**Quarterly Financial Report
For the Quarter Ended June 30, 2019**

Office of the Commissioner of Official Languages
Quarterly Financial Report
For the Quarter Ended June 30, 2019

Introduction

This quarterly financial report has been prepared by management as required by section 65.1 of the *Financial Administration Act* and in the form and manner prescribed by the Treasury Board. It should be read in conjunction with the Main Estimates. This quarterly report has not been subject to an external audit or review.

Mandate and programs

The Office of the Commissioner of Official Languages (OCOL) supports the Commissioner of Official Languages in fulfilling his mandate, which consists of taking all actions and measures within his authority to ensure recognition of the status of each of the official languages and compliance with the spirit and intent of the *Official Languages Act* in the administration of the affairs of federal institutions, including any of their activities relating to the advancement of English and French in Canadian society.

Further information about OCOL's programs can be found in the [2019-2020 Departmental Plan](#) and in the Main Estimates.

Basis of presentation

This quarterly report has been prepared by management using an expenditure basis of accounting. The accompanying Statement of Authorities includes OCOL's spending authorities granted by Parliament and used by OCOL, consistent with the Main Estimates for the 2019-2020 fiscal year. This quarterly report has also been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before money can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

OCOL uses the full accrual method of accounting to prepare and present its annual financial statements, which are part of the organization's results reporting process. However, the spending authorities voted by Parliament are prepared on an expenditure basis.

Highlights of Fiscal Quarter and Fiscal Year to Date

This section presents a brief analysis of significant variances in relation to actual expenditures and planned expenditures that affected both the quarter and the year to date results, compared to the same periods of the preceding fiscal year.

Office of the Commissioner of Official Languages
Quarterly Financial Report
For the Quarter Ended June 30, 2019

Significant changes to authorities

As of June 30, 2019, total authorities available for the fiscal year compared to the same quarter of the prior year have increased by \$0.4 million, or 2%, following the salary increase negotiated by Treasury Board and the reception of a frozen allotment. This also includes an increase of the budgetary statutory authorities related to the employee benefit plan.

Significant changes to budgetary expenditures

OCOL has spent 23% (\$4.9 million) of its authorities as of June 30, 2019, of which 90% (\$4.4 million) relates to personnel costs.

Expenditures to date have not changed significantly compared with the same quarter last year.

Risks and Uncertainties

The risks OCOL has considered are caused by factors related to its operating environment. Risks related to changes to operational priorities, processes and objectives as well as OCOL's reputation to support its mandate could be considered not only as threats but also as opportunities.

Changes to operational priorities, processes and objectives

In 2018-2019, the organization completed a vision exercise for the next seven years (Vision 2025). As a result, the Commissioner has defined the areas of intervention (axes) on which his attention will be focused in the coming years as well as the means with which the Office of the Commissioner can have a continuing influence on linguistic duality in federal institutions and in Canadian society in order to ensure the vitality of official language communities.

OCOL's 2019-2025 strategic plan is comprised of the Vision 2025 axes and reflects potential changes to organizational priorities arising from external stakeholder reports and regulatory changes.

The Vision 2025 strategic map ensures OCOL remains flexible by establishing its core business as part of the strategic planning process to adapt to these organizational changes

OCOL's reputation to support its mandate

In 2018-2019, the organization completed a vision exercise for the next seven years (Vision 2025). As a result, the Commissioner has defined the areas of intervention (axes) on which his attention will be focused in the coming years as well as the means with which the Office of the Commissioner can have a continuing influence on linguistic duality in federal institutions and in Canadian society in order to ensure the vitality of official language communities.

For the Quarter Ended June 30, 2019

A Director's Business Committee was created to analyse official languages challenges and propose intervention strategies.

OCOL finalized the development of the Official Languages Maturity Model (OLMM). It will provide a more integrated and horizontal look at official languages. The institutions using the OLMM will be better equipped to identify their official languages strengths and weaknesses based on concrete examples, will be able to determine how to better integrate official languages into their decision-making and operational processes and better meet their obligations in terms of official languages under the Official Languages Act. The tool was launched in June 2019.

Significant Changes in Relation to Operations, Personnel and Programs

There have been no significant changes in relation to operations and programs during the current quarter.

Approval by Senior Officials
