ADDENDUM NO. 6

to

Hydrology Report #104

**THE DETERMINATION OF
GROSS AND EFFECTIVE DRAINAGE AREAS
IN THE PRAIRIE PROVINCES**

Regina, Saskatchewan
January 1996

Prepared by:
F. R. J. Martin, P.Eng

FOREWORD

This addendum provides the sixth update of drainage areas tributary to Water Survey of Canada (WSC) and provincial hydrometric gauging stations as described in PFRA Hydrology Report #104 entitled "The Determination of Gross and Effective Drainage Areas in the Prairie Provinces" dated May, 1983. This addendum contains tables of pertinent drainage area information (including any revisions or additions that have been made since the main report was prepared) for relevant WSC and provincial hydrometric gauging stations. A complete set of data is presented herein so that only one data source (i.e. this addendum) would be required for reference purposes.

By mutual but informal agreement, the drainage areas that are tabulated in this addendum have been accepted by the concerned agencies of the Government of Canada and the Provincial Governments of Alberta, Saskatchewan and Manitoba. This general acceptance, however, does not relieve the user of the responsibility of studying Hydrology Report #104 so as to understand the philosophy and procedures used in delineating drainage areas and to judge the suitability of the drainage areas tabulated in this addendum for specific study purposes.

05AE015	Girard Creek near Coronach	Fife Lake drainage area not included

- Notes:
1. Other stations for which drainage areas have been delineated for present (1995) drainage conditions are identified in Tables 2 to 11.
 2. Mainstream stations downstream of the stations listed in this table have not been identified as being affected by artificial drainage because the relative magnitude of the artificial drainage is negligible and decreases in a downstream direction. However, the drainage areas for such downstream stations include whatever artificial drainage has been considered upstream of the stations.

* Includes drainage area above Station 05NB011, Yellow Grass Ditch near Yellow Grass
** Includes drainage area above Station 05NB018, Tatagwa Lake Drain near Weyburn
*** Includes drainage area above Station 05KA007, Waterhen Marsh Canal near Kinistino
