Historical revisions of the labour force survey estimates

January 1976 to December 1994

Historical revisions of the labour force survey estimates from January 1976 to December 1994 will be released via CANSIM on February 1 at 08:30. These revisions reflect the move from a 1986 Census base to a 1991 Census base and the adjustment of population estimates for net Census undercoverage. This advances the previously announced February 10 release date for these revisions. The February 1 release date will give users an opportunity to update their time series to reflect the revisions before the January 1995 labour force survey results are released on February 10.

For further information on this release, contact Doug Drew (613-951-4720) or Jean-Marc Lévesque (613-951-2301), Household Surveys Division.
