1. INTRODUCTION

The *Access to Information Act* gives Canadian citizens the legislated right to access information in federal government records, subject to certain limitations and specific exemptions. The Act complements other methods for obtaining government information, and does not limit in any way the access to federal government information that is normally available to the public upon request.

This report is prepared by Ingenium – Canada’s Museums of Science and Innovation, in accordance with section 72 of the *Access to Information Act* and is tabled in Parliament by the Minister of Canadian Heritage in accordance with the aforementioned section. It describes how Ingenium fulfilled its responsibilities under the Act during the fiscal year beginning April 1, 2021 and ending March 31, 2022.

Ingenium was established as an autonomous Crown Corporation on July 1, 1990, with the passage of the *Museums Act*. The mandate of the Corporation as stated in the Act is:

To foster scientific and technological literacy throughout Canada by establishing, maintaining and developing a collection of scientific and technological objects, with special but not exclusive reference to Canada, and by demonstrating the products and processes of science and technology and their economic, social and cultural relationships with society.

Although section 68 of the *Access to Information Act* does not apply to museum material, the nature of the institution’s mandate means that information is made readily available to anyone requesting it. Most requests are, therefore, addressed on an informal basis. The sources are so varied and the contacts so widely distributed that no statistics are maintained of those informal requests.

Ingenium has no wholly owned subsidiaries or non-operational institutions.

2. ORGANIZATIONAL STRUCTURE

The Corporate Secretariat of Ingenium – Canada’s Museums of Science and Innovation¹ administers the provisions of the *Access to Information Act* and the *Privacy Act* and is accountable to the President and CEO of Ingenium. As such, the Corporate Secretariat is responsible for the following activities:

- processing all requests made under the acts;
- developing policies, guidelines and procedures with respect to fulfilling the Corporation’s legislative requirements of both acts;
- promoting awareness of both acts, delivering training, and providing advice and guidance to ensure that employees and management understand their roles and responsibilities;
- monitoring compliance with both acts;
- completing Privacy Impact Assessments (PIAs);
- coordinating reporting on privacy breaches;
- participating in and contributing to the broader ATIP community of practice;

¹ The legal name of the Corporation is the National Museum of Science and Technology. The name “Ingenium - Canada’s Museums of Science and Innovation” is used publicly in communications, other than when the legal name is required.

- uploading statistical reports;
- preparing annual reports for tabling; and,
- updating the *Info Source* chapter annually.

The libraries at the Canada Science and Technology Museum and the Canada Aviation and Space Museum have been designated as reference centres for the purposes of the Act.

Ingenium was not party to any service agreements under section 96 of the *Access to Information Act* during the reporting period.

3. DELEGATION OF AUTHORITY

The President and CEO of Ingenium, as designated Head of the Corporation under the *Access to Information Act*, exercises powers entrusted to the position by the Act, such as exemptions and exclusions.

The Advisor, Governance and Compliance serves as the Access to Information Coordinator for Ingenium and is responsible for the administration and implementation of the *Access to Information Act* requirements (See Appendix A - Delegation Order).

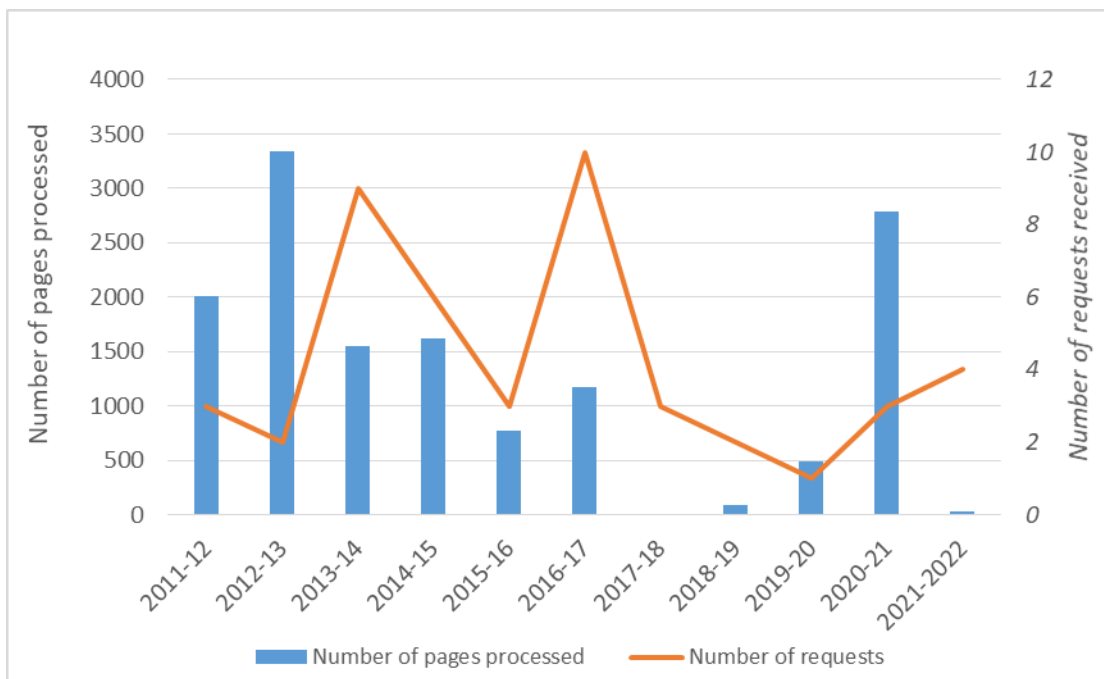

4. HIGHLIGHTS OF THE STATISTICAL REPORT

During the April 1, 2021 to March 31, 2022 reporting period, the Corporation processed four (4) requests. Ingenium was consulted on one (1) request from other federal government institutions.

a. Formal Requests

A total of four (4) requests were received during this reporting period (See Appendix B - Statistical Report). No requests were carried over from the previous fiscal year.

Access to Information Requests and Pages Processed, 2011-2012 to 2021-2022

In terms of trends, the Corporation continues to experience a low volume of ATI requests. Less than 10 requests per year have been received in each year since 2011-2012.

While it is not possible to determine the cause of the low volume of ATI requests, or even whether the trend will continue, Ingenium notes that the public has increasing points of open access to government information including Open Data sources, the Open Government portal and proactive disclosure statements. These sources reflect the government’s commitment to openness and transparency. Ingenium has been trailblazing in open access for many years, making over 30,000 working documents available to the public on its Open Documents portal since its launch in 2014.

The number of Parliamentary Questions for which Ingenium has provided a response continues to be significant. In 2021-2022, 33 PQs were treated, compared to 34 the year before. Parliamentary questions offer a platform for members of parliament to represent the interests of their constituents by presenting questions in the House of Commons. This is another avenue for Canadians to seek information from federal institutions through their elected representatives. A single parliamentary question may be addressed to all of government or multiple federal institutions, whereas a request made under the *Access to Information Act* is addressed to a single institution. In the case of an ATI request, there may be a need to consult with other institutions, which may impact the length of time required to supply a full response.

The first request this fiscal year concerned reports submitted to TBS regarding Ingenium construction projects, and required 28 days for processing. The second and third request were for total compensation for members of Ingenium’s Executive Leadership Team for different time periods, the second required 16 days to process and the third required 9. The fourth request was related to performance incentives, and required 9 days to process.

b. Sources of Requests

During the reporting period, three (3) requests received by Ingenium were from the public and one

(1) was from the media.

In terms of trends, the media remains the largest source of requests for information from the Corporation. Since 2013-2014, the media has been the source of eighteen (18) requests which represents approximately half of the requests.

c. Consultation Requests

During the reporting period, Ingenium received one (1) consultation request, which was from another federal government institution. The request was disclosed entirely. A total of 16 pages were reviewed, and the consultation requests was completed within 3 days.

In terms of trends, the volume and nature of the consultations received from other government sources tend to be similar to the volume and nature of requests for information the Corporation received during the same period.

d. Processing Requests

Three (3) requests Ingenium completed during the reporting period were disclosed entirely. One (1) was disclosed in part, with exclusions from section 69(1)(d) applied. No extensions were taken. All requests were closed during the legislated timeline.

e. Fees and Costs

As a Schedule III Crown corporation, Ingenium is not subject to the *Service Fees Act*.

The Access to Information and Privacy Office collected \$20 in application fees during 2021-2022. \$5.00 application fee is the only fee charged for an ATI request. Ingenium has no formal policy regarding the waiving of fees.

During 2021–2022, the Access to Information and Privacy Office incurred \$5,672 in salary costs to administer the *Access to Information Act*.

f. Impact of COVID-19

COVID-19 has had a limited impact on the Corporation's ability to fulfil its ATIA responsibilities during the reporting period because of the low number of requests received. Due to the limited access to the work site, Ingenium had only partial capacity to process Secret and Top Secret records during 2021-2022. However, Ingenium did not process any requests or consultations with those classifications during the reporting period.

In order to ensure continuation of operations, the Corporation implemented IT measures to ensure staff could telework effectively and increased network security. The majority of staff – including the Corporate Secretariat – retained access to the Corporate network and databases. The Corporation is able to receive and process new requests, but may experience some delays due to reduced access to physical files stored on-site.

5. TRAINING ACTIVITIES

Over the reporting period, one training/awareness activities was formally undertaken. Ingenium's Compliance and Reporting Officer presented employee responsibilities under the *Access to Information*

Act, including specific strategies for the remote work context, at an All-Staff meeting.

6. POLICIES, GUIDELINES AND PROCEDURES

Ingenium did not implement any new access to information policies, guidelines and/or procedures during the reporting period.

7. COMPLAINTS AND INVESTIGATIONS

Ingenium received no complaints during the reporting period. Ingenium has two outstanding complaints received in 2020-2021, one relating to extensions and one relating to the application of exemptions. Formal representations were submitted, but the report of findings has not yet been received from the Office of the Information Commissioner.

8. MONITORING PROCESS

The ATIP Office monitors the time to process requests and administer the *Access to Information Act* through weekly verbal status reports. Any issues of significant interest are discussed with the President and CEO on an as-needed basis.

APPENDIX A – DELEGATION ORDER

ACCESS TO INFORMATION ACT DELEGATION ORDER

In accordance with the *Access to Information Act*, the President and CEO of Ingenium – Canada’s Museums of Science and Innovation, hereby delegates the powers, duties and functions stipulated in the under-listed sections and subsections of the *Act*:

Position	<i>Access to information Act</i> and Regulations
Director, Strategic Planning, Policy and Results	All powers that can be delegated as per the Treasury Board Policy on Access to Information
Advisor, Governance and Compliance	Sections-: All powers that can be delegated as per the Treasury Board Policy on Access to Information

Christina Tessier
President and CEO
