Crude oil and natural gas

June 1995

Continued strong exports to the United States in June led to a 5.7% increase in natural gas production compared with June 1994. Exports also drove up crude oil production in June, resulting in a 3.8% increase from June 1994.

Natural gas production moderated in June after exceptionally strong year-over-year advances in the three previous months.

Crude oil production strengthened in June after a modest 2.8% advance in May 1995. In the first six months of 1995, production was up 4.2% from the same period in 1994.

Natural gas exports rose 12.1% from June 1994. Exports have been rising since early 1991, due in part to expanded pipeline capacity and growing demand for Canadian natural gas by U.S. electric co-generation facilities.

Exports of crude oil surged 18.9% from June 1994. Exports have been rising strongly in recent months, helped by pipeline expansion that has allowed increased exports to the United States, especially to refineries in the Chicago area. Canadian crude oil has found a ready market in the United States, where indigenous production has been declining in recent years.

Available on CANSIM: matrices 530 and 539.

The June 1995 issue of *Crude petroleum and natural gas production* (26-006, \$18/\$180) will be available the last week of September. See "How to order publications".

¹ Disposition may differ from production due to inventory change, industry own-use, etc.

² Crude oil received by Canadian refineries from foreign countries for processing. Data differ from International Trade Division estimates due to timing differences and the inclusion in "trade" of crude oil landed in Canada for re-export.

³ Disposition may differ from production due to inventory change, usage as pipeline fuel, pipeline losses, line-pack fluctuations, etc.

⁴ Includes direct sales.

Rigid insulating board

July 1995

Shipments of rigid insulating board totalled 2 980 000 square metres (12.7 millimetre basis) in July, a 13.1% decrease from 3 431 000 square metres in July 1994.

For January to July 1995, shipments totalled 19 057 000 square metres, a 12.0% decrease from 21 615 000 square metres in 1994.
