## Highlights

## Seasonally Adjusted Sales

- Preliminary estimates indicate that wholesale merchants' sales were $\$ 15.3$ billion in March, up $0.8 \%$ from the previous month. This was the fourth increase since last September.
- Six of the nine trade groups reported higher sales in March. in terms of dollar impact, the increases were led by suppliers of motor vehicles, parts and accessories $(+4.0 \%)$, wholesalers of "other products" (farm and paper products, agricultural supplies, industrial and household chemicals, etc.), up $1.7 \%$, followed by merchants of other machinery, equipment and supplies ( $+1.1 \%$ ). For the latter two groups, this was the second consecutive sales increase. Sales of lumber and building products were up $1.6 \%$, maintaining the growth evident since January.
- Regionally, in terms of dollar impact, the most notable sales increases were recorded in Ontario ( $+0.9 \%$ ), Quebec ( $+0.8 \%$ ) and British Columbia (+1.3\%).

## Note to Users

When comparing data for March 1992 with March 1991, users are reminded that the March 1991 figures were influenced by the Goods and Services Tax.

## Seasonally Adjusted Inventories

- in March, wholesale merchants' inventories were $\$ 24.1$ billion, down $2.0 \%$ from the previous month.
- The ratio of inventories to sales at the end of March was 1.57:1, down from the 1.62:1 recorded the month before. This marked a return to levels previously recorded in September of last year (1.56:1.)

## Machinery and Equipment Price Index

First Quarter 1992
The Machinery and Equipment Price Index by industry of purchase ( $1986=100$ ) was at a preliminary level of 102.4 in the first quarter of 1992, up $1.3 \%$ from its revised fourth quarter 1991 level. Prices for domestically produced machinery and equipment increased $0.5 \%$, while prices for imported machinery and equipment rose $2.4 \%$.

The total index was up $1.9 \%$ for the 1992 first quarter compared to the same quarter a year earlier, due to increases in the domestic and imported components of $1.5 \%$ and $2.5 \%$, respectively.

None of the industry divisions showed a price decrease in the first quarter of 1992. Construction ( $2.3 \%$ ), manufacturing ( $2.1 \%$ ) and mines, quarries and oil wells $(2.1 \%)$ showed the greatest increases. Between the first quarter of 1991 and the first quarter of 1992, the greatest price increases were noted in manufacturing ( $2.7 \%$ ), mines, quarries and oil wells (2.7\%) and in construction (2.6\%).

## Note to users

Experimental indexes for electronic computing equipment based on the hedonic quality adjustment approach were incorporated for the first time this quarter in the official series for office machinery and equipment.
