# For and About Businesses Serving the Business of Canada...

At last, current data and expert analysis on this VITAL sector in one publication!

**T**he services sector now dominates the industrial economies of the world. Telecommunications, banking, advertising, computers, real estate, engineering and insurance represent an eclectic range of services on which all other economic sectors rely.

Despite their critical economic role, however, it has been hard to find out what's happening in these industries. Extensive and time-consuming efforts have, at best, provided a collection of diverse bits and pieces of information ... an incomplete basis for informed understanding and effective action.

- *Communications*
- *Finance, Insurance and Real Estate*
- *Business Services*

**Services Indicators** brings together analytical tables, charts, graphs and commentary in a stimulating and inviting format. From a wide range of key financial indicators including profits, equity, revenues, assets and liabilities, to

trends and analysis of employment, salaries and output – PLUS a probing feature article in every issue, **Services Indicators** gives you the complete picture **for the first time!**

Finally, anyone with a vested interest in the services economy can go to **Services Indicators** for **current** information on these industries ... both at-a-glance and in more detail than has ever been available before – all in one unique publication.

If **your** business is serving business in Canada, or if you are involved in financing, supplying, assessing or

actually using these services, **Services Indicators** is a turning point – an opportunity to forge into the future armed with the most current insights and knowledge.
