1.0 INTRODUCTION

The Water Survey Division of Environment Canada has prepared annual construction reports since 1949. This report summarizes construction activity and financial details for projects undertaken during the April 01, 2004 to March 31, 2005 fiscal year.

Expenditure summaries for new station construction, site inspections, repairs, relocations, upgrades and remediation of discontinued sites are grouped by Federal (F), Federal-Provincial (FP) and Provincial (P) designations.

2.0 COST-SHARING ARRANGEMENTS

The Alberta District construction and maintenance program is managed under a Memorandum of Agreement (MOA) for hydrometric surveys, signed by the government of Canada and province of Alberta on April 15, 1975. Annual construction budgets and priorities are established via a joint consultative process between Alberta Environment and Environment Canada.

Under the terms of the agreement each gauging station is designated as Federal (F), Federal – Provincial (FP) or Provincial (P) by a Coordinating Committee. Stations designated F are the cost responsibility of the Water Survey of Canada; stations designated FP are cost shared equally and stations designated P are the cost responsibility of the Province of Alberta.

Shareable costs are defined in schedule B of the MOA. Direct costs such as the salaries of construction personnel, field travel expenses, vehicle operating costs, materials and payments for contracts/services are summarized.

Exceptions relate to specialized equipment and/or instrumentation whereby, under the Article VII of the MOA, costs are paid by the party requiring the service.

3.0 THE 2004/05 CONSTRUCTION PROGRAM

Projects this fiscal year were carried out at 71 gauging stations. This included the installation of 6 new monitoring stations in the Cypress Hills area, the upgrading of 7 manual gauge sites to automatic recorders, relocation of 3 gauging stations, remediation work at 3 discontinued stations and an additional 3 magnetic particle inspections on suspended cableways. Major projects involved the relocation of Little Paddle River near Mayerthorpe – 07BB005 and a contract to rip-rap and stabilize the left bank at Blindman River near Blackfaulds – 05CC001.

Remainder of projects were related to on-going maintenance & repair such as cableway and shelter upgrades/repairs, installation of benchmarks, fall arrest/lock bar installations, plumbing repairs, mouse proofing and rectifying heat cable problems.

4.0 DISTRIBUTION OF COSTS

Table 1: Summary of Fiscal Year Expenditures by Designation

2003/2004 CONSTRUCTION PROJECTS AND COSTS BY DESIGNATION			
	COUNT	DESIGNATION	COST
	9	FEDERAL	\$ 6,601.14
	28	FEDERAL-PROVINCIAL	\$ 61,702.62
	34	PROVINCIAL	\$ 89,680.68
Totals:	71		\$ 157,984.44
Federal Portion:	\$37,452.45 (24%)		
Provincial Portion:	\$120,531.99 (76%)
