INVESTMENT IN CANADA

A Selected Bibliography

Making investment decisions depends on information. That information is not always easy to find, especially outside the country of concern.

Investment Canada has compiled the following selected bibliography from its own publications as well as those of other departments and agencies of the Government of Canada, and from the private sector, to help investors and consultants both within and outside Canada find the information they need about investing in Canada. Information for ordering these titles is listed with the citations. Unless otherwise noted, the publications are available without charge for single copies.

CONTENTS

General Investment.....	2
Canada-United States Free Trade Agreement.....	9
Canadian Tax Reform.....	11
Technology.....	13
