**Income After Tax, Distributions
by Size in Canada
1982**

Revised Estimates

The sample data from the Surveys of Consumer Finances are weighted to estimates of total individuals and families derived from the Censuses of Canada. With the availability of the 1986 Census data, revised estimates for 1980 to 1986 have been produced using these 1986 Census data, and a new weighting procedure.

For more information on the new weighting procedure see the section on "Weighting" in the report **Income Distributions by Size in Canada, 1987** (Catalogue 13-207)

**Répartition après impôt, répartition
selon la taille du revenu au Canada
1982**

Estimations révisées

Les données fragmentaires de l'enquête sur les finances des consommateurs sont pondérées en fonction des estimations du nombre total des ménages déduites des recensements du Canada. Les données du recensement de 1986 étant disponibles, on a pu produire des estimations pour 1980 à 1986 à partir de ces dernières en utilisant tout à la fois une nouvelle méthode de pondération.

Pour plus de renseignements sur la nouvelle méthode de pondération, voir la section intitulée "Pondération", dans **Répartition du revenu au Canada selon la taille du revenu, 1987** (no. 13-207 au catalogue).
