Census Enumeration Area Reference Lists 1991 Census

Six of the seven publications making up the 1991 Census Enumeration Area Reference Lists are now available. An enumeration area is the smallest geographical unit for which census data are collected. The information in the series is presented by region and by type of geographical unit.

Census Tracts (92-312, \$35) lists, in the 25 census metropolitan areas (CMAs) and the 14 census agglomerations of the Census Tract Program, each census tract and the enumeration areas within each census tract.

Census Metropolitan Areas and Census Agglomerations (92-313, \$30) presents each of the 25 CMAs and 115 census agglomerations in Canada and identifies all the enumeration areas within each.

The following four publications (catalogue nos. 92-314 to 92-317) together identify all of the census divisions and census subdivisions in Canada and their constituent 1991 Census enumeration areas:

Census Divisions and Census Subdivisions – Atlantic Provinces (92-314, \$25)

Census Divisions and Census Subdivisions – Quebec (92-315, \$25)

Census Divisions and Census Subdivisions – Ontario (92-316, \$25)

Census Divisions and Census Subdivisions – Western Provinces and the Territories (92-317, \$30)
