

Summary of Migratory Birds Hunting Regulations

August 2024
to July 2025

Notice: Avian influenza virus is a contagious viral infection that can affect domestic and wild birds throughout the world. Guidelines have been developed to prevent or mitigate the spread of this virus, and for precautionary measures to take when handling wild game. For more information, please refer to www.canada.ca/Avian-flu and the *Wildlife and Avian Influenza – Handling Guidelines to Protect Your Health* web page on the Government of Canada website.

To hunt migratory game birds in Canada, you must possess:

- a valid Migratory Game Bird Hunting Permit;
- a Canadian Wildlife Habitat Conservation Stamp on the permit.

These two documents are issued by the federal government and are valid in all provinces and territories.

The 2024 federal permit is also valid for the 2025 spring special conservation harvest for Snow Geese and Ross's Geese.

Hunting Districts

- 1. Hudson–James Bay District**
Provincial Wildlife Management Units (WMUs) 1A, 1B, and the portions of provincial WMUs 1D, 25, and 26 lying north of latitude 51° and east of longitude 83°45'.
- 2. Northern District**
Provincial WMU 1C, those portions of provincial WMU 1D, 25 and 26 lying south of latitude 51° and west of longitude 83°45'; as well as provincial WMUs 2 to 24 inclusive, 27 to 41 inclusive, and 45.
- 3. Central District**
Provincial WMUs 42 to 44 inclusive, 46 to 50 inclusive, and 53 to 59 inclusive.
- 4. Southern District**
Provincial WMUs 60 to 95 inclusive.

For more information on WMUs, contact the Ontario Ministry of Natural Resources and Forestry and see this link: www.ontario.ca/page/find-wildlife-management-unit-wmu-map.

Note that south of the French and Mattawa rivers, Sunday gun hunting is permitted by provincial regulations in some municipalities, but not all. Season dates for Canada Geese and Cackling Geese in the Southern District may differ between municipalities where Sunday gun hunting is permitted and those where it is not. Hunters should consult the provincial regulations for information about WMUs and a list of municipalities where Sunday gun hunting is permitted and see this link: www.ontario.ca/page/sunday-gun-hunting.

Refer to the *Migratory Birds Regulations, 2022* for restrictions and requirements for items such as baiting, hunting methods and equipment.

Most provinces and territories have additional licence requirements for hunting migratory birds and/or to carry firearms. To know what you require, and if there are further restrictions for hunting migratory birds, please verify the applicable regulations for the province/territory and municipality where you will be hunting. Restrictions such as Sunday hunting closures and minimum required distances from residences and businesses for the discharge of firearms may be applicable.

You can purchase your Migratory Game Bird Hunting Permit by visiting the Government of Canada website (www.permis-permits.ec.gc.ca). Hunters may carry their Migratory Game Bird Hunting (MGBH) permit either in physical (paper) or electronic formats (such as on a mobile device). Electronic MGBH permits must be in the PDF format provided by the e-permitting system (a photograph or screenshot of your permit is not valid). It is the hunter's responsibility to be able to show all required permits to a game officer immediately upon request.

Consultation Process and Migratory Birds Regulatory Reports

A national consultation process has been developed which includes a report on the population status of migratory game birds and a consultation document that provide an opportunity to participate in developing the hunting regulations. For more information, consult the *Migratory Birds Regulatory Report Series* web page on the Government of Canada website.

Youth Migratory Game Bird Hunting (MGBH) Permit

Hunters who are minors (less than 18 years old) have the option to hunt with a Youth MGBH permit. The Youth MGBH permit, as well as the Canadian Wildlife Habitat Conservation stamp, can only be obtained through our online permitting system, free of charge. The Youth MGBH permit is not available for purchase from independent vendors or Canada Post.

The Youth MGBH permit provides young hunters with the opportunity to practice their skills under the supervision of an adult mentor (in possession of a MGBH Permit) throughout the full open season and the special conservation season, and provides Youth MGBH Permit holders with their own daily bag and possession limits.

Mentors must possess their own MGBH permit, must have held such a permit in a previous year, and may accompany no more than two youth hunters. Mentors may carry a firearm, and may hunt. For more information on the new rules pertaining to hunting migratory game birds in the modernized *Migratory Birds Regulations, 2022*, please consult the Government of Canada *Migratory Game Bird Hunting* website.

Important Updates to the Hunting Regulations for Ontario

The daily bag limit for American Black Ducks has been increased from 4 to 6 per day in Hudson-James Bay, Northern and Central Hunting Districts. The daily bag limit for American Black Ducks in the Southern Hunting District has been increased from 2 to 6 per day in WMUs 60 to 87E and from 2 to 3 per day in WMUs 88 to 95.

Enforcement

Federal game officers enforce the *Migratory Birds Convention Act, 1994* (MBCA) and its associated regulations throughout Canada. This law regulates human activities, such as hunting, that could adversely affect wildlife conservation. Game officers may use warnings, administrative monetary penalties, tickets or prosecutions to enforce the provisions of the MBCA and its regulations. The fines and penalties that may be imposed reflect the seriousness of the offence(s). Individuals may be subject to a fine range for a first offence associated to sections of the MBR, 2022 designated for the purposes of paragraph 13(1)(c) of the MBCA, 1994 on summary conviction of not less than \$5,000 and not more than \$300,000, or imprisonment for a term of not more than six months, or both.

Shot

- Lead shot is toxic to wildlife and the environment.
- In Ontario, the use and possession of shot other than non-toxic shot is prohibited while hunting migratory game birds other than woodcock.
- Within National Wildlife Areas (NWA) that allow hunting, the possession of lead shot is prohibited for all hunting, including the hunting of migratory birds and upland game birds. Refer to the *Wildlife Area Regulations* to know which NWAs allow hunting and for the restrictions or requirements when conducting this activity.

To reduce your exposure to contaminants in meat, make sure, before cooking it, to:

- remove the shot from birds hunted with lead shot;
- remove the skin and fat from fish-eating birds.

Species at Risk

- Barrow's Goldeneye** is listed in the *Species at Risk Act* as a species of special concern, and the **daily bag and possession limit is 1 bird**.
- There is no open season for Harlequin Ducks, King Rails and Yellow Rails.

Crime Stoppers

Anyone wishing to report illegal hunting activities, illegal selling of birds or other offences related to migratory birds is asked to call Crime Stoppers at 1-800-222-TIPS (8477). Your call is anonymous, and you may be eligible for a cash reward.
