BIBLIOGRAPHIE
PRÉCIPITATIONS ACIDES

ENVIRONNEMENT CANADA
DIRECTION DES EAUX INTÉRIEURES
RÉGION DU QUÉBEC

Juillet 1981

AVANT-PROPOS

Cette bibliographie sur les précipitations acides a été élaborée par la Direction générale des eaux intérieures d'Environnement Canada, région du Québec, pour répondre à une double nécessité : celle de classer des documents, qui se font de plus en plus nombreux, pour en faciliter l'accès et celle de les rendre disponibles à l'ensemble de la communauté scientifique qui s'intéresse au sujet.

Comme elle a d'abord été conçue pour satisfaire les besoins des scientifiques de la Direction, cette bibliographie n'est pas exhaustive, mais nous comptons en faire une mise à jour trimestrielle.

Étant donné le caractère exclusif de certains documents, nous ne pouvons qu'autoriser une consultation sur place, et ceci dans le but de garantir la disponibilité des documents.
