LE COMMERCE ET LES MESURES

DU SECTEUR MANUFACTURIER

1966-1984

Les tableaux s'appuient sur le rapport intitulé le Commerce des produits par secteur industriel, sommaire historique, 1966-1984, publié par le ministère de l'Expansion industrielle régionale concurremment avec ce rapport. Dans ce document, le commerce des marchandises effectué à l'extérieur de Canada a été réparti entre les groupes industriels les plus qualifiés selon la classification des activités économiques de 1970. Les données sur le commerce, correspondant aussi étroitement que possible aux livraisons des usines (substituées à la production) et aux industries manufacturières, permettent de se faire une idée approximative du marché canadien (consommation apparente) et d'autres mesures indiquées dans les tableaux en annexe.

Les séries accessibles sont énumérées selon les codes CAE de 1970 (division 5, principal groupe, suivi des codes à trois et quatre chiffres). La page cinq est divisée en deux parties :

- a) les remarques, qui indiquent les sources des données et leurs caractéristiques;
- b) le glossaire, qui explique le contenu et les concepts des tableaux.

REMARQUES

1. Toutes les valeurs concernant le commerce, les livraisons et les mesures connexes sont exprimées en millions de dollars courants.
2. Les données commerciales, soit les exportations, les importations, les balances commerciales et les chiffres d'affaire sont fondées sur la valeur en douane, Commerce du Canada, affectées aux secteurs industriels selon la classification des activités économiques de 1970.
3. Les valeurs des livraisons de 1966 à 1982 sont tirées du tableau intitulé Valeur des livraisons de produits de propre fabrication du Recensement des manufactures de Statistique Canada, et sont rajustées au niveau du groupe principal de 1966 à 1969, conformément à la CAE de 1970. Les valeurs des livraisons de 1983 et 1984 sont fondées sur le tableau intitulé Valeur estimative des livraisons, (n° de cat. 31-525, Statistique Canada, Stocks, livraisons et commandes des industries manufacturières).
