Trademarks Journal

Vol. 71 No. 3632

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Foreign Character Translation

The translation provided by the applicant of the non-latin characters is "YAME TEA" in English.

Foreign Character Transliteration

The transliteration provided by the applicant of the non-latin character(s) is "YAMECHA" .

Certification Mark Standard

The certification mark (the "Mark") is intended to indicate to purchasers of the goods from licensed persons that the goods are comprised of green tea [unrefined tea] which is produced and/or processed in the following locations: (a) Yame-shi, Fukuoka Prefecture in Japan and the surrounding area; or (b) the area adjacent to the Yame region in Kumamoto Prefecture and Saga Prefectures. Licensed persons must provide a tea production and cultivation history in respect of the goods which sets out that pesticides have been used properly in accordance with the standards. The Applicant's current guidelines for License for Use of the Certification Mark outlining these standards (the "Guidelines") are attached. The Applicants may change the Guidelines from time to time.

Goods

Class 30

Green tea processed in Fukuoka Prefecture from Aracha [i.e., unrefined tea] produced in Yame-shi, Fukuoka Prefecture and the surrounding area [including the area adjacent to the Yame Region in Kumamoto Prefecture and Saga Prefecture] by tea manufacturers in Fukuoka Prefecture

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of a black circular logo with the words "CACCIAITORE ITALIANO" shown in white and appearing at its center. Two arches comprised of the colours green, white and red appear respectively above and below the words "CACCIAITORE ITALIANO". Within the circular logo and at the top of the upper arch, the words "CONSORZIO DI TUTELA" are displayed in white, and below the bottom arch the words "SALAMINI ITALIANI ALLA CACCIATORA" are displayed in brown. A concentric brown circle is displayed along the internal circumference of the logo, with the word "DOP" in black appearing on the right of the word "ITALIANO".

Foreign Character Translation

The translation provided by the applicant of the Italian words CACCIAITORE, ITALIANO, CONSORZIO DI TUTELA, DOP and SALAMINI ITALIANI ALLA CACCIATORA are Hunter, Italian, Consortium of protection, Protected Designation of Origin (PDO) and Italian Cacciatore Salami.

Certification Mark Standard

The use of the certification mark is intended to indicate that the specific goods listed above in association with which it is used are of the following defined standard: Conditions for Use of

Certification Mark1. The geographic range of the production of the goods using the certification mark coincides with the following area, which is also the region from which the pigs originate: Friuli-Venezia Giulia, Veneto, Lombardy, Piedmont, Emilia-Romagna, Umbria, Tuscany, Marche, Abruzzo, Lazio and Molise; the specific natural and geographical environment of the range also affect the characteristics of the products, namely, the properties of the raw material are specific to the defined geographical macro-region which is exactly the same as the production area. The raw material, products and designation are all closely linked to the socio-economic development that has taken place in this area. Developments in cereal farming and milk processing technology have created the conditions particularly suited to this type of production which took place in areas traditionally engaged in certain types of pig farming. Pig farming, in central and northern Italy, has evolved over time and, in the last century, a modern production industry emerged in Emilia-Romagna and Lombardy and then spread to neighboring areas of northern and central Italy. In particular, the shift from native breeds to specialized breeds (also created through crosses with local breeds) has made the raw material (pig carcasses) more suitable for the requirements of the food processing industry in terms of ensuring the end product's specific qualities, including its organoleptic characteristics.2. The specific characters of the goods using the certification mark are the following:Organoleptic characteristicsexternal appearance: cylindrical in shape;texture: compact and not springy;appearance on cutting: uniform and compact slices with no visible gristle. colour: uniform ruby red with evenly distributed specks of fat;aroma: delicate and distinctive;taste: mild and delicate, never acidic.Chemical and chemico-physical characteristics total protein: minimum 20 %collagen/protein ratio: maximum 0,15 water/protein ratio: maximum 2,30 fat/protein ratio: maximum 2,00 pH: at least 5,3.Microbiological propertiesmesophilic microbe content: > 1 x 10 colony-forming units/gram, with a prevalence of lactic acid bacteria and cocci.The end product has a diameter of not more than 60 mm, a length of not more than 200 mm and a weight of not more than 350 g.3. The special requirements on the planting, breeding, processing and manufacturing of the goods using the certification mark are the following:Feed (for products of animal origin only) and raw materials (for processed products only) 'Salamini italiani alla cacciatora' are made of lean meat from striated muscle from pig carcasses, hard pig fat, salt, pepper pieces and/or ground pepper, and garlic. Mechanically separated meat may not be used. The following may be added: wine, sugar and/or dextrose and/or fructose, fermentation starter cultures, sodium and/ or potassium nitrate up to a maximum of 195 ppm, sodium and/or potassium nitrite up to a maximum of 95 ppm, ascorbic acid and its sodium salt.Specific steps in the production process that must take place in the identified geographical area.Processing of `Salamini italiani alla cacciatora' involves the following steps: preparing the raw materials, mincing, kneading, filling the casings, drying and maturing.Specific rules concerning slicing, grating, packaging, etc. of the product the registered name refers to'Salamini italiani alla cacciatora' may be sold in bulk, in vacuum or modified-atmosphere packaging, whole, cut or sliced. Packaging must be carried out in the production area laid down above.4. Product operators meeting all the conditions for use above may apply for using the certification mark. Applicants, who intend to apply for use of the certification mark shall submit an application for use of the mark with the Consortium.
