Travel Between Canada and Other Countries

February 1988

Overnight Travel

Preliminary estimates show that non-residents took 12% more trips of one or more nights to Canada in February 1988 than in the same month last year. Overnight visits by United States residents totalled 0.5 million while 95,100 came from all other countries. The Olympic Games in Calgary played a major role in this significant increase of foreign trips to Canada.

For Canadian residents, one million overnight visits to foreign countries were registered in February, up 11% from last year. This represented the fourteenth consecutive month of record volumes. Trips to the United States amounted to 0.7 million while trips to all other countries reached 277,800 or 28% of all overnight trips outside Canada.

Highlights

- During February 1988, Canada welcomed 47% more visitors from countries other than the United States than in February 1987. This record-setting trend started in May 1986.
- Overnight trips by Canadian residents to countries other than the United States increased by 16% from February 1987, marking a sixteenth monthly record level.

Total Travel

Total international trips to all foreign destinations by Canadian residents reached 3.2 million during the month, 10% above last year. Total trips to the United States by Canadian residents were 2.9 million while trips to all other countries numbered 277,800.

- Total trips to Canada by United States residents decreased by 3% from February 1987 to 1.7 million.

(see table on page 3)

- Total trips to Canada by residents of countries other than the United States increased by 45% to 101,800.

The accompanying table shows traveller entries and re-entries for February 1988 and the first two months of the year, covering total and long-term traffic as well as percentage changes from 1987.

Available on CANSIM: matrices 2661-2694.

The February 1988 issue of *International Travel - Advance Information* (66-001P, \$5.50/\$55) will be available mid-April. See "How to Order Publications".
