$ ), or contact Art Symons (613-992-0491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Frult And Vegetable Production, August 1978 Advance Information
Advance information is now available on the latest area, production and value for fruits and vegetables. Included in this month's publication are the results of the Niagara peach and grape survey.
For further information, order the August issue of Fruit And Vegetable Production (22-003, 40§/\$3), or contact Karen Wardley (613-994-9994), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Sugar Sales, July 1978 - Advance Information For July, Canadian sugar refineries reported total sales of 98121242 kilograms ( $216,320,343 \mathrm{lbs}$.) of all types of sugar. Domestic sales totalled 86946349 kilograms ( $191,683,918 \mathrm{lbs}$.) and export sales amounted to 11174893 kilograms ( $24,636,425 \mathrm{Ibs}$.).
For further information, contact Mr. T.P. Sterling (613-992-8619), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OT6.

Retail Trade, June 1978 - Advance Information Seasonally-adjusted retail sales for June were $\$ 5,782.4$ million, an increase of $2.3 \%$ from the $\$ 5,650.4$ million recorded in May. Sales were up in 21 of the 28 trade groups. The most notable gains were posted by florists (10.7\%) household appliance stores (9.4\%) and grocery, confectionery and sundries stores (8.5\%) while garages ( $-3.4 \%$ ) had the largest decrease. Eight provinces reported increased sales over May, ranging from $5.3 \%$ for Ontario to $0.1 \%$ for Alberta; the only decreases were in Prince Edward Island ( $-2.2 \%$ ) and Manitoba (-0.3\%).

Total retail trade without seasonal adjustment reached $\$ 6,271.5$ million, up. 17.0\% over June 1977. Sales increased in 27 of the 28 trade groups. The largest gains were shown by garages (34.6\%) and grocery, confectionery and sundries stores (23.9\%) while the only decrease was for furniture, TV, radio and appliance stores ( $-3.2 \%$ ). All provinces had increased sales over June 1977, ranging from $24.3 \%$ for Nova Scotia to $11.8 \%$ for Manitoba. Montreal sales rose $13.4 \%$; Toronto, $18.5 \%$; Winnipeg, $10.4 \%$; and Vancouver, $22.5 \%$.

Revised total retail trade, unadjusted for seasonal influences, for May was $\$ 5,971.4$ million, an increase of 14.6\% from May 1977.

For further information, order the June issue of Retail Trade (63-005, 55\$/\$5.50), or contact the Retail Trade Section (613-996-9304), Merchandising and Services Division, Statistics Canada, Ottawa K1A OV4.

Stocks of Dairy and Frozen Poultry Products, August 1, 1978 - Advance Information
Cold storage holdings of frozen poultry products at August 1 amounted to 55.5 million pounds compared with last year's total of 85.6 million pounds.

For further information, order the August issue of Stocks of Dairy and Frozen Poultry Products (32-009, $30 ¢ / \$ 3$ ), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Electric Power Statistics, May 1978 - Advance Information
In May, net generation increased to 25.1 TW.h from 24.1 TW.h in May 1977. Hydro generation increased 7.4\% while thermal production decreased 4.7\%.

For further information, order the May issue of Electric Power Statistics (57-001, 30\$/\$3), or contact David Madsen (613-992-4021), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0T6.

Coal and Coke Statistics, May 1978 - Advance Information
Canadian coal production decreased 1.1\% in May to 2,730,384 tons (2 476963 metric tonnes) from 2,760,264 tons (2 504069 metric tonnes) a year earlier. Imports decreased to 1,989,444 tons ( 1804793 metric tonnes) from 2,834,577 tons (2 571485 metric tonnes). Industrial consumers used 1,663,131 tons ( 1508767 metric tonnes) of coal, down 279,464 tons ( 253526 metric tonnes) from May 1977 and 490,719 tons ( 445173 metric tonnes) of coke, up 13,936 tons ( 12643 metric tonnes).

For further information, order the May issue of Coal and Coke Statistics (45-002, 40\$/\$4), or contact David Madsen (613-992-4021), Energy and Minerals Section, Statistics Canada, Ottawa K1A 0T6.

Stoves and Ranges, June 1978 - Advance Information Canadian manufacturers' domestic sales of electric stoves and ranges in June decreased 10.2\% to 40,647 units from 45,282 in June 1977. Closing inventory of these products decreased by $22.2 \%$ to 76,785 units from 98,646 a year earlier.

For further information, order the June issue of Stoves and Furnaces (41-005, 30\$/\$3), or contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A $0 V 6$.

Steel Ingots and Pig Iron, July 1978 - Advance Information
Preliminary estimate of steel ingots production for July 1978 was $1,345,490$ short tons (i 220608 t). Pig iron production was $1,008,348$ short tons ( 914758 t ).

For further information, order the July issue of Steal Ingots and Pig Iron (41-002, 15\$/\$1.50), or contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV3.

Domestic and Foreign Control of Manufacturing, Mining and Logging Industries, 1974 - Advance Information
Canadian-controlled establishments and their associated head offices, sales offices and auxiliary units accounted for $56.9 \%$ of total employees in the manufacturing industries according to recent tabulations based on the 1974 Census of Manufactures. This figure was unchanged from 1972, but up slightly from 1970, when $55.7 \%$ of employees worked in Canadiancontrolled establishments. The share of total employees of establishments controlled in the United States has fallen steadily since 1970, from 35.8\% in that year to $34.1 \%$ in 1974. Establishments controlled in other foreign countries accounted for $9.0 \%$ of total employees in the manufacturing industries.
The share of output accounted for by foreigncontrolled manufacturing establishments was larger than their share of employment. Foreign-controlled manufacturing establishments accounted for $53.5 \%$ of total shipments and 51.1\% of total value added in 1974, compared with $43.1 \%$ of total employees.
The proportion of total employees working in Canadian-controlled manufacturing establishments was lower in Ontario than in any other province, at 47.0\% in 1974. In most other provinces this share was in the $60.0 \%$ to $70.0 \%$ range; however, Canadiancontrolled manufacturing establishments accounted for $75.0 \%$ of total employees in New Brunswick and for 79.6\% in Saskatchewan in 1974.

The share of mining production originated by Canadian-controlled establishments increased sharply between 1970 and 1974, from $28.1 \%$ in 1970 to $48.5 \%$ in 1972 and $53.2 \%$ in 1974, largely as the result of the reclassification of certain large enterprises from United States to Canadian control.
Among mining major groups, Canadian control was most important in metal mines (with the exception of the iron mines industry) and in quarries and sand pits, while foreign-controlled establishments were relatively more important in coal mines and other non-metal mines. (These figures for mining exclude the crude petroleum and natural gas industry, for which comparable data are not available).

Extensive related detail for industry groups and industries for Canada, industry groups for provinces and all-industry totals for census metropolitan areas will be published later in Domestic and Foreign Control of Manufacturing, Mining and Logging Establishments in Canada, 1974 (31-401). For further information, contact H.D. Potter. (613-992-9654), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OT6.
(see table on next page)
Particle Board, June 1978 - Advance Information
Canadian firms produced 67,686,000 square feet ( 6289000 m 2 ) 5/8' ( 15.9 mm .) basis of particle board in June compared to $52,450,000$ square feet (4 $874000 \mathrm{m2}$ ) in June 1977, an increase of $29.0 \%$.

For further information, order the June issue of Particle Board (36-003, 15¢/\$1.50), or contact Mr. C. Sturton (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A $0 V 6$.

Telephone Statistics, June 1978 - Advance Information
Thirteen major telephone systems reported revenues of $\$ 359.8$ million in June, up 13.8\% over June 1977. Operating expenses were $\$ 256.0$ million, an increase of $10.4 \%$. Net operating revenue at $\$ 103.8$ million showed an increase of $23.1 \%$ over June 1977. Telephone toll messages increased $9.9 \%$ to 92.1 million.

For further information, order the June issue of Telephone Statistics' (56-002; \$1.50 a year.); or contact Patrick Crosby (613-996-9274), Transportation and Communications Division, Státistics.Canada, Ottawa K1A $0 T 6$.

* Value added by manufacturing activity in manufacturing industries, by mining activity in mining industries and by logging activity in logging industries; this measure of net output ranks industries on a comparable basis.
** Includes employees of associated head offices, sales offices and auxiliary units.
*** Includes silver-cobalt mines in 1974.
x Corifidential.

Domestic Mobile Homes, April-June 1978 - Advance Information
Shipments of domestic mobile homes dropped to 2,266 single units in the June quarter from 3,437 in the corresponding period of 1977. Shipments of doublewide units decreased to 691 from 758 a year earlier.

For further information, order the second quarter issue of Shipments of Domestic Mobile Homes (41017, $35 \$ / \$ 1.40$ ), or contact Mr. T. Raj Sehdev (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Footwear Statistics, Juine 1978 - Advance Information
Canadian production of footwear of all types increased to $3,671,975$ pairs in. June from 3,429,362 pairs in June 1977.

For further information, order the June issue of Footwear Statistics $(33-002,30 \Phi / \$ 3)$, or contact Mr. R. Ralph (613-992-2231),. Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A $0 V 6$.

Railway Carloadings
10-day period Ended July 31

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.

Piggyback traffic includes trailers and containers on flat cars.
All 1977 figures have been revised.

Railway Carloadings, 10 Days Ended July 31, 1978 Published Only in the Daily
Canadian rail loadings totalled 6.0 million t ( 6.6 million short tons) in the above 10 days, down $1.6 \%$ from the same period in 1977 (loadings are gradually returning to normal with the end of strikes at iron ore mines in Quebec and Labrador). Loadings east of the Lakehead were down 13.1\%; Western loadings were up 12.2\%.

Container-trailer (piggyback) shipments rose 4.6\% over-all, increasing $3.4 \%$ in the East and $7.3 \%$ in the West.

For January to July 1978, rail freight loadings were $10.4 \%$ below the same period of 1977, while cumulative container-trailer (piggyback) traffic was up 4.6\%.

For further information, contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

Steel Ingots, Week Ended August 12, 1978 — Advance Information
Preliminary steel ingots production for the week ended August 12 was 241,396 short tons ( 218991 t ), an increase of $2.5 \%$ from the preceding week's total of 235,417 short tons ( 213567 t). The comparable week's total in 1977 was 277,712 short tons ( 251936 t).

The index of production based on the average weekly output during 1967 of 183,227 short tons ( 166211 t) equalling 100 was 131.7 in the current week, 128.5 a week earlier and 151.6 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

(2) Includes gasoline, motor oil, domestic gas, fuel oil and electricity.

The Consumer Price Index, July 1978 (62-001, 30థ/\$3) The all-items Consumer Price Index for Canada ( $1971=100$ ) advanced $1.5 \%$ to 177.7 in July from 175.1 in June. As a result, the 12 -month rise between July 1977 and July 1978 stood at $9.8 \%$, up from $9.2 \%$ the previous month. Continued sharp price advances in the food component were largely responsible for this latest monthly rise - the food index advanced by $4.0 \%$ while the all items excluding food index increased by a moderate 0.4\%.

Higher prices for fresh fruit and vegetables, up 17.8\% on average in the latest month, were largely responsible for the $4.5 \%$ increase in the food-at-home index. The monthly increase in fresh fruit and vegetables primarily reflected the replacement of depleting domestic supplies of apples and potatoes by higher priced imports. Beef prices, which advanced in excess of $10 \%$ in each of the previous two months, advanced by $3.9 \%$ in July. Price increases were also recorded for poultry, other meat products, margarine and selected cereal and bakery products.

Higher shelter costs and increased hotel/motel charges were the largest contributing factors in the $0.4 \%$ increase in the all items excluding food index. Other notable factors included higher prices for some North American and imported model cars, increased automobile operation and maintenance costs, as well as higher dental care charges. Clothing prices registered a slight decline as lower prices for men's clothing and footwear more than offset increases in women's and children's wear. Between July 1977 and July 1978, the index for all items excluding food. advanced by $6.0 \%$.

Viewed in terms of goods and services, the price level of goods, including food, increased $2.0 \%$ in the
latest month while that for services was up $0.6 \%$. Between July 1977 and July 1978; the price level of goods increased by $11.8 \%$ while that for services rose by $6.7 \%$.

On a seasonally-adjusted basis, the all-items CPI advanced by $1.2 \%$ between June and.July: this comprised a $2.7 \%$ increase in the food index and a $0.6 \%$ rise in the index for all items excluding food.

In July, the current annual rate of change in the CPI*, based on the seasonally-adjusted movement in the latest three-month period, was $12.7 \%$.

* See Table 2 and technical notes of this release.
(see table on next page)

## Note to CPi Users

Technical problems encountered with the new CPI production system have forced a delay in the introduction of the CPI revision. Statistics Canada will advise users of the new month of introduction of the revision once these difficulties have been resolved.

Users are also advised that as of August 14. 1978, the telephone number for CPI-related inquiries is changed from. (613-994-9470) to (613-995-4078).

Federal Electoral Districts - Population and Housing Characteristics - 1976 Census of Canada
Data for the 282 new federal electoral districts as established by the 1976 Representation Order can be found in a bulletin of the 1976 Census of Canada which is released today. Population for each electoral district is shown distributed by age groups (including voting age), sex, marital status, mother tongue (English, French, German, Italian, Ukrainian, other), school attendance and level of schooling, labour force participation rates and unemployment rates for both males and females. The bulletin also provides information such as the number of persons per private household, the average number of children per family, as well as the tenure and type (single detached, single attached, apartments, etc.) of private occupied dwellings.

This bulletin (catalogue 92-808, \$3) is available from Publications Distribution, Statistics Canada, Ottawa K1A 0T6.

Nickel-Copper Mines, 1976 - Advance Information Total value added in nickel-copper mines in 1976 was $\$ 888,080,107$, an increase of $21 \%$ over $\$ 729,655,987$ in 1975.

For further information, order the 1976 issue of Nickel-Copper Mines (26-211, 70¢), or contact Art Symons (613-992-0491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OT6.

Consumer Credlt, June 1978 - Advance Information Consumer credit outstanding on the books of selected credit holders reporting monthly reached $\$ 26,494$ million at the end of June, an increase of 12.9\% from a year earlier.

Outstanding balances of monthly-reporting credit holders at the end of June 1978, with percentage changes from a year earlier:

- Chartered banks' personal loans: $\mathbf{\$ 2 0 , 5 1 3}$ million, up 16.0\%.
- Quebec savings banks' personal loans: $\$ 98$ million, up $19.5 \%$.
- Life insurance companies' policy loans: \$1,307 million, up 3.4\%.
- Sales finance and consumer loan companies' loans: small $\$ 186$ million, down 13.1\%; large $\$ 1,479$ million, up $0.1 \%$; instalment sales paper $\$ 1,107$ million, down 0.7\%.
- Department stores and furniture, TV, radio and household appliance stores: $\$ 1,399$ million, up $8.1 \%$.
- Trust and mortgage companies' personal loans: $\$ 405$ million (preliminary), up 23.9\%.
Credit. holders reporting quarterly had combined outstanding balances of a revised $\$ 6,655$ million at the end of the first quarter of 1978, up $15.8 \%$ from a year earlier. The largest of these holders, credit unions and caisses populaires, reported balances outstanding of $\$ 4,755$ million, up $19.6 \%$ (also included in the quarterly total: other retail stores; other credit-card issuers; and public utilities).
Including quarterly reporters, outstanding balances at the end of the first quarter of 1978 totalled $\$ 31,774$ million, up $12.5 \%$ from March 31, 1977.

For further information, order the June issue of Consumer Credit (61-004, 30\$/\$3), or contact the Retail Trade Section (613-996-9304 or telex 053-3585), Merchandising and Services Division, Statistics Canada, Ottawa K1A 0V6.

Wholesale Trade, June 1978 - Advance Information Sales by wholesale merchants for June were estimated at $\$ 5,708,534,000$, an increase of $10.3 \%$ from $\$ 5,173,864,000$ in June 1977.

Wholesale inventories were valued at $\$ 8,130,395,000$, up $11.4 \%$ from stocks of $\$ 7,299,804,000$ on hand at the end of June last year. For further information, order the June issue of Wholesale Trade (63-008, 15\$/\$1.50).

Pulpwood and Wood Residue, June 1978 - Advance Information
Roundwood production decreased $3.7 \%$ to $1,535,426$ cunits ( 4347000 m 3 ) in June from 1,594,079 cunits (4514000 m3) in June 1977. Receipts of wood residue increased $7.3 \%$ to $1,147,099$ cunits ( 3246000 m 3 ) from 1,069,411 cunits ( $3028000 \mathrm{m3}$ ). Consumption of roundwood and wood residue increased $2.2 \%$ to $2,586,123$ cunits ( 7323000 m 3 ) from 2,531,676 cunits ( $7168000 \mathrm{m3}$ ) and the closing inventory of these two products decreased $9.7 \%$ to $8,578,714$ cunits (24 293000 m 3 ) from $9,498,249$ cunits ( 26896000 m 3 ).

For further information, order the June issue of Pulpwood and Wood Residue Statistics (25-001, $15 \$ / \$ 1.50$ ), or contact Mr. C. Sturton (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

## Production, Consumption and Inventorles of Rubber,

 June 1978 - Advance InformationCanadian production ' of rubber decreased to $47,814,000$ pounds ( 21.688000 kg ) in June from $49,373,000$ pounds ( 22394000 kg ) in June 1977. Consumption of rubber decreased to $57,053,000$ pounds ( 25879000 kg ) from a revised $61,136,000$ pounds ( 27727000 kg ) a year earlier.

For further information, order the June issue of Production, Consumption and Inventories of Rubber (33-003, 30 $/ \$ 3$ ), or contact Mr. R. Ralph (613-9922231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

General Wholesale Price Index (1935-39=100), June 1978 - Advance Information
The General Wholesale Index rose $0.6 \%$ to 604.0 in June from its revised May level of 600.5 . The index was 8.0\% higher than in June 1977 when it stood at 559.2. The major groups having the most effect on the total index in June were animal products, vegetable products, iron products and non-ferrous metals.

The animal products index rose $1.9 \%$, due mainly to price increases of $5.7 \%$ for livestock, 2.2\% for fish and $0.7 \%$ for milk and its products. Vegetable products showed a $0.4 \%$ increase, attributable largely to increases of $1.8 \%$ for bakery products and $13.9 \%$ for potatoes; the increases were partly offset by a $1.0 \%$ decrease for grains.

The iron products index rose 0.5\% in June, reflecting increases of $0.6 \%$ for rolling mill products, $1.4 \%$ for iron foundries and steel pipe and tubing, and 2.0\% for scrap iron and steel. Non-ferrous metals rose $0.7 \%$, due in part to increases of 6.8\% for silver, $7.6 \%$ for tin, $3.7 \%$ for zinc and its products, $4.7 \%$ for gold and $0.5 \%$ for copper.

Dairy Factory Production, July 1978 - Advance Information
Production of creamery butter decreased 18.1\% in July to 25.8 million pounds from 31.5 million pounds in July 1977. Cheddar cheese production was down $3.2 \%$ to 15.6 million pounds from 16.1 million pounds, and production of ice cream mix decreased $4.7 \%$ to 3.5 million gallons from 3.6 million gallons.

For further information, order the July Issue of Dairy Factory Production (32-002, 15\$/\$1.50), or contact Mr. C.M. Riach (613-995-4859), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

## Railway Carloadings

7-day period Ended August 7

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.

Piggyback traffic includes trailers and containers on flat cars.
All 1977 figures have been revised - 1978 cumulative data also revised.

Railway Carloadings, 7 Days Ended August 7, 1978 Published Only in the Daily
Canadian rail freight loadings in the above week totalled 4.6 million t ( 5.0 million short tons), a $9.7 \%$ increase over the first seven days of August 1977. Traffic in the East rose $4.2 \%$ while a volume gain of $16.9 \%$ was recorded west of the Lakehead.

Container-trailer (piggyback) shipments rose sharply in both regions ( $39.4 \%$ in the East and $32.3 \%$ in the West) to register an over-all increase of 37.4\%.

In the period January 1 to August 7, 1978, freight loaded by rail in Canada aggregated 121.7 million $t$ ( 134.2 million short tons), off $9.5 \%$ from the 1977 pace. Cumulative loadings in the East were 19.8\% below the year-earlier level, while Western loadings showed a gain of $2.8 \%$. Container-trailer (piggyback) movements were up 5.8\%.

For further information, contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OV6.

Stocks of Dairy and Frozen Poultry Products, August 1, 1978 - Advance Information
Cold storage holdings of creamery butter were up to 79.6 million pounds on August 1 from last year's corresponding total of 59.3 million, and stocks of cheddar cheese increased to 65.1 million pounds from 64.1 million. Stocks of skim milk powder decreased to 93.5 million pounds from 184.4 million and stocks of evaporated whole milk decreased to 22.8 million pounds from 40.7 million.

For further information, order the August issue of Stocks of Dairy and Frozen Poultry Products (32-009, $30 \$ / \$ 3$ ), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Farm Input Price Indexes (1971=100), Second Quarter 1978 - Advance Information
The Farm Input Price Index for Canada increased 5.0\% in the second quarter of 1978 to 196.7 from 187.3 (revised) in the preceding quarter. The eastern index rose $5.4 \%$ to 194.9 from 185.0 (revised) and the western. index was up $4.7 \%$ to 198.7 from 189.8 (revised).

Farm production costs in Canada rose 8.6\% over the 12 months to June 30, 1978, 7.6\% in the East and 9.7\% in the West.

For further information, order the second quarter issue of Farm Input Price Indexes (62-004, 35¢/\$1.40), or contact Mrs. A.J. Sprott (613-995-5761), Prices Division, Statistics Canada, Ottawa K1A 0V6.

Mineral Production, June 1978 - Advance Information
Canadian mineral production for June and for 1978 to date, with comparable 1977 figures in brackets:

- Gold, 141,046 troy ounces $(140,660)-834,049$ troy ounces $(846,570)$.
- Silver, $3,971,383$ troy ounces $(3,484,971)$ $21,071,374$ troy ounces $(22,500,382)$.
- Primary copper, 73,515 short tons $(76,657)$ 420,850 short tons $(449,200)$.
- Primary nickel, 16,761 short tons $(23,302)-106,452$ short tons $(134,858)$.
- Refined lead, 20,143 short tons $(18,067)-109,913$ short tons (112,561).
- Refined zinc, 47,744 short tons $(46,384)-268,102$ short tons $(308,857)$.

For further information, order the June issues of: Gold Production (26-004, 15\$/\$1.50); Silver, Lead and Zinc Production (26-008, 15\$/\$1.50); and Copper and Nickel Production (26-003, 15\$/\$1.50); or contact Art Symons (613-992-0491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Report on Livestock Surveys, Pigs, July 1, 1978 Advance Information
Total pig numbers in Canada (excluding Newfoundland) at July 1, 1978 were up 13\% from a year earlier. In the West, numbers increased by $4 \%$ and in the East by $18 \%$. The 1978 estimate for farrowings from January 1 , 1978 to July 1, 1978 was up $15 \%$ from the corresponding 1977 estimate.

For further information, order the July 1, 1978 Report on Livestock Surveys, Pigs (23-005, $35 ¢ / \$ 1.40$ ), or contact L.C. White (613-995-4853), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Canned and Frozen Fruits and Vegetables, June 1978 - Advance Information

Advance information on canned and frozen fruits and vegetables for the month of June is now available.

For further information, order the June issue of Canned and Frozen Fruits and Vegetables (32-011, $30 \Phi / \$ 3$ ), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

## Chemical and Mineral Process Plant Indexes

Second quarter 1978 and first quarter 1978 revised figures for the chemical and mineral process plant indexes are now available.

For further information, order Construction Price Statistics, Monthly Bulletin (62-007, 40థ/\$4), or contact Mr. R.J. Lowe (613-995-5757), Prices Division, Statistics Canada, Ottawa K1A OV5.

## A Study of Enrolment, School Leavers and the Labour Force

The full report of Out of School - Into the Labour Force is released today. It is a study of trends and prospects for enrolment, school leavers and the labour force in Canada - the 1960s through the 1980s ( 400 pages, catalogue number 81-570E, $\$ 6.00$ in Canada, $\$ 7.20$ elsewhere).

There are chapters on:

- Population projections;
- Projections of enrolment and graduates;
- School leavers potentially available to the labour force;
- School leavers and the labour market - impact on the labour force, school leavers and unemployment, education and unemployment, future prospects for school leavers, qualifications spiral and underemployment;
- Alternative projections of population, enrolment and school leavers;
- A comparison of Canadian and American trends.

For further information, contact Dr. Z. Zsigmond, Chief, or Mr. G. Picot, analyst (613-995-9685), Projections Section, Education, Science and Culture Division, Statistics Canada, Ottawa K1A OT6.

## Control and Sale of Alcoholic Beverages in Canada, <br> 1976 - Advance Information

Sales of alcoholic beverages for the fiscal year ended March 31, 1977 reached $\$ 3,688$ million, up $\$ 281$ million ( $8.2 \%$ ) from the previous year. Sales volume decreased marginally.
Imports decreased to $\$ 164$ million from $\$ 170$ million while the value of exports increased to $\$ 257$ million from $\$ 256$ million.

Provincial government revenues from the sales rose $12.7 \%$ to $\$ 1,155$ million.

Further information will be contained in The Control and Sale of Alcoholic Beverages in Canada, 1976 (63202, 754). Advance details can be obtained from R.C. Sauriol (613-995-0718), Public Finance Division, Statistics Canada, Ottawa K1A OT6.

Inventories, Shipments and Orders in Manufacturing Industries, June 1978 - Advance Information
Manufacturers' shipments in June 1978, seasonally adjusted, were estimated at $\$ 10,861.8$ million, up $3.6 \%$. from the revised May level of $\$ 10,486.4$ million. Durable goods shipments rose $6.6 \%$ to $\$ 5,089.7$ million from $\$ 4,775.1$ million and non-durable goods shipments were $1.1 \%$ higher at $\$ 5,772.1$ million compared to $\$ 5,711.3$ million.
New orders in all manufacturing industries, seasonally adjusted, were estimated at $\$ 11,089.0$ million, $3.6 \%$ higher than the revised May value of $\$ 10,708.6$ million. Durable goods new orders rose $7.1 \%$ to $\$ 5,291.6$ million from $\$ 4,939.5$ million and non-durable goods new orders increased $0.5 \%$ to $\$ 5,797.4$ million from $\$ 5,769.1$ million.

Seasonally-adjusted unfilled orders in all'manufacturing industries were estimated at $\$ 11,906.9$ million in June, an increase of $1.9 \%$ from $\$ 11,679.7$ million (revised) in May.

Total inventory owned, seasonally adjusted, at an estimated $\$ 19,675.6$ million was $1.1 \%$ higher than the revised May value of $\$ 19,467.4$ million. Total inventory held was estimated at $\$ 20,672.0$ million, up $1.0 \%$ from $\$ 20,464.0$ million (revised) in May. Raw materials and goods in process estimates increased 1.9\% and 1.1\%, respectively, while finished products showed a 0.2\% drop. The seasonally-adjusted ratio of total inventory owned to shipments was 1.81:1 in June compared to the revised May ratio of $1.86: 1$. The finished products to shipments ratio was $0.62: 1$, down from $0.64: 1$ (revised).
Not adjusted for seasonal variation, manufacturers' shipments in June were estimated at $\$ 11,648.3$ million, 4.0\% higher than the revised May value of \$11,199.8 million. Cumulative shipments for the first six months of 1978 at an estimated $\$ 62,176.3$ million were $14.6 \%$ higher than the $\$ 54,236.0$ million estimated for the January-June 1977 period.

For further information, order the June issue of Inventories, Shipments and Orders in Manufacturing Industries (31-001, 55 $\$ / \$ 5.50$ ), or contact H.D. Wightman (613-996-7008), Manufacturing and. Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.
(see table on next page)
Stocks of Frozen Meat Products, August 1978 Advance Information
Total frozen meat in cold storage at the opening of the firs: business day of August amounted to 97.3 million pounds compared with 97.7 million pounds last month and 101.1 million pounds a.year earlier.

For further information, order the August issue of Stocks of Frozen Meat Products .(32-012, 304/\$3), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A.OL7.

Steel Ingots, Week Ended August 19, 1978 - Advance Information
Preliminary steel ingots production for the week ended August 19 was 275,729 short tons ( 250137 t), an increase of $14.2 \%$ from the preceding week's total of 241,396 short tons (218 991 t). The comparable week's total in 1977 was 288,492 short tons ( $261^{\prime} 716$ t). The index of production based on the average weekly output during 1967 of 183,227 short tons (166 211 t) equalling 100 was 150.5 in the current week, 131.7 a week earlier and 157.4 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

## Consumer Price Indexes for Regional Citles, July 1978

From June to July, consumer price indexes rose in all regional cities with increases ranging from $0.6 \%$ in Edmonton and Vancouver to $2.0 \%$ in St. John's, Nfld. Higher food prices - notably for fresh produce, meat, poultry and restaurant meals - along with increased home ownership charges were largely responsible for these advances. Other important contributing factors included increased hotel/motel accommodation charges, higher prices for some North American and imported model cars, increased automobile operation and maintenance costs as well as higher dental care charges.

## St. John's

All items: June to July 1978, up 2.0\%; July 1977 to July 1978, up 8.1\%.
Main contributors: higher prices for fresh produce, meats and poultry; increased electricity rates. Dental care fees and beer prices also up.

## Halliax

All items: June to July 1978, up 1.2\%; July 1977 to July 1978, up 7.7\%.

Main contributors: higher prices for fresh vegetables, beef products and restaurant meals; increased shelter charges. Higher prices for some new automobiles and increased hotel/motel rates.

## Saint John

All items: June to July 1978, up 1.4\%; July 1977 to July 1978, up $8.6 \%$.
Main contributors: higher prices for fresh produce, beef, fresh milk and poultry; increased home ownership charges. Prices also up for dental care, hotel/motel rooms and television repairs.

## Quebec Clty

All items: June to July 1978, up 1.5\%; July 1977 to July 1978, up 8.7\%.
Main contributors: increased prices for fresh produce, poultry, beef, bread and restaurant meals; higher shelter charges. Prices for selected women's wear items and hotel/motel rates also up.

## Montreal

All items: June to July 1978, up 1.5\%; July 1977 to July 1978, up 9.1\%.

Main contributors: higher prices for fresh produce, bread, beef and poultry; increased charges for household help and higher hotel/motel rates.

## Ottawa

All items: June to July 1978, up 1.3\%; July 1977 to July 1978, up 9.1\%.

Main contributors: higher prices for fresh produce, beef products and bread while those for chicken and soft drinks declined. Higher shelter charges and increased hotel/motel rates.

## Toronto

All items: June to July 1978, up 1.8\%; July 1977 to July 1978, up 9.6\%.

Main contributors: higher prices for fresh produce, beef, poultry and restaurant meals; increased charges for shelter and household help. Dental care fees increased while prices for selected clothing items declined.
Thunder Bay
All items: June to July 1978, up 0.8\%; July 1977 to July 1978, up 7.6\%.

Main contributors: higher prices for fresh vegetables, beef, other meats, poultry and restaurant meals while those for pork and soft drinks declined; increased shelter charges and higher electricity rates. Hotel/motel rates increased while gasoline prices declined.

## WInnlpeg

All items: June to July 1978, up 1.0\%; July 1977 to July 1978, up 8.8\%.

Main contributors: higher prices for fresh vegetables, meat, poultry, bread and restaurant meals while those for fresh fruit declined; increased gasoline prices. Shelter charges and hotel/motel rates also up.

## Saskatoon

All items: June to July 1978, up 1.1\%; July 1977 to July 1978, up 8.9\%.

Main contributors: higher prices for fresh produce, bread, poultry and restaurant meals while those for beef declined; increased charges for shelter, appliance repairs and household help. Hotel/motel rates and dentists' fees also advanced.

## Regina

All items: June to July 1978, up 1.0\%; July 1977 to July 1978, up 10.4\%.

Main contributors: higher prices for fresh produce, meat, poultry and restaurant meals while those for bread declined; increased charges for shelter and household help, as well as higher furniture prices. Dentists' fees and hotel/motel rates also up.

## Edmonton

All items: June to July 1978, up 0.6\%; July 1977 to July 1978, up 9.6\%.

Main contributors: higher prices for fresh vegetables, meat, bread and restaurant meals while those for soft drinks declined; increased shelter charges. Prices also up for selected clothing items, television repairs and hotel/motel accommodation. Gasoline prices declined.

* For inter-city indexes of retail price differentials refer to Section C, of Prices and Price Indexes (62-010, \$1.40/\$5.60).
** The indexes for the cities of Saskatoon, Regina, Edmonton and Calgary supersede, as of January 1975, the combined cities series of Saskatoon-Regina and Edmonton-Calgary. For further details see Retail Prices and Living Costs Service Bulletin (Statistics Canada Catalogue No. 62-005, Vol. 3, No. 5).

## Caigary

All items: June to July 1978, up 0.9\%; July 1977 to July 1978, up 9.0\%.

Main contributors: higher prices for fresh produce, pork and restaurant meals while beef prices declined; increased electricity rates and shelter charges. Prices also up for some new cars, hotel/motel accommodation and dental care services.

## Vancouver

All items: June to July 1978, up 0.6\%; July 1977 to July 1978, up 8.2\%.
Main contributors: higher prices for meat, fresh produce, cereal products, poultry and restaurant meals; increased shelter charges. Hotel/motel rates and new car prices also advanced.

The Mechanical Contracting Industry, 1976 - Advance Information
Results of the 1976 Census of the Mechanical Contracting Industry show that the 6,133 establishments classified to this construction sub-industry group had total operating revenues of $\$ 2,619,602,096$. This figure included $\$ 2,571,992,049$ of operating revenues derived from new, renovation and repair construction activity. The remaining $\$ 47,610,047$ was comprised of revenues from various non-construction operations (e.g., retail and wholesale sales of materials, fuel oil sales, manufacturing and/or fabricating operations, etc.).

For further information, contact T. Hewitt or R. Dubeau (613-995-9182), Construction Census Section, Construction Division, Statistics Canada, Ottawa K1A OV6.

Railway Freight Traffic, First Quarter 1978 - Advance Information
Railways carried 60.5 million short tons of revenue freight ( 54.9 million t) in the January-March 1978 period, a decline of $0.1 \%$ from the corresponding 1977 quarter. Loadings in Canada totalled 55.6 million short tons ( 50.4 million $t$ ), an increase of $0.7 \%$ over the 1977 level. Goods received from the United States at 5.0 million short tons ( 4.5 million t) showed a drop of $7.9 \%$.

First quarter 1978 rail loadings, in terms of tons, were higher in six regions of Canada: Nova Scotia (up 19.0\%); Quebec (up 1.9\%); Ontario (up 1.6\%); Manitoba (up $5.6 \%$ ); Alberta (up $5.0 \%$ ); and The Territories (up 2.6\%). Declines were recorded in Newfoundland, Prince Edward Island, New Brunswick, Saskatchewan and British Columbia.
For further information, order the first quarter issue of Railway Freight Traffic (52-002, \$1.05/\$4.20), or contact J.R." Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6.

The Electrical Contracting Industry, 1976 - Advance Information
Results of the 1976 Census of the Electrical Contracting Industry show that the 4,705 establishments classified to this construction sub-industry group had total operating revenues of $\$ 1,414,278,555$. This figure included $\$ 1,383,899,716$ of operating revenues derived from new, renovation and repair construction activity. The remaining $\$ 30,378,839$ was comprised of revenues from various non-construction operations (e.g., retail and wholesale sales of materials, sale and repair of appliances, rentals, etc.).

For further information, contact T. Hewitt or R. Dubeau (613-995-9182), Construction Census Section, Construction Division, Statistics Canada, Ottawa K1A OV6.

The Speclal Trades Contracting Industry, 1976 Advance Information
Results of the 1976 Census of the Special Trades Contracting Industry show that the 46,775 establishments classified to this construction sub-industry group had total operating revenues of $\$ 9,040,939,879$. This figure included $\$ 8,842,826,698$ of operating revenues derived from new, renovation and repair construction activity. The remaining $\$ 198,113,181$ was comprised of revenues from various non-construction operations (e.g., retail and wholesale sales of materials, fuel oil sales, manufacturing and/or fabricating operations, etc.).

For further information, contact T. Hewitt or R. Dubeau (613-995-9182), Construction Census Section, Construction Division, Statistics Canada, Ottawa K1A OV6.

Tobacco Products - Cigarettes and Cigars, July 1978 - Advance Information

Production of cigarettes for July amounted to 1.9 billirn compared to 2.0 billion for July 1977. Production of cigars totalled 11.8 million, down from 13.4 million in July 1977.

For further information, order the July issue of Production and Disposition of Tobacco Products (32022, $15 \$ / \$ 1.50$ ), or contact Mr. T.P. Sterling (613-9928619), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Stocks of Fruit and Vegetables, August 1, 1978 Advance Information
Stocks of fruits, frozen and in preservatives, in storages and factories on August 1 totalled 45.2 million pounds compared with 42.0 million last year. Holdings of vegetables, frozen and in brine, totalled 82.4 million pounds ( 90.5 million in 1977).

For further information, order the August issue of Stocks of Fruit and Vegetables (32-010, 30\$/\$3), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Sales Financing, June 1978 - Advance Information. Sales finance companies purchased $\$ 332.9$ million of retail finance paper in June, an increase of 13.5\% from the $\$ 293.2$ million purchased in June 1977. Total purchases comprised $\$ 75.9$ million for passenger cars, $\$ 35.2$ million for other consumer goods, $\$ 138.7$ million for commercial vehicles and $\$ 83.2$ million for other commercial and industrial goods.

Wholesale financing undertaken by these companies during the first quarter of 1978 amounted to $\$ 2,029.0$ million, up $3.8 \%$ from $\$ 1,953.8$ million in January-March 1977.

For further information, order the June issue of Sales Financing (63-013, 30 $\uparrow / \$ 3$ ), or contact the Retail Trade Section (613-996-9304 or telex 053-3583), Merchandising and Services Division, Statistics Canada, Ottawa K1A 0V6.

Household Facilities and Equipment, Revised Estimates 1972-1976 - Advance Information
To reflect revisions to the original projections of total households, adjustments have been made to the household facilities and equipment estimates derived from surveys taken in 1972-1976. The revisions are designed to provide greater comparability to the 1976 Census base.

Revised estimates for all tables that appeared in the publications or for individual tables, and for all five
years (1972-76) or for particular years are available on request. Please direct enquiries to Penny Barclay (613-992-4742) or Donna Chan (613-992-4743), Consumer Income and Expenditure Division, Statistics Canada, Ottawa K1A 0T6.

Crude Petroleum and Natural Gas Production, May 1978 - Advance Information
Crude petroleum production for May averaged $1,272,000$ barrels a day ( 202000 cubic metres a day), down 8.4\% from 1,389,000 B/D (221 000 cubic metres/D) in May 1977.

Net new production of natural gas for the latest period averaged 8,722,000 Mcf./D (247 000 thousands of cubic metres/D), a decrease of $9.5 \%$ from $9,641,000$ Mcf./D (273 000 thousands of cubic metres/D) in May 1977.

For further information, order the May issue of Crude Petroleum and Natural Gas Production (26-006, $30 \$ / \$ 3$ ), or contact G. Kitchen (613-992-4021), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OT6.

Capacity Utilization Rates in Canadian Manufacturing, Second Quarter 1978 - Advance Information
Capacity utilization in Canadian manufacturing industries in the second quarter of 1978 rose to $86.4 \%$, up from $84.3 \%$ in the preceding quarter.

Durable manufacturing increased to a level of $83.6 \%$ of capacity from $80.1 \%$ in the first quarter of 1978. Nondurable manufacturing increased to $89.2 \%$, up from $88.5 \%$ in the first quarter.
A description of the methodology used to derive the rates is provided in the publication Capacity Utilization Rates in Canadian Manufacturing (31-003, $\$ 1.40 / \$ 5.60$ ). For further information, contact Ms. R. Hoyt (613-995-8152), Construction Division, Statistics Canada, Ottawa K1A 0T6. The data are available on CANSIM, from the first quarter of 1961 to the second quarter of 1978, by major manufacturing group according to the 1970 Standard Industrial Classification, with aggregates for durables, non-durables and total manufacturing.

Vinyl-asbestos Floor Tile, July 1978 - Advance Information
Canadian manufacturers produced 927 short tons ( 841 t ) or 1,860,660 square feet ( 172861 m 2 ) of vinylasbestos floor tile in July compared to 1,205 short tons (1 093 t ) or 2,174,247 square feet (201 994 m 2 ) in July 1977.

For further information, order the July issue of Production and Shipments of Floor Tiles (47-001, $15 \$ / \$ 1.50$ ), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Shorn Wool Production, 1978 - Advance Information The 1978 Canadian wool clip is estimated at 2,034,100 pounds, down $2 \%$ from the 1977 estimate of $2,068,900$ pounds. The number of sheep shorn this year is estimated at 293,300 head, compared to the 1977 estimate of 292,800 head. Average fleece weight for Canada is estimated at 6.9 pounds in 1978, down $3 \%$ from 7.1 pounds in 1977.

For further information, order the 1978 report on Shorn Wool Production (23-204, 35¢), or contact Elizabeth A. Leckie (613-995-4853), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Oilseeds, July 1978 - Advance Information Crushings of oilseeds for July, with oil produced and meal produced (all figures in metric tonnes):

- Soybeans: 57280.3 (10 039.4; 44 791.9);
- Rapeseed: 42771.3 (18 050.9; 24 588.2).

For further information, order the third quarter issue of Grains and Oilseeds Review (22-007, 70\$/\$2.80), or contact J.M. Huard (613-994-9956), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Exports, Merchandise Trade, 1975-1977 (65-202, \$16.50)

## EXPORTS, IMPORTS AND TRADE BALANCE: ALL COUNTRIES

Seasonally Adjusted

Preliminary Statement of Canadian Trade, July 1978 Both exports and imports, seasonally adjusted on a balance-of-payments basis, rose in July. Exports gained $2.6 \%$ to $\$ 4,039$ million, following a drop of about 5\% in June. The July figure stood 4\% below the average monthly level for 1978. Imports increased $6.1 \%$ to $\$ 4,137$ million in July, following a smaller rise of $1.9 \%$ in the previous month. The July figure was over $5 \%$ higher than the average for the first seven months of 1978. There was accordingly a deficit of $\$ 98$ million for July in comparison with the revised balance, a surplus of $\$ 38$ million for June (the preliminary balance for June was a deficit of $\$ 93$ million).

In a three-monthly comparison (which is more indicative of the underlying movement than month-tomonth changes) both seasonally-adjusted exports and imports declined in the months of May-July. Exports fell more than $9 \%$ to $\$ 12,115$ million, while imports declined roughly $1.5 \%$ to $\$ 11,860$ million. The reduced surplus of $\$ 255$ million was one-fifth of the singularly high surplus of $\$ 1,310$ million for the three months ending in April.

## Exports (Customs Basis)

Seasonally-adjusted exports to the United States rose $1 \%$ to $\$ 2,938$ million in July, following a similar increase in June. The July figure was slightly below the average monthly level for 1978 to date. A sharp rise in exports of motor vehicles and parts was partly offset by smaller declines in a large number of other commodities.

Notwithstanding modest gains in recent months, the value of exports of $\$ 8,715$ million for the three months ending in July stood about 4.5\% below the total for the preceding period, due to the strength in particular of the April figure. Widespread declines were recorded commodity-wise, led by a substantial fall in shipments of metallic ores on account of prolonged strikes at iron mines in the Quebec-Labrador region. Increased shipments of passenger automobiles and fertilizers were among the few exceptions.

"In the above table, export and import totals are shown on both a "customs" and a "balance-of-payments"basis. The figures on a customs basis are the totals of detailed merchandise trade data tabulated from customs documents according to procedures and concepts explained in Summary of External Trade. The figures on a balance-of-payments basis reflect a number of adiustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. The adjustments include timing adjustments to exports of crude petroleum, natural gas and wheat and to receipts and payments for capital equipment deduction of transportation charges included in the customs returns and the reduction of import values calculated for customs duty purposes to values which reflect transaction prices. For more information about these adjustments, please refer to Quarterly Estimates of the Canadian Balance of International Payments (67-001, \$1.05/\$4.20).

At $\$ 1,048$ million, seasonally-adjusted exports in July to overseas countries were up $7.5 \%$ from June, in partial recovery from the $18 \%$ fall in that month. A drop in July shipments to the European Economic Community was outweighed by advances to Japan and to the remaining countries. Increases in exports of wheat, coal and forestry products were offset in part by lower shipments of some industrial materials and motor vehicles.

Exports to overseas countries declined 23\% to $\$ 3,213$ million in the three months ending in July from $\$ 4,183$ million in the months of February-April, with the principal markets contributing to the fall. Except for increases in exports of pulp and chemicals, there were extensive decreases in commodity shipments, including grain, metallic ores, coal, newsprint, fertilizers, metals, motor vehicles, machinery and equipment.

At 71.3\%, the share of exports to the U.S. in the first seven months of 1978 exceeded those of $69.5 \%$ and $67.4 \%$ for the comparable periods of 1977 and 1976. The proportion of exports to other destinations narrowed over the period.

## Imports (Customs Basis)

Seasonally-adjusted imports from the U.S. rose 1.3\% to $\$ 2,927$ million in July, following a larger increase of $7.5 \%$ in June. The July figure just about corresponded with the average level for the second quarter. A near $10 \%$ advance in July in transportation equipment imports, particularly in passenger cars and automotive parts, was offset in part by decreased imports of machinery, trucks and other equipment.
At $\$ 8,499$ million, seasonally-adjusted imports for the three months ending in July stood 1\% above the total for the preceding three months. Cars and motor
vehicle parts contributed to the three-month increase. Imports of coal were higher but those of other industrial materials, trucks and some non-automotive equipment were lower in the months of May-July.
Imports from overseas countries, after seasonal adjustment, jumped $22.5 \%$ to $\$ 1,218$ million in July, exceeding the $13.5 \%$ drop in June. The July increase was mainly concentrated in imports from overseas countries other than Japan and the E.E.C. Led by unusually large landings of crude oil, increases were also recorded in imports of machinery and nontransportation equipment. Seasonally-adjusted arrivals of passenger cars declined.
Largely on account of the weakness in June, seasonally-adjusted imports of $\$ 3,366$ million for the months of May-July fell some 9\% below the level for the preceding three months. Imports from the E.E.C. accounted for more than one-half of the overseas decline. Lower imports of transportation equipment alone accounted for over one-third of the fall. Apart from increased imports of crude oil and consumer goods, arrivals of most other commodities of overseas origin decreased.
The share of imports from the U.S. declined from $70.7 \%$ in the first seven months of 1977 to $70.3 \%$ in 1978. The proportions for imports from the E.E.C. and Japan Increased, but the share for other countries together contracted.

For further information on area and commodity trade, order the July issue of Summary of External Trade (65-001, 40¢/\$4).

Real Domestic Product (1971=100), June 1978 Advance Information
In June the seasonally-adjusted index of real domestic product and the index of industrial production both rose by $0.5 \%$. Most of the growth originated with the service-producing industries (up 0.8\%) while output of goods-producing industries was up only marginally.

Within the goods-producing industries, mining showed the largest increase. Utilities increased slightly and all other components declined. In mining, all components except gold mines increased. The most significant advance was in crude petroleum and natural gas; however, output was still below the December 1977 level. In iron mining the return to work in June of some of the striking employees contributed to a $50 \%$ increase in output; but continuation of the strike for other producers meant output in June was still only about $25 \%$ of the February level.

In manufacturing, both durables and non-durables recorded similar declines. In food and beverages, strikes and lockouts had a significant effect on meat product manufacturers and breweries. In durables manufacturing, four of the eight major groups increased in June: furniture and fixtures rose for the fifth consecutive month; non-metallic mineral products advanced on increased production of cement, concrete products, and insulation; and there were smaller gains in wood products and primary metals manufacturers. All components of the machinery industries decreased in June and strikes and lockouts starting in May reduced output of manufacturers of major appliances, household radios and television sets and miscellaneous electrical products.

Construction output decreased in June due to a decline in residential construction.
Among the service-producing industries, increases were widespread. Notable advances occurred in trade and transportation, storage and communication. In trade, both wholesale and retail trade increased. In retail trade, most of the gain was due to increases in motor vehicle dealers and in food stores following three consecutive monthly declines. With its decline in June, department stores output was lower than its 1977 level.
About one-half of the transportation increase in June originated with air transport; there were also increases in rail, water and pipeline transport. Grain elevators output advanced by about 13\% in June following three consecutive monthly increases exceeding $20 \%$.

## Real Domestic Product, 2nd Quarter 1978

The seasonally-adjusted index of real domestic product increased by $0.8 \%$ in the second quarter, approximately the same rate of growth as in the three preceding quarters. Goods-producing industries increased by $1.3 \%$ following a small decline in the first quarter, while service-producing industries were up by $0.6 \%$ after a $1 \%$ advance in the first quarter. For the index of industrial production the quarterly gain was 1.1\%.

In the goods-producing industries, manufacturing, construction and forestry contributed all of the increase. The manufacturing increase of $3.3 \%$ was the largest since the fourth quarter of 1973 and durable manufacturing was responsible for most of the gain. All major groups in durables manufacturing increased, with a recovery in transportation equipment accounting for one-third of the rise.

Non-durables output was slowed by food and beverages, petroleum and coal products and leather industries. Price increases affected the output of both food stores and food and beverage manufacturers. Increased exports were responsible for the fourth consecutive quarterly increase in output of pulp and paper mills.

Construction output increased after three consecutive quarterly declines but was still at a level $4 \%$ lower than the second quarter of 1977. Most components contributed to the increase; the exception was engineering construction which decreased for the fourth consecutive quarter.

The decline in mining originated with iron ore mines which were disrupted by major labor disputes beginning in March.

For the service-producing industries, all components contributed to the advance except transportation, storage and communication; where railway and water transport were both affected by iron mining strikes. In trade the largest contribution to the increase came from wholesale trade where gains were widespread. For retail trade, the over-all increase was mainly due to motor vehicle dealers and furniture, television, radio and appliance stores; most of the other retail stores showed little growth or decreased. Provincial administration contributed most of the increase within public administration and defence.

For further information, order the June issue of Indexes of Real Domestic Product by Industry (including the Index of Industrial Production), (61-005, 40\$/\$4), or contact R.W. Collins (613-995-0443), Industry Product Division, Statistics Canada, Ottawa K1A $0 T 6$.
(see tables on pages 11 and 12)
Telecommunication Statistics, First Quarter 1978 Advance Information
Teleglobe Canada, Canadian National Telecommunications and Canadian Pacific (Telecommunications Branch) reported revenue of $\$ 73.6$ million for the first quarter of 1978, up 9.7\% from the January-March. 1977 period. Operating expenses :were $\$ 62.7$ million; an increase of $5.4 \%$. Net operating revenue at $\$ 11.0$ million was up $42.6 \%$ from the first quarter of 1977.

For further information, order Communications Service Bulletin, Telecommunications Statistics, First Quarter 1978 (56-001, \$1.40 a year), or contact Patrick Crosby (613-996-9274), Transportation and Communications Division, Statistiçs Canada, Ottawa K1A $0 T 6$.

p Preliminary estimates
For further information, order the April-June issue of Travel Between Canada and Other Countries (66-001, $\$ 1.75 / \$ 7$ ), or contact Mr. Mike Valiquette (613-995-0847), International Travel Section, Statistics Canada, Ottawa K1A 0T6.

## International Travel Receipts and Payments*, Second

 Quarter 1978 - Advance InformationPreliminary estimates for the second quarter of 1978 show that Canada earned $\$ 596$ million from international travel while Canadians travelling abroad spent $\$ 1,025$ million, leading to a deficit of $\$ 429$ million.

Canada received $\$ 400$ million from the 8.2 million United States visitors in the second quarter of 1978, while payments of $\$ 658$ million were attributed to the 9.4 million Canadians visiting the U.S.; these transactions resulted in a $\$ 258$ million travel account deficit with the U.S. Receipts from countries other than the U.S. reached $\$ 196$ million when 455,000 visitors entered Canada, while the 411,700 Canadians travelling in these countries contributed to payments of $\$ 367$ million, resulting in an estimated deficit of $\$ 171$ million with all other countries.

For the first six months of 1978, Canada earned $\$ 814$ million from international travel while Canadians' payments on travel abroad amounted to $\$ 2,166$ million, leading to a deficit of $\$ 1,352$ million. Even though the over-all number of Canadians travelling abroad decreased by $1.5 \%$ during the first half of 1978, spending rose sharply due to higher average expenditures. In interpreting these figures it should be noted that the unfavourable movement in the exchange rate for the Canadian dollar over the year has significantly increased the cost to Canadians of visits to the U.S. and overseas. Although the decline in visitors from the U.S. came close to being halted in the first six months, spending in Canada showed little evidence of pick-up.

* Data users should note that all the above figures include international fare payments.

For further information, Order the April-June issue of Travel Between Canada and Other Countries (66-001, $\$ 1.75 / \$ 7$ ), or contact Mr. M.W. Valiquette (613-9950847), International Travel Section, Financial Flows and Multinational Enterprises Division, Statistics Canada, Ottawa K1A 0T6.

Railway Carloadings, 7 Days Ended August 14, 1978 Published Only in the Daily
Canadian rail freight loadings in the above-noted period totalled 4.3 million $t$ ( 4.8 million short tons), a $5.1 \%$ decrease from the second week of August 1977. Traffic in the East fell $6.6 \%$ in the latest period while a loss of $3.4 \%$ was recorded west of the Lakehead.

Container-trailer (piggyback) shipments rose in both regions ( $6.3 \%$ in the East and $5.9 \%$ in the West) to register an over-all increase of $6.2 \%$.
In the period January 1 to August 14, 1978, freight loaded by rail in Canada aggregated 126.0 million t ( 138.9 million short tons), $9.4 \%$ off the 1977 pace. Loadings in the East were down 19.4\%, while Western loadings showed a gain of $2.6 \%$. Year-to-date container-trailer (piggyback) movements were up 5.9\%.

For further information, contact J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6.

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division

Piggyback traffic includes trailers and containers on flat cars.
All 1977 figures have been revised - 1978 cumulative data also revised.

Émployment, Earnings and Hours (Seasonally Adjusted), June 1978 - Advance Information
The first estimates of the Canadian industrial composite* index of employment (1961=100) for June 1978 showed a $0.3 \%$ increase over May. Forestry, manufacturing, construction and trade contributed to the rise while mining (including milling) and service remained unchanged and transportation, communication and other utilities, and finance, insurance and real estate reported declines. All regions participated in the increase with the exception of the Atlantic region which showed no change.

Average weekly earnings rose by $1.0 \%$ at the national industrial composite level in June. Gains were recorded in all industry divisions except construction, which declined, and in all regions.

Average weekly hours were up in mining (including milling) but down in both manufacturing, and
construction. Average hourly earnings rose in mining (including milling), in manufacturing and in construction.

* Industrial composite is the sum of all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private househoids and public administration and defence. All statistics are based on returns received from employers having 20 or more empioyees in any month of the year. Notes on concepts and methods can be found in any issue of Employment, Earnings and Hours.

Detailed information for April and May will be published in the June issue of Employment, Earnings and Hours (72-002, 70\$/\$7), and is also available from Mr. R. Ouellette (613-992-5613), Labour Division, Statistics Canada, Ottawa K1A OV2.

Railway Carioadings, July 1978 - Advance Information
Canadian railways loaded 19.8 million short tons ( 18.0 million t) of revenue freight in July, down 8.9\% from July 1977. The carriers received an additional 1.7 million short tons ( 1.6 million t) from the United States, an increase of $7.9 \%$ from a year earlier.
In the latest month, notable percentage changes in volume occurred in movements of copper-nickel ores and concentrates (down 61.7\%); iron ore (down $36.1 \%$ ); primary and manufactured iron and steel (up $43.0 \%$ ); pulpwood chips (up $26.2 \%$ ); and coal (up 21.5\%).

In the first seven months of 1978, rail freight loadings were $9.5 \%$ below the January-July 1977 total and receipts from the U.S. were down 2.3\%. The 1978 slump in Canadian loadings can be attributed to the prolonged strike of iron miners in Quebec and Newfoundland which began March 15 and ended in mid-July; iron ore movements in the first seven months were $50.1 \%$ below those of 1977.

For further information, order the July issue of Railway Carloadings (52-001, 30\$/\$3) or, for
seasonally-adjusted revenue freight loadings, contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A $0 T 6$.

The Heavy Engineering Contracting Industry, 1976 Advance Information
Results of the 1976 census of the heavy engineering contracting industry show that the 1,639 establishments classified to this construction industry subgroup had total operating revenues of $\$ 2,855,219,000$. Materials used had a value of $\$ 831,069,000$. Salaries and wages, paid to employees amounted to $\$ 830,278,000$. Over-all net profits (before taxes) amounted to $\$ 127,871,000$.

For further informatlon, contact G. Beauchamp or S. Parent (613-995-8423), Construction Census Section, Construction Division, Statistics Canada, Ottawa K1A OV6.

Prellminary Report on Job Vacancles, Three Months Ended July 31, 1978 - Advance Information
Preliminary estimates of the average number of jobs vacant on a daily basis during the three-month period ended July 31 show an increase of $20 \%$ from the previous three-month period. Vacancies for full-time, part-time and casual jobs were $46,600^{*}$. Compared with the same three-month period in 1977, the number of vacancies decreased by 5,800 , or $11 \%$.
Vacancles for full-time jobs increased by $19 \%$ to 41,000 in the latest three-month period from 34,500. Longer-term vacancies (jobs unfilled for more than four weeks) increased by $18 \%$.
For every 1,000 existing jobs in the latest threemonth period, five were vacant, unchanged from the preceding period. The comparable rate a year ago was six. The highest vacancy rate was observed in Alberta ( 10 per 1,000 ). The lowest vacancy rate occurred in Newfoundland (three per 1,000).

* The Job Vacancy Survey provides an estimate of the average number of vacancies available on any given day in a three-month period. The estimate of this three-month
average is derived from six observations taken at regular intervals. Consequently, the survey does not cover those vacancies which occur and are filled between individual observations. In addition, the survey does not cover openings in agriculture, fishing, hunting, trapping and households. The data derived from the Job Vacancy Survey, taken over time, are consistent and reliable indicators of trends in job openings.
For detailed definitions and design of the survey, see Canadian Job Vacancy Survey, Technical Appendix, 1972 (71-521, 504).
(see table on next page)

Key Economic Series, September 1978
During the coming month, the release of Key Economic Series data is expected to be in accordance with the schedule outlined below. Where a range of dates is given for a series, this represents the period within which publication of the data can be reasonably expected, the variability taking account of circumstances peculiar to each series. Any range may be exceeded ori rare occasions, for reasons unpredictable at this time.
September 5 to 11: Industry Selling Prince Index, month of July;
September 7: Quarterly Estimates of the Canadian Balance of International Payments, April-June 1978;
September 8 to 15: Unemployment Insurance Statistics, month of June;
September 11 to 15: General Wholesale Price Index, month of July;
September 12: Labour Force Survey, month of August; September 13: Consumer Price Index (National), month of August;
September 13 to 21: Retail Trade, month of July;
September 14 to 18: Index of Industrial Production, month of July;
September 15 to 20: Wholesale Trade, month of July; September 15 to 21: Consumer Credit, month of July; September 18 to 21: Inventories, Shipments and Orders, month of July;
September 18 to 28: Building Permits, month of July; September 21: Consumer Price Indexes for Regional Cities, month of August:
September 22 to 25: Real Domestic Product, month of July;
September 22 to 27: Employment, Earnings and Hours, month of July;

September 25 to 29: Labour Income, month of July; September 27 to October 6: Unemployment Insurance Statistics, month of July;
September 29: Preliminary Statement of Canadian Trade, month of August.

Notice of advance information availability: Financial Flows, 2nd Quarter 1978, advance information I on September 11 to 15; Field Crop Reporting Series, No. 16, August Forecast of Production of Principal Field Crops, on September 8, 1978 at 3 p.m., E.D.S.T.; Field Crop Reporting Series, No. 17, Telegraphic Crop Report - Prairie Provinces, on September 14, 1978 at 3 p.m., E.D.S.T.; Field Crop Reporting Series, No. 18, Telegraphic Crop Report - Canada, on September 21, 1978 at 3 p.m., E.D.S.T.

For any inquiry concerning the release of these series, please contact Mr. Jack Kerr (613-992-1548), Production Planning and Scheduling Division, Statistics Canada, Ottawa K1A OT6.

Steel Ingots, Week Ended August 26, 1978 - Avance Information
Preliminary steel ingots production for the week ended August 26 was 297,423 short tons (269 818 t), an increase of $7.9 \%$ from the preceding week's total of 275,729 short tons ( 250137 t ). The comparable week's total in 1977 was 278,786 short tons (252 910 t). The index of production based on the average weekly output during 1967 of 183,227 short tons ( 166211 t) equalling 100 was 162.3 in the current week, 150.5 a week earlier and 152.2 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

> New Toll-free Access to User Advisory Services in Halifax
> Starting September 1, 1978 , data users in Nova Scotia, New Brunswick and Prince Edward Island will have toll-free access to Statistics Canada's. User Advisory Services office in Halifax. By telephoning $1-800-565-7192$ from anywhere in the three provinces, users will be ableto contact the Halifax office for assistance in locating and using Statistics Canada data effectively.
> With the introduction of this new service, the former ZENITH service from Charlottetown, Fredericton, Moncton, St. John and Sydney will be discontinued.

Union Wage Rate Indexes including selected pay supplements are now available for July 1978.

## Travel Between Canada and Other Countries, July

 1978 - Advance InformationPreliminary statistics for July show that 5.7 million United States visitors entered Canada, down 1.6\% from July 1977. Canadian residents returning from visits to the U.S. increased by $3.6 \%$ to 5.2 million, mainly due to a large increase in same-day automobile travel. Visitors entering Canada from countries other than the U.S. totalled 328,000 , up $21.9 \%$, while Canadian travellers returning from these countries increased by $0.4 \%$ to 154,000 . (It should be noted that in 1977 the U.S. Independence Day holiday fell on a Monday while this year it occurred on a Tuesday; thus, not all U.S. residents benefited from a long holiday weekend in early July).

On a year-to-date basis, 17.9 million U.S. visitors entered Canada, a decline of $1.2 \%$ from January-July 1977, while the number of Canadians returning from the U.S. decreased by $0.5 \%$ to 22.2 million. Visitors from other countries increased by $15 \%$ to 918,000 while Canadians returning from these countries totalled 1.1 million, up 3.2\% over the first seven months of 1977.

For further information, order the July issue of International Travel - Advance Information (66-002, 154/\$1.50), or contact Mr. Mike Valiquette (613-9950847), International Travel Section, Statistics Canada, Ottawa K1A 0T6.

Railway Operating Statistics, June 1978 - Advance Information
Six major Canadian railways reported combined net income of $\$ 25.4$ million in June, down $7.2 \%$ from a year earlier. Total operating revenues increased $5.8 \%$ to $\$ 314.2$ million while operating expenses rose $7.2 \%$ to $\$ 288.8$ million.

Freight ton-miles in the latest month were down 6.4\% from June 1977; freight train-miles declined 0.5\%; and freight car-miles were off $4.1 \%$. Passenger-miles were $9.5 \%$ below the 1977 level; the result of losses incurred by intercity passenger services.

In the first half of 1978 operating revenues of the six carriers were $7.9 \%$ above those of 1977, while expenses were higher by $7.6 \%$. Net income rose $12.0 \%$ from the January-June 1977 period. Cumulative tonmiles were off $1.4 \%$, while passenger-miles showed a $0.7 \%$ year-over-year gain.
For further information, order the June issue of Railway Operating Statistics (52-003, 30¢/\$3), or contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.
Piggyback traffic includes trailers and containers on flat cars.
All 1977 figures have been revised - 1978 cumulative data also revised.

Railway Carloadings, 7 Days Ended August 21, 1978 Published Only in the Daily
Canadian railways loaded 4.8 million $t$ ( 5.3 million short tons) of revenue freight in the above week, a6.3\% increase over the year-earlier period. Traffic was up $9.4 \%$ in the East and $2.9 \%$ in the West. Container-trailer (piggyback) shipments were down slightly in the East ( $0.1 \%$ ), but rose $11.3 \%$ in the West to register an overall gain of $3.0 \%$ in the latest seven days.

In the period January 1 to August 21, 1978, rail freight loadings aggregated 130.9 million $t$ ( 144.3 million short tons), 8.9\% below the 1977 level. Loadings in the East were down $18.5 \%$ (due to strikes in Newfoundland and Quebec iron mines), while cumulative Western loadings were up 2.6\%. Year-todate container-trailer (piggyback) movements showed an increase of $5.6 \%$.

[^16]Industry Selling Price Index: Manufacturing (1971=100), July 1978 - Advance Information
The Industry Selling Price Index for manufacturing rose $0.3 \%$ to 187.9 in July from its revised June level of 187.3. The index was $7.3 \%$ higher than in July 1977 when it stood at 175.1. The major groups having the most effect on the total index in July were primary metal industries, wood industries, textile industries, chemical and chemical products industries and food and beverage industries.
The primary metal industries index rose $0.7 \%$., reflecting price increases of $3.7 \%$ for steel pipe and tube mills, $0.6 \%$ for iron and steel mills and $0.5 \%$ for smelting and refining. Wood industries showed a rise of $0.6 \%$ due largely to an increase of $0.8 \%$ for sawmills and planing mills.
Textile products rose $1.1 \%$ mainly on account of a $3.1 \%$ increase for cotton yarn and cloth mills. The chemical and chemical products industries index rose $0.4 \%$ due largely to increases of $0.7 \%$ for manufacturers of industrial chemicals (organic), $0.6 \%$ for manufacturers of pharmaceuticals and medicines and $1.4 \%$ for manufacturers of toilet preparations.

The index for food and beverage industries decreased $0.1 \%$ in July. There were decreases of $0.6 \%$ for slaughtering and meat processors, $5.7 \%$ for cane and beet sugar processors and $1.2 \%$ for the feed industry. The fish products industry showed an increase of $1.8 \%$ and poultry processors rose by $2.5 \%$.
For further information, order the July issue of Industry Price Indexes (62-011, 55 / / $\$ 5.50$ ), or contact the Information Unit, Industrial Prices (613-995-5761), Prices Division, Statistics Canada, Ottawa K1A OV5.

## Additional Information

When names and telephone numbers are not provided, additional information can often be obtained from the regional User Advisory staff of Statistics Canada or from its Central Inquiries Service, Ottawa (613-992-4734).

Also, toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing 1-800-667-3524. Throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

New Motor Vehicle Sales, July 1978 - Advance Information
New motor vehicles sold in July totalled 115,260 units, up 6.0\% from a year earlier. This included 67,821 passenger cars (up $9.7 \%$ ) and 31,277 commercial vehicles (up 12.5\%) manufactured in Canada and the U.S., and 15,001 passenger cars (down 15.5\%) and 1,161 commercial vehicles (down 17.0\%) manufactured overseas.

Total sales value increased $19.2 \%$ to $\$ 812.1$ million. Canadian and U.S. passenger cars sold for $\$ 447.8$ million (up 18.9\%) and commercial vehicles for $\$ 273.0$ million (up 27.3\%). Sales of passenger cars from overseas increased $0.7 \%$ to $\$ 91.3$ million and those of commercial vehicles increased $0.5 \%$ to $\$ 7.0$ million. Included in total commercial vehicles sold were 387 units of coaches and buses valued at $\$ 8.8$ million.

Seasonally-adjusted July sales of passenger cars manufactured in Canada and the U.S. decreased 0.2\% from June to 70,524 units and those of passenger cars from overseas decreased $5.6 \%$ to 13,602 units. Similarly-adjusted sales of all commercial vehicles were down $1.7 \%$ to 32,397 units.

For the first seven months of 1978, total sales reached 853,344 units ( 831,112 in 1977), with an accumulated value of $\$ 5,918.6$ million. This represented an increase of $13.5 \%$ in value over sales for January-July 1977.

For further information, order the July issue of Now Motor Vehicle Sales (63-007, 30\$/\$3), or contact M. Kwilecki (613-996-9304), Retail Trade Section, Merchandising and Services Division, Statistics Canada, Ottawa K1A OV4.

Production, Shipments and Stocks on Hand of Sawmills East of the Rockles, June 1978 - Advance Information
Production of lumber in sawmills east of the Rockies increased in June to 517,261,000 feet board measure ( 1220600 m 3 ) from a revised $426,454,000$ feet board measure ( 1006320 m 3 ) in June 1977. Stocks on hand at the end of June 1978 totalled 966,527,000 feet board measure ( 2280755 m 3 ).

For further information, order the June issue of Production, Shipments and Stocks on Hand of Sawmills East of the Rockies (35-002, 30\$/\$3), or contact Mr. P.E: Martin (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Asbestos, July 1978 - Advance Information
Producers' shipments of asbestos decreased to 103,877 short tons in July from 128,624 short tons in July 1977. This brought year-to-date shipments to 805,891 short tons in 1978 from 934,730 in 1977.

For further information, order the July issue of Asbestos (26-001, 15\$/\$1.50), or contact Art Symons (613-992-0491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Urban Transit, July 1978 - Advance Information In July, 56 urban transit systems collected 88,607,782 initial passenger fares. The total distance run was 31,226,973 miles ( 50254942 km ), and operating revenues amounted to $\$ 32,473,297$.
For further information, contact the Chief (613-9969271), Surface Transport Section, Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6 or order the July issue of Urban Transit (53003, 15¢/\$1.50).

Production of Tea and Coffee, April-June 1978 Advance Information
During the June quarter production of roasted coffee was $30,831,000 \mathrm{lbs}$. ( 13985 metric tonnes) compared to $20,069,000$ Ibs. ( 9103 metric tonnes) in the second quarter of 1977. Production of instant coffee was (X lbs.) (X metric tonnes) compared to X lbs. ( X metric tonnes), a year earlier.
Production of tea was $10,958,000 \mathrm{lbs}$. 4970 metric tonnes)' compared to $17,836,000$ lbs. ( 8090 metric tonnes) in the April-June 1977 period.
$x$ Confidential to meet secrecy requirements of the Statistics Act.

For further information, order the second quarter issue of Miscellaneous Food Preparations (32-018, $35 \Phi / \$ 1.40$ ), or contact Mr. T.P. Sterling (613-9928619), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Raw Hides, Skins and Finished Leather, July 1978 Advance Information
In July, packers, dealers and tanners held 180,164 cattle hides, down from 236,701 a year earlier. Cattle hide receipts increased to 110,716 from 81,093 and wettings increased to 103,185 from 61,294.

For further information, order the July issue of Raw Hides, Skins and Finished Leather (33-001, 30\$/\$3), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Salt, July 1978 - Advance Information
Canadian shipments of salt and salt content of brine increased to 487,223 short tons in July from 438,817 short tons a year earlier. This brought the sevenmonths output to $3,967,862$ short tons in 1978 from $3,646,990$ short tons in 1977.
For further information, order the July issue of Salt (26-009, 15¢/\$1.50), or contact Art Symons (613-9920491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Passenger Bus Statistics (Intercity and Rural)

* Includes charter operations of one intercity bus company.
** The number of fare passengers carried for "Other Services" is not kept by all carriers.
$r$ Revised figures.

Passenger Bus Statlstlcs (Interclty and Rural), July 1978 - Published Only in Statistics Canada Daily The accompanying table contains statistics on passenger bus carriers earning $\$ 500,000$ or more annually from intercity and rural bus operations. Cumulative data for the year serves as preliminary information on a significant portion of the industry until definitive annual statistics are available. Figures have been added showing total distance run and fuel consumed, using the International System of Units; this is the most modern version of the metric system, supported by the International Bureau of Weights and Measures and is the system of units which Canada is adopting.

The following observations apply to the data in this release:

- Data relating to other services such as charter or contract are specific to the surveyed passenger bus carriers and are not indicative of over-all charter and contract operations;
- Passengers paying a fare to the operator of one vehicle and travelling on a second or third vehicle on a transfer are counted for the first vehicle only;
- Total distance run in a revenue service includes distance run empty which was necessary to provide the revenue service.
For further information, contact the Chief (613-996- : 9271), Surface Transport Section, Transportation and Communications Division, Statistics Canada, Ottawa. K1A $0 T 6$.

Steel Ingots, Week Ended September 2, 1978 Advance Information
Preliminary steel ingots production for the week ended September 2 was 314,881 short tons ( 285655 t ), an increase of $5.9 \%$ from the preceding week's total of 297,423 short tons ( 269818 t). The comparable week's total in 1977 was 267,891 short tons ( 243027 t). The index of production based on the average weekly output during 1967 of 183,227 short tons (166 211 t) equalling 100 was 171.9 in the current week, 162.3 a week earlier and 146.2 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

## Building Permits

(million of dollars)

Building Permits, June 1978 - Advance Information The seasonally-adjusted value of building permits issued during the second quarter of 1978 increased $8.5 \%$ over the first quarter, but the over-all level of new construction authorized during the first half of 1978 at $\$ 6,015$ million showed little change from the same period of 1977 ( $\$ 6,010$ million).

In the latest period, the value of residential permits (including improvements to existing homes) was 4.2\% lower than in 1977 and the number of new dwellings authorized decreased $17.7 \%$. Non-residential permits rose $7.2 \%$ to $\$ 2,420$ million from $\$ 2,257$ million, reflecting the vigor observed during the second quarter in that sector. Both industrial and commercial permits increased in value: industrial permits rose $2.1 \%$, and commercial permits were $18.1 \%$ higher than in 1977. Government-initiated projects totalling \$635 million in 1978 were $7.2 \%$ lower than in 1977 ( $\$ 685$ million).

Based on nearly complete results, building permits - issued in June 1978 totalled a seasonally-adjusted $\$ 1,051$ million compared to a revised $\$ 1,072$ million in May. In June 1977, the total was $\$ 1,085$ million.

Seasonally adjusted, residential permits totalling $\$ 590$ million ( $\$ 629$ million in May) were issued for 8,829 single-detached homes compared to 8,796 in May, and for 8,256 multiple dwellings compared to 9,144 in May. New industrial installations estimated at $\$ 100$ million in June ( $\$ 77$ million in May) and commercial projects valued at $\$ 229$ million ( $\$ 265$ million) were authorized.

Publicly-initiated projects including schools, hospitals, and welfare buildings rose to $\$ 132$ million from $\$ 101$ million.

For further information, order the June issue of Building Permits (64-001, 70¢/\$7), or contact J.P. Delisle (613-995-8215), Construction Division, Statistics Canada, Ottawa K1A $0 T 6$.
(see table on next page)
Productlon, Shipments and Stocks on Hand of Sawmills in British Columbia, June 1978 - Advance Information
Sawmills in British Columbia produced $1,121.5$ million feet board measure ( 2646500 m 3 ) of lumber and ties in June compared to $1,058.7$ million feet board measure ( 2498200 m 3 ) a year earlier.

January to June production increased to $6,498.3$ million feet board measure (15 334200 m 3 ) in 1978 from 6,221.7 million feet board measure ( 14681800 m 3 ) in 1977.

For further information, order the June issue of Production, Shipments and. Stocks on Hand of Sawmills in British Columbia (35-003, 30¢/\$3), or contact Mr. P.E. Martin (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

## Department Store Sales by Regions, July 1978

Department store sales totalled $\$ 550.4$ million in July, an increase of $8.0 \%$ from a year earlier. Sales were up in all regions of Canada.
Department store sales by regions for the latest month, with percentage increases from July 1977 in brackets:

- Ontario, $\$ 203.2$ million ( $6.4 \%$ ).
- Quebec, $\$ 103.9$ million ( $4.9 \%$ ).
- British Columbia, $\$ 86.9$ million ( $12.0 \%$ )
- Alberta, $\$ 73.5$ million ( $12.2 \%$ ).
- Atlantic Provinces, $\$ 36.2$ million ( $7.2 \%$ ).
- Manitoba, $\$ 31.6$ million (10.7\%).
- Saskatchewan, \$15.1 million (4.7).

For further information, order the July issue of Department Store Sales by Regions (63-004, \$1.50 a year).

Industrial Chemicals, July 1978 - Advance Information
Canadian manufacturers shipped $85,528,600$ pounds ( 36502394 kg ) of polyethylene-type synthetic resins in July compared to $52,896,470$ pounds ( 23993435 kg ) in July 1977.

For further information, order the July issue of Specified Chemicals (46-002, 15\$/\$1.50), or contact Mr. J. Dornan (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A $0 V 6$.

Domestic Washing Machines and Clothes Dryers, July 1978 - Advance Information
Canadian manufacturers' domestic sales of automatic washing machines were 34,904 units in July, up from 33,136 in July 1977. Conventional washing machine sales decreased to 4,192 units from 4,760 (revised). Canadian sales of electric clothes dryers were 27,243 units compared to 27,213 a year earlier.

For further information, order the July issue of Domestic Washing Machines and Clothes Dryers (43002, $15 \$ / \$ 1.50$ ), or contact Mr. T. Raj Sehdev (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Domestic Refrigerators and Freezers, July 1978 Advance Information
Canadian manufacturers' domestic sales of refrigerators increased to 50,587 in July from 48,262 a year earlier, and month-end stocks totalled 88,674 units, down from 92,916 . Domestic sales of home and farm freezers increased to 35,418 from 29,084. Month-end stocks rose to 42,336 from 32,826 in July 1977.

For further information, order the July issue of Domestic Refrigerators and Freezers (43-001, $15 \Phi / \$ 1.50$ ), or contact Mr. T. Raj Sehdev (613-9920388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Farm Implement and Equipment Sales, January-July 1978 - Advance Information
Sales of farm implements and equipment (including repair parts) for January to July 1978 were valued at $\$ 765.2$ million, an increase of $11.7 \%$ from the JanuaryJuly 1977 figure of $\$ 684.9$ million.

Repair parts for the latest period had a value of $\$ 108.4$ million compared with $\$ 96.3$ million in 1977.

For further information, order the July issue of Farm Implement and Equipment Sales (63-009, 15 $/ \$ 1.50$ ), or contact the Merchandising and Services Division (613-996-9307), Statistics Canada, Ottawa K1A 0T6.

## Quarterly Estimates of the Canadian Baiance of International Payments, Second Quarter 1978

In the second quarter of 1978, the seasonally-adjusted current account deficit rose to $\$ 1,357$ million, up froma revised $\$ 504$ million in the previous quarter. Unadjusted for seasonal variations, the deficit in the quarter was $\$ 1,352$ million. Capital movements (which are not seasonally adjusted) led to a net inflow of $\$ 1,951$ million, while the balancing item representing net errors and omissions in the recorded estimates of the current and capital accounts was equivalent to a net outflow of $\$ 23$ million. The over-all surplus led, therefore, to a net increase in official monetary assets of $\$ 576$ million.
The main quarterly movements were:

- A sharp contraction of over $\$ 900$ million in the seasonally-adjusted surplus on merchandise trade to $\$ 554$ million as the value of merchandise imports rose faster than exports. Export and import prices both rose about $1 \%$, while the volume of exports and imports increased about $1.3 \%$ and $9.4 \%$, respectively. The $10.8 \%$ rise in the value of imports was the strongest since the third quarter of 1974;
- Among exports, large increases, on a seasonallyadjusted basis; for automotive products, wheat, aluminum, lumber, industrial machinery and agricultural machinery. Decreases were recorded for iron ore (affected by a labour dispute in Canada), barley, crude petroleum (as export authorizations were reduced), newsprint, fish, natural gas and nickel ore. Import commodities which rose the most were automotive products, industrial machinery, coal, chemicals, agricultural machinery, office machinery, and communications equipment, while there was a large decline for crude petroleum;
- A small $\$ 60$ million decline in the seasonallyadjusted non-merchandise trade balance as receipts rose faster than payments;
- A $\$ 1,651$ million jump to $\$ 2,346$ million in the net inflow from capital movements in long-term forms compared to the previous quarter;
- Rises in Canadian new issues abroad and loans from foreign banks (largely reflecting Government of Canada borrowing) and a swing to a net sales balance from transactions in outstanding Canadian bonds which accounted for the increase in long-term capital infiows. Partly offsetting these movements was a swing to a net outfiow from foreign direct investment in Canada, augmented by increased net outtlows for Canadian direct investment abroad and trading in outstanding Canadian equities. (The latter movement reflected the establishment of a controlling interest in a major Canadian oil company through the purchase of United States portfolio holdings);
- A $\$ 112$ million decline to $\$ 395$ million in the net outflow from short-term capital movements. Major changes were a swing of $\$ 1$ billion to an outflow of
\$287 million as the chartered banks increased their net foreign currency position with non-residents, which was more than offset by increases in nonresident holdings of Canadian dollars and Canadian money market paper and a reduction in the net rate of foreign currency borrowing by the Government from the Canadian chartered banks;
- An over-all surplus of $\$ 576$ million with reserve assets and liabilities increasing by $\$ 871$ million and $\$ 295$ million, respectively. The increase in reserve assets includes the proceeds of Government borrowings of U.S. $\$ 750$ million in New York, and 1.5 billion Deutsche Marks in West Germany, and a net increase in drawings under the standby facility with the Canadian chartered banks. The increases in liabilities for the long-term New York and West German borrowings are included in the capital account while the liability under the standby facility appears as a part of net official monetary movements.
The Canadian dollar closed the quarter valued at 89.08 U.S. cents, up from 88.19 U.S. cents at the end of March. During April, however, it dropped to 86.63 U.S. cents, its lowest value in U.S. dollar terms since the early 1930s.

For further information, contact Mr. D.K. McAlister (613-995-0743), Balance of Payments Division, Statistics Canada, Ottawa K1A OT6. The main tables may be obtained in machine-readable form from the CANSIM base.

Teiecommunication Statistics, Second Quarter 1978 - Advance Information

Teleglobe Canada, Canadian National Telecommunications and Canadian Pacific (Telecommunications Branch) reported revenue of $\$ 80.4$ million for the second quarter of 1978, up $11.4 \%$ from the April-June 1977 period. Operating expenses were $\$ 68.9$ million, an increase of $10.4 \%$. Net operating revenue at $\$ 11.5$ million showed an increase of $17.9 \%$ from the second quarter of 1977.

For further information, order Communications Service Bulletin, Telecommunications Statistics, Second Quarter 1978 (56-001, \$1.40 a year), or contact Patrick Crosby (613-996-9274), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

p Preliminary figures
For further information, order the June 1978 issue of Preliminary Unemployment Insurance Statistics (73-001p) or Statistical Report on the Operation of the Unemployment Insurance Act (73-001, Quarterly), or contact George Fincham (613-992-7461), Labour Division, Statistics Canada, Ottawa K1A OV1.

Preliminary Report on Unemployment Insurance Statlstics, June 1978 - Advance Information
Claimants receiving unemployment insurance benefit for the week ending June 17 numbered 713,000, down $16 \%$ from May but $9 \%$ more than in June 1977. Thirtyeight percent of the beneficiaries were under 25 years of age.

Unemployment insurance benefits amounted to $\$ 334$ million in June, a decrease of $26 \%$ from the previous month but 18\% greater than a year earlier. Payments for the first half of 1978 reached $\$ 2,669$ million, up $21 \%$ from the same period in 1977. Based on the year-to-date figures, the average weekly benefit rose $9 \%$ to $\$ 109.57$.
Claims filed in June by persons seeking benefit totalled 191,000, a decrease of $11 \%$ from the prevvious month and down 4\% from June 1977. Claims received for the year-to-date numbered 1,342,000, up 5\% from the January to June period in 1977.

Electric Power Statistics, June 1978 - Advance Information
In June, net generation increased to 24.1 TW.h from 23.3 TW.h in June 1977. Hydro generation increased 7.5\% while thermal production decreased $6.3 \%$.

For further information, order the June issue of Electric Power Statistics (57-001, 30\$/\$3), or contact David Madsen (613-992-4021), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A $0 T 6$.

## NOTE TO READERS

Statistics Canada is examining its publications program in light of expenditure reductions planned in the 1979-80 fiscal year and expects that it will be able to announce in three weeks or so what publications will be affected by the cuts. It appears that some publications will have to be dropped and others curtailed.

Coal and Coke Statlstics, June 1978 - Advance Information
Canadian coal production increased $2.6 \%$ in June to 2,476,759 tons (2 246878 metric tonnes) from 2,541,325 tons ( 2305451 metric tonnes) a year earlier. Imports decreased to $1,839,318$ tons ( 1668601 metric tonnes) from 2,044,510 tons ( 1854748 metric tonnes). Industrial consumers used 1,473,621 tons (1 336846 metric tonnes) of coal in the latest month, down 3,203 tons ( 2906 metric tonnes) from June 1977 and 456,354 tons (413 997 metric tonnes) of coke, up 1,735 tons (1 573 metric tonnes).
For further information, order the June issue of Coal and Coke Statistics (45-002, 40¢/\$4), or contact David Madsen (613-992-4021), Energy and Minerals Section, Statistics Canada, Ottawa K1A OT6.

## Additional Information

When names and telephone numbers are not provided, additional information can often be obtained from the regional User Advisory staff of Statistics Canada or from its Central Inquiries Service, Ottawa (613-992-4734).

Also, toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing 1-800-667-3524. Throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

Fruit and Vegetable Production, September 1978 Advance Information
Total potato acreage in 1978 is estimated at 277,820, up slightly over last year's total of 276,790.

Featured in this month's issue of Fruit and Vegetable Production is a new potato table listing acreage, production, yield per acre and farm value. For further information on the latest area, production and value for fruits and vegetables, order the September issue (22-003, 40 $/ \$ 3$ ), or contact K.C. Wardley (613-9954877), Agriculture Division, Statistics Canada, Ottawa K1A 0L. 7 .

Radio and Television Receiving Sets, July 1978 Advance Information
Canadian manufacturers' domestic sales of "Made in Canada" colour television sets were 5,912 units in July compared to 17,940 a year earlier.

For further information, order the July issue of Radio and Television Receiving Sets (43-004, 30\$/\$3), or contact Mr. T. Raj Sehdev (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Sales of Paints, Varnishes and Lacquers, July 1978 Advance Information
Producers' trade and industrial sales of paints, varnishes and lacquers totalled \$47,930,282 in July compared to $\$ 40,332,783$ a year earlier.

For further information, order the July issue of Sales of Paints, Varnishes and Lacquers (46-001, 15\$/\$1.50), or contact Mr. J. Dornan (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Farm Cash Recelpts, January-July 1978 - Advance Information
Preliminary estimates indicate that during the January to July period of 1978 farmers' total cash receipts from farming operations in all provinces except Newfoundland totalled $\$ 6,655.2$ million compared to $\$ 5,738.5$ million realized during the same period of 1977. These estimates include: cash receipts from the sale of farm products; Canadian Wheat Board participation payments on previous years' grain crops; cash advances on farm-stored grains in Western Canada; and deficiency payments made by the Agricultural Stabilization Board. No deduction is made for the cost incurred by farmers in the production of the commodities sold.
For further information, order the July issue of Farm Cash Receipts (21-001, 30¢/\$3), or contact Peter Lys (613-995-4895), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Peeler Logs, Veneers and Plywoods, June 1978 Advance Information
Canadian mills shipped $249,298,000$ square feet (23 161000 m 2 ) 3/8" ( 9.525 mm ) basis of softwood plywood in June, down from 258,788,000 square feet (24 042000 m 2 ) in June 1977.

Shipments of hardwood plywood amounted to $31,499,000$ square feet ( 2925000 m 2 ) surface measure for June, a decrease of $6.1 \%$ from the same month in 1977.

For further information, order the June issue of Peeler Logs, Veneers and Plywoods (35-001, 30\$/\$3), or contact Mr. P.E. Martin (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Production of Eggs and Poultry, July 1978 - Advance Information
Canadian egg production increased $0.9 \%$ to 39.8 million dozen in July from 39.4 million dozen a year earlier. The average number of layers was down 2.0\% to 23.1 million from 23.5 million while the number of eggs per 100 layers increased $2.9 \%$ to 2,068 from 2,009 .

For further information, order the July issue of Production of Eggs and Poultry (23-003, 30\$/\$3), or contact J.H. Dickson (613-995-4853), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Canadian Farm Products Indexes (1971=100), July 1978 - Advance Information
The Canadian Farm Products Index for July stood at 203.6, down 2.5\% from June.

For further details, order the August issue of Industry Price Indexes (62-011, 55\$/\$5.50), or contact Mrs. A.J. Sprott (613-995-5761), Prices Division, Statistics Canada, Ottawa K1A OV5.

Telephone Statistics, July 1978 - Advance Information
Canada's 13 major telephone systems reported revenues of $\$ 356.8$ million in July, up 12.7\% over July 1977. Operating expenses were $\$ 243.7$ million, an increase of $13.9 \%$. Net operating revenue at $\$ 113.1$ million showed an increase of $10.2 \%$ over July 1977. Telephone toll messages increased $12.9 \%$ to 90.9 million.

For further information, order the July issue of Telephone Statistics (56-002, \$1.50 a year), or contact Patrick Crosby (613-996-9274), Transportation and Communications Division, Statistics Canada, Ottawa K1A $0 T 6$.

Iron Ore, July 1978 - Advance Information
Canadian mines shipped $3,087,851$ short tons of iron ore in July compared to $5,874,130$ short tons a year earlier. This brought the seven-months output to 14,151,384 short tons in 1978 from 28,096,543 short tons in 1977.

For further information, order the July issue of Iron Ore (26-005, 154/\$1.50), or contact Art Symons (613-992-0491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Sugar Sales, August 1978 - Advance Information
Canadian sugar refineries reported total sales of 108041522 kilograms ( $238,190,820$ lbs.) of all types of sugar for August. Domestic sales totalled 96413489 kilograms ( $212,555,392 \mathrm{lbs}$.) and export sales amounted to 11628033 kilograms ( $25,635,428$ lbs.)

For further information, contact Mr. T.P. Sterling (613-992-8619), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OT6.

Steel Ingots, Week Ended September 9, 1978 Advance Information
Preliminary steel ingots production for the week ended September 9 was 315,418 short tons ( 286142 t ), an increase of $0.2 \%$ from the preceding week's total of 314,881 short tons ( 285655 t). The comparable week's total in 1977 was 275,778 short tons ( 250182 t ). The index of production based on the average weekly output during 1967 of 183,227 short tons ( 166211 t) equalling 100 was 172.1 in the current week, 171.9 a week earlier and 150.5 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

Stoves and Ranges, July 1978 - Advance Information Canadian manufacturers' domestic sales of electric stoves and ranges in July increased 13.3\% to 37,112 units from 32,737 in July 1977. Closing inventory of these products decreased by $12.6 \%$ to 68,436 units from 78,259 a year earlier.

For further information, order the July issue of Stoves and Furnaces (41-005, 30\$/\$3), or contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

## Employment, Canada

Unemployment, Canada
'000
'000

The Labour Force, August 1978
Canada's seasonally-adjusted unemployment rate edged up to 8.5\% in August from 8.4\% in July. The rate in August 1977 was 8.2\%.
Last month the employment level (seasonally adjusted) reached 10,145,000, up 13,000 from July (this marked the ninth consecutive month that the employment level has risen). Unemployment also rose, though, by 14,000 to 941,000 .
On a seasonally-adjusted basis, employment increased for men 25 years of age and over and women in the same age group by 12,000 and 11,000 , respectively. Levels decreased by 2,000 and 8,000, respectively, for
men 15 to 24 and women of the same age group. Unemployment increased by 4,000 for men 15 to 24 and by 10,000 for men 25 and over. The level increased by 7,000 for women $15-24$, while it decreased by 7,000 for women 25 and over.

Seasonally-adjusted August unemployment rates for the provinces, with July rates in brackets: Newfoundland $16.5 \%$ (16.7\%); Prince Edward. Island 8.8\% (9.1\%); Nova Scotia 10.4\% (10.9\%); New Brunswick 13.6\% (12.9\%); Quebec 11.0\% (.10.5\%); Ontario 7.1\% (continued)

Weekly Security Price Indexes
September 1978 - Advance Information

For further information, contact Information Unit (613-994-9957), Prices Division, Statistics Canada, Ottawa K1A OV6.
(7.3\%); Manitoba 6.7\% (6.7\%); Saskatchewan 4.6\% (3.9\%); Alberta 4.9\% (4.8\%); and British Columbia 8.4\% (7.7\%).

Without seasonal adjustment, the August labour force was $11,527,000$ with $10,635,000$ employed and 892,000 unemployed for an unemployment rate of $7.7 \%$. In July, the labour force was 11,570,000 with 10,644,000 employed and 927,000 unemployed for a rate of $8.0 \%$. In August 1977, the labour force numbered $11,098,000$ with 10,260,000 employed and 838,000 unemployed for a rate of $7.5 \%$.

For further information, order the September issue of The Labour Force (71-001, 55\$/\$5.50).

## Stocks of Dairy and Frozen Poultry Products, Septem-

 ber 1, 1978 - Advance InformationCold storage holdings of frozen poultry products at September 1 amounted to 68.5 million pounds compared with last year's total of 99.8 million pounds.

For further information, order the September issue of Stocks of Dairy and Frozen Poultry Products (32$009,30 \Phi / \$ 3$ ), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Steel Ingots and Pig Iron, August 1978 - Advance Information
Preliminary estimate of steel ingots production for August 1978 was $1,189,825$ short tons (1 079391 t). Pig iron production was 817,680 short tons ( 741787 t ).

For further information, order the August issue of Steel Ingots and Pig Iron (41-002, 15\$/\$1.50), or contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV3.

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.
Piggyback traffic includes trailers and containers on flat cars.
All 1977 figures have been revised - 1978 cumulative data also revised.

Rallway Carloadings, 10 Days Ended August 31, 1978 - Published Only in the Daily

Canadian railways loaded 7.4 million $t$ ( 8.2 million short tons) of revenue freight in the last 10 days of August, an increase of 2.9\% over the same 1977 period. Loadings were up $0.7 \%$ in the East and $5.7 \%$ in the West. Container-trailer (piggyback) movements rose 24.6\%.

In the January 1 to August 31, 1978 period, rail freight loadings in Canada aggregated 138.3 million t ( 152.5 million short tons). This represented a decline of $8.3 \%$ from the first eight months of 1977, all of which was attributable to traffic losses east of the Lakehead.

Cumulative container-trailer (piggyback) traffic was running $6.5 \%$ ahead of the 1977 pace.

For further information, contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

The Consumer Price index, August 1978 (62-001, $30 ¢ / \$ 3)$
The all-items Consumer Price Index for Canada (1971=100) marginally advanced by $0.1 \%$ to 177.8 in August from 177.7 in July, showing the smallest monthly increase since December 1975. As a result, the 12-month rise between August 1977 and August 1978 stood at $9.4 \%$, down from the $9.8 \%$ registered in the previous month. The marked deceleration in price movements in this latest month was substantially attributable to the food index which declined by $1.4 \%$ whereas the index for all items excluding food increased by 0.7\%.

Lower prices for fresh vegetables and beef - down $19.4 \%$ and $4.3 \%$, respectively, on average in early August - were largely responsible for the 2.0\% decline in the food-at-home index. The decline in fresh vegetable prices reflected the seasonal availability of local produce. The impact of these price decreases was somewhat dampened by higher prices for selected pork products, wieners and canned salmon, as well as by a $2.0 \%$ rise in the food-away-from-home index.

Higher gasoline prices and rent charges were the largest contributing factors in the $0.7 \%$ increase in the index for all items excluding food. Other notable increases included higher homeownership costs, increased telephone rates (especially in the provinces of Quebec and Ontario), as well as higher automobile insurance premiums and increased prices for selected imported model cars. Higher prices were also recorded for many clothing items and for both men's haircuts and women's hairdressing services. Between August 1977 and August 1978, the index for all items excluding food advanced by $6.2 \%$.
(continued on page 4)

Month-to-Month Percentage Changes In the Unadjusted and Seasonaily Adjusted Consumer Price Index for Canada*

[^17]Viewed in terms of goods and services, the price level of goods, including food, declined by $0.3 \%$ in the latest month while that for services was up $0.6 \%$. Between August 1977 and August 1978, the price level of goods increased by $10.9 \%$ while that for services rose by $6.7 \%$.

On a seasonally-adjusted basis, the all-items CPI showed no change between July and August: there was a $1.0 \%$ decline in the food index but this was offset by a $0.4 \%$ increase in the index for all items excluding food.

In August, the current annual rate of change in the CPI*, based on the seasonally-adjusted movement in the latest three-month period, was $7.6 \%$.

* See Table 2 and technical notes of this release.

## Note to CPI Users

Technical problems encountered with the new CPI production system have forced a delay in the introduction of the CPI revision. Statistics Canada will advise users of the new month of introduction of the revision once these difficulties have been resolved.

Retall Trade, July 1978 - Advance Information
Seasonally-adjusted retail sales for July were $\$ 5,758.1$ million, a rise of $0.5 \%$ from the $\$ 5,731.4$ million recorded in June. Sales were up in 16 of the 28 trade groups. The largest gains were posted by specialty shoe stores ( $16.0 \%$ ), sporting goods and accessories stores ( $8.5 \%$ ) and family shoe stores ( $8.1 \%$ ). Six provinces showed increased sales over June, ranging from 2.4\% for Quebec to $0.1 \%$ for British Columbia.

Total retail trade without seasonal adjustment reached $\$ 5,691.0$ million, up $11.2 \%$ over July 1977. Sales increased in 27 of the 28 trade groups with the largest gains reported by motor vehicle dealers (20.5\%) and sporting goods and accessories stores (20.4\%); the only decrease was in furniture, TV, radio and appliance stores $(-3.6 \%)$. All provinces had increased sales over July 1977, ranging from 14.9\% for Nova Scotia to $9.1 \%$ for Manitoba. Montreal sales rose 8.1\%; Toronto 10.6\%; Winnipeg 8.3\%; and Vancouver 13.8\%.

Revised total retail trade, unadjusted for seasonal influences, for June was $\$ 6,216.3$ million, an increase of $16.0 \%$ from June 1977.

For further information, order the July issue of Retail Trade (63-005, 55¢ $/ \$ 5.50$ ), or contact the Retail Trade Section (613-996-9304), Merchandising and Services Division, Statistics Canada, Ottawa K1A OV4.

Home Nursing Services, 1976 (82-214, \$2.10)
The first edition of a new publication by the Health Division reports on home nursing services provided by the Victorian Order of Nurses for Canada (VON) in 1976. Home nursing services are an integral part of most provincial Home Care programs, a rapidly expanding area in the health field, and $49 \%$ of the 69,733 patients admitted to the VON's home nursing program in 1976 were provided with these services under a provincial Home Care program.

The nursing services were provided in nine provinces, with $51 \%$ of the admissions occurring in Ontario, 9\% in British Columbia, 8\% in New Brunswick and in Quebec, and between 3\% and 6\% in Newfoundland, Nova Scotia, Manitoba, Saskatchewan and Alberta. The average number of days of service per patient was 78.4 and the average number of visits per patient was 17.5. A total of $1,255,435$ visits were provided to the 71,620 patients who separated (were discharged) in 1976. Primarily as the result of the closure of two branches, and the transfer of all nursing services in British Columbia to the provincial government during the year, the total caseload of the VON at December 31, 1976 showed a 12.5\% decrease from a year earlier.

Forty-nine percent of all patients admitted were over 65 years of age (figures for Newfoundland and New Brunswick were considerably lower since. VON maternity programs were still operating in these provinces). Sixty-five percent of the admissions were female, and $49 \%$ were married and $27 \%$ widowed. Six diagnostic categories accounted for $52 \%$ of all admissions: diseases of the digestive system (11.7\%); malignant neoplasms (11.2\%); accidents, poisonings and violence ( $8.4 \%$ ); diseases of the circulatory system (7.4\%); heart disease (7.0\%); and diabetes (6.6\%).

Over-all, the condition of $65 \%$ of the patients was reported as improved by the date of separation, the condition of $22 \%$ had not improved, $4 \%$ had died and in $8 \%$ of the cases, the nurse was unable to assess the patient's condition. Eighty-five percent of all patients separated within three months, while $67 \%$ separated within one month of admission. The dispositions (resources into whose care a patient was released) which accounted for over $70 \%$ of all separations were the patient himself ( $45 \%$ ), and the family or friends (26\%); only $14 \%$ of the cases required hospitalization after home nursing services had been provided. In five provinces the major source of payment was the provincial government itself (British Columbia 99\%, Manitoba 98\%, Ontario 82\%, Saskatchewan 68\%, and Newfoundland 49\%). In several provinces a large percentage of all visits were paid for by the patients themselves (Nova Scotia 60\%, New Brunswick 43\%, Alberta 35\%, Newfoundland 30\%, and about 25\% in Quebec and Saskatchewan).
Three special analyses are included in the publication in order to demonstrate some potential uses of the data file. These include: a detailed analysis of patients admitted with a diagnosis of diabetes, the diagnostic category accounting for the largest number of nursing visits; a detailed analysis of patients admitted with diagnoses of accidents, poisonings and violence; and an analysis of patients admitted under the auspices of a provincial Home Care program.
For further information; order Home. Nursing Services (The Victorian Order of Nurses for Canada), 1976 (82-214, \$2.10). Enquiries should be addressed to Sheena M. Lee (613-995-9411), Health Division, Statistics Canada, Ottawa K1A OT6.
(see tables on next page)

Pulpwood and Wood Residue, July 1978 - Advance Information
Roundwood production decreased 8.4\% to 1,476,499 cunits ( 4181000 m 3 ) in July 1978 from 1,612,175 cunits ( $4565000 \mathrm{m3}$ ) a year earlier. Receipts of wood residue increased $6.8 \%$ to 980,496 cunits ( 2776000 m 3 ) from 918,170 cunits $(2600000 \mathrm{~m} 3$ ).

Consumption of roundwood and wood residue increased $5,7 \%$ to $2,374,714$ cunits ( 6725000 m 3 ) from 2,246,257 cunits ( 6361000 m 3 ) and closing inventory of these two products decreased by $11.1 \%$ to 8,633,080 cunits (19 $119000 \mathrm{m3}$ ) from 9,715,139 cunits ( 27510000 m 3 ).

For further information, order the July issue of Pulpwood and Wood Residue Statistics (25-001, $15 \$ / \$ 1.50$ ), or contact Mr. C. Sturton (613-992-2371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Feed Price Indexes, July 1978 - Advance Information Feed price indexes, Canada and five geographical regions, for July are now available.

For further information, contact the Information Unit (613-995-5761), Industrial Prices Section, Prices Division, Statistics Canada, Ottawa K1A OV5.

*These indexes are preliminary.

General Wholesale Price Index (1935-39=100), July 1978 - Advance Information
The General Wholesale Index decreased $0.2 \%$ to 603.4 in July from its revised June level of 604.7. The index was $7.0 \%$ higher than in July 1977 when it stood at 563.8. The major groups having the most effect on the total index in July were vegetable products, animal products and textile products.
The vegetable products index declined by $1.5 \%$ in July, due mainly to price decreases of $5.8 \%$ for sugar and its products, and $7.9 \%$ for tea, coffee and cocoa.
The animal products index declined by $1.5 \%$, reflecting decreases of $7.2 \%$ for livestock and $1.0 \%$ for fresh meats.
The index for textile products showed an increase of $1.2 \%$, attributable largely to increases of $2.7 \%$ for cotton yarns, $2.3 \%$ for cotton fabrics, $2.3 \%$ for worsted yarns, and $3.7 \%$ for woolen hosiery and knit goods.

For further information, order the July issue of Industry Price Indexes (62-011, 55¢/\$5.50), or contact the Information Unit (613-995-5761), Industrial Prices Section, Prices Division, Statistics Canada, Ottawa K1A OV5.

Mineral Production, July 1978 - Advance Information Canadian mineral production for July and for 1978 to date, with comparable 1977 figures in brackets:

- Gold, 140,858 troy ounces $(142,891)-974,907$ troy ounces ( $1,007,461$ ).
- Primary copper, 50,708 short tons $(68,065)$ 471,558 short tons $(517,265)$.
- Primary nickel, 10,013 short tons $(20,484)-116,465$ short tons $(155,342)$.
For further information, order the July issues of Gold Production (26-004, 15\$/\$1.50); and Copper and Nickel Production (26-003, 15¢/\$1.50); or contact Art Symons (613-992-0491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Greenhouse Industry, 1977 - Advance Information Preliminary 1977 data and revised 1976 data are now available for the greenhouse industry in Canada, by province. The available data are obtained from an annual survey of greenhouse growers.
For further information, contact Karen Wardley (613-995-4877), Agriculture Division, Statistics Canada, Ottawa K1A 0L7, or order Greenhouse Industry, 1976-1977 (22-202, \$1.05) to be released in early November.

## Research Paper Available

The research paper Utilization of Health Care Services in Canada is now available.

The purpose of this research is to discover the extent to which obstetric and newborn services are being used, and to relate this use to demographic factors in order to project future needs. The study was undertaken with two specific objectives: one was statistical and the other methodological.

Inquiries about this research publication should be addressed to: Francis M.O. Umenyi (613-995-9551), Institutional Statistics Section, Health Division, Statistics Canada, Ottawa K1A 0T6.

Consumer Credit, July 1978 - Advance Information Consumer credit outstanding on the books of selected credit holders reporting monthly reached \$27,092 million at the end of July, an increase of $14.4 \%$ from a year earlier.

Outstanding balances of monthly-reporting credit holders at the end of July 1978, with percentage changes from a year earlier:

- Chartered banks' personal loans: $\$ 20,928$ million, up 16.7\%.
- Quebec savings banks' personal loans: $\$ 100$ million, up 20.5\%.
- Life insurance companies' policy loans: $\$ 1,310$ million, up 3.4\%.
- Sales finance and consumer loan companies' loans: small $\$ 184$ million, down $13.2 \%$; large $\$ 1,487$ million, up $1.1 \%$; instalment sales paper $\$ 1,112$ million, up 0.4\%.
- Department stores and furniture, TV, radio and household appliance stores: $\$ 1,391$ million, up 8.3\%.
- Trust and mortgage companies' personal loans: $\$ 580$ million, up $74.2 \%$.
Credit holders reporting quarterly had combined outstanding balances of $\$ 6,735$ million at the end of the second quarter of 1978 , up $15.2 \%$ from a year earlier. Credit unions and caisses populaires, the largest quarterly reporters, had preliminary balances outstanding of $\$ 4,977$ million, up $17.6 \%$ (also included in the quarterly total: other retail stores; other credit-card issuers; and public utilities).

Including quarterly reporters, consumer credit outstanding at the end of the second quarter of 1978 totalled $\$ 33,364$ million, up 13.8\% from June 30, 1977.

For further information, order the July issue of Consumer Credit (61-004, 30\$/\$3), or contact Retail Trade Section (613-996-9304 or telex 053-3585), Merchandising and Services Division, Statistics Canada, Ottawa K1A 0V6.

Silver, Lead and Zinc Production, July 1978 Advance Information.
Canadian production of silver decreased to $2,662,576$ troy ounces in July from 4,187,494 troy ounces in July 1977. This brought the seven-months output to $23,733,950$ troy ounces in 1978 from 26,687,876 in 1977.

July production of refined lead decreased to 14,546 short tons from 17,880 short tons a year earlier. Year-to-date output at 124,459 short tons was down from 130,441 in 1977.
Production of refined zinc decreased to 27,596 short tons from 44,369 short tons. Output for the first seven months of 1978 totalled 296,013 short tons, down from 353,226 in the January-July 1977 period.
For further information, order the July issue of Silver, Lead and Zinc Production (26-008, 15 $\$ / \$ 1.50$ ), or contact Art Symons (613-992-0491), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Dairy Factory Production, August 1978 - Advance Information
Production of creamery butter decreased $22.0 \%$ in August to 23.1 million pounds from 29.6 million pounds a year earlier. Cheddar cheese production decreased $14.9 \%$ to 14.6 million pounds from 17.1 million pounds. Production of ice cream mix increased $2.5 \%$ to 3.34 million gallons from 3.26 million gallons.
For further information, order the August issue of Dairy Factory Production (32-002, 15\$/\$1.50), or contact Mr. C.M. Riach (613-995-4859), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Direct Selling In Canada, 1977 - Advance Information Direct sales to household consumers by manufacturers and specialist direct-sellers in 1977 increased $6.9 \%$ to $\$ 1,683.0$ million from the revised 1976 figure of $\$ 1,574.5$ million. These sales represented $2.7 \%$ of the $\$ 61,651.3$ million in retail sales reported for Canada in 1977.

Door-to-door canvassing accounted for $62.1 \%$ of 1977 direct sales; mail-order sales for 16.9\%; counter sales at manufacturing premises for $15.6 \%$; and the remaining $5.4 \%$ were through other channels.

Further details will be published in Direct Selling in Canada, 1977 (63-218, 70\$). Additional advance information is available on request from the Retail Trade Section (613-996-9304), Merchandising and Services Division, Statistics Canada, Ottawa K1A OV4.

Stocks of Dalry and Frozen Poultry Products, September 1, 1978 - Advance Information
Cold storage holdings of creamery butter were up to 81.7 million pounds on September 1 from last year's corresponding total of 67.7 million while stocks of cheddar cheese were down to 65.9 million pounds from 66.1 million. Stocks of skim milk powder decreased to 115.7 million pounds from 182.9 million and stocks of evaporated whole milk decreased to 21.1 million pounds from 43.8 million.

For further information, order the September issue of Stocks of Dairy and Frozen Poultry Products (32009, 30§/\$3), or contact C.M. Riach (613-994-9974), Agriculture Division, Statistics Canada, Ottawa K1A OL7.

Index of Industrial Production, July 1978 - Advance Information
The seasonally-adjusted index of industrial production ( $1971=100$ ) increased $1.1 \%$ to 132.0 in July from 130.5 in June. Mining and utilities showed decreases, while manufacturing increased during the month.
For further information, order the July issue of Indexes of Real Domestic Product by Industry (including the Index of Industrial Production), (61-005, $40 \Phi / \$ 4$ ), or contact R.W. Collins (613-995-0443), Industry Product Division, Statistics Canada, Ottawa K1A OT6.

Wholesale Trade, July 1978 - Advance Information Sales by wholesale merchants for July were estimated at $\$ 5,046,210,000$, an increase of $12.9 \%$ from \$4,469,343,000 in July 1977.

Wholesale inventories were valued at $\$ 8,251,770,000$, up $9.7 \%$ from stocks of $\$ 7,523,388,000$ at the end of July last year.

For further information, order the July issue of Wholesale Trade (63-008, 15¢/\$1.50).

Oil Pipeline Transport, June 1978 - Advance Information
Canadian oil pipe lines received $2,619,316$ barrels a day ( 416235 m 3 D ) of crude oil, condensate, pentanes plus and refined petroleum product in June, an increase of $2.9 \%$ from the $2,543,400$ B/D (404 $172 \mathrm{m3D}$ ) received a year earlier. Receipts of domestic petroleum and products increased $4.2 \%$ to 2,319,732 B/D ( 368629 m 3 D ), while imported petroleum and products receipts decreased $5.8 \%$ to 299,583 B/D ( 47607 m 3 D ).
For further information, order the June issue of Oil Pipe Line Transport ( $55-001,30 ¢ / \$ 3$ ), or contact G. Kitchen (613-992-4021), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0 T6.

Vending Machine Operators, 1977 - Advance Information
Total sales through 105,587 vending machines as reported by 622 vending machine operators for 1977 reached $\$ 286,478,100$, up 6.3\% over 1976.
The total for 1977 included sales through the following vending machines, with percentage changes from 1976:

- Cigarette machines (28,913): \$122,306,800 (1.2\%).
- Coffee machines (12,656): \$52,407,100 (16.1\%).
- Soft drink machines $(20,773)$ : $\$ 44,177,600(8.9 \%)$.
- Fresh food machines (4,177): \$20,053,700 (27.2\%).
- Packaged milk and juice machines $(2,086)$ : \$10,244,300 (13.4\%).
- Hot canned food and soup machines $(2,264)$ : $\$ 4,613,100$ (2.9\%).
Further information will be contained in the publication Vending Machine Operators, 1977 (63-213, 70¢), or contact the Retail Trade Section (613-996-9304 or telex 053-3585), Merchandising and Services Division, Statistics Canada, Ottawa K1A OV4.

Honey Production, 1978 - Advance Information
The 1978 Canadian honey crop is forecast at 65.9 million pounds, a $7 \%$ increase from the 1977 total of 61.8 million pounds. Production in Alberta is expected to be down $14 \%$ to 18.4 million pounds.
Yields are forecast to be up in Nova Scotia, Quebec, Manitoba and Saskatchewan but down in Prince Edward Island, New Brunswick, Alberta and British Columbia.
There are approximately 17,170 active beekeepers and 559,100 colonies in Canada this year.

For further information, order Honey Production (23-007, 35\$/70\$) to be released in October or contact K.C. Wardley (613-995-4877), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

Steel Ingots, Week Ended September 16, 1978 Advance Information
Preliminary steel ingots production for the week ended September 16 was 336,777 short tons ( 305519 t), an increase of $6.8 \%$ from the preceding week's total of 315,418 short tons (286 142 t ). The comparable week's total in 1977 was 296,247 short tons (268 751 t). The index of production based on the average weekly output during 1967 of 183,227 short tons (166 211 t) equalling 100 was 183.8 in the current week, 172.1 a week earlier and 161.7 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Telephone Statistics, 1977 - Advance Information
Canada's telephone systems reported operating revenues of $\$ 3,854$ million in 1977 , up $14.6 \%$ over $\$ 3,364$ million in 1976. Operating expenses rose $16.1 \%$ to $\$ 2,639$ million from $\$ 2,274$ million. Net profit after income tax was reported at $\$ 385.0$ million, $3.3 \%$ higher than the previous year ( $\$ 372.7$ million). The number of telephones in operation rose $4.3 \%$ to $14,488,000$ in 1977 from 13,885,000 in 1976.

For further information, order Telephone Statistics, 1977 (56-203, 70¢), or contact P.T. Crosby (613-9969274), Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6.

Canada's Fioreign Trade In Automotlve Products, First Six Montḥs 1978 - Published only in Statistics Canada Daily and Infomat
Trade with, the United States
Canadian exports of automotive products to the United States rose älmost $\$ 800$ million̆, or $15 \%$, to $\$ 5,946$ million in the first hálf of 1978 friom $\$ 5,148$ million in the same period'of'1977. More than one-half of this increase was due to truck shipments, which advanced $44 \%$ to $\$ 1,335$ million, reflecting recordsetting sales in the U.S. Exports of passenger cars were up more moderately-by close to $3 \%$ to $\$ 2,325$ million. Most of the $17 \%$ increase in parts shipments was attributable to parts other than motor vehicle engines and parts. Tire exports rose $13 \%$ to $\$ 87$ million
At $9 \%$, the increase in imports from the U.S. of motor vehicles and parts to $\$ 6,257$ million in the first half of 1978 was considerably smaller than the $15 \%$ gain in exports. The rise in imports was entirely due to automotive parts, which advanced $14.5 \%$ to $\$ 4,065$ million. This value represented $65 \%$ of total automotive imports, up from the proportion of $62.5 \%$ for calendar year 1977. Some of this increase is reflected in the expansion in shipments of knocked-down vehicles by Canadian manufacturers to affiliated companies in overseas countries. The increase of some 7\% in truck imports to $\$ 619$ million was offset by small declines in the arrivals of passenger cars and tires. The value of car imports totalled $\$ 1,505$ million in 1978.
The surplus in the trade in trucks more than doubled to $\$ 716$ million in the first six months of 1978 , while the automobile surplus expanded $11 \%$ to $\$ 820$ million. The balance for tires improved by $\$ 32$ million to a surplus of $\$ 19$ million in the first half of 1978 from a deficit of $\$ 13$ million in 1977. The deficit in motor vehicle parts continued to widen, by $12 \%$ to $\$ 1,866$ million. Over-all, there was a sharp contraction in the deficit to $\$ 311$ million in the first half of 1978 from $\$ 593$ million a year earlier. A continued improvement is possible in the nine-month over-the-year comparison on account of the heavier distribution of the 1977 deficit in the two middle quarters of that year.

## Overseas Trade

At $\$ 435$ million, Canadian exports of automotive products to overseas countries recorded a gain of 9\% over $\$ 399$ million in the first half of 1977. This increase arose entirely from enhanced shipments of motor vehicles, in particular of trucks. Exports of cars and trucks in 1978 were $\$ 192$ million and $\$ 146$ million, respectively. Included in the value of unassembled vehicles exported to overseas affiliates, as mentioned earlier, were automotive parts imported from the U.S.
by Canadian vehicle manufacturers. Shipments of tires and re-exports rose slightly, but exports of parts declined moderately.

Imports of automotive goods expanded more substantially than exports-by $44.4 \%$ to $\$ 680$ million in January-June 1978 from $\$ 471$ million. Most of this increase originated from a $75.7 \%$ advance in the value of passenger car imports to $\$ 441$ million from $\$ 251$ million. Apart from captive imports of small cars by the Big Three, the bulk of passenger car arrivals is attributed to foreign vehicle manufacturers. Changes were moderate for other imports: up moderately for trucks and tires, but down slightly for parts. The automotive deficit more than tripled to $\$ 245$ million in the first six months of 1978, already exceeding by far the low annual deficit of $\$ 111$ million for 1977 .

## Passenger Car Imports

The decline of $1 \%$ in the value of passenger car imports from the U.S.covered a larger fall in the number of automobile arrivals. These totalled 293,300 units in the first six months of 1978, down over 11\% from 330,500 units in the same period one year before. The U.S. share of Canadian imports accordingly contracted to $71.9 \%$ from $79.8 \%$ between the two periods. The number of automobiles arriving from Japan and West Germany each rose close to $40 \%$. The proportion of Japanese cars expanded to $19.7 \%$ from $14.1 \%$, and the West German share increased to nearly $6 \%$ from $4 \%$.

The average price of imported cars rose 11.4\% between the first half years of 1977 and 1978, matching the price change for American cars. The unit values of Japanese and West German cars recorded higher increases of $34 \%$ and $24 \%$, largely reflecting the stronger appreciation of their respective currencies against the Canadian dollar. The average prices of imported cars are also probably influenced by the introduction of new car lines, basic price adjustments and the changing import mix during the two periods.

For further information, contact H.W. Iwasaki (613-992-2663), External Trade Division, Statistics Canada, Ottawa K1A OT6.
(see tables on pages 3 and 4)

Inventories, Shipments and Orders in Manufacturing Inventorles, July 1978 - Advance Information
The preliminary estimate of manufacturers' shipments in July, seasonally adjusted, was $\$ 11,106.3$ million, up $2.1 \%$ from the revised June level of $\$ 10,882.9$ million. Durable goods shipments rose $2.2 \%$ to $\$ 5,207.5$ million from $\$ 5,096.3$ million and non-durable goods shipments were up $1.9 \%$ to $\$ 5,898.8$ million from $\$ 5,786.6$ million.

Seasonally-adjusted new orders in all manufacturing industries dropped $0.8 \%$ in July to $\$ 11,058.1$ million from $\$ 11,142.0$ million. Durable goods new orders were down $3.3 \%$ to $\$ 5,139.0$ million from $\$ 5,312.2$ million while non-durable goods new orders rose $1.5 \%$ to $\$ 5,919.1$ million from $\$ 5,829.8$.

Seasonally-adjusted unfilled orders in all manufacturing industries were estimated at $\$ 11,890.6$ million in July, $0.4 \%$ below the revised June figure of $\$ 11,938.8$ million.

Total inventory owned, seasonally adjusted, was estimated at $\$ 19,532.8$ million, fractionally below the revised June total of $\$ 19,565.8$ million. Total inventory held at an estimated $\$ 20,583.7$ million was down $0.1 \%$ from $\$ 20,599.7$ million (revised) in June. Goods in
process and finished products rose $1.3 \%$ and $0.2 \%$, respectively, while raw materials decreased $1.2 \%$.

The seasonally-adjusted ratio of total inventory owned to shipments was 1.76:1 in July compared to the revised June ratio of 1.80:1. The finished products to shipments ratio was $0.60: 1$, down from 0.62:1 (revised) the month before.
Not adjusted for seasonal variation, manufacturers' shipments in July were estimated at $\$ 10,084.8$ million, $13.6 \%$ below the revised June value of $\$ 11,674.1$ million. Cumulative shipments for the first seven months of 1978 were estimated at $\$ 72,286.9$ million, up $15.5 \%$ from the January-July 1977 total of \$62,593.6 million.

For further information, order the July issue of Inventories, Shipments and Orders in Manufacturing Industries (31-001, 55 $/ \$ 5.50$ ), or contact H.D. Wightman (613-996-7008), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.
(see table on next page)

| Ratio of Finished Products to Shipments | 0.60 | 0.62 | 0.64 | 0.69 |

Road and Street Length and Financing, 1975 Advance Information
Total length of public roads and streets in Canada at December 31, 1975 was 541,649 miles ( 871700 km ), an increase of $1.3 \%$ from 534,826 miles ( 860719 km ) in 1974. Paved mileage included in these totals amounted to 149,362 miles ( 240375 km ) in 1975, up $4.3 \%$ from 143,265 miles ( 230563 km ) the year before.

Total expenditures during the 1975 fiscal year (ended either December 31, 1975 or March 31, 1976, as appropriate) totalled $\$ 5.17$ billion, up $35.9 \%$ from $\$ 3.80$ billion in the previous fiscal year. Of the $\$ 5.17$ billion spent in the 1975 fiscal year, $\$ 2.71$ billion represented expenditures of the 12 provincial and territorial administrations.

Total revenue received by the provinces and territories from full taxes and fees for vehicle registrations, drivers' licences and other road-related permits
during the 1975-1976 fiscal year totalled $\$ 2.08$ billion, up $5.0 \%$ from $\$ 1.98$ billion in the preceding year.
For further information, contact the Surface Transport Section (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A 0T6 or order the 1975 issue of Road and Street Length and Financing (53-201, 704).

The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.
Piggyback traffic includes trailers and containers on flat cars.
All 1977 figures have been revised - 1978 cumulative data also revised.

Railway Carloadings, 7 Days Ended September 7, 1978 - Published Only in the Daily

Railway carloadings in Canada were up 1.0\% in the above-noted week to 4.4 million $t$ ( 4.9 million short tons). Traffic in the East declined 3.7\% during the latest period, while in the West a gain of $7.4 \%$ was recorded. Container-trailer (piggyback) movements were down $0.5 \%$ in the East, but rose $13.3 \%$ west of the Lakehead for an over-all increase of 2.9\%.

In the period January 1 through September 7, 1978, Canadian rail freight loadings were $8.0 \%$ below those of 1977. This decline can be attributed to a loss of $17.1 \%$ in eastern traffic and, more specifically, to loadings of iron ore which had fallen $54.4 \%$ by July 31 (the latter resulted from labour problems in iron mines in northeastern Quebec and Newfoundland which all
but crippled railway operations in that area from March 15 to mid-July). Cumulative container-trailer (piggyback) movements to September 7 were up $6.4 \%$ from 1977.

For further information, contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

## Additional Information

When names and telephone numbers are not provided, additional information can often be obtained from the regional User Advisory staff of Statistics Canada or from its Central Inquiries Service, Ottawa (613-992-4734).

Also, toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing. 1-800-667-3524. Throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

#### Abstract

Output Price Indexes of Non-residentlal Construction The non-catalogue publication Output Price Indexes of Non-residential Construction (Selected Buildings) is now available.

This paper decribes newly-published indexes measuring price changes since 1972 for the construction of three representative buildings in four major cities in Canada - Montreal, Toronto, Ottawa and Vancouver. It is the first covering non-residential building construction to be based on the value of work in place, incorporating effects of productivity change and market conditions as well as labour and material price movements. It is being distributed to subscribers with the latest issues of Construction Price Statistics, Monthly Bulletin (62-007) and Construction Price Statistics, Quarterly Report (62-008). For further information, contact R.J. Lowe (613-995-5757), Capital Expenditures Prices Section, Prices Division, Statistics Canada, Ottawa K1A OV5.

## Consumer Price Indexes for Regional Cities, August

 1978 (62-009, 30\$/\$3)Technical problems encountered with the new CPI production system have forced a delay in the introduction of the CPI revision. Statistics Canada will advise users of the new month of introduction of the revision once these difficulties have been resolved. Users should note that the release date for Regional Cities CPl's containing data for the reference month of September will now be October 19, 1978.
From July to August, consumer price indexes rose in 10 cities and fell in the remaining four, with price movements ranging from declines of $0.2 \%$ in Ottawa, Toronto and Calgary to an increase of $0.6 \%$ in Thunder Bay. Lower prices for fresh vegetables and beef cuts were largely responsible for the moderation in price movements, but their impact, in many cities, was largely offset by higher gasoline prices, increased rent
and homeownership charges and higher telephone rates. Other notable factors included higher prices for selected clothing items, increased charges for barber and hairdressing services, higher automobile insurance premiums and increased prices for some imported model cars.
St. John's
All items: July to August 1978, up 0.3\%; August 1977 to August 1978, up 8.2\%.

Main contributors: higher prices for meat and poultry. Higher electricity rates. Prices also up for women's hairdressing services. New car prices rose while automobile insurance premiums declined.
(continued)

## Halifax

All items: July to August 1978, up 0.5\%, August 1977 to August 1978, up 7.8\%.

Main contributors: higher prices for fresh and powdered milk, beef, fresh fruit and restaurant meals. Higher telephone rates. Prices up for some imported cars.

## Salnt John

All items:July to August 1978, up 0.5\%; August 1977 to August 1978, up 8.3\%.

Main contributors: higher electricity rates and gasoline prices. Lower prices for fresh produce, pork and eggs, partly offset by higher prices for beef cuts, wieners and powdered milk.

## Quebec City

All items: July to August 1978, up 0.4\%; August 1977 to August 1978, up 8.4\%.

Main contributors: increased rent charges and higher telephone rates. Increased clothing prices and higher taxi fares. Lower prices for fresh vegetables, beef and pork.

## Montreal

All items: July to August 1978, up 0.2\%; August 1977 to August 1978, up 9.0\%.

Main contributors: higher rents and telephone rates; higher gasoline prices while automobile insurance premiums decreased. Lower prices for fresh produce and beef, partly offset by higher prices for restaurant meals.

## Ottawa

All items: July to August 1978, down 0.2\%; August 1977 to August 1978, up 8.6\%.

Main contributors: lower prices for fresh produce and beef. Telephone rates up. Higher gasoline prices and increased automobile insurance premiums.

## Toronto

All items: July to August 1978, down 0.2\%; August 1977 to August 1978, up 9.1\%.

Main contributors: lower prices for fresh produce, beef, bread and poultry. Domestic gas and telephone rates increased. Prices up for gasoline and automobile insurance. Increased charges for barber and hairdressing services.

## Thunder Bay

All items: July to August 1978, up 0.6\%; August 1977 to August 1978, up 8.0\%.

Main contributors: higher prices for fresh fruit, pork and wieners offset in part by lower prices for beef. Gasoline prices and automobile insurance premiums also increased.

## Winnipeg

All items: July to August 1978, up 0.5\%; August 1977 to August 1978, up 8.6\%.

Main contributors: higher prices for fresh fruit, pork, wieners and restaurant meals offset partly by lower prices for fresh vegetables and beef. Prices of gasoline and for barber and hairdressing services also advanced.

## Saskatoon

All items: July to August 1978, up 0.1\%; August 1977 to August 1978, up 7.6\%.

Main contributors: lower prices for beef, fresh vegetables and chicken offset in part by higher prices for pork, fresh fruit and restaurant meals. Prices for new cars and gasoline also advanced.

## Regina

All items: July to August 1978, down 0.1\%; August 1977 to August 1978, up 8.9\%.

Main contributors: lower prices for beef products, fresh vegetables, and roasted coffee. Increased prices for selected clothing items; higher gasoline and new car prices.

## Edmonton

All items: July to August 1978, up 0.2\%; August 1977 to August 1978, up 8.7\%.

Main contributors: decline in prices of beef and fresh fruit and vegetables; higher prices for bread, pork and restaurant meals. Higher rates for domestic gas and automobile insurance premiums.

## Calgary

All items: July to August 1978, down 0.2\%; August 1977 to August 1978, up 8.2\%.

Main contributors: lower prices for beef cuts, frẹsh vegetables and wieners; higher prices for pork, and fresh fruit. New car prices, automobile insurance premiums and admission charges to sporting events also up.

## Vancouver

All items: July to August 1978, up 0.2\%; August 1977 to August 1978, up 8.0\%.

Main contributors: lower prices for fresh produce, beef cuts, pork and poultry. Increased prices for gasoline, new cars, selected women's clothing items and men's haircuts.
(see table on next page)
Estimates of Production and Disappearance of Meats, Intercensal Revisions, 1971-76 - Advance Information
Previously-published estimates for production and disappearance of beef, veal, mutton and lamb, pork and offal during the intercensal period 1971-76 have been revised to conform with Census benchmarks of livestock inventory.

Details of this information will be carried in tabular form in the 1978 issue of Estimates of Production and Disappearance of Meats (32-220, 35¢) to be released in April 1979. Inquiries should be addressed to Mr. B.E. Rosien (613-995-4863), Agriculture Division, Statistics Canada, Ottawa K1A 0L7.

## Consumer Price Indexes for Regional Cities of Canada

The indexes in this table measure within each city the percentage change in consumer prices from the base period to subsequent time periods. They cannot be used to compare levels of prices between cities.*

*For inter-city indexes of retail price differentials refer to Section C, of Prices and Price Indexes (62-010, \$1.40/\$5.60).
** The indexes for the cities of Saskatoon, Regina, Edmonton and Calgary supersede, as of January 1975, the combined cities series of Saskatoon-Regina and Edmonton-Calgary. For further details see Retail Prices and Living Costs Service Bulletin (Statistics Canada Catalogue No. 62-005, Vol. 3, No. 5).

Preliminary Report on Job Vacancies, Three Months Ended August 31, 1978 - Advance Information Preliminary estimates of the average number of jobs vacant on a daily basis during the three-month period ended August 31 show an increase of $14 \%$ from the previous three-month period. Vacancies for full-time, part-time and casual jobs were 48,200*. Compared with the same three-month period in 1977, the number of vacancies decreased by 5,400 , or $10 \%$.

Vacancies for full-time jobs increased by $15 \%$ to 43,200 in the latest three-month period from 37,500. Longer-term vacancies (jobs unfilled for more than four weeks) increased by $21 \%$.

For every 1,000 existing jobs in the latest threemonth period five were vacant, unchanged from the preceding period. The comparable rate a year earlier was six. The highest vacancy rate occurred in Alberta ( 11 per 1,000 ) while the lowest rate was observed in Newfoundland (two per 1,000).
*The Job Vacancy Survey provides an estimate of the average number of vacancies available on any given day in a three-month period. The estimate of this three-month average is derived from six observations taken at regular intervals. Consequently, the survey does not cover those vacancies which occur and are filled between individual observations. In addition, the survey does not cover openings in agriculture, fishing, hunting, trapping and households. The data derived from the Job Vacancy Survey, taken over time, are consistent and reliable indicators of trends in job openings.

For detailed definitions and design of the survey, see Canadian Job Vacancy Survey, Technical Appendix, 1972 (71-521, 50¢).

Vacancy Rates for Part-time and Full-time Jobs Canada and Provinces

p Preliminary estimates.
(1) Includes Yukon and Northwest Territories.
(2) Includes Prince Edward Island.

For further information, contact Mr. J.A. Boucek (613-992- . 2006), or Ms. M. Beaubien (613-996-7148), Labour Division, Statistics Canada; Ottawa K1A OV1.

Weekly Security Price Indexes

September 1978 - Advance Information

[^18]Sales Financing, July-1978 - Advance Information Sales finance companies purchased $\$ 281.3$ million of retail finance paper in July, an increase of 15.3\% compared with the $\$ 244.0$ million purchased in July 1977. Total purchases comprised $\$ 69.4$ million for passenger cars, $\$ 33.0$ million for other consumer goods, $\$ 111.3$ million for commercial vehicies and $\$ 67.5$ million for other commercial and industrial goods.

Wholesale financing undertaken by these companies during the second quarter of 1978 amounted to $\$ 2,571.3$ million, up $1.9 \%$ from the $\$ 2,523.0$ million financed in April-June 1977.

## Additional Information

When names and telephone numbers are not provided, additional information can often be obtained from the regional User Advisory Services staff of Statistics Canada or from its Central Inquiries Service, Ottawa (613-992-4734).

Also, toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing 1-800-667-3524. Throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

Vinyl-asbestos Floor Tile, August 1978 - Advance Information
Canadian manufacturers produced 3,501 short tons ( 3176 t ) or $7,705,872$ square feet ( 715899 m 2 ) of vinyl-asbestos floor tile in August compared to 4,319 short tons ( 3918 t ) or $8,073,440$ square feet ( 750047 m 2 ) in August 1977.

For further information, order the August issue of Production and Shipments of Floor Tiles (47-001, $15 \$ / \$ 1.50$ ), or contact Mr. R. Ralph (613-992-2231), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

Oliseeds, August 1978 - Advance Information Crushing of oilseeds for August, with oil produced and meal produced (all figures in metric tonnes):

- Soybeans: 59251 (10 134; 45 876).
- Rapeseed: 24148 (9 596; 13 599).

For further information, order the third quarter issue of Grains and Oilseeds Review (22-007, 70 $/ \$ 2.80$ ), or contact J.M. Huard (613-995-4881), Agriculture Division, Statistics Canada, Ottawa K1A 0 L7.

Survey of Visual Artists, 1978 - Advance Information Preliminary statistics are now available from the February 1978 Survey of Visual Artists conducted in the provinces of Ontario and Nova Scotia. The major objective of the survey was to gather information on the income and expenditures of practising visual artists.

Almost $60 \%$ of the estimated 2,000 practising visual artists earned less than \$10,000 in 1977. About 75\% of these artists reported art sales of less than \$5,000 and expenses for dealer commissions accounted for 35\% to $55 \%$ of total sales.

The survey in Ontario and Nova Scotia was a pilot study. More detailed analysis will follow after the completion of the national survey. In the meantime, further information is available from Anne Bowen (613-593-6862), Education, Science and Culture Division, Statistics Canada, Ottawa K1A OT6.

Steel Ingots, Week Ended September 23, 1978 Advance Information
Preliminary estimate of steel ingots production for the week ended September 23, 1978 was 335,265 short tons ( 304147 t ), an increase of $0.7 \%$ from the preceding week's revised total of 332,784 short tons ( 301897 t). The comparable week's total in 1977 was 291,869 short tons (264 779 t). The index of production based on the average weekly output during 1967 of 183,227 . short tons ( 166211 t) equalling 100 was 183.0 in the current week, 181.6 (revised) a week earlier and 159.3 one year ago.

For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

| Agriculture | 108.2 | 108.8 | 107.9 | 108.1 | 107.1 | 103.3 | 106.1 |

Real Domestic Product, July 1978 - Advance Information
The seasonally-adjusted index of real domestic product (1971=100) advanced $0.2 \%$ to 132.9 in July from 132.6 in June. The index of industrial production increased $1.1 \%$. Goods-producing industries advanced $0.4 \%$, while service-producing industries were up 0.2\%.

The increase in goods-producing industries in July was almost entirely due to a sharp rise of $3.0 \%$ in manufacturing output, accompanied by smaller increases in both agriculture and fishing and trapping. Output was down substantially in mining (especially miscellaneous metal mines and crude petroleum), forestry, construction and utilities.

The July increase in manufacturing was the largest month-to-month gain since August 1971, when a 3.5\% increase was recorded. Seventeen of the 20 major industry groups in manufacturing posted increases, with the most significant for manufacturers of transportation equipment, chemicals and chemical products, metal fabricating, machinery, primary metals, rubber and plastic products, and paper and allied products. The gain in transportation equipment stemmed from increased production of motor vehicles and motor vehicle parts and accessories. After two successive monthly declines, manufacturers of chemicals and chemical products recorded their largest monthly increase since 1971. The July increase in primary metals was attributed to increased production in several iron and steel mills where strikes appeared imminent. Declining output was reported by manufacturers of tobacco products and furniture and fixtures, and by miscellaneous manufacturers. The advance in agriculture was due largely to increased dairy, livestock and grain production. The sharp drop in forestry resulted from a curtailment of logging operations, brought about by severely dry weather conditions in British Columbia, where approximately 8,000 employees were reported to have been affected by layoffs. The construction industry recorded its third consecutive monthly decline in July. Both residential and non-residential building activity were down significantly, the decrease partly due to scattered strikes across the country. The most serious decline in the goods-producing industries occurred in the mining industry with production falling off sharply in
metal mines, mineral fuels and non-metal mines. A $17 \%$ decline in metal mines resulted when some 16,000 employees were laid off in two of the nation's largest mining operations; excessively high inventories were cited as the reason for the production shutdowns. In mineral fuels, decreased crude petroleum and natural gas production accounted for the decline which followed an increase in the well-head price of crude oil. A drop in generation of electric power accounted for most of the decrease in utilities.

In the service-producing industries, transportation, storage and communication, finance, insurance and real estate, community, business and personal services, and public administration and defence services each registered increases in July; only trade showed a slight decline. In transportation, storage and communication, railway transport and communication services rose significantly. Pipeline transport, reflecting lower crude petroleum output, and grain elevators declined. In trade, wholesale trade declined slightly while retail trade was relatively unchanged from June. In retail trade, department stores, clothing stores and drug stores reported increases. Food stores, motor vehicle dealers, hardware stores and furniture, TV, radio and appliance stores declined.in July. Finance, insurance and real estate, and community, business and personal services reported substantial growth in output, while most of the growth in public administration and defence services stemmed from local administration services.

Users should note that the indexes of real domestic product have been revised for the period January 1978 to date to incorporate revised crop estimates in agriculture.

For further information, order the July issue of Indexes of Real Domestic Product by Industry (including the Index of Industrial Production), (61-005, $40 \$ / \$ 4$ ), or contact R.W. Collins (613-995-0443), Industry Product Division, Statistics Canada, Ottawa K1A $0 T 6$.

## Postcensal Population Estimates for Canada and the

 Provinces, July 1, 1976 to July 1, 1978 - Advance InformationReaders should note that the updated postcensal population estimates for the July.1, 197.6 to April 1, 1978 period shown in the accompanying table replace preliminary estimates published earlier in catalogues 91-201 and 91-001. The differences between the two series result primarily from the use of a new assumption for the number of persons emigrating from Canada annually to countries other than the U.S.A. and the U.K.

The updated and preliminary postcensal population estimates contained in the accompanying table, and additional details on the estimation methodology and the new emigration assumption will be published in the next few weeks in forthcoming issues of catalogues 91-001 and 91-201. For further information, contact Miss G. Caron (613-995-2213), Population Estimates and Projections Division, Statistics Canada, Ottawa K1A 0 T6.

## Key Economic Series, October 1978

During the coming month, the release of Key Economic Series data is expected to be in accordance with the schedule outlined below. Where a range of dates is given for a series, this represents the period within which publication of the data can be reasonably expected, the variability taking account of circumstances peculiar to each series. Any range may be exceeded on rare occasions, for reasons unpredictable at this time.
October 3 to 10: Industry Selling Price Index, month of August;
October 3 to 13: Unemployment Insurance Statistics, month of July;
October 4 to 12: Financial Flows, second quarter 1978; October 6 to 20: 'General Wholesale Price Index, month of August;
October 10: Labour Force Survey, month of September;
October 11: Consumer Price Index (National), month of September;
October 13 to 20: Retail Trade, month of August; October 16 to 18: Index of Industrial Production, month of August;

October 16 to 19: Wholesale Trade, month of August; October 18 to 24: Inventories, Shipments and Orders, month of August;
October 18 to 24: Consumer Credit, month of August; October 19: Consumer Price Indexes for Regional Cities, month of September;
October 24 to 25: Real Domestic Product, month of August;
October 24 to 31: Employment, Earnings and Hours, month of August;
October 25 to November 3: Labour Income, month of August;
October 25 to November 3: Building Permits, month of August;
October 26 to November 7: Unemployment Insurance Statistics, month of August;
October 27: Preliminary Statement of Canadian Trade, month of September.

Notice of advance information availability: Field Crop Reporting Series, No. 19, September Forecast of Production of Principal Field Crops, on October 6. 1978 at 3 p.m. E.D.S.T.; Field Crop Reporting Series, No. 20, Telegraphic Crop Report - Canada, on October 12, 1978 at 3 p.m. E.D.S.T.

It should be noted that the November schedule of Key Economic Series will appear in the Daily on October 27, 1978.

For any enquiry concerning the release of these series, please contact Mr. Jack Kerr (613-992-1548), Production Planning and Scheduling Division, Statistics Canada, Ottawa K1A 0T6.

University - Financial Statistics, 1976-77 (81-212; \$1.05)
Released today is the above-noted publication which provides comprehensive data on Canadian university financial statistics for the year 1976-77
Some highlights of the report:

- Total university expenditures rose $10.0 \%$ to $\$ 2.6$ billion in 1976-77. The average annual rate of growth of university operating expenditures for the period $1971 \div 72$ to 1976-77 ranged between 7.9\% and 17.4\% depending: on the province, with national average of $13.2 \%$ !
- Government operating grants accounted for $75 \%$ of total operating"income!
- Student fees accounted for $8 \%$ to $15 \%$ of university operating income depending on the province At the national level, theysrepresented $10.9 \%$.
- Approximately $10.6 \%$ of total operating income was allocated to sponsored research.
- Salaries and benefits accounted for 74\% of total operating expenditures.
- Capital expenditures in Canada decreased by almost 25\% in 1976-77.
For further information, order the 1976-77 issue of University - Financial Statistics (81-212, \$1.05), or
contact Robert Frank (613-995-1105); Education, Science and Culture Division, Statistics Canada, Ottawa K1A OT6.

Estimates of Labour Income, July 1978 - Advance Informattion
Labour income for the month of July was estimated at $\$ 10.9$ billion, an increase of $\$ 776$ million or $7.6 \%$ from July 1977.

Adjusted for seasonal váriation, wages and salaries decreased, by $\$ 48$; million between June, and July to $\$ 10.1$ billion.

Detailed estimates will be published in the July-w, September issue of Estimates of Labour Income (72005, \$1.05/\$4.20), or may be obtained upon request from Mrs. G. Gauthier (613-995-8067), Labour Income Section, Labour Divișion, Statistics, Cannada, Ottawa K1A"OV2.

$f$ First Estimate
p Preliminary Estimate
$r$ Revised Estimate

Railway Transport：Part IV， 1977 －Advance Informa－ tion
Railways operating in Canada carried 273.9 million short tons of revenue freight（ 248.5 million $t$ ）in 1977， an increase of $3.4 \%$ from 1976．Ton－miles generated rose $5 \%$ to 145.5 billion（ 212.4 billion $\mathrm{t} / \mathrm{km}$ ）．The average length of haul in 1977 was 531 miles（ 855 km ） compared to 523 miles（ 841 km ）in 1976.

Freight car－miles，excluding cabooses，totalled 4.6 billion（ 7.4 billion km），with $59.2 \%$ of the total logged by loaded cars．The average net weight of a carload of freight rose to 54.4 short tons（ 49.4 t）from 52.4 short tons（47．5 t）in 1976.

Freight train－miles at 68.5 million（ 110.3 million km ） were down $0.1 \%$ in 1977．The average freight train consisted of 68.5 cars，up from 67.8 cars in 1976 and 60.6 cars a decade earlier．

The number of persons travelling by train－in 1977 increased $1.0 \%$ from the preceding year to 23.9 million and passenger－miles at 18 billion（ 3.0 billion $\mathrm{p} / \mathrm{km}$ ）． rose by $0.8 \%$ ．Intercity，passengers increased $4.7 \%$ from 1976，while commuters declined $0.1 \%$ ．The average passenger journey was 77 miles（ 124 km ）， unchanged from 1976 and 1975．－．

For further information，order Railway Transport： Part．IV， 1977 （52－210，70母）；or contact J：R．Slattery （613－996－9271），Transportation and Communications Division，Statistics Canada，Ottawa K1A OT6：

Wages and Salaries and Supplementary Labour Income

Basis: 1960 Standard Industrial Classification

Kldney Transplants and Dlalysis, December 1976 Advance Information
At least 1,033 Canadians were alive with functioning kidney transplants at the end of 1976.

During the year, 341 persons received kidney transplants. Some $85 \%$ of the kidneys used in the operations were from dead donors; almost $12 \%$ 'from living donors. In the other cases the source of the kidneys was not known.

The Canadian Renal Failure Register maintained by Statistics Canada included 3,150 patients with irreversible kidney trouble in 1976, of whom 1,899 were male and 1,251 female. Of these, 1,752 were on long-term dialysis (kidney machine) at the end of the year.

During 1976, 722 new patients ranging in age from three to 78 years entered a dialysis-transplant program. Forty-one were aged 16 or under; 542 were $17-$ 59; 139 were 60 or over.

For further information or for a free 1976 report, contact Miss Christine Frye or Mrs. Joan Lindsay (613-995-9593), Canadian Renal Failure Register, Vital Statistics and Disease Registries Section, Health' Division, Statistics Canada, Ottawa K1A OT6.

## Railway Carloadings

| 7-day period ending September 14,1978 |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- |

The Eastern, and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Oritario. Freiǵht loaded ăt Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division:

Pigǵyback traffić includes trailers and containers' on flat cars.
All 1977 figures have been revised" - 1978 cumulative data also revised.

Railway Carloadings; 7. Days Ended September 14, 1978- Published only in the Daily.
Canadian raailwày carloadings totalled 4.9 million $\mathbf{t} \cdot\left(5.4^{4}\right.$ million short tons) in the above-noted week, up $0.1 \%$ from the same period in 1977. In the East, traffic declined $3.7 \%$ during the latest period, while in the West a gain of $4.7 \%$ was recorded. Container-trailer (piggyback) movements (included above) declined $3.8 \%$ in the East but rose $15.5 \%$ in the West for an overall increase of $1.1 \%$.

In the period January 1 through September 14, 1978, rail freight loadings in tons were $7.8 \%$ below those of 1977 and the corresponding number of cars loaded
was down 5.8\%. Cumulative container-trailer (piggyback) shipments were $6.3 \%$ above the year-earlier level.

For further information, contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

2 Production, Shipments and Siocks on Hand of Sawmills Easi of the Rockles, July 1978

## Canada Hancloook

The 1978 edition of Statistics Canada's annual showpiece publication - the Canada Handbook - is still available.

In 365 pages, the Canada Handbook describes the physical environment, outlines recent social, cultural and economic developments and summarizes. government services. Information is provided by divisions of Statistics Canada, other government departments and outside authors. Artictes are superbly illustrated by some 250 photographs, 244 of them in full colour.

The 1978 Canada Handbook (catalogue 11-203E) is available: from Publications Distribution, Statistics Canada or Printing and Publishing, Supply and Services Canada and also in retail bookstores across the country, priced at $\$ 3.75$.

Preliminary Statement of Canadian Trade, August 1978
Seasonally adjusted on a balance of payments basis, Canadian exports increased while imports declined in August. Exports rose $2.8 \%$ to $\$ 4,129$ million, following a $2 \%$ gain in July. The August total was slightly below the average level for the eight months of 1978. Imports dropped 4.8\% to $\$ 3,943$ million in August after a 6\% advance in July. The August figure again almost corresponded with the monthly average of imports for 1978 so far. Accordingly, there was a surplus of $\$ 186$ million on merchandise trade account in August.

Exports declined 9\% to $\$ 12,082$ million in the three months ending in August from $\$ 13,297$ million in the preceding period. Imports rose fractionally to $\$ 11,981$ million. The merchandise trade surplus contracted from $\$ 1,369$ million in the period March to May to $\$ 101$ million in June-August. At $\$ 2,084$ million, the surplus for the first eight months of 1978 compared with $\$ 1,734$ million for the same period of 1977.

"In the above table, export and import totals are shown on both a "customs"and a "balance-of-payments"basis. The figures on a customs basis are the totals of detailed merchandise trade data tabulated from customs documents according to procedures and concepts explained in Summary of External Trade. The figures on a balance-of-payments basis reflect a number of adiustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. The adjustments include timing adiustments to exports of crude petroleum, natural gas and wheat and to receipts and payments for capital equipment deduction of transportation charges included in the customs returns and the reduction ol import values calculated for customs duty purposes to values which reflect transaction prices. For more information about these adjustments, please refer to Quarterly Estimates of the Canadian Balance of International Payments (67-001, \$1.05/\$4.20).

## Exports (Customs Basis)

Seasonally adjusted exports to the United States advanced $2.6 \%$ to $\$ 3,009$ million in August, following a rise of $1 \%$ in July. The August figure topped the $\$ 3$ billion level again after the recent peak of $\$ 3,280$ million in April. Shipments of metallic ores rebounded smartly following the termination in July of strikes at iron mines in the Quebec-Labrador area. Exports of chemicals recovered from the unusually low July level; and moderate increases were also recorded in shipments of some other industrial materials. Seasonally adjusted exports of motor vehicles, automotive parts and other equipment and machinery declined in August.

Despite monthly increases during the recent period, exports to the U.S. of $\$ 8,842$ million for the three months ending in August were 2.5\% smaller than the total for March-May. Contributing to the decline were lower shipments of metallic ores, non-ferrous metals, crude oil, pulp, newsprint, chemicals, steel, trucks and automotive parts: In partial offset were increased exports of lumber, fertilizers and passenger cars.

At $\$ 1,142$ million, seasonally adjusted August exports to overseas countries stood more than 4\% above the July total, following an $8 \%$ gain in that month. Shipments increased in August to the European Economic Community, but fell to Japan and other countries. Exports of wheat and barley rose substantially over the below-average levels of July. Shipments of some industrial materials and motor vehicles advanced. Exports of coal, lumber, chemicals and non-ferrous metals fell in August.

Seasonally adjusted exports to overseas markets of $\$ 3,247$ million for the three months ending in August were $20 \%$ below the total for the period preceding, largely on account of the exceptionally high MarchApril levels. Apart from increased shipments of oilseeds, pulp and non-automotive equipment, there were widespread reductions in commodity exports, including metallic ores, non-ferrous metals, newsprint, chemicals, steel and automotive products.

The proportion of Canadian exports going to the U.S. expanded from $68.9 \%$ in the first eight months of 1977 to $70.6 \%$ in 1978, while the share of the O.E.C.D. group of countries, including the E.E.C. and Japan, declined.

## Imports (Customs Basis)

At $\$ 2,895$ million, seasonally adjusted imports from the U.S. in August stood 1\% below the July total, but a shade above the June figure. A sharp fall in imports of transportation and other equipment (in particular automotive parts) and more moderate declines in industrial materials were in part offset by increased arrivals of machinery and coal.

Total imports for the three months ending in August stood at $\$ 8,714$ million, up $3.8 \%$ from $\$ 8,392$ million for the preceding period. Increased imports of passenger (continued on page 5)

cars, automotive parts, coal and other machinery and equipment were partly offset by lower imports of fabricated materials.

Imports, seasonally adjusted, from overseas countries dropped nearly $13 \%$ in August to $\$ 1,071$ million, with the fall almost entirely attributable to imports from countries other than Japan and the E.E.C. Crude oil imports dropped to a more normal level in August from unusually high landings in July. Arrivals of food, some fabricated materials, machinery and apparel and footwear also declined. Partially offsetting increases comprised automotive goods, in particular passenger cars.

Imports from overseas countries also fell in a threemonth comparison, receding $8 \%$ to $\$ 3,293$ million in June-August. A widespread decline in commodity imports was recorded, with enhanced landings of crude oil being a notable exception.

The proportion of imports originating in the U.S. rose marginally to $70 \%$ in the first eight months of 1978, in comparison with the same period in 1977. The proportion of Canadian imports from the E.E.C. and Japan also expanded, but the shares for the remaining countries decreased.

For further information on area and commodity trade, order the August issue of Summary of External Trade (65-001, 40థ/\$4).

Employment, Earnings and Hours (Seasonally Adjusted), July 1978 - Advance Information
The first estimates of the Canada industrial composite* index of employment ( $1961=100$ ) for July 1978 showed a $0.1 \%$ decline from June. All industry divisions registered losses except mining (including milling) and manufacturing, both of which recorded gains. The Atlantic region, Quebec and the Prairie region indicated losses while the other two regions gained.

Average weekly earnings showed little change from June ( $\$ 265.86$ ) to July ( $\$ 265.84$ ) at the national industrial composite level. Gains were recorded in forestry, construction and finance, insurance and real estate; manufacturing indicated no change and the remaining industry divisions registered losses. The Atlantic Region and British Columbia gained while the other regions showed losses.

Average weekly hours decreased in mining (including milling), in manufacturing and in construction while average hourly earnings rose in all three industry divisions.

* Industrial composite is the sum of all industries with the exception of agriculture, fishing and trapping, education and
related services, health and welfare services, religious organizations, private households and public administration and defence. All statistics are based on returns received from employers having 20 or more employees in any month of the year. Notes on concepts and methods can be found in any issue of Employment, Earnings and Hours.

Detailed information for May and June will be published in the July issue of Employment, Earnings and Hours (72-002, 70\$/\$7), and is also available from Mr. R. Ouellette (613-992-5613), Labour Division, Statistics Canada, Ottawa K1A OV2.
(see tables on pages 11 and 12)

[^19]Railway Carloadings, August 1978 - Advance Information
Railways in Canada loaded 23.5 million short tons ( 21.3 million $t$ ) of revenue freight in August, an increase of $3.5 \%$ from a year earlier. The carriers received an additional 1.9 million short tons ( 1.7 million $t$ ) from the United States, a gain of $12.6 \%$ over August 1977.
A number of commodities showed notable percentage changes in volume movements in the latest month including pulpwood (up 87.0\%); grain, other than wheat (up $85.8 \%$ ); crude gypsum (up $48.8 \%$ ); newsprint paper (up 17.9\%); copper-nickel ore (down 84.4\%); potash (down 10.6\%); and wheat (down 6.4\%).

In the first eight months of 1978, rail freight loadings decreased $7.8 \%$ from January-August 1977 to 154.1 million short tons ( 139.8 million t). Receipts from the U.S. were down $0.6 \%$ in the same period.

Cumulatively, iron ore and concentrates had the most significant decline in loadings, falling 42.1\%. Shipments of wheat were down $0.7 \%$ but other grain showed a gain of $19.2 \%$. Movements of sulphur, potash and coal were all higher in the latest period.

For further information, order the August issue of Railway Carloadings (52-001, $30 ¢ / \$ 3$ ), or, for seasonally-adjusted revenue freight loadings contact Mr. J.R. Slattery (613-996-9271), Transportation and Communications Division, Statistics Canada, Ottawa K1A 0 T6.

The Dairy Review, July 1978 - Advance Information An. estimated $1,652,866,000$ pounds of -milk were produced for all purposes in July, down 6.0\% from the July 197.7 total.

This brought production during the first seven months of 1978, to : an estimated 10,010,005,000: pounds, a decrease of $0.6 \%$ from the January-July. period last year.

For further information; order the August issue of The Dairy Review. (23-001, 40\$/\$4), or contact Mr. C.M. Riach (613-995-4859), Agriçulture Division, Statistics Canada, Ottawa K1A 0L7.

Radio Broadcasting, May 1978 - Advance Information
Gross national AM and FM radio air-time sales were $\$ 8.5$ million in May, a decrease of $3.4 \%$ from $\$ 8.8$ million in May 1977. Net national sales (after deduction of agency and other commissions) amounted to $\$ 7.2$ million, down $4.0 \%$ from $\$ 7.5$ million in the previous year.

Net local air-time sales rose $11.8 \%$ to $\$ 18.9$ million in May from \$16.9 million.

Gross radio air-time sales for the year to May 1978 were $\$ 122.1$ million compared to $\$ 107.7$ million in 1977, an increase of $13.4 \%$. Net sales rose $12.7 \%$ to $\$ 113.5$ million from $\$ 100.7$ million.

For further information, order the May issue of Radio Broadcasting (56-003, $15 \$ / \$ 1.50$ ), or contact P.T. Crosby (613-996-9274), Transportation and Communications Division, Statistics Canada, Ottawa K1A OT6.

Canadian Farm Products Indexes (1971=100), August 1978 - Advance Information
The Canadian Farm Products Index stood at 202.4 in August, down 0.4\% from July.

For further details, order the August issue of Industry Price Indexes (62-011, 55\$/\$5.50), or contact the Information Unit (613-995-5761), Industrial Prices Section, Prices Division, Statistics Canada, Ottawa K1A OV5.

Building Permits (Seasonally Adjusted), July 1978 Advance Information
The value of authorized construction as represented by building permits issued by Canadian municipalities reached a seasonally-adjusted rate of $\$ 1,098$ million in July compared to $\$ 1,090$ million in June, according to preliminary estimates. In July 1977, the value of all permits was estimated at $\$ 959$ million.
Residential permits estimated at $\$ 613$ million ( $\$ 616$ million in June) were issued for 16,880 dwelling units comprising 9,380 single-detached homes and 7,500 multiple dwellings. In June, construction was authorized for 17,807 dwellings of which 9,296 were singledetached homes and 8,511 were collective dwellings. (It appears, on the basis of these figures, that starts of single-detached homes will stabilize at an annual rate of approximately 115,000 in the coming months while starts of multiple dwellings will decrease to a rate somewhat below 100,000 units.)
The value of non-residential permits which had reached $\$ 473$ million in June rose to $\$ 486$ million in July, reflecting increased activity in the commercial sector which had projects estimated at $\$ 293$ million compared to $\$ 237$ million in June. Permits activity decreased in the industrial sector to $\$ 86$ million in July from $\$ 102$ million in June, and also in the public sector to $\$ 106$ million in July from $\$ 134$ million in June.

The cumulative value of permits for the first seven months of 1978 was up $1.8 \%$ from the corresponding. period of 1977. Regionally, the relative share of permits issued in the Atlantic region rose to $5.8 \%$ of the national total in 1978 from $4.9 \%$ in 1977, while it decreased in Quebec to $17.8 \%$ from 20.8\%. In Ontario, permits issued during the first seven months of 1978 represented $33.2 \%$ of the national total compared to $35.7 \%$ in the corresponding period of 1977, but in the Prairie provinces the proportion rose to $30.1 \%$ from 24.0\%. In British Columbia, the value of permits issued was $12.8 \%$ of the seven months' total in 1978 compared to $14.4 \%$ in 1977.
For further information, order the July issue of Building Permits (64-001, 70¢/\$7), or contact J.P. Delisle (613-995-8215), Construction Division, Statis- • tics Canada, Ottawa K1A 0 T6.

For further information, order the August issue of Housing Starts and Completions ( $64-002,55 \Phi / \$ 5.50$ ), or contact J.P. Délisle (613-995-8213), Construction Division, Statistics Canada, Ottawa K1A OT6.

Shipments of Corrugated Boxes and Wrappers, August 1978 - Advance Information
Canadian manufacturers shipped 1,653,753,000 square feet ( 153638000 m 2 ) of corrugated boxes and wrappers in August, an increase of $5.8 \%$ from $1,563,455,000$ square feet ( 145249000 m 2 ) a year earlier.

January to August shipments totalled 12,041,308,000 square feet ( $1118672000 \mathrm{m2}$ ) in 1978 compared to 11,414,093,000 square feet (1 061258000 m 2 ) in 1977.
For further information, order the August issue of Shipments of Corrugated Boxes and Wrappers (36004, 15\$/\$1.50), or contact Mr. G.W. Barrett (613-9922371), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6.

[^0]:    The Eastern and Western Divisions, for statistical purposes, are separated by an imaginary line running from Thunder Bay to Armstrong, Ontario. Freight loaded at Thunder Bay is included in the Western Division while loadings at Armstrong are reported in the Eastern Division.

    Piggyback traffic includes trailers and containers on flat cars.
    All 1977 figures have been revised -1978 cumulative data also revised.

[^1]:    - These indexes are preliminary.
    (1) Group weights are based on 1971 value of shipments (Census of Manufactures, 1971)
    (2) Included are the following major groups: 7. Clothing Industries, 15. Transportation Equipment Industries, 20. Miscellaneous Manufacturing Industries.

    Petroleum Refineries (SIC 3651) - The available indexes for this industry are presently based on "list" prices and may not be a reflection of actual transaction prices. Work is currently underway to replace these "list" prices with actual transaction prices. When completed in the near future, all series for this industry will be revised starting from February 1977. Additional regional detail for commodities will become public at the same time. The major group and total manufacturing indexes will also be revised from February 1977 to reflect the changes in the industry series. To prevent misinterpretation of series as now published, index values from February 1977 forward have been suppressed.

[^9]:    For further information, contact J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A OV6. Complete data will be published in Ornamental and Architectural Metal Industry, 1976 (41-221, \$1.05).

[^10]:    For further information, contact J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics

[^11]:    Steel Ingots, Week Ended August 5, 1978 - Advance Information
    Preliminary steel ingots production for the week ended August 5 was 235,417 short tons ( 213567 t), a decrease of $20.9 \%$ from the preceding week's total of 297,464 short tons (269 855 t). The comparable week's total in 1977 was 274,933 short tons ( 249415 t ). The index of production based on the average weekly output during 1967 of 183,227 short tons (166 211 t) equalling 100 was 128.5 in the current week, 162.3 a week earlier and 150.1 one year ago.

    For further information, contact Mr. J.L. Barnes (613-992-0388), Manufacturing and Primary Industries Division, Statistics Canada, Ottawa K1A 0V6.

[^12]:    - For some elaboration of methodology, see Appendix (A) of Consumer Prices and Price Indexes (Catalogue 62-010).
    ** Seasonally adjusted data are revised annually using updated seasonal adjustment factors. For more information, refer to Appendix II, Consumer Prices and Price Indexes (Catalogue 62-010).

[^13]:    * Includes baking and frying oils and fats.

[^14]:    (continued)

[^15]:    For further information, order Construction Price Statistics, Monthly Bulletin (62-007, \$4 per year), or contact Mrs. G.A. John (613-995-5757), Prices Division, Statistics Canada, Ottawa K1A OV5.

[^16]:    *These indexes are preliminary.
    (1) Group weights are based on 1971 value of shipments (Census of Manufactures, 1971)
    (2) Included are the following maior groups: 7. Clothing Industries, 15. Transportation Equipment Industries, 20. Miscellaneous Manufacturing Industries.
    Petroleum Refineries (SIC 3651) - The available indexes for this industry are presently based on "list" prices and may not be a reflection of actual transaction prices. Work is currently underway to replace these "list" prices with actual transaction prices. When completed in the near future, all series for this industry will be revised starting from February 1977.
