DATA AVAILABILITY ANNOUNCEMENT

Sales per Selling Area of Independent Retailers

1989

Sales per selling area of independent retailers is one of a number of products produced as a joint undertaking of Statistics Canada, the Department of Industry, Science and Technology Canada and all provincial and territorial departments responsible for small business.

The report has been designed to inform existing and potential independent retailers about space utilization in their industry in relation to others. Knowledge of space utilization is a critical element in projecting sales, determining staff levels and inventory planning, which in turn are keys to the building of an effective business plan.

The report provides information on 34 kinds of independent retail businesses by province and territories, for all five Canadian regions and for four selected metropolitan areas. The 1989 edition provides, for the first time, separate statistical information on single independently operated franchises in Canada.

This report is available through the Statistics Canada Regional Reference Centres for \$50.

For further information, contact Michel Cormier (613-951-3746), Small Business and Special Surveys Division. ■
