MANAGEMENT'S DISCUSSION AND ANALYSIS

BASIS OF PREPARATION AND DISCLOSURE

The following management's discussion and analysis ("MD&A") was prepared in accordance with the Treasury Board Standard on Quarterly Financial Reports for Crown Corporations and is not intended to be a full MD&A. It should be read in conjunction with the Corporation's audited financial statements and accompanying notes for the year ended March 31, 2019. All amounts presented are in Canadian dollars unless otherwise specified.

This document contains projections and other forward-looking statements regarding future events. Such statements require management to make assumptions that are subject to risk and uncertainty. Consequently, actual results may differ materially from expectations expressed in forward-looking statements. These risks and uncertainties are discussed in the risk section following the financial analysis.

Non-GAAP measures and relevant information, such as the value of contracts signed ("VCS") and Commercial Trading Transactions ("CTT"), are presented in the MD&A, including a description of how these items are measured.

Historically, large contracts have materially affected the financial statements of Canadian Commercial Corporation ("CCC" or "the Corporation"), causing significant variations in certain year-over-year amounts on the Statement of Financial Position and the Statement of Comprehensive Income (Loss). The most significant of these contracts is the multi-billion dollar 14-year Armoured Brigades Program ("ABP") contract. Due to the magnitude of this contract, the ABP has been presented separately throughout the MD&A.

Accounting Disclosures

International Financial Reporting Standard 15 – Revenue from contracts with customers ("IFRS 15"), became effective on April 1, 2018 and was reflected in the Corporation's audited financial statements for the year ended March 31, 2019. While the Corporation's operations and contractual responsibilities have not changed, the adoption of IFRS 15 has materially impacted the way transactions and results are measured and reported. Therefore, the results for the comparative period June 30, 2018 have been restated to comply with IFRS 15 with details in Note 4 of the Condensed Interim Financial Statements.

BUSINESS REPORTING STRUCTURE

CCC's international contracting business supports Canadian exporters in pursuing sales to foreign government buyers in challenging markets around the world. CCC's Canadian exporter base includes a substantial proportion of Canadian small and medium enterprises ("SMEs").

CCC classifies its business activities by priority sectors and by priority programs (formerly referred to as business lines). CCC's activities support a wide range of Canadian industrial sectors including Construction/Infrastructure, Clean Technology ("Cleantech"), Aerospace, Information and Communications Technology ("ICT"), and Defence. CCC's programs include contracting activities under the Canada-US Defence Production Sharing Agreement ("DPSA"), Cuba program ("Cuba"), electronic lotteries ("Lotteries"), sourcing services on behalf of other Government departments ("OGD"), and other international business ("International").

The sales gestation period for international contracting is long, and is directly impacted by foreign political, economic and geo-political events that have budgetary implications for sovereign governments (including elections, natural disasters, etc.). This results in a business cycle that is difficult to predict accurately, and repeat, with year-over-year sales not being consistent. During the contracting process, CCC's involvement in a transaction provides a force-multiplier effect for Canadian exporters, as they benefit from market knowledge, risk mitigation, relationships with foreign governments, a robust responsible business conduct approach, and decades of international contracting experience that CCC brings to bear on every business pursuit.

The DPSA program is an important Public Policy program for Canada, which provides privileged access for Canadian exporters to the U.S. Department of Defence ("DoD") market and generates hundreds of millions in exports annually from Canada. The accompanying jobs and economic benefits that flow from these exports are significant. CCC signed over \$800 million of export contracts under the DPSA in 2018-19. CCC is not compensated for its costs to provide services under the DPSA.

VALUE OF CONTRACTS SIGNED

VCS is a non-GAAP measure used by the Corporation that represents the value of contracts and amendments signed in a given period. It measures the total value of goods or services to be delivered over the entire duration of a contract and hence, represents the full contract value when the contract is signed.

U.S. DoD buyers have access to purchase goods and services across a diverse range of Canadian industrial sectors. Historically, 35% of goods purchased by U.S. DoD buyers come from the Canadian Defence sector, 30% from the Aerospace sector, 15% from the ICT sector and 20% from Other sectors (i.e. manufactured goods and machinery sector). Lotteries program activity is related entirely to the ICT sector and Cuba program activity is related primarily to Other sectors (i.e. agriculture, restaurant and medical equipment and supplies for Cuban tourism industry).

International program VCS activity generally does not materialize until later in CCC's fiscal year and is irregular in nature year-to-year, period-to-period and sector-to-sector.

The tables below presents the VCS by sector and VCS by program for the three months ended June 30, 2019 and 2018.

VCS by sector (\$000's) For the three months ended June 30,	2019	2018	Increase (Decrease)		% of Total	
			\$	%	2019	2018
Aerospace	\$ 69,101	\$ 42,018	\$ 27,083	64%	29%	13%
Cleantech	-	-	-	-	-	-
Construction / Infrastructure	-	-	-	-	-	-
Defence	61,856	35,656	26,200	73%	26%	11%
ICT	56,272	166,187	(109,915)	(66%)	23%	52%
Other	51,621	75,382	(23,761)	(32%)	22%	24%
Total	\$ 238,850	\$ 319,243	\$ (80,393)	(25%)	100%	100%

VCS by program (\$000's) For the three months ended June 30,	2019	2018	Increase (Decrease)		% of Total	
			\$	%	2019	2018
Cuba	\$ 24,321	\$ 20,383	\$ 3,937	19%	10%	6%
DPSA	159,612	221,430	(61,818)	(28%)	67%	69%
International	1,195	27,480	(26,285)	(96%)	1%	9%
Lotteries	52,376	49,804	2,572	5%	21%	16%
OGD	1,347	146	1,201	824%	1%	<1%
Total	\$ 238,850	\$ 319,243	\$ (80,393)	(25%)	100%	100%

The charts below illustrates VCS by sector and VCS by program for the periods ended June 30, 2019, and June 30, 2018.

VCS by Sector (\$000's)
 For the three months ended June 30, 2019 and June 30, 2018

VCS by Program (\$000's)
For the three months ended June 30, 2019 and June 30, 2018

The overall year-over-year decrease in VCS is due to several ICT sector purchases made by the U.S. DoD under the DPSA of approximately \$90 million during the first three months of 2018.

Contract obligations remaining as at June 30, 2019

As prime contractor, the Corporation is contractually obligated to complete contracts with foreign buyers ensuring that the terms of the contracts are fulfilled regardless of performance by the Canadian exporter. The value of the Corporation's total contract portfolio remaining to be fulfilled as at June 30, 2019 is \$13.0 billion (March 31, 2019 - \$14.3 billion), of which approximately 90% (March 31, 2019 – 89%) relates to the ABP contract.

COMMERCIAL TRADING TRANSACTIONS

CTT is a non-GAAP measure used by the Corporation that represents the value of contract deliveries during the reporting period (i.e. an economic activity measure). Given CCC's agent status under IFRS 15, CTT is not recognized as revenue. CCC continues to capture CTT data because this is a measure of CCC's impact on the Canadian economy.

CTT trends in a similar direction to VCS for the DPSA, Lotteries and Cuba programs. This is due to the more regular and consistent year-over-year VCS results for these programs, as discussed in the previous section. In contrast, given the irregular nature of International program sales, International CTT will often trend in different directions than VCS signed in the same year.

The tables below reflect CTT by sector and CTT by program for the three months ended June 30, 2019 and June 30, 2018.

CTT by sector (\$000's)			Increase (Decrease)		% of Total	
	For the three months ended June 30,					
	2019	2018 (Restated)	\$	%	2019	2018
Aerospace	\$ 83,629	\$ 74,097	\$ 9,532	13%	10%	9%
Cleantech	-	1,847	(1,847)	(100%)	-	-
Construction / Infrastructure	41,867	52,363	(10,496)	(20%)	5%	6%
Defence	58,771	65,454	(6,683)	(10%)	7%	8%
ICT	86,819	62,584	24,235	39%	10%	7%
Other	76,601	48,599	28,002	58%	9%	6%
Total excluding ABP	\$ 347,687	\$ 304,944	\$ 42,743	14%	41%	36%
ABP	509,343	545,711	(36,368)	(7%)	59%	64%
Total including ABP	\$ 857,031	\$ 850,655	\$ 6,376	1%	100%	100%

CTT by program (\$000's)			Increase (Decrease)		% of Total	
	For the three months ended June 30,					
	2019	2018 (Restated)	\$	%	2019	2018
Cuba	\$ 23,916	\$ 15,787	\$ 8,129	51%	3%	2%
DPSA	173,867	164,186	9,680	6%	20%	19%
International	93,546	72,347	21,199	29%	11%	9%
Lotteries	52,376	49,804	2,572	5%	7%	6%
OGD	3,983	2,820	1,164	41%	<1%	<1%
Total excluding ABP	\$ 347,687	\$ 304,944	\$ 42,743	14%	41%	36%
ABP	509,343	545,711	(36,368)	(7%)	59%	64%
Total including ABP	\$ 857,031	\$ 850,655	\$ 6,376	1%	100%	100%

The charts below illustrates CTT by sector and CTT by program for the periods ended June 30, 2019, and June 30, 2018. CTT related to ABP has been excluded from the charts.

CTT by sector, excluding ABP, (\$000's)
 For the three months ended June 30, 2019 and June 30, 2018

CTT by program, excluding ABP, (\$000's)
For the three months ended June 30, 2019 and June 30, 2018

As illustrated above, CTT by program show increased delivery activity across all programs for the three month period ended June 2019 compared to the three month period ended June 2018. This was based on the strong VCS results experienced under the DPSA and Cuba programs in FY 2018-19 and strong VCS results related to the International programs experienced in years prior to 2018-19 where several large infrastructure projects continue to deliver at a constant pace as they approach completion.

CTT by sector shows more variation when comparing year-over-year results, as sales within each program vary depending on the foreign buyer demand and requirements and associated delivery schedules. The year-over-year increase related to the ICT sector was due to the purchases made by the U.S. DoD under the DPSA of approximately \$90 million discussed in the previous section. In addition, the year-over-year increase in the Aerospace sector was due primarily to approximately \$49 million of CTT related to the delivery of 3 refurbished helicopters to Peru from a contract that was signed in FY 2014-15.

SUMMARY OF FINANCIAL RESULTS

A discussion of CCC's financial highlights for the period ended June 30, 2019 follows.

Statement of Comprehensive Income (Loss) discussion

Net profit (loss) (\$000's)	For the three months ended June 30,	2019	2018 (Restated)	Increase (Decrease)	
				\$	%
Revenues		\$ 6,540	\$ 7,212	\$ (672)	(9%)
Expenses		6,872	7,355	(483)	(7%)
Gain (loss) on foreign exchange		(82)	194	(276)	(142%)
Net profit (loss)		\$ (414)	\$ 51	\$ (465)	(912%)

For the three month period ended June 2019, the Corporation recorded a net loss of \$414 thousand, a decrease of \$465 thousand, from the prior year net gain of \$51 thousand. The result was due to a combination of lower revenues and loss on foreign exchange partially offset by lower expenses when compared to the prior year. The lower revenues are due primarily to a decrease in Other income.

CCC has a natural hedge against foreign exchange gains or losses that would otherwise impact the net results of operations and comprehensive income. Unhedged foreign exchange balances are monitored and managed to negligible levels.

Revenues

Revenues (\$000's)	For the three months ended June 30,	2019	2018 (Restated)	Increase (Decrease)		% of Total	
				\$	%	2019	2018
Fees for service		\$ 6,082	\$ 6,057	\$ 25	<1%	93%	84%
Other income		164	1,097	(933)	(85%)	3%	15%
Finance income, net		294	58	236	407%	4%	1%
Total		\$ 6,540	\$ 7,212	\$ (672)	(9%)	100%	100%

Total revenues of \$6.5 million for the three months ended June 30, 2019 were 9% lower compared to the same period last year. The period-over-period decrease is primarily attributable to a \$933 thousand decrease in other income. Other income is primarily comprised of fees earned on early discounted payments made to Canadian exporters. This decrease was partially offset by an increase in finance income of \$236 thousand.

Fees for service by sector

Fees for service by sector (\$000's)			Increase (Decrease)		% of Total	
	For the three months ended June 30,		\$	%	2019	2018
	2019	2018 (Restated)				
Aerospace	\$ 373	\$ 337	\$ 36	11%	6%	6%
Cleantech	-	88	(88)	(100%)	-	1%
Construction / Infrastructure	1,040	1,778	(738)	(42%)	17%	29%
Defence	15	20	(5)	(25%)	<1%	<1%
ICT	241	305	(64)	(21%)	4%	6%
Other	1,153	753	400	53%	19%	12%
Total excluding ABP	\$ 2,822	\$ 3,281	\$ (459)	(14%)	46%	54%
ABP	3,260	2,776	484	17%	54%	46%
Total including ABP	\$ 6,082	\$ 6,057	\$ 25	<1%	100%	100%

Fees for service by program

Fees for service by program (\$000's)			Increase (Decrease)		% of Total	
	For the three months ended June 30,		\$	%	2019	2018
	2019	2018 (Restated)				
Cuba	\$ 656	\$ 437	\$ 219	50%	11%	7%
DPSA	-	-	-	-	-	-
International	1,453	2,248	(795)	(35%)	24%	37%
Lotteries	174	172	2	1%	3%	3%
OGD	539	424	115	27%	8%	7%
Total excluding ABP	\$ 2,822	\$ 3,281	\$ (459)	(14%)	46%	54%
ABP	3,260	2,776	484	17%	54%	46%
Total including ABP	\$ 6,082	\$ 6,057	\$ 25	<1%	100%	100%

The Corporation charges fees for service in all programs, except the DPSA. Fees are generally calculated as a percentage of the contract value. Fees are negotiated on a contract-by-contract basis, and, within an acceptable range, are generally reflective of a project's risk profile. Fees are recognized as revenue when the Corporation has completed its performance obligation pursuant to each contract, and are generally commensurate with CTT.

Total fees for service revenues for the three months ended June 30, 2019 was approximately at the same level compared to the prior year. This was primarily due to offsetting movements across sectors. The increases in fees earned from the other sector (\$400 thousand) and ABP (\$484 thousand) were offset by decreased fees earned in Construction/Infrastructure (\$738 thousand), Cleantech (\$88 thousand) and ICT (\$64 thousand). The decrease in Construction/Infrastructure occurred as several large infrastructure projects continue to deliver at a constant but diminishing pace as they approach completion.

Expenses

Administrative expenses

Administrative expenses (\$000's)			Increase (Decrease)		% of Total	
	2019	2018 (Restated)	\$	%	2019	2018
For the three months ended June 30,	2019	2018 (Restated)			2019	2018
Workforce compensation and related expenses	\$ 4,741	\$ 4,827	\$ (86)	(2%)	69%	66%
Contract management services	661	661	-	-	10%	9%
Rent and related expenses	352	325	27	8%	5%	4%
Software, hardware and support	341	397	(56)	(14%)	5%	5%
Consultants	322	300	22	7%	4%	4%
Travel and hospitality	259	483	(224)	(46%)	4%	6%
Depreciation	102	113	(11)	(10%)	1%	2%
Communications	42	133	(91)	(68%)	1%	2%
Other expenses	52	116	(64)	(55%)	1%	2%
Total	\$ 6,872	\$ 7,355	\$ (483)	(7%)	100%	100%

Administrative expenses of \$6.9 million were \$483 thousand or 7% lower for the three months ended June 30, 2019 compared to the prior year. Although almost half of the decrease was due to reduced travel and hospitality (\$224 thousand) activity, reductions were achieved across the majority of expenditures.

CCC continuously assesses staff levels to achieve cost efficiencies where possible. It does this by reviewing and improving its alignment between the Corporation's resources and operational activities. Budgets are set with assumptions regarding capacity required to deliver the Corporation's forecasted business volume. Budgets are managed with a view to controlling expenditures relative to revenues earned throughout the year. CCC continues to strengthen its culture of continuous improvement, implementing process changes to improve efficiencies and allow resources to be redistributed, resulting in an increase of overall capacity.

Contract remediation expenses

Contract remediation expenses are recorded as actual amounts are incurred or can be reasonably estimated. For the three months ended June 30, 2019 and June 30, 2018 no contract remediation expenses were recorded. This result is a reflection of the Corporation's robust contract management and Enterprise Risk Management ("ERM") practices.

Statement of Financial Position discussion

Assets and liabilities include amounts where funds received from a foreign buyer have not yet been transferred to the Canadian exporter, or in cases where the Corporation has made payments to Canadian exporters before collecting from foreign buyers.

Statement of Financial Position items such as cash and cash equivalents, accounts receivable and accounts payable represent a momentary view at a specific point in time. These balances can fluctuate widely on a daily basis as, at times, tens of millions of dollars can be received one day and paid the next or vice versa.

It is notable that although the financial reporting is presented on an agent basis, CCC remains the primary obligor on its international contracts with foreign buyers, and remains liable for contractual performance. As the prime contractor, the Corporation is contractually obligated to complete contracts with foreign buyers ensuring that the terms of the contract are fulfilled regardless of performance by the Canadian exporter.

Assets

Assets (\$000's) As at	June 30, 2019	March 31, 2019	Increase (Decrease)		% of Total	
			\$	%	June 30, 2019	March 31, 2019
Cash and cash equivalents	\$ 47,411	\$ 58,481	\$ (11,070)	(19%)	58%	66%
Accounts receivable	31,199	27,603	3,596	13%	38%	31%
Other assets	521	403	118	29%	1%	<1%
Property and equipment	2,543	2,645	(102)	(4%)	3%	3%
Total assets	\$ 81,674	\$ 89,132	\$ (7,458)	(8%)	100%	100%

Total assets at June 30, 2019 decreased by \$7.5 million or 8% from the March 31, 2019 year end. This is primarily driven by a decrease in cash and cash equivalents of \$11.1 million, partially offset by an increase in accounts receivable by \$3.6 million.

Accounts receivable include uncollected fees for service and amounts due from foreign buyers that have already been paid to Canadian exporters under the accounts payable early payment discounting program.

Liabilities

Liabilities (\$000's) As at	June 30, 2019	March 31, 2019	Increase (Decrease)		% of Total	
			\$	%	June 30, 2019	March 31, 2019
Accounts payable and accrued liabilities	\$ 17,184	\$ 35,456	\$ (18,272)	(52%)	28%	52%
Holdbacks and deferred revenue	11,478	7,228	4,250	59%	19%	11%
Advances	27,164	20,076	7,088	35%	45%	30%
Employee benefits	1,623	1,667	(44)	(3%)	3%	2%
Deferred lease incentives	3,290	3,356	(66)	(2%)	5%	5%
Total liabilities	\$ 60,739	\$ 67,783	\$ (7,044)	(10%)	100%	100%

The net decrease in liabilities of \$7.0 million compared to March 31, 2019 was due to decreases in sums received from foreign buyers and passed on to Canadian exporters. At times, advances received from foreign buyers are held back and released to the Canadian exporter as delivery obligations are met.

Statement of Cash Flows discussion

Cash flows (\$000's)			Increase (Decrease)		% of Total	
	2019	2018 (Restated)	\$	%	2019	2018
For the three months ended June 30,						
Operating activities	\$ (10,948)	\$ (19,504)	\$ 8,556	(44%)	99%	95%
Investing activities	-	-	-	-	-	-
Effect of exchange rate changes on cash and cash equivalents	(122)	(974)	852	(87%)	1%	5%
Net decrease in cash and cash equivalents	\$ (11,070)	\$ (20,478)	\$ 9,408	(46%)	100%	100%

Cash and cash equivalents represent a momentary view at a specific point in time. The Corporation's cash balances fluctuate widely on a daily basis as, at times, tens of millions of dollars can be received one day and paid the next or vice versa. It is notable that although cash flows reported reflect reporting as an agent, CCC also receives significant amounts from foreign buyers for payment to Canadian exporters as contractual performance obligations are fulfilled.

On contracts outside of the DPSA program, the Corporation generally pays its Canadian exporters within five business days after CCC receives payment from the foreign buyer (i.e. pay when paid). Under the DPSA program, the Corporation generally pays its Canadian exporters within thirty days of receipt of an invoice. The Corporation may use its own funds to pay Canadian exporters on or before the 30th day in instances where payment has not yet been received from the DPSA buyer. Depending on the timing differences between receipt and payment, these transactions can span across reporting periods and can cause variations in cash flows from one period to the next, with receivables being paid to the Corporation at the end of one period and payments being made to the Canadian exporter early in the next.

Comparison of financial results to budget in the Corporate Plan

The 2019-20 to 2023-24 Corporate Plan has been approved by the Corporation's Board of Directors but has not yet been approved by the Government of Canada.

The financial results for the three month period ended June 30, 2019 are compared to the budget contained in the CCC 2019-20 to 2023-24 Corporate Plan.

Net profit (loss) (\$'000's) For the three months ended June 30, 2019	Actual	Budget	Variance	
			\$	%
Revenues				
Fees for service	\$ 6,082	\$ 5,886	\$ 196	3%
Other income	164	75	89	119%
Finance income, net	294	155	139	90%
Total revenues	\$ 6,540	\$ 6,116	\$ 424	7%
Expenses				
Administrative expenses	6,872	7,899	1,027	13%
Contract remediation expenses	-	1	1	100%
Total expenses	\$ 6,872	\$ 7,900	\$ 1,028	13%
Loss on foreign exchange	(82)	-	(82)	-
Net loss	\$ (414)	\$ (1,784)	\$ 1,370	(77%)

For the three months ended June 30, the Corporation recorded a net loss of \$414 thousand, an improvement of \$1.4 million over the Corporate Plan budget loss of \$1.8 million. The result was due to a combination of favourable variances related to fees for service (\$196 thousand), other income (\$88 thousand) and finance income (\$139 thousand) and administrative expenses (\$1.0 million).

The favourable variance of \$196 thousand regarding fees for service resulted primarily from higher than anticipated billing activity related to the ABP which offset lower level of fees recorded on international program activity as several contract pursuits have been delayed, a consistent challenge to predicting government-to-government contracting business .

Other income includes fees earned from early discounted payments to Canadian exporters and other miscellaneous amounts. The favourable variance of \$88 thousand is attributable primarily to the write-off of legacy account balances that are not budgeted.

The favourable variance of \$1.0 million regarding administrative expenses related to: (1) lower workforce compensation expenses (\$359 thousand), stemming from vacancies related to retirements and attrition; (2) lower than planned level of travel and hospitality (\$292 thousand) through the first three months of the fiscal year; and (3) several other lines of expenditures (\$376 thousand). Expense budgets are set based on capacity requirement assumptions related to the Corporation's forecasted business volume; budgets are managed in a prudent manner, controlling expenditures to the extent possible relative to revenues earned throughout the year.

2019-20 FORECAST

In 2019-20, net revenues are expected to be lower than 2018-19. This is primarily due to the lower level of fee generating contracts signed in 2018-19 and delays in contract signing that are expected to persist early in 2019-20. In addition, large infrastructure contracts currently in the delivery stage are expected to wind down as they near completion, resulting in lower levels of CTT and Fees for service.

In 2019-20, administrative expenses are expected to increase in relation to 2018-19, largely due to:

- Increased workforce compensation and related expenses in accordance with CCC's collective bargaining agreement;
- Incremental resources in support of the 2019-20 Corporate Plan initiatives;
- Increased travel requirements to grow CCC's base of foreign buyers and the number of contracts under management; and
- Investments in organizational development and systems to drive diversification results.

CCC'S COMMITMENT TO RISK MANAGEMENT

CCC manages various risks as it undertakes to fulfill its mandate of promoting and facilitating international trade on behalf of Canadian exporters. The strategy for managing these risks is discussed in detail in the Corporation's fiscal 2018-19 Annual Report and 2017-18 Corporate Plan Summary.

Management continues to align its corporate social responsibility framework with that of the Government of Canada. Collaboration with other Government stakeholders ensures that a consistent approach and decision-making process is in place when assessing Canadian exporters on issues related to bribery and corruption as well as buyer human rights records.

Cyber risk is an ongoing threat, as cyber-attacks appear to be the new reality. Numerous improvements to CCC's information systems were implemented during the past year and the Corporation continues to evolve its approach to cyber risk management.

Except for the changes mentioned above, there are no other significant changes, new risks or uncertainties identified during the period ended June 30, 2019, as compared to those previously reported or discussed.

MANAGEMENT RESPONSIBILITY FOR FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these quarterly financial statements in accordance with the Treasury Board of Canada Standard on Quarterly Financial Reports for Crown Corporations, and for such internal controls as Management determines is necessary to enable the preparation of quarterly financial statements that are free from material misstatement. Management is also responsible for ensuring all other information in this quarterly financial report is consistent, where appropriate, with the quarterly financial statements. These quarterly financial statements have not been audited or reviewed by an external auditor.

Based on our knowledge, these unaudited quarterly financial statements present fairly, in all material respects, the financial position, results of operations and cash flows of the corporation, as at the date of and for the periods presented in the quarterly financial statements.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

1. NATURE, ORGANIZATION AND FUNDING

The Canadian Commercial Corporation (the “Corporation”) was established in 1946 by the *Canadian Commercial Corporation Act* (“CCC Act”). The Corporation is wholly owned by the Government of Canada and is an agent Crown corporation listed in Part I of Schedule III of the *Financial Administration Act* (“FAA”). The Corporation is domiciled in Canada with a head office located at 350 Albert Street, Ottawa, Ontario. The Corporation operates primarily in Canada with representation in Asia, the Middle East and South America.

The Corporation acts as the prime contracting agency for Canadian exporters when foreign governments, international organizations, or foreign private sector buyers wish to purchase their products and services from Canada through the Government of Canada. The Corporation enters into prime contracts with these foreign buyers and into corresponding domestic contracts with Canadian exporters. Additionally, the Corporation enters into sourcing services agreements to procure goods and services for international end use on behalf of the Government of Canada and foreign governments.

The Corporation’s operations are funded primarily by fees for service.

In September 2008, the Corporation, together with a number of other Crown corporations, was issued a directive (P.C. 2008-1598) pursuant to Section 89 of the FAA, entitled *Order giving a direction to parent Crown corporations involved in commercial lending to give due consideration to the personal integrity of those they lend to or provide benefits to in accordance with Government’s policy to improve the accountability and integrity of federal institutions*. The Corporation implemented the directive effective January 1, 2010 and has remained compliant with the directive since then.

In July 2015, the Corporation was issued a directive (P.C. 2015-1110) pursuant to section 89 of the FAA to align its travel, hospitality, conference and event expenditure policies, guidelines and practices with Treasury Board policies, directives and related instruments on travel, hospitality, conference and event expenditures in a manner that is consistent with its legal obligations, and to report on the implementation of this directive in the Corporation’s next corporate plan. The Corporation implemented the directive in August 2016 and has remained compliant with the directive since then.

The Corporation is not subject to the provisions of the *Income Tax Act*.

2. BASIS OF PREPARATION

(a) Compliance with International Financial Reporting Standards (IFRS)

These condensed interim financial statements have been prepared in accordance with the Treasury Board of Canada *Standard on Quarterly Financial Reports for Crown Corporations* using the International Financial Reporting Standards ("IFRS") accounting policies adopted in the Corporation's audited annual financial statements as at and for the year ended March 31, 2019. These condensed interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Corporation's Annual Report and audited financial statements for the year ended March 31, 2019.

As permitted by the Treasury Board of Canada *Standard on Quarterly Financial Reports for Crown Corporations*, management has elected to reflect the changes from the adoption of *IFRS 16 - Leases* (IFRS 16) in the Corporation's audited financial statements for the year ending March 31, 2020. This constitutes a departure from generally accepted accounting principles for the initial application of IFRS 16 as the quarterly financial statements for the current period do not include the impact of the new accounting standard.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis, except for as permitted by IFRS and to the extent material, the following items:

- Derivative financial instruments are measured at fair value through profit or loss.
- Accrued employee benefit liabilities for post-employment and other long term employee benefit plans are recognized at the present value of the defined benefit obligations.

(c) Use of estimates and judgments

The preparation of financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies, the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ significantly from estimates resulting in significant differences in the related financial statement balances.

Estimates and underlying assumptions are reviewed on an ongoing basis and in detail as at the date of the financial statements. Any changes in estimates are reflected in the financial statements in the period in which they become known and in any future periods affected. Management has used estimates to determine the useful lives of property and equipment, to account for employee benefits liabilities, provisions, lease commitments and contingencies and used judgment in determining whether a provision for contract remediation expenses should be recognized or disclosed, the amount and timing of revenue recognition and the accounting for cost recovery transactions.

Additional information about areas where management has exercised judgment and made significant use of estimates and assumptions are included in the following notes:

- Note 12 (b) – Revenue from contracts with customers
- Note 15 – Contingencies

(d) Functional and presentation currency

The Corporation's functional and presentation currency is the Canadian dollar.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied in the preparation of these condensed interim financial statements are consistent with those disclosed in the Corporation's audited annual financial statements for the year ended March 31, 2019.

4. ACCOUNTING CHANGES

As permitted by the Treasury Board of Canada *Standard on Quarterly Financial Reports for Crown Corporations*, management elected to reflect the changes from the adoption of *IFRS 15 – Revenue from contracts with customers* (IFRS 15) in the Corporation's audited financial statements for the year ended March 31, 2019. Therefore, restated comparative financial information as at June 30, 2018 and for the three months ended June 30, 2018 is presented below.

A complete description of the impacts resulting from the implementation of IFRS 15 is provided in note 4 (a) of the Corporation's audited annual financial statements for the year ended March 31, 2019.

Reconciliation of comparative balances as at June 30, 2018

- From advances from foreign buyers and others (\$76) to deferred revenue \$76.

The adoption of IFRS 15 has also impacted the following notes:

- Note 12 (a) – Disaggregation of fees for service revenue
- Note 13 – Administrative expenses

5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents had the following balances by currency as at:

	June 30, 2019		March 31, 2019	
	Original currency	Canadian dollars	Original currency	Canadian dollars
Canadian dollars	36,245	\$ 36,245	29,985	\$ 29,985
U.S. dollars	8,201	10,740	18,802	25,123
Chinese renminbi	2,238	426	4,901	975
Euros	-	-	1,600	2,398
		\$ 47,411		\$ 58,481

The components of cash and cash equivalents were as follows as at:

	June 30, 2019	March 31, 2019
Short term investments	\$ 25,832	\$ 18,819
Cash	11,280	29,421
Notice deposits	10,299	10,241
Cash and cash equivalents	\$ 47,411	\$ 58,481

Cash and cash equivalents balances include advances received from foreign buyers and others not yet paid to Canadian exporters and amounts held back from Canadian exporters to be remitted at later dates in accordance with the terms and conditions of contracts.

6. ACCOUNTS RECEIVABLE

Accounts receivable include amounts that are due to the Corporation for fees for service invoiced and yet to be collected, amounts due from foreign buyers related to amounts already paid to Canadian exporters and other amounts primarily from Canadian government organizations. These amounts are based on normal international trade terms and are generally non-interest bearing.

The Corporation's accounts receivable consisted of the following as at:

	June 30, 2019	March 31, 2019
Accounts receivable	\$ 31,198	\$ 27,563
Accrued receivables	1	40
	\$ 31,199	\$ 27,603

The currency profile of the Corporation's accounts receivable was as follows as at:

	June 30, 2019		March 31, 2019	
	Original currency	Canadian dollars	Original currency	Canadian dollars
U.S. dollars	23,215	\$ 30,400	19,095	\$ 25,515
Canadian dollars	799	799	2,088	2,088
		\$ 31,199		\$ 27,603

7. OTHER ASSETS

The Corporation's other assets included the following as at:

	June 30, 2019	March 31, 2019
Prepaid expenses	\$ 381	\$ 304
Unbilled revenues	140	99
	\$ 521	\$ 403

8. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities represent amounts due related to the Corporation's administrative and operating expenses, amounts due to Canadian exporters from amounts received from foreign buyers and other miscellaneous amounts due. These amounts are due on normal trade terms.

The Corporation's accounts payable and accrued liabilities consisted of the following as at:

	June 30, 2019	March 31, 2019
Accounts payable	\$ 15,095	\$ 32,819
Accrued liabilities	2,089	2,637
	\$ 17,184	\$ 35,456

The currency profile of the Corporation's accounts payable and accrued liabilities was as follows as at:

	June 30, 2019		March 31, 2019	
	Original currency	Canadian dollars	Original currency	Canadian dollars
U.S. dollars	10,015	\$ 13,115	21,629	\$ 28,900
Canadian dollars	4,041	4,040	4,041	4,041
Chinese renminbi	150	29	587	117
Euros	-	-	1,600	2,398
		\$ 17,184		\$ 35,456

Credit, market and liquidity risks related to accounts receivable and accounts payable and accrued liabilities are disclosed in Note 11.

9. DEFERRED REVENUE

The change in the Corporation's liability of deferred revenue was as follows during the period ended:

	June 30, 2019	March 31, 2019
Balance at the beginning of the year	\$ 1,081	\$ 985
Plus: additional deferred revenue, net of refunds	87	594
Less: amounts recognized as Fees for service	(345)	(523)
Impact of netting unbilled and deferred revenue from same contract	(44)	25
Balance at the end of the period	\$ 779	\$ 1,081

10. CAPITAL MANAGEMENT

The Corporation's objective with respect to capital is to preserve and strengthen its capital base through prudent risk management. This objective and the implementation of strategies to optimize operating surpluses ensures that capital is available to facilitate investments in people and processes and to mitigate any potential losses related to operational, performance and credit risk.

The Corporation defines capital as its contributed capital and retained earnings. The Corporation's contributed capital consists of the capital contributed by the Government of Canada. The capital allocation model used by the Corporation determines the capital required across three risk areas: operational risk, performance risk, and credit risk.

The Corporation is not subject to externally imposed capital requirements.

Key strategies used by the Corporation to manage its capital base include: minimizing contract remediation expenses, balancing smart growth with operating expenses, minimizing foreign exchange exposure and optimizing interest income. The Corporation may be required to return to the Government of Canada any part of capital deemed to be in excess of the amount required for the purposes for which the Corporation was constituted.

The Corporation's breakdown of supply of capital was as follows as at:

	June 30, 2019	March 31, 2019
Contributed capital	\$ 10,000	\$ 10,000
Retained earnings	10,935	11,349
	\$ 20,935	\$ 21,349

11. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

As described in the Corporation's Annual Report and audited financial statements for the year ended March 31, 2019, the Corporation is exposed to credit risk, market risk and liquidity risk as a result of holding financial instruments. The following is a description of the most significant risks associated with financial instruments and how the Corporation manages its risk exposure:

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The credit risk arises principally from the Corporation's cash and cash equivalents, unbilled revenue and accounts receivable which includes fees for service due to the Corporation. The carrying amount of financial assets recorded in the financial statements represents the maximum exposure to credit risk.

Cash and cash equivalents

The Corporation invests surplus funds to earn investment income with the objective of maintaining safety of principal and providing adequate liquidity to meet cash flow requirements. The Corporation's exposure to credit risk from investing cash and cash equivalents is minimized through compliance with the Corporation's Board of Directors approved investment policy, which specifies approved investment instruments and portfolio limits. The Corporation invests cash and cash equivalents in highly liquid demand deposits and temporary investments with a Canadian chartered bank. Investments must maintain credit ratings at or above thresholds identified from at least two of the agencies listed below:

- Moody's rating of P1
- Standard and Poor's ("S&P") rating of A1
- Dominion Bond Rating Service ("DBRS") rating of R1 (low)

Accounts receivable

The Corporation has credit risk related to accounts receivable which includes fees for service revenues. At times, the Corporation may agree to pay DPSA and non-DPSA invoices at the request of Canadian exporters prior to receiving funds from the US Department of Defence or other foreign buyers.

Since the DPSA foreign buyer is rated AAA by recognized rating agencies the credit exposure is minimized to acceptable levels. For non-DPSA foreign buyers, the Corporation assesses the credit risk to ensure it is also minimized to acceptable levels.

As at June 30, 2019, 46% (March 31, 2019 - 48%) of the Corporation's accounts receivable were from AAA credit rated foreign buyers.

The maximum exposure to credit risk for accounts receivable by geographic region was as follows as at:

	June 30, 2019	March 31, 2019
Asia *	\$ 15,630	\$ 12,872
United States	14,143	12,680
Central America and Caribbean	563	894
South America	489	542
Canada	277	327
Africa	86	222
Australia	10	66
Europe	1	-
	\$ 31,199	\$ 27,603

* Includes Middle East

The maturity profile of the Corporation's accounts receivable was as follows as at:

	June 30, 2019	March 31, 2019
< 1 year	\$ 29,262	\$ 27,603
> 1 and < 3 years	1,937	-
	\$ 31,199	\$ 27,603

Accounts receivable are considered past due when the payer has failed to make the payment by the contractual due date. The ageing profile of the Corporation's past due accounts receivable was as follows as at:

	June 30, 2019	March 31, 2019
< 30 days	\$ 3,529	\$ 4,247
> 30 days and < 180 days	7,868	8,790
> 180 days	8,776	8,136
	\$ 20,173	\$ 21,173

The past due accounts receivable are mostly attributable to the Armoured Brigades Program contract. All overdue accounts receivable are considered fully collectable and no allowance for credit losses has been recorded by the Corporation as at June 30, 2019.

(b) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market rates. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The Corporation is not exposed to significant currency risk, interest rate risk or other price risk. The Corporation has no significant derivatives or embedded derivatives that require recognition as an asset or liability on the Statement of Financial Position.

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk is minimized through compliance with the Corporation's investment policy whereby cash and cash equivalents are invested in highly liquid demand deposits and temporary investments with a Canadian financial institution in order to meet financial obligations on a timely basis.

A potential claim for damages for non-performance of outstanding contracts could create liquidity risk for the Corporation. To mitigate this risk, the Corporation has contractual recourse that consists of, in all material respects, back-to-back contractual obligations from Canadian exporters in an amount equal to the value of the contract. In addition, in order to further mitigate its overall liquidity risk exposure from non-performance on contracts, depending upon the results of its due diligence, the Corporation may supplement this recourse by requiring the Canadian exporter to provide commercial securities including holdbacks, bank guarantees, surety bonds, parent guarantees, insurance assignments, property liens, personal guarantees and shareholder cash to be held in trust with the Corporation.

Under contract terms, other than DPSA related contracts, payments to Canadian exporters are usually not made in advance of receipt of payment from foreign buyers, and therefore do not expose the Corporation to liquidity risks.

The CCC Act permits the Corporation to borrow from the Consolidated Revenue Fund or enter into other credit arrangements or indemnities from other sources for an amount not to exceed \$90.0 million.

The Corporation has a revolving credit facility providing access to funds in the amount of \$40.0 million (March 31, 2019 - \$40.0 million) Canadian or its U.S. dollar equivalent.

As per contractual terms in the DPSA business line, the Corporation commits to payments to Canadian exporters within thirty days on most contracts. For the International program contracts, the Corporation commits to payments within two to five business days from receipt of payments from the foreign buyer. At times, collection of amounts from the foreign buyer on DPSA contracts can take more than thirty days. This can occasionally result in the Corporation using the credit facility in the normal course of operations. Indebtedness under this agreement is unsecured and this credit facility has no expiry date. As at June 30, 2019, the draw on this line of credit was nil (March 31, 2019 — nil).

Accounts payable and accrued liabilities

Accounts payable and accrued liabilities are due on normal trade terms. The maturity profile of the Corporation's accounts payable and accrued liabilities was as follows as at:

	June 30, 2019	March 31, 2019
< 1 year	\$ 17,031	\$ 35,302
> 1 and < 3 years	153	154
	\$ 17,184	\$ 35,456

There are no onerous contracts identified as at June 30, 2019 or March 31, 2019.

12. REVENUE FROM CONTRACTS WITH CUSTOMERS

(a) Disaggregation of Fee for service revenue

For the three month period ended June 30, the Corporation's revenue by business line is as follows:

	For the three months ended June 30	
	2019	2018 (Restated - Note 4)
International business	\$ 5,369	\$ 5,461
Lottery programs	174	172
	\$ 5,543	\$ 5,633
Government of Canada initiatives	539	424
	\$ 6,082	\$ 6,057

(b) Unsatisfied (or partially unsatisfied) performance obligations

Unsatisfied, or partially unsatisfied, contractual performance obligations are mostly due to services which are yet to be provided by the Corporation over the remaining duration of the contract. The following table sets out the estimated transaction prices allocated to unsatisfied, or partially unsatisfied contracted performance obligations of the Corporation to be met in the future and the estimated timing of revenue recognition. Actual amounts may differ from these estimates due to a variety of factors, including the unpredictable nature of customer behaviour, industry regulation and the economic and political environments in which the Corporation operates.

The following table represents fees for service revenue expected to be recognized in the future related to performance obligations that are unsatisfied (or partially unsatisfied) as at:

	June 30, 2019	March 31, 2019
< 1 year	\$ 20,828	\$ 20,393
> 1 year	35,440	41,554
	\$ 56,268	\$ 61,947

13. ADMINISTRATIVE EXPENSES

Administrative expenses for the three month periods ended June 30 are as follows:

	2019	2018 (Restated - Note 4)
Workforce compensation and related expenses	\$ 4,741	\$ 4,827
Contract management services	661	661
Rent and related expenses	352	325
Software, hardware and support	341	397
Consultants	322	300
Travel and hospitality	259	483
Depreciation	102	113
Communications	42	133
Other expenses	52	116
	\$ 6,872	\$ 7,355

14. RELATED PARTY TRANSACTIONS

The Corporation is related in terms of common ownership to all Government of Canada departments, agencies and Crown corporations. The Corporation enters into transactions with these entities in the normal course of business, under the same terms and conditions that apply to unrelated parties, and as such the transactions approximate fair value.

15. CONTINGENCIES

(a) Collateral

To manage performance risk of outstanding deliverables, the Corporation has contractual recourse that consists, in all material respects, of corresponding deliverables from Canadian exporters in the same amount. The collateral pledged by Canadian exporters is to mitigate counterparty risk to the deliverables of the Corporation in the event of non-performance claims against the Corporation for reasons related to the Canadian exporter failing to perform per the terms and conditions of contracts. In addition, to further mitigate the overall exposure to potential damage claims for non-performance, and depending upon the results of its due diligence, the Corporation may supplement this recourse by requiring the Canadian exporter to provide commercial securities including holdbacks, bank guarantees, surety bonds, parent guarantees, insurance assignments, property liens, personal guarantees and shareholder cash held in trust with the Corporation.

The value of the Corporation's outstanding performance obligations as at June 30, 2019 was \$13,038,618 (March 31, 2019 - \$14,340,651). Commercial securities that have been pledged to the Corporation as collateral by Canadian exporters in the unlikely event of their contractual non-performance were as follows as at:

	June 30, 2019	March 31, 2019
Holdbacks	\$ 10,699	\$ 6,147
Bank guarantees	\$ 21,071	\$ -
Parent guarantees	\$ 12,291,409	\$ 13,460,218

The above amounts approximate the fair values of collateral held.

(b) Other contingent liabilities

As part of the normal course of business, management assesses the likelihood of any contingent liabilities. There were no contingent liabilities to be disclosed as of June 30, 2019 or March 31, 2019.
