VolNet is a Government of Canada initiative administered by Industry Canada. It aims to improve the voluntary sector's access to information technology and to the related tools available, in order to help this sector play a stronger role in Canadian society. VolNet's goal is to offer Internet connectivity, including computer equipment and Internet skills development and support, to 10 000 voluntary organizations by March 31, 2001.

SONA Computer Inc. has been selected as the supplier of microcomputers for VolNet participants.

A network of delivery agencies has been established by Industry Canada to meet VolNet's goal of connecting 10 000 voluntary organizations within two years.

VolNet participants who wish to take advantage of this offer should contact their delivery agency.

SONA Computer Inc. is also prepared to offer this equipment to non-VolNet voluntary organizations at a reduced price. Contact SONA Computer Inc. directly:
