Introduction

The *Industry Canada Catalogue of Published Materials* has been created as a comprehensive information source for communications products published by the department's sectors, services and related organizations. This catalogue will be updated yearly, so that it remains a useful reference tool.

Communications products are listed in this catalogue alphabetically by sector and branch name. Products published during or after the 1994-95 program year have been included. Each entry includes a thumbnail image of the product, a brief description and a registration number. Many of these products are also available electronically on *Strategis* or other Industry Canada web sites, in which case the Internet address is listed.

This document has been created for use by Industry Canada employees. In addition to this printed version of the catalogue, there are two electronic versions. One is available to department employees via Lotus Notes, on the **Industry Canada Applications in Notes** database, under the "Corporate Communications" link from the main menu. The other is available to the department's clients and the general public via Industry Canada's corporate information site on the Internet, at: <http://info.ic.gc.ca/epublications>
