EXPLANATORY NOTES

INTRODUCTION

These reports are part of a continuing series designed to increase awareness of the potential existing for production in Canada and to assist business and other organizations in their market research of specific products.

Depending on the availability of data, these reports can include the following information on a specific product(s): value, quantity and unit price of Canadian imports (in some instances four-year trends), imports by product characteristics, foreign countries of export or origin, Canadian production, Canadian exports, market summary, U.S. imports, names of Canadian importers and suppliers, names and values of foreign exporters to Canada, Canadian tariffs.

COMMODITY CODE

Prior to 1988, Canadian import statistics were based on the Canadian International Trade Classification. However, since January 1988, these statistics have been classified and published according to the Harmonized Commodity Description and Coding System (H.S.), developed for international use by the Customs Cooperation Council. Figures given for the years prior to 1988 are not necessarily directly comparable to those starting in 1988.

In the index under the column, "commodity code", those codes with 5 or 7 digits refer to the Canadian International Trade Classification. Those 4, 6, 8 or 10 digit codes refer to the Harmonized System.

PERIOD ANALYZED OR DATE PUBLISHED

Date published is used for those publication numbers ending in IP. For all other reports, which involved detailed analysis of customs import documents, the period analyzed is given.

Copies of the listed Market Intelligence reports or additional copies of this index are available by contacting:

Market Intelligence Division
Services to Business Branch
Industry, Science and Technology Canada
235 Queen Street
Ottawa, Ontario K1A 0H5
Telephone: (613) 954-4970

or the nearest ISTC Regional Office. Please state the nature of your business, your name and address. Also indicate your reasons for requesting the report, in order that we can evaluate our publications.
