

REGISTRY OF THE COMPETITION TRIBUNAL
Quarterly Financial Report
For the quarter ended September 30, 2013

**Statement outlining results, risks and significant changes in operations,
personnel and program**

Introduction

This quarterly report has been prepared by management as required by section 65.1 of the *Financial Administration Act* and in the form and manner prescribed by the Treasury Board. This quarterly report should be read in conjunction with the Main Estimates as well as Canada's *Economic Action Plan 2012 (Budget 2012)*. It has not been subject to an external audit or review.

A summary description of the Registry of the Competition Tribunal's program activities can be found in Part II of the Main Estimates.

Basis of Presentation

This quarterly report has been prepared by management using an expenditure basis of accounting. The accompanying Statement of Authorities includes the department's spending authorities granted by Parliament and those used by the department consistent with the Main Estimates for the 2013-2014 fiscal year. This quarterly report has been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

As part of the Parliamentary business of supply, the Main Estimates must be tabled in Parliament on or before March 1 preceding the new fiscal year. Budget 2012 was tabled in Parliament on March 29, after the tabling of the Main Estimates on February 28, 2012. As a result the measures announced in the Budget 2012 could not be reflected in the 2012-13 Main Estimates.

In fiscal year 2012-2013, frozen allotments were established by Treasury Board authority in departmental votes to prohibit the spending of funds already identified as savings measures in Budget 2012. In 2013-2014, the changes to departmental authorities were reflected in the 2013-2014 Main Estimates tabled in Parliament.

The authority of Parliament is required before moneys can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

When Parliament is dissolved for the purposes of a general election, section 30 of the Financial Administration Act authorizes the Governor General, under certain conditions, to issue a special warrant authorizing the Government to withdraw funds from the Consolidated Revenue Fund. A special warrant is deemed to be an appropriation for the fiscal year in which it is issued.

The Registry of the Competition Tribunal uses the full accrual method of accounting to prepare and present its annual departmental financial statements that are part of the departmental performance reporting process. However, the spending authorities voted by Parliament remain on an expenditure basis.

Highlights of fiscal quarter and fiscal year to date (YTD) results

Changes in Expenditures

Compared to the previous year, the expenditures recorded in the second quarter, ending September 30, 2013 decreased by \$75K, from \$433K to \$358K. This decrease is primarily explained by a large and complex case that took place in Toronto last year.

As of the end of the second quarter, the Registry spent less than 50% of its authorities.

Risks and Uncertainties

This Departmental Quarterly Financial Report (QFR) reflects the results of the current fiscal period in relation to the Main Estimates for which full supply was released on June 5, 2013. Budget 2010 announced that the operating budgets of departments would be frozen at their 2010-11 levels for the fiscal years 2011-12 and 2012-13.

The Registry is funded through voted parliamentary spending authorities and statutory authorities for program expenditures. As a result, its operations are impacted by any changes in funding approved by Parliament. Also, the Registry has no control over the number of applications filed at the Tribunal, it can only react to external demands. The number of applications brought before the Tribunal depends on the enforcement policy adopted by the Competition Bureau and the number of applications filed by individuals or companies under the private access provisions of the Act.

Significant changes in relation to operations, personnel and programs

There have been no significant changes in relation to operations and personnel over the current quarter.

Budget 2012 Implementation

The Registry has not been directly affected by the savings measures announced in Budget 2012. However the Registry follows the spirit of the legislation and a number of cost saving initiatives are currently being assessed and implemented internally.
