## Earnings of Men and Women 1985

## Gains des hommes et des femmes 1985

### Revised Estimates

The sample data from the Surveys of Consumer Finances are weighted to estimates of total individuals and families derived from the Censuses of Canada. With the availability of the 1986 Census data, revised estimates for 1985 and 1986 have been produced using these 1986 Census data, and a new weighting procedure.

Revisions to the data for 1980 to 1984 will be released in the near future.

For more information on the new weighting procedure see the section on "Weighting" in the report *Income Distributions by Size in Canada*, November 1988 (Catalogue 13-207).

### Estimations révisées

Les données fragmentaires de l'enquête sur les finances des consommateurs sont pondérées en fonction des estimations du nombre total des ménages déduites des recensements du Canada. Les données du recensement de 1986 étant disponibles, on a pu produire des estimations pour 1985 et 1986 à partir de ces dernières en utilisant tout à la fois une nouvelle méthode de pondération.

Les révisions des données s'appliquant aux années 1980 à 1984 seront publiées dans un proche avenir.

Pour plus de renseignements sur la nouvelle méthode de pondération, voir la section intitulée "Pondération", dans *Répartition du revenu au Canada selon la taille du revenu*, Novembre 1988 (n° 13-207 au catalogue).
