How to obtain more information

For information about this product or the wide range of services and data available from Statistics Canada, visit our website, www.statcan.gc.ca.

You can also contact us by

Email at infostats@statcan.gc.ca

Telephone, from Monday to Friday, 8:30 a.m. to 4:30 p.m., at the following numbers:

- Statistical Information Service 1-800-263-1136
- National telecommunications device for the hearing impaired 1-800-363-7629
- Fax line 1-514-283-9350

Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner. To this end, Statistics Canada has developed standards of service that its employees observe. To obtain a copy of these service standards, please contact Statistics Canada toll-free at 1-800-263-1136. The service standards are also published on www.statcan.gc.ca under "Contact us" > "[Standards of service to the public](#)."

Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

Census of Agriculture: Mapping Tool Reference Guide

This document is part of the [Census of Agriculture: Mapping Tool](#) data visualization product.

Introduction

The Census of Agriculture Mapping Tool allows cartographic visualization of Census of Agriculture data in a dynamic manner at all geographic levels for which these data are published: provinces and territories, census agricultural regions (CAR), census divisions (CD) and census consolidated subdivisions (CCS).

For more information on the Census of Agriculture visit the [Census of Agriculture Portal](#).

Data

Boundary files

Thematic mapping for this application uses boundary files for provinces and territories, census agricultural regions (CAR), census divisions (CD) and census consolidated subdivisions (CCS) as well as the agricultural ecumene that are available for download by census year:

- [2016 boundry files](#)
- [2021 boundry files](#)

Data tables

The data used for this application come from the 2016 and 2021 Census of Agriculture and are available for viewing or downloading:

- [2016 data tables](#)
- [2021 data tables](#)

Mapping

Thematic mapping

For all variable themes, except those belonging to the Dominant Farm Type category, the choropleth thematic mapping technique is used, where regions are shaded in relation to their value for a theme. The Jenks optimization classification method is used to generate five class limits for non-zero and non-suppressed values. Class limits are kept constant for all geographic levels of a given theme for comparability purpose. Values of zero and suppressed data values are each put in a separate class.

For non-zero and non-suppressed values, colours range from light yellow for small values to dark brown for large values. Values of zero are coloured white. Suppressed data values, denoted as 'X', are coloured grey and are not revealed to meet the confidentiality requirements of the *Statistics Act*. Suppressed values are more common in the smallest geographic levels.

Dominant farm types are defined by the [2012 North American Industry Classification System \(NAICS\)](#). For 2021, dominant farm types are defined by the [2017 North American Industry Classification System \(NAICS\)](#). Each class is represented by a different colour. Unclassified regions are coloured grey. These maps are not available at the census consolidated subdivision level.

Mapped regions

For best representation of Census of Agriculture data, mapping of the provinces and territories, census agricultural regions (CAR), census divisions (CD) and census consolidated subdivisions (CCS) is restricted to inside the agricultural ecumene, which is the area where the majority of agricultural activities take place.

Base map

The base map, designed and hosted on Mapbox Studio, mainly uses Open Street Map data.

Technology used

Mapbox Studio and a JavaScript library, Maplibre, were leveraged to create this application.

List of themes

The vast majority of the Census of Agriculture variables are available with this mapping application and are organized by category and subcategory. Given the large difference in the size of the geographic regions across Canada, raw values from the Census of Agriculture database have been normalized for mapping to facilitate comparisons of values across regions. For example, instead of mapping the number of female operators by region, the value shown is the proportion of female operators by region (where the number of female operators is divided by the total number of operators).

The complete list of themes available in this application can be found below:

Agricultural operations characteristics

Table 1
Farm type - general

Theme	2016	2021
Number of census farms per 100 square kilometres of land area	✓	✓
Number of farms classified as oilseed and grain farming by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as vegetable and melon farming by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as fruit and tree nut farming by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as greenhouse, nursery and floriculture production by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as other crop farming by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as cattle ranching and farming by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as hog and pig farming by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as poultry and egg production farms by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as sheep and goat farming by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as other animal production by the North American Industry Classification System per 100 square kilometres of land area	✓	✓
Number of farms classified as greenhouse, nursery and floriculture production by the North American Industry Classification System per 100 square kilometres of land area	✓	✓

Table 2
Farm type – specific

Theme	2016	2021
Number of farms classified as soybean farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as oilseed (except soybean) farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as dry pea and bean farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as wheat farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as corn farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as other grain farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as potato farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as other vegetable (except potato) and melon farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as fruit and tree nut farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as mushroom production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as other food crops grown under cover by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as nursery and tree production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as floriculture production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as tobacco farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as hay farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as fruit and vegetable combination farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as maple syrup and products production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as all other miscellaneous crop farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as beef cattle ranching and farming, including feedlots by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as dairy cattle and milk production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as hog and pig farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as chicken egg production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as broiler and other meat-type chicken production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as turkey production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as poultry hatcheries by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as combination poultry and egg production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as all other poultry production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as sheep farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as goat farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as apiculture by the North American Industry Classification System per 100 square kilometres of land area	..	✓

Table 2
Farm type – specific

Theme	2016	2021
Number of farms classified as horse and other equine production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as fur bearing animal and rabbit production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as animal combination farming by the North American Industry Classification System per 100 square kilometres of land area	..	✓
Number of farms classified as all other miscellaneous animal production by the North American Industry Classification System per 100 square kilometres of land area	..	✓
.. not available for a specific reference period		

Table 3
Farm size

Theme	2016	2021
Average area of farms ¹	✓	✓
Proportion of farms reporting less than 73 hectares of total farm area	..	✓
Proportion of farms reporting from 73 to 486 hectares of total farm area	..	✓
Proportion of farms reporting more than 486 hectares of total farm area	..	✓
.. not available for a specific reference period		
1. In 2016, this theme was in the Land use, land tenure and management practices category, Land tenure subcategory.		

Table 4
Financial characteristics

Theme	2016	2021
Average total value of land and buildings per farm	✓	✓
Average total value of land and buildings by hectare of farm area	✓	✓
Average total value of total farm capital per farm	..	✓
Average total value of total farm capital by hectare of farm area	..	✓
Average total value of farm machinery and equipment per farm	✓	✓
Average total value of farm machinery and equipment by hectare of farm area	..	✓
Average total value of livestock and poultry per farm	..	✓
Average total value of livestock and poultry by hectare of farm area	..	✓
Average total operating revenues (excluding forest products sold) per farm	✓	✓
Ratio of sales to total operating expenses	✓	✓
Proportion of farms reporting total operating revenues, excluding forest products, of \$250,000 and less	✓	✓
Proportion of farms reporting total operating revenues, excluding forest products, of more than \$250,000 and less than \$1 million	✓	✓
Proportion of farms reporting total operating revenues, excluding forest products, of \$1 million and more	✓	✓
Proportion of farms reporting selling agricultural products directly to consumers	✓	✓
Proportion of farms reporting selling 100% of their agricultural products directly to consumers	..	✓
Proportion of farms reporting selling 1% to 50% of their agricultural products directly to consumers	..	✓
Proportion of farms reporting selling 51% to 99% of their agricultural products directly to consumers	..	✓
.. not available for a specific reference period		

Table 5
Operating arrangement

Theme	2016	2021
Proportion of farms reporting sole proprietorship for operating arrangements	✓	✓
Proportion of farms reporting a partnership for operating arrangements	..	✓
Proportion of farms reporting a partnership without a written agreement for operating arrangements	✓	..
Proportion of farms reporting a partnership with a written agreement for operating arrangements	✓	..
Proportion of farms reporting a family corporation for operating arrangements	✓	✓
Proportion of farms reporting a non-family corporation for operating arrangements	✓	✓
Proportion of farms reporting a succession plan	✓	✓
not available for a specific reference period		

Table 6
Paid agricultural work

Theme	2016	2021
Proportion of farms reporting paid full-time agricultural work on a year-round basis	✓	✓
Proportion of farms reporting paid part-time agricultural work on a year-round basis	✓	✓
Proportion of farms with seasonal or temporary employees	✓	✓
Proportion of farms reporting wages or salaries paid to employees	✓	✓

Characteristics of farm operators

Table 7
Age and sex

Theme	2016	2021
Proportion of female agricultural operators	✓	✓
Proportion of farm operators aged under 35	✓	✓
Proportion of farm operators aged from 35 to 54	✓	✓
Proportion of farm operators aged 55 and over	✓	✓
Average age of farm operators	✓	✓

Table 8
Hours of work

Theme	2016	2021
Proportion of farm operators spending, on average, more than 40 hours per week on the farm	✓	✓
Proportion of farm operators spending, on average, 30 to 40 hours per week on the farm	✓	✓
Proportion of farm operators spending, on average, 20 to 29 hours per week on the farm	✓	✓
Proportion of farm operators spending, on average, less than 20 hours per week on the farm	✓	✓
Proportion of farm operators reporting, on average, more than 40 hours per week of paid non-farm work	✓	✓
Proportion of farm operators reporting, on average, 30 to 40 hours per week of paid non-farm work	✓	✓
Proportion of farm operators reporting, on average, 20 to 29 hours per week of paid non-farm work	✓	✓
Proportion of farm operators reporting, on average, less than 20 hours per week of paid non-farm work	✓	✓
Proportion of farm operators reporting no paid non-farm work	✓	✓

Land use, land tenure and management practices

Table 9
Land use

Theme	2016	2021
Total area of land in crops (excluding area of Christmas trees) as a proportion of total farm area	✓	✓
Total area of land in crops (excluding area of Christmas trees) as a proportion of total land area	✓	✓
Summerfallow area as a proportion of total field crop area	✓	✓
Tame or seeded pasture area as a proportion of total farm area	✓	✓
Area of natural land for pasture as a proportion of total farm area	✓	✓
Total pasture area as a proportion of total farm area	✓	✓

Table 10
Land tenure

Theme	2016	2021
Proportion of agricultural area owned	✓	✓
Proportion of agricultural area leased from governments	✓	✓
Proportion of agricultural area rented or leased from others	✓	✓
Proportion of agricultural area crop-shared from others	✓	✓

Table 11
Land inputs

Theme	2016	2021
Proportion of farms where herbicides were used	✓	✓
Proportion of farms where insecticides were used	✓	✓
Proportion of farms where fungicides were used	✓	✓
Proportion of farms where commercial fertilizers (including lime) were used	✓	✓
Proportion of farms where lime was used	✓	✓
Proportion of farms where trace minerals and nutrients were used	✓	✓
Proportion of farms where manure was applied on the operation	✓	✓
Proportion of total farm area with use of solid or composted manure incorporated into the soil	..	✓
Proportion of total farm area with use of solid or composted manure not incorporated into the soil	..	✓
Proportion of total farm area with use of liquid manure injected or incorporated into the soil	..	✓
Proportion of total farm area with use of liquid manure not incorporated into the soil	..	✓
Proportion of land prepared for seeding using treated seed, prior to planting	..	✓

.. not available for a specific reference period

Table 12
Agricultural practices

Theme	2016	2021
Proportion of summerfallow where only chemfallow was used for weed control	✓	✓
Proportion of summerfallow where only tillage was used for weed control	✓	✓
Proportion of summerfallow where chemical and tillage weed control were used on the same land	✓	✓
Proportion of farms reporting livestock that used in-field winter grazing or feeding	✓	✓
Proportion of farms reporting livestock that used rotational grazing	✓	✓
Proportion of farms reporting cropland that were plowing down green crops	✓	✓
Proportion of farms reporting cropland that used winter cover crops	✓	✓
Proportion of farms that had windbreaks or shelterbelts	✓	✓
Proportion of farms reporting cropland where crop residue was baled	✓	✓
Proportion of irrigated farmland	✓	✓
Proportion of farms reporting organic products (certified or transitional) for sale for sale	✓	✓
Proportion of farms reporting certified organic products for sale	..	✓
Proportion of farms reporting transitional organic products for sale	..	✓
Proportion of land prepared for seeding using tillage that retains most of the crop residue on the surface	..	✓
Proportion of land prepared for seeding using tillage that incorporates most of the crop residue into the soil	..	✓
Proportion of land prepared for seeding using no-till seeding	✓	✓

.. not available for a specific reference period

Table 13
Technologies used on the operation

Theme	2016	2021
Proportion of farms using variable-input rate application	..	✓
Proportion of farms using drones	..	✓
Proportion of farms using soil sample test	..	✓
Proportion of farms using slow-release fertilizer	..	✓
Proportion of farms using computers/laptops for farm management	✓	..
Proportion of farms using smartphones/tablets for farm management	✓	..
Proportion of farms that used automated guidance steering	✓	✓
Proportion of farms that used GPS technology	✓	..
Proportion of farms that used geographic information systems (GIS) mapping	✓	✓
Proportion of farms reporting milk cows and used fully-robotic milking	✓	✓
Proportion of farms that reported livestock or poultry and used automated environmental controls for animal housing	✓	..
Proportion of farms that reported livestock or poultry and used automated animal feeding	✓	..
Proportion of greenhouse operations using robotic greenhouse equipment	✓	✓

.. not available for a specific reference period

Table 14
Renewable energy production

Theme	2016	2021
Proportion of farms reporting having renewable energy producing systems in 2021	✓	✓
Proportion of farms reporting having renewable energy producing systems for use on the operation	✓	✓
Proportion of farms reporting having renewable energy producing systems for sale	..	✓
Proportion of farms reporting the use of solar as a renewable energy producing system for the operation	✓	✓
Proportion of farms reporting the use of wind as a renewable energy producing system for the operation	✓	✓
Proportion of farms reporting the use of bioenergy as a renewable energy producing system for the operation	..	✓
Proportion of farms reporting the use of geothermal electric power generator for the operation	..	✓

.. not available for a specific reference period

Crops – Hay and field, vegetables (excluding greenhouse vegetables), fruits, berries and nuts, greenhouse products and other crops

Table 15
Hay and field crops

Theme	2016	2021
Field crop area as a proportion of total farm area	✓	✓
Total wheat area as a proportion of total field crop area	✓	✓
Spring wheat (excluding durum) area as a proportion of total field crop area	✓	✓
Durum wheat area as a proportion of total field crop area	✓	✓
Winter wheat area as a proportion of total field crop area	✓	✓
Oats area as a proportion of total field crop area	✓	✓
Barley area as a proportion of total field crop area	✓	✓
Mixed grains area as a proportion of total field crop area	✓	✓
Total area in corn as a proportion of total field crop area	..	✓
Area of corn for grain as a proportion of total field crop area	✓	✓
Area of corn for silage as a proportion of total field crop area	✓	✓
Fall rye area as a proportion of total field crop area	✓	✓
Spring rye area as a proportion of total field crop area	✓	✓
Canola area as a proportion of total field crop area	✓	✓
Soybean area as a proportion of total field crop area	✓	✓
Flaxseed area as a proportion of total field crop area	✓	✓
Dry field pea area as a proportion of total field crop area	✓	✓
Chick pea area as a proportion of total field crop area	✓	✓
Lentil area as a proportion of total field crop area	✓	✓
Faba bean area as a proportion of total field crop area	..	✓
Dry white bean area as a proportion of total field crop area	✓	✓
Other dry bean area as a proportion of total field crop area	✓	✓
Total hay area as a proportion of total field crop area	✓	✓

Table 15
Hay and field crops

Theme	2016	2021
Alfalfa and alfalfa mixture area as a proportion of total field crop area	✓	✓
All other tame hay and fodder crop area as a proportion of total field crop area	✓	✓
Forage seed for seed area as a proportion of total field crop area	✓	✓
Potato area as a proportion of total field crop area	✓	✓
Mustard seed area as a proportion of total field crop area	✓	✓
Sunflower area as a proportion of total field crop area	✓	✓
Canary seed area as a proportion of total field crop area	✓	✓
Ginseng area as a proportion of total field crop area	✓	✓
Buckwheat area as a proportion of total field crop area	✓	✓
Sugar beet area as a proportion of total field crop area	✓	✓
Hemp area as a proportion of total field crop area	..	✓
Triticale area as a proportion of total field crop area	✓	✓

.. not available for a specific reference period

Table 16
Vegetables (excluding greenhouse vegetables)

Theme	2016	2021
Total vegetable area (excluding greenhouse vegetables) as a proportion of total cultivated area	✓	✓
Sweet corn area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Tomato area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Cucumber area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Green pea area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Green and wax bean as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Cabbage area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Chinese cabbage as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Cauliflower area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Broccoli area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Brussels sprouts area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Carrot area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Rutabaga and turnip area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Beet area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Radish area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Shallot and green onion area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Onion (dry, yellow, Spanish, cooking) area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Garlic area as a proportion of total vegetable area (excluding greenhouse vegetables)	..	✓
Celery area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Lettuce area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Kale area as a proportion of total vegetable area (excluding greenhouse vegetables)	..	✓

Table 16
Vegetables (excluding greenhouse vegetables)

Theme	2016	2021
Rhubarb area as a proportion of total vegetable area (excluding greenhouse vegetables)	..	✓
Spinach area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Pepper area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Pumpkin area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Squash and zucchini area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓
Asparagus (producing) area as a proportion of total vegetable area (excluding greenhouse vegetables)	✓	✓

.. not available for a specific reference period

Table 17
Fruits, berries and nuts

Theme	2016	2021
Total area of fruits, berries and nuts as a proportion of total cultivated area	✓	✓
Apple area as a proportion of total fruits, berries and nuts area	✓	✓
Pear area as a proportion of total fruits, berries and nuts area	✓	✓
Plum and prune area as a proportion of total fruits, berries and nuts area	✓	✓
Cherry (sweet) area as a proportion of total fruits, berries and nuts area	✓	✓
Cherry (sour) area as a proportion of total fruits, berries and nuts area	✓	✓
Peach area as a proportion of total fruits, berries and nuts area	✓	✓
Apricot area as a proportion of total fruits, berries and nuts area	✓	✓
Grape area as a proportion of total fruits, berries and nuts area	✓	✓
Strawberry area as a proportion of total fruits, berries and nuts area	✓	✓
Raspberry area as a proportion of total fruits, berries and nuts area	✓	✓
Cranberry area as a proportion of total fruits, berries and nuts area	✓	✓
Blueberry total area as a proportion of total fruits, berries and nuts area	✓	✓
Highbush blueberry area as a proportion of total fruits, berries and nuts area	..	✓
Lowbush blueberry area as a proportion of total fruits, berries and nuts area	..	✓
Saskatoon area as a proportion of total fruits, berries and nuts area	✓	✓
Blackcurrant, redcurrant and whitecurrant area as a proportion of total fruits, berries and nuts area	..	✓
Haskap area as a proportion of total fruits, berries and nuts area	..	✓

.. not available for a specific reference period

Table 18
Greenhouse products

Theme	2016	2021
Total greenhouse area over total farm area	✓	✓
Proportion of farms reporting greenhouse products	✓	✓
Total area of greenhouse devoted to fruits and vegetables over total farm area	✓	✓
Total area of greenhouse devoted to cut flowers over total farm area	✓	✓
Total area of greenhouse devoted to potted plants, indoor and outdoor, over total farm area	..	✓
Total greenhouse tomato area over total farm area	..	✓
Total greenhouse cucumber area over total farm area	..	✓
Total greenhouse pepper area over total farm area	..	✓

.. not available for a specific reference period

Table 19
Other crops

Theme	2016	2021
Area of sod under cultivation for sale as a proportion of total cultivated area	✓	✓
Area of nursery products grown for sale as a proportion of total cultivated area	✓	✓
Area of Christmas trees grown for sale as a proportion of total farm area	✓	✓
Total growing area for mushrooms over of total farm area	✓	✓
Number of taps on maple trees over total land area	✓	✓

Livestock, poultry, bees

Table 20
Livestock

Theme	2016	2021
Total cattle and calves per 100 square kilometres of land area	✓	✓
Total cows per 100 square kilometres of land area	..	✓
Total beef cows per 100 square kilometres of land area	✓	✓
Total milk cows per 100 square kilometres of land area	✓	✓
Total pigs per 100 square kilometres of land area	✓	✓
Total sheep per 100 square kilometres of land area	✓	✓
Total horses per 100 square kilometres of land area	✓	✓
Total donkeys and mules per 100 square kilometres of land area	..	✓
Total goats per 100 square kilometres of land area	✓	✓
Total llamas and alpacas per 100 square kilometres of land area	✓	✓
Total bison (buffalo) per 100 square kilometres of land area	✓	✓
Total elks (wapitis) per 100 square kilometres of land area	✓	✓
Total deer (excluding wild deer) per 100 square kilometres of land area	✓	✓

Table 20
Livestock

Theme	2016	2021
Total rabbits per 100 square kilometres of land area	✓	✓
Total minks per 100 square kilometres of land area	✓	✓
.. not available for a specific reference period		

Table 21
Poultry

Theme	2016	2021
Total hens and chickens per 100 square kilometres of land area	✓	✓
Total turkeys per 100 square kilometres of land area	✓	✓
Total ducks per 100 square kilometres of land area	✓	✓
Total geese per 100 square kilometres of land area	✓	✓
Production of broilers, roasters and Cornish per 100 square kilometres of land area	✓	✓
Turkey production per 100 square kilometres of land area	✓	✓
Production of table eggs per 100 square kilometres of land area	✓	✓
Production of hatching eggs per 100 square kilometres of land area	✓	✓
Total number of chicks or other poultry hatched in commercial poultry hatcheries per 100 square kilometres of land area	✓	✓

Table 22
Bees

Theme	2016	2021
Number of live colonies of honeybees owned per 100 square kilometres of land area	✓	✓
Total of other pollinated bees per 100 square kilometres of land area	✓	✓

Dominant farm type defined by the 2017 North American Classification System (NAICS) in 2021 and by the 2012 NAICS in 2016

- By total operating revenues, excluding forest products
- By number of farms

List of farm types

- Soybean farming (111110)
- Oilseed (except soybean) farming (111120)
- Dry pea and bean farming (111130)
- Corn farming (111150)
- Other grain farming (111190)
- Potato farming (111211)
- Other vegetable (except potato) and melon farming (111219)
- Non-citrus fruit and tree nut farming (111330)
- Mushroom production (111411)
- Other food crops grown under cover (111419)

- Nursery and tree production (111421)
- Floriculture production (111422)
- Hay farming (111940)
- Maple syrup and products production (111994)
- All other miscellaneous crop farming (111999)
- Beef cattle ranching and farming, including feedlots (112110)
- Dairy cattle and milk production (112120)
- Hog and pig farming (112210)
- Chicken egg production (112310)
- Broiler and other meat-type chicken production (112320)
- Turkey production (112330)
- Apiculture (112910)
- Horse and other equine production (112920)
- Fur-bearing animal and rabbit production (112930)
- Animal combination farming (112991)
