# Check Out **SPECTRUM Direct**

Industry Canada's Spectrum Management has gone on-line with its Spectrum Direct Web site — a full-service, interactive site designed with you in mind.

Here's what you'll find on the site:

- an easy and convenient way of submitting radiocommunication licence applications on-line;
- direct access to Industry Canada's spectrum management database for information on who's using which frequencies, where, and with what technical parameters;
- a protected link to the radio licences in your client account;
- a quick and secure way to pay your radio licence fees on-line using your MasterCard® or Visa® credit card; and
- a gateway to other sources of information on spectrum management and telecommunications in Canada.

## Here's How to Get There

Spectrum Direct is on the Internet at <http://spectrumdirect.ic.gc.ca>

To enter the restricted access areas of the site, you'll need to create your own "Web Profile." Simply go to the Web Profile Application section of the site, and enter the required information from one of your recent radio licence invoices.

## Find Out More

If you have any questions about Spectrum Direct, the site has an extensive help section. You can even take a guided tour of a microwave licence application.

For further information about Spectrum Direct, call one of the Industry Canada Spectrum Management regional or district offices listed at the following address:
