### Civil Aviation Statistics

August 1993

Preliminary monthly operational data for August 1993 are now available.

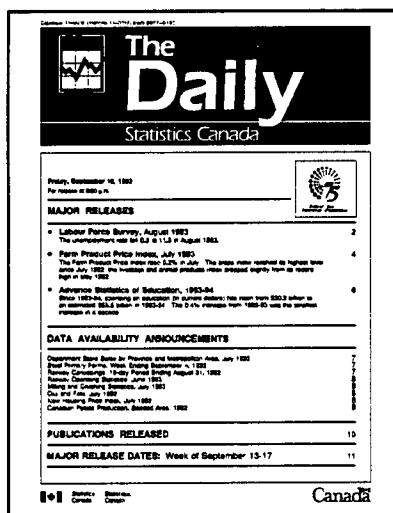

As of the end of August 1993, year-to-date passenger load factor on scheduled services (66.7%), was up slightly from the previous year. Also, it was up 2.9 percentage points from the same period in 1991, when demand was very low.

As recently as April 1993, the year-to-date load factor for scheduled services was nearly a full percentage point below its 1992 level. However, the Canadian Level I air carriers have cut capacity notably more than demand has decreased in the past three months.

Available on CANSIM: matrix 385.

Preliminary civil aviation data for August 1993 will be published in the November issue of *Aviation Statistics Centre Service Bulletin* (51-004, \$9.30/\$93). See "How to Order Publications".

For more information on this release, contact Robert Lund (819-997-6188), Aviation Statistics Centre, Transportation Division. ■
