Canada 

Climate change is a global challenge that demands a global response. Canadian companies are developing and adopting technologies, products and services designed to reduce greenhouse gas emissions. The adoption of innovative climate change technologies enhances environmental performance and helps companies increase productivity and become more competitive.

Canada's dynamic climate change industry supplies technologies, products and services around the world and will help you make a difference.

CANADA'S CLIMATE CHANGE INDUSTRY IS READY TO MEET THE CHALLENGE

- **Advanced Materials**
- **Alternative Fuels**
