1990 Domestic Travel – Touriscope

The 1990 issue of *Domestic Travel* presents a selection of statistical data on travel by Canadians within Canada. It features national and provincial data for the years 1980 to 1990.

The first part of the publication consists of highlights and charts covering the main trends. The second part contains 28 statistical tables grouped in five units of measurement: person-trips, person-nights, persons, household-trips and expenditures. The tables include traveller characteristics (sex, age, income, educational attainment, occupation, etc.), travel characteristics (origin, destination, purpose, duration, distance, mode of transportation, accommodation, etc.) and activities participated in (such as sightseeing, visiting parks, golfing, skiing, etc.).

The 1990 edition of *Domestic Travel* (87-504, \$35) is now available. See "How to Order Publications".

For further information on this release, contact Bob Chadwick (613-951-1673), Education, Culture and Tourism Division.
