1980-1981 INTERIM REPORT

Part 1  
1980-1981 INTERIM REPORT  
SUMMARY

MINISTERIAL POLICY ON EQUAL OPPORTUNITIES FOR WOMEN

The outline of this policy was submitted to the Director, Corporate Services. The policy will receive the approval of the Secretary of the Ministry in the Spring of 1981 and will then be distributed to all employees.

COMMITTEE ON EQUAL OPPORTUNITIES FOR WOMEN

This Committee was established in April 1980. Its mandate was rapidly established. The Committee has an important role to play in the implementation of the Program, i.e., evaluating the progress achieved, analyzing the data collected and controlling the activities connected with the Program.

INFORMING THE MANAGEMENT

The Ministry has continued its efforts to keep management informed relative to the Program. This has been done through the use of memos, information bulletins, the distribution of the annual plan, as well as through the holding of several informal meetings between the various managers and the Program Coordinator. The Ministry believes this activity to be essential to the success of the Program.

TRAINING AND PROFESSIONAL DEVELOPMENT

All employees are aware of the training and professional development courses open to them. This year, 79 p. cent of female employees and 21 p. cent of male employees signed up for training or professional development courses. These courses will, no doubt, help these employees in their career development.

COURSE ON PREPARING FOR THE SELECTION INTERVIEW

As planned, this course was offered by the Ministry to administrative support category and junior level employees. The 28 female employees registered benefited fully from this course.

Next year, the Ministry intends to offer two courses, one on stress, and the other on time management. According to the results of a poll taken in this connection, we are able to affirm that these courses will be very popular.

## PROFESSIONAL DEVELOPMENT PROGRAM FOR SENIOR EXECUTIVES

One female employee was named by the Ministry to attend this course. She was later seconded to another department, in which she has taken on increased responsibilities.

## PROFESSIONAL DEVELOPMENT POSITIONS

In 1980, it was impossible for the Ministry to create such positions. An AS-01 position was, however, created on March 1, 1981. The staffing procedure has begun relative to this position. The Ministry expects to create another position at the same level in the Spring of 1981.

## PROMOTIONS

This year, a total of eight employees (6 women and two men) were promoted. The breakdown of these promotions is as follows:

one male employee, from level FI-03  
to FI-04

two female employees, from level AS-04  
to AS-05

one male employee, from level AS-04  
to AS-05

one female employee, from level IS-03  
to IS-04

one female employee, from level AS-02  
to AS-03

one female employee, from level PE-01  
to PE-02

one female employee, from level SCY-03  
to SCY-04

These promotions reflect  
the increased responsi-  
bilities shouldered by the  
employees in question.  
In certain cases, allowance  
has been made for additional  
training.

## ORIENTATION

The two staffing officers and their assistant met 88 p. cent of all of the female employees on more than one occasion. The Ministry intends to maintain, and even increase this percentage of female employees who make use of this service. Staffing, transfers, training, etc. are among the subjects discussed during these informal meetings.

With respect to the orientation program for new employees, the Program Coordinator has handed a copy of the annual plan to 25 female and 16 male employees, and has briefly described the Equal Opportunities for Women Program to them.

#### SELECTION BOARD

There was at least one woman on the selection board for each competition held in the Ministry.

#### JOB DESCRIPTIONS

In the Spring of 1980, the Classification Section reviewed all of the job descriptions for any discriminatory content.

#### LONG TERM PLAN

The Ministry pursued its efforts to carry out the activities mentioned in the long term plan. The progress achieved so far is encouraging. We will continue to take the necessary measures to improve our performance.

#### CONTROL

The Secretary of the Ministry, the Director, Corporate Services, the Chief of Personnel and the Program Coordinator are the persons responsible for ensuring the active participation of the managers in the Program.

PART 2

OUTLINE OF MINISTRY'S DATA

PARTIE 2

OUTLINE OF MINISTRY'S DATA

The present situation review, as of December 31, 1980, outlines the representation of female employees by group and level. Our source of information is the Ministry's Establishment List of December 1980.

DECREASES

Our representation in the AS group has decreased by 7%. As a matter of fact, five employees have left the Ministry for the following reasons: One level AS-05 employee has decided to go back to university in order to pursue law studies; one AS-03 level employee has obtained a long awaited transfer to Quebec city; one level AS-05 employee has won a competition for a higher position in another Ministry; one level AS-01 employee has chosen to occupy a term position at a higher level in another Ministry; finally, one AS-04 employee has left the Federal public service.

Representation has also decreased in the FI group. The Ministry had three positions in that group. When the level FI-03 female employee won a competition in another Ministry, the vacant position was abolished.

INCREASES

Representation in the IS group is now 100% female. In the SI group, female representation has remained at 100%. We have in fact one more female employee than before. We have also maintained our female representation at 100% in the groups LS and PG. In the ES group, representation has increased to 22%. Finally, representation has remained at 40% in the PE group.

PART 3

PLANS FOR 1981-1982

Part 3  
PLANS FOR 1981-1982  
SUMMARY

DELEGATION OF RESPONSIBILITIES

The Program Coordinator, Official Languages and Special Interest Groups, is the officer responsible for the Equal Opportunities for Women Program.

INFORMING THE MANAGEMENT

Throughout the year, the management of the Ministry was kept informed on various important aspects of the Program. We are assured of its wholehearted cooperation.

All employees will receive a copy of the present Plan. We expect that the ministerial policy on the topic of equal opportunities for women will be ready for distribution by June 1981.

COMMITTEE ON EQUAL OPPORTUNITIES FOR WOMEN

The importance of this Committee, which oversees the implementation of activities relating to the Program, assesses the progress made and suggests changes, where necessary, is to be emphasized.

The Committee comprises the Science Expenditures Officer, the English-language editor and the Program Coordinator. This Committee operates under the direct supervision of the Director, Corporate Services.

NOTABLE FEATURES OF THE ACTIVITIES PLANNED FOR 1981-1982

This year, the Ministry intends to concentrate its efforts on the creation of at least one training position in the administrative and foreign service category, on the recruitment by way of special programs such as the CAP, the SAPP and the COP; on the creation of positions which may be filled by women who are obliged to work part-time; on the creation of term assignments with a view to encouraging women to reintegrate the labour force; on the registration of one woman in a special professional development course, within the framework of the CAP or the SMDP programs for example, on interim appointments and transfers within the Ministry; finally, on the offering of two courses on stress and on time management.

## STATISTICAL DATA

### Senior executive category

The Ministry succeeded in maintaining its percentage at 5.3 in this category.

### SCIENTIFIC AND PROFESSIONAL CATEGORY

We have increased the female representation in this category by 1.4 per cent.

### ADMINISTRATIVE AND FOREIGN SERVICE CATEGORY

There has been a decline of 7.2 per cent in this category within the Ministry. Certain positions in this category are in the process of being staffed. Our goal is to return to the 30 per cent female representation we had last year.

### TECHNICAL CATEGORY

We have maintained a 100 per cent representation rate in this category. We have in fact, one more female employee than before.

### OPERATIONAL CATEGORY

There is no female employee in this category, in which there are only two people. The turnover rate since 1977 has been nil.

### CAREER DEVELOPMENT

The Ministry will also continue to encourage the career development of female employees by urging them to meet with the orientation officers and by replying favourably to their requests in relation to training and professional development.

### LONG TERM OBJECTIVES

The long-term objectives set down for 1981-1982 within the framework of this Plan will constitute an integral part of the human resources planning process.

The Ministry will strive harder than ever to continue offering career opportunities which are accessible to men as well as to women. It will also continue its efforts to ensure that after a reasonable amount of time has elapsed, the male and female representation by occupational group and level will be equitable.

## PROGRAM ADMINISTRATION

The Secretary of the Ministry, the Director, Corporate Services (SX-1), the Chief of Personnel (PE-5) and the Program Coordinator (AS-5) are responsible for ensuring that managers participate actively in the Program. This is done by means of bulletins or memos, or through formal or informal meetings.

The Program Coordinator and her assistant have divided up their time between the Official Languages Program and the Special Interests Programs.

The Committee on Equal Opportunities for Women continues to control all of the activities mentioned in the annual plan and in the long-term plan. This Committee, which is under the direct jurisdiction of the Director, Corporate Services has an important role to play in the implementation of the Program.

The Program Coordinator represents the Ministry on the Interdepartmental Committee on Equal Opportunities for Women and at any other interdepartmental committee meeting.
