YES

For information, refer to the publication:

Technical guideline to asbestos exposure management programs found on Canada.ca/labour-health-safety-reports.

CONCERNS

- In your occupation do you work directly with materials or products containing asbestos?
- Do you worry that you are not adequately protected when working with or near asbestos-containing materials?
- Have you experienced any health symptoms like breathing difficulties or a persistent cough?
- Can you see damaged friable materials that may contain asbestos in your workplace?
- Do you worry that your work with or near asbestos can make you ill?

You answered
“YES” to one or more
of these questions

ACTION TO TAKE

Raise the issue with your supervisor.
Refer to the
Internal complaint resolution process found on
Canada.ca/labour-health-safety-reports.

UNRESOLVED?

Refer to Labour Program by telephone 1-800-641-4049 or consult
canada.ca/workplace-health-safety.
