# the Mitel Superswitch™ is more... and less

SX-200 cabinet  
and attendant console

SX-100 cabinet  
and attendant console

Mitel understands today's needs. That's why the Superswitch doesn't take up a lot of space. Or use a lot of power. Or cost a lot of money. What our innovative Superswitch does do is perform. Better than any other PABX on the market. Which is why major telcos all over the world are already using it.

The Mitel SX-200 is the most compact, full-capability PABX in the world. The SX-100 is the SX-200 in an even smaller cabinet for lower line size applications. Both are incredibly easy to handle and install.

Naturally, a smaller PABX uses less energy. In fact, the Mitel Superswitch cuts power consumption by more than half that required to run the most efficient of our competitors' models. It follows that if the Superswitch saves you energy, it saves you money.

Something else that's nice about this PABX is that it's ready for any application. It comes with a complete range of operating features. If you can't use all of them, you simply activate those features you need. It has a built-in checking system, too. If a circuit malfunction occurs, Superswitch automatically re-routes subsequent calls. It also identifies faulty circuit cards for rapid replacement. And, as if that weren't enough, the Superswitch has a back-up battery to guard against memory loss should a power failure occur.

Expensive? Not a chance.

The Superswitch is a lot more PABX, for a lot less money than you'd expect. And that might be the best feature of all.

## The selection. The experience. The knowhow.

Most people know us for our low and medium capacity analog and digital microwave products. However, we also have a wide range of engineering, and technical support services.

Our **sales engineers** make sure you get the right equipment, price, and delivery. **Product engineers** provide assistance for your planning and technical requirements, while **transmission engineers** can design your complete microwave system, perform path surveys, testing and supply performance calculations.

A **project management** capability enables us to take care of all logistics from planning to system implementation including civil works. Many customers choose Farinon's highly-skilled **EF&I team** to install, turn-up, and test their microwave systems.

When it comes time to train your personnel our **training program** can be tailored to your needs. Should it be necessary, our **repair and replacement** service is just a call away.

Comprehensive **documentation** aids operating personnel in maintaining your system at optimum performance.

At Farinon, our blend of products and services backed-up by wide customer acceptance in Canada and abroad has made us today, the largest Canadian supplier of low and medium capacity microwave radios.

# World of Electronics

This directory, published by the Canadian Department of Industry, Trade and Commerce, is your ready reference to more than 350 Canadian electronics companies experienced in serving world markets with quality products and services. We know you will find it of continuing value.

Starting with a brief account of the success and growth of electronics in Canada, the directory lists companies providing electronics equipment and systems, components, and those that provide consulting services. A product cross-index shows you exactly where to look for your particular requirements.

For further information about Canada's electronics industry please contact Electrical and Electronics Branch, Department of Industry, Trade and Commerce, Ottawa, Ontario, Canada K1A 0H5, or the nearest Canadian Trade Office in the list starting on page 73.

*5th edition, Printed in Canada. March 1980.*

## The source of some of the world's highest technology is one of Canada's best-kept secrets.

Need more Canadian content in your industrial benefits program? Discover Garrett Manufacturing Limited.

While we're hardly a household name, we're well-known around the world for an uncommon degree of innovation in some of the most technically sophisticated applications.

Today, our experience in designing and building temperature controls for the overwhelming majority of Western military and commercial aircraft has created a vast technical base that's ready to help meet all of your Canadian offset requirements.

GML offers a complete manufac-

turing and testing capability, program management, and Canadian product support for a variety of sophisticated electronics. Including electronic assemblies for fire control and navigation systems, missile guidance systems, trainers and simulators, printed wiring board assemblies. Whatever you need.

And when it comes to testing, you can count on GML to get the job done. In addition to automatic test facilities in our manufacturing plant, our R & D center is fully equipped for qualification testing.

Need custom hybrid microcircuitry? GML's microcircuit plant, one of the

most sophisticated in North America, manufactures thick and thin film microcircuitry for military and aerospace applications.

What's more, GML is backed up by the vast technical resources of The Garrett Corporation and their worldwide sales and support network.

For more information on how GML can play a leading role in your defense sharing plans by offering high technology at a competitive price, contact: Sales Manager, Garrett Manufacturing Limited, 255 Attwell Drive, Rexdale, Ontario, Canada M9W5B8. Or call: (416) 675-1411.

# Introduction

---

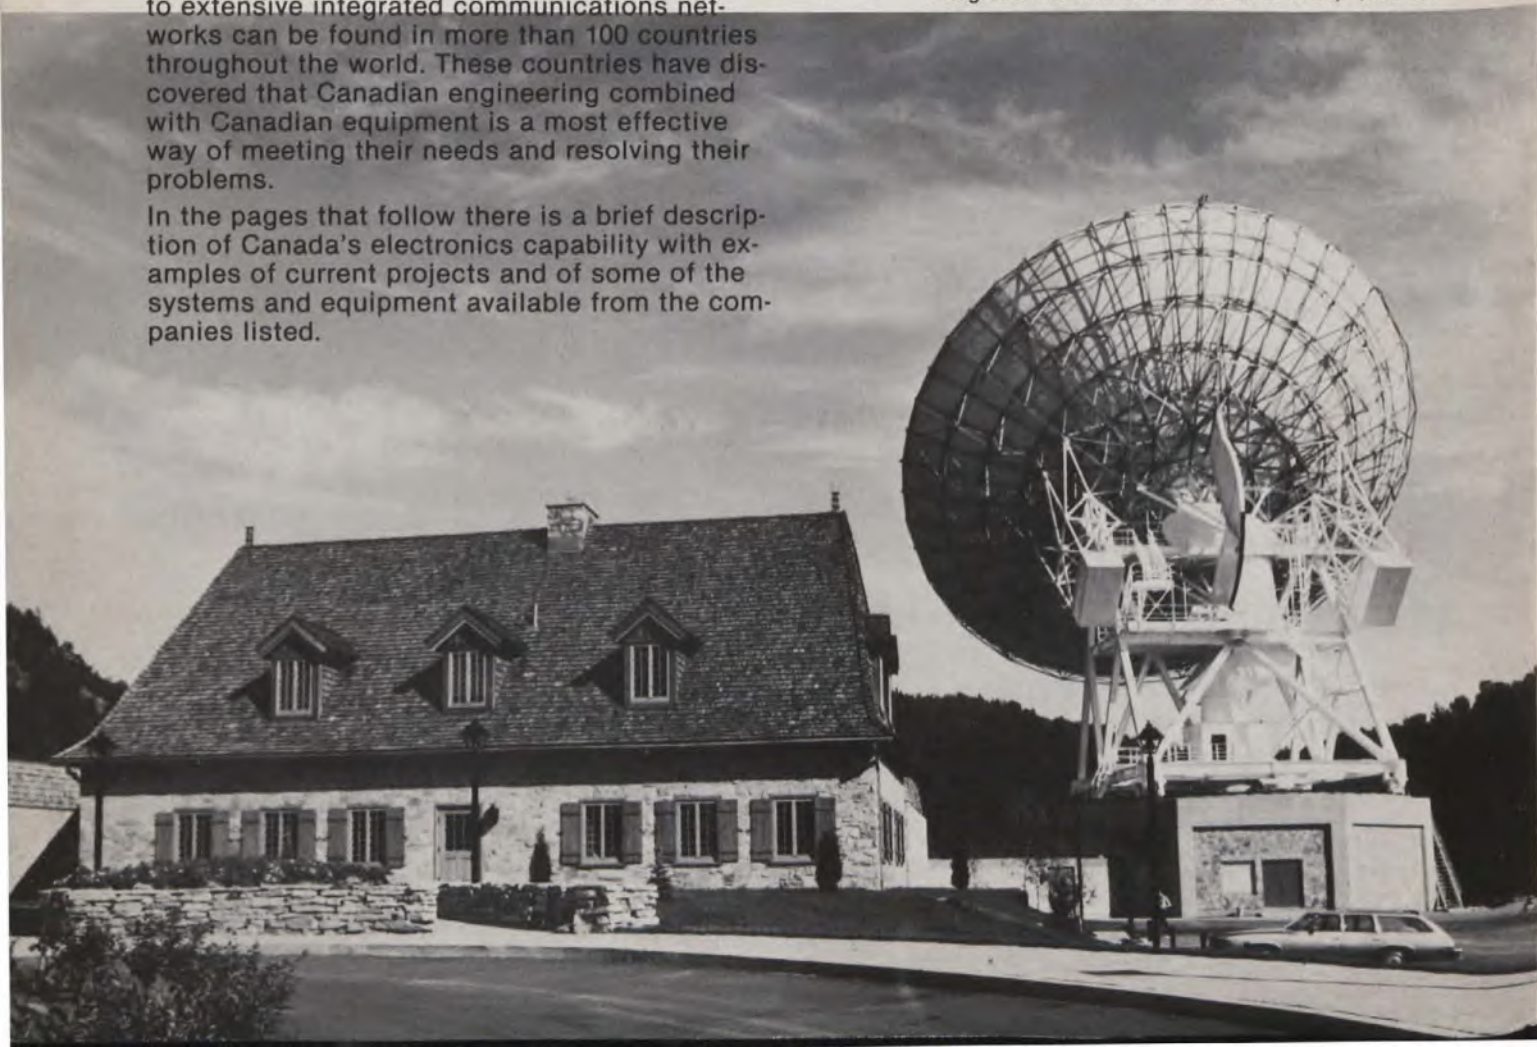

Ranking among the world's leading industrial nations, Canada has an electronics industry with wide capabilities. It serves domestic needs of extraordinary variety and challenge as well as supplying high-technology goods throughout the world.

Canada extends 6,000 kilometres (3700 miles) from Atlantic to Pacific with an area of 10 million square kilometres (3.8 million square miles). The population of 24 million is small relative to the size of the country. It is rich in natural resources which are generally located far from the major population centres.

Because of this, industrial developments related to communications transportation, and the exploration, development, delivery, and processing of natural resources have been emphasized. In mastering its environment and geography Canada has become a world leader in the development and application of the most advanced electronics technology to these industrial problems. Examples of Canadian electronics technology, ranging from small equipment packages to extensive integrated communications networks can be found in more than 100 countries throughout the world. These countries have discovered that Canadian engineering combined with Canadian equipment is a most effective way of meeting their needs and resolving their problems.

In the pages that follow there is a brief description of Canada's electronics capability with examples of current projects and of some of the systems and equipment available from the companies listed.

*Teleglobe satellite earth station at Weir, Quebec.*

# Telecommunications

Telecommunications is one of the leading Canadian electronics capabilities. Engineering and scientific skills in this specialty grew from the need to provide a network for broadcast, message, and television transmission across Canada's vast range of geographical and environmental conditions. Today, one of the largest telecommunications networks in the world reaches through six time zones to serve the needs of Canada's communities. The experience gained in the design and installation of this tremendous transcontinental and space system has been made available through Canadian consulting and manufacturing companies to assist in the development and installation of similar high performance systems in more than 40 countries around the world.

It all began in Canada as long ago as 1846 when the first commercial electric telegraph system in Canada was established between Toronto and Niagara, a distance of about 60 kilometres (37 miles).

On August 10, 1876, the telephone inventor, Alexander Graham Bell, successfully completed the world's first long-distance telephone call from Brantford, Ontario, to Paris,

Ontario, a distance of about 11 kilometres (7 miles), over the lines of the Dominion Telegraph Company.

From these beginnings, the communications needs of a relatively small population in a large country have led to the development of some of the most efficient telecommunications systems and equipment in the world.

## Telephone Systems and Equipment

Canada, with some 14 million telephones installed, has the eighth biggest telephone population in the world. There are some 58 telephones for every

100 persons or more than one telephone for every two persons.

Telephone systems have progressed from the manually-operated switchboards in operation during the 1890s through step-by-step in the 1920s, No. 5 crossbar in the 1950s, stored program control in the 1960s to digital switches which started to come into service during 1976.

Digital and electronic switchers are among the most important high-technology exports from Canada to the United States and abroad. Canada has earned a world reputation for excellence in production of such

technologies which also include PBXs, microwave communication systems and large scale integrated circuits.

Among the most significant of these technological developments are the digital switchers, produced for both remote and densely-populated urban centres as well as for international gateway application. These switches and sophisticated new transmission techniques will provide the backbone of the Canadian communication networks of the future. They are reliable, efficient, and can operate in only a fraction of the space

*Checking the performance of a digital multiplex switcher.*

required by earlier electromechanical machines.

Digital switching capability will also gradually be extended into rural areas through the employment of remote line modules homing onto a parent switcher, thereby extending sophisticated urban-grade communication services into lightly-populated areas up to 80 kilometres away.

Telephone terminals have gone through a radical series of developments over the last few years and this evolution will accelerate. Increased use of electronic switchers, and the addition of tone-to-pulse converters to many rotary dial phones have speeded the trend toward all-pushbutton telephones.

In addition, the replacement of electromagnetic components with silicon memory chips have led to the development and preliminary trial of electronic telephones which in the next few years will be produced in new shapes and equipped with many new service features.

Digital PBXs have also found wide acceptance in business and have been enhanced to provide new features of particular value to small and medium-sized offices. Digital switching capability in the near future will further enhance the abil-

ity of local switchers to perform remote-located switching functions in the business community.

Highly professional groups of consulting engineering firms provide a full range of services to the telephone industry. These include preliminary investigations, advisory services, design engineering, project management, specialized design and development services.

### **Ground-Based Communications Transmission Systems**

Over the years since the opening of Canada's first telephone exchange in Hamilton during 1878, Canada has developed a vast integrated grid of telecommunication transmission facilities comprising wire lines, cables — both land and submarine — microwave networks, and satellite earth stations.

Four separate major microwave networks — two at 4 GHz and one at 8 GHz, owned by the TransCanada Telephone System (TCTS), and one at 6 GHz owned by Canadian National/Canadian Pacific (CN/CP) Telecommunications — now span all or part of Canada.

Other major microwave systems carry north-

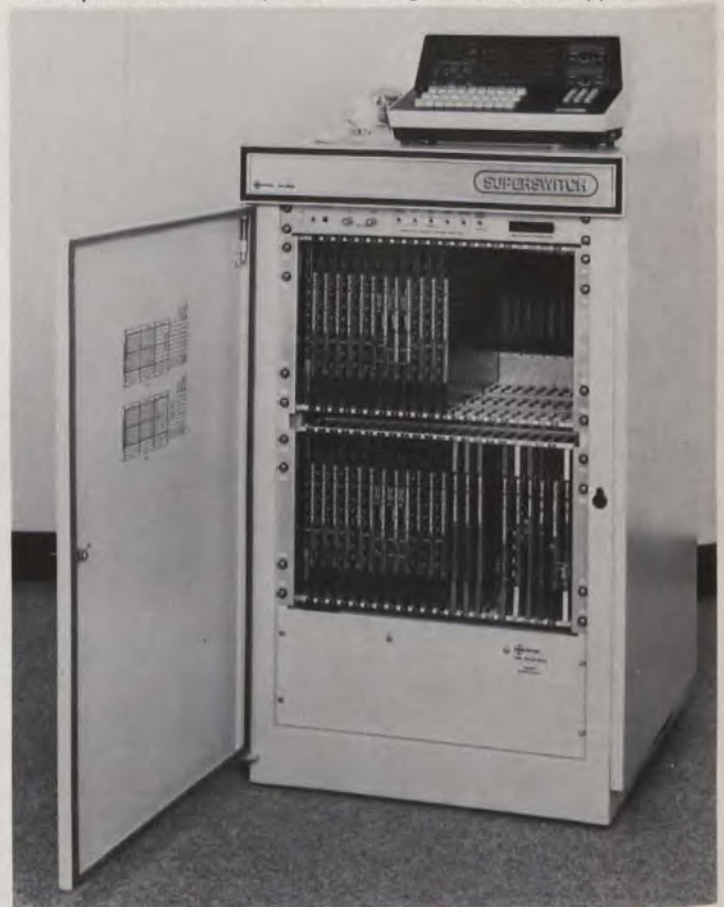

south traffic from the United States border at Alberta to Alaska and from the U.S. border at Manitoba to the shores of Hudson Bay.

Various other microwave networks and spur links are integrated with radio systems — HF, VHF, troposcatter — and other terrestrial services to complete the grid, in excess of 30,000 route-kilometres, of microwave systems throughout Canada.

One of the newest developments is the deployment in early

1980 of an 8 GHz digital radio system overbuilt on the existing TCTS 4 GHz analogue system between Toronto and Calgary. This system comprises all-Canadian components and is the longest 8 GHz terrestrial digital system of its kind in the world. Historically, Canada has played a leading role in communications development. In 1901 Guglielmo Marconi received radio signals in St. John's, Newfoundland, from Poldhu, England, thus introducing the first trans-Atlantic telecom-

*A complete 200-line telephone exchange for business applications.*

munications system. TAT-I (36 circuits), the first trans-Atlantic cable capable of voice transmission, was laid between Canada and Britain in 1956, followed by Contat-I (80 circuits) in 1961, and Contat-II (1,840 circuits) in April, 1974. Other submarine cables in which Canada has an interest include the Pacific cable COM-PAC (80 circuits) laid in 1963, the Commonwealth SEACOM cable to Southeast Asia, the Canada-Bermuda cable, and the ICECAN cable linking Newfoundland with Green-

land and Iceland.

The Canadian Overseas Telecommunication Corporation (COTC) was set up in 1950 to establish, maintain and operate Canada's external telecommunications services. Now called TELEGLOBE CANADA, this corporation became Canada's representative on the International Telecommunications Consortium (INTELSAT) in 1964. Canada's first INTELSAT experimental satellite earth station (SES) was completed at Mill Village,

Nova Scotia, in 1966, followed by a fully commercial station at the same site in 1969. A third SES at Lake Cowichan on Vancouver Island went into service in 1974 for communications with Pacific Rim countries. A fourth SES, located north of Montreal, went into service in 1979.

Land cables have been in operation in Canada for many years. The largest capacity cable system consists of a pulse code modulation (PCM) buried coaxial cable established in 1975 on the high density 645-kilometre (400-mile) route connecting Montreal, Ottawa and Toronto. This cable system was a joint effort of a major Canadian telephone utility and a manufacturer. It is the longest digital system of its kind in the western world. The single sheath, 12-tube cable can carry a total of 20,000 equivalent voice circuits with an information capacity in excess of one billion bits per second.

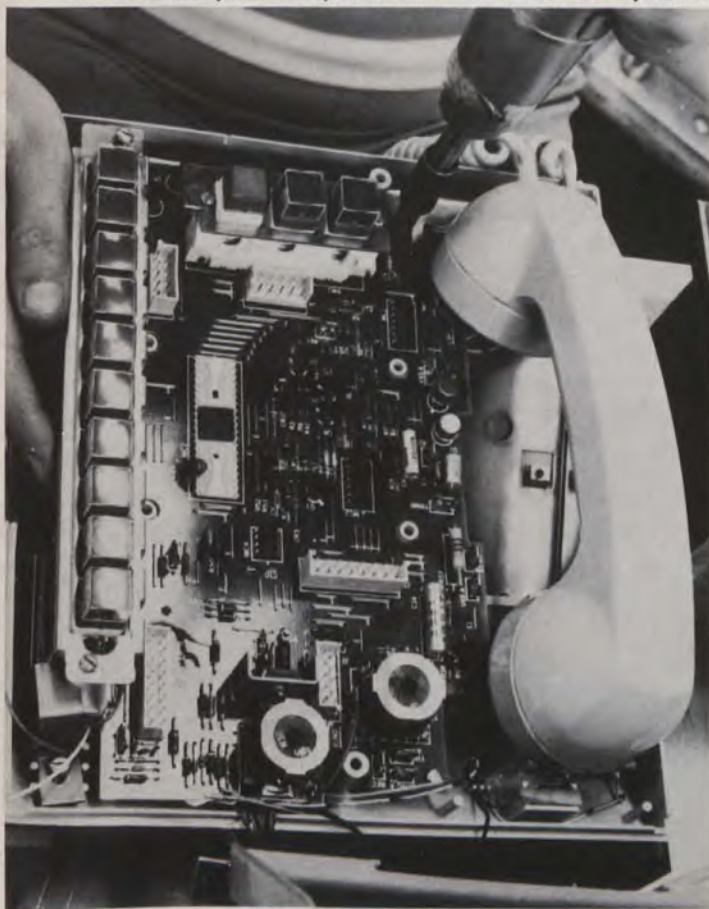

The increasing use of fiber optic systems throughout telephone companies from the subscriber's premises to long-haul, high performance toll systems will enable expansion of digital transmission at all levels.

Although data communications were effectively introduced in Canada in 1846 with

the establishment of the first telegraph system, they assumed increased importance in 1956 when CN/CP introduced the first automatic switched data service in Canada in the form of Telex. In 1962 TCTS introduced a competitive service, teletypewriter exchange service (TWX). TCTS expanded its long-distance digital data services by introducing DATAROUTE in 1973, the first system of its kind in the world, and DATAPAC in 1976. CN/CP provided INFODAT in 1974 followed by INFOSWITCH in 1977. DATAROUTE and INFODAT are nationwide digital data networks, while DATAPAC and INFOSWITCH are nationwide packet-switching data networks.

TELESAT Canada was formed on September 1, 1969, by an act of the Canadian Parliament to own and operate the Canadian domestic satellite system. With more than 100 satellite earth stations of about 14 different types and sizes ranging from large stations with 30-m (100-ft.) antennas to small transportable stations with 4.5-m (15-ft.) antennas. TELESAT now offers a wide variety of services to even the most remote areas of Canada. The initial system operates entirely at 4/6 GHz. With the introduction of

*Final assembly on a telephone terminal for business systems.*

Anik B in 1978, the system was expanded to include 12/14 GHz service for direct city-to-city downtown service. This service is particularly attractive for data communications.

It is also being used experimentally for direct-to-home television reception in remote areas. Anik B is the first commercial satellite to use both 4/6 GHz and 12/14 GHz bands. New communications capacity will be available on three Anik C series satellites scheduled for launch in 1981-83 by NASA's Space Shuttle and plans are already underway for Anik D later in the 1980s.

Another important development in communications transmission technology took place in 1978 when Canada's Department of Communications announced the development of an advanced terminal for videotex, an international generic term for interactive television technology. Called Telidon, it is capable of producing images with a much higher resolution than currently available equipment. Superiority is also exhibited in flexibility and compatibility of data bases with different terminals and capacity for future growth. A large scale installation and market trial is being planned.

*Direct reception from Anik B with this 1.2 metre earth station brings TV to Canada's north.*

### **Space Communications Systems**

Among the member states of the International Telecommunications Satellite Consortium (INTELSAT), Canada ranks tenth in terms of its spacecraft investments. Its industrial centres are linked together and to the Canadian north through the TELESAT network and to the

rest of the world through TELEGLOBE satellites. The Canadian space industry has established a high reputation for standards of excellence and is particularly respected for strengths in the innovative design and manufacture of antennas, transponders, remote manipulators and specialized spacecraft components and control subsystems.

Canadian space involvement was already substantial by 1962 with the manufacture and successful launch of the Relay satellite carrying Canadian-designed transponders, and continued through the 1960s with the Alouette and ISIS experimental satellite programs. These programs generated a wide range of new and improved subsystem designs and components. Worthy of particular mention are high-reliability electronics, tubular extendible antennas, wide-band antennas and high-power transmitters. During the early 1970s Canadian industry continued to maintain its leading role in developing space technology for

*Modem for long-haul circuits operates at 10 MHz.*

communications and remote-sensing applications. Modern plastics compositions were used for lightweight spacecraft structures. Solid-state microwave amplifiers were designed to replace more conventional components.

The world's first domestic synchronous satellite communications system was inaugurated with the launching of the first of the Anik-A series of satellites in late 1972. The three satellites of this series were launched to provide communications service to 10 million square kilometres (3.8 million square miles) of Canada.

A second generation domestic communications satellite, Anik B, was launched in late 1978. It replaced Anik A in the 4/6 GHz band and also made six 12/14 GHz channels available, some of which are being used experimentally. The pressing need for a

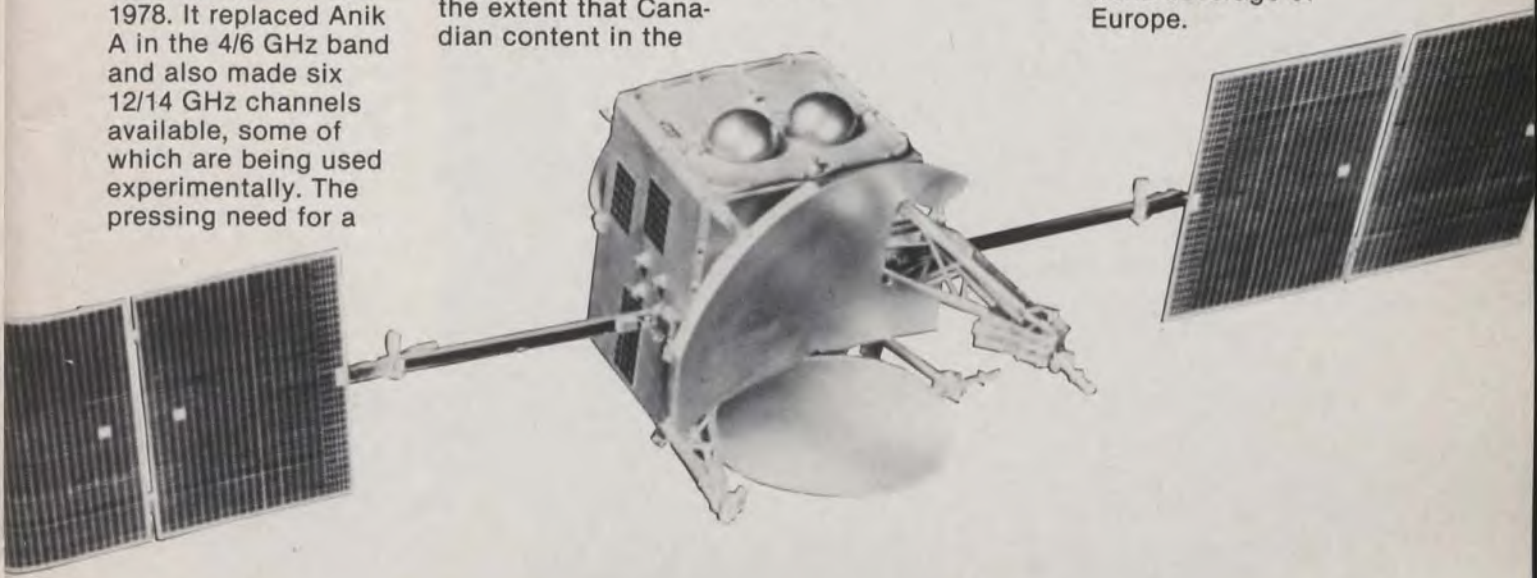

comprehensive network of data links between Canadian industrial and heavily populated areas will be further satisfied by the third generation of Anik satellites due for launch in the 1980s. Much of the development work for this new series was carried out using what was the world's most powerful communications satellite. Launched in 1976, Hermes was an experimental broadcast vehicle that completed its mission in 1979. Canada's eighth satellite, it had a solar cell supply providing 1.2 kilowatts of power and a 12 GHz transmitter with 200 watts output. Internationally, Canadian industry has cooperated in joint ventures with U.S. and European industry to the extent that Canadian content in the

form of mechanical and electronic subsystems is to be found in most of the world's commercial communications satellites. The U.S. Tracking and Data Relay Satellite Spacecraft carries essential electronic subsystems designed and manufactured in Canada.

In co-operation with the National Space Agency of the United States, Canada is developing, qualifying and manufacturing the critical Remote Manipulator System (RMS) for the Space Shuttle transportation system. RMS is a remotely-controlled mechanical arm, some 15 m (50 ft.) long with six degrees of freedom, which will be used to unload the payload from the Shuttle while in weightless orbit.

During 1976, the Canadian space industry was consolidated to create an industrial structure capable of undertaking prime contracting responsibility for a complete communications satellite. Canadian government agencies and Canadian companies are active in international space projects.

In addition to the work with NASA, Canada is an observer to the European Space Agency (ESA) and is strengthening its involvement in that agency's programs. Canada is currently taking part in the definition phase of ESA's L-SAT, a large communications satellite with a proposed 10 kw power supply, intended to provide communications coverage of Europe.

*Anik B communications satellite.*

## Fiber Optics Systems

Fiber optics have been used in communications systems in Canada since 1976 and several major trials and applications have been undertaken. Canadian industry has

a leading position in this new technology. In a residential area of Toronto some households are being used to show the practicability of the simultaneous transmission of telephone, data, and television in urban loop facilities under

working conditions. In the rural environment an extensive field trial is being co-sponsored by the Canadian Telecommunications Carriers Association and the federal Department of Communications with the cooperation of the

Manitoba Telephone System. Some 150 households in the rural community of Elie, Manitoba are involved.

A major installation that is to carry over 20,000 voice circuits is being made by Alberta Government Telephones from Calgary to a site 50 km from the city. The longest high capacity fiber optic link in the world, this installation is engineered for a 30-year life. Another important commercial installation has been made to carry video signals from the new Tele-globe earth station at Weir, Quebec to a microwave site 3.7 km away.

A project that will result in the world's longest fiber optic system has been started by Saskatchewan Telecommunications. Beginning with 200 km link between Regina and Yorkton, the system is planned to reach most major communities in the province and to extend to 3,200 km.

*Transmitter and receiver units for fiber optic systems.*

*The coaxial cable on the right can carry 36,000 one-way voice circuits: the fiber optic cable on the left can carry 500,000.*

# Transportation Electronics

## Avionics — Airborne

A wide variety of airborne equipment is produced by Canadian industry. Included are altimeters, emergency

beacons, flight data recorders, crash position indicators and aircraft instruments.

Navigation aids have been developed in Canada over many years and now include inertial guidance, doppler, area navigation, Omega and combined display systems. Projected and moving map displays are produced for both fixed-wing aircraft and helicopters. Combining the capabilities of the moving map with computer driven displays provides horizontal situation displays for advanced military aircraft.

The modern trend in aircraft navigation systems is towards the use of satellites. Therefore a Canadian capability has been developed for computer controlled, steerable, solid-state aircraft antennas.

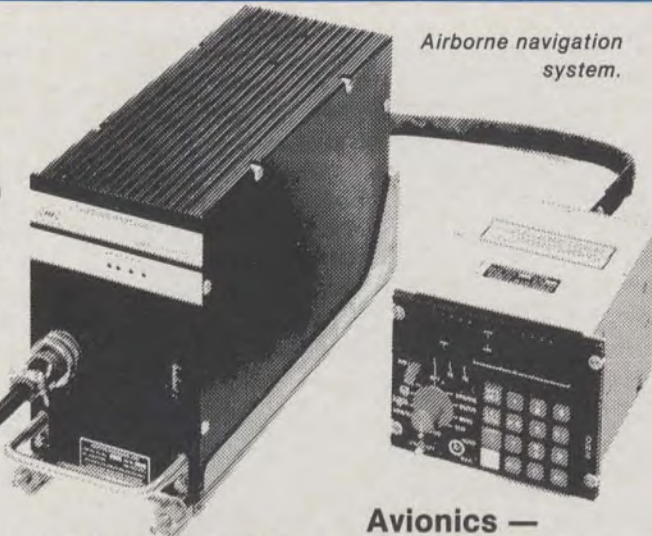

Airborne maritime requirements are being met with surveillance/

weather radar equipment, magnetic anomaly detection (MAD) and anti-submarine warfare (ASW) display systems. ASW surveillance signal processing systems have been readily accepted in British aircraft and U.S. Navy ground-based systems. Digitized TV systems being developed will meet the special requirements for multi-sensor displays and certain ASW applications.

Rising fuel costs are creating the need for systems to optimize flight envelopes and reduce fuel consumption. There are now Canadian-developed fuel management and engine thrust measurement systems (flight advisory systems) to meet these needs.

Other recently developed Canadian avionics products include annunciator systems, flat panel cockpit display systems, and computerized flight management systems.

*Airborne navigation system.*

## Avionics — Ground-Based

Complementing its capabilities in airborne electronics, Canada can supply a wide range of ground-based electronic systems for air transportation. This capability has been tested through experience in building and equipping more than 1,600 facilities ranging from Arctic airstrips to major international airports such as Mirabel

north of Montreal. The facilities installed include weather, route and airport surveillance radars, VOR (including doppler VOR), DME, ILS, and air to ground communications equipment.

Canada is also a world leader in the design and production of flight simulators for civil and military aircraft, both fixed-wing and helicopter.

Canadian industry has produced, for the Ministry of Transport, an automated air traffic control system designed to cope with the rapidly increasing density of air traffic. The system, known as JETS (joint enroute/terminal system), adopts a modular approach that allows an installation to be scaled to any requirement, with provisions for expansion as demand increases. Canadian in-

*Air-to-ground VHF transmitter and receiver.*

dustry can also supply air traffic control simulators to meet a variety of requirements.

Other electronic systems to aid in the operation of both airfields and airport terminals have also been developed. The operational information display system (OIDS) is a computer-based system that displays information on the operational status of the airfield. The flight information display system (FIDS) can provide similar information on the status of such terminal facilities as gates, baggage handling facilities, etc. A fully automated dispatch system has been developed called the airline information dispatch system (AIDS). In addition to such major systems, there are also available a number of small systems to assist in airport operations. Examples are — passenger information displays, a runway visual range system and a variety of airport security devices such as X-ray baggage scanners and explosives detectors.

## Marine

Canadian firms have developed and are producing advanced equipment in the marine electronic field. Included are sonars, sonobuoys, gyrocompasses, inertial navigation systems, auto-

*Loran C coordinate converter.*

rated ship powerplant trend analysis systems, integrated navigation and automated pilot systems, and vessel traffic management systems, all of the most modern types.

Sonars and sonobuoys detect undersea objects or measure salinity and water temperature. Marine gyrocompasses and inertial navigation systems provide ships with the same navigational facilities used by aircraft for a number of years. With the high cost of fuel there is an increasing need for automated trend analysis systems, which provide ships with the capability to "peak" the operation of diesel or steam plants under a wide variety of power settings, and to prevent costly unscheduled breakdowns by forecasting machinery failures. The application of these systems can result in fuel savings of from one to five per cent a year.

By applying computers and associated software to shipboard electronic navigation systems, it is now possible to supply integrated navigation and automated pilot systems for more efficient handling of ships, and lower skill requirements for the crews.

Vessel traffic management systems provide the same type of facilities for controlling ship movements in harbours and restricted waterways as have been used in the control of aircraft for many years. The first major Canadian

system was installed on the west coast for Vancouver and environs.

Another major vessel traffic management system will be installed shortly in the busy St. Lawrence River downstream from Quebec City.

## Mobile

An ever-increasing number of commercial and public service vehicles rely on two-way radio communication for effective operation. This involves mobile units, base stations, portables, and both mobile and fixed repeaters. Canadian industry supplies many of these needs and uses the latest technical developments in this equipment. An example of innovation in this field is a trial being conducted with a large taxi fleet using a computer-operated despatch system designed to raise the utilization of the vehicles.

*Frequency-synthesized mobile VHF transceiver.*

# Instrumentation and Process Control

Control room at a Canadian nuclear power station.

The Canadian environment has forced Canadian industry to develop highly sophisticated instrumentation, supervisory and process control techniques to locate, exploit and deliver its natural resources.

In the field of geology and mineral geophysics, Canada's mammoth size and large wilderness areas have caused Canadian industry to develop both airborne and ground-based geophysical in-

*A six-channel recorder/reproducer for transmitter logging.*

strumentation unique in the world. As new data acquisition storage and data reduction techniques become economically feasible they are being implemented to speed the cataloguing and analysis of the ever-increasing amounts of data generated. Canadian industry is the leading supplier of geological and mineral geophysical instruments and systems to the rest of the world.

Canada's vast size and relatively sparse population has also resulted in the development and use of other remote sensing techniques, instrumentation and systems to list and monitor surface resources, produce maps and carry out cadastral surveys. Canada is in the pro-

cess of implementing one of the most ambitious postal mechanization programs in the world. When the installation is completed, a minimum of 50 per cent of Canada's mail will be automatically coded and up to 90 per cent will be sorted automatically.

The demand for increased productivity has placed Canada in the forefront of process automation usage. Canadian industry has paid particular attention to re-

source processing systems, such as pulp and paper, mining, mine-mill control, gas extraction plants, and oil and gas transportation systems. For instance, Canada's two major pipelines, each of which is more than 4,000 kilometres (2,500 miles) in length, are under direct central computer control. The gas pipeline is controlled from a Toronto skyscraper while the oil pipeline is controlled from midtown Edmonton.

Distortion measuring set.

# Computing Equipment

Since the purchase of the first computer by the University of Toronto in 1952 (second in the world), Canadian institutions and industry have been closely linked with the development of computer technology. As a result, Canadian firms today are involved in the design and manufacture of an extensive variety of computer products as well as the development of advanced computer applications and the provision of the most sophisticated information processing service in the world.

Canadian manufactured computer products include mainframes, peripherals and terminal devices, data entry and retrieval equipment and word processing systems, to

name a few. Many of these products incorporate the most recent and advanced concepts in micro-circuitry and micro-computer design. Canadian companies have produced specialized terminals and equipment with built in "intelligence" for use in areas such as communications, banking and graphics.

Canadian companies have designed and developed complete computer turnkey systems for a broad range of applications. With off-the-shelf micro or mini-computers, specially designed software and interface circuitry a total system is developed for applications in areas such as business, finance and education. These systems control functions as complex as banking

transactions or as massive as the monitoring and management of electrical generating stations. With the advent of the world's first commercial digital data network in Canada, the already expanding information processing industry has mushroomed. Network member companies, called

computer service bureaux, offer the most advanced and sophisticated remote time sharing and batch processing services anywhere. In addition, the companies supply specialized software packages for any number of applications and a complete consulting service.

*Microprocessor-based data terminal.*

*A comprehensive word processor installation.*

# Other Electronic Equipment and Components

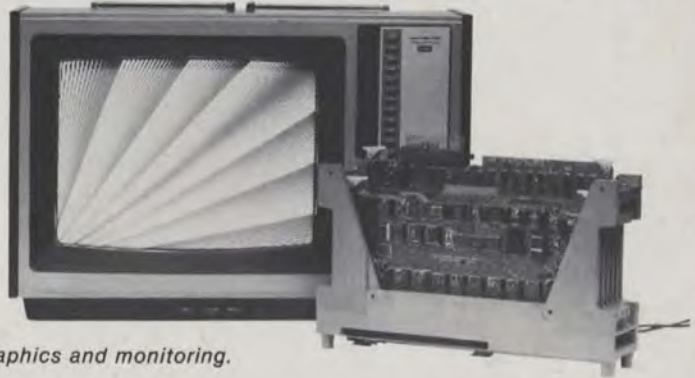

---

The preceding sections have briefly described some of the major areas of Canadian expertise available for export. In addition to these, there are a number of manufacturers who supply equipment for highly specialized requirements.

Working in co-operation with University of Toronto's Institute of Biomedical Electronics and Engineering, manufacturers have developed a wide range of electronics monitoring and diagnostic equipment which is gaining widespread acceptance in progressive medical communities.

Electronic educational and training aids are

*Electronics for color graphics and monitoring.*

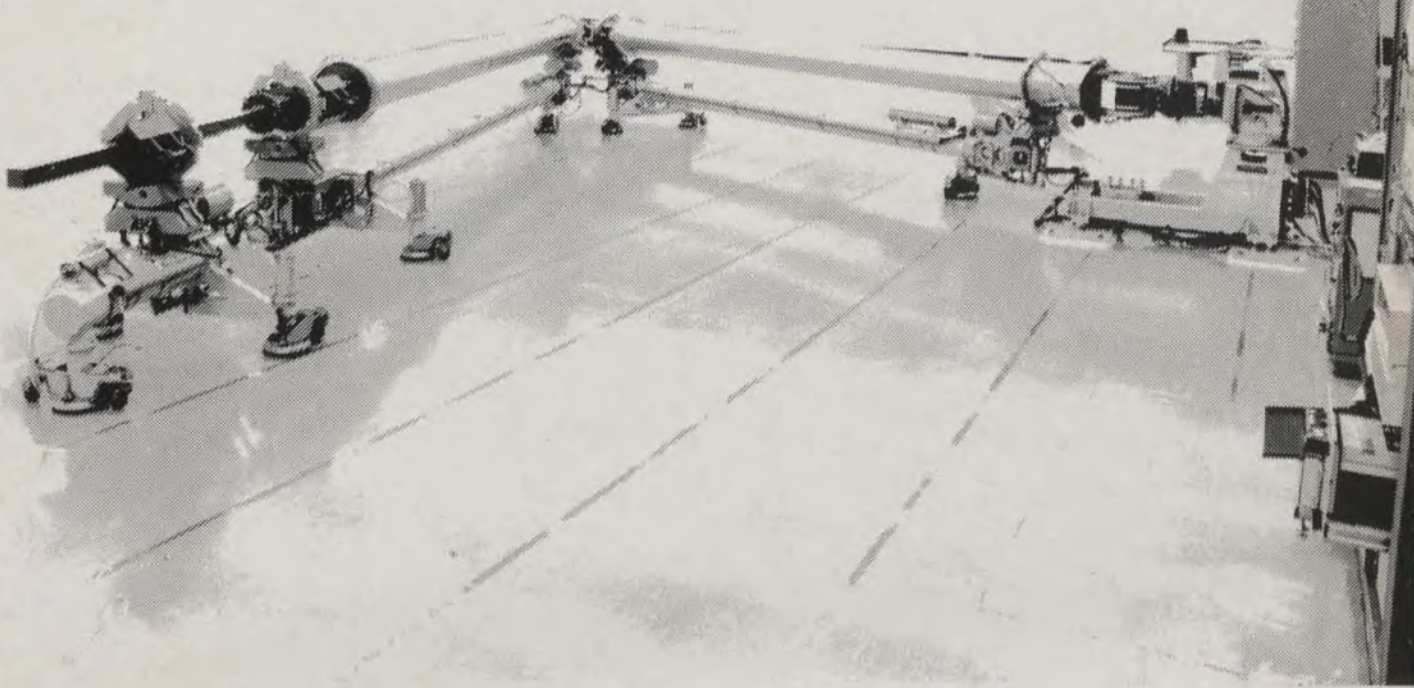

available for use in all types of educational establishments from public schools to trade training schools. Electronic sensing and control systems have been applied to a wide variety of industrial machinery and a diverse range of testing and laboratory equipment is manufactured.

The Canadian equipment industry is sup-

ported by an active group of components manufacturers who tend to specialize in excellently engineered, high technology components for specific applications. Included in such applications are space, nuclear, and the higher technology communications and industrial equipment. The military market is a major

user and many Canadian component manufacturers are qualified under the well-known MIL Standards, thus ensuring the utmost degree of reliability and quality. It is becoming standard practice for many companies to incorporate the requirements of IEC specifications into their designs.

*Remote Manipulator System for NASA's Space Shuttle.*

# Garrett's new air traffic control radios have landed!

From the world's leading manufacturer of emergency locator beacons for downed aircraft and military personnel comes the last word in air traffic control communications technology:

Garrett's new single-channel VHF/AM G-2000T transmitter and G-2000R receiver.

Designed to meet all ICAO operating requirements into the next century, *both models have already been selected by the Canadian Ministry of Transport for installation in air traffic control centers across Canada.*

And it's easy to see why.

Garrett's state-of-the-art circuitry offers exceptionally clear signal transmission and reception within

the 118-136MHz civil aviation band. While convenient front-panel access puts all controls and functions literally at your fingertips.

For example, special quick-change crystal receptacles let you change operating frequencies with minimum retuning. And, with our unique front-panel fault isolation capability and full plug-in modular design, you can pinpoint and correct

any problem within a matter of minutes.

Both Garrett's VHF transmitter and receiver are designed to match the performance standards set by our world famous Rescu 99 high-power emergency locator transmitter for airlines, and our low-temperature operation locator beacons for military personnel.

To find out just how easy our new VHF transmitter, receiver and emergency beacons fit into your plans, write: Garrett Manufacturing Ltd., 255 Attwell Drive, Rexdale, Ontario, Canada M9W 5B8. Or call: (416) 675-1411.

## Manufacturers

### **A.E.I. TELECOMMUNICATIONS (CANADA) LTD.**

419 Notre Dame Avenue  
Winnipeg, Manitoba, Canada  
R3B 1R3  
Tel: (204) 942-7221  
Telex: 07-57588  
TWX: 610-671-2581  
Cable: ASSOCELECT  
WINNIPEG

**Products:** automatic number identification (ANI) equipment for use on step-by-step or crossbar telephone switching systems.

### **AEL MICROTTEL LTD.**

108 - 4664 Lougheed Highway  
Burnaby, British Columbia,  
Canada  
V5C 5T5  
Tel: (604) 294-3274

#### **Switching and Subscriber**

**Products:** electronic (digital and analog) telephone switching equipment for local and toll offices; automated operator test and repair positions; private automatic branch exchanges (PABX's); key telephone equipment; secretarial answering units; telephones of all types; enterphone systems (building security control); engineering, furnish, installation and training services.

**Transmission Products** microwave systems in bands from 900 - 13,000 MHz up to 1,800 voice channels or colour TV capacity, complete with service channel, IF and baseband protective switching, delay equalizers, etc.; multiplex systems up to 1,800 channels, in-band or out-band signalling, regulators, termination equipment, wideband modems, echo suppressors, etc.; supervisory systems — models from 16 points/site to 3,000 points/site — LED

or colour graphic CRT displays, optional computer-based fault reporting and control; data modems from 50 b/s to 4,800 b/s; engineering, furnishing and installation of complete communication systems including civil works, towers, power, etc.

### **AES DATA LTÉE/LTD.**

570 McCaffrey Street  
Montreal, Quebec, Canada  
H4T 1N1  
Tel: (514) 341-5430  
Telex: 05-826602

**Products:** stand-alone word processing systems with editing video screen, electronic keyboard, single or dual diskette storage unit, microprocessor control unit, and automatic high-speed printer; optional communication capability.

### **AANDERAA INSTRUMENTS LTD.**

560 Alpha Street  
Victoria, British Columbia,  
Canada  
V8Z 1B2  
Tel: (604) 386-7783  
Telex: 049-7390

**Products:** water-level recorder; oceanographic instrumentation.

**Services:** data translation services, calibration facilities for oceanographic instruments.

### **ABROYD CONSTRUCTION LTD.**

Division of Dahmer Steel Ltd.  
2 Valleybrook Drive  
Don Mills, Ontario  
M3B 2S9  
Tel: (416) 444-7395  
Telex: 06-966621

**Products:** communications equipment; antennas and accessories.

### **ACME ENGINEERING PROD. LTD.**

5706 Royalmount Avenue  
Montreal, Quebec, Canada  
H4P 1K5  
Tel: (514) 342-5656  
Telex: 055-60546

**Products:** carbon monoxide detection and control units and systems.

### **ADAPTIVE MICROELECTRONICS LTD.**

P.O. Box 7068, Station A  
Toronto, Ontario, Canada  
M5W 1X7  
Tel: (416) 881-4112  
Cable: ADMICL TORONTO

**Products:** OEM of energy-management and building-control systems; environmental sensors; lifesafety and property-protection multiplex alarm systems; analog and digital signal multiplexers and controllers; data transceivers; equipment interfaces; remote and central processing units; support software.

**Services:** energy management, environmental control, building security and protection alarm systems; feasibility studies, building analyses, systems configuration, installation, systems commissioning and maintenance.

### **AERO AQUA INC.**

850 Magnetic Drive  
Downsview, Ontario, Canada  
M3J 2C4  
Tel: (416) 661-5960 or 630-8321  
Telex: 065-24747

**Products:** meteorological instrumentation, including Mini-sonde system and self-contained remote weather station (MATER).

**AHEARN & SOPER LTD.**

31 Enterprise Road  
Rexdale, Ontario, Canada  
M9W 1C4

Tel: (416) 245-4848  
Telex: 06-965-770

**Products:** interactive terminals.

**AIRCRAFT APPLIANCES & EQUIPMENT LTD.**

152 East Drive  
Bramalea, Ontario, Canada  
L6T 1E1

Tel: (416) 791-1666  
Telex: 069-7540  
TWX: 610-492-4396

**Products:** tachometer generators; voltage regulators; liquid level sensors; auxiliary power units, gasoline-engine and diesel-engine-driven generator sets to 60 kW; solid-state sign flashers; synchronous motors.

**ALLEN BRADLEY CANADA LTD.**

135 Dundas Street  
Cambridge, Ontario, Canada  
N1R 5X1

Tel: (519) 623-1810  
Telex: 069-59317

**Products:** relays, including electromechanical; starters, timers, contactors, pilot devices, switches.

**ALMA INDUSTRIES LTD.**

61 Needham Street  
Lindsay, Ontario, Canada  
K9V 4Z7

Tel: (705) 324-5100

**Products:** piezoelectric ceramic element for sonobuoys; sonar and depth-sounding devices; piezoelectric ceramics for ultrasonic applications; ultrasonic generators; microwave filters; powders for piezoelectric ceramic fabrication; special application ceramics; high-purity and high-density alumina ceramics.

**AMBER ELECTRO DESIGN LTD.**

4810 Jean Talon West

Suite 403  
Montreal, Quebec, Canada  
H4P 2N5  
Tel: (514) 735-4105

**Products:** test, laboratory and measuring equipment, including signal generators, spectrum analyzers, dB meters, distortion meters and plotters; frequency counters.

**AMERACE LTD.**

10 Esna Park Drive  
Markham, Ontario, Canada  
L3R 1E1

Tel: (416) 495-6000  
Telex: 06-986807

Cable: AMERACE MHKM-TORONTO

**Products:** timing devices—electropneumatic and solid state.

**AMPEX CANADA LTD.**

132 East Drive  
Bramalea, Ontario, Canada  
L6T 3T9

Tel: (416) 791-3100  
Telex: 06-97627

**Products:** video impulse distribution amplifiers for television studio and CATV applications.

**AMPHENOL NORTH AMERICA**

Bunker Ramo Canada, Inc.  
44 Metropolitan Road  
Scarborough, Ontario, Canada  
M1R 2T9

Tel: (416) 291-4401  
TWX: 610-492-4379

**Products:** filtered power connectors; printed circuit connectors; power connectors; RF cable; CATV cables and connectors; RF connectors; bracket panel connectors; DK whip antenna (mobile communications); tube sockets; telephone components; customized cable harnesses; complete product development and tool room facilities.

**AMPLITROL ELECTRONICS LTD.**

51 Marie-Victorin Boulevard

Candiac, Quebec, Canada  
J5R 1B7

Tel: (514) 659-9111  
Telex: 05-27350

Cable: AMTREC, MONTREAL

**Products:** electronic high-security systems for financial institutions' vaults and safes.

**ANATEK ELECTRONICS LTD.**

240 Brooksbank Avenue  
North Vancouver, British Columbia, Canada  
V7J 2C1

Tel: (604) 980-7061  
Telex: 043-52689

**Products:** power supplies; laboratory type, modular type, and for original equipment manufacturers.

**ANALYTIC SYSTEMS WARE LTD.**

1501 East Pender Street  
Vancouver, British Columbia, Canada

V5L 1V9

Tel: (604) 251-3234

**Products:** military and commercial power supplies.

**ANDREW ANTENNA CO. LTD.**

606 Beech Street  
Whitby, Ontario, Canada  
L1N 5S2

Tel: (416) 668-3348  
Telex: 069-81269

Cable: ANDCORP WHITBY

**Products:** microwave antennas for all commercial and military bands both standard and high performance; satellite earth station antennas for both synchronous and non-synchronous satellites; coaxial Heliac (R) transmission line, air dielectric and foam dielectric; Heliac elliptical waveguide for frequencies from 1.7 GHz to 15.3 GHz; rigid coaxial transmission lines and waveguides; air pressurizing equipment and accessories; scatter propagation antennas; military antennas and

transmission lines both tactical and strategic; custom-built radar antennas; navigational aid antennas; coaxial leaking feeder systems for underground communications or for buried detection systems.

**Services:** installation and field services relating to antenna systems.

**ANRO ELECTRONIC INDUSTRIES LTD.**

300 Wildcat Road  
Downsview, Ontario, Canada  
M3J 2N5  
Tel: (416) 661-2600  
Telex: 065-24001

**Products:** solenoids; toroids; timers; miniature low-pressure switches; various custom electronic components.

**APEX PARAMETRICS LTD.**

200 Steelcase Road East,  
Unit 4,  
Markham, Ontario, Canada  
L3R 1G2  
Tel: (416) 495-1612  
Telex: 06-966773 NORDVIK TOR  
Cable: APEXPARA TORONTO

**Products:** ground electromagnetic survey systems, single-frequency and multi-frequency.

**APPLETON ELECTRIC LTD.**

750 Lawrence Street  
Cambridge, Ontario, Canada  
N3H 2N1  
Tel: (519) 653-2581  
Telex: 069-59396

**Products:** control systems for machine tools and general industrial applications.

**APPLIED MICROSYSTEMS LTD.**

769 Lily Avenue  
Victoria, British Columbia,  
Canada  
V8X 3R7  
Tel: (604) 479-8034

**Products:** oceanographic and geophysical instrumentation.

**APTEC ENGINEERING LTD.**

4251 Steeles Avenue West  
Downsview, Ontario, Canada  
M3N 1V7  
Tel: (416) 661-9722  
Telex: 06-965819

**Products:** nuclear radiation detectors; geiger mueller counters; hyperpure germanium detectors; nuclear electronics; fixed gamma area monitors, liquid effluent monitors, hand and foot personal contamination monitors; alpha-beta-geiger counters.

**ARMOR ENCLOSURES**

105 Brisbane Road  
Downsview, Ontario, Canada  
M3J 2K6  
Tel: (416) 663-5670  
TWX: 610-492-1337

**Products:** sheet-metal cabinets designed in the modular concept for data processing, computer, telecommunications, for the electrical and electronic industry.

**ASCOLECTRIC LTD.**

P.O. Box 160  
Brantford, Ontario, Canada  
N3T 5M8  
Tel: (519) 576-5287  
Telex: 061-81149

**Products:** electronically controlled transfer switches; power-supply monitors; diesel-engine starting panels; synchronizing equipment.

**AUDIO TRANSFORMER CO. LTD.**

P.O. Box 220  
202 Regina Street North  
Waterloo, Ontario, Canada  
N2J 3Z9  
Tel: (519) 885-4510

**Products:** laminated iron core transformers.

**AUDIOTRONICS ENTERPRISES LTD.**

631 Fort Street  
Victoria, British Columbia,

Canada  
V8W 1G1  
Tel: (604) 385-0911

**Products:** portable strobe markers for buoys or construction warning displays; gas detectors for marine use.

**AUDOR COMMUNICATIONS INC.**

2700 Lancaster Road  
Ottawa, Ontario, Canada  
K1B 4T7  
Tel: (613) 523-9933  
Telex: 053 3172 AC1 Ott

**Products:** ground-based aviation communication systems; air navigation systems.

**AUTOMATEC**

A division of BG Checo International Ltd.  
7700 De Lamartine  
Montreal, Quebec, Canada  
H1J 2A8  
Tel: (514) 353-8940  
Telex: 05-828723

**Products and services:** data acquisition and processing; supervisory control equipment (microprocessor based); annunciators; power-line carrier equipment; trip-alarm relaying equipment (teleprotection); process control systems (microprocessor based); interface systems; emergency lighting; rolling-stock lighting (static inverter ballast); static power inverters and converters; fare-control systems; magnetic ticket readers; maintenance, repair and modernization of electronic systems; sequence-of-events recorders; flux control circuit for current transformers.

**AUTO-VOX INC.**

485 Boulevard Langelier  
Quebec, Quebec, Canada  
G1K 5P3  
Tel: (418) 529-9271

---

---

**Products:** intercom systems; public address systems; telephone equipment (PAX); electronic-design long-distance control unit.

**AVIATION ELECTRIC LTD.**

P.O. Box 2140  
200 Laurentien Boulevard  
St. Laurent, Quebec, Canada  
H4L 4X8  
Tel: (514) 744-2811  
Telex: 05-826688  
Cable: AVIATION-MONTREAL

**Products:** land navigation systems; vehicle-position reporting systems; aircraft gas-turbine fuel-control systems; aircraft instruments and flight-system components; repair and overhaul of aircraft instruments, accessories, and navigational aids; airborne radar electrical connectors.

**AVIONICS CO.**

A subsidiary of Leigh Instruments Ltd.  
P.O. Box 200  
Niagara-on-the-Lake, Ontario, Canada  
L0S 1J0  
Tel: (416) 468-3632

**Products:** printed circuit boards; terminal boards; silk screening and precious-metal plating; designs and assemblies circuit boards to customer specifications.

**B&K PLASTICS INDUSTRIES LTD.**

9790 Meunier Street  
Montreal, Quebec, Canada  
H3L 2Y8  
Tel: (514) 384-5560  
Telex: 05-826511

**Products:** electronic hardware, including knobs, escutcheons, nameplates.

**Services:** custom moulding, vacuum plating.

**BACH-SIMPSON LTD.**

P.O. Box 5484  
1255 Brydges Street  
London, Ontario, Canada  
N6A 4L6  
Tel: (519) 452-3200  
Telex: 064-5843  
Cable: WILBAC

**Products:** panel meters; control instruments; shunts and current transformers; portable electrical and electronic test equipment; medical diagnostic Doppler ultrasound meters, digital panel meters.

**BAILEY METER CO. LTD.**

205 Brunswick Boulevard  
Pointe Claire, Quebec, Canada  
H9R 1A5  
Tel: (514) 697-6770  
Telex: 05-821526  
Cable: BAILYCANDA

**Products:** pneumatic and electronic products for metering and control systems, digital sequencing systems, data acquisition systems and commissioning assistance for power and process industries.

**BARRINGER RESEARCH LTD.**

304 Carlingview Drive  
Rexdale, Ontario, Canada  
M9W 5G2  
Tel: (416) 675-3870  
Telex: 06-968743  
Cable: BARESEARCH  
TORONTO

**Products:** geophysical instruments (magnetometers, EM); airborne and ground instruments and geochemical systems; program participation and management-consulting and contracting-laboratory analyses; ground and airborne pollution detection instruments and heavy water loss detectors; ground and airborne pollution monitoring, contract research and development, electro-optics, systems engineering.

**BATTEN GRAPHICS LTD.**

553 Richmond Street West  
Toronto, Ontario, Canada  
M5V 1Y6  
Tel: (416) 863-1355

**Products:** lead frames, discs, filters, screens, masks and other photo-etched custom parts.

**Services:** chemical milling of a wide variety of metals, brass, copper, stainless steel, Alloy 42 Kovar Hy Mu 80 in thickness from .001 in. to .040 in.

**BAYLY ENGINEERING LTD.**

A Member of the AEG-TELEFUNKEN group  
167 Hunt Street  
Ajax, Ontario, Canada  
L1S 1P6  
Tel: (416) 683-8200  
Telex: 06-981293

**Products:** coaxial transmission systems; multiplex systems; open-wire carrier systems; analog and digital, mono and stereo program channels (STLs); conference networks; telecommunications amplifiers, attenuators, termination sets, timers, flashers, vox units, and telephone ringing/signalling equipment; electronic filters, equalizers, transformers, repeat coils, loading coils and hybrids; remote control/supervisory and tone signalling systems and equipment; power line carrier and frequency shift tone equipment; RF coaxial load resistors; RF wattmeters; telephone and coaxial jacks, plugs and adapters; VHF/FM broadcast transmitters; FM two-way mobile radio systems; secondary surveillance radar; direction-finding equipment; postal mechanization equipment for flat mail sorting; custom design and contract manufacturing.

**BAYTRONIX LTD.**

4006 Côte Vertu

---

Montreal, Quebec, Canada  
H4R 1V4  
Tel: (514) 336-9240  
Cable: BAYTRON MONTREAL

**Products:** medical and biomedical instrumentation for teaching and research; electronic test instrumentation for laboratory and communications applications.

**BECKMAN INSTRUMENTS INC.**  
Helipot Division  
901 Oxford Street  
Toronto, Ontario, Canada  
M4Z 1L7  
Tel: (416) 251-5251  
TWX: 610-492-1301

**Products:** precision multi-turn and single-turn potentiometers; trimming potentiometers; electro-mechanical assemblies to custom design.

**BEEL CONTROLS LTD.**  
2650 Pitfield Boulevard  
St. Laurent, Quebec, Canada  
H4S 1G9  
Tel: (514) 334-6500  
Telex: 05-826501  
Cable: BEELCON

**Products:** DC thyristor adjustable-speed drives; rectifier power supplies; static AC power controllers for heaters, and induction motors.

**BOMEM INC.**  
910 Place Dufour,  
Ville de Vanier, Quebec,  
Canada  
G1M 3B1  
Tel: (418) 683-1707

**Products:** interferometers and Fourier Transform spectrometers.

**BOSTON INSULATED WIRE & CABLE CO. LTD.**  
118 Shaw Street  
Hamilton, Ontario, Canada  
L8L 7V3  
Tel: (416) 529-7151

**Products:** cable assemblies for TV cameras and computers; cables for microwave in satellite earth stations.

**BRISTOL AEROSPACE LTD.**  
P.O. Box 874  
Winnipeg, Manitoba, Canada  
R3C 2S4  
Tel: (204) 775-8331  
Telex: 03-5587  
TWX: 610-671-3598  
Cable: BRISAIRCO

**Products:** rocket telemetry and control systems (for scientific soundings and meteorological data acquisition) — VHF telemetry transmitters; voltage controlled subcarrier oscillators; voltage regulators; IRIG standard commutators; magnetometers; aspect measuring systems; vehicle telemetry antennas; electronic timers; modular data acquisition systems (pollution, meteorology, hydrology, oceanography, etc.); encoders and decoders; teletype formatters; remote and master control stations (manual and automatic); analog-to-digital and digital-to-analog converters; modems (RF or hard line); data processing; satellite telemetry equipment — PCM encoders and decoders; switching units; remote controlled nuclear heat exchanger tube inspection systems and instrumentation — eddy current instruments, data communications, micro-processor control systems, automatic tube selection devices, display consoles; wind power conversion systems for remote locations — vertical axis turbines, low speed alternators, control systems, power systems.

**BROWN BOVERI CANADA LTD.**  
Systems Division  
4000 Trans Canada Highway  
Pointe Claire, Quebec, Canada  
H9R 1B2  
Tel: (514) 697-6210  
Telex: 058-21542

**Products:** overhead ground-wire power supplies; control equipment for power supplies in utilities and subways; telephone carrier systems.

**BURGESS BATTERY (CANADA) INC.**  
20 Densley Avenue  
Toronto, Ontario, Canada  
M6M 2R1  
Tel: (416) 364-6141  
Telex: 061-5320

**Products:** batteries — power package; also special batteries for submarine-detection equipment.

**BURGESS SWITCH CO. LTD.**  
777 Warden Avenue  
Scarborough, Ontario, Canada  
M1L 4C3  
Tel: (416) 751-8280  
Telex: 06-963582

**Products:** switches, including illuminated, limit, micro, proximity, pushbutton, safety, snap-action, solid-state.

**BURNDY INC.**  
Components Division  
80 Bullock Drive  
Markham, Ontario, Canada  
L3P 3P7  
Tel: (416) 294-6634  
Telex: 06-22574

**Products:** electrical and electronic connectors and wiring accessories including PC connectors, IC sockets, rack and panel connectors, circular connectors; crimp terminals, cable ties and clamps, coaxial ferrules, installation tooling; bolted and compression power connectors for aluminum and copper conductors.

**BURROUGHS BUSINESS MACHINES LTD.**  
801 York Mills Road  
Don Mills, Ontario, Canada  
M3B 1X8  
Tel: (416) 445-4030  
Telex: 07-57398

**Products:** disk cartridge drivers for data-processing systems.

**CAE ELECTRONICS LTD.**

P.O. Box 1800  
St. Laurent, Quebec, Canada  
H4L 4X4  
Tel: (514) 341-6780  
Telex: 05-827812  
TWX: 610-422-3063

**Products:** commercial aircraft flight simulators; military aircraft flight and tactical simulators; helicopter flight and tactical simulators; nuclear power station simulators; computerized air traffic control display systems; airborne magnetic anomaly detection and compensator systems for ASW applications; supervisory control and data acquisition systems for electric power and petroleum industries; field maintenance, repair and overhaul, test and calibration services and facilities.

**CTF SYSTEMS INC.**

1750 McLean Avenue, Suite 15  
Port Coquitlam, British Columbia, Canada  
V3C 1M9  
Tel: (604) 941-8561

**Products:** high-sensitivity magnetometer for scientific and survey applications; digital decompression calculator for diver support purposes; ultrasonic non-destructive testing equipment for ship boilers, magnetocardiogram.

**CTS OF CANADA LTD.**

80 Thomas Street  
Streetsville, Ontario, Canada  
L5M 1Y9  
Tel: (416) 826-1141  
Telex: 06-97508

**Products:** static inverters; uninterruptible power supply systems including start-up assistance; DC-DC (static) converters; static frequency converters; battery chargers;

rectifier-power supplies; variable resistors; selector switches; trimming potentiometers; crystals; filters; rectifiers; inverters; micro-miniature components and circuit packages.

**CALGARY CONTROLS LTD.**

7056 H. Farrell Road, South East  
Calgary, Alberta, Canada  
T2H 0T2  
Tel: (403) 253-6101

**Products:** hand-held transceiver used on railway lines, can be used on data lines without interfering with data transmission.

**CALIFONE INDUSTRIES LTD.**

1305 Odium Drive  
Vancouver, British Columbia, Canada  
V5L 3M1  
Tel: (604) 254-5148  
Telex: 04-54521

**Products:** tape recorders, listening centres and record players for educational institutions and industry.

**CANADA WIRE AND CABLE CO. LTD.**

147 Laird Dr.,  
Toronto, Ontario, Canada  
M4G 3W1  
Tel: (416) 421-0440

**Products:** fibre optics products for telephone, CATV and control systems applications.

**CANADIAN APPLIED TECHNOLOGY**

A Division of Arrowflight Holdings Ltd.  
Buttonville Airport  
16th Avenue  
Markham, Ontario, Canada  
L3P 3J9  
Tel: (416) 297-4681  
Telex: 06-986511

**Products:** telemetry system (digital mini-computer con-

trolled); hydrographic data acquisition system; oceanographic survey data acquisition system; airborne geophysical survey system; air quality telemetry system; mobile air quality survey system; telemetry system (tone); data recorder (DC300A); data averager; micro-processor hydrographic data acquisition system.

**CANADIAN ASTRONAUTICS LTD.**

1024 Morrison Drive  
Ottawa, Ontario, Canada  
K2H 8K7  
Tel: (613) 820-8280

**Products:** custom designed electronic systems including: instrumentation systems; test facilities; display and control units; data acquisition systems; RF transmitters and receivers; antennas; battery chargers and management systems; signal processors; computer interfaces; micro-processor applications; satellite ground stations; airborne radar.

**CANADIAN GENERAL ELECTRIC CO. LTD.**

940 Landsdowne Avenue  
Toronto, Ontario, Canada  
M6H 3Z4  
Tel: (416) 534-6511  
Telex: 02-2057

**Products:** traffic control equipment; controllers, signals and accessories.

**CANADIAN GENERAL ELECTRIC CO. LTD.**

100 Wingold Avenue  
Toronto, Ontario, Canada  
M6B 1R2  
Tel: (416) 789-3281  
Telex: 06-524238

**Products:** mobile radio communications equipment.

---

**CANADIAN GENERAL  
ELECTRIC CO. LTD.**

107 Park Street North  
Peterborough, Ontario, Canada  
K9J 7B5  
Tel: (705) 742-7711  
Telex: 02-9826

**Products:** static power conversion equipment; control and regulators for DC and AC motors, drive systems and industrial processes; static digital logic systems; design and manufacture of control instrumentation of nuclear power plants; high current semiconductors, diodes and thyristors.

**CANADIAN GENERAL  
ELECTRIC CO. LTD.**

TV Equipment  
396 Attwell Drive  
Rexdale, Ontario, Canada  
M9W 5C3  
Tel: (416) 675-7500  
Telex: 06-219714

**Products:** television broadcast transmitters, antennas and filters.

**CANADIAN DIGITAL EXPRESS  
CO.**

5 Denison Street  
Markham, Ontario, Canada  
L3R 1B5  
Tel: (416) 495-1855

**Products:** terminal options; process control equipment.

**Services:** in-shop repair service for data communication equipment, including terminals, modems and printers.

**CANADIAN MARCONI CO.**

2442 Trenton Avenue  
Montreal, Quebec, Canada  
H3P 1Y9  
Tel: (514) 341-7630  
Telex: 01-2260  
TWX: 610-421-3564  
Cable: ARCON MONTREAL

**Products:** full range of fixed, mobile and portable radio communications equipment in

HF/SSB, VHF/FM and UHF/FM; marine radar and communications; tactical microwave radio relay; microwave voice and data communications systems; Doppler navigation systems for fixed and rotary wing aircraft; airborne and marine OMEGA navigation systems; aircraft instrument display systems; helicopter navigation radar; land-based and marine satellite navigation and position location systems; Telex exchanges, photogrammetric systems, surveillance radar, multilayer printed wiring boards; thin film, thick film and hybrid microcircuits; delay lines; filters; transformers.

**CANADIAN PUREGAS EQUIP-  
MENT LTD.**

Box 533  
Hamilton, Ontario, Canada  
L8N 3K5  
Tel: (416) 529-7047  
Telex: 061-8377

**Products:** telecommunications equipment, including devices for monitoring pressurized cables and pressurized microwave antennas; ultrasonic cable-leak detectors.

**CANADIAN RESEARCH  
INSTITUTE**

Division of Criterion  
Instruments Ltd.  
85 Curlew Drive  
Don Mills, Ontario, Canada  
M3A 2R2  
Tel: (416) 445-6363

**Products:** educational instruments; research apparatus; high-voltage test sets; panel and portable meters; school instruments; demonstration apparatus; geophysical instruments; public utility instrumentation; pollution instruments; pH meters and controllers; power supplies; electromedical instruments; television test apparatus.

**CANADIAN STACKPOLE LTD.**

550 Evans Avenue  
Toronto, Ontario, Canada  
M8W 2V6  
Tel: (416) 255-2373  
Telex: 06-967730

**Products:** isolated power systems; line isolation monitors; biomedical electrical testers; accessories for hospital electrical systems; prefabricated service walls for intensive or patient care; medical gas and electrical wall consoles.

**CANADIAN THERMOSTATS &  
CONTROL DEVICES LTD.**

2255 Dandurand Street  
Montreal, Quebec, Canada  
H2G 1Z6  
Tel: (514) 270-7135  
Telex: 05-25277

**Products:** moxie solid-state temperature sensors; thin-film thermistors; circuit high-temperature protectors; thermistor probes; solid-state monitoring and control systems, bimetallic thermostats, thermal cut-offs.

**CANADIAN R.G. ELECTRON-  
ICS LTD.**

34 Continental Place  
Scarborough, Ontario, Canada  
M1R 2T4  
Tel: (416) 292-2286  
Telex: 06-525248

**Products:** modular multiplexing equipment and systems, particularly System 745 custom-fit data acquisition system for automatic tank-level gauging.

**CANSTAR COMMUNICATIONS**

Division of Canada Wire &  
Cable Co. Ltd.  
1240 Ellesmere Road  
Scarborough, Ontario, Canada  
Tel: (416) 293-9722  
Telex: 065-25403

**Products:** fibre-optic cable, fibre-optic components; electro-optic modems; fibre-

---

optic test equipment; complete design, installation, and servicing of fibre-optic systems.

**CANWIRCO**

Belleville Division  
200 Jamieson Bone Road  
Box 4700  
Belleville, Ontario, Canada  
K8N 5E2  
Tel: (613) 966-4130  
TWX: 610 328 3240

**Products:** field telephone cable for military use.

**CENTAUR MFG. CO. LTD.**

57 Newkirk Road  
Richmond Hill, Ontario, Canada  
L4C 3G4  
Tel: (416) 884-6474

**Products:** ignition systems, ignition analyzers, including tach-dwell analyzers.

**CENTRAL DYNAMICS LTD.**

147 Hymus Boulevard  
Pointe Claire, Quebec, Canada  
H9R 1G1  
Tel: (514) 697-0811  
Telex: 05-821506  
TWX: 610-422-3906

**Products:** video terminal equipment for broadcast, educational and cable television systems, available in NTSC, PAL, PAL-M and SECAM standards; video production and distribution switchers, master control (presentation) switchers, machine control systems and peripheral equipment; automated television presentation systems and video tape editors; electronic information display systems.

**CENTRAL ELECTRO  
TECHNIQUE**

2495 Dalton  
Ste. Foy, Quebec, Canada  
G1P 3S5  
Tel: (418) 659-1111  
Telex: 065-24285

**Products:** supervisory control equipment and data-acquisition

systems, microprocessor-based to tie into digital computer; environment instrumentation and monitoring equipment; traffic-control systems; supervisory controls for VOR; multiplex equipment, used as part of a reservations network; monitoring equipment for power-distribution companies.

**Services:** electronic design; engineering and drafting; product design and development.

**CENTRODYNE CORP.**

9145 Charles-de-Latour, Suite 4  
Montreal, Quebec, Canada  
H4N 1M3  
Tel: (514) 381-9308

**Products:** programmable printer; automatic process control system; billiard computer; bowling computer; electronic taximeter.

**CENTURY III ELECTRONICS,  
INC.**

1580 Rand Avenue  
Vancouver, British Columbia,  
Canada  
V6P 3G2  
Tel: (604) 263-0911  
Telex: 04-55490

**Products:** cable television equipment 5-300 MHz consisting of Century II trunkline; distribution and apartment amplifiers; VHF/UHF multi-taps; VHF splitters; couplers and related passive devices; AC power supplies; co-axial connectors; terminators; adaptors; consulting services on cable television systems.

**CERCAST INC.**

3905 Industrial Boulevard  
Montreal, Quebec, Canada  
H1H 2Z2  
Tel: (514) 322-2371  
Telex: 05-25318

**Products:** precision investment castings of non-ferrous alloys.

**CETA LEARNING SYSTEMS**

452 Kraft Road  
Fort Erie, Ontario, Canada  
L2A 4M7  
Tel: (416) 871-4260  
Cable: CETACAN

**Products:** electronics and electricity learning systems (experimental breadboarding apparatus); power supplies; laboratory equipment; inductors; radio frequency (RF) coils.

**CHALLENGER ELECTRONICS**

Division of Challenger  
Equipment Ltd.  
P.O. Box 82010  
Burnaby, British Columbia,  
Canada  
V5C 5P3  
Tel: (604) 291-8272  
Telex: 04-354713  
TWX: 610-929-2042

**Products:** tone signalling encoders and decoders; single-tone, two-tone sequential or simultaneous, dual-tone multi-frequency encoders and decoders; digital decoders; voltage regulators; radio telephone interconnect terminals.

**Products:** printed circuit boards.

**CHION CORP.**

P.O. Box 1600  
Edmonton, Alberta, Canada  
T5J 2N9  
Tel: (403) 432-0597

**Products:** compiler for translation of ALGOL 68 computer language.

**CHLORIDE SYSTEMS  
(CANADA) LTD.**

4940 Bourg Street  
Montreal, Quebec, Canada  
H4T 1J2  
Tel: (514) 735-2573  
Telex: 05-826862

**Products:** DC power supplies for communications equipment, including power inverters; emergency lighting equipment.

---

---

**CHUBB SECURITY SYSTEMS**

A Division of Chubb  
Industries Ltd.  
80 Horner Avenue  
Toronto, Ontario, Canada  
M8Z 4X9  
Tel: (416) 252-4141  
Telex: 06-97570

**Products:** alarm control systems.

**CIRCO-CRAFT COMPANY INC.**

1080 Port Royal West  
Montreal, Quebec, Canada  
H4H 1E9  
Tel: (514) 336-4570  
Telex: 05-826659

**Products:** printed circuit boards, medium-to-high-quality and military types.

**CIRCUIT DESIGN CORP.**

1385 Mazurette St., Suite 1  
Montreal, Quebec, Canada  
H4N 1G8  
Tel: (514) 382-1440

**Products:** programmable printer, automatic process-control system, billiard computer and bowling computer.

**Services:** micro-mini computer-system consulting; software-firmware custom services.

**CIRCUIT GRAPHICS LTD.**

8030 Winston Street  
Burnaby, British Columbia,  
Canada  
V5A 2H5  
Tel: (604) 420-3313

**Products:** printed circuits, plated through holes and single-sided.

**COLLBEN MANUFACTURING CO.**

5 Thorpe Street North  
Dundas, Ontario, Canada  
L9H 1K2  
Tel: (416) 628-6913

**Products:** antennas — receiving, CB and mobile, VHF and FM.

**COM DEV LTD.**

155 Sheldon Drive  
Cambridge, Ontario, Canada  
N1R 7H6  
Tel: (519) 622-2300  
TWX: 610-366-3164

**Products:** communications satellite components and subsystems: frequency bands from 100 to 40,000 MHz; filters, multiplexers, couplers, ferrite circulators and isolators, adaptors, terminations; high power microwave components and subsystems for earth terminals: diplexers, loads, combining networks, ferrite devices, couplers; microwave components and subsystems for terrestrial relay and radar systems from 1000 to 26,000 MHz; broadcast products: VHF and UHF antennas, combiners and filterplexers for transmission of TV and FM radio.

**Services:** studies and tradeoff analysis undertaken on satellite transponders, high power combining and switching of earth terminals and related areas.

**COMMERCIAL ELECTRONICS LTD.**

1335 Burrard Street  
Vancouver, British Columbia,  
Canada  
V6Z 1Z7  
Tel: (604) 669-5525  
Telex: 04-54470

**Products:** multi-media control systems for theatres, discotheques, exhibition centres, planetariums, museums etc.

**COMMUTRON LTD.**

1600 Brimley Road  
Scarborough, Ontario, Canada  
M1P 3H1  
Tel: (416) 291-2733

**Products:** automatic telephone-call sequencer.

**COMPTEC INTERNATIONAL LTD.**

7847 Venture Street  
Burnaby, British Columbia,  
Canada  
V5A 1V1  
Tel: (604) 420-2830  
Telex: 04-354548

**Products:** switch components, including keytops, switch tops, moulds, plungers, plastic and ejection-moulded components.

**COMPUTER ASSEMBLY SYSTEMS LTD.**

75 California Avenue  
Brockville, Ontario, Canada  
K6V 5Y6  
Tel: (613) 342-5041  
Telex: 066-36574

**Services:** printed circuit board assembly, using manual and automated facilities.

**COMPUTING DEVICES CO.**

A Division of Control Data  
Canada Ltd.  
P.O. Box 8508  
Ottawa, Ontario, Canada  
K1G 3M9  
Tel: (613) 596-3810  
Telex: 053-4139  
TWX: 610-563-1632

**Products:** navigation including projected map systems and displays; signal processing associated with airborne systems and displays; acoustic processing associated with ocean systems; fire control associated with fixed and mobile fire-control systems; image processing and analysis; sensor data processing; artillery, tank and other specialized computers; special control displays; automated test equipment; guided radar surveillance system using Guidar guided radar sensor for lengthy outdoor perimeters; thrust computing systems associated with aircraft jet

engines; field engineering and maintenance services.

**CONIAGAS RESEARCH INC.**

166 Pearl Street  
Toronto, Ontario, Canada  
M5H 1L3  
Tel: (416) 597-0969

**Products:** "Coni-Mag" magnetometer.

**CONSOLIDATED COMPUTER INC.**

2380 Lancaster Road  
Ottawa, Ontario, Canada  
K1B 3W9  
Tel: (613) 731-7080  
TWX: 610-562-8552

**Products:** KEY-EDIT family of shared-processor; key-to-disk data entry and source data processing systems with up to 56 CRT data terminals, disk and tape storage, printers, OCR (Scanedit), card and remote batch terminal capabilities which include HASP and 2780/3780 communications features; intelligent terminals.

**CONSPEC CONTROLS LTD.**

44 Martin Ross Avenue  
Downsview, Ontario, Canada  
M3J 2K8  
Tel: (416) 661-0500  
Telex: 06-965843

**Products:** microcomputer-based monitoring and control systems for industries, utilities and mining, including a high-speed sequence-of-events logger with CRT display; monitoring and control system with distributed bus multiplexer; plant-wide energy-management systems for large users.

**CONTROL DATA CANADA LTD.**

1855 Minnesota Court  
Mississauga, Ontario, Canada  
L5N 1K7  
Tel: (416) 826-8640  
TWX: 610-492-9145

**Products:** large-scale computer systems; the CYBER 170

series, models 171, 172, 173 and 174 for applications in education, utilities, resource development, weather forecasting and atomic/nuclear; CYBER 700 series, models 720, 730, 750.

**CONTRONIC CONTROLS LTD.**

7611 Bath Road  
Mississauga, Ontario, Canada  
L4T 3T1  
Tel: (416) 678-1032  
Telex: 06-983630

**Products:** electronic security equipment.

**CORDS (CANADA) LTD.**

220 Bowie Avenue  
Toronto, Ontario, Canada  
M6E 2R8  
Tel: (416) 787-1114

**Products:** plastic electrical and electronic hardware on stock and custom basis.

**CRAMCO SOLDER ALLOYS**

80 Sinnott Road  
Scarborough, Ontario, Canada  
M1L 4M7  
Tel: (416) 757-2876

**Products:** perfect, tiny spheres of solder; high-purity solders; fluxes.

**CREMANCO SYSTEMS LTD.**

7 Banigan Drive  
Toronto, Ontario, Canada  
M4H 1G4  
Tel: (416) 429-6771

**Products:** stand-alone food-service/hospitality computer system with integrated service terminals and printers, video screen, electronic keyboard, dual-diskette storage unit, microprocessor control unit (expandable to 1,000 K B); BASIC language processor, full user software applications; optional communications capability.

**CRESCENT CONTROLS LTD.**

2960 West 4th Avenue  
Vancouver, British Columbia, Canada

**V6K 1R4**

Tel: (604) 732-7461  
Telex: 04-508538

**Products:** industrial process control equipment and systems; multi-point supervisory and alarm systems; computer-based supervisory control; supervisory control equipment and systems including pulse width modulation, audio tone signalling, time multiplexed signalling and computer-based time multiplexed signalling.

**CRONE GEOPHYSICS LTD.**

3607 Wolfedale Road  
Mississauga, Ontario, Canada  
L5C 1V8  
Tel: (416) 270-0096  
Telex: 06-961260  
Cable: CRONGEO TORONTO

**Products:** geophysical equipment; ground and borehole pulse electro-magnetic units, RADEM-VLF-EM receiver; CEM-EM transmitter receiver; VEM-vertical loop EM; Newmont-type induced polarization receiver and transmitters.

**CROVEN CRYSTALS**

Div. of Kidde Canada Ltd.  
500 Beech Street  
Whitby, Ontario, Canada  
L1N 5S5  
Tel: (416) 668-3325  
TWX: 610-384-2750

**Products:** quartz crystals.

**CRYSTECH CO. LTD.**

250 Don Park Road  
Markham, Ontario, Canada  
L3R 2V1  
Tel: (416) 495-0179

**Products:** crystal oscillators and filters.

**C-TECH LTD.**

1150 Montreal Road  
Cornwall, Ontario, Canada  
K6H 5S2  
Tel: (613) 933-7970  
Telex: 05-811538

**Products:** omni-scanning sonars, echo sounders; digital depth sounders; interpolating transducer scanner; computerized test equipment; U.S. Navy design approved standard electronic modules (SEMs) underwater test facility; transducer and sonar systems engineering.

**CULVER DYNAMICS LTD.**  
P.O. Box 4054, Station A  
Victoria, British Columbia,  
Canada  
V8X 3X4  
Tel: (604) 382-4423

**Products:** power monitor for telephone companies — monitors power usage and inputs information into existing data systems (all markets direct except U.S.).

**D.G. INSTRUMENTS LTD.**  
308 Leggett Drive  
Kanata, Ontario, Canada  
K2K 1Y6  
Tel: (613) 592-3141

**Products:** digital data acquisition system, digital clock, VOR ground check system, helicopter air data system, ultrasonic velocity sensors; hydrographic navigation systems, solid-state voice recorder.

**DALE ELECTRONICS CANADA LTD.**  
1255 Brydges Street  
London, Ontario, Canada  
N6A 4L6  
Tel: (416) 452-3300  
Telex: 06-963694  
Cable: DALOHM

**Products:** resistors — precision wire-wound, industrial wire-wound (fixed and adjustable with silicone coatings); trimmer and precision potentiometers; connectors; wire-wound packaged networks.

**DANIELS ELECTRONICS LTD.**  
225 St. Lawrence Street

Victoria, British Columbia,  
Canada  
V8V 1Y2  
Tel: (604) 382-8268

**Products:** marine and land SSB radiotelephone equipment and accessories.

**DECCA AUSTIN INSULATORS**  
A Division of Deram Ltd.  
71 Selby Road  
Brampton, Ontario, Canada  
L6W 1K5  
Tel: (416) 457-8720  
Telex: 06-97699  
Cable: DECRADAR TORONTO

**Products:** antenna mast and tower base insulators, guy strain insulators and lighting isolation transformers; static drain resistors.

**DEES COMMUNICATIONS ENGINEERING LTD.**  
6475C - 64 Street  
R.R. No. 3  
Delta, British Columbia,  
Canada  
Tel: (604) 946-8433

**Products:** telephone interface card for exclusion, musical hold, etc.

**DELHI METAL PRODUCTS LTD.**  
65 Waverly Street  
Delhi, Ontario, Canada  
N4B 1E8  
Tel: (519) 582-0710  
Telex: 061-81174  
Cable: DELMET

**Products:** self-supporting, bracketed and guyed towers.

**DELTA-BENCO-CASCADE LTD.**  
124 Belfield Road  
Rexdale, Ontario, Canada  
M9W 1G1  
Tel: (416) 241-2651  
Telex: 06-965552

**Products:** community antenna TV (CATV) distribution equipment: products for the complete system; head-end processors, modulators, trunk am-

plifiers and line extenders, directional taps; local and remote control addressable taps; master antenna TV (MATV) distribution equipment: complete product range including amplifiers incorporating feed forward techniques; TV transmitters and translators: complete range of low-power TV transmitter and translator devices for NTSC applications.

**DELTRONICS LTD.**  
Bloomington Road  
R.R. 4  
Stouffville, Ontario, Canada  
L0H 1L0  
Tel: (416) 640-1216

**Products:** control units for wind generators; portable radio-controlled traffic lights on construction sites to replace flagmen.

**DEVELCON ELECTRONICS LTD.**  
108 - 103 Street East  
Saskatoon, Saskatchewan,  
Canada  
S7N 1X7  
Tel: (306) 374-2202  
Telex: 610 731 1324

**Products:** limited-distance data communications equipment, including a variety of products that transmit signals over lease or private lines; data-line switching systems, data cable.

**DIAL-A-TRONICS INCORP.**  
4810 Jean Talon West,  
Suite 304  
Montreal, Quebec, Canada  
Tel: (514) 342-1533

**Products:** telephone-answering equipment.

**DICON SYSTEMS LTD.**  
719 Clayson Road  
Toronto, Ontario, Canada  
M9M 2H4  
Tel: (416) 745-6044

**Products:** residential smoke detectors; intrusion alarms.

---

**DIFFRACTO LTD.**

6360 Hawthorne Drive  
Windsor, Ontario, Canada  
N8T 1J9  
Tel: (519) 945-6373

**Products:** laser and electro-optical non-contacting systems for gauging and inspection of components and parts.

**DIGHEM LTD.**

Toronto-Dominion Centre,  
Suite 4900  
Toronto, Ontario, Canada  
M5K 1E8  
Tel: (416) 362-3878  
Telex: 06-219566

**Products:** airborne electro-magnetic systems.

**DIGITAL EQUIPMENT OF CANADA**

100 Herzberg Road  
P.O. Box 11500  
Ottawa, Ontario, Canada  
K2H 8K8  
Tel: (613) 592-5111  
TWX: 610-562-8732

**Products:** minicomputers and microcomputers; computer systems for process-control and industrial applications. Custom products and modules.

**DIGITAL GRAPHICS LTD.**

90 Don Park Road  
Markham, Ontario, Canada  
L3R 1C4  
Tel: (416) 495-9633  
Telex: 06-986843

**Products:** a computer graphic service bureau specializing in the design and manufacture of prototype boards; printed circuits, flex circuits, two-layer and multi-layer printed circuit boards; UPC and EAN bar codes on film.

**DIGITAL VIDEO SYSTEMS**

519 McNicoll Avenue  
Willowdale, Ontario, Canada  
M2H 2C9  
Tel: (416) 499-4826

**Products:** broadcast video equipment, including digital time base correctors, digital frame storage device, and digital synchronizers.

**DIRECT DIGITAL INDUSTRIES LTD.**

845 Progress Avenue  
Scarborough, Ontario, Canada  
M1H 2X4  
Tel: (416) 438-6104

**Products:** modular multiplexing equipment.

**DOMINION TAPE OF CANADA LTD.**

104 William Street  
Cornwall, Ontario, Canada  
K6H 5T6  
Tel: (613) 932-6331

**Products:** insulating devices and materials, including pressure-sensitive tapes.

**DUAL LITE PRODUCTS LTD.**

9345 Pascal Gagnon  
St. Leonard, Quebec, Canada  
H1P 1Z4  
Tel: (514) 326-8000  
Telex: 05-828561

**Products:** infrared security barrier.

**DURAND CONTROLS**

Division of Durand Machine Co.  
Ltd.  
658 Derwent Way  
New Westminster, British  
Columbia, Canada  
V3M 5P8  
Tel: (604) 524-6611  
Telex: 04-351168

**Products:** industrial controls.

**DURMITOR INC.**

961 Alness Street, Unit 24,  
Downsview, Ontario, Canada  
M3J 2S1  
Tel: (416) 663-2313

**Products:** industrial electronic control products and services; the design, manufacture, field engineering, installation and maintenance of constant motor load regulators and remotely adjustable wired limit switching systems for automating heavy-duty industrial equipment.

**DYNALOGIC CORP. LTD.**

141 Bentley Avenue  
Ottawa, Ontario, Canada  
K2E 6T7  
Tel: (613) 226-1383  
Telex: 053-3358

**Products:** data entry floppy disk terminal (DynaTermDisk); dynalogic microcomputer system; laboratory microcomputer systems complete with IEEE488 and general-purpose interface bus; DynaScript word-processing documentation package.

**DYNAMIC INDUSTRIES INC.**

45 Dorchester Street South  
Quebec, Quebec, Canada  
G1K 5Y1  
Tel: (418) 524-5221  
Telex: 051-3868

**Products:** transmission line towers and allied products; microwave towers and antennas; TV towers; custom galvanizing using dry hot-dip process; general machine-shop and plate-shop works.

**Services:** engineering; structural analysis; structural and mechanical drawings; tower installation supervision.

**DYNATEL SYSTEMS**

3135 Universal Drive  
Unit 21  
Mississauga, Ontario, Canada  
L4X 2E6  
Tel: (416) 669-4914

**Products:** television control-room equipment.

---

**EDA INSTRUMENTS INC.**

1 Thorncliffe Park Drive  
Toronto, Ontario, Canada  
M4H 1G9  
Tel: (416) 425-7800  
Telex: 053-4159

**Products:** fluxgate magnetometers; radon detection systems for uranium prospecting; automatic radon gas monitoring systems; degassing systems; magnetic observatory systems; gamma ray spectrometers and scintillometers for uranium exploration; portable proton precession magnetometers; radon daughter monitors; uranium assayers; rotary fusion burners for analytical laboratories.

**ESE LTD.**

1780 Albion Road  
Rexdale, Ontario, Canada  
M9V 1C1  
Tel: (416) 749-2271  
Telex: 06-989522  
TWX: 610 492 6360

**Products:** high-speed modems, including 7600-bit-per-second; traffic data analyzers, contact scanners, group delay equalizers, remote access and test systems, and array processors.

**EDAC INC.**

20 Rillside Rd.,  
Don Mills, Ontario, Canada  
M3A 1A4  
Tel: (416) 445-2292  
TWX: 610-492-1398

**Products:** printed circuit card-edge connectors; printed circuit metal-to-metal connectors; rectangular rack and panel connectors; printed circuit card guides; contacts (loose, reel); contact crimp tools; connector accessory tools.

**EDDY CURRENT TECHNOLOGY**

Box 67  
Site 15 SS 3  
Fredericton, New Brunswick,

Canada  
E3B 5H1  
Tel: (506) 455-0514

**Products:** eddy current instrument for non-destructive testing of metal tubes.

**EDWARDS**

A Unit of General Signal  
International Division  
420 Weber Street North  
Waterloo, Ontario, Canada  
N2L 4E7  
Tel: (519) 885-1840  
Telex: 069-5158  
Cable: EDCAN WATERLOO,  
ONTARIO

**Products:** heavy-duty alarm bells, chimes, horns, buzzers, duotronic horn/siren; light-duty alarm bells, chimes, buzzers and mini-horns; electric door openers; door switches and trips for security applications; commercial electric clocks; telephone and intercom buzzers; fire protection: automatic heat detectors; alarm bells, horns, chimes, buzzers, duotronic horn/siren; single-zone fire alarm control equipment; multi-zone fire alarm control equipment; remote lamp annunciator; emergency supervised communication equipment for high-rise buildings; emergency visual audio control system, EVAC, for high-rise buildings; fire alarm control equipment to monitor remote buildings over telephone lines; door trips, switches and window tape; central control system to monitor building security systems; pulsar system, to monitor multi-functions over one pair of telephone cables; master clock and program equipment; industrial solid-state annunciator; hospital nurses call system, both visual and audio-visual; hospital doctors in/out register system.

**EKEG ELECTRONICS CO. LTD.**

P.O. Box 46199, Station G  
Vancouver, British Columbia,  
Canada  
V6R 4G5  
Tel: (604) 685-7817

**Products:** telemetry transmitters and implantable transmitters; telemetry receivers; heart rate meters; neurophysiological ratemeters; temperature control units; EKG amplifiers; respiration monitors; data acquisition systems for biomedical and industrial applications; EMG and temperature biofeedback systems; industrial weighing systems for logging applications.

**EKOLITE LTD.**

525 East Hastings Street  
Vancouver, British Columbia,  
Canada  
V6A 1P9  
Tel: (604) 254-4515  
Cable: CANEKO

**Products:** graph echo-sounders, flashing depth indicators.

**ELECTRIC POWER EQUIPMENT LTD.**

1285 Homer Street  
Vancouver, British Columbia,  
Canada  
V6B 2Z2  
Tel: (604) 682-4221  
Telex: 04-51171

**Products:** fire detection and alarm systems, smoke detectors, emergency lighting systems, uninterruptible power supply systems.

**ELECTRO VOX INDUSTRIES INC.**

2626 Bates Road  
Montreal, Quebec, Canada  
H3S 1B2  
Tel: (514) 731-3771  
Telex: 05-268741

**Products:** loud-speaker type intercoms; amplifiers; public address equipment; fire alarm equipment; fire fighter com-

---

munication equipment (for high-rise buildings).

**ELECTRONIC CRAFTSMEN**

73 Schaefer Street  
Waterloo, Ontario, Canada  
N2L 4C4  
Tel: (519) 884-2210

**Products:** electrical and electronic coils and transformers including 3-phase transformers; these components can be encapsulated by liquid epoxy casting or transfer molding with epoxy powder.

**ELECTRONIC HARDWARE SPECIALTIES LTD.**

175 Eileen Avenue  
Toronto, Ontario, Canada  
M6N 1W3  
Tel: (416) 769-0585

**Products:** wire-wound resistors.

**ELECTROVERT LTD.**

3285 Cavendish  
Montreal, Quebec, Canada  
H4B 2L9  
Tel: (514) 488-2521

**Products:** automated wave-soldering equipment; PC board assembly; cable trays; terminal blocks; wire harnessing systems; lead cutting, cleaning, component tinning, solder coating, reflow soldering, conveyorized assembly, component forming and custom design equipment for the electronics, electrical, communications, aerospace and automotive industries.

**ELINCA COMMUNICATIONS LTD.**

100 Bronson Avenue, Suite 802  
Ottawa, Ontario, Canada  
K1R 6G8  
Tel: (613) 233-5671  
Telex: 053-3308

**Products:** antennas; transmission lines; satellite communication systems; power supplies; TDM systems; FDM data systems; radar displays; microwave communication equipment; satellite earth stations; satellite sub-systems; tropo-scatter; antenna systems; terrestrial communications systems; supervisory and control systems; teletypewriters; data transmission equipment; teletype switching systems; radars; radio relay equipment; test equipment; digital processing systems; radio and TV broadcast systems; teletypewriter multiplex systems, etc.

**EL-MET PARTS LTD.**

47 Head Street  
Dundas, Ontario, Canada  
L9H 3H6  
Tel: (416) 628-6366

**Products:** cold rolled, silicon and nickel steel laminations for electromagnetic devices such as motor laminations, fluorescence and mercury ballast laminations and E&I laminations; distributed gap wound cores; C-cores; toroids; shielding materials, allied products and specialty magnetic annealing and hydrogen annealing; slitting of electrical steels for electronics industry.

**ENGELHARD INDUSTRIES OF CANADA LTD.**

P.O. Box 340  
100 Engelhard Drive  
Aurora, Ontario, Canada  
L4G 3N1  
Tel: (416) 727-3191  
Telex: 06-23214

**Products:** precious-metal contacts, chiefly of silver and silver-bearing alloys.

**EPIC DATA SALES LTD.**

7280 River Road  
Richmond, British Columbia, Canada  
V6X 1X5  
Tel: (604) 273-9146  
Telex: 04-355701

**Products:** a complete range of microcomputer-based data collection terminals and microcomputer-based system control units designed to provide simple, practical and flexible systems for such applications as: time and attendance; access control; inventory control; job costing; maintenance; materials control; weigh scales (up to 75 tons); control systems used in library circulation systems and suitable for special data-collection applications.

**EPITEK ELECTRONICS LTD.**

100 Schneider Road  
Kanata, Ontario, Canada  
K2K 1Y2  
Tel: (613) 592-2240  
Telex: 053-3544

**Products:** custom thick film hybrid microcircuits; audio amplifiers; audio preamplifiers; active filters; single-in-line resistor networks; dual-in-line resistor networks.

**ERIE TECHNOLOGICAL PRODUCTS LTD.**

5 Fraser Avenue  
Trenton, Ontario, Canada  
K8V 5S1  
Tel: (613) 392-2581  
Telex: 06-62279

**Products:** high-voltage power supplies, voltage multipliers and rectifiers; electromagnetic interference; ceramic capacitors; filters.

**ESMOND EQUIPMENT MFG. CO. LTD.**

2010 Ellesmere Road  
Unit 6

Scarborough, Ontario, Canada  
Tel: (416) 438-1538

**Products:** cable harness, custom-made printed circuit boards.

#### **EXIDE ELECTRONICS**

An Inco Electroenergy  
Company

5200 Dixie Road, Unit 20  
Mississauga, Ontario, Canada  
L4W 1E4  
Tel: (416) 625-9627, 625-7061  
Telex: 06-961272

**Products:** uninterruptible power systems (UPS) — for small, medium and large applications from kilowatts to megawatts — for critical and on-line computer and telecommunications installations, airports, defence installations, satellite ground stations etc.; emergency lighting equipment, interruptible and non-interruptible, from small units to 25KVa.

#### **FARINON CANADA LTD.**

657 Orly Avenue  
Dorval, Quebec, Canada  
H9P 1G1  
Tel: (514) 636-0974  
Telex: 01-20962

**Products:** A wide range of products for low and medium capacity analog or digital communications.

DM-Series Digital Microwave Radio is available in frequency bands extending from 2 to 18 GHz, in a variety of system capacities from 1.5 to 45 Mb/s for use with standard North American or CEPT bit rates. With M1-2 and M1-3 Digital Multiplexers optionally available. The radio and multiplex interfaces are fully compatible with standard North American cross-connects and can also be used with other transmission mediums, such as fiber-optics.

LR-Series Microwave Radio communicates up to 72 voice or equivalent data channels. The LR2-400 (335-470 MHz) and LR2-900 (790-960 MHz) radios includes space for up to 6 channels of Farinon LD-G Multiplex within the basic radio frame. Additional multiplex channels can be arranged in appropriate equipment shelves. The equipment is compatible with CCIR recommendations for the respective frequency bands.

#### **FARINON SR SYSTEMS**

1710 Trans-Canada Highway  
Dorval, Quebec, Canada  
H9P 1H7  
Tel: (514) 683-9230  
Telex: 05-821893  
TWX: 610-422-4122

**Products:** subscriber TDM radio system uses two frequencies to give simultaneous service to any 15 of 94 scattered subscribers as well as normal telephone service without feeder cable.

#### **FERRANTI-PACKARD ELECTRONICS LTD.**

6030 Ambler Drive  
Mississauga, Ontario, Canada  
L4W 2P1  
Tel: (416) 624-3020  
Telex: 06-961437

**Products:** light-reflecting electromagnetic display systems and components, including status indicators, numeric and alphanumeric display modules, complete turnkey display systems; third-party maintenance devices; telephone-network monitoring systems.

#### **FERRITRONICS LTD.**

222 Newkirk Road  
Richmond Hill, Ontario, Canada  
L4C 3G7  
Tel: (416) 884-3180  
Telex: 069-66680  
Cable: FERRIC TORONTO

**Products:** tone signalling modules; encoders and decoders for mobile radio; digital identification and status modules; active filters; decoder/scanners for mobile telephone; passive filters.

#### **FILTRAN LTD.**

17C Enterprise Avenue  
Ottawa, Ontario, Canada  
K2G 0A7  
Tel: (613) 226-1626  
Telex: 053-4957

**Products:** filter networks designed and manufactured for the telecommunications industry; transformers and inductive components of all types, including power up to 500 Va.

#### **FINELINE CIRCUITS LTD.**

170 Nantucket Boulevard  
Units 2, 3 & 4  
Scarborough, Ontario, Canada  
M1P 2N9  
Tel: (416) 757-5389  
Telex: 065-25248

**Products:** printed circuit boards, from schematic to finished product.

#### **FIRE DEVICES MANUFACTURING LTD.**

270 Ferrier St.  
Markham, Ontario, Canada  
L3R 2Z5  
Tel: (416) 495-0213

**Products:** thermoflex dual action detector, rate of rise and fixed temperature (responds to 8°C/min. rate of rise and has fixed temperature settings at 57, 93 and 140°C).

**FISCHER & PORTER (CANADA) LTD.**

134 Norfinch Drive  
North York, Ontario, Canada  
M3N 1X7  
Tel: (416) 667-9800  
Telex: 06-969669  
Cable: FISHCAPORT

**Products:** electronic, pneumatic, and distributed process control instrumentation, control panels, flowmeters, digital systems and chlorination equipment.

**FISHER CONTROLS CO. OF CANADA LTD.**

P.O. Box 578  
Woodstock, Ontario, Canada  
N4S 7Z6  
Tel: (519) 539-9892  
Telex: 064-74117

**Products:** electronic control room, instrumentation and electronic field-mounted instrumentation, primarily for process-control industries.

**FISHER GAUGE LTD.**

Box 179  
Peterborough, Ontario, Canada  
K9J 6Y9  
Tel: (705) 745-0567  
Telex: 06-962836

**Products:** precision die-castings, assembly machines to produce printed circuits.

**THE FOXBORO CO. LTD.**

707 Dollard Avenue  
LaSalle, Quebec, Canada  
H8N 1S5  
Tel: (514) 366-4210  
Telex: 055-66302

**Products:** electronic controls and instrumentation, including control systems, converters, event recorders, gauges, indicators, and meters.

**GANDALF DATA COMMUNICATIONS LTD.**

Gandalf Building, Gandalf Plaza  
9 Slack Road

Ottawa, Ontario, Canada  
K2G 0B7  
Tel: (613) 225-0565  
Telex: 053-4728

**Products:** telecommunications equipment specializing in limited distance digital data transmission equipment; packet switching interfaces, multiplexers, and high-speed modems; LDS 100, 200, 300 and LDM 404 series of units and the PACX (private automatic computer exchange); PIN (private intelligent network) 9102, 9103 and "Supermodem".

**GARRETT MANUFACTURING LTD.**

255 Attwell Drive  
Rexdale, Ontario, Canada  
M9W 5B8  
Tel: (416) 675-1411  
Telex: 06-968549  
TWX: 610-492-4352

**Products:** temperature control systems for aircraft cabins, crew compartments; electronics bays; windshields; emergency locator beacons and personal locator beacons; flight instrument test sets; custom thin and thick film hybrid micro-circuits; electric propulsion systems for ground vehicles; sub-contract manufacture of electronic assemblies to other company design information.

**GEAC CANADA LTD.**

350 Steelcase Road West  
Markham, Ontario, Canada  
L3R 1B3  
Tel: (416) 495-0525  
Telex: 06-22874

**Products:** medium to large on-line computer systems handling up to hundreds of terminals with mass storage billions of bytes; complete systems available for on-line banking, library circulation, pharmacy prescriptions, school board administration, order en-

try and inventory control; and word processing.

**GEBETEX INC.**

1625 Chabanel West, Room 980  
Montreal, Quebec, Canada  
H4N 2S7  
Tel: (514) 382-6120

**Products:** hand-held metal detector "Lymps 76" for airport, prison and police security; microwave burglar alarm systems; circuit board mounting; custom-built equipment.

**GELECO ELECTRONICS LTD.**

2 Thorncliffe Park Drive, Unit 28  
Toronto, Ontario, Canada  
M4H 1H1  
Tel: (416) 421-5631

**Products:** RF edgewound coils; RF tube coils; RF contactors; tower lighting chokes; lightning chokes; MMB heavy-duty switches; plug-in meter inserts; phase sampling loops; complete antenna tuning and phasing equipment; broadcast antenna and studio design; phase and current sampling transformers.

**GEN-TEC INC.**

2625 Dalton Street  
Quebec, Quebec, Canada  
G1P 3S9  
Tel: (418) 651-8000  
Telex: 051-31591

**Products:** peak load stabilizers; demand control systems; TEA CO<sub>2</sub> laser for educational, industrial and research use; joulemeters; HV probe.

**GEONICS LTD.**

1745 Meyerside Drive  
Mississauga, Ontario, Canada  
L5T 1C5  
Tel: (416) 676-9580  
Cable: GEONICS

**Products:** geophysical instrumentation including lightweight portable electromagnetic detectors; VLF electromagnetic units; horizontal-loop electro-

magnetic units with automatic readout; airborne VLF electromagnetic exploration systems; high-power, deep-penetration LF electromagnetic systems; resistivity profiling instrumentation; one-man dipole electromagnetometer; general electronics.

**GEOPROBE LTD.**

5-41 Horner Avenue  
Toronto, Ontario, Canada  
Tel: (416) 252-5775  
Cable: GEOPRO-TORONTO

**Products:** multi-frequency electromagnetic geophysical survey systems for ground exploration related to uranium, geothermal energy sources, ground-water, minerals and stratification mapping.

**GEORGE KELK LTD.**

48 Lesmill Road  
Don Mills, Ontario, Canada  
M3B 2T5  
Tel: (416) 445-5850  
Telex: 06-966670  
Cable: KELLEX TORONTO

**Products:** steel mill hot slab and ingot dimension gauges and sensors for on-line process control, including necessary software; rolling mill tensiometers; AC line-voltage regulators; zwarts-type series of electronic wave/tide and water-level gauges; load cells for roll-force measurement in rolling mills.

**GLENAYRE ELECTRONICS LTD.**

1551 Columbia Street  
North Vancouver,  
British Columbia, Canada  
V7J 1A3  
Tel: (604) 980-6041  
Telex: 04-352520

**Products:** power supplies; regulated DC-DC converters supplies for a wide range of railroad, telecommunications and industrial applications; radio telephone equipment: MTS/

IMTS 2805 paging terminals 1 to 12 channels; MTS/IMTS 2805 mobile telephone control heads; microprocessor based status/data mobile radio control equipment; DTMF microprocessor based automatic control head; sub-audible encoder/decoder boards; mobile and base station DTMF encoders; fixed-route vehicle location and identification systems and equipment for railroad, rapid transit and bus systems; computer-controlled automatic dialer.

**GOODWOOD DATA SYSTEMS LTD.**

P.O. Box 210  
150 Rosamond Street  
Carleton Place, Ontario,  
Canada  
K7C 3P4  
Tel: (613) 257-3610  
Telex: 053-3593

**Products:** GDS 300 controller — multi-terminal display controller; GDS 232 monitor — RS-232C, or CCITT equivalent, monitor; GDS 105 diesel engine monitor — diesel diagnostics monitor; air traffic control system; hydrological systems; computer assisted learning systems; radar/satellite correlated weather forecasting system.

**GRAPHIC CONTROLS CANADA LTD.**

Herbert Street  
P.O. Box 5500  
Gananoque, Ontario, Canada  
K7G 2Y7  
Tel: (613) 382-2108  
Telex: 066-3216

**Products:** disposable electrodes for electrocardiographs.

**GUILDLINE INSTRUMENTS LTD.**

Churchill Road  
Smiths Falls, Ontario, Canada  
K7A 4S9

Tel: (613) 283-3000  
Telex: 053-3028

**Products:** electrical and temperature measuring instruments; voltage and resistance standards; AC/DC transfer standard current and potential transformer test sets; oceanographic instrumentation for pressure, depth conductivity and salinity.

**HALLCRAFT ELECTRONICS LTD.**

1760 Sargent Avenue  
Winnipeg, Manitoba, Canada  
R3H 0C7  
Tel: (204) 786-5846

**Products:** communication systems for the restaurant and fast-food industry; custom assembly facilities; install, service communication/electronic systems and complete motion picture theatre and school installations.

**HAMILTON ENGRAVING CO. LTD.**

P.O. Box 181, Station B  
24 Clark Avenue  
Hamilton, Ontario, Canada  
L8L 5J8  
Tel: (416) 527-0718

**Products:** design of printed circuit boards; printed circuit boards; specialty plating — precious metals; machine engraving.

**HAMMOND MANUFACTURING CO. LTD.**

394 Edinburgh Road North  
Guelph, Ontario, Canada  
N1H 1E5  
Tel: (519) 822-2960  
Telex: 069-56523

**Products:** transformers; chokes; saturable reactors; sheet metal cabinets, consoles, cubicles, racks, chassis — in all ranges and sizes for the electronics and electrical industries.

**HARBOUR INDUSTRIES  
(CANADA) LTD.**

460 Normandie  
Farnham, Quebec, Canada  
V2N 1W4  
Tel: (514) 293-5304

**Products:** braided shielding;  
coaxial cable; hook-up wire  
with Teflon insulation; extra-  
high-temperature cables;  
special wire for nuclear-reactor  
cores.

**HARCO ELECTRONICS LTD.**

740 Century Street  
Winnipeg, Manitoba, Canada  
R3H 0M1  
Tel: (204) 786-6534  
Telex: 07-57690

**Products:** medical electronic  
monitoring and resuscitative  
equipment including: cardiac  
monitors; diagnostic ECG ma-  
chines, ECG activated cardiac  
monitors; DC defibrillator  
with and without synchronizer;  
fully equipped emergency  
crash carts; pulse meters; broad  
range of pregelled disposable  
electrodes, and semi-dispos-  
able electrodes; patient cable  
sets of all types; dispersive  
electrodes for electro-surgery  
and cable sets, adult and  
pediatric size; dental instru-  
ment for diagnosing and moni-  
toring periodontal disease  
(Periotron); standard electro-  
cardiograph instrument.

**HERMES ELECTRONICS LTD.**

P.O. Box 1005  
Dartmouth, Nova Scotia,  
Canada  
B2Y 4A1  
Tel: (902) 466-7491  
Telex: 019-21744

**Products:** HF antennas; iono-  
spheric sounder equipment;  
oceanographic buoys and  
devices; sonobuoys.

**HONEYWELL LTD.**

740 Ellesmere Road  
Scarborough, Ontario, Canada

M1P 2V9  
Tel: (416) 293-8111  
Telex: 065-25170

**Products:** solid-state electric  
heat controllers, electric heat  
thermostats, switching relays,  
lighting control systems,  
hydraulic valves, limit controls,  
electro-optic overflow level con-  
trols.

**HOTPACK (CANADA) LTD.**

Division of Kirby Technical  
Sales Inc.  
3640 Weston Road, Unit 7,  
Weston, Ontario, Canada  
M9L 1W2  
Tel: (416) 749-7300

**Products:** designers and manu-  
facturers of controlled environ-  
ment and laboratory test equip-  
ment for research, industry,  
education and medicine.

**HUNTEC ('70) LTD.**

25 Howden Road, Unit 8  
Scarborough, Ontario, Canada  
M1R 5A6  
Tel: (416) 751-8055  
Telex: 06-963640  
Cable: HUNTOR TORONTO

**Products:** FS-3 portable seis-  
mograph for overburden en-  
gineering studies; induced  
polarization instruments includ-  
ing microprocessor IP re-  
ceivers, and low and high-  
power transmitters for mineral  
prospecting and resistivity ap-  
plications; surface and deep-  
towed marine seismic profiling  
systems for seabed and sub-  
bottom engineering and ex-  
ploration.

**Services:** marine seismic pro-  
filing services for seabed en-  
gineering studies and resource  
inventory.

**HYLOGIC INC.**

70A Brunswick Boulevard  
Dollard-des-Ormeaux, Quebec,  
Canada  
H9B 2C5  
Tel: (514) 683-9555

**Products:** single and double-  
sided printed circuit boards.

**IRD MECHANALYSIS LTD.**

333 Barton Street East  
Stoney Creek, Ontario, Canada  
L8E 2L1  
Tel: (416) 662-7577  
Telex: 061-8453

**Products:** vibration monitoring  
and analyzing equipment.

**ITT BARTON INSTRUMENTS**

3840 - 11A Street North East  
Calgary, Alberta, Canada  
T2E 6M6  
Tel: (403) 276-8164  
Telex: 038-21536

**Products:** process instrumen-  
tation, including electronic  
temperature transmitters, elec-  
trical pulse transmitters.

**ITT CANNON ELECTRIC  
CANADA**

A Division of ITT Industries of  
Canada Ltd.  
Four Cannon Court  
Whitby, Ontario, Canada  
L1N 5V8  
Tel: (416) 668-8881  
Telex: 02-2250

**Products:** electrical/electronic  
multi-contact connectors for  
commercial, nuclear, subsea,  
solar, down-hole mining and  
drilling, geophysical/seismic,  
military and aircraft use.

**ITT COMMUNICATIONS**

A Division of ITT Industries of  
Canada Ltd.  
175 Dawson Road  
Guelph, Ontario, Canada  
N1H 1A1  
Tel: (519) 821-2000  
Telex: 02-956547

**Products:** telephone sub-sets,  
key telephone equipment; tele-  
phone carrier equipment; telex  
and broadband switching; data  
telephones; central office peri-  
pheral switching equipment;  
subscriber multiplexing  
systems; subscriber loop de-

vices; postal mechanization; letter coding desks; letter sorting machines; mail conveyor systems; and document sorters.

**INAX INSTRUMENTS LTD.**

P.O. Box 6044, Station J  
Ottawa, Ontario, Canada  
K2A 1T1

Tel: (613) 829-5068

Telex: 053-3506

Cable: INAXIN

**Products:** X-ray fluorescence spectrometers; uranium survey instruments, X and gamma-ray spectrometers; nuclear instruments; computer compatible magnetic tape readers; portable X-ray fluorescence analyzer for in-situ analyses of materials such as geophysical samples and metals.

**INTERA ENVIRONMENTAL CONSULTANTS LTD.**

406 - 7015 Macleod Trail  
Calgary, Alberta, Canada  
T2H 1X9

Tel: (403) 253-8895

Telex: 03-824537

**Products:** airborne sensors and data acquisition systems for the environmental and resource sciences, research, monitoring and surveillance; surface environmental sensors and data acquisition systems; data processing and analysis; ground-water contamination and air-quality engineering and consulting services.

**INTERCONTINENTAL DATA CONTROL CORP. LTD.  
(INTERDACO)**

2373 Stevenage Drive  
Ottawa, Ontario, Canada  
K1G 3W1

Tel: (613) 733-4440

Telex: 053-4274

**Products:** time division multiplex (TDM) systems; frequency division multiplex (FDM) systems; 24-channel terminals

to all CCITT recommendations; 18-channel terminals to North American standards; single-channel subscriber sets; speech plus duplex systems; data sets; limited-distance modems; DC-DC converters; telegraph power supplies; hubbing systems; regenerative repeaters; telegraph sequential selectors; polar adapters; remote loop-back devices; special telegraph test sets; telex autodiallers; patch and test racks; 2-4 wire adapters; 2-4 wire terminating sets; line conditioning equipment, EIA current converters etc.

**INTERNATIONAL MOBILE DATA INCORP.**

10110 Shelbridge Way  
Richmond, British Columbia,  
Canada

Tel: (604) 278-3556

Telex: 04-355865

**Products:** mobile data systems including mobile data terminals operating over radio systems in UHF/VHF, at 4800 baud. Associated base station controllers and communications controllers for network control. The units are designed for rugged vehicular environments.

**INTERNATIONAL SYSTCOMS LTD.**

4900 Fisher Street  
Montreal, Quebec, Canada  
H4T 1J6

Tel: (514) 735-6441

TWX: 610-422-3065

**Products:** VHF and UHF radio telephone equipment including mobile, portable, fixed station and rural radio.

**INTERNATIONAL TECHNICAL PRODUCTS (CANADA) LTD.**

7 Bovis Drive  
Pointe-Claire, Quebec, Canada  
H9R 4W3

Tel: (514) 695-8130

Telex: 05-821-529

Cable: INTECHPRO-PCLR

**Products:** air traffic control systems including radar approach control, fixed and mobile control towers, air navigation aids such as TACAN, etc., X-ray baggage inspection systems, radio and TV transmitters.

**INTERNAV LTD.**

Point Edward Marine &  
Industrial Park  
P.O. Box 1261

Sydney, Nova Scotia, Canada  
B1P 6K3

Tel: (902) 539-0660

**Products:** Loran C navigating equipment.

**JOHNSON MATTHEY LTD.**

110 Industry Street  
Toronto, Ontario, Canada  
M6M 4M1

Tel: (416) 763-5111

Cable: MATTHEY

**Products:** contacts; platinum wear-resistance welding products; silver brazing alloys.

**KONAR CORP.**

123 Manville Road  
Scarborough, Ontario, Canada  
M1L 4J8

Tel: (416) 751-5980

Telex: 06-363542

TWX: 610 492 2728

**Products:** printed circuit boards.

**LAB-VOLT LTD.**

5370 - 13th Avenue  
Rosemont, Quebec, Canada  
H1X 2X8

Tel: (514) 725-9552

Telex: 05-25415

**Products:** power supplies; measuring devices; RLC loading units; electromechanical systems (motor/generator); control systems utilizing various components for the teaching of controls as they relate to elec-

tric power technology; mobile training laboratories; digital trainers; electronic teaching systems; computer technology.

**LANICO INDUSTRIES LTD.**

P.O. Box 398  
Don Mills, Ontario, Canada  
M3C 2S7  
Tel: (416) 438-6465  
Telex: 065-25461

**Products:** electronic controls and monitoring equipment; pH measurement and control equipment; electronic teaching aids; solid-state switches; test equipment; liquid level controls; water-quality monitors.

**LAZER-TECH LTD.**

235 Nugget Avenue  
Scarborough, Ontario, Canada  
M1S 3L3  
Tel: (416) 291-7727  
Telex: 065-25308

**Products:** printed circuit boards; custom silk screening.

**LEAK "X" DETECTION DEVICES LTD.**

215 Colonnade Road  
Ottawa, Ontario, Canada  
K2E 7K3  
Tel: (613) 225-9508  
Telex: 053-4379 Hambro, Ott.  
Cable: LEAKEX OTTAWA

**Products:** petroleum leak detection systems; movement indicators for structures or geophysical applications and studies; combustible and toxic gas and vapour detection systems; oil spill indicators and tracking buoys; buried utility protection systems.

**LEBLANC & ROYLE COMMUNICATIONS TOWERS LTD.**

P.O. Box 880  
514 Chartwell Road  
Oakville, Ontario, Canada

L6J 5C5  
Tel: (416) 844-1242  
Telex: 06-982226  
TWX: 610-495-2676

**Products:** communications towers; antenna performance measurements; heavy microwave and television transmission towers, both guyed and self-supporting; complete installation, maintenance and inspection service.

**LEECRAFT INDUSTRIES LTD.**

2050 Ellesmere Road,  
Units 1 & 2,  
Scarborough, Ontario, Canada  
M1H 3A9  
Tel: (416) 439-6320  
Telex: 065-25428

**Products:** light indicator assemblies; energy emitter and light sources; lamp sockets and assemblies; telephone cable assemblies; custom electronic/electrical assembly.

**LEIGH ENGINEERING SYSTEMS**

2680 Queensview Drive  
P.O. Box 6320  
Ottawa, Ontario, Canada  
K2A 3Y5  
Tel: (613) 820-9720  
Telex: 053-4129

**Products:** display and control systems; flight information display systems; vessel traffic management systems; air traffic control systems.

**Services:** system analysis, design, implementation; project management, engineering and software life-cycle support.

**LEIGH INSTRUMENTS LTD.**

Industrial Products Division  
350 Weber Street North  
Waterloo, Ontario, Canada  
N2J 3H6  
Tel: (519) 884-4510

Telex: 069-5440

**Products:** component products — loud speakers (electrostatic, permanent magnetic); transformers (power, audio); stereo and hifi sound systems; audio amplifiers and broadcast paging equipment. Special products — shipboard navigational systems (plotting tables, sonar recorders); airborne data recorders; meteorological equipment (ceilometer equipment, transmissometers, runway visual range computers); custom manufacturing. Security products — portable and walk-through explosive detectors; metal detectors; narcotics detectors. Postal products — automated postal systems (optical character recognition, video character recognition, automatic sortation, electronic optical scanning devices, software packages and peripheral, inkjet printer, bar code reader devices). Communications products — telex and computer I/O terminals.

**LEIGH INSTRUMENTS LTD.**

Avionics Division  
P.O. Box 82  
Carleton Place, Ontario,  
Canada  
K7C 3P3  
Tel: (613) 257-3883/  
(613) 238-4400  
Telex: 053-4148

**Products:** avionics systems; air-foil delivery systems, crash position indicators, flight data recorders, contained crash recorders, deployable crash recorders, cockpit voice recorders; avionics flight instrumentation: altimeters, mechanical strain recorders, ice detectors; specialized navigation instruments: safety and marker beacons, satellite beacons, radio detection (VHF) equipment, display and control sys-

tems, flight information display systems, vessel traffic management systems, radar digitizers, target trackers.

**Services:** ground support and test equipment; field maintenance, repair and overhaul; test and calibration services; technical writing, illustration.

**LEIGH INSTRUMENTS LTD.**

Frequency Controls Division/  
C.R. Snelgrove Company  
141 Bond Avenue  
Toronto, Ontario, Canada  
M3B 1M2  
Tel: (416) 447-8531  
Telex: 069-66626

**Products:** quartz crystals; temperature controlled crystal ovens; filter ovens crystal filters; monolithic filters; packaged oscillators; frangible switches; frequency synthesizers; glass-to-metal hermetic seals; stand-offs; multi-terminal headers; crystal, transistor and diode bases and end seals; and nuclear radiation resistant connectors.

**LEITCH VIDEO LTD.**

705 Progress Avenue  
Unit 46  
Scarborough, Ontario, Canada  
M1H 2X1  
Tel: (416) 438-5060  
Telex: 06-969682

**Products:** television and broadcast equipment, master clock systems.

**LINDSAY SPECIALTY PRODUCTS LTD.**

50 Mary Street West  
Lindsay, Ontario, Canada  
K9V 4S7  
Tel: (705) 324-2196  
Telex: 0-6962-860

**Products:** VHF and UHF domestic and CATV antennas; CATV line splitters and couplers; CATV directional multi-

taps; complete line of CATV passive devices including matching transformers; and splitters; a complete line of CATV trunk distribution and apartment amplifiers (one- and two-way); subscriber cordless, corded, and V to U converters.

**LINEAR TECHNOLOGY INC.**

3435 Landmark Road  
Burlington, Ontario, Canada  
L7M 1T4  
Tel: (416) 335-2996  
Telex: 061-8525  
Cable: LINEARBUR

**Products:** special and linear monolithic integrated circuits.

**LISLE-METRIX LTD.**

49 Sheffield Street  
Toronto, Ontario, Canada  
M6M 3E5  
Tel: (416) 249-9151

**Products:** electronic process control equipment.

**LITTON SYSTEMS CANADA LTD.**

25 Cityview Drive  
Rexdale, Ontario, Canada  
Tel: (416) 249-1231  
Telex: 06-989406  
TWX: 610-492-2110  
Cable: LITTCAN

**Products:** airborne inertial navigation systems; airborne area navigation systems; special purpose airborne computer systems; tactical data systems; air traffic control and ground controlled interception training simulators and other special purpose training simulators; automatic, mobile, portable and factory test equipment; airborne search radar; self-contained flight-inspection systems; flat panel multi-function cockpit displays; command, control and communications systems; and integrated security systems.

**LUMONICS RESEARCH LTD.**

105 Schneider Road  
Kanata, Ontario, Canada  
K2K 1Y3  
Tel: (613) 592-1460  
Telex: 053-4503

**Products:** high energy pulsed TEA CO<sub>2</sub> lasers for spectroscopy, materials research, propagation studies and plasma/fusion research; lasers operating with such gases as carbon monoxide, hydrogen fluoride, hydrogen bromide and deuterium fluoride; industrial lasers for use in production marking of a variety of non-metallic surfaces; excimer UV/Vls pulse lasers for research.

**MCM COMPUTERS LTD.**

6700 Finch Avenue West,  
Suite 600  
Rexdale, Ontario, Canada  
M9W 5P5  
Tel: (416) 675-1353  
Telex: 06-989293

**Products:** desk top APL micro computer systems.

**MA ELECTRONICS CANADA LTD.**

3135 Universal Drive  
Mississauga, Ontario, Canada  
LX4 2E7  
Tel: (416) 625-4605  
TWX: 610-492-4317

**Products:** microwave products for marine and communication purposes; isolators; circulators; switches; flanges; standard plumbing; solid-state control devices; amplifiers; duplexers; thick and thin-film hybrid micro-circuits; low noise amplifiers; satellite earth stations; microwave subsystems.

**MacDONALD, DETTWILER & ASSOCIATES LTD.**

10280 Shellbridge Way  
Richmond, British Columbia,  
Canada  
V6X 2Z9  
Tel: (604) 278-3411

Telex: 04-355599

**Products:** remote sensing data acquisition systems; satellite ground stations for reception and processing of earth resources from LANDSAT data; meteorological data systems; air/shipborne and submersible data acquisition systems; image analysis systems for classification and precision registration of LANDSAT data; digital data acquisition systems for environmental sensing; synthetic aperture radar; data communications systems for: airline flight planning and dispatch, public safety, real-time weather information, vehicular data terminals; remote job entry terminals.

**McCURDY RADIO INDUSTRIES LTD.**

108 Carnforth Road  
Toronto, Ontario, Canada  
M4A 2L4  
Tel: (416) 751-6262  
Telex: 06-963533  
Cable: MACMETAL

**Products:** complete broadcast audio line including solid-state consoles, production centres, components, packages and accessories; solid-state intercom systems; pre-wired jackfields; audio distribution systems; audio switchers, consoles, amplifiers and speaker units for educational systems.

**McNEILL ELECTRONICS LTD.**

19 Colville Road  
Toronto, Ontario, Canada  
M6M 2Y2  
Tel: (416) 247-7429

**Products:** transformers — toroidal, pot-core, RF; chokes.

**McPHAR GEOPHYSICS**

55 Tempo Avenue  
Willowdale, Ontario, Canada  
M2H 2R9  
Tel: (416) 497-1700  
Telex: 065-25305

Cable: McPHAR TORONTO

**Products:** airborne, ground and drill hole geophysical instruments for minerals and petroleum exploration; portable proton procession and fluxgate magnetometers; portable scintillometers and gamma ray spectrometers; airborne multi-channel spectrometers; drill hole logging systems; airborne and ground electromagnetic systems; induced polarization and resistivity equipment; analog and digital recording systems; minicomputer data acquisition systems.

**McQUEEN TECHNOLOGY CORP. LTD.**

581 Woolwich Street  
Guelph, Ontario, Canada  
M1H 7A1  
Tel: (519) 836-1010

**Products:** line-monitoring equipment.

**MAGNA DIGITRONICS INC.**

33 East 7th Avenue  
Vancouver, British Columbia, Canada  
V5T 1M4  
Tel: (604) 873-4671  
Cable: MAGTRONICS

**Products:** electronic alarm and monitoring systems.

**MAGNA INTERNATIONAL INCORP.**

280 Rayette Road  
Concord, Ontario, Canada  
L4K 1B1  
Tel: (416) 669-4484  
Telex: 06-964608

**Products:** electronic chassis and sub-assemblies for aerospace; aluminum dip brazed assemblies; machined pure beryllium; cartridge and propellant activated devices for aircraft escape systems.

**MAGNETIC METALS LTD.**

10 Spalding Drive  
Brantford, Ontario, Canada

N3T 5T3

Tel: (519) 753-8675  
TWX: 610-379-0107

**Products:** laminations for electric motors and transformers.

**MALLORY BATTERY CO. OF CANADA LTD.**

2333 North Sheridan Way  
Mississauga, Ontario, Canada  
L5K 1A7  
Tel: (416) 823-4410  
Telex: 06-982253

**Products:** primary throwaway batteries, military and commercial; special battery packs for military radios.

**MALLORY COMPONENTS**

A Division of Emhart Canada Ltd.  
222 Dixon Road  
Weston, Ontario, Canada  
M9B 2M2  
Tel: (416) 244-4239

**Products:** complete range of aluminum and tantalum electrolytic capacitors for all applications, electromechanical tuning devices; inductuners — military.

**MALLORY COMPONENTS LTD.**

1079 Parkinson Road  
Woodstock, Ontario, Canada  
N4S 7W8  
Tel: (519) 539-4891  
Telex: 064-74132

**Products:** VHF tuning device used in very-high-quality radio receivers.

**MARK PRODUCTS LTD.**

1108 - 55th Avenue NE  
Box 73, Stn. "M"  
Calgary, Alberta, Canada  
T2P 2G9  
Tel: (403) 275-3544

**Products:** seismic cables and arrays.

**MATROX ELECTRONIC SYSTEMS LTD.**

Box 56, Ahuntsic Station  
Montreal, Quebec, Canada

H3L 3N5  
Tel: (514) 481-6838  
Telex: 05-825651

**Products:** alphanumeric and graphic mini and micro controllers; microcomputers.

**MAXTOWER CO. LTD.**  
5 Edmondson Street  
Box 277

Brantford, Ontario, Canada  
N3T 5M8  
Tel: (519) 752-6501  
Telex: 061-88135

**Products:** radio and television towers and mounting hardware.

**R.C. MAYBEE LTD.**  
P.O. Box 40  
Oakville, Ontario, Canada  
L6J 4Z5  
Tel: (416) 637-6261

**Products:** polygauge model C thickness sensor.

**MECHRON ENGINEERING PRODUCTS LTD.**  
2437 Kaladar Avenue  
Ottawa, Ontario, Canada  
Tel: (613) 733-3855  
Telex: 053-4271

**Products:** auxiliary and prime-source power systems for telecommunications.

**MECHTRONICS RESEARCH CORP.**  
1727 West Second Avenue  
Vancouver, British Columbia, Canada  
V6J 1H8  
Tel: (604) 736-2671

**Products:** marine controls and instrumentation; industrial controls; data processing equipment; acoustical instrumentation.

**MEGA SYSTEM DESIGN LTD.**  
1766 Midland Avenue  
Scarborough, Ontario, Canada  
M1P 3C2  
Tel: (416) 751-1935

**Products:** custom designed

electronic devices; electromechanical and specialized custom machinery and equipment; microwave industrial dryers; microwave moisture sensors; special-purpose applicator chambers and power supplies; custom small precision machinery.

**MESOTECH SYSTEMS LTD.**  
1174 Welch Street  
North Vancouver,  
British Columbia, Canada  
V7P 1B2  
Tel: (604) 980-3474  
Telex: 04-352773

**Products:** underwater acoustic equipment, including sonar, positioning systems, underwater telephones.

**MICRODYNE ELECTRONICS INC.**  
13532 King George Highway  
Surrey, British Columbia,  
Canada  
V3T 2T9  
Tel: (604) 584-8508

**Products:** moisture-detection equipment for veneer and lumber — dry and green; computerized process-control systems for the forest industry.

**MICROTRONIX SYSTEMS LTD.**  
120 Bessemer Road  
London, Ontario, Canada  
N6E 1R2  
Tel: (519) 681-3430

**Products:** custom-designed and built equipment for the telephone industry.

**MICROWAVE TECHNOLOGY**  
Division of Winterhaven  
Industries Ltd.  
7512 Bath Road  
Mississauga, Ontario, Canada  
L4T 1L2  
Tel: (416) 677-8181

**Products:** industrial microwave systems; industrial ovens; microwave survey (leakage) meters; microwave power

sources; slotted lines; terminations; transitions.

**MIDLAND SOUND SYSTEMS CO. LTD.**

225 Nugget Ave., Units 4-10,  
Scarborough, Ontario,  
Canada, M1S 3L2  
Tel: (416) 291-7304  
Telex: 065-25391

**Products:** Loudspeaker systems

**MILLER COMMUNICATIONS SYSTEMS LTD.**

300 Legget Drive  
Kanata, Ontario, Canada  
K2K 1Y5  
Tel: (613) 592-3020  
Telex: 053-4164

**Products:** low cost satellite ground stations; voice and data modem equipment; forward error correcting coding equipment; phase lock loop receivers; TV multiplexer; teleconferencing systems via satellite; HF radio receivers; TDMA channel equipment; defense-related electronics.

**MILLTRONICS LTD.**

730 The Kingsway  
Peterborough, Ontario, Canada  
K9J 6W6  
Tel: (705) 745-2431  
Telex: 06-962851

**Products:** alarms; converters; detectors; feed-rate control system; flow metering; level measuring; monitors; tachometers; tilt switches; transducers.

**MIRTONE INDUSTRIES LTD.**

425 Alness Street  
Downsview, Ontario, Canada  
M3J 2H4  
Tel: (416) 667-1122  
Telex: 06-217501

**Products:** amplifiers, audio equipment, supervisory controls.

**MITEC ELECTRONICS LTD.**  
896 Montee de Liesse

Section 17/18  
Montreal, Quebec, Canada  
H4T 1N8  
Tel: (514) 334-9140  
and (514) 731-6027  
TWX: 610-421-3572

U.S. SALES OFFICE:  
15 Commerce Street  
Williston, Vermont 05495  
U.S.A.  
Tel: (802) 864-0064

**Products:** design and make microwave components and subsystems for the telecommunications industry, satellite communications, and military applications.

**MITEL CORP. LTD.**  
P.O. Box 13089  
Kanata, Ontario, Canada  
K2K 1X3  
Tel: (613) 592-2122  
Telex: 053-4596  
TWX: 610-562-8529  
Cable: MITELCAN

**Products:** telephone signalling converter equipment (including tone to pulse); DTMF and MF receivers; tone generators, toll denial system; speed dialer system; key system intercom; line event recorder printer; line event displays; R2 forward and backward receivers, rural telecoms equipment; EPABX; security equipment; CMOS integrated circuits including: Telecom LSI, microprocessor and memory, interface, and display; and thickfilm hybrid Telecom circuits.

**A.R. MONTEITH (77) LTD.**  
2615 Wharton Glen Avenue  
Mississauga, Ontario, Canada  
L4X 2B1  
Tel: (416) 277-0343  
Telex: 06-961247

**Products:** resists for printed circuits.

**MOTOROLA CANADA LTD.**  
3125 Steeles Avenue East  
Willowdale, Ontario, Canada

M2H 2H6  
Tel: (416) 499-1441  
Telex: 02-29944  
Cable: MOTOROLA

**Products:** VHF and UHF mobile radio products including base, mobile, portable and paging equipment and accessories; VHF and UHF radio relay products including point-to-point multi-channel equipment and accessories; alarm and control system.

**MUIRHEAD SYSTEMS LTD.**  
50 Galaxy Boulevard, Unit 4  
Rexdale, Ontario, Canada  
M9W 4Y5  
Tel: (416) 675-7450  
Telex: 06-989264

**Products:** custom design and manufacture of graphic processing and facsimile communication systems; facsimile switching systems; meteorological radar remoting; computer facsimile interface; compact airborne and shipboard facsimile transmitters.

**MULTI-ELMAC OF CANADA LTD.**  
P.O. Box 879  
Windsor, Ontario, Canada  
N9A 6P2  
Tel: (519) 966-0162

**Products:** remote radio controls.

**MULTI-VOX LTD.**  
9967 St. Michel Boulevard  
Montreal, Quebec, Canada  
H1H 5G7  
Tel: (514) 321-3131

**Products:** intercommunication systems for commercial, industrial, educational and institutional applications; complete line of solid-state commercial amplifiers; sound columns.

**NCR CANADA LTD.**  
6855 Century Road  
Mississauga, Ontario, Canada  
Tel: (416) 826-9000  
Telex: 06-960147

**Products:** company designs, develops and manufacturers financial document-processing systems for the international financial community.

**NATIONAL ELECTROLAB LTD.**  
1536 Columbia Street  
North Vancouver,  
British Columbia  
Canada  
V7J 1A4  
Tel: (604) 985-0511  
Telex: 043-52683

**Products:** AM broadcast: AM RF amplifiers; off-air receivers; telephone instruments: recorder-controller for monitoring of telephone signalling; T1 PCM error generator; T1 cable test set; engineering and installation services; design and manufacture of custom instruments and equipment; repair, overhaul and calibration of electrical and electronic instruments, test equipment, meters, etc., for science, government and industry; electrical metrology lab for precise calibration.

**NATIONAL SEMI-CONDUCTORS LTD.**  
2150 Ward Street  
Montreal, Quebec, Canada  
H4M 1T7  
Tel: (514) 744-5507  
TWX: 610-421-3362  
Cable: NATSEMICO

**Products:** cadmium sulphide photoconductive cells; cadmium solonoid photoconductive cells; silicon photodiodes; photocell lamp assemblies; silicon phototransistors; photoelectric arrays; optocouplers; silicon solar panels.

**NAUTICAL ELECTRONIC LABORATORIES LTD.**  
RR No. 1 Tantallon  
Halifax County, Nova Scotia,  
Canada  
B0J 3J0  
Tel: (902) 823-2233/4  
Telex: 019-22552

**Products:** solid-state LF non-directional radio beacon systems for aeronautical and marine navigation with output powers up to 4 kW radio beacon monitor receivers; automatically tuned LF/MF frequency antenna systems; solid-state broadcast transmitters; LF, MF and HF solid-state communications transmitters.

**NAVTEL LTD.**

8481 Keele Street  
Unit 12A  
Concord, Ontario, Canada  
L4K 1B1  
Tel: 669-9918  
TWX: 610 492 0122

**Products:** data communications test equipment.

**NEECO CIRCUITS LTD.**

8421 Darnley Road  
Montreal, Quebec, Canada  
H4T 1X2  
Tel: (514) 733-7181  
TWX: 610-421-4483

**Products:** printed circuit boards; single-sided, double-sided and multi-layers; staked pin backpanels.

**NEOSID (CANADA) LTD.**

10 Vansco Road  
Toronto, Ontario, Canada  
M8Z 5J4  
Tel: (416) 251-2831  
Cable: NEOSID

**Products:** electronic powered iron and ferrite core components; microwave materials.

**NIFE-POWERTRONIC CORP.**

125 Nantucket Boulevard  
Scarborough, Ontario, Canada  
M1P 2N8  
Tel: (416) 757-5151  
Telex: 06-963757

**Products:** DC power supplies, regulated and unregulated; communication type filtered battery chargers; battery chargers for industrial trucks and electric locomotives; line volt-

age regulators; chargers for engine starting batteries; static inverters; uninterruptible power supply (UPS) systems.

**NORAM QUALITY CONTROL & RESEARCH EQUIPMENT LTD.**

Dollard-Des-Ormeaux, Quebec, Canada  
H9G 1M7  
Tel: (514) 694-4522  
Telex: 05-822-730

**Products:** electronic equipment for specialized physical testing in pulp and paper industry.

**NORPAK LTD.**

Pakenham, Ontario, Canada  
K0A 2X0  
Tel: (613) 624-5336

**Products:** line of micro computer based display processors for computer graphics and imagery display systems; custom made computer system design and integration; computer software design; visual data processor; micro video processor; PDI Telidon decoders; information provider system.

**NORTHERN TELECOM LTD.**

33 City Centre Drive  
Mississauga, Ontario, Canada  
L5B 2N5  
Tel: (416) 275-0960  
TWX: 610-492-4388

**Products:** common control cross bar telephone switching exchanges; stored program electronic digital and analog telephone switching exchanges; radio relay and coaxial transmission systems— long and short haul; light and heavy route multiplex — digital and analog; private automatic branch exchanges — cross bar and electronic; key telephone systems; business interphone systems; telephone sets — business and residential; handsfree telephone sets; tele-

phone head sets — lightweight and standard; coin telephone sets — box and panel; telephone booths; test equipment; connecting blocks; loading coils; filters; protectors; power plants; amplifiers. Fibre optics systems for telecommunications applications. Product trade names include the SL-1, a digital business communications system; Pulse — a PBX; Imagination, Contempra and Logic telephone apparatus and Companion, a handsfree speakerphone; DMS, a complete family of digital transmission and central office switching exchanges; and TOPS, the traffic operator position system, a member of the SP-1 family of switches.

**NOVATRONICS OF CANADA LTD.**

P.O. Box 610  
677 Erie Street  
Stratford, Ontario, Canada  
N5A 6V6  
Tel: (519) 271-3880  
TWX: 610-355-8717

**Products:** high performance stepper motors with special shafts for computer and printer applications; electromagnetic wheel-type digital indicators for high readability requirements; power failure flags; fast response industrial DC motors and amplifier systems for automatic positioning; synchros, servos and DC control motors; precision electromechanical components.

**NU RAD INSTRUMENTATION**

93 Brahms Avenue  
Willowdale, Ontario, Canada  
M2H 1H5  
Tel: (416) 493-8788

**Products:** radiation counter used in monitoring radon gas in mines.

---

---

**OMICRON DATA SYSTEMS LTD.**

159 Oneida Drive  
Pointe Claire, Quebec, Canada  
Tel: (514) 733-7166  
Cable: OMIDASYS

**Products:** telephone dial access radio paging systems; consulting services in data communications, digital computer systems, design and project management; security systems; automatic dialer.

**OPTOTEK LTD.**

1283 Algoma Road  
Ottawa, Ontario, Canada  
K1B 3W7  
Tel: (613) 746-3100  
TWX: 610-562-1916

**Products:** solid-state light emitting device research, development production for applications such as alphanumeric displays, film and paper annotation, failure warning, integral lighting lamps, card and tape readers; light emitting diodes (solid-state) high-resolution multi-mode matrix displays; electronic subsystems for the above.

**OTTAWA PRINTED CIRCUITS LTD.**

1120 Morrison Drive  
Ottawa, Ontario, Canada  
K2H 8M7  
Tel: (613) 828-2565

**Products:** double-sided printed circuits, plated through the hole.

**OVAAC8 INTERNATIONAL (CANADA) INC.**

4800 Dufferin Street  
Downsview, Ontario, Canada  
M3H 5S9  
Tel: (416) 661-5088  
Telex: 06-217652

**Products:** digital image processing and information management and control systems for analysis, classification and radiometric/geometric correc-

tion of satellite and aircraft digital image data. Systems provided in turnkey packages with wide range of data input/output equipment options. High-speed programmable processor to improve performance of minicomputers. High-speed processor for special-purpose data processing also requiring complex control and data I/O manipulations.

**OWL INSTRUMENTS LTD.**

61 Alness Street  
Downsview, Ontario, Canada  
M3J 2H2  
Tel: (416) 661-1586  
Cable: OWLINST

**Products:** radiofrequency lesion makers; exerpacer automatic heart rate indicators; transcutaneous nerve stimulators; aerobic fitness tester.

**PWH ELECTRONICS LTD.**

637 College Street  
Toronto, Ontario, Canada  
M6H 4E3  
Tel: (416) 533-6331

**Products:** master clock and timing devices for radio and television stations; remote control and status reporting.

**PAN CANADA MAGNETICS LTD.**

1072 Rangeview Road  
Port Credit, Ontario, Canada  
L5E 1H3  
Tel: (416) 278-9851  
Telex: 06-960159

**Products:** audio magnetic recording tape, including hub-wound tape for loading cassettes and cartridges.

**PAYTON ASSOCIATES LTD.**

85-10 Nantucket Boulevard  
Scarborough, Ontario, Canada  
M1P 2N7  
Tel: (416) 759-4669  
Telex: 06-963792

**Products:** medical electronics, particularly aggregation

modules used in testing blood plasma.

**PERLE SYSTEMS LTD.**

135 Sparks Avenue  
Willowdale, Ontario, Canada  
M2H 2S5  
Tel: (416) 497-2551  
Telex: 065-25183

**Products:** microprocessor-based electronic subsystems, floppy disc recorders; also products made to customer specifications.

**PHILIPS ELECTRONICS LTD.**

601 Milner Avenue  
Scarborough, Ontario, Canada  
M1B 1M8  
Tel: (416) 292-5161  
Telex: 065-25100  
Cable: PHILIND TORONTO

**Products:** ground based instrument landing systems and other aeronautical navigational aids; quartz frequency control crystals; incandescent lamps and fluorescent ballasts; wooden furniture products; video display units and related products.

**PHOENIX GEOPHYSICS LTD.**

200 Yorkland Boulevard  
Willowdale, Ontario, Canada  
M2J 1R6  
Tel: (416) 493-6350  
Telex: 069-66857

**Products:** induced polarization units, variable frequency-phase-pulse transient; magnetometers, fluxgate type; VLF-radio EM receivers; resistivity systems; computer-based geophysical data acquisition systems.

**PLANTRONICS LTD.**

8110 South Trans-Canada Highway  
St.-Laurent, Quebec, Canada  
H4S 1M5  
Tel: (514) 331-9102  
Telex: 05-825558

**Products:** model 7500 — universal terminal controller; VVSET; Telex control unit.

---

**PLESSEY CANADA LTD.**

300 Supertest Road  
Downsview, Ontario, Canada  
M3J 2M2  
Tel: (416) 661-3711  
Telex: 065-24488

**Products:** key telephone and PABX equipment.

**PRECISION ELECTRONICS COMPONENTS (1971) LTD.**

19 Hafis Road  
Toronto, Ontario, Canada  
M6M 2V6  
Tel: (416) 249-7103  
Telex: 06-965654

**Products:** variable resistors, attenuators, trimmer potentiometers, non wire wound; hot moulded, and metal film.

**PRESENTY ENGINEERING PRODUCTS LTD.**

P.O. Box 919  
2784 Fenton Road, RR No. 5  
Ottawa, Ontario, Canada  
K1G 3N3  
Tel: (613) 822-1251

**Products:** recorder — continuous A/N-TSH-501 reproducer sound; rocket subcommutator; long-range communications terminal; (LRCT) airborne magnetic tape recorder; DC amplifier systems; camera control units; tactical recorder — reproducer sound; continuous marine broadcast rec/rep system; universal remote control systems for forward area tactical radio sets; airborne memoloop tape recording systems; shipborne radio operator control consoles for communications rooms; shipborne signal patch panel systems; airborne photography annotation systems; airborne data logger (pitch and roll); custom design and manufacturing; repair and overhaul.

**PYLON ELECTRONIC DEVELOPMENT CO. LTD.**

2300 Victoria Street  
Lachine, Quebec, Canada

H8S 1Z3

Tel: (514) 637-1186

**Products:** static power supplies; DC-DC converters, inverters; ringers; ring, talk and signal supplies; fuse alarm and meter panels; battery eliminators; aluminum transit cases; meter pulse generators; digital clocks; alarm systems, digital controls; electronic trunk selectors for CAMA and for ROTS applications; custom switching equipment and telephone conferencing equipment; special products including custom assembly and instrumentation; time code generator; uranium detection equipment; radioactive sources; radon and thoron gas generators; antenna switching instruments.

**PHOTOCHEMICAL RESEARCH ASSOCIATES INC.**

45 Meg Drive  
London, Ontario, Canada  
N6E 2V2  
Tel: (519) 676-2950  
Telex: 064-7597

**Products:** pulsed light sources; nanosecond light sources; arc-lamp systems; integrated arc-lamp systems; nanosecond fluorometers; pulsed polarimeters; power supplies.

**PLANTRONICS CANADA LTD.**

8110 South Service Road  
Trans Canada Highway  
St. Laurent, Quebec, Canada  
H4S 1M5  
Tel: (514) 331-9102  
Telex: 05-82558

**Products:** data communications equipment, including black boxes, interfacing devices, converters; CRT terminals with modems.

**POLESTAR ANTENNAS LTD.**

Hackett's Cove  
Halifax County, Nova Scotia,  
Canada  
B0J 3J0

Tel: (902) 823-2442

**Products:** radio beacon antennas, for power levels of 25w to 5 Kw.

**POLYTRONICS ENGINEERING LTD.**

P.O. Box 325, Station A  
Rexdale, Ontario, Canada  
M9W 5L3  
Tel: (416) 225-2026

**Products:** power-line monitoring instrument with built-in digital bubble memory (available late 1980).

**POSITRON INDUSTRIES INC.**

4810 Jean Talon Street West  
Montreal, Quebec, Canada  
H4P 2N5  
Tel: (514) 731-3715

**Products:** telephone and telecommunications equipment, including central office equipment such as electronic trunk switch, an 8-by-8 5-wire matrix to replace ROTS (available in July 1980); ringer isolator, fully immune to induced voltages up to 200v, to reduce noise on multiparty lines; teleline isolator, providing up to 64-Kv isolation on telephone lines; telephone conferencing equipment; event registration; electronic locking interface for call directors to replace mechanical locking; data speed converter; mobile radio identifier interface; four-way bridge with solid-state hybrid; standby power unit for extreme environment; bridging amplifier; base station interface; automatic disconnect unit for telegraph; automatic audiometer for periodic self-testing of hearing in high-noise environment industries; system for railways' private communication over open-wire or telephone line.

**PRESTOLITE BATTERY**

Division of Eltra of Canada Ltd.  
1352 Dufferin Street  
Toronto, Ontario, Canada

M6H 4C6  
Tel: (416) 531-2401  
Telex: 06-217706

**Products:** batteries.

**PSB SPEAKERS INC.**

P.O. Box 144,  
St. Jacobs, Ontario,  
Canada, N0B 2N0  
Tel: (519) 664-2208

**Products:** loudspeaker systems

**QUINDAR PRODUCTS LTD.**

106 Rayette Road  
Concord, Ontario, Canada  
L4K 1B6  
Tel: (416) 669-1272  
Telex: 06-964574

**Products:** electronic equipment for remote control supervision and telemetry; multiplexing systems; data modems; communications amplifiers, related equipment and accessories.

**RCA LTD.**

Royal Bank Plaza, north tower  
P.O. Box 161, 23rd floor  
Toronto, Ontario, Canada  
M5J 2J4  
Tel: (416) 865-7960  
Telex: 065-24136  
TWX: 610-491-2185

**Products:** color picture tubes; photo sensors.

**RMS INDUSTRIAL CONTROLS LTD.**

70 Williams Street  
Port Moody, British Columbia,  
Canada  
V3H 2R5  
Tel: (604) 461-1315  
Telex: 04-353554

**Products:** microprocessor-based telemetry systems; radio remote controls for industrial equipment; monitoring and supervisory control systems; data acquisition and control systems.

**RACAL (CANADA) LTD.**  
1806 Woodward Drive

Ottawa, Ontario, Canada  
K2C 0P7  
Tel: (613) 225-4640  
Telex: 053-4187  
Cable: RACOTT OTTAWA

**Products:** HF radio communications systems and ancillary equipment; communications systems; engineering and maintenance services; remote control systems; receiving antenna switching systems; digital time insertion generator/reader units for use with air traffic control recorders; frequency measuring systems.

**RADIONICS LTD.**

Radionics Medical Division  
5776 Royalmount Avenue  
Montreal, Quebec, Canada  
H4P 1K5  
Tel: (514) 735-4565  
Telex: 05-827558

**Products:** Digiecho 1000 compact digital echoencephalograph; Digiecho 2000 recording digital echoencephalograph; 3000 echo oculometer; 7000 vascular Doppler analyzer.

**RANTECH ELECTRONICS LTD.**

259 Canarctic Drive  
Downsview, Ontario, Canada  
M3J 2N7  
Tel: (416) 661-9319

**Products:** monitoring and supervisory control systems and components; data acquisition systems; telemetry systems.

**RAYSHIELD LTD.**

2630 Royal Windsor Drive  
Unit 4  
Mississauga, Ontario, Canada  
L5J 1K7  
Tel: (416) 822-6100  
Telex: 06-982316

**Products:** steel or copper-mesh RF-shielded enclosures for test labs etc.

**RAYTHEON CANADA LTD.**

400 Phillip Street  
Waterloo, Ontario, Canada

N2J 4K6  
Tel: (519) 885-0110  
Telex: 069-5431  
TWX: 610-365-3469  
Cable: RAYCAN

**Products:** primary, secondary and weather radar systems and equipment; radar microwave remoting and radar multiplex systems and equipment; analog, digital and scan converted displays; standard and Doppler VOR; distance measuring equipment (DME); microwave systems and equipment, radio, protection switching and supervisory; terrestrial (long haul, high capacity analog and digital) microwave communications systems and earth stations for satellite communications. These include stations for transmission and reception of television, voice and data in both the 6/4 and 14/12 GHz bands.

**RELIANCE TELECOMMUNICATION PRODUCTS LTD.**

122 Edward Street  
St. Thomas, Ontario, Canada  
N5P 1Z2  
Tel: (519) 631-0780  
TWX: 610-356-6703

**Products:** battery chargers; battery eliminators; ringing and tone equipment; inverters; DC to DC converters; PAX and PBX power units; power distribution control equipment and assemblies; static interrupters, ringing plants; test load units; test power supplies; voice frequency line treatment — loop extenders and VF repeaters; analog station carrier products.

**RENFREW ELECTRIC CO. LTD.**

349 Carlaw Avenue  
Toronto, Ontario, Canada  
M4M 2T2  
Tel: (416) 461-3511  
Telex: 02-2450

**Products:** resistors — carbon composition, precision wire

wound, power wire wound (fixed and adjustable), molded wire wound; thick film metal glaze, variable carbon and wire wound controls; time delay and industrial relays; wiring devices including wall plates; connectors — flat pin and printed circuit board; terminal strips — barrier.

**RESEARCH INDUSTRIES LTD.**

2779 Lake City Way  
Burnaby, British Columbia,  
Canada  
V5A 2Z8

Tel: (604) 420-3030  
Telex: 043-54720  
TWX: 610-929-1063

**Products:** battery chargers; battery charging power plants; battery eliminators; DC to DC converters; DC to AC inverters; power supplies; switching regulators; UPS systems.

**REUTER-STOKES CANADA LTD.**

465 Dobbie Drive  
Cambridge, Ontario, Canada  
N1R 5X9  
Tel: (519) 623-4880  
Telex: 06-95327

**Products;** self-powered neutron detectors and associated electronics; mineral insulated cable; thermocouples; industrial heat stress monitors.

**RICHARD BRANCKER RESEARCH LTD.**

27 Monk Street  
Ottawa, Ontario, Canada  
K1S 3Y7  
Tel: (613) 233-1621  
Telex: 053-4761

**Products:** RMS field intensity meter, radon gas detector.

**R-METRICS LTD.**

486 Wyecroft Road  
Oakville, Ontario, Canada  
L6K 2G7  
Tel: (416) 845-6036

**Products:** nuclear instrumenta-

tion; gamma radiation survey meters; dosimeter chargers; ionization chamber detectors; radiac calibrators; power supplies.

**ROCHESTER INSTRUMENT SYSTEMS LTD. (RISCAN)**

915 Kipling Avenue  
Toronto, Ontario, Canada  
M8Z 5H4

Tel: (416) 233-6218  
Telex: 06-23284

**Products:** solid-state visual annunciators; electronic trips and alarms; solid-state signal converters and transducers for processing industries and power utilities; industrial temperature monitors; vibration sensors and monitors; uninterruptible power supplies; sequential event recorders.

**ROCKWELL INTERNATIONAL OF CANADA LTD.**

Collins Canada Division  
150 Bartley Drive  
Toronto, Ontario, Canada  
M4A 1C7

Tel: (416) 757-1101  
Telex: 02-21130  
TWX: 610-492-1375

Cable: COLINRAD TORONTO

**Products;** airborne radio communications and navigation equipment; airborne, land mobile and fixed base SSB communications equipment; portable manpack and hand-held UHF transceivers; microwave and multiplex equipment; high power short wave broadcast transmitters; maritime HF SSB transceivers with automatic antenna couplers; automatic direction finder-VHF/UHF.

**ROSS VIDEO LTD.**

P.O. Box 220  
9 Plaza Drive  
Iroquois, Ontario, Canada  
K0E 1K0

Tel: (613) 652-4889  
Telex: 05-811579

**Products:** television production switchers.

**RUSCOM LOGICS LTD.**

885 Don Mills Road  
Don Mills, Ontario, Canada  
M3C 1W2

Tel: (416) 443-6860  
Telex: 06-966825

**Products:** digitizers; buffered teletypewriter motor controllers; digital frequency recorders; custom engineered computerized process and material control systems; supervisory control and data acquisition systems in hydroelectric, water, waste, oil and gas networks; optical bar code reading systems; materials handling systems.

**SED SYSTEMS LTD.**

P.O. Box 1464  
23-66 Avenue CN,  
Saskatoon, Saskatchewan,  
Canada

S7K 3P7  
Tel: (306) 244-0976  
Telex: 074-2495  
TWX: 610-731-1476

**Products:** complete satellite earth stations for 4/6 and 11/14 GHz systems; specialize in LNA receiver and filter production; aerospace subsystems for balloon, rocket and satellite systems; instrumentation for agricultural implements, telecommunications systems and power line monitoring.

**Services:** engineering consultants for environmental control of buildings; aerospace and communications systems.

**SAFT BATTERIES LTD.**

1361 Huntingwood Drive,  
Unit 11  
Scarborough, Ontario, Canada  
M1S 3J1

Tel: (416) 298-7322

**Products:** batteries — nickel-cadmium, alkaline, wet-cell.

---

**SANDER GEOPHYSICS LTD.**

250 Hertzberg Road  
Kanata, Ontario, Canada  
K2K 1X3  
Tel: (613) 592-1301  
Telex: 053-4755

**Products:** digital data acquisition systems for geophysical environmental and technical data recording; high resolution magnetometers; airborne gamma ray spectrometers; airborne cameras for flight path recovery; airborne electromagnetic survey instruments; custom-designed airborne geophysical survey systems; airborne VLF electromagnetic instruments.

**SANDTRON AUTOMATION LTD.**

1404 Wallace Road  
Oakville, Ontario, Canada  
L6L 2Y2  
Tel: (416) 827-8230

**Products:** industrial photoelectric controls for production machinery and conveyors; electronic counters for batch control; also cut-to-length controls.

**SCANNEX INTERNATIONAL**

125 Norfinch Drive  
Downsview, Ontario, Canada  
M3N 1W8  
Tel: (416) 635-9900  
Telex: 06-217754

**Products:** closed circuit television; rearview camera.

**SCINTREX LTD.**

222 Snidercroft Road  
Concord, Ontario, Canada  
L4K 1B5  
Tel: (416) 669-2280  
Telex: 06-964570  
Cable: SCINTREX TORONTO

**Products:** fluxgate and proton precession magnetometers for surface, drill hole, observatory and airborne use; susceptibility meters for field and lab measurements; CG series quartz gravity meters for prospecting

and geodetic surveys; electromagnetic prospecting systems including tilt-angle systems, moving source and fixed source compensation systems; drill hole electromagnetic compensator systems; helicopter and fixed wing airborne electromagnetic systems; frequency and time domain types induced polarization systems; integral and differential gamma-ray spectrometers for ground, drill hole and airborne applications; radiometric logging equipment for borehole, airborne and airborne use; neutron-prompt gamma-ray activation facility and borehole logging system; research system for study of mill-site ore grade analysis; AC and DC resistivity equipment; analytical instruments for laboratory and field analysis of vapours, water and solid samples for geochemical purposes; monitoring instrumentation for nuclear power plants.

**SEMCO INSTRUMENTS CO. LTD.**

1339 Baseline Road  
Ottawa, Ontario, Canada  
K2C 0A7  
Tel: (613) 225-1197  
Telex: 053-3189

**Products:** scanning electron microscopes and accessories.

**SENTROL SYSTEMS LTD.**

4401 Steeles Avenue West  
Downsview, Ontario, Canada  
M3N 2S4  
Tel: (416) 661-7000  
Telex: 069-65672

**Products:** Pulp and Paper Div: sensors and control equipment for the pulp and paper industry; overall control systems using mini and micro-computers with modular software and hardware for pulp mills and paper machines; sensors and control

systems for most accurate measurement and control of grammage (basis weight), moisture, caliper, brightness, colour, opacity, reel hardness, grammage. Petroleum Div: control systems for the petroleum industry, mineral processing and data communications.

**SHAW FLEXIBLE TUBES LTD.**

25 Bethridge Road  
Rexdale, Ontario, Canada  
M9W 1M7  
Tel: (416) 743-7111  
Telex: 06-989435

**Products:** electronic-instrument wire and cable.

**SHEFFORD ELECTRONICS CORP.**

1010 Sherbrooke Street West,  
Suite 504  
Montreal, Quebec, Canada  
H3A 2R7  
Tel: (514) 288-2271  
Telex: 055-61370

**Products:** radio direction finding equipment for fixed, mobile and shipborne requirements.

**SHELLCAST FOUNDRIES INC.**

10645 Lamoureux Street  
Montreal, Quebec, Canada  
H1G 5L4  
Tel: (514) 322-3760  
Telex: 05-828787

**Products:** precision investment castings for electronics and aerospace industry.

**SINCLAIR RADIO LABORATORIES LTD.**

122 Rayette Road,  
Maple, Ontario, Canada  
L4K 1B6  
Tel: (416) 669-1244  
Telex: 06-964598

**Products:** antennas for all frequencies specially VHF and UHF; low intermod antennas specifically for multicoupling; DME antennas; filters and filter systems particularly for multicoupling with low intermod,

bandpass, low and high pass, band stop, etc.; HF transformers and baluns; active receiver multicouplers; autotuned filters and antenna couplers; duplexers; consulting services on all antenna and filter systems; measurement services for Intermod products, filter characteristics, antenna patterns and impedances.

#### **SIOC LTD.**

3085 Lenworth Drive  
Mississauga, Ontario, Canada  
L4X 2G4

Tel: (416) 625-1790  
Telex: 06-961172

**Products:** monitoring and control devices for process and power industries.

#### **S.G. SMALLWOOD LTD.**

385 Phillip Street  
Waterloo, Ontario, Canada  
N2L 5R8  
Tel: (519) 886-4390

**Products:** components custom-made to customer specifications, including filters, cross-over networks, IF transformers, coils — AF, IF, RF.

#### **W. SODIN (GRAVITY) LTD**

211 Hendon Avenue  
Willowdale, Ontario, Canada  
M2M 1A9

Tel: (416) 225-4513  
Cable: SODINST TORONTO

**Products:** gravity meters, for mineral and oil exploration and scientific study.

#### **SOLA BASIC LTD.**

125 East Drive  
Bramalea, Ontario, Canada  
L6T 1B8

Tel: (416) 791-3223  
Telex: 06-97798

**Products:** constant-voltage transformers, up to 500 KVa.

#### **SONA-TECH SECURITY SYSTEMS**

Sonoguard Security Systems Ltd.

158 Pitt Street, No. 1  
Cornwall, Ontario, Canada  
K6J 3P4

Tel: (613) 938-1400

**Products:** Sona-Tech portable alarm Model III; Sona-Tech residential security system.

#### **SONOTEK LTD.**

2410-4 Dunwin Drive  
Mississauga, Ontario, Canada  
L5L 1J9

Tel: (416) 828-6810  
Telex: 065-24733

**Products:** integrated geophysical survey system; data acquisition systems; digital transducer indicator; digital industrial barometer; radiation integrator; geophysical and meteorological instrumentation.

#### **SOUTHWELL CONTROLS LTD.**

857 West 3rd Street  
North Vancouver, British  
Columbia, Canada

V7P 1E3  
Tel: (604) 980-3688  
Telex: 04-352526

**Products:** control systems; tachometers; printed circuit boards.

#### **SPACE CIRCUITS LTD.**

156 Roger Street  
Waterloo, Ontario, Canada  
N2J 4A4

Tel: (519) 742-5896  
Telex: 069-5126

**Products:** printed circuit boards; striplines; computer back-panels; multilayers; fine line (0.006 lines and spaces) circuits; and "multiwire".

#### **SPAR AEROSPACE PRODUCTS LTD.**

Royal Bank Plaza  
South Tower, Box 83  
Toronto, Ontario, Canada  
M5J 2J2

Tel: (416) 781-1571  
Telex: 065-24240  
Cable: SPARCAL TOR

**Products:** satellite communications systems and satellite subsystems including electronics, altitude control systems, deployable solar cell array power generating systems, solar array drives, tracking and power transfer system; telecommunications systems; extendible antennas and structures for spacecraft; infrared acquisition systems; electro-optical systems for remote sensing; power conditioning equipment; earth stations; transponders; microwave relay systems.

#### **SPARTON OF CANADA LTD.**

P.O. Box 5125  
100 Elm Street  
London, Ontario, Canada  
N6A 4N2

Tel: (519) 455-6320  
Telex: 064-5876  
Cable: SPARTON

**Products:** research, development and manufacture of military and commercial electronic products; seven types of passive sonobuoys with a specialized seismic buoy, and four active sonobuoy designs; miniature mobile target; transducers; hydrophones; passive intrusion systems consisting of infrared, magnetic, and seismic sensors. These intrusion devices include datalink units so that systems can be hardwired or wireless linked.

#### **SPERRY GYROSCOPE**

A Division of Sperry Inc.  
P.O. Box 390, Station A  
Ottawa, Ontario, Canada  
K1N 8P6

Tel: (613) 728-4681  
Telex: 053-3637  
TWX: 610-562-1972

**Products:** time division multiplexers; modular communication control systems; teletest, videographs; laser ceilometers; depth recorders; horizon bars (for shipboard hello opera-

tions); temperature monitoring systems; echo sounders; cordwood modules and cards; headsets; distortion analysers; message generators; Fox test generators; supervisory control; marine telephone; variosens (water pollution monitor); aircraft flight instruments; marine radars; cable harnesses.

**Services:** repair and overhaul of air and marine electronics with special emphasis on flight instruments; communications (misc.); communicators (process control); counting and timing devices; event recorders; electro optical and infrared equipment; environment instrumentation and monitoring; geophysical equipment (marine); lasers and ancillary equipment; navigation (marine); oceanography and meteorology detection; radar systems; remote sensing; repair and overhaul services; telegraph equipment; telephone equipment, cable harnesses; sensors.

#### **SPERRY MARINE SYSTEMS (SPERRY INC.)**

P.O. Box 390, Station A  
Ottawa, Ontario, Canada  
K1N 8P6  
Tel: (613) 728-4691  
Telex: 053-3637  
TWX: 610-562-1972

**Products:** HF and VHF communications equipment.

#### **SPERRY UNIVAC DEFENCE SYSTEMS**

A Division of Sperry Inc.  
130 Albert Street, Suite 1116  
Ottawa, Ontario, Canada  
K1P 5G4  
Tel: (613) 237-4423

**Products:** data processing equipment associated with military requirements for use in distributed processing, fire direction control systems, machinery control and monitoring, communications, weapons and

counter measures, electronic warfare, sonar, image processing, radar, peripheral controllers and navigation for surface and airborne applications; total system, design, manufacturing and test capabilities, for specialized requirements.

#### **SPILSBURY & TINDALL LTD.**

120 East Cordova Street  
Vancouver, British Columbia,  
Canada  
V6A 1L1  
Tel: (604) 684-4131  
Telex: 04-55482  
Cable: SPILTIN VANCOUVER

**Products:** automatic self-tuning antennas; tuneable whip antennas; antenna tuning units; HF SSB fixed, portable, mobile and marine radiotelephone equipment; LF non-directional radio beacons and automatic beacon antennas; specialized HF antennas; automatic self-tuning antennas and antenna tuning units for service on land, sea and air; VHF and fixed and mobile, VHF marine mobile radio systems; LF and HF monitor receivers.

#### **SPRAGUE ELECTRIC OF CANADA LTD.**

49 Bertal Road  
Toronto, Ontario, Canada  
M6M 4M7  
Tel: (416) 766-6123  
Telex: 06-969658  
Cable: TELEFARAD

**Products:** solid molded axial leaded tantalum capacitors; axial monolithic capacitors; power factor corrections capacitors.

#### **STATICON LTD.**

2220 Midland Avenue  
Scarborough, Ontario, Canada  
M1P 3E6  
Tel: (416) 291-3723  
Telex: 065-25211

**Products:** AC and DC solid-state no-break (UPS) systems;

battery power plants and float charger systems for communications applications; battery eliminators; switchgear battery chargers all voltages; plating rectifiers including Electro Foresis Systems all voltages and ratings; battery chargers for turbine and engine starting all ratings; static inverters; DC-DC converters, all voltages; frequency converters, magnetron power supplies; solid-state AC voltage regulators; industrial lift truck battery chargers.

#### **STEVENS CONTROLS LTD.**

20 Arthur Avenue East  
P.O. Box 446  
Renfrew, Ontario, Canada  
K7V 4A6  
Tel: (613) 432-5221

**Products:** bimetallic temperature controls for portable heaters, appliances, etc., also relays.

#### **STRITE INDUSTRIES LTD.**

298 Shepherd Avenue  
Cambridge, Ontario, Canada  
N3C 1V1  
Tel: (519) 658-9361  
Telex: 069-59383

**Products:** high technology machining service for electronic and mechanical requirements; problem components for advanced products such as inertial guidance gyro components; turbo-charger thrust collars; nuclear reactor hardware; eddy current probes and electronic heat sinks; machining methods include multi-form crush grinding, broaching, electrical discharge machining and thread grinding.

#### **SYNTHANE-TAYLOR (CANADA) LTD.**

23 Commander Boulevard  
Agincourt, Ontario, Canada  
M1S 3E7  
Tel: (416) 293-4181  
Telex: 065-25384

**Products:** insulators.

---

**SYSTEMHOUSE LTD.**

99 Bank Street, 3rd floor  
Ottawa, Ontario, Canada  
K1P 6B9  
Tel: (613) 236-9734  
Telex: 053-4517

**Products:** a complete range of information systems services; turnkey minicomputer solutions; computerized systems: cartographic, hospital and business; consulting services; computer programming, systems and data base expertise.

**TECHWEST ENTERPRISES LTD.**

3650 Westbrook Mall  
Vancouver, British Columbia, Canada  
V6S 2L2  
Tel: (604) 224-1113  
Telex: 04-507748  
Cable: RESEARCHBC

**Products:** data acquisition units employing 16 mm and 35 mm cameras (e.g., for highway photologging applications); electronic instrument design and manufacture; electro-optical grading, equipment (e.g., apple colour meter).

**TELE-RADIO SYSTEMS LTD.**

301 Supertest Road  
Downsview, Ontario, Canada  
M3J 2M4  
Tel: (416) 661-3221  
TWX: 610-492-2384

**Products:** telephone line conditioning equipment; custom communication apparatus; power system protective devices (under-frequency relays, battery ground fault detectors, frequency trend relays; surge arrester tester); solar electric power systems.

**TELEVOX SYSTEMS INC.**

215 Caron Street  
Quebec, Quebec, Canada  
G1K 5V6  
Tel: (418) 522-3851

Telex: 05-13311

**Products:** intercom systems; educational systems — manual and automated; public address systems; intercom amplifiers; amplifiers with stored programs; pre-amplifiers and mixers; intercom duplex amplifiers; private telephone exchange; crossbar switching systems.

**TOWER COMMUNICATIONS CO. (CANADA) LTD.**

A Subsidiary of F.P.K. Holdings Ltd.  
P.O. Box 1011  
375 Lee Street  
Quebec, Quebec, Canada  
G1K 5Y1  
Tel: (418) 524-5221  
Telex: 051-3868

**Products:** custom designed structural steel towers (guyed and self-supporting) for commercial use on TV, FM, AM, HF, LF and VHF systems; specialize in telecommunications towers.

**TRANSCOM ELECTRONICS MFG. LTD.**

239 Belanger Street  
St. Jerome, Quebec, Canada  
J7Y 1K7  
Tel: (514) 438-1060  
Telex: 05-839531

**Products:** negative impedance type voice frequency repeaters (telephone industry application — toll and extended area service, long subscriber loop service, special services); loop signalling extenders (for extension of telephone central office subscriber loop limits to 1,800 ohms); booster power modules (for extension of telephone central office subscriber loop limits to 3,000 ohms); bridge filters; impedance compensators; fuse and alarm panels.

**TRIBAR INDUSTRIES LTD.**

3650 Weston Road

Weston, Ontario, Canada  
M9L 1W2

Tel: (416) 749-6000  
Telex: 065-27167

**Products:** radar (police) Model DRS3, T3 and MDR-1; radar (sports) Model T3S, Model MDR-1 track radar may be used in stationary mode or with capability of monitoring moving traffic.

**TMC (CANADA) LTD.**

R.R. 5  
Ottawa, Ontario, Canada  
K1G 3N3  
Tel: (613) 521-2050  
Telex: 053-4146

**Products:** RF amplifiers and preamplifiers; antenna couplers; coils; communications equipment and systems; connectors; converters; filters; receivers — LF/VLF, marine, SSB, VHF; coaxial relays and switches; emergency transceivers; RF and IF transformers; transmitters.

**TECHNICAL ENTERPRISES LTD.**

2266 Drew Road, Unit 9  
Mississauga, Ontario, Canada  
L5S 1B1  
Tel: (416) 677-2101

**Products:** anti-static antenna fittings for aircraft.

**TECTROL INC.**

4 Ashwarren Road  
Downsview, Ontario, Canada  
M3J 1Z5  
Tel: (416) 630-8108

**Products:** switching power supplies, inverters, DC/DC converters, standby power supplies.

**TELE-DEVICES LTD.**

5850 Vanden Abeele  
St. Laurent, Quebec, Canada  
H4S 1R9  
Tel: (514) 331-4422  
Telex: 05-827651

**Products:** telephone sets and special-purpose telephones, speaker-phones.

**THERMO ELECTRIC  
(CANADA) LTD.**

12 Rutherford Road South  
Brampton, Ontario, Canada  
L6W 3J2  
Tel: (416) 451-0183  
Telex: 06-97664  
TWX: 610-492-2696

**Products:** thermocouples and complete assemblies; bridges; packaged and modular circuits; temperature controls, temperature-detection thermocouples and RTD meters; temperature sensors; temperature indicators and digital panel meters and monitors, transducers.

**THOMAS & BETTS LTD.**

Box 30  
Iberville, Quebec, Canada  
J2X 2M9  
Tel: (514) 658-6611  
Telex: 05-831550

**Products:** electronic connectors and harnessing accessories, also identification products.

**TORPEY CONTROLS &  
ENGINEERING LTD.**

70 Milner Avenue  
Unit 5  
Scarborough, Ontario, Canada  
M1S 3P8  
Tel: (416) 298-6220

**Products:** computer-based systems for television broadcasting.

**UNI-TEL LTD.**

1792 Birchmount Road  
Scarborough, Ontario, Canada  
M1P 2H7  
Tel: (416) 291-3131  
Telex: 06-963523

**Products:** equipment and systems for supervisory control, remote control, fault-alarm reporting, telemetering and data transmission, for such customers as telephone operating companies, pipelines, power generating and distributing utilities, municipal utili-

ties, railroads, radio and television broadcasters, and industrial and manufacturing companies.

**UNICAN ELECTROCHEMICAL  
PRODUCTS LTD.**

5795 De Gaspé Avenue  
Montreal, Quebec, Canada  
H2S 2X3  
Tel: (514) 273-0451  
Telex: 05-24651

**Products:** zinc air hearing aid battery; electrochemical timing elements.

**UNITRON INDUSTRIES LTD.**

685 Wabanaki Drive  
P.O. Box 9017  
Kitchener, Ontario, Canada  
N2G 4J3  
Tel: (519) 893-6800  
Telex: 069-5209

**Products:** a complete line of hearing aids including: rechargeable, high power, directional, HLC (high level compression), high frequency emphasis, peak clipping, diode clipping, and linear models.

**UNIVERSAL TECHNOLOGY  
INC.**

1685 Ingleton Avenue  
Burnaby, British Columbia,  
Canada  
V5C 4L8  
Tel: (604) 299-8414

**Products:** radio remote controls for forestry, barges, trains, mining operations etc.

**UP-RIGHT SCAFFOLDS LTD.**

108 Industrial Drive  
Whitby, Ontario, Canada  
L1N 5Z8  
Tel: (416) 668-7701  
Telex: 06-981395

**Products:** portable aluminum microwave path-loss test towers, with optional antenna dollies; installer's scaffolds.

**VALCOM LTD.**

P.O. Box 603

Guelph, Ontario, Canada  
N1H 6L3

Tel: (519) 824-3220  
Telex: 069-56593

**Products:** fibreglass whip antennas, free standing 35 ft. to 80 ft. (10.7 m to 24.4 m) 2 to 30 MHz both military and commercial versions; auto tune couplers, 1kW to 10 kW; power supplies, cable assemblies, amplifiers, antennas, splitter panels, electronic assembly work.

**VARIAN ASSOCIATES OF  
CANADA LTD.**

45 River Drive  
Georgetown, Ontario, Canada  
L7G 2J4  
Tel: (416) 457-4130  
Telex: 069-7502  
TWX: 610-492-2641

**Products:** microwave tubes — millimeter wave tubes up to 220 GHz, klystrons, travelling wave tubes, magnetrons; power supplies — travelling wave tubes and klystrons; magnetometers — cesium and proton, portable, airborne, and underwater; Klystron power amplifiers.

**VESTSHELL INC.**

10351 Pelletier Street  
Montreal, Quebec, Canada  
H1H 3R2  
Tel: (514) 322-2371

**Products:** precision investment casting of ferrous alloys; silicon iron; monel; cobalt alloys; soft magnets.

**VISCOOUNT INDUSTRIES LTD.**

105 East 69 Avenue  
Vancouver, British Columbia,  
Canada  
V5X 2W9  
Tel: (604) 327-9446  
Telex: 04-508605

**Products:** television systems, studio equipment and special-effects generators.

**VOLKER-CRAIG LTD**

266 Marsland Drive  
Waterloo, Ontario, Canada  
N2J 3Z1  
Tel: (519) 884-9300  
Telex: 069-5127

**Products:** TTY compatible video display computer terminals including 414H Hazeltine emulation editing terminal; VT52-VT emulation terminal and 415 APL-APL overstrike terminal board, special character fonts and serial or parallel peripheral interface for maximum flexibility to meet each user's particular requirements.

**WR COMMUNICATIONS LTD.**

1655 West 3rd Avenue  
Vancouver, British Columbia,  
Canada  
V6J 1K1  
Tel: (604) 732-6358  
Telex: 04-54542

**Products:** VHF and UHF mobiles, base stations, remote controls, repeaters and paging systems.

**WARD AUTOMOTIVE  
ELECTRONICS OF CANADA  
LTD.**

188 Bentworth Avenue  
Toronto, Ontario, Canada  
M6A 1P8  
Tel: (416) 789-1167  
TWX: 610-491-0462

**Products:** vehicular antennas.

**WARD-BECK SYSTEMS LTD.**

841 Progress Avenue,  
Scarborough, Ontario,  
Canada, M1H 2X4.  
Tel: (416) 438-6550  
Telex: 065-25399

**Products:** Audio and TV broadcast consoles and associated equipment.

**WEBER ELECTRONICS**

Compar Division  
105 Brisbane Road  
Downsview, Ontario, Canada

M3J 2K6

Tel: (416) 663-5670

TWX: 610-492-1337

**Products:** printed-circuit card-edged connectors.

**WESTERN RESEARCH &  
DEVELOPMENT LTD.**

Instrumentation Sales  
1313 — 44th Avenue Northeast  
Calgary, Alberta, Canada  
T2F 6L5  
Tel: (403) 276-8806  
Telex: 038-24684

**Products:** pollution monitoring equipment, source and ambient; continuous stack emission monitoring systems — SO<sub>2</sub>, NO<sub>x</sub>, O<sub>2</sub> and particulates; H<sub>2</sub>S analyzers; ambient monitoring systems and data handling packages; sulphur plant process measurement and control systems; ultraviolet photometric analyzers.

**WESTERN SCALE CO. LTD.**

1670 Kingsway Avenue  
Port Coquitlam, British  
Columbia, Canada  
V3C 3Y9  
Tel: (604) 941-3474

**Products:** digital weight indicators; microprocessor control systems.

**WESTINGHOUSE CANADA  
LTD.**

Electronic Systems Division  
P.O. Box 5009  
Burlington, Ontario, Canada  
L7R 4B3  
Tel: (416) 528-8811  
Telex: 061-8409

Cable: WESTCAN HAMILTON

**Products:** computer terminals and display systems for video presentation of digital information; communications controllers for polling, message switching and control in digital networks; line tracing systems for automatic contour control of gas and plasma cutting and other machine tool applica-

tions; electrohydraulic, pneumatic and electronic industrial instrumentation devices and integrated systems using such components for the measuring, recording and controlling of industrial and power generating processes; semi-conductor bridge assemblies; nuclear components and nuclear protection and monitoring systems; sonar and other forms of underwater sound detection and weapon control systems; airborne and surface electronic data gathering and weapon control systems; electronic warfare and electronic counter measure equipment; satellite ground station subsystems; electronic manufacturing and engineering subcontract services.

**WILDCAT CONTROL CORP.  
LTD.**

300 Wildcat Road  
Downsview, Ontario, Canada  
M3J 2N5  
Tel: (416) 661-2600  
Telex: 065-24001

**Products:** miniature low pressure switches.

**WILLOWGLEN CO. LTD.**

P.O. Box 1057, Station T  
1235 — 64 Avenue Southeast  
Calgary, Alberta, Canada  
T2H 2H4  
Tel: (403) 253-3051  
TWX: 610-821-0405

**Products:** VASCON-200 data acquisition and supervisory control system; VASCON-220 process controller computer based 4 mode process controller.

**THE WIND TURBINE CO. OF  
CANADA LTD.**

21 Howard Avenue  
Elmira, Ontario, Canada  
N3B 2C9  
Tel: (519) 669-5421  
Telex: 069-55282

**Products:** wind-driven generators; microwave and high-frequency antennas; broadcasting towers and transmission lines.

**YORKVILLE SOUND LTD.**

80 Midwest Avenue  
Scarborough, Ontario, Canada  
M1P 4R2

Tel: (416) 751-8481

Telex: 06-969731

**Products:** musical-instrument amplifiers, sound-reinforcement systems, amplifiers, speakers and accessories.

---

## Consultants, General

**ADGA GROUP**

Engineers and Systems Analysts

P.O. Box 227, Terminal A  
Ottawa, Ontario, Canada  
K1P 5G3

Tel: (613) 237-3022

Telex: 053-4568

Cable: ADGA OTT

**Services:** specialists in all project phases of electronic systems; terrestrial and satellite communications; computer hardware and software; radar and electronic navigational aids for applications such as air traffic control, marine vessel traffic management systems; telephone switching; railway signalling and control; area and point-to-point radio networks and satellites — both communication and scientific.

**BELL CANADA-INTERNATIONAL MANAGEMENT, RESEARCH AND CONSULTING LTD.**

1 Nicholas Street, 8th Floor  
Ottawa, Ontario, Canada  
K1G 3J4

Tel: (613) 563-1811

Telex: 053-4849

**Services:** expertise in all facets of telecommunications on consulting or turnkey basis; forecasting, planning and studies;

management, construction and turnkey operation; engineering, furnishing and installation; operations and maintenance; training; computer communications; staff has worked in more than 40 countries.

**BLANAROVICH ENGINEERING**

Box 292

Don Mills, Ontario, Canada  
M3G 2S2

Tel: (416) 439-6679

**Services:** design and engineering of antenna systems — HF, VHF, UHF and satellite.

**BRISTOL AEROSPACE LTD.**

P.O. Box 874

Winnipeg, Manitoba, Canada  
R3C 2S4

Tel: (204) 775-8331

Telex: 07-57774

TWX: 610-671-3598

Cable: BRISAIRCO

**Services:** data acquisition studies in the fields of pollution, meteorology, hydrology, oceanography and machine diagnostics; various methods of data acquisition are studied and recommendations are made, and design, fabrication, and installation of complete systems can be provided; complete engineering services for sounding rocket payloads from feasibility studies to instrument development and test flight.

**CABLE CONSULTING SERVICES LTD.**

1608 Truscott Drive  
Mississauga, Ontario, Canada  
L5J 1Z4

Tel: (416) 822-0625

**Services:** management and engineering consulting services for all aspects of cable television distribution systems, including feasibility studies, cost projections and engineering design; design of microwave systems and interference studies for satellite earth stations; extensive experience in coaxial VHF systems and multipair HF

systems, having been associated with the development of CATV in Canada and the United States for 26 years and with Rediffusion in Britain for six years; previous experience in telephone engineering; 14 years with British Post Office engineering department.

**CANADIAN PACIFIC CONSULTING SERVICES LTD.**

Windsor Station, Room 171  
Montreal, Quebec, Canada  
H3C 3E4

Tel: (514) 395-5151

Telex: 055-60147

Cable: CANPAC MONTREAL

**Services:** consulting specialists in planning, system engineering, construction, operation and administration of general telecommunication services; broad spectrum of services also available in respect to computer communication systems and railway signalling and communication systems.

**CANSULT LTD.**

275 Duncan Mill Road  
Toronto, Ontario, Canada  
M3B 3H9

Tel: (416) 445-9431

Telex: 06-966783

Cable: CANSULT TORONTO

**Services:** consulting engineering services, specializing in such fields as power transmission and communication, power stations, electrical installations, industrial utilities, airports and air transport, town-site master planning.

**CANTEL ENGINEERING ASSOCIATES LTD.**

402 West Pender Street  
Vancouver, British Columbia, Canada  
V6B 1T6

Tel: (604) 684-1144

Telex: 04-507775

Cable: CANTELCOM

1300 8th Street South West  
Calgary, Alberta, Canada  
T2R 1B2

Tel: (403) 266-7262  
Telex: 03-826791

**Services:** feasibility studies, field surveys, design and specification, tender evaluation, project management, briefs to government authorities, inspection and training, with the following specialization: broadcasting (AM, FM, TV and CATV), microwave, mobile, satellite, data communications and telephony.

**COLE, SHERMAN & ASSOCIATES LTD.**

2025 Sheppard Avenue East  
Willowdale, Ontario, Canada  
M2J 1W3  
Tel: (416) 491-4503  
Telex: 06-966647  
Cable: CSAINC, TOR

**Services:** postal engineering.

**CUSHING & NEVELL TECHNICAL & COMMERCIAL PUBLICATIONS LTD.**

120 Eglinton Avenue East  
Toronto, Ontario, Canada  
M4P 1E2  
Tel: (416) 487-2866

**Services:** electronic technical advertising and technical writing, with language capability.

**DGB CONSULTANTS INC.**

P.O. Box 40  
Desjardins Postal Station  
Montreal, Quebec, Canada  
H5B 1B2  
Tel: (514) 282-9531  
Telex: 055-60042

**Services:** professional services in the telecommunication and computer fields; feasibility studies, systems concept and design, preparation of plans and specifications, analysis of bids from suppliers; project management, training of personnel and commissioning; application experience acquired over the last 20 years is: microwave systems, switching, cable distribution, radio and television broadcasting stations,

audio-visual systems, mobile communications systems; computer information storage and retrieval systems.

**DELGOR CONSULTANTS**

Billings Bridge Plaza  
P.O. Box 8004  
Ottawa, Ontario, Canada  
K1G 3H6  
Tel: (613) 733-9220  
Telex: 053-4152  
Cable: DELGOR

**Services:** specialists in wastewater collection, treatment, and disposal, using computerized equipment for analysis; solid-waste management; energy recovery; computerized supervisory control.

**DIGITAL METHODS LTD.**

1736 Courtwood Crescent  
Ottawa, Ontario, Canada  
K2C 2B5  
Tel: (613) 225-1171  
Telex: 053-3661

**Services:** software and systems engineering in the field of computer systems and applications; methods analysis and management engineering; particular applications: air traffic control simulation, telex switching, vehicle dispatch.

**DIGITECH LTD.**

500, 441 - 5th Avenue South  
West  
Calgary, Alberta, Canada  
T2P 2V1  
Tel: (403) 265-3484

**Services:** digital processing of land and marine geophysical survey data for the petroleum exploration industry; seismic processing and software systems; geophysical modeling and software systems; gravity and magnetic processing; custom geological file development; custom geophysical file development; digitizing services and software systems; mapping services and software systems.

**THE ECE GROUP**

205 Lesmill Road  
Don Mills, Ontario, Canada  
Tel: (416) 449-1030

**Services:** feasibility studies; design and specification of electronic communications and control systems; installation management; reports; negotiations with utilities; microprocessor applications — both hardware and software; tender evaluations; inspection; environmental and energy management.

**HOYLES NIBLOCK INTERNATIONAL LTD.**

4664 Lougheed Highway  
Burnaby, British Columbia,  
Canada  
V5C 5R7  
Tel: (604) 294-3401  
Telex: 043-54623  
Cable: TELECOM VANCOUVER

**Services:** systems engineers with expertise in telecommunications transmission systems (microwave, troposcatter, radar, satellite, UHF, VHF, HF, MF, powerline carrier, VF cable); telephony systems (CO and PABX equipment, private networks, outside plant, station equipment, traffic and tariff studies); data/control systems (datacom facilities, computer hardware, applications software, SCADA systems); broadcasting stations (AM and FM radio, television, cable TV, closed-circuit TV, TVRO earth stations); range of services offered includes project management; system evaluations, feasibility studies, short and long-term system planning; preparation of applications for licensing authorities; conceptual and detailed system design; preparation of specifications for tender purposes; evaluation of tenders and assistance in contract negotiation; supervision of construction, including

factory and field testing; implementation and operations assistance.

**WILLIAM G. HUTCHISON & CO. LTD.**

P.O. Box 5819, Station A  
Toronto, Ontario, Canada  
M5W 1P2  
Tel: (416) 449-2761  
Telex: 06-966710

**Services:** computer consulting—high technology.

**INTEL CONSULTANTS LTD.**

77 Metcalfe Street, Suite 709  
Ottawa, Ontario, Canada  
K1P 5L6  
Tel: (613) 236-2311  
Telex: 053-4533  
Cable: INTELCON OTT

**Services:** telecommunications systems engineering and economics consultancy; feasibility studies including economics aspects such as rate of return, cash flow analyses, depreciation, etc.; planning and systems design in all branches of telecommunications transmission and switching; project management and management consultancy.

**INTERNATIONAL AERADIO (NORTH AMERICAN) LTD.**

70 Don Park Road, Unit 15  
Markham, Ontario, Canada  
L3R 1G4  
Tel: (416) 495-1144  
Telex: 06-986818

**Services:** handling turnkey contracts in the two-way manned mobile radio field; provision of a computer-aided dispatch system for transit operations.

**KENDALL ASSOCIATES LTD.**

77 Metcalfe Street, Suite 406  
Ottawa, Ontario, Canada  
K1P 5L6  
Tel: (613) 236-0875  
Telex: 053-3560  
Cable: KENMARK

**Services:** marketing consul-

tants specializing in surveys and studies for clients interested in North American defence or technical markets; provision of temporary technical personnel in electronics, aerospace and computer technology.

**JAMES F. MACLAREN LTD.**

1220 Sheppard Avenue East,  
Suite 100  
Willowdale, Ontario, Canada  
Tel: (416) 499-0880  
Telex: 06-986794  
Cable: JAYMAC

**Services:** Environment assessment, control and monitoring; instrumentation and control design.

**MILLER COMMUNICATIONS SYSTEMS LTD.**

300 Legget Drive  
Kanata North Business Park  
Kanata, Ontario, Canada  
K2K 1Y5  
Tel: (613) 592-3020  
Telex: 053-4164

**Services:** operates principally in the area of systems engineering, specializing in satellite communications systems planning; the company has the capability to design, construct, and install communications facilities of a highly customized nature in a short time frame.

**MONTREAL ENGINEERING CO. LTD.**

P.O. Box 6088, Station A  
2045 Stanley Street  
Montreal, Quebec, Canada  
H3C 3Z8  
Tel: (514) 286-3636  
Telex: 055-60735  
Cable: MONENCO

**Services:** consulting engineering services in communications and supervisory control systems for power generating plants, electric power transmission networks (including high voltage DC), pipelines, pumping stations and industrial plants.

**MOSAID INC.**

212 Morrison Drive, Suite 212  
P.O. Box 11123, Station H  
Ottawa, Ontario, Canada  
K2H 7TH  
Tel: (613) 820-7316  
Telex: 053-4986

**Services:** specializes in the design and design analysis of MOS memory chips; is equipped for state-of-the-art circuit and layout design of devices such as VLSI dynamic RAMs; on-site work is undertaken to see designs into production and the company works with a U.S. processing house to prove-in designs before transfer if required; undertakes the analysis of commercially available memory devices and has available reports describing the circuit design and operation of virtually every MOS dynamic RAM and some static devices; design seminars are given using this data base; operates world-wide with major users and suppliers of memory devices in three continents; also supplies a unique MOS circuit analysis computer-aided design program that can be used for the most demanding MOS design work.

**NATIONAL ELECTROLAB LTD.**

1536 Columbia Street  
North Vancouver, British  
Columbia, Canada  
V7J 1A4  
Tel: (604) 985-0511  
Telex: 043-52683

6 Lansing Square, Suite 118A  
Willowdale, Ontario, Canada  
M2J 1T5  
Tel: (416) 496-1130

P.O. Box 9123, Station E  
Edmonton, Alberta, Canada  
T5P 4K2  
Tel: (403) 454-8130

**Services:** consulting electronics laboratory; testing of communications equipment for

type approval by the Canadian Department of Communications; testing and evaluation for purchasing and insurance purposes; custom instrumentation design and development.

**PEAT, MARWICK AND PARTNERS**

P.O. Box 31  
Commerce Court West  
Toronto, Ontario, Canada  
M5L 1B2  
Tel: (416) 863-3500

**Services:** business data processing, management information systems, urban traffic control, marine traffic control, air traffic control, medical electronics, special-purpose electronic system design, process control; feasibility studies, systems evaluations, equipment evaluations and tests, system design, development and specifications, computer programming, system implementation.

**SHARON PROFESSIONAL SERVICES**

A Division of Sharon Electronics Ltd.  
215 Cooper Street  
Ottawa, Ontario, Canada  
K2P 0G2  
Tel: (613) 238-7395

**Services:** technical writing, library services; professional services—electrical and mechanical; contract engineering.

**I.P. SHARP ASSOCIATES LTD.**

145 King Street West  
Toronto, Ontario, Canada  
M5H 1J8  
Tel: (416) 364-5361

**Services:** major supplier of APL time-sharing and consulting services; more than 25 public data bases are offered, and a wide range of applications software; access is provided in more than 250 cities through an international network and worldwide access through the Telex network.

**SHARP SPECIAL SYSTEMS DIVISION**

156 Front Street West  
Toronto, Ontario, Canada  
M5J 1G6  
Tel: (416) 364-5361

**Services:** expertise in mini and micro computer systems; systems converting; contract programming; complete turnkey systems; feasibility studies and systems specification.

**WATTS, GRIFFIS & McOUAT LTD.**

159 Bay Street, Suite 911  
Toronto, Ontario, Canada  
M5J 1J7  
Tel: (416) 364-6244  
Telex: 06-217620  
Cable: WATGRIF

Offices abroad:  
P.O. Box 59  
Anchorage, Alaska, U.S.A.  
Tel: (907) 276-5004  
Telex: 030-525263  
Box 5219  
Jeddah  
Saudi Arabia  
Tel: 53045  
Telex: 495-401787

**Services:** international data gathering, interpretation, and report compilation — ground geophysics and geochemistry; electromagnetic, gravimetric, and radiometric surveys; induced polarization studies; also interpretation of airborne geophysical data, water-quality analyses, and environmental data assessment.

---

**Consultants,  
Geophysical**

**BARRINGER RESEARCH LTD.**

304 Carlingview Drive  
Metropolitan Toronto  
Rexdale, Ontario, Canada

M9W 5G2

Tel: (416) 675-3870  
Telex: 06-989183  
Cable: BARSEARCH TORONTO

**Services:** program participation and management; consulting and contracting; laboratory analyses; ground and airborne pollution monitoring.

**DIGHEM LTD.**

Toronto Dominion Centre,  
Suite 4900  
Toronto, Ontario, Canada  
M5K 1E8  
Tel: (416) 362-3878  
Telex: 06-219566

**Services:** helicopter-borne geophysical surveys; interpretation of geophysical data.

**GEOPHYSICAL SURVEYS INC.**

2272 Leon Hamel  
Quebec City, Quebec, Canada  
G1N 4L2  
Tel: (418) 687-4055  
Telex: 051-31523  
Cable: GEOAIR

**Services:** ground and airborne geophysical surveys.

**GEOTERREX LTD.**

2060 Walkley Road  
Ottawa, Ontario, Canada  
K1G 3P5  
Tel: (613) 731-9571  
Telex: 053-3502  
Cable: GEOTERRA

**Services:** airborne geophysical exploration: high-sensitivity aeromagnetics, high-sensitivity radiometrics, Barringer input airborne electromagnetic; ground geophysical exploration follow-up of airborne electromagnetic surveys; magnetic, electromagnetic, induced polarization, resistivity, gravity and seismic surveys.

**INTERA ENVIRONMENTAL CONSULTANTS LTD.**

406 - 7015 Macleod Trail

---

Calgary, Alberta, Canada  
Tel: (403) 253-8895  
Telex: 03-824537

**Services:** groundwater-contamination and air-quality engineering and consulting services.

**KENTING EARTH SCIENCES LTD.**

380 Hunt Club Road  
Ottawa, Ontario, Canada  
K1G 3N3  
Tel: (613) 521-1630  
Telex: 053-4173  
Cable: KENSCI

**Services:** aerial photography; remote sensing; airborne geophysics; airborne profile recording; interpretation of imagery; interpretation of geophysical data; surveying and mapping; geodetic surveys.

**NORTHWAY-GESTALT CORP.**  
1450 O'Connor Drive  
Toronto, Ontario, Canada  
M4B 2V2

Tel: (416) 755-1141  
Telex: 06-963518  
Cable: NORTHWAY TORONTO

**Services:** aerial mapping, also orthophotomosaics, digitizing, digital elevation models.

**ONTARIO RESEARCH FOUNDATION**

Sheridan Park  
Mississauga, Ontario, Canada  
L5K 1B3  
Tel: (416) 822-4111  
Telex: 06-982311

**Services:** laboratories in Sheridan Park research community handle contract research and development, design, and construction of special devices and instrumentation; data acquisition and analysis; monitoring of solar-heating systems; thin-film vacuum coating capability; custom microprocessor applications; measuring and evaluation of fiberoptic cables and components; struc-

tural dynamic analyses using computerized equipment; spectroanalyzer, electromagnetic and hydraulic vibration excitation studies.

**PHOENIX GEOPHYSICS LTD.**

200 Yorkland Boulevard  
Willowdale, Ontario, Canada  
M2J 1R6  
Tel: (416) 493-6350

Telex:  
Cable: PHEXCO TORONTO

**Services:** induced polarization surveys for mining and oil exploration; electromagnetic systems, VLF-EM and AFMAG, AMT, MT; resistivity surveys for groundwater exploration, geothermal exploration, foundation engineering and nuclear waste disposal; data processing and consulting.

**PHOTOSUR INC.**

1130 Sherbrooke Street West  
Montreal, Quebec, Canada  
H3A 2R5  
Tel: (514) 288-1370  
Telex: 055-61257

**Services:** aerial photography; remote sensing; airborne geophysics; interpretation of imagery; interpretation of geophysical data; surveying and mapping.

**QUESTOR SURVEYS LTD.**

6380 Viscount Road  
Mississauga, Ontario, Canada  
L4V 1H3  
Tel: (416) 676-9880  
Telex: 06-983611

**Services:** geophysical exploration — aeromagnetic: combined aeromagnetic/airborne electromagnetic; airborne radiometric.

**TEKNICA RESOURCE DEVELOPMENT LTD.**

633-6th Avenue Southwest,  
Suite 600  
Calgary, Alberta, Canada  
T2P 2Y5  
Tel: (403) 269-4386  
Telex: 038-26725

**Services:** software for generation of synthetic borehole sonic logs; termed seislogs, from conventional broadband seismic data; specialized interpretation services for determination of subsurface lithologies and porosities using data from derived logs.

**TERRA SURVEYS LTD.**

2060 Walkley Road  
Ottawa, Ontario, Canada  
K1G 3P5  
Tel: (613) 731-9571  
Telex: 053-3502  
Cable: GEOTERRA

**Services:** photogrammetry, geodetic surveys, engineering surveys and resource studies: stereo plotting, airborne and ground electronic distance measuring, route location; airborne geophysical exploration: high-sensitivity aeromagnetics, high-sensitivity radiometrics, Barringer input airborne electromagnetic; ground geophysical exploration: follow-up of airborne electromagnetic surveys; magnetic, electromagnetic, induced polarization, resistivity, gravity, and seismic surveys.

**WESTERN GEOPHYSICAL CO. OF CANADA LTD.**

530-71st Avenue Southeast  
Calgary, Alberta, Canada  
T2H 1X6  
Tel: (403) 253-7101  
Telex: 038-21602

**Services:** high resolution land seismic exploration; land seismic exploration, dynamite or Vibroseis®; geothermal exploration; marine seismic exploration, aquapulse, dynamite (maxipulse) or airgun; aerial photography; airborne geophysical surveys including aeromagnetic, side looking airborne radar (SLAR), gamma ray spectrometry, very low frequency electromagnetic; utility mapping. Full data processing and interpretation services.

# Volker-Craig More than just a hardware company

At Volker-Craig, we're more than just another hardware company. We're one of the world's fastest-growing manufacturers of alphanumeric terminals and terminal systems. We're an international company of people and ideas dedicated to the development of innovative applications of new technology for more effective and cost-efficient data processing systems.

The result of this dedication is our advanced 400 Series of Video Display Terminals. Designed to satisfy a wide array of data processing requirements, the 400 Series consists of four precisely engineered models:

The **VC404**, a reliable, cost-efficient, ASCII teletype compatible terminal.

The **VC414H**, a smart, Hazeltine 1510 compatible terminal that provides buffered editing, formatting, character highlighting and status line as standard features.

The **VC415APL**, offering full overstrike, split screen, and buffered editing capabilities.

The **VC4152**, a DEC VT52 compatible terminal with many of the features found only on the VT100. Character highlighting, function keys and status line are standard.

All Volker-Craig 400 Series Terminals feature detachable keyboards and non-glare screens. What's more, each model can be custom-tailored to your individual needs.

And behind every Volker-Craig component stands a service program of fast, affordable product maintenance to ensure the maximum of efficiency with a minimum of downtime.

For more information on how Volker-Craig's 400 Series Terminals can help to solve your data processing problems contact your local distributor.

# PROVIDES AC POWER

# CONTINUOUSLY DEPENDABLY

Static Inverters  
Static Switching

Over 4 million VA Static Inverter capacity produced by CTS since 1960. CTS Static Inverters can be found in attended and unattended installations where fail-safe AC power and maintenance free operation are required.

- Widest range of capacities – 250VA to 200KVA single or 3-phase.
- Employs SCR switching.
- High order of voltage and frequency stability.
- Sine wave output – low harmonic distortion.
- Modular construction.
- Completely static – quiet operation.
- Standard designs for input voltages from 24VDC to 260VDC.
- Instant start – 50 to 100 ms to pick up load or static switching with 4 ms or less load transfer time.

Widest selection of rectifiers and accessories for complete power systems. Write for complete technical data.

**APPROVED - DESIGNED and MADE IN CANADA**

**CTS OF CANADA, LTD.**

STREETSVILLE, ONTARIO • phone: TORONTO (416) 826-1141

Principal Products Variable Resistors • Selector Switches • Trimming Potentiometers • Photo-electric Controls • Rectifiers • Inverters • Microminiature Components and Circuit Packages

## Manufacturers' Marketplace

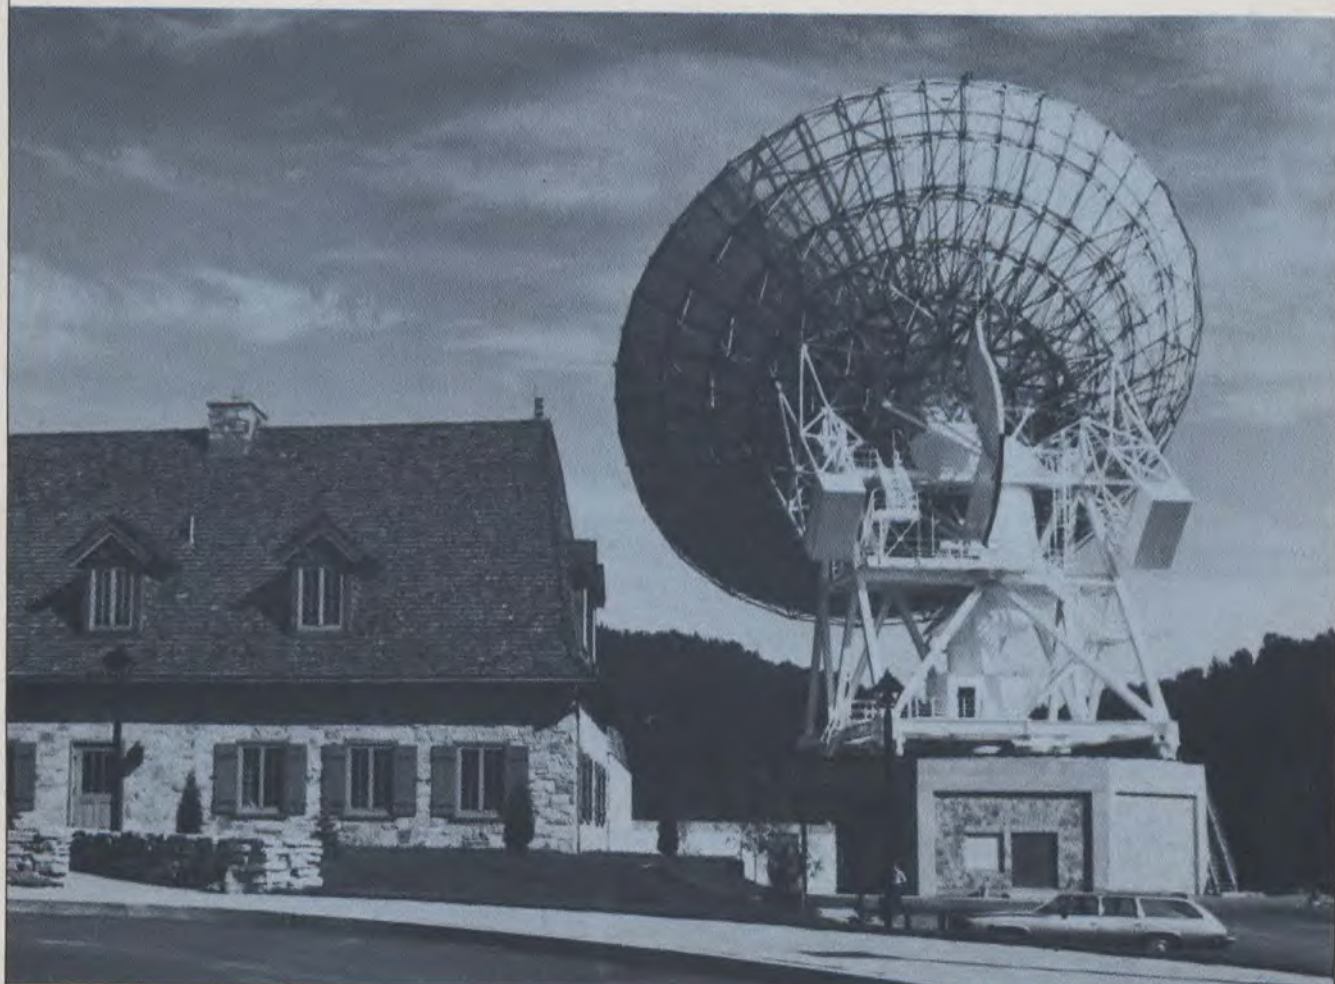

## Expertise

Spar provides total design and management capabilities in the turnkey supply of earth stations in all sizes—the biggest (32 m) for INTELSAT "A" Type satellite communications, the smallest (1 m) for community TV or telephony; for all uses—international, domestic, regional and inter-city; and for traffic of all types—FM FDM telephony, SCPC telephony or radio program, direct broadcasting (TV and/or radio) and digital data.

Spar's other capabilities include the design and manufacture of domestic communications satellites (4/6 & 12(14 Ghz) and their payloads, digital/FM SCPCs, retrofit antenna feeds, terrestrial microwave systems, high-speed data MODEMS (120M/BS), Data-above-Voice voice/video (DAV).

**At Spar, our expertise in space and terrestrial microwave communications is unexcelled.**

Tèlèglobe Canada, Laurentides Earth Station, Québec, Canada.

CAT ENVIRONMENTAL  
INFORMATION SYSTEMS  
(PC8110/2200) monitor  
the natural  
world

Continuous, accurate, "real time" data on the changing environment is now available (even in cases of power failure) at the user's location — office, plant, etc. — anytime. Up to 256 environmental factors — water level, precipitation, temperature, SO<sub>2</sub>, H<sub>2</sub>S, CO, etc — can be monitored. Portable units assess data at remote sites — despite severe climatic conditions. CAT's modular approach means complete "turn key" or "stand alone" systems are fitted to a user's requirements and budget.

- quality, cost effective solutions
- off the shelf inventory
- user programmable systems
- guaranteed full support by CAT

## DISTRIBUTORS

### Do you...

- Possess an aggressive marketing organization?
- Distribute computer based products?
- Have an experienced field service organization?
- Have a capable software support group?
- Continuously seek new product opportunities with explosive growth potential?

### If you do, We have ...

- An exceptional opportunity targeted to the Foodservice/Hospitality/Hotel industry.
- A restaurant management product that has demonstrated cash payback in 12 months.
- A proven track record of success.
- A high Canadian market penetration to the "who's-who" in the foodservice industry.

### We are seeking...

Exclusive worldwide distributors outside:  
North America, Switzerland, Holland,  
France, Belgium, Germany, and Great  
Britain.

**Precisely the intelligent terminals you need.**

**Nothing more. Nothing less.**

Major user or OEM, you can fit your terminal needs exactly with new Model 1640 intelligent terminals from Westinghouse Canada. Custom design at low cost gives you total flexibility. For example, you can specify a unique keyboard/display set-up. Accommodate software changes and new operating procedures. Design around heat, cold, dust, and dirt. Side-step operator training problems. Fit limited space or special mounting furniture. In fact, the new Westinghouse 1640 is so flexible that it could very well be your most intelligent way to buy intelligent terminals.

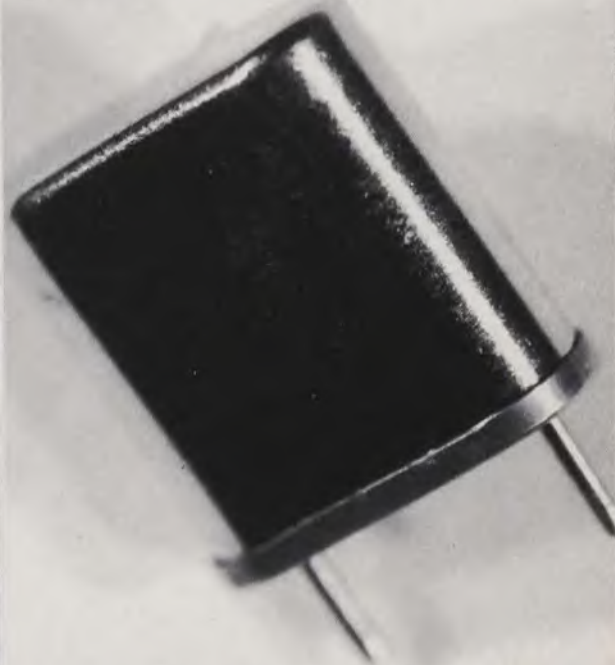

Explore the possibilities. Write on your letterhead to: Westinghouse Canada Ltd.,

# How ~~EXIDE~~ ~~ELECTRONICS~~ Can Help You Weather a Computer Energy Crisis.

A complete utility power failure shutting down your computer is a rare occurrence. Transient voltage or frequency is more likely to disrupt your computer's operation. That's because today's computers are extremely complex pieces of technological equipment, more sensitive than ever to power deviations.

At Exide Electronics, we offer the most comprehensive UPS (Uninterruptible Power Supply) system available today. It can put your mind at ease about a potential computer energy crisis in your organization. How? By maintaining uninterruptible

power flow during any external breaks and by polishing off any roughness in voltage or frequency transients.

But that's not all. If you require a frequency conversion, our versatile UPS system can handle it.

And perhaps the most important feature of our UPS system is our reliable, high-performance battery, which is a product of Exide Electronics' long-time reputation as a leader in the field of battery development. This battery serves as the DC energy source for the static inverter.

Backed up by highly qualified Exide Electronics technical personnel

stationed worldwide, our reliable UPS system can help you weather any computer energy crisis.

For further information about our popular UPS system, call or write:

## CTS matches crystal specs to your microprocessor.

And no waiting. CTS of Canada will supply a perfectly matched crystal at the same time you buy the microprocessor, because CTS carefully checks the crystal requirements with each semiconductor manufacturer before writing crystal specs.

CTS now has a full line of standard crystals for microprocessors and clock IC's. CTS crystals feature low start-up resistance, reliable CTS mil-approved manufacturing processes and gold frequency calibration for long term stability. Available in 17 standard frequencies, 1.0 to 22.1184 MHz. Other frequencies available on special order.

CTS crystals are available **off the shelf** at these typical one to ten-piece prices: from \$12 each (1.0 MHz) to \$4.50 each (18.432 MHz). Discounts on larger quantities.

For complete information write **CTS OF CANADA LTD.**, Streetsville, Ontario; L5M 1Y9; Telephone: Toronto (416) 826-1141.

## We bring you instant status.

Our System 51 supervisory control system can now give you a color-coded display of the operating condition of your entire system.

The color display tells you instantly which lines are up, which are down, where you have problems and where you can rest easy.

And it all ties in to a system so flexible that you can practically design and redesign it to fit your needs. The System 51 modular concept lets you assemble telecontrol, status reporting, alarm reporting and telemetry in any combination you want.

The illustration shows a typical telecommunication network.

Microwave applications include supervision

and measurement of remote transceiver operation; complete system tests, including noise and performance measurements from central control station; and remote operation of heating, tower lighting and power plant engines.

In large systems, the System 51 computer can be used to tie everything together.

The color status display is just another outstanding feature of the System 51 from a company with worldwide experience in the design and operation of supervisory control systems for telecommunications.
