### Statement of Management Responsibility Including Internal Control Over Financial Reporting

Responsibility for the integrity and objectivity of the accompanying financial statements for the year ended March 31, 2020, and all information contained in these statements rests with the management of the Courts Administration Service (CAS). These financial statements have been prepared by management using the Government of Canada's accounting policies, which are based on Canadian public sector accounting standards.

Management is responsible for the integrity and objectivity of the information in these financial statements. Some of the information in the financial statements is based on management's best estimates and judgment, and gives due consideration to materiality. To fulfill its accounting and reporting responsibilities, management maintains a set of accounts that provides a centralized record of the CAS's financial transactions. Financial information submitted in the preparation of the Public Accounts of Canada, and included in the Courts Administration Service's Departmental Results Report, is consistent with these financial statements.

Management is also responsible for maintaining an effective system of internal control over financial reporting (ICFR) designed to provide reasonable assurance that financial information is reliable, that assets are safeguarded and that transactions are properly authorized and recorded in accordance with the *Financial Administration Act* and other applicable legislation, regulations, authorities and policies.

Management seeks to ensure the objectivity and integrity of data in its financial statements through careful selection, training, and development of qualified staff; through organizational arrangements that provide appropriate divisions of responsibility; through communication programs aimed at ensuring that regulations, policies, standards, and managerial authorities are understood throughout the CAS; and through conducting an annual risk-based assessment of the effectiveness of the system of ICFR.

The system of ICFR is designed to mitigate risks to a reasonable level based on an ongoing process to identify key risks, to assess effectiveness of associated key controls, and to make any necessary adjustments.

A risk-based assessment of the system of ICFR for the year ended March 31, 2020 was completed in accordance with the Treasury Board Policy on Financial Management and the results and action plans are summarized in the annex.

The effectiveness and adequacy of the CAS's system of internal control is reviewed by the work of internal staff, who conducts periodic audits of different areas of the CAS's operations, and by the Departmental Audit Committee, which provides objective advice and recommendations to the Deputy Head of the Courts Administration Service.

In response to the COVID-19 pandemic, effective March 16, 2020, CAS activated its Business Continuity Plan (BCP) to ensure the delivery of critical services. An assessment of the impact of the activation of the BCP, conducted as of March 31, 2020, concluded that there were no impacts on the effectiveness of internal controls over financial reporting. We continue to monitor the impact of remote working arrangement on our control environment.

The financial statements of the Courts Administration Service have not been subject to an external audit or review but have been shared with the Courts Administration Service Departmental Audit Committee and they reflect the Committee members' comments.

## Notes to the Financial Statements (Unaudited)

For the year ended March 31

### 1. Authority and objectives

The Courts Administration Service, which was established on July 2, 2003 by the Courts Administration Service Act, S.C. 2002, c.8, is responsible for providing administrative services to the Federal Court of Appeal (FCA), the Federal Court (FC), the Court Martial Appeal Court of Canada (CMAC) and the Tax Court of Canada (TCC) - "the Courts".

These services permit individuals, companies, organizations and the Government of Canada to submit disputes and other matters to the Courts, and enable the Courts to hear and resolve the cases before them fairly, without delay and as efficiently as possible.

The Courts Administration Service has two core responsibilities, Administration services for the federal courts and Internal services. The Administration services for the federal courts consists of four programs, Judicial Services, Registry Services, E-Courts and Court Security to provide timely and efficient judicial, registry, court security and electronic court services to the FCA, the FC, the CMAC and the TCC; coordinate the provision of services among the four Courts; and safeguard the independence of the Courts by placing administrative services at arm's length from the Government of Canada.

The Judicial Services program provides legal services and judicial administrative support to assist members of the Courts in the discharge of their judicial functions. These services are provided by legal counsel, judicial administrators, law clerks, jurilinguists, judicial assistants, library personnel and court attendants, under the direction of the four Chief Justices.

Registry Services are delivered under the jurisdiction of the Courts. The registries process legal documents, provide information to litigants on court procedures, maintain court records, participate in court hearings, support and assist in the enforcement of court orders, and work closely with the Office of the four Chief Justices to ensure that matters are heard, and decisions are rendered in a timely manner. Registry Services are offered in every province and territory through a network of permanent offices, and agreements with provincial and territorial partners.

The E-Courts Program aims to harness the potential of technology to modernize the administration of justice by providing a range of modern, scalable and fully integrated electronic court and registry management solutions.

The Court Security Program contributes to the safety of the courts, through the development, implementation, and compliance with policies and procedures designed to ensure the safety and security of members of the judiciary, litigants and employees. The program also cultivates and enhances the organization's capacity to respond to threats through ongoing collaboration with law enforcement departments and agencies and the optimum use of security intelligence. The program also identifies gaps in capability and develops potential solutions to address deficiencies, in order to enhance the organization capabilities against potential threats.

Internal Services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Management and Oversight Services, Communications Services, Legal Services, Human Resources Management Services, Financial Management Services, Information Management Services, Information Technology Services, Real Property Services, Material Services, Acquisition Services, and Other Administrative Services. Internal Services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

### 2. Summary of significant accounting policies

These financial statements have been prepared using the Government's accounting policies stated below, which are based on Canadian public sector accounting standards. The presentation and results using the stated accounting policies do not result in any significant differences from Canadian public sector accounting standards.

Significant accounting policies are as follows:

#### (a) Parliamentary authorities

The Department is financed by the Government of Canada through Parliamentary authorities. Financial reporting of authorities provided to the Department do not parallel financial reporting according to generally accepted accounting principles since authorities are primarily based on cash flow requirements. Consequently, items recognized in the Statement of Operations and Departmental Net Financial Position and in the Statement of Financial Position are not necessarily the same as those provided through authorities from Parliament.

# COURTS ADMINISTRATION SERVICE

## Notes to the Financial Statements (Unaudited)

For the year ended March 31

## 2. Summary of significant accounting policies (continued)

### (a) Parliamentary authorities (continued)

Note 3 provides a reconciliation between the bases of reporting. The planned results amounts in the "Expenses" and "Revenues" sections of the Statement of Operations and Departmental Net Financial Position are the amounts reported in the Future-oriented Statement of Operations included in the 2019-20 Departmental Plan. Planned results are not presented in the "Government funding and transfers" section of the Statement of Operations and Departmental Net Financial Position and in the Statement of Change in Departmental Net Debt because these amounts were not included in the 2019-20 Departmental Plan.

### (b) Net cash provided by Government

The Courts Administration Service operates within the Consolidated Revenue Fund (CRF), which is administered by the Receiver General for Canada. All cash received by the Courts Administration Service is deposited to the CRF, and all cash disbursements made by the Courts Administration Service are paid from the CRF. The net cash provided by Government is the difference between all cash receipts and all cash disbursements, including transactions between departments of the Government.

### (c) Amounts due from or to Consolidation Revenue Fund (CRF)

Amounts due from or to the CRF are the result of timing differences at year-end between when a transaction affects authorities and when it is processed through the CRF. Amounts due from the CRF represent the net amount of cash that the CAS is entitled to draw from the CRF without further authorities to discharge its liabilities.

### (d) Revenues

- ✓ Revenues consist primarily of filing fees and fines. It also includes Employment Insurance Operating Account cost recoveries, for presentation purposes (refer to last point below). All such revenue is non-respondable.
- ✓ All revenues are accounted for in the period in which the underlying transaction or event that gave rise to the revenue takes place.
- ✓ Revenues that are non-respondable are not available to discharge the Courts Administration Service's liabilities. While the Deputy Head is expected to maintain accounting control, he has no authority regarding the disposition of non-respondable revenues. As a result, non-respondable revenues are considered to be earned on behalf of the Government and are therefore presented as a reduction of the entity's gross revenues.
- ✓ Recovery of administration costs - Employment Insurance: At the end of each fiscal year, the CAS determines the cost associated with the administration of Employment Insurance (EI) cases. The total cost allocated by the Courts Administration Service for handling EI cases are expended against Employment and Social Development Canada, the department responsible for the Employment Insurance Operating Account. As such, Employment and Social Development Canada would show an expense and the Courts Administration Service would show an equivalent non-respondable revenue item. The purpose of this accounting treatment is to reflect more accurately the total cost of running the EI program and does not involve any transfer of authorities or funds.

### (e) Expenses

- ✓ Vacation pay and compensatory leave are accrued as the benefits are earned by employees under their respective terms of employment.
- ✓ Services provided without charge by other government departments for accommodation and employer contributions to the health and dental insurance plans are recorded as operating expenses at their carrying value.

# COURTS ADMINISTRATION SERVICE

## Notes to the Financial Statements (Unaudited)

For the year ended March 31

## 2. Summary of significant accounting policies (continued)

### (f) Employee future benefits

- ✓ Pension benefits: Eligible employees participate in the Public Service Pension Plan, a multiemployer pension plan administered by the Government. The CAS's contributions to the Plan are charged to expenses in the year incurred and represent the total departmental obligation to the Plan. The Courts Administration Service's responsibility with regard to the Plan is limited to its contributions. Actuarial surpluses or deficiencies are recognized in the financial statements of the Government, as the Plan's sponsor.
- ✓ Severance benefits: The accumulation of severance benefits for voluntary departures ceased for applicable employee groups. The remaining obligation for employees who did not withdraw benefits is calculated using information derived from the results of the actuarially determined liability for employee severance benefits for the Government as a whole.

### (g) Accounts receivable

Accounts receivable are initially recorded at cost. When necessary, an allowance for valuation is recorded to reduce the carrying value of accounts receivable to amounts that approximate their net recoverable value.

### (h) Non-financial assets

The cost of acquiring machinery, equipment and other capital property are capitalized as tangible capital assets and are amortized to expense over the estimated useful lives of the assets, as described in Note 9.

At Courts Administration Service, all tangible capital assets and leasehold improvements having an initial cost of \$5,000 or more are recorded at their acquisition cost. Tangible capital assets do not include immovable assets located on reserves as defined in the *Indian Act*, works of art and museum collection, to which no acquisition cost is attributable; and intangible assets.

Inventories are valued at cost and are comprised of spare parts and supplies held for future program delivery and are not primarily intended for resale. Inventories that no longer have service potential are valued at the lower of cost or net realizable value.

### (i) Measurement uncertainty

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported and disclosed amounts of assets, liabilities, revenues and expenses reported in the financial statements and accompanying notes at March 31. The estimates are based on facts and circumstances, historical experience, general economic conditions and reflect the Government's best estimate of the related amount at the end of the reporting period. The most significant items where estimates are used are contingent liabilities, the liability for employee future benefits and the useful life of tangible capital assets. Actual results could significantly differ from those estimated. Management's estimates are reviewed periodically and, as adjustments become necessary, they are recorded in the financial statements in the year they become known.

As of March 31, 2020, we have concluded that there was no impact on the measurement uncertainty related to the COVID-19 pandemic. We will continue to monitor the impact that this working arrangement has on the measurement uncertainty.

### (j) Related party transactions

Related party transactions, other than inter-entity transactions, are recorded at the exchange amount.

Inter-entity transactions are transactions between commonly controlled entities. Inter-entity transactions, other than restructuring transactions, are recorded on a gross basis and are measured at the carrying amount, except for the following:

- i. Services provided on a recovery basis are recognized as revenues and expenses on a gross basis and measured at the exchange amount.
- ii. Certain services received on a without charge basis are recorded for departmental financial statement purposes at the carrying amount.

### 3. Parliamentary authorities

The CAS receives most of its funding through annual Parliamentary authorities. Items recognized in the Statement of Operations and Departmental Net Financial Position and the Statement of Financial Position in one year may be funded through Parliamentary authorities in prior, current or future years. Accordingly, the Courts Administration Service has different net results of operations for the year on a government funding basis than on an accrual accounting basis. The differences are reconciled in the following tables:

#### (a) Reconciliation of net cost of operations to current year authorities used

Accrued liabilities	5,191	4,766
<b>Total accounts payable and accrued liabilities</b>	<b>10,932</b>	<b>13,180</b>

### 5. Deposit accounts

The CAS maintains two deposit accounts on behalf of litigants before the Courts. Pursuant to an order of the Court, the deposit accounts will record funds paid into the Federal Court of Appeal, Federal Court and Tax Court of Canada. These amounts are held as payments and eventually released, pending judgment of the Courts. The difference between these two accounts is the calculation of interest, as described below.

#### Calculation of Interest:

Deposit Account for the Federal Court of Appeal and Federal Court: Pursuant to the Order in Council P.C. 1970 4/2, the account earns interest semi-annually at a rate that is equal to nine-tenths of the monthly average of tender rates for three-month Treasury bills and is calculated on the minimum monthly balance.

Deposit Account for the Tax Court of Canada: Pursuant to the Order in Council P.C. 1970-300, the account earns interest semi-annually at a rate that is equal to ninety percent of the average of the weekly three-month Treasury bills and is calculated on a daily basis.

### 6. Employee future benefits

#### (a) Pension benefits

The CAS's employees participate in the Public Service Pension Plan (the "Plan"), which is sponsored and administered by the Government of Canada. Pension benefits accrue up to a maximum period of 35 years at a rate of 2 percent per year of pensionable service, times the average of the best five consecutive years of earnings. The benefits are integrated with Canada/Québec Pension Plan benefits and they are indexed to inflation.

Both the employees and the CAS contribute to the cost of the Plan. Due to the amendment of the Public Service Superannuation Act following the implementation of provisions related to Economic Action Plan 2012, employee contributors have been divided into two groups – Group 1 relates to existing plan members as of December 31, 2012 and Group 2 relates to members joining the Plan as of January 1, 2013. Each group has a distinct contribution rate.

The 2019-20 expense amounts to \$5,598,425 (\$5,148,785 in 2018-19). For Group 1 members, the expense represents approximately 1.01 times (1.01 times in 2018-19) the employee contributions and, for Group 2 members, approximately 1.00 times (1.00 times in 2018-19) the employee contributions.

The CAS's responsibility with regard to the Plan is limited to its contributions. Actuarial surpluses or deficiencies are recognized in the Consolidated Financial Statements of the Government of Canada, as the Plan's sponsor.

#### (b) Severance benefits

Severance benefits provided to the CAS's employees were previously based on an employee's eligibility, years of service and salary at termination of employment. However, since 2011 the accumulation of severance benefits for voluntary departures progressively ceased for substantially all employees. Employees subject to these changes were given the option to be paid the full or partial value of benefits earned to date or collect the full or remaining value of benefits upon departure from the public service. By March 31, 2020, substantially all settlements for immediate cash out were completed. Severance benefits are unfunded and, consequently, the outstanding obligation will be paid from future authorities.

The changes in the obligations during the year were as follows:

(in thousands of dollars)	2020	2019
Accrued benefit obligation - Beginning of year	2,084	2,164
Expense for the year	248	159
Benefits paid during the year	(171)	(239)
<b>Accrued benefit obligation - End of year</b>	<b>2,161</b>	<b>2,084</b>

### 7. Accounts receivable and advances

### 10. Related party transactions

The CAS is related as a result of common ownership to all government departments, agencies, and Crown corporations. The Courts Administration Service enters into transactions with these entities in the normal course of business and on normal trade terms.

#### a) Common services provided without charge by other government departments

During the year, the CAS received services without charge from certain common service organizations, related to accommodation and the employer's contribution to the health and dental insurance plans. These services provided without charge have been recorded in the Courts Administration Service's Statement of Operations and Departmental Net Financial Position as follows:

(in thousands of dollars)	2020	2019
Accommodation <sup>(1)</sup>	27,353	27,296
Employer's contribution to the health and dental insurance plans	5,100	4,187
	<b>32,453</b>	<b>31,483</b>

<sup>(1)</sup> Accommodation costs include the space of the court rooms, the offices of the Members of the Courts, the discovery rooms, etc.

The Government has centralized some of its administrative activities for efficiency, cost-effectiveness purposes and economic delivery of programs to the public. As a result, the Government uses central agencies and common service organizations so that one department performs services for all other departments and agencies without charge. The costs of these services, such as the payroll and cheque issuance services provided by Public Services and Procurement Canada are not included in the CAS's Statement of Operations and Departmental Net Financial Position.

#### (b) Other transactions with other government departments and agencies

(in thousands of dollars)	2020	2019
Revenues	1,430	1,320
Expenses	16,010	12,762

Expenses and revenues disclosed in (b) exclude common services provided without charge, which are already disclosed in (a).

## 12. Subsequent Events

The outbreak of the Coronavirus disease "COVID-19" has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. The duration and impact of the COVID-19 outbreak is unknown at this time. As a result, it is not possible to reliably estimate the full length and severity of the impact on CAS's financial position and financial results in future periods.

Additional operating costs associated with sanitization expenses and social distancing are expected.
