Interactive Learning Projects for the Internet

Canada

"Our GrassRoots project allowed us to deliver the curriculum using the latest technology – since the students were deeply involved in the development of the project, their sense of self-esteem grew because they felt that they were responsible for the success of the project – and they were."

Steve Skultely, Cecil Rhodes School, Winnipeg, Manitoba

**Getting Started
is as easy as
1-2-3**

Connect! Innovate!

What is the SchoolNet GrassRoots Program?

- customized, collaborative, on-line classroom projects
- students taking charge of their learning
- teachers and students building the knowledge tools they need

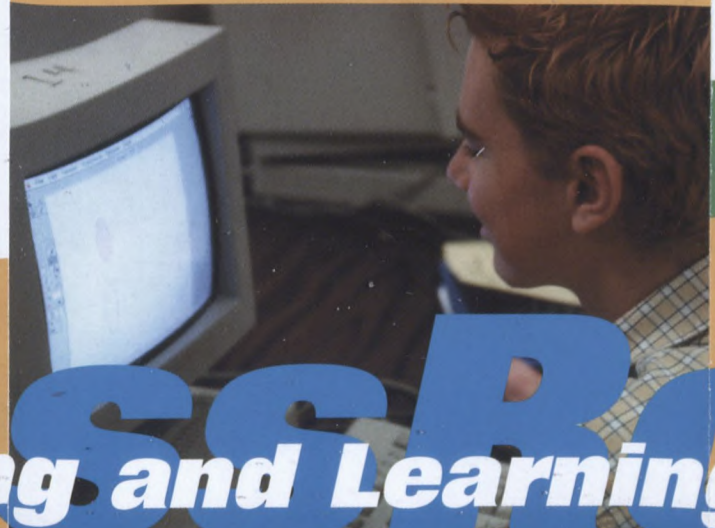

Whether you're a beginner or a Web expert, you and your students can develop GrassRoots projects and earn money, anywhere from \$300 to \$5,500.

"Through their involvement in SchoolNet GrassRoots, my students have used information age technologies effectively to acquire higher order thinking skills, to do research, to learn and to absorb complex concepts in creative ways."

Indu Varma, Marshview Middle School, New Brunswick

1. Plan your project
2. Submit your proposal on-line
3. Run your project with your students

For great tips and resources to develop your GrassRoots project, visit the GrassRoots Teacher ToolKit at www.schoolnet.ca/grassroots/toolkit

GrassRoots Innovating and Learning Together

Industry Canada's SchoolNet, a partnership with the provinces, the territories, the education community and the private sector, is doing many exciting things to help you integrate information and communication technologies in the classroom. Check out the Web site!
