1. Introduction

The purpose of the *Access to Information Act (ATIA)* is to provide a right of access to information of records under the control of a government institution in accordance with the principles that government information should be available to the public, that necessary exceptions to the right of access should be limited and specific, and that decisions on the disclosure of government information should be reviewed independently of government.

The *Act* provides every person who is a Canadian citizen or a permanent resident with a right of access to any record under the control of a government institution, with some specific, limited exceptions.

The Canadian Northern Economic Development Agency (CanNor) is fully committed to both the spirit and the intent of the *Access to Information Act* to ensure openness and transparency within the department.

This report summarizes the activities of CanNor, for the period of April 1, 2022 to March 31, 2023, in implementing the *ATIA*, and fulfills the requirement under Section 94 of the *Act* which stipulates that, the head of every government institution shall prepare for submission to Parliament an annual report on the administration of this *Act* within the institution during each financial year.

Mandate

CanNor works with partners to advance economic development in Canada's territories. The Agency supports, invests in and advocates for national, territorial and community level economic development; fosters growth and innovation; contributes to building capacity; and invests in foundational economic development projects in the territories. In addition, through the Northern Projects Management Office, the Agency coordinates federal participation in the territorial environmental review processes and maintains the Crown consultation record for major projects.

The Agency works closely with all federal partners to advance a whole of government approach to economic development in the territories.

CanNor supports the implementation of the Government of Canada priorities and the mandate letter for the Minister of Northern Affairs, Minister Responsible for Prairies Economic Development Canada and Minister responsible for the Canadian Northern Economic Development Agency.

2. Organizational Structure

For the purposes of the *Access to Information Act*, the President of CanNor has delegated powers, duties and functions under the *Act* to the Corporate Secretary who performs the role of ATIP Coordinator responsible for leading the ATIP Program. The ATIP Coordinator administers the *Act* with assistance from an Administrative Officer.

The ATIP Coordinator is accountable for the development, coordination and implementation of effective policies, guidelines, systems, and procedures to meet responsibilities under the *Act*, and to permit processing requests, and disclosure of information. Additionally, the ATIP Coordinator provides strategic support and advice to the executive management of the Agency

regarding the administration of the ATIP program, and is responsible for all access to information activities and operations pursuant to the *ATIA* such as:

- processing and responding to all formal requests and interdepartmental consultations under the *Access to Information Act*;
- providing strategic advice to the Agency about ATIP-related matters;
- preparing guidance documents in support of access legislation;
- updating *Info Source* based upon the program alignment architecture and in keeping with the TBS Decentralized Publishing Requirements;
- preparing the Annual Report to Parliament on the *Access to Information Act*;
- training employees on their roles and responsibilities under the *ATIA*; and
- responding to informal inquiries.

3. Delegation Order

The President's *Access to Information Delegation Order (Annex A)*, was updated on March 23, 2020. It provides delegated authority to the Corporate Secretary and the Manager, IM/IT and Chief Information Officer.

4. Performance 2022-2023

CanNor's 2022-2023 Statistical Report on the *Access to Information Act* is attached as Annex B. The following is an overview of key data on CanNor's performance for the fiscal year:

a) Requests Received Under the *Access to Information Act*

CanNor received nine new requests and had two requests carried over from previous reporting periods for a total of eleven requests. Seven requests were processed and closed during the 2022-2023 fiscal year and four remaining request have been carried over to the 2023-2024 reporting period. Of these seven requests closed, one was completed within 1 to 15 days, four within 16 to 30 days, one within 61 to 120 days and one was completed within 121 to 180 days. Of the seven requests closed, 29% involved records which were disclosed fully, 57% were abandoned or transferred to another government institution and 14% did not yield any records. Four extensions were taken, all of which were between 61 to 120 days.

CanNor closed six requests on time, leading to an 85.7% rate of completion within legislated timelines, compared with a 92.9% rate in 2021-22. There are two active requests, containing large volumes of records, that are outstanding from the 2021-2022 reporting period. CanNor has no active complaints.

The following table shows a comparison for the past three years with respect to Access to Information requests received and outstanding.

Requests	2020/2021	2021/2022	2022/2023

Carried over to next reporting period	1	2	4

b) Consultations Received from other Government of Canada Institutions

Twenty-five consultation requests from other Government of Canada departments were received and twenty-four were closed during the 2022-2023 reporting period, representing 2458 pages reviewed and a 96% completion rate. Sixteen consultation requests were processed within 1-15 days, four within 16-30 days, and four within 61 to 120 days. Of twenty-five requests, 83% involved recommendations for records to be disclosed entirely and 17% involved recommendations for records to be disclosed in part.

The following table shows the comparison for the past three years with respect to Consultation requests received and outstanding.

c) Impacts of COVID-19-related Measures and Implemented Mitigation Measures

From the start of the pandemic, including the time period of April 1, 2022, to March 31, 2023, CanNor's ATIP Coordinator and Administrative Officer were provided with network access from their home in order to receive and respond to Access to Information requests, as well as consultation requests received from other Government of Canada institutions. Outside of

periodic, locally mandated stay-at-home orders, office building access was available on an as needed basis in case any non-electronic documents or documents labelled "Secret" needed to be reviewed. However, none of the requests received during the reporting period required the review of such documents, therefore, COVID-19-related measures had no impact on CanNor's ability to fulfil its responsibilities under the *Access to Information Act*.

5. Training and Awareness

Formal training was conducted during the CanNor Administrative Professionals Annual Training Meeting in January, 2023. This session captured all sectors of CanNor and focused on record collection, internal processes, timelines and exemptions. In addition, informal briefings were provided to CanNor Middle Managers on the administration of the *Access to Information Act*. These were conducted one-on-one as needed by way of video or phone call.

6. Policies, Guidelines, Procedures and Initiatives

CanNor uses tools to assist the Office of Primary Interest with identifying sensitivities in records which makes it easier to identify types of information that may qualify for an exemption. Using standardized retrieval email and template letters improves efficiency.

The Agency did not implement or amend any institution-specific Access to Information policies, guidelines, procedures or initiatives during the reporting period.

7. Proactive Publication under Part 2 of the ATIA

CanNor is a government institution listed in Schedule I.1 of the *Financial Administration Act* and complies with the proactive publication requirement under Part 2 of the *Access to Information Act*.

Summaries of completed access to information requests are disclosed on the Government of Canada's "Open Government" portal. Posting these summaries demonstrates consistent procedures across government institutions and helps make released records from previously made Access to Information requests discoverable and available at no cost.

8. Initiatives and Projects to Improve Access to Information

In addition to providing enhanced training to employees and managers on implementing the ATIA; the agency actively employs TBS approved technological tools, including Access Pro Case Management and the ATIP on-line portal, to efficiently process requests.

9. Summary or Key Issues and Actions Taken on Complaints or Audits

There were no complaints received concerning the administration of the *Access to Information Act*, and no audits, investigations or appeals to the Federal Court were undertaken.

10. Reporting on Access to Information fees for the purposes of the *Services Fees Act*

The *Service Fees Act* requires a responsible authority to report annually to Parliament on the fees collected by the institution.

With respect to fees collected under the *Access to Information Act*, the information below is reported in accordance with the requirements of section 20 of the *Service Fees Act*.

In accordance with the Interim Directive on the Administration of the *Access to Information Act*, issued on May 5, 2016, and the changes to the *Access to Information Act* that came into force on June 21, 2019; CanNor waives all fees prescribed by the Act and Regulations. For this reason, CanNor had a total fee revenue of \$0 for the 2022-2023 fiscal year. The total amount waved during this reporting period is \$45.00. The total cost of operating CanNor's ATIP directorate is \$33,000 in salaries.

11. Monitoring Compliance

As the official responsible for completion timelines, the Corporate Secretary and ATIP Coordinator is made aware of new and outstanding requests on a continual basis. A shared request database is used when processing Access to Information and Consultation requests which tracks deadlines and allows for effective monitoring.
