Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner. To this end, Statistics Canada has developed standards of service that its employees observe. To obtain a copy of these service standards, please contact Statistics Canada toll-free at 1-800-263-1136. The service standards are also published on www.statcan.gc.ca under "Contact us" > "[Standards of service to the public.](#)"

Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

Standard table symbols

The following symbols are used in Statistics Canada publications:

- . not available for any reference period
- .. not available for a specific reference period
- ... not applicable
- 0 true zero or a value rounded to zero
- 0^s value rounded to 0 (zero) where there is a meaningful distinction between true zero and the value that was rounded
- ^P preliminary
- ^r revised
- X suppressed to meet the confidentiality requirements of the *Statistics Act*
- ^E use with caution
- F too unreliable to be published
- * significantly different from reference category ($p < 0.05$)

Financial and Wealth Accounts Re-sectoring

With the release of the Financial Flow Accounts (FFA) on December 1st and the National Balance Sheet Accounts (NBSA) on December 14th, the Income and Expenditure Accounts Division will be publishing revised sector and category detail on CANSIM. These changes are briefly described below.

1. A new sector, National Financial Accounts, has been added to the FFA (Financial Flow Accounts). This sector estimates total domestic financial transactions for the Canadian economy. It is the FFA (Financial Flow Accounts) equivalent to the National Balance Sheet in the NBSA (National Balance Sheet Accounts).
2. A number of sectors and categories that were previously published in both the FFA (Financial Flow Accounts) and NBSA (National Balance Sheet Accounts) are combined in order to provide more relevant sector and category information.
3. Market value estimates in the NBSA (National Balance Sheet Accounts) on annual and quarterly bases have been expanded. Annual market value data are published for all sectors from 1970, while book value estimates remain available from 1961. Quarterly data are available for all sectors from 1990q1 for market and book value estimates. The release of these estimates will facilitate international comparisons with other countries.

To help users to convert from the current CANSIM tables to the new tables, concordance tables between the old and new vector numbers are available.

- Financial Flow Accounts, vector number [concordance table](#)
- National Balance Sheet Accounts (annual), vector number [concordance table](#)
- National Balance Sheet Accounts (quarterly), vector number [concordance table](#)

For more information, please contact the information officer at (613-951-3640; iead-info-dcrd@statcan.gc.ca), Income and Expenditure Accounts Division.
