Trademarks Journal

2024-07-17 — Vol. 71 No. 3638

Trademarks Journal

Vol. 71 No. 3638

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 06

(1) Corrosion-resistant copper-based alloys, being alloys resistant to stress corrosion; Goods of common metal namely valves for water pipes and junctions for pipes, fastening clips for pipes, parts and fittings for the aforesaid valves and pipe junctions, water pipes of metal, metal water pipe valves, clamping screw couplings for pipes made of metal.

Class 07

(2) Electric, electric motor-driven, electrothermal and electromechanical valve drives namely actuators;

Class 09

(3) Weighing, measuring and signalling apparatus and instruments used for controlling HVAC systems namely automation, control and checking (supervision) apparatus, systems and instruments, namely portable computer programmed balancing instrument in the nature of an electronic device with electronic differential pressure gauge and micro computer software therefor for measuring, signaling, control and checking of flow and differential pressure for hydronic balancing of HVAC systems; electronic timers, circuit boards and recorded computer software systems for measuring differential pressures, flow rates and temperature of fluids within conduits for automation, control and monitoring of heating, cooling, ventilation, water supply, temperature control, lighting, power supply, air conditioning and security in buildings; Room thermostats, temperature sensors with elastic, fluid or steam filling or bimetallic elements; Electronic regulators and time controls for valve motor drives for regulating the flow of gases and liquids; Diaphragm valves and capillary tubes for control systems in HVAC units; Transformers and rheostats; Apparatus for temperature control and power supply in buildings, namely, temperature sensors, temperature controllers, temperature monitors for household and industrial use, thermostats, digital thermostats, and electric controls for heating management systems in buildings; Apparatus for lighting, heating, refrigerating, steam generating, cooking, ventilating, water supply and distribution, air-conditioning and sanitary purposes in buildings namely thermostats sold as a part

of heating systems for residential and commercial buildings; electric valve actuators, pressure monitors, pressure controllers, and pressure regulators for measuring differential pressures within conduits for automation

Class 11

(4) Apparatus for lighting, heating, refrigerating, steam generating, cooking, ventilating, water supply and distribution, air-conditioning and sanitary purposes in buildings namely valves namely tub control valves, control valves sold as a part of heating systems for residential and commercial buildings; Control valves; Fittings, namely plumbing fittings and metal pipe fittings namely one-way and multiway valves for use in heating, ventilation and air conditioning systems, tension regulator valves, pressure regulator valves, volume regulator valves, thermostat-controlled metal valves, thermostat superstructures for valves namely mounts to host or hold valves within HVAC systems; Locking and multipath taps for pipes and pipelines, water pipe apparatus and installations namely mixer faucets, mixer taps

Class 17

(5) Sealing gaskets; pipe stoppers, pipe seals, junctions not of metal for pipes, hand-wheels namely manually actuated valve heads not of metal, clamping screw couplings for pipes not of metal, watertight rings for plumbing pipes

Services**Class 37**

(1) Building construction, repair, installation, all the aforesaid services relating to HVS, namely heating, refrigerating, ventilating, water supply and temperature control.

Class 41

(2) Education, providing of training, all the aforesaid services relating to water, heat and sanitation, namely heating, refrigerating, ventilating, water supply and temperature control.

Class 42

(3) Scientific and industrial research, computer programming, design and updating of computer software, all the aforesaid services relating to plumbing, namely heating, refrigeration, ventilation, water supply and temperature control.

(1) Employment agency services; providing human resources management and recruitment services for others; business management for freelance service providers; providing temporary staff in the field of engineering ; personnel recruitment; psychological testing for the selection of personnel; personnel management consultancy; human resources management; human resources consultancy; organizing and conducting job fairs; providing information relating to personnel recruitment; employment hiring, recruiting, placement, staffing and career networking services ; business assistance, namely, outsourcing services business assistance.

Class 41

(2) Academies, namely, education services in the nature of conducting courses, seminars, workshops, and conferences in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; training of personnel in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; training, namely, arranging and conducting of workshops in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering,

mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; arranging and conducting of colloquiums in the nature of conferences in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; arranging and conducting of conferences in the nature of conferences in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; arranging and conducting of congresses in the nature of conferences in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; arranging and conducting of seminars in the nature of conferences in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; arranging and conducting of symposiums in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; vocational guidance, namely, training advice in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; vocational retraining in the nature of vocational guidance services; know-how transfer, namely, transfer of business knowledge and know-how for training purposes; training and further training for personnel development in the fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural

engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering.

Class 42

(3) Engineering services, namely, electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; Computer application software design and development engineering; Design and development of computer software for supply chain logistics; Chemical engineering; Civil engineering; Telecommunications hardware and software engineering; computerized software design engineering; computer software engineering; computer hardware and software Engineering in the sectors of banking and insurance; Mechanical engineering in the rail, aeronautical and automotive sectors; construction project Engineering of sites and facilities; mechanical Engineering of processes and production; Environmental engineering; computer hardware and software Engineering of equipment in the fields of medical imaging and artificial organs; Computer software systems engineering; Systems engineering, namely designing and implementing computer systems for businesses in the aeronautical and automotive sector; Systems engineering, namely designing and implementing computer systems for businesses in the sector for constructing vehicles and apparatus for locomotion by land, rail, air or water; Systems engineering, namely designing and implementing computer systems for businesses in the land, rail, air and water transport sector; computer hardware and software engineering in the field of information technology; Electrical engineering services; Genetic engineering services; Mechanical engineering; mechanical, chemical, and electrical engineering for the gas sector; construction project engineering services in the field of building technology; environmental engineering services in the field of energy technology; Chemical and biomedical engineering in the pharmaceutical and biotechnological sector; Explosives, chemical, and mechanical engineering in the military sector; environmental engineering services in the field of environmental technology; Telecommunication hardware and software engineering services in the field of communications technology; Engineering services in the field of motive power; Technological consultancy in the field of aerospace engineering; Software engineering for data processing programs; Conducting of engineering studies in the fields of automotive design and development services, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, technological industrial design , research and development of new products for others; Computer technology consultancy services in the fields of technical and scientific industrial design engineering and engineering of information systems and telecommunications networks; Consultancy and assistance in the fields of industrial design and industrial engineering of innovative industrial goods; Regulatory engineering consultancy for implementing technical project studies in the field of environmental protection; Engineering research in fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft,

docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; Engineering design in fields of electrical engineering, civil engineering, chemical engineering, biomedical engineering, agricultural engineering, aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, industrial engineering, foundry engineering, geological engineering, levee engineering, mechanical engineering, mining engineering, nuclear engineering, telecommunications hardware and software engineering, computer engineering, and software engineering; computer technology consultancy services in fields of innovative technologies in the information systems sector, the rail, aeronautical and automotive industry sector, the pharmaceutical and biotechnological industry sector, the military industry sector, the telecoms, tertiary and energy sectors; computer technology consultancy services in fields of innovative technologies in the medical, chemical and pharmaceutical sectors; computer technology consultancy in fields of technologies relating to engineering in the fields of computer-aided design (CAD), calculation, physical testing and measurement, mechanics, electronics and industrial information technology; technological consultancy in the field of aerospace engineering, automotive engineering, marine engineering being design and development of mechanical equipment of seagoing craft, docks and harbour installations, engineering services in the field of supply chain logistics, and computer hardware systems; conducting technical project studies in the field of environmental protection and conservation; construction drafting; engineering surveying services; software as a service [SaaS] for use in customer relationship management (CRM); platform as a service [PaaS] featuring computer software for database management.

Certification Mark Standard

a) The certified professional must have previously completed a preparatory training course for the certification exam provided by the applicant, enabling the professional to review all the, approaches, tools, techniques and good practices required for the establishment of a monitoring-evaluation system: (i) general principles of a monitoring-evaluation system; (ii) establishment of a monitoring-evaluation system; (iii) research methodology applied to monitoring-evaluation; (iv) development of a knowledge transfer system. To be eligible for training, the professional is required to submit a portfolio to the applicant consisting of a resume, letters of employment, recommendation letters, training certificates (if applicable), to show that the professional has at least three years of proven professional experience in a management position applied to the field of monitoring-evaluation. The professional must also certify that at the time of registration they occupy a key position related to the monitoring-evaluation of projects, programs or institutions. This certification exam preparation training is an intensive session lasting two weeks in the form of workshops and seminars. b) After the training, the certified professional must pass a two-part certification exam demonstrating their skills, knowledge and competencies as a manager in the field of monitoring-evaluation. The certification exam is developed by the applicant, lasting three hours, in the form of a computerized multiple choice questionnaire, on the following themes: (i) general principles of a monitoring-evaluation system; (ii) establishment of a monitoring-evaluation system; (ii) research methodology applied to monitoring-evaluation; (iv) development of a knowledge transfer system. The passing grade is 60%. c) Certified professional commits to provide services ethically and with integrity to serve the public interest in general and the interests of the project beneficiaries in particular. The certified professional commits to the continuous development and updating of knowledge in the field of monitoring-evaluation management. To that end, the certified professional who has passed the exam has a period of five years to maintain their certification by providing proof of having completed classes training, seminars, workshops for further development as well as having continuously practised their profession in the field of monitoring-evaluation management, the applicant will assess the relevance of this proof. d) The certification is valid for five years and renewable for periods of five years, indefinitely, depending on whether the professional meets the required criteria. To this end, the certified professional undergoes periodic evaluations of the quality of the services they offer, conducted by the applicant

every five years, the certified professional will have to submit a file consisting of a resume, a recommendation letter and a letter of employment issued less than three years prior to prove that the professional still meets the required criteria. Otherwise, certification will be deemed to have been lost, and the professional will have to take the exam again.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of two hexagons, with the smaller hexagon inside of a larger hollow hexagon with a hexagonal gap between the two. The smaller hexagon is divided into six equilateral triangles of equal size, with each triangle a different color starting with Orange (RGB value F8C022) on the top right at the position of twelve on a clockface and then continuing clockwise with Red (RGB value E5272C), Purple (RGB value 933488), Blue (RGB value 1057A1), Blue (RGB value 00A8E2), and Green (RGB value B0CD41). The larger hexagon is made up of thirty-six right triangles of equal size with each triangle a different color. The color of the triangle on the top right side of the hexagon at the position of twelve on a clockface is Orange (RGB value F8C022), and then (moving clockwise) are Orange (RGB value FFCB05), Orange (RGB value F8BE29), Orange (RGB value F6B238), Orange (RGB value EB833E), Orange (RGB value EC5E33), Red (RGB value E6442F), Red (RGB value E5272C), Red (RGB value EB553A), Magenta (RGB value E92B57), Magenta (RGB value E62A88), Magenta (RGB value E73B78), Magenta (RGB value E33A84), Magenta (RGB value D62173), Magenta (RGB value D02980), Purple (RGB value AF4693), Purple (RGB value 933488), Purple (RGB value 563992), Blue (RGB value 485CA3), Blue (RGB value 3669AF), Blue (RGB value 1057A1), Blue (RGB value 0067AD), Blue (RGB value 008FC9), Blue (RGB value

0087B4), Blue (RGB value 00A8E2), Blue (RGB value 00B3EC), Teal (RGB value 26B6C4), Teal (RGB value 56BFAE), Teal (RGB value 2EA484), Green (RGB value 37AB65), Green (RGB value 37AA54), Green (RGB value 6CB856), Green (RGB value B0CD41), Green (RGB value CFD832), Yellow (RGB value F7E224), and finally Yellow (RGB value FFF200) on the top left. All instances of the color white appearing in the background and in the hexagonal gap between the inner and outer hexagons is background or transparent area only and is not claimed as a feature of the mark.

Certification Mark Standard

The services are performed by persons who have met the following requirements: (1) Must successfully complete all educational requirements of the Registered Financial and Retirement Advisor Course Part 1 and Part 2, including all formal course assessments and a final course examination. The Tables of Contents to Part 1 and Part 2 of the course content are attached. Part 1 and Part 2 of the Course are divided into seven and ten units, respectively, with each unit covering a broad topic area relating primarily to retirement planning or estate planning. Each of the seven and ten units in Part 1 and Part 2, respectively, concludes with a formal assessment. To successfully complete the educational requirements of Part 1 and Part 2 of the Course, the person must complete and pass the following two mandatory components for each Part: (a) all seven and ten end-of-unit formal assessments, respectively, with a minimum grade of 60% on each formal assessment; followed by (b) a final course examination for each Part, with a minimum grade of 60%. A final course grade of 60% is required for each Part of the Course. (2) Must successfully complete the educational requirement of creating a financial and retirement plan based on a case study. (3) Must complete a minimum of 10 continuing education activities or credits approved by the applicant on an annual basis. An eligible continuing education activity must be educational in nature and must cover concepts directly related to retirement planning, estate planning and/or financial planning in general, and may include courses pre-approved by the applicant or alternate continuing education activities such as credit courses offered through a university, community college or other approved post-secondary educational institute, in house training, conferences, teaching, presenting, writing and/or editing papers, and other activities that are educational in nature and that relate specifically to retirement planning, estate planning or financial planning; and

(4) Must adhere to the applicant's Code of Conduct and Practice Standards. A copy of the Code of Conduct is attached. The aforesaid standards are subject to change by the applicant from time to time.

Colour Claim

Colour is claimed as a feature of the trademark. The following colors are claimed as a feature of the mark as indicated by their Hexadecimal color identification codes: yellow F8EA20, yellow CCDB32, green 8FD363, green 076D39, green 718F3F, green 488643, and green 8AC441. The mark consists of a hexagon resting on one point and which is carrying a stack of four cubes. The cubes appear in three dimensions with two in a single layer on the outside and a stack of two in the middle, the bottom cube of which is obscured by the cube on top and the adjoining cubes on the side. The two cubes in the single layer meet at a point which forms an angle of 180 degrees in the front and back. The sides of the cubes and the portions of the hexagon which are not obscured by the cubes each form a diamond shape. The top surface of the top cube and the exposed surface of the hexagon encompassing the bottom point are green 8FD363. The exposed surface of the upper left side of the hexagon and the right side of the cube to the farthest right are yellow F8EA20. The left side of the cube on top and the cube farthest to the right are yellow CCDB32. The right side of the cube on top and the right side of the cube to the left are green 718F3F. The left side of the cube to the left and the exposed surface of the upper right side of the hexagon are green 076D39. The top side of the cube to the left is green 8AC441. The top side of the cube to the right is green 488643.

Class 35

(1) Advertising on the Internet for others; advertising services to create brand identity for others; dissemination of advertising for others via an on-line communications network on the internet; dissemination of advertising for others via the Internet; dissemination of advertising matter for others; distribution of advertisements and commercial announcements for others; on-line advertising for others on computer networks; on-line advertising services for others on computer networks; online advertising for others via a computer communications network; placing

advertisements for others; preparation of custom advertisements for others; preparing advertisements for others; preparing and placing advertisements for others; preparing and placing of advertisements for others; association services for promoting greater minority inclusion in the sports industry; promoting the goods and services of others by arranging for sponsors to affiliate their goods and services with sports competitions; promotion of goods and services of others through sponsorship of sports events; promotional management for sports personalities; administration of community recreational sports leagues; booking agency services of sports ambassadors for events; booking agency services of sports personalities for events; business management of sports people.

Class 38

(2) Providing access to online forums and broadcasts of current and past boxing bouts for combat sports enthusiasts; providing access to an interactive computer database in the field of combat sports.

Class 41

(3) Boxing commission and officials training; advisory services relating to combat sports events; television and pay per view program production in the field of combat sports; television program production; pay-per-view television programming; providing television programmes, not downloadable, via video-on-demand services; production of television programs; production of television shows for broadcast on the Internet.

Class 42

(4) Creating, maintaining and hosting the web sites of others; design of computer databases, development of databases; computer system analysis; providing on-line interactive computer databases featuring lists and schedules of television programming; providing a website featuring information about television programming.

Colour is claimed as a feature of the trademark. The entire trademark is blue.

Goods

Class 01

(1) Chemicals used in industry and science namely detergents and chemical cleansers for removing abrasive materials from industrial manufacturing machine engines as well as purifying chemicals for liquids such as oil and water; solvents for use in the cleaning of machines during manufacturing processes; chemicals for use in brewing namely, must-fining preparations, flocculants and quaternary ammonium compounds; enzymes for the brewing industry; enzymes for the brewing industry

Class 03

(2) industrial cleaning preparations namely, detergents and foam cleaning preparations for cleaning of industrial machines, pipes and tanks; scouring and abrasive preparations, namely, scouring solutions, general use abrasives

Class 05

(3) All-purpose disinfectants; preparations for destroying vermin; fungicides; sanitary and sterilizing preparations, namely, all-purpose sanitizers and all-purpose sterilizing preparations for killing and inhibiting the growth of micro-organisms, including sterilizing preparations for cleaning and sterilization of industrial machines, pipes and tanks.

Class 06

(4) Valves of metal or their alloys, namely, metal valves for water pipes, manually operated ball valves and butterfly valves of metal, metal valves for controlling the flow of gases in pipelines;

pipes and tubes of metal, namely, branching pipes of metal, drain pipes of metal, metal pipes for liquid and gas transfer, metal sewer pipes, tubing of metal for joining and terminating pipes; high-pressure metal cylinders [containers]; high-pressure pipelines (of metal); pressure gas bottles of metal; pressure gas cylinders made of metal; metal storage tanks; metal fluid storage tanks; separation tanks of metal; gas storage tanks of metal; industrial water tanks of metal; liquefied gas storage tanks of metal; pressure vessels of metal; liquid storage tanks [containers] made of metal; tanks of metal for the storage of compressed gases; tanks of metal for the storage of liquefied gases; bulkhead fittings of metal [other than vehicles]; fittings, namely, lids for metal storage tanks, die blocks, block holding vises and metal pipe fittings

Class 07

(5) Motors and engines used in industrial applications; machine coupling and transmission components (except for land vehicles) and parts therefor; machine coupling and transmission components (except for land vehicles); separator machines being water separators, steam and oil separators, oil and gas separators, separating machines for chemical processing, magnetic separators for industrial use in separating magnetic particles from rare earth materials, and parts therefor; centrifugal machines for the separation of solids and liquids for industrial use, and parts therefor; decanters (horizontal separators for separation of particles in fluids and gas), and parts therefor; air filters, oil filters and gas filters all being parts of machines and engines; angle valves, back pressure valves, ball valves, butterfly valves, cryogenic valves, check valves, dispensing valves, dosing valves and hydraulic valves all being parts of machines, and parts therefor; heat exchangers for use in carbon capture, petrochemical and oil refining; heat exchangers for waste heat recovery; heat exchangers for heating oil and water; heat exchangers for steam production; heat exchangers for exhaust gas and separation of condensed water, and parts therefor; bag filling machines particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; sack filling machines particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; centrifugal drums; centrifugal separating machines for industrial use; centrifugal separators; condensate separators; decanter centrifuges incorporating screw conveyors; extracting machines for chemical processing particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; filter presses for chemical processing particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; milk filtering machines, and parts therefor; machines for the centrifugal separation of fluids particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; oil separators [machines], and parts therefor; separators for liquid solutions, namely, hydrocyclones for the separation of liquids, machines for the centrifugal separation of liquids for industrial use, and parts therefor; pneumatically operable valves; pump control valves; exhaust gas treatment systems for engines;

catalytic converters for the exhaust gases of internal combustion engines; exhaust gas recirculation [EGR] valves for motors and engines; high-pressure pumps for washing installations; high pressure pumps for industrial machinery, and parts therefor; high-pressure cleaners; pressure valves [parts of machines]; marine pumps namely, bilge pumps, submersible pumps and pumps as part of marine motors and engines, and parts therefor; controlled volume pumps for fluid, and parts therefor; gear pumps, and parts therefor; circulating pumps, and parts therefor; beer pumps, and parts therefor; machines for de-alcoholization of beer and other beverages, and parts therefor; gear pumps; circulating pumps; beer pumps; machines for de-alcoholization of beer and other beverages; water pumps for industrial machinery, and parts therefor; reverse osmosis water pumps, and parts therefor; hydraulic pumps, and parts therefor; rotary pumps, and parts therefor; electric pumps for the extraction of gases, and parts therefor; pneumatic pumps, and parts therefor; bilge pumps, and parts therefor; axial pumps, and parts therefor; pressure pumps, and parts therefor; screw pumps, and parts therefor; centrifugal pumps, and parts therefor; pumps for machines, and parts therefor; engine fuel pumps, and parts therefor; rotary gear pumps, and parts therefor; positive displacement pumps, and parts therefor; valves for pumps, and parts therefor; water separators [machines]; heavy media separators [machines]; expansion tanks [parts of machines]; plunger type valves for use with tanks; hydraulic valves; agitators for milk and cheese processing, and parts therefor; agitators for chemical processing and parts therefor; agitators for circulating liquid media and parts therefor; crude oil refining machines, and parts therefor; pulp refining machines, and parts therefor; pulp refining machines, and parts therefor; emergency power supply generators, and parts therefor; electric power generators for emergency use, and parts therefor; emergency power generators, and parts therefor; cyclones, and parts therefor; inert gas generators [machines], and parts therefor; machine pumps for the extraction of steam and vapour gases, and parts therefor; mechanical food mixing machines for industrial use particularly for use in the food, yeast, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; mechanical fodder mixing machines, mechanical mixing machines for rubber, mechanical ingredient mixing machines for use in the manufacture of hair care preparations, and parts therefor; steam boilers [parts of machines], and parts therefor; steam boilers for steam generating [parts of machines]; steam engine boilers for power generation, other than for land vehicles, and parts therefor; washing apparatus being washing machines, multi-purpose high-pressure washers, fruit and vegetable washing machines, olive washing machines, and parts therefor; industrial washing machines, and parts therefor; exhaust gas filter systems for combustion engines, boiling vessels and boilers; reactor machine systems comprising UV treatment devices for biological disinfection of water; exhaust gas filter systems for combustion engines, boiling vessels and boilers; reactor machine systems comprising UV treatment devices for biological disinfection of water, and parts therefor; Anti-pollution catalytic converters for motors and engines, and parts therefor; devices for separation of particles from crankcase gases and liquids, and parts therefor; machines for refining of oils for food, and parts therefor; machines for production of oils for food, and parts therefor; drilling machines, namely, column drilling machines, deep hole drilling machines, drilling machines for metalworking, oil well drilling machines, hole drilling machines for seeding or planting, drilling rigs, and parts therefor; machines for separating glycidyl esters from oils for food; spray nozzles being parts of machines, and parts therefor; packaging machines for sterilized and not sterilized packaging; filling machines for packages, and parts therefor; bag in box and bag in drum filling machines, and parts therefor; washing and cleaning machines for washing interior and exterior industrial manufacturing plant process plant pipes and tanks particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil

and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; steam cleaners [machines] particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; lifting machines for transporting bulk materials namely, cargo lifting derricks and mechanical lifting conveyors particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; installations for the bulk handling of granular materials; installations for the bulk handling of pulverulent materials, and parts therefor; machines and apparatus for cleaning, electric, namely, machines for cleaning surfaces using high-pressure water particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; electric oil well cleaning machines, electric industrial machines for cleaning sand, electric can and bottle cleaning machines, and parts therefor; washing machines for washing industrial manufacturing plant process purification tank containers, reactors, and silos; sprayers for cleaning shipping containers, and parts therefor; rotating spray nozzles and rotating pulse nozzles (parts of machines and apparatus for cleaning and purification), and parts therefor; washing machines for washing industrial manufacturing plant process purification tank containers, reactors and silos all in the fields of foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use in the power, oil and gas industries, for use on off-shore plants, for use with oil and gas refineries, air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and parts therefor; beer brewing machines (including machines for washing and cleaning brewing machines and yeast handling and sampling equipment, and their parts and components), and parts therefor; control mechanisms for machines, namely, computer numerical control [CNC] machine tools for beer brewing machines, thermostatic control valves for machines, and parts therefor; de-aerators for removing oxygen and bubbles from water, and parts and fittings thereof; apparatus for de-alcoholization of beer and other beverages; pigs for cleaning pipes; joints for pipes (metal -) [parts of machines]; pneumatic valve actuators being parts of machines; valves operated automatically by hydraulic control; valves operated automatically by pneumatic control; pressure regulating valves being parts of machines; sludge cocks [valves] being parts of machines; mechanical control valves for regulating the flow of gases and liquids; valves operated by changes in pressure; fuel economizers

Class 09

(6) Apparatus for inspection, weighing, measuring, signalling, checking (supervision), namely, computers for use with heat exchangers, separators, centrifuges, evaporators, pasteurizers, industrial plants, industrial machinery, process plants, water plants, control plants, and for systems and machinery for heat transfer, fluid handling, and separation of fluids, solids, gases, and specially adapted structural parts therefor; data processing equipment, namely, central processing units, digital signal processors, sound processors, graphics processor units, video processors, signal processors, computer memory expansion modules, computer operating systems, computer terminals, computer touch screens, computer network servers, computer network hubs, switches

and routers and computers; electrical control, testing and monitoring apparatus, namely, electric control panels for boiler systems and filter systems, separator feed pump systems, drilling rigs and for separators for chemical processing, and automatic electronic control valves and for regulating the flow of gases and liquids, and specially adapted structural parts therefor; apparatus for monitoring of machine and industrial process condition by remote access, namely, computer hardware and electric meters for monitoring of computer systems by remote access to ensure proper functioning, and specially adapted structural parts therefor; thermostats, and specially adapted structural parts therefor; heat regulating apparatus, namely, temperature gauges and temperature sensors, and specially adapted structural parts therefor; hygrometers, and specially adapted structural parts therefor; electric and electrical condensers, namely, capacitors and flow control equipment, namely, metering orifice plates for metering or controlling the flow rate of liquids, and specially adapted structural parts therefor; filling level detectors, namely, level gauges and liquid level sensors, and specially adapted structural parts therefor; electronic thermionic valves, and specially adapted structural parts therefor; thermostatically controlled valves, and specially adapted structural parts therefor; thermal contacts, and specially adapted structural parts therefor; thermal relays and specially adapted structural parts therefor; thermal switches and specially adapted structural parts therefor; thermal controls, namely, temperature gauges for heat exchangers, separators, centrifuges, evaporators, pasteurizers, industrial plants, industrial machinery, manufacturing plants, water plants, control plants, valves and pumps, and for systems and machinery for heat transfer, fluid handling, and separation of fluids, solids and gases, and specially adapted structural parts therefor; thermal sensors [thermostats] and specially adapted structural parts therefor; thermal energy measuring apparatus and specially adapted structural parts therefor; thermionic valves and specially adapted structural parts therefor; electric valves [thermionic] and specially adapted structural parts therefor; electric control valves and specially adapted structural parts therefor; cooker control units and specially adapted structural parts therefor; magnetic filters and specially adapted structural parts therefor; positive displacement meters and specially adapted structural parts therefor; weighing scales for cargo handling purposes for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor; steering, monitoring and control apparatus for exhaust gas or water filter systems being control units for regulating oil and gas exhaust and water filtration systems, and specially adapted structural parts therefor; steering, monitoring and control apparatus for exhaust gas filter systems for combustion engines, boiling vessels and boilers, and specially adapted structural parts therefor; Steering, monitoring and control apparatus for exhaust water filter systems for combustion engines, boiling vessels and boilers, and specially adapted structural parts therefor; steering, monitoring and control apparatus for exhaust gas filter systems for maritime use and ships, and specially adapted structural parts therefor; Steering, monitoring and control apparatus for exhaust water filter systems for maritime use and ships, and specially adapted structural parts therefor; steering, monitoring and control apparatus for water filter systems for blocking the intake of organisms and reducing sediments in water pumping operations on ships and in maritime use; steering, monitoring and control apparatus for reactor machine systems comprising UV treatment devices for biological disinfection of water; flue-gas control apparatus and apparatus for the analysis of flue-gas; downloadable software for the automation of electronic controllers for operating factory manufacturing machines for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and

paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor; downloadable software for the automation of electronic controllers for operating industrial manufacturing machines for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor; industrial automation controls, namely, programmable logic controllers (PLCs), distributed controllers, and programmable automation controller (PACs) for the operation of industrial manufacturing machines and specially adapted structural parts therefor; Robotic Process Automation software for the operation of industrial manufacturing machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor;

Class 11

(7) Apparatus for heating, heat recovering, pasteurization, steam generating, cooking, boiling, concentration (evaporators), refrigerating, cooling, drying, ventilation, water supply and for district heating and sanitation purposes, namely, heat exchangers for chemical processing and plates being structural and replacement parts for heat exchangers, and specially adapted structural parts therefor; heat exchangers; evaporative air coolers, and evaporators for air conditioning, for cooling systems, for heating systems, for chemical processing, for cooling and freezing goods, for use in cold rooms for fresh and frozen goods, for meat storage, agricultural produce and agricultural processing rooms, and for cooling engine rooms and monitoring rooms, and specially adapted structural parts therefor; distillation apparatus, namely, refining towers for distillation and vacuum distillation columns for industrial purposes, and specially adapted structural parts therefor; refrigerating containers and specially adapted structural parts therefor; water heaters and specially adapted structural parts therefor; sterilizing apparatus, namely, sterilizers for water treatment; desalination plants and desalination units, and specially adapted structural parts therefor; equipment for freshwater installations namely water purification, desalination and conditioning installations namely, apparatus for purifying industrial water, desalination units, and water conditioning units, and specially adapted structural parts therefor; drinking water filters, water treatment plant filters, filters for coolant recovery units; membrane filters, and specially adapted structural parts therefor; industrial drinking water purification plants, irrigation apparatus being machines for watering plants, oil purifying installations, oil purifiers; thermal freshwater generators; dehumidifiers; industrial dehumidifiers; air dehumidifiers; electric dehumidifiers; cooling evaporators; evaporators for chemical processing; evaporators for air conditioners, and specially adapted structural parts therefor; water filters for water overflows of fresh water supply tanks, and specially adapted structural parts therefor; mechanisms for controlling fluid level in tanks [valves]; level control valves and specially adapted structural parts therefor; mixing valves [faucets], and specially adapted structural parts therefor; safety valves for water pipes, and specially adapted structural parts therefor; heaters namely electric heaters for laboratory use, water heaters, and specially adapted structural parts therefor; shell heat exchangers; shell-and-coil heat exchangers; shell-and-tube condensers; shell-and-tube evaporators; shell-and-tube heat exchangers; tubular heat exchangers; scraped surface heat exchangers; plate heat exchangers; air heat exchangers;

ventilators for heat exchangers; heat exchangers for central heating purposes; evacuated heat pipe solar collectors [heat exchangers]; heat exchangers for chemical processing; heat exchangers, not parts of machines; heat exchangers for the removal of condensate; heat exchangers for the removal of exhaust gases; heat exchangers for the removal of flue gases, and specially adapted structural parts therefor; HVAC systems for commercial buildings, and specially adapted structural parts therefor; flues and installations for conveying exhaust gases; pressure water tanks; pressure vessels for sterilising; heat pumps; gas scrubbers [parts of gas installations]; gas scrubbers; separators for scrubbing gas for the cleaning and purification of gases, and specially adapted structural parts therefor; separators for removing condensation by refrigeration; waste water treatment tanks; level controlling valves in tanks; electrically heated hot water tanks; expansion tanks for central heating installations; wastewater treatment tanks for industrial purposes; filter elements for the overflows of water supply tanks; thermal fluid heaters; thermal incineration installations; solar thermal collectors [heating]; thermal controls [valves] for central heating radiators; thermal oxidizers for industrial air pollution control; steam valves; ball valves; water control valves for faucets; industrial waste water purification plants, and specially adapted structural parts therefor; waste water purifiers for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor; industrial waste water purification plants; cookers namely, steam blanchers and pasteurizers, and specially adapted structural parts therefor; gas burners; oil burners; alcohol burners; refining towers for distillation; burners for the combustion of gas in boiler units; magnetic filters being parts of central heating apparatus; heaters for swimming pools; steam boilers other than parts of machines, and specially adapted structural parts therefor; drinking water supply apparatus, namely, fresh water purification plants, and specially adapted structural parts therefor; drinking water filters; water treatment apparatus for water softening namely, water softening units, and specially adapted structural parts therefor; ballast water treatment systems; water treatment plants for aerating and circulating water and specially adapted structural parts therefor; water treatment filters namely, filters for drinking water, filters for water purifiers, and specially adapted structural parts therefor; ultraviolet (UV) lamps for use in disinfecting surfaces, and specially adapted structural parts therefor; UV lamp apparatus for the treatment of biological disinfection of water; filters for exhaust emission control; gas boilers and industrial boilers, and specially adapted structural parts therefor; apparatus for purifying of gas, namely gas purification machines for industrial purposes; filters for purifying of gas and water being parts of maritime vessels and industrial manufacturing machinery, and specially adapted structural parts therefor; filters for purifying water for maritime vessels and industrial manufacturing machinery, and specially adapted structural parts therefor; water filters for blocking the intake of organisms and reduce sediments during water pumping operations on ships and in maritime use; water purifiers for industrial purposes, and specially adapted structural parts therefor; gas purifiers, and specially adapted structural parts therefor; exhaust gas and water filter systems for maritime use and ships; water filter systems for blocking the intake of organisms and reducing sediments in water pumping operations on ships and in maritime use; boilers used on marine vessels; boiler pipes and tubes; boiler feed installations; heat exchangers (not parts of machines); flue-gas filters; gas condensers other than parts of machines; distillers for chemical processing; distillers for purifying liquids for chemical processing, and specially adapted structural parts therefor; water cooling tanks used on marine vessels; sterilization autoclaves for use in the food and beverage industry; plate heat regenerators; deaerators for faucets; vacuum heat exchangers; deodorizing apparatus, namely, electric air deodorizers and economizers, namely, steam deodorizing apparatus to de-acidify

edible oils; boilers for heating, namely, steam boilers for industrial use; steam boilers, other than parts of machines; heat exchangers for refrigerators; air and water filters for industrial applications, namely, for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; spiral heat exchangers; boiler pipes [tubes] for heating installations; pipe heat exchangers; reactors (catalysts) being industrial chemical installations; water and oil scrubbing apparatus and installations, namely, air pollution control devices to remove particulates and gases from industrial exhaust streams, and specially adapted parts therefor; burners for boilers; gas burners; oil burners; alcohol burners; oxyhydrogen burners; gas burners for industrial purposes; apparatus for cleaning gases, namely, gas purification machines for industrial purposes; apparatus for cleaning air, namely, separators for the cleaning and purification of air, and air cleaning units.

Class 12

(8) Ship ballast tanks [structural components of vessels].

Class 14

(9) Horological and chronometric instruments, namely, clocks and watches.

Class 17

(10) Rubber gaskets for industrial machinery, for separation columns, pipe gaskets for heat transfer and fluid handling; pipe gaskets; rubber sealing gaskets for the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, oil and gas industries, and water and power plants, oil and gas refineries, air pollution control plants, wastewater plants, and rubber sealing gaskets for use on marine vessels and ship engine rooms; gaskets of metal for industrial use; gaskets for heat exchangers; graphite packing for gaskets; gaskets for tunnel lining segments; non-metal gaskets in the form of rings, namely, o-rings and sealing rings; gaskets being rubber sheets; graphite packing for pumps, gaskets and valves; combination seals, namely, composite seals; fluid seals; rod seals; plastic seals, namely, sealing rings; fireproof seals; oil seals [packings]; cylinder joinings [seals]; seals for pipe connections; rubber seals for jars; seals, sealants and fillers for expansion joints for industrial machinery for separation centrifugal columns, heat transfer and fluid handling; rotary shaft seals, not of metal

Class 22

(11) Disposable bulk container liners; bags for bulk containers; sealable plastic bags for storage in bulk; bags [sacks] for packaging materials in bulk; packaging sacks for transporting materials in bulk; bags for the storage of bulk materials; bags for the transportation of bulk materials; packaging bags [sacks] of textile for bulk transportation.

Class 28

(12) Playthings designed as small-scale machines and apparatus, namely, toy model industrial machines

Services

Class 37

(1) Installation, building, maintenance and repair services for machinery for use in the food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control

plants, waste water plants, and for use in engine rooms on marine vessels and ships; Installation, building, maintenance and repair services for control steering of machinery for industrial processing for use in the food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; Installation, building, maintenance and repair services of heaters and coolers, as well as cookers and boilers, all for use in the food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; installation, building, maintenance and repair services for machines, apparatus for control steering and monitoring, apparatus for heating, steam generating, cooking, cooling, drying, ventilation, water supply and sanitary purposes and installations included in industrial process systems, particularly for use on off-shore plants, refineries, pollution control plants, waste water plants, on vessels, in particular in engine rooms; Installation, building, maintenance and repair services for machines, apparatus for control steering and monitoring, apparatus for heating, steam generating, cooking, cooling, drying, ventilation, water supply and sanitary purposes and installations included in industrial process systems, particularly for use on off-shore plants, refineries, pollution control plants, waste water plants, on ships, in particular in engine rooms

Class 42

(2) Industrial process development and advisory services, namely, development of computer hardware for the manufacturing industries, and development of testing specifications and procedures for use in the food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; product research and development; product design and development; engineering in the fields of industrial engineering for use in the food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; testing, and authentication of new products and quality control for use in the fields of food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; machine condition monitoring namely, quality control monitoring for industrial machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; computer system monitoring services; services for monitoring industrial processes; condition monitoring being quality control for greases; condition monitoring relating to fluids, namely, quality control monitoring of crude oil, dairy, beverages, and water; condition monitoring of vibrations for quality control monitoring of industrial machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; condition monitoring namely quality control monitoring of industrial lubricants; providing quality assurance monitoring of

industrial manufacturing processes of industrial machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; machine condition monitoring namely, the remote quality control monitoring of industrial manufacturing processes of industrial machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; laboratory research in the field of chemistry; product research; software development.

Trademark Type

Standard Characters

Goods

Class 01

(1) Chemicals used in industry and science, namely detergents and chemical cleansers for removing abrasive materials from industrial manufacturing machine engines as well as purifying chemicals for liquids such as oil and water; solvents for use in the cleaning of machines during manufacturing processes; chemicals for use in brewing, namely, must-fining preparations, flocculants and quaternary ammonium compounds; enzymes for the brewing industry

Class 03

(2) industrial cleaning preparations namely, detergents and foam cleaning preparations for cleaning of industrial machines, pipes and tanks; scouring and abrasive preparations, namely, scouring solutions, general use abrasives.

Class 05

(3) All-purpose disinfectants; preparations for destroying vermin; fungicides; sanitary and sterilizing preparations, namely, all-purpose sanitizers and all-purpose sterilizing preparations for killing and inhibiting the growth of micro-organisms, including sterilizing preparations for cleaning and sterilization of industrial machines, pipes and tanks

Class 06

(4) valves of metal or their alloys, namely metal valves for water pipes, manually operated ball valves and butterfly valves of metal, metal valves for controlling the flow of gases in pipelines; pipes and tubes of metal, namely, branching pipes of metal, drain pipes of metal, metal pipes for liquid and gas transfer, metal sewer pipes, tubing of metal for joining and terminating pipes; high pressure metal cylinders [containers]; high-pressure pipelines (of metal); pressure gas bottles of metal; pressure gas cylinders made of metal; metal storage tanks; metal fluid storage tanks; separation tanks of metal; gas storage tanks of metal; industrial water tanks of metal; liquefied gas storage tanks of metal; pressure vessels of metal; liquid storage tanks [containers] made of metal; tanks of metal for the storage of compressed gases; tanks of metal for the storage of liquefied gases; bulkhead fittings of metal [other than vehicles]; fittings, namely, lids for metal storage tanks, die blocks, block holding vises and metal pipe fittings

Class 07

(5) Motors and engines used in industrial applications; machine coupling and transmission components (except for land vehicles), and parts therefor; separator machines being water separators, steam and oil separators, oil and gas separators, separating machines for chemical processing, magnetic separators for industrial use in separating magnetic particles from rare earth materials, and parts therefor; centrifugal machines for the separation of solids and liquids for industrial use, and parts therefor; decanters (horizontal separators for separation of particles in fluids and gas), and parts therefor; air filters, oil filters and gas filters all being parts of machines and engines; angle valves, back pressure valves, ball valves, butterfly valves, cryogenic valves, check valves, dispensing valves, dosing valves and hydraulic valves all being parts of machines, and parts therefor; heat exchangers for use in carbon capture, petrochemical and oil refining; heat exchangers for waste heat recovery; heat exchangers for heating oil and water; heat exchangers for steam production; heat exchangers for exhaust gas and separation of condensed water, and parts therefor; bag filling machines particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; sack filling machines particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; centrifugal drums; centrifugal separating machines for industrial use; centrifugal separators; condensate separators; decanter centrifuges incorporating screw conveyors; extracting machines for chemical processing particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; filter presses for chemical processing particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; milk filtering machines, and parts therefor; machines for the centrifugal separation of fluids particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; oil separators [machines], and parts therefor; separators for liquid solutions namely, hydrocyclones for the separation of liquids, machines for the centrifugal separation of liquids for industrial use, and parts therefor; pneumatically operable valves; pump control valves; exhaust gas treatment systems for engines; catalytic converters for the exhaust gases of internal combustion engines; exhaust gas recirculation [EGR] valves for motors and engines; high pressure pumps for washing installations; high pressure pumps for industrial machinery, and parts therefor; high pressure cleaners; pressure valves [parts of machines]; marine pumps namely, bilge pumps, submersible pumps and pumps as part of marine motors and engines, and parts therefor; controlled volume pumps for fluid, and parts therefor; gear pumps, and parts therefor; circulating pumps, and parts therefor; beer pumps, and parts therefor; machines for de-alcoholization of beer and other beverages, and parts therefor; water pumps for industrial machinery, and parts therefor; reverse osmosis water pumps, and parts therefor; hydraulic pumps, and parts therefor; rotary pumps, and parts therefor; electric pumps for the extraction of gases, and parts therefor;

pneumatic pumps, and parts therefor; bilge pumps, and parts therefor; axial pumps, and parts therefor; pressure pumps, and parts therefor; screw pumps, and parts therefor; centrifugal pumps, and parts therefor; pumps for machines, and parts therefor; engine fuel pumps, and parts therefor; rotary gear pumps, and parts therefor; positive displacement pumps, and parts therefor; valves for pumps, and parts therefor; water separators [machines]; heavy media separators [machines]; expansion tanks [parts of machines]; plunger type valves for use with tanks; hydraulic valves; agitators for milk and cheese processing, and parts therefor; agitators for chemical processing, and parts therefor; agitators for circulating liquid media, and parts therefor; crude oil refining machines, and parts therefor; pulp refining machines, and parts therefor; emergency power supply generators, and parts therefor; electric power generators for emergency use, and parts therefor; emergency power generators, and parts therefor; cyclones, and parts therefor; inert gas generators [machines], and parts therefor; machine pumps for the extraction of steam and vapour gases, and parts therefor; mechanical food mixing machines for industrial use particularly for use in the food, yeast, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; mechanical fodder mixing machines, mechanical mixing machines for rubber, mechanical ingredient mixing machines for use in the manufacture of hair care preparations, and parts therefor; steam boilers [parts of machines], and parts therefor; steam boilers for steam generating [parts of machines], and parts therefor; steam engine boilers for power generation, other than for land vehicles, and parts therefor; washing apparatus being washing machines, multi-purpose high-pressure washers, fruit and vegetable washing machines, olive washing machines, and parts therefor; industrial washing machines, and parts therefor; exhaust gas filter systems for combustion engines, boiling vessels and boilers; reactor machine systems comprising UV treatment devices for biological disinfection of water, and parts therefor; anti-pollution catalytic converters for motors and engines, and parts therefor; devices for separation of particles from crankcase gases and liquids, and parts therefor; machines for refining of oils for food, and parts therefor; machines for production of oils for food, and parts therefor; drilling machines namely, column drilling machines, deep hole drilling machines, drilling machines for metalworking, oil well drilling machines, hole drilling machines for seeding or planting, drilling rigs, and parts therefor; machines for separating glycidyl esters from oils for food; spray nozzles being parts of machines, and parts therefor; packaging machines for sterilized and not sterilized packaging; filling machines for packages, and parts therefor; bag in box and bag in drum filling machines, and parts therefor; washing and cleaning machines for washing exterior and interior industrial manufacturing plant process plant pipes and tanks particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; steam cleaners [machines] particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; lifting machines for transporting bulk materials, namely, cargo lifting derricks and mechanical lifting conveyors particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; installations for the bulk handling of granular materials; installations for the bulk handling of pulverulent materials, and parts therefor; machines and apparatus for cleaning, electric, namely, machines for

cleaning surfaces using high-pressure water particularly for use in the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, power, oil and gas industries, for use on off-shore plants, oil and gas refineries, pollution control plants, waste water plants, and in engine rooms on vessels and on ships, and parts therefor; electric oil well cleaning machines, electric industrial machines for cleaning sand, electric can and bottle cleaning machines, and parts therefor; washing machines for washing industrial manufacturing plant process purification of tank, containers, reactors, and silos; sprayers for cleaning shipping containers, and parts therefor; rotating spray nozzles and rotating pulse nozzles (parts of machines and apparatus for cleaning and purification), and parts therefor; washing machines for washing industrial manufacturing plant process purification of tanks, containers, reactors, and silos all in the fields of foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use in the power, oil and gas industries, for use on off-shore plants, for use with oil and gas refineries, air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and parts therefor; beer brewing machines (including machines for washing and cleaning brewing machines and yeast handling and sampling equipment, and their parts and components), and parts therefor; control mechanisms for machines, namely, computer numerical control [CNC] machine tools for beer brewing machines, thermostatic control valves for machines, and parts therefor; de-aerators for removing oxygen and bubbles from water, and parts and fittings thereof; pigs for cleaning pipes; joints for pipes (metal -) [parts of machines]; pneumatic valve actuators being parts of machines; valves operated automatically by hydraulic control; valves operated automatically by pneumatic control; pressure regulating valves being parts of machines; sludge cocks [valves] being parts of machines; mechanical control valves for regulating the flow of gases and liquids; valves operated by changes in pressure; fuel economizers

Class 09

(6) Apparatus for inspection, weighing, measuring, signalling, checking (supervision), namely, computers for use with heat exchangers, separators, centrifuges, evaporators, pasteurizers, industrial plants, industrial machinery, process plants, water plants, control plants, and for systems and machinery for heat transfer, fluid handling, and separation of fluids, solids, gases, and specially adapted structural parts therefor; data processing equipment namely, central processing units, digital signal processors, sound processors, graphics processor units, video processors, signal processors, computer memory expansion modules, computer operating systems, computer terminals, computer touch screens, computer network servers, computer network hubs, switches and routers and computers; electrical control, testing and monitoring apparatus, namely, electric control panels for boiler systems and filter systems, separator feed pump systems, drilling rigs and for separators for chemical processing, and automatic electronic control valves and for regulating the flow of gases and liquids, and specially adapted structural parts therefor; apparatus for monitoring of machine and industrial process condition by remote access, namely, computer hardware and electric meters for monitoring of computer systems by remote access to ensure proper functioning, and specially adapted structural parts therefor; thermostats, and specially adapted structural parts therefor; heat regulating apparatus, namely, temperature gauges and temperature sensors, and specially adapted structural parts therefor; hygrometers, and specially adapted structural parts therefor; electric and electrical condensers, namely, capacitors and flow control equipment, namely, metering orifice plates for metering or controlling the flow rate of liquids, and specially adapted structural parts therefor; filling level detectors, namely, level gauges and liquid level sensors, and specially adapted structural parts therefor; electronic thermionic valves, and specially adapted structural parts therefor; thermostatically controlled valves, and

specially adapted structural parts therefor; thermal contacts, and specially adapted structural parts therefor; thermal relays, and specially adapted structural parts therefor; thermal switches, and specially adapted structural parts therefor; thermal controls, namely, temperature gauges for heat exchangers, separators, centrifuges, evaporators, pasteurizers, industrial plants, industrial machinery, manufacturing plants, water plants, control plants, valves and pumps, and for systems and machinery for heat transfer, fluid handling, and separation of fluids, solids and gases, and specially adapted structural parts therefor; thermal sensors [thermostats], and specially adapted structural parts therefor; thermal energy measuring apparatus, and specially adapted structural parts therefor; thermionic valves, and specially adapted structural parts therefor; electric valves [thermionic], and specially adapted structural parts therefor; electric control valves, and specially adapted structural parts therefor; cooker control units, and specially adapted structural parts therefor; magnetic filters, and specially adapted structural parts therefor; positive displacement meters, and specially adapted structural parts therefor; weighing scales for cargo handling purposes for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor; steering, monitoring and control apparatus for exhaust gas filter systems being control units for regulating oil and gas exhaust and water filtration systems, and specially adapted structural parts therefor; steering, monitoring and control apparatus for exhaust water filter systems being control units for regulating oil and gas exhaust and water filtration systems, and specially adapted structural parts therefor; steering, monitoring and control apparatus for exhaust gas filter systems for combustion engines, boiling vessels and boilers, and specially adapted structural parts therefor; Steering, monitoring and control apparatus for exhaust water filter systems for combustion engines, boiling vessels and boilers, and specially adapted structural parts therefor; steering, monitoring and control apparatus for exhaust gas filter systems for maritime use and ships, and specially adapted structural parts therefor; Steering, monitoring and control apparatus for exhaust water filter systems for maritime use and ships, and specially adapted structural parts therefor; steering, monitoring and control apparatus for water filter systems for blocking the intake of organisms and reducing sediments in water pumping operations on ships and in maritime use; steering, monitoring and control apparatus for reactor machine systems comprising UV treatment devices for biological disinfection of water; flue-gas control apparatus and apparatus for the analysis of flue-gas; downloadable software for the automation of electronic controllers for operating factory manufacturing machines for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor; downloadable software for the automation of electronic controllers for operating industrial manufacturing machines for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor; industrial automation controls, namely, programmable logic controllers (PLCs), distributed controllers, and programmable automation controller (PACs) for the operation of industrial manufacturing machines and specially adapted structural parts therefor; robotic process automation [RPA] software for the operation of industrial manufacturing

machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor;

Class 11

(7) Apparatus for heating, heat recovering, pasteurization, steam generating, cooking, boiling, concentration (evaporators), refrigerating, cooling, drying, ventilation, water supply and for district heating and sanitation purposes, namely, heat exchangers for chemical processing and plates being structural and replacement parts for heat exchangers, and specially adapted structural parts therefor; heat exchangers; Evaporative air coolers, and evaporators for air conditioning, for cooling systems, for heating systems, for chemical processing, for cooling and freezing goods, for use in cold rooms for fresh and frozen goods, for meat storage, agricultural produce and agricultural processing rooms, and for cooling engine rooms and monitoring rooms, and specially adapted structural parts therefor; distillation apparatus, namely, refining towers for distillation and vacuum distillation columns for industrial purposes, and specially adapted structural parts therefor; refrigerating containers, and specially adapted structural parts therefor; water heaters, and specially adapted structural parts therefor; sterilizing apparatus, namely, sterilizers for water treatment; desalination plants and desalination units, and specially adapted structural parts therefor; fresh water plants being for the treatment of drinking water, and specially adapted structural parts therefor; drinking water filters, water treatment plant filters, filters for coolant recovery units; membrane filters and specially adapted structural parts therefor; industrial drinking water purification plants, irrigation apparatus being machines for watering plants, oil purifying installations, oil purifiers; thermal freshwater generators; dehumidifiers; industrial dehumidifiers; air dehumidifiers; electric dehumidifiers; cooling evaporators; evaporators for chemical processing; evaporators for air conditioners, and specially adapted structural parts therefor; water filters for water overflows of fresh water supply tanks, and specially adapted structural parts therefor; mechanisms for controlling fluid level in tanks [valves]; level control valves, and specially adapted structural parts therefor; mixing valves [faucets], and specially adapted structural parts therefor; safety valves for water pipes, and specially adapted structural parts therefor; heaters, namely electric heaters for laboratory use, water heaters, and specially adapted structural parts therefor; shell heat exchangers; shell-and-coil heat exchangers; shell-and-tube condensers; shell-and-tube evaporators; shell-and-tube heat exchangers; tubular heat exchangers; scraped surface heat exchangers; plate heat exchangers; air heat exchangers; ventilators for heat exchangers; heat exchangers for central heating purposes; evacuated heat pipe solar collectors [heat exchangers]; heat exchangers for chemical processing; heat exchangers, not parts of machines; heat exchangers for the removal of condensate; heat exchangers for the removal of exhaust gases; heat exchangers for the removal of flue gases, and specially adapted structural parts therefor; HVAC systems for commercial buildings, and specially adapted structural parts therefor; flues and installations for conveying exhaust gases; pressure water tanks; pressure vessels for sterilising; heat pumps; gas scrubbers [parts of gas installations]; gas scrubbers; separators for scrubbing gas for the cleaning and purification of gases, and specially adapted structural parts therefor; separators for removing condensation by refrigeration; waste water treatment tanks; level controlling valves in tanks; electrically heated hot water tanks; expansion tanks for central heating installations; waste water treatment tanks for industrial purposes; filter elements for the overflows of water supply tanks; thermal fluid heaters; thermal incineration installations; solar thermal collectors [heating]; thermal controls [valves] for central heating radiators; thermal oxidizers for

industrial air pollution control; steam valves; ball valves; water control valves for faucets; industrial waste water purification plants, and specially adapted structural parts therefor; waste water purifiers for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships, and specially adapted structural parts therefor; industrial waste water purification plants; cookers, namely, steam blanchers and pasteurizers, and specially adapted structural parts therefor; low emission marine burners used in the oil and gas industry, and structural parts therefor; gas burners; oil burners; alcohol burners; refining towers for distillation; burners for the combustion of gas in boiler units; magnetic filters being parts of central heating apparatus; heaters for swimming pools; steam boilers, other than parts of machines, and specially adapted structural parts therefor; drinking water supply apparatus, namely, fresh water purification plants, and specially adapted structural parts therefor; drinking water filters; water treatment apparatus for water softening, namely, water softening units, and specially adapted structural parts therefor; ballast water treatment systems; water treatment plants for aerating and circulating water, and specially adapted structural parts therefor; water treatment filters, namely, filters for drinking water, filters for water purifiers, and specially adapted structural parts therefor; Ultraviolet (UV) lamps for use in disinfecting surfaces, and specially adapted structural parts therefor; UV lamp apparatus for the treatment of biological disinfection of water; filters for exhaust emission control; gas boilers and industrial boilers, and specially adapted structural parts therefor; apparatus for purifying of gas, namely gas purification machines for industrial purposes; filters for purifying of gas and water being parts of maritime vessels and industrial manufacturing machinery, and specially adapted structural parts therefor; filters for purifying water for maritime vessels and industrial manufacturing machinery, and specially adapted structural parts therefor; water filters for blocking the intake of organisms and reduce sediments during water pumping operations on ships and in maritime use; water purifiers for industrial purposes, and specially adapted structural parts therefor; gas purifiers, and specially adapted structural parts therefor; exhaust gas and water filter systems for maritime use and ships; water filter systems for blocking the intake of organisms and reducing sediments in water pumping operations on ships and in maritime use; boilers used on marine vessels; boiler pipes and tubes; boiler feed installations; heat exchangers (not parts of machines); flue-gas filters; gas condensers other than parts of machines; distillers for chemical processing; distillers for purifying liquids for chemical processing, and specially adapted structural parts therefor; water cooling tanks used on marine vessels; sterilization autoclaves for use in the food and beverage industry; plate heat regenerators; deaerators for faucets; vacuum heat exchangers; deodorizing apparatus, namely, electric air deodorizers and economizers, namely, steam deodorizing apparatus to de-acidify edible oils; boilers for heating, namely, steam boilers for industrial use; steam boilers, other than parts of machines; heat exchangers for refrigerators; air and water filters for industrial applications, namely, for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; spiral heat exchangers; boiler pipes [tubes] for heating installations; pipe heat exchangers; reactors (catalysts) being industrial chemical installations; distillation apparatus, namely, distillers for chemical processing, refining towers for distillation and water distillation units, and specially adapted parts therefor; water and oil scrubbing apparatus and installations, namely, air pollution control devices to remove particulates and gases from industrial exhaust streams, and specially adapted parts therefor; burners for boilers; gas burners; gas burners; oil burners; alcohol burners;

oil burners; oxyhydrogen burners; gas burners for industrial purposes; apparatus for cleaning gases, namely, gas purification machines for industrial purposes; apparatus for cleaning air, namely, separators for the cleaning and purification of air, and air cleaning units; apparatus for de-alcoholization of beer and non-alcoholic beverages, namely, industrial degassing and condensing machines.

Class 12

(8) Ship ballast tanks [structural components of vessels].

Class 14

(9) Horological and chronometric instruments, namely, clocks and watches

Class 17

(10) Rubber gaskets for industrial machinery, for separation columns, pipe gaskets for heat transfer and fluid handling; pipe gaskets; rubber sealing gaskets for the food, feedstuff, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, biochemical, pharmaceutical, pulp, paper, oil and gas industries, and water and power plants, oil and gas refineries, air pollution control plants, wastewater plants, and rubber sealing gaskets for use on marine vessels and ship engine rooms; gaskets of metal for industrial use; gaskets for heat exchangers; graphite packing for gaskets; gaskets for tunnel lining segments; non-metal gaskets in the form of rings, namely, o-rings and sealing rings; gaskets being rubber sheets; graphite packing for pumps, gaskets and valves; combination seals, namely, composite seals; fluid seals; rod seals; plastic seals, namely, sealing rings; fireproof seals; oil seals [packings]; cylinder joinings [seals]; seals for pipe connections; rubber seals for jars; seals, sealants and fillers for expansion joints for industrial machinery for separation centrifugal columns, heat transfer and fluid handling; rotary shaft seals, not of metal

Class 22

(11) Disposable bulk container liners; bags for bulk containers; sealable plastic bags for storage in bulk; bags [sacks] for packaging materials in bulk; packaging sacks for transporting materials in bulk; bags for the storage of bulk materials; bags for the transportation of bulk materials; packaging bags [sacks] of textile for bulk transportation.

Class 28

(12) Playthings designed as small-scale machines and apparatus, namely, toy model industrial machines

Services

Class 37

(1) Installation, building, maintenance and repair services for machinery for use in the food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; Installation, building, maintenance and repair services for control steering of machinery for industrial processing for use in the food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; Installation, building, maintenance and repair services of heaters and coolers, as well as cookers and boilers, all for use in the food, dairy, beverage, brewery, starch, chemical, petrochemical, cosmetic, pharmaceutical, pulp, paper, oil and gas refineries air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships

Class 42

(2) Industrial process development and advisory services, namely, development of computer hardware for the manufacturing industries, and development of testing specifications and procedures for use in the food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; product research and development; product design and development; engineering in the fields of industrial engineering for use in the food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; testing, authentication of new products and quality control for use in the fields of food, dairy, beverage, brewery, starch, chemical and petrochemical, cosmetic, pharmaceutical, pulp and paper, oil and gas industries, water and power plants, oil and gas refineries, air pollution control plants, waste water plants, and for use in engine rooms on marine vessels and ships; machine condition monitoring, namely, quality control monitoring for industrial machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; computer system monitoring services; services for monitoring industrial processes; condition monitoring being quality control for greases; condition monitoring of fluids, namely, quality control monitoring of crude oil, dairy, beverages, and water; condition monitoring of vibrations for quality control monitoring of industrial machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; condition monitoring namely quality control monitoring of industrial lubricants; providing quality assurance monitoring of industrial manufacturing processes of industrial machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; machine condition monitoring namely, the remote quality control monitoring of industrial manufacturing processes of industrial machinery for use in foodstuff manufacture, beverage manufacture, manufacture of pharmaceuticals and cosmetics, manufacture of feedstuff, dairy manufacture, brewery, starch manufacture, chemical and petrochemical manufacture, pulp and paper manufacture, for use with oil and gas refineries, for use in air pollution control for industrial plants, waste water plants, and for use in engine rooms of marine vessels and ships; laboratory research in the field of chemistry; product research; software development.

Goods

Class 16

Printed instructional and teaching material in the field of medicine; printed matter, namely, information pamphlets, flyers, magazines, printed periodicals, leaflets, pamphlets, and books in the field of medicine; goods of paper or cardboard, included in this class, namely information pamphlets, flyers, magazines (periodicals), business cards, appointment slips, prescription pads, nameplates, table displays, leaflets, pamphlets, books, posters, postcards, folding cards, pads, forms, vouchers, banners, roll-up banners, folders and flags

Services

Class 41

(1) Education services, namely, providing classes, seminars, workshops, and training in the field of medicine and healthcare, providing of training, advanced training and further training for medical and non-medical employees in the field of medicine and healthcare; arranging of scientific seminars, colloquiums, conferences, congresses, symposiums, exhibitions and presentations in the field of medicine and healthcare; entertainment services, namely, providing educational speakers, podcasts, webcasts, all in the field of medicine and healthcare; organizing community sporting and cultural events

Class 42

(2) Scientific and technological services, namely, research and design services in the field of clinical molecular diagnostics; industrial analysis and research services in the field of medicine; design and development of computer hardware and computer software; scientific laboratory services; medical quality management and quality management in the field of health care, namely

quality control and assurance; research in the field of medical science; medical research; medical laboratory services

Class 44

(3) Ambulant medical care; medical analysis services for cancer diagnosis and prognosis; medical and nursing services for the elderly; medical and surgical diagnostic services; medical care and analysis services relating to patient treatment; medical clinic services; medical diagnostic services; medical diagnostic testing, monitoring and reporting services; medical examination services; medical house call services; medical imaging services; medical laboratory services for the analysis of blood samples taken from patients; medical needling services; medical nursing services; medical screening services in the field of asthma; medical services for the treatment of skin cancer; medical services in the field of diabetes; medical services in the field of radiology and nuclear medicine; medical spa services; medical testing services; medical testing services fitness evaluation; medical testing services relating to the diagnosis and treatment of disease; medical treatment services provided by clinics and hospitals; medical ultrasound imaging services; mobile medical clinic services; veterinary medical services; health and beauty spa, hair styling, nail salon, cosmetic make-up, body waxing, and laser hair removal services for human beings; pet and animal grooming and bathing services; beauty salon services for pets; emergency medical assistance; hospitals; medical and clinical examinations

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the mark. The mark consists of a green quadrilateral figure formed by two straight lines and two concave lines. The bottom of the quadrilateral goes from dark green at the edges to light green in the centre. The term VILMORIN is white. Below the term VILMORIN are the term and numbers DEPUIS 1743 in yellow. Above the term VILMORIN is a quadrilateral with a white outline separated in four equal squares by a white cross. The background of each these squares is a shade of red. In the centre of the first square on the left is a yellow inverted triangle. A yellow tip caps this triangle. In the centre of the second square (top right) is a yellow plant with three heads. In the centre of the third red square (bottom left) are three yellow vertical lines. On each side of the second line are four yellow dots. In the middle of the fourth red square is a yellow emblem formed by concave and convex shapes.

Goods

Class 17

(1) Film for mulching.

Goods

Class 07

(1) Electric clothes washing machines; Automatic dishwashers; Hoses for electric vacuum cleaners; Bags for electric vacuum cleaners; Electric mixers for household purposes; Electric food processors; Multi-purpose steam cleaners; Housekeeping robots for household purpose; Robots for personal use, namely, industrial robots for cleaning floors.

Class 11

(2) Electric ranges; Water purifiers for household purposes; Water ionizers for household purposes; Membrane apparatus in the nature of filters for purifying water; Solar thermal collectors [heating]; Heating apparatus, namely, heaters for baths, heating boilers, hot water heaters; Light Emitting Diode [LED] lighting, namely, LED flashlights, LED landscape lights, LED light bulbs, LED Lighting fixtures and LED luminaires; Gas ranges; Electric ovens, namely, bakers' ovens, conventional ovens and microwave ovens; Apparatus or installations for cooking, namely, bakers' ovens, gas cooking ovens for household use, stoves, cooking grills; Clothing management machines having the function of deodorizing and steaming garments for household purposes, namely, garment steamers.

Visual Representation

The logo for 'myVeggie' features the word 'myVeggie' in a lowercase, rounded, sans-serif font. The 'V' is significantly larger and more stylized than the other letters. A green leafy sprout with three leaves grows from the top of the 'V'.

Goods

Class 03

(1) Body care soap; perfumes; eaux de parfum; eaux de senteur; flower extracts being perfumery products; eaux de toilette; linen fragrances; room fragrances; aromatic essential oils; cosmetics for the face and body; hair lotions; shampoos; depilatory waxes; makeup and makeup removal products; lipstick; beauty masks; shaving care products; talcum powder for toiletry use; cosmetic preparations for tanning the skin; cosmetic sunscreen products; cosmetic preparations for slimming; mouthwashes, other than for medical use; bleaching soda; laundry soap. .

Class 05

(2) Dietetic food and substances adapted for medical use for the prevention and treatment of iron deficiency and anemia in humans; vitamin and mineral dietary supplements; disinfectants for household use; vitamins; antibacterial handwashes; fungicides; herbal nutritional supplements, for general health and well-being; tea and herbal teas for general health and well-being; parasiticides; medicinal herbal teas for the treatment of sexually transmitted diseases and dysfunction; slimming tea for medical use; appetite suppressants for medical use; food for babies.

Goods

Class 09

Downloadable computer programs, computer software and associated instruction manuals in electronic format sold as a unit for use in the fields of dental practice management and dental office management, namely, for use in managing dental practices, managing dental offices, patient scheduling, patient appointment management, patient contact, patient management, patient care management, patient benefits management, patient treatment planning, patient clinical charting, patient reporting, preparing patient notices, personnel scheduling, personnel management, personnel reporting, personnel compensation management, personnel records management, accounting management, finance management, tracking financial data, financial reporting, preparing financial reports, patient billing, third party billing, tracking accounts receivable, managing revenues, expenses, costs, profitability, budgets, equipment, supplies and purchases, claims management, claims processing, insurance processing, tracking insurance payments, tracking patient payments, collections, performance analysis, performance reporting, comparison analysis, comparison reporting, entering, displaying, printing, tracking, analyzing, organizing, retrieving, transacting, modifying, managing, backing up, storing, security protecting and reporting data and information with respect to dental practices, dental offices, patients, personnel, patient files, patient records, personnel records, dental exams, images, graphics, charts, dental treatment, dental services, dental recare, demographics, finances, insurance and claims, providing online training and assistance regarding management of dental practices and dental offices, providing online patient education and training, and providing educational patient videos and images.

Services

Class 35

(1) Customer relationship management services in the field of dental practice management; appointment scheduling services in the field of dental practice management; dental practice business management for others; consulting services in the field of dental practice business management.

Class 42

(2) Graphic design of advertising materials in the field of dental practice management; graphic design of online advertising materials in the field of dental practice management; software as a service services, namely, hosting software for use by others, and application service provider services, featuring software and non-downloadable electronic instruction manuals provided online via a global computer network for use in the fields of dental practice management and dental office management, namely, for use in managing dental practices, managing dental offices, patient scheduling, patient appointment management, patient contact, patient management, patient care management, patient benefits management, patient treatment planning, patient clinical charting, patient reporting, preparing patient notices, personnel scheduling, personnel management, personnel reporting, personnel compensation management, personnel records management, accounting management, finance management, tracking financial data, financial reporting, preparing financial reports, patient billing, third party billing, tracking accounts receivable, managing revenues, expenses, costs, profitability, budgets, equipment, supplies and purchases, claims management, claims processing, insurance processing, tracking insurance payments, tracking patient payments, collections, performance analysis, performance reporting, comparison analysis, comparison reporting, entering, displaying, printing, tracking, analyzing, organizing, retrieving, transacting, modifying, managing, backing up, storing, security protecting and reporting data and information with respect to dental practices, dental offices, patients, personnel, patient files, patient records, personnel records, dental exams, images, graphics, charts, dental treatment, dental services, dental recare, demographics, finances, insurance and claims, providing online training and assistance regarding management of dental practices and dental offices, providing online patient education and training, and providing educational patient videos and images.

Standard Characters

Goods

Class 03

(1) Abrasive paper; abrasive cloth; abrasive sand; artificial pumice stone; polishing paper; polishing cloth; abrasives, namely, abrasive bands, abrasive blasting preparations made of abrasive disk debris, abrasive blasting preparations made of aluminum oxide, abrasive blasting preparations made of ceramic, abrasive blasting preparations made of corncob granulate, abrasive blasting preparations made of corncobs, abrasive blasting preparations made of corundum, abrasive blasting preparations made of dry ice, abrasive blasting preparations made of garnet, abrasive blasting preparations made of glass, abrasive blasting preparations made of iron oxide, abrasive blasting preparations made of metal oxide, abrasive blasting preparations made of mixed and electro corundum, abrasive blasting preparations made of nut shell granulate, abrasive blasting preparations made of nut shells, abrasive blasting preparations made of olivine sand, abrasive blasting preparations made of silicon carbide, abrasive blasting preparations made of sodium bicarbonate, abrasive blasting preparations made of zirconium corundum, abrasive cloth, abrasive compositions used in the manufacture of metal polish, abrasive paper, abrasive pastes, abrasive rolls, abrasive sand, abrasive sheets, abrasive strips, abrasives for cleaning excess resins from grinding wheels, abrasives for preparing nail surfaces for nail polish, abrasives for re-surfacing materials before painting, general use abrasives, silicon carbide abrasives, skin abrasives, steel chips for use as abrasive in sandblasting, polishing and abrasive preparations for skis; abrasive carbides of metal; emery; emery cloth; emery paper; polishing cream; polishing rouge; polishing stones; polishing wax; abrasive silicon carbide; smoothing stones for polishing surfaces of metal, plastic, and ceramics; non-woven textile fabrics used as abrasives; abrasive paper coated with diamond grains; abrasive cloth coated with diamond grains; stick-type abrasives, namely, ceramic stones for polishing surfaces of metal, plastic, and ceramics.

Class 07

(2) Laser-based metal processing machines and apparatus and their parts and accessories, namely, laser welding robots, laser welding machines, apparatus for embossing metal plates,

continuous metal casting machines, diamond-pointed metal-cutting tools, extruding machines for metals, grinding machines for the treatment of ceramics and metal, industrial robots for shaping metal, industrial robots for working metal, machine tools for working metals, metal cutting machines, metal drawing machines, air filters for pneumatic controls being part of machines, angle valves being parts of machines, aprons being parts of machines, back pressure valves being parts of machines, ball valves being parts of machines, bearing cages being parts of machines, bearing housings being parts of machines, bearings being parts of machines, bellows being parts of machines, belt pulleys being parts of machines; metalworking machines and tools; laser-based plastic processing machines and apparatus and their parts and accessories, namely, laser machines for processing of plastics; plastic processing machines and apparatus, namely, automatic machines for thermoforming and processing of plastics, jet molding machines for processing plastics, machine tools for processing semi finished plastic products, moulds being parts of machines for processing plastics; stone working machines; stone working apparatus, namely, laser drilling machines for stone working, robots and robotic arms for stone working; laser-based ceramics processing machines and apparatus and their parts and accessories, namely, grinding machines for the treatment of ceramics, milling machines for the treatment of ceramics, printing machines for use with ceramics, printing presses for ceramic material, angle valves being parts of machines, bearing housings being parts of machines, bearings as machine parts, bearings for transmission shafts, being parts of machines, bellows being parts of machines; ceramics processing machines and apparatus, namely, grinding machines for the treatment of ceramics, milling machines for the treatment of ceramics, printing machines for use with ceramics, printing presses for ceramic material, automatic machines for thermoforming and processing of plastics; machines and apparatus for manufacturing rubber goods, namely, machines for manufacturing rubber, machines for processing rubber, molds being parts of machines for use in the manufacture of rubber goods, rubber cutting machines, rubber forming machines, rubber mixing machines, rubber mixing rolls being parts of rubber mixing machines; chemical processing machines and apparatus, namely, agitators for chemical processing, blending machines for chemical processing, calcining machines for chemical processing, disintegrators for chemical processing, dissolving machines for chemical processing, dust collecting machines for chemical processing, emulsifying machines for chemical processing, extracting machines for chemical processing, filter presses for chemical processing, filtering machines for chemical processing, granulating machines for chemical processing, grinding mills for chemical processing, kneading machines for chemical processing, presses for chemical processing, separating machines for chemical processing, sintering machines for chemical processing, sorting machines for chemical processing; machine elements not for land vehicles, namely, drive shaft couplings, other than for land vehicles, driving belts for motors, other than for land vehicles, fuel injector parts, other than for land vehicle engines, torque converters, other than for land vehicles ramjet engines, other than for land vehicles, pneumatic or hydraulic linear actuators, other than for land vehicles, drive shaft couplings, other than for land vehicles, driving belts for motors, other than for land vehicles, engine cylinders, other than for land vehicles, exhaust pipes, other than for land vehicle engines, exhaust pipes, other than for land vehicles, fan belts, other than for land vehicle engines, timing belts, other than for land vehicle engines, timing belts, other than for engines for land vehicles, starter motors, other than for land vehicles, sparking plugs, other than for land vehicle engines, pistons, other than for land vehicle engines, power-operated lifts for moving, parking and storing vehicles, other than for land vehicles, windshield wiper motors, other than for land vehicles; construction machines and apparatus, namely, concrete construction machines, rubber tracks being parts of crawlers on construction machines, rubber tracks being parts of crawlers on road making machines, construction rammers; loading-unloading machines and apparatus, namely, loading beams being parts of machines, loading dock levelers, mechanical loading dock levelers, robotic arms for

loading, unloading check valves for the outlets of air compressors, unloading cranes; printing machines for use with electronic components, namely, 3D printing machines, digital printing machines for decorating beverage cans, digital printing machines for ceramic surfaces, embossing printing machines, flexographic printing machines, industrial inkjet, thermal and laser label printing machines, industrial label printing machines, ink jet printing machines for textiles, inking apparatus for printing machines, intaglio printing machines, label printing machines for industrial purposes, large format ink jet printing machines for textiles, machine-operated platforms for storing paper in printing presses during the printing process, machines for embossed printing, machines for processing printing plates, machines for the preparation of printing plates, paper lining machines for the printing industry, planographic printing machines; inkjet printing instruments, printing heads and other parts and accessories therefor, namely, industrial inkjet, thermal and laser label printing machines, UV-LED inkjet printing machines; printing machines and apparatus, namely, apparatus for the machining of printing plates, inking apparatus for printing machines, digital printing machines for ceramic surfaces, digital printing machines for decorating beverage cans, digital printing machines for textile industry, embossing printing machines, flexographic printing machines, industrial inkjet, thermal and laser label printing machines, industrial label printing machines, ink jet printing machines for textiles, inking apparatus for printing machines, intaglio printing machines, label printing machines for industrial purposes, large format ink jet printing machines for textiles, machine-operated platforms for storing paper in printing presses during the printing process, machines for embossed printing, machines for processing printing plates, machines for the preparation of printing plates, paper lining machines for the printing industry, planographic printing machines, print heads for industrial printing machines, printing machines for banknotes, printing machines for electronic duplicating processes, printing machines for printing on packaging, printing machines for textile, printing machines for use on sheet metal, printing machines for use with ceramics, printing machines for use with textiles, printing rollers for machines, printing rollers for textile printing machines, rollers for rotary printing machines, rubber rollers being parts of machines for textile printing and dyeing, silkscreen printing machines, UV-LED inkjet printing machines; coating machines and apparatus, namely, paper coating machines, spin coating machines, sugar coating machines; laser-based semiconductor and electronic component manufacturing machines and their parts and accessories; electronic component manufacturing machines, namely, processing machines for ceramic and electronic components, namely, circuit boards, filters, radio frequency (RF) components, sensors and registers; automatic mounting appliances for use in populating IC chips and other electronic components onto a printed circuit board; coating or discharging apparatuses for fluids such as adhesives, inks and paints for use in manufacturing semiconductors, namely, automatic electrostatic-paint sprayers, computer numerical control [CNC] machine tools for painting machines, electric machines for processing paint that hold particles and pigments suspended in a solid, soft and liquid substance, industrial paint agitating machines, paint guns, paint making machines, paint mixing machines, paint spray guns, paint spraying machines, paint stirring machines, painting machines, power operated paint sprayers, robotic arms for automated painting, robots for painting; coating applicators for use with semiconductor wafers; positioning machines and positioning instruments for use with semiconductor manufacturing machines and apparatus; control apparatuses and their parts for use with semiconductor manufacturing machines, namely, chemical vapor deposition [CVD] reactors for semiconductor manufacturing machines, epitaxial reactors for semiconductor manufacturing machines, ion implanters for semiconductor manufacturing machines and systems, physical vapor deposition reactors for semiconductor manufacturing machines, robots and robotic arms for semiconductor manufacturing; manufacturing and processing machines for use with electronic circuit boards, namely, printed circuit board processing machines; thin layer forming machines for use with semiconductors, metals and insulating materials, namely, metal forming machines, rubber

forming machines, wire forming machines; semiconductor manufacturing machines and systems; thin layer coating and drying machines and apparatus for ceramic slurry, namely, coating and drying machines for manufacturing ceramic sheets; thin layer coating machines and apparatus for ceramic slurry, namely, coating machines for manufacturing ceramic sheets; thin layer drying machines and apparatus for ceramic slurry, namely, drying machines for manufacturing ceramic sheets; thin layer coating and drying machines and apparatus for plastic slurry, namely, coating and drying machines for use in manufacturing printed circuits; thin layer coating machines and apparatus for plastic slurry, namely, coating machine for use in manufacturing printed circuits; thin layer drying machines and apparatus for plastic slurry, namely, drying machine for use in manufacturing printed circuits; laminating machines for ceramic films; laminating apparatus for ceramic films, namely, laminating machines for industrial use, laminating machines other than for home or office use; laminating machines for flexible films; laminating apparatus for flexible films, namely, laminating machines for industrial use, laminating machines other than for home or office use; laminating machines for metal films; laminating apparatus for metal films, namely, laminating machines for industrial use, laminating machines other than for home or office use; apparatuses for temporally fastening work pieces for punching machines or cutting machines, namely, machine for fastening metal frame on ceramic sheets; apparatuses for fastening work positioning frames and work pieces using adhesive tape, namely, adhesive tape dispensing machines; apparatuses for fastening work pieces using adhesive tape, namely, machines for connecting pieces of ceramic sheets and manufacturing ceramic sheet rolls; laminating machines for ceramics green sheets; laminating apparatus for ceramics green sheets, namely, laminating machines for industrial use, laminating machines other than for home or office use; laminating machines for plastic sheets; laminating apparatus for plastic sheets, namely, laminating machines for industrial use, laminating machines other than for home or office use; laminating machines for metal films; laminating apparatus for metal films, namely, laminating machines for industrial use, laminating machines other than for home or office use; pneumatic or hydraulic machines and instruments, namely, pneumatic blow guns for use in a manufacturing process to blow dust off parts, workstations or wherever necessary, hand-held pneumatic drills, hand-held pneumatic hammers, pneumatic ball transfer units, pneumatic conveyors, pneumatic door closers, pneumatic door openers, pneumatic door openers and closers, pneumatic drills, pneumatic drills, hand-held, pneumatic grease guns, pneumatic hammers, pneumatic hoists, pneumatic jacks, pneumatic linear actuators other than for land vehicles, pneumatic milling cutters, pneumatic nail guns, pneumatic nut runners, pneumatic or hydraulic linear actuators other than for land vehicles, pneumatic pumps, pneumatic ratchet wrenches, pneumatic screwdrivers, pneumatic sheaf-binding machines, pneumatic shears, pneumatic staplers, pneumatic strapping machines, pneumatic transporters, pneumatic tube conveyors, pneumatic valve actuators, pneumatic valve actuators, pneumatic valve actuators being parts of machines, pneumatic waste oil drainers, pneumatic window openers, screwdrivers, pneumatic, window closers, pneumatic; adhesive tape dispensing machines; automatic stamping machines; vacuum cleaners for industrial purposes; food mixing machines for commercial use; food cutting, chopping and slicing machines for commercial use; vehicle washing installations; dust collecting machines for industrial purposes, namely, dust collecting machines for chemical processing, power-operated industrial atomizers for spraying liquids for dust suppression, pneumatic blow guns for use in a manufacturing process to blow dust off parts, workstations or wherever necessary, cyclone dust collectors; dust removing machines for cleaning purposes, namely, vacuum cleaners, pneumatic blow guns for use in a manufacturing process to blow dust off parts, workstations or wherever necessary; dynamo brushes; mining machines and apparatus; fishing machines and instruments; textile machines and apparatus; food or beverage processing machines and apparatus; lumbering, woodworking, or veneer or plywood making machines and apparatus; sewing machines; agricultural machines, agricultural implements other than hand-

operated; shoe making machines; leather tanning machines; tobacco processing machines; power-operated potters' wheels; dish washing machines for industrial purposes; electric wax polishing machines for industrial purposes; electric washing machines for industrial purposes; food peeling machines for commercial use; repairing or fixing machines and apparatus; mechanical parking systems; power sprayers for disinfecting, insecticides and deodorants not for agricultural purposes; lawnmowers; electrically-operated curtain drawing devices; waste compacting machines and apparatus; waste crushing machines.

Class 08

(3) Bladed or pointed hand tools; hand-operated tools, namely, hand-operated tools for shaving ice, hand operated tools for removing surfboard wax, hand-operated tools for removing shingles, hand-operated ski edge sharpening tools, hand-operated tile spacer removal tools, hand-operated tools for bending electricity conduits, hand-operated tools for bending pipes, hand-operated tools for disarming improvised explosive devices [IEDs], hand-operated tools for grooming billiard cue tips, hand-operated tools for installing and removing light bulbs, hand-operated tools for lifting and closing toilet seats, hand-operated tools for planting bulbs, hand-operated tools for removing lug bolt covers, hand-operated tools for removing lug nut covers, hand-operated abrading tools, hand-operated cleaning tool in the nature of a pick for removing intestines from lobsters, hand-operated cutting tools for kitchen use, hand-operated cutting tools, namely, safety cutters, hand-operated garden tools; hand-operated abrading instruments; drills, namely, engraving drills, hand-held drills, hand-operated hand drills, hand-operated percussion hammer drills, manual drills; emery grinding wheels; engraving needles; farriers' knives; hand-held files; glazing irons; hand-held graving tools; hand-held grindstones; hand-operated drills; leather strops; sharpening steels; whetstones; hand-operated sharpening wheels; hand-operated grinders; whetstone holders; whetstone with shaft; cup-shaped whetstones; whetstones made of diamond; whetstones made of ceramics; graving knives; pen-shaped engraving needles; hand-operated super hard cutters, namely, armored cable cutters, bolt cutters, box cutters, cake cutters, callus cutters, cutters for wine bottle foil, electric hair cutters, emergency seat belt cutters, fishing line cutters, foil cutters, French fry cutters, glass cutters, hand-operated bar cutters, hand operated cutters for making pasta, hand-operated cutting tools, namely, safety cutters, hand-operated milling cutters, hand-operated pasta cutters, hand-operated pipe cutters, hand-operated rotary cutters, hand operated tile cutters, hand-operated tube cutters, hand-operated weed cutters, hoop cutters, manual garlic cutters, milling cutters being hand tools, miter cutter, miter cutters being hand tools, non-electric pizza cutters, pizza cutters, rotary cutters, weed cutters, wire cutters; hand-operated abrasive disc cutters.

Class 09

(4) Testing and checking machines for printed circuit boards, namely, optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits, test adapters for testing printed circuit boards, test pins for testing printed circuit boards; testing machines for semiconductor substrates, namely, probes for testing semiconductors, circuit testers, continuity testers, current testers; inspection machines and instruments, namely, optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits, optical inspection apparatus for inspecting the circuitry used in cell phones, wafer surface defect inspection tools, inspection mirrors; material testing machines and apparatus, namely, optical microscopes for materials testing, cement testing machines, concrete testing machines, extruding machine for soil testing, lumber testing machines, metal compression testing machines, metal hardness testing machines, metal strength testing machines, plastic testing machines, surface roughness testing machines and instruments, textile testing machines, universal tension and compression testing machines, universal testing machines (UTM) to test tension, compression and tensile; testing apparatus not for medical purposes, namely, digital thermometers, not for medical purposes, droppers for measuring, other than for

medical purposes, electronic carbon dioxide monitors, other than for medical purposes, emergency thermal blankets for retaining body heat, not for medical purposes, gamma cameras, not for medical purposes, hyperbaric oxygen chambers, not for medical purposes, in-ear monitors not for medical purposes, infrared thermometers, not for medical purposes, oxygen masks, not for medical purposes, oxygen monitors, not for medical purposes, photo electron spectroscopy analyzers, not for medical purposes, polygraph machines, not for medical purposes, skin moisture analyzers, not for medical purposes, temperature indicator labels, not for medical purposes, ultrasound flaw detectors, not for medical purposes, urinometers, not for medical purposes; automatic liquid flow rate control machines and instruments, namely, automatic electronic control valves for regulating the flow of gases and liquids, fitted noise reduction holed plates for control valves used in regulating the flow of gases and liquids, metering orifices, namely, orifice plates for metering or controlling the flow rate of liquids, metering orifices, namely, orifice plates for metering or controlling the flow rate of liquids; positioning measuring machines, namely, coordinate-measuring machines, computer software for global positioning systems, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, global positioning system (GPS) receivers, global positioning system (GPS) satellites, global positioning system (GPS) transmitters, Global Positioning System [GPS] receivers, Global Positioning System [GPS] transmitters, Global Positioning System receivers, global positioning system transmitters, marine control system, namely, dynamic positioning system hardware and software for vessel positioning and vessel management, vehicle locator and recovery device programmed to use global positioning systems [GPS] and cellular telecommunications; precision measuring machines and instruments for inspection, namely, for the measurement and inspection of micro holes in ceramic sheets; laser-based measuring machines and instruments, namely, computer software for controlling and operating laser rangefinders, high intensity pulse lasers for nuclear fusion, laser doppler for measuring purposes, laser equipment designed for cutting, drilling, marking, engraving and shaping optical lenses for eyeglasses, screw-thread measuring machines and instruments; measuring or testing machines and instruments, namely, wheel alignment measuring apparatus, namely, roll test stands, apparatus for measuring the thickness and elasticity of facial skin, apparatus for measuring the thickness of skin, appliances for measuring the thickness of leather, clamp meters for measuring electric current, clamp meters for measuring electricity, clinometers for measuring of angles and slopes, coordinate-measuring machines, electromagnetic measuring detectors, electronic sensors for measuring solar radiation, fine dust measuring apparatus, joint meters being measuring instruments, laser doppler for measuring purposes, laser measuring tapes, meters for measuring alkalinity, meters for measuring electric current, meters for measuring electrical resistance, meters for measuring electrical voltage, meters for measuring gaseous flow, meters for measuring values of electrical parameters, meters for measuring voltage, monitoring modules for measuring fuel cells for electrical impedance and voltage to ensure electrical efficiency, multimeters for measuring electrical resistance, multimeters for measuring electrical voltage, nuclear gauges used for measuring the physical properties of materials, particle counters for measuring air quality, cement testing machines, concrete testing machines, extruding machine for soil testing, lumber testing machines, metal compression testing machines, metal hardness testing machines, metal strength testing machines, plastic testing machines, surface roughness testing machines and instruments, textile testing machines, universal tension and compression testing machines, universal testing machines (UTM) to test tension, compression and tensile; photographic instruments and apparatus, namely, bags for cameras and photographic equipment, cases adapted for photographic equipment, cases for photographic cameras, exposure meters for photographic devices, frames for photographic transparencies, photographic cameras, photographic cameras for the instant production of pictures, photographic digital cameras, photographic exposure meters, photographic filters,

photographic flash units for cameras, photographic flashbulbs, photographic lenses, photographic negatives, photographic projectors, photographic racks, photographic slide transparencies, photographic slides, photographic transparencies, photographic viewfinders, underwater enclosures for photographic flash units; cinematographic instruments and apparatus, namely, cinematographic cameras, cinematographic projectors, colour filters for television and cinematographic cameras, editing appliances for cinematographic films, editing machines for cinematographic films, exposed cinematographic films; optical apparatus and instruments, namely, optical apparatus for guiding projectiles, optical apparatus in the form of stereo microscopes, optical character recognition apparatus, optical fiber telecommunications apparatus, optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits, optical inspection apparatus for inspecting the circuitry used in cell phones, optical inspection apparatus for inspection of food, instruments and apparatus for controlling electric current, namely, electrical controllers for magnetic bearing control, laboratory apparatus and instruments, namely, bottle top filters used for the purification of tissue culture media; ear plugs; processed glass not for building; electric arc welding machines; electric metal cutting machines by arc, gas or plasma; electric welding apparatus, namely, welding aprons, welding goggles, welding helmets, welding masks, welding transformers; ozonisers; electrolytic cells; egg-candlers; blueprint apparatus, namely, blueprinting machines; cash registers; coin counting and sorting machines; electric sign boards for displaying target figures, current outputs or the like, namely, circuit boards provided with integrated circuits, electronic circuit boards, electronic connectors for circuit boards, electronic indicator boards, electronic notice boards, circuits for heavy current, clamp meters for measuring electric current, current breakers, current collectors, current converters, current limiters, current limiting reactors, current meters, current plugs, current pulse generators, current rectifiers, current switches, current testers, current transformers, direct current converters, direct electrical current monitoring modules, electric current breakers, electric current collectors, electric current control devices, electric current meters, electric current shunts, electric current switches, meters for measuring electric current; photo-copying machines; drawing or drafting instruments and apparatus, namely, surveying instruments; time and date stamping machines; time recording devices, namely, chronographs for use as specialized time recording apparatus, computerized time clocks with fingerprint recognition, time and date stamping machines, time clocks; punched card office machines; voting machines; postage stamp checking apparatus, namely, postage stamp meters; vending machines; fuel dispensing pumps for service stations; coin-operated gates for car parking facilities; life saving apparatus and equipment; fire extinguishers; fire hydrants; fire hose nozzles; sprinkler systems for fire protection; fire alarms; gas alarms; antitheft warning apparatus; protective helmets; railway signal apparatus, luminous or mechanical; vehicle breakdown warning triangles; luminous or mechanical road signs; diving machines and apparatus not for sports; apparatus for arcade games adapted for use with an external display screen or monitor; electric door openers; simulators for the steering and control of vehicles; sports training simulators; laboratory apparatus and instruments, namely, laboratory apparatus and instruments, namely, bottle top filters used for the purification of tissue culture media; electric and magnetic meters and testers, namely, instruments and apparatus for controlling electric current, namely, electrical controllers for magnetic bearing control, clamp meters for measuring electric current, electric current meters, meters for measuring electric current, antifreeze testers, battery testers, brake fluid testers, circuit testers, continuity testers, current testers, diesel fuel injector testers, diesel injector testers, diesel oil emission testers, ductility testers, electrical circuit testers, electrical outlet testers, electrical power testers, electroplating parameter testers, fuel cell DC electronic load testers, fuel pump testers, hardness tester, microhardness testers, smoke alarm testers, speedometer testers; magnetic cores; resistance wires; electrodes; fire boats; rockets; fire engines; cigar lighters for automobiles; gloves for protection against accidents; dust masks; gas

masks; welding masks; fireproof garments; eyeglasses and goggles; apparatus for consumers games adopted for use with an external display screen or monitor; electronic circuits and CD-ROMs recorded with programs for hand held games with liquid crystal displays; weight belts for scuba diving; inflatable swimming floats; protective helmets for sports; air tanks for scuba diving; swimming flutter boards; regulator for scuba diving; phonograph records; metronomes; electronic circuits and CD-ROMs recorded with automatic performance programs for electronic musical instruments; downloadable music files; exposed cinematographic films; exposed slide films; slide film mounts; downloadable image files; recorded video discs and video tapes; electronic publications.

Design

Visual Representation

The logo for ZLOpopCases features the word 'ZLOpopCases' in a bold, black, sans-serif font. The 'Z' is significantly larger and more stylized than the other letters, which are in a standard weight. The 'o' in 'pop' is lowercase and smaller than the 'o' in 'Cases', which is uppercase. The overall design is clean and modern.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of a green hexagon design with two white incomplete concentric circles within the hexagon. The hexagon is shaded so as to appear like a cube, the sides of the cube being dark green while the top is light green. The green space between the two incomplete white circles forms the letter "d" and the white inner circle forming the letter "a".

Class 07

(1) Combinations of pressure reducing valves being parts of machines and filters used in machines for the filtration and purification of water with and without backwashing, pressure reducers, namely pressure reducer valves being part of machines for controlling the operating pressure in water installations, also for industrial purposes, safety valves [parts of machines] for liquid systems, solar thermal collectors, drinking water heaters and heating installations, clack valves [parts of machines] and valves operated by changes in pressure for liquid systems, solar thermal collectors, drinking water heaters and heating installations; all aforementioned goods not for use in irrigation systems for horticulture and agriculture.

Class 09

(2) Computer software [recorded], computer programs [downloadable] and computer programs [recorded] for controlling and regulating devices for the detection of leakage and undesired flow states in pipe installations for water, pressure gauges, electric installations for the remote control of industrial operations in pipe installations for water; interfaces for computers for the connection of devices for the detection of leakage and undesired flow states in pipe installations for water, boiler control instruments, namely pressure relief valves, solar-pressure relief valves, water lever limiter to be mounted in the boiler, safety valve for solid fuel boilers, and automatic air vent for heating installations, electric regulating apparatus, namely a shut-off valve in combination with a flowmeter and a control which controls the shut-off valve on the basis of the values measured with the flow meter, and for controlling and regulating devices for the detection of leakage and undesired flow states in pipe installations for water, also controllable through a computer network or by wireless remote control, measuring apparatus, namely flow meters, pressure sensors, water lever sensors, liquid level sensors, humidity sensors and electronic floor sensors for use in devices for the detection of leakage and undesired flow states in pipe installations for water, measuring apparatus, namely flow meters, pressure sensors, water lever sensors, liquid level sensors, humidity sensors and electronic floor sensors for installation and control of devices for the detection of leakage and undesired flow states in pipe installations for water, central processing units for connecting and controlling of devices for the detection of leakage and undesired flow states in pipe installations for

water and evaluation of data which are transmitted by such devices, electric mains monitoring apparatus, namely humidity detectors, electronic floor sensors and electronic water leakage detectors for monitoring water losses in a house water installation, and wireless controllers to remotely monitor and control water losses in a house water installation, thermostatically controlled valves for liquid systems, solar collector systems, drinking water heaters and heating installations, pressure controllers for water pipes, namely for controlling differential pressure, dosimeters; all aforementioned goods not for use in irrigation systems for horticulture and agriculture.

Class 11

(3) Backwashing systems for filters, namely electronically controlled automatic backwash systems for potable water filters, connection flanges for fittings, pressure reducers, filters and water treatment devices, semi-automatic backwash filters for drinking water, heating devices namely hot water heaters, drinking water distribution apparatus namely water coolers, water pipes and heating installations namely hot water boilers, hot water heaters and hot water tanks, devices for water treatment against limestone and for the control of water losses in domestic installations, namely water softening units, ion exchange installations, namely automatic ion exchange apparatus used in connection with water softening units, water ionizers for household purposes, thermostatic mixing valves for the control of the warm water temperature, safety valves for liquid systems, solar thermal collectors, drinking water heaters and heating installations, pressure relief and safety valves for liquid systems, solar thermal collectors, drinking water heaters and heating installations, boiler combination valve for removal of entrained air, water level cut-off switches, namely water level limiters being parts of water heating systems or heating installations, namely water hot water boilers, hot water heaters and hot water tanks, automatic air-vent systems for aerating closed warm water and heating installations as well as fluid-filled systems, thermal safety valves for heating installations, draft regulators for heating systems with solid fuel, filling assemblies for filling and re-filling hot water heating installations, system disconnectors being parts of heating installations or water systems, namely drinking water installation, hot water heaters, water fountains, water supply pipeline, stop cocks for regulating water, stop cocks being safety apparatus for water apparatus; all aforementioned goods not for use in irrigation systems for horticulture and agriculture.

Goods

Class 07

(1) Construction machines, namely off-highway articulated haulers in the nature of earth haulers, construction equipment, namely earth haulers, earth moving scraper and scarifiers being earth moving machines, autonomous construction machines, namely off-highway articulated haulers in the nature of earth haulers, articulated loaders, backhoe loaders, loaders being earth moving machines, excavators, wheel loaders, structural parts, fittings, components, accessories and engines for all the aforesaid goods; articulated couplings; couplings for machines; anti-friction bearings for machines; bearings being parts of machines; brakes for industrial machines; air filters for engines; transmissions for machines

Class 09

(2) Computer systems, namely computer hardware with pre-installed operating system software; interactive hub computer systems consisting of computer hardware, computer peripherals and computer touchscreens for use in construction production operations of hauling, loading, digging, lifting in the field of road construction and demolition; interactive display panels, namely touch sensitive display and control screens; electric control panels; on board computers; navigation apparatus for vehicles in the form of on-board computers; apparatus, computers and computer programs for control and navigation and for position, status operation, functioning, performance and route calculating; computers and pre-installed computer programs for use with autonomous and automated controlling, driving and running of construction vehicles; computer software for remote monitoring of machine information, namely position of the machine, machine diagnostics, status and maintenance; downloadable applications and software for mobile devices for machine diagnostics, namely status and maintenance; computer systems comprising satellite positioning system hardware, namely, a global positioning system (GPS) receiver, internal mobile telephone modem and electronic control unit to facilitate collection and transmission of data relating to position and status monitoring and the wireless communicating of data from electronic control units to centralized data collection servers; all of the above goods in this class to be used in connection with construction equipment, construction machines, land vehicles and their component parts

Class 12

(3) Land vehicles, namely forklift trucks, semi-trailer trucks, off-road vehicles, dump trucks, dump trailers, bulk hauling trailers, self-loading trucks and bulk carriers, articulated land vehicles, namely articulated dump trucks and haulers, off-road vehicles, articulated dump trucks, off-road vehicles for transporting loads, dump trucks, dumper bodies for trucks, tipping bodies for trucks, bulk hauling trailers, lorries, autonomous and automated land vehicles, structural parts, fittings, components, accessories and engines for all the aforesaid goods; couplings, wheel bearings, brakes and transmissions for land vehicles

Services**Class 35**

(1) Systemizing, updating and maintenance of data relating to land vehicles, construction equipment and construction machines in computer databases, namely, inputting, recording, processing, checking, searching, storing, compiling and producing information relating to land vehicles, construction equipment and construction machines in computer databases, management and compilation of computerized databases for position and status monitoring, all of the foregoing services relating to land vehicles, construction equipment and construction machines and to their structural parts, fittings, components, accessories and engines

Class 36

(2) Insurance services, third-party extended warranty services for vehicles and construction machines, financing of loans, loan financing, financial guarantee services, all of the foregoing services relating to land vehicles, construction equipment and construction machines and to their structural parts, fittings, components, accessories and engines

Class 37

(3) Repair, servicing and maintenance of land vehicles, construction equipment and construction machines and of structural parts, fittings, components, accessories and engines for all the aforesaid goods.

Class 38

(4) Telecommunication access services, namely, providing access to databases and computer networks, telematic in-vehicle communication service providing wireless vehicle navigation and tracking, electronic remote transmission of geographic data vehicle location data, fuel consumption data, vehicle speed data, vehicle acceleration data, vehicle braking data, vehicle idling time data and vehicle machine error and faults data, data transmission, namely, transmission vehicle geographic location data, vehicle fuel consumption data, vehicle speed data, vehicle acceleration data, vehicle braking data, vehicle idling time data and vehicle machine error and faults data via telematic networks, all of the foregoing services relating to data, information and reports on use, operation, position, status, functioning and performance of land vehicles, construction equipment and construction machines and their component parts

Class 42

(5) Monitoring of computer systems of land vehicles, construction equipment and construction machines and their component parts by remote access for monitoring their use, status, operation, functioning and performance.

Class 09

Downloadable software for the digitalization and automation of account receivables processes and account payables processes, namely, the automation, exchange, creation, analysis, protection and facilitation of invoices, debit notes, credit notes, payments, payment instructions, cross-border payments, electronic funds transfers, accounting data entry and price lists ; downloadable software for receiving, scanning, digitizing, matching and approving invoices; recorded computer software for process optimization; downloadable computer software for the transmission of data, namely, invoices, debits, credits, payments, payment instructions, cross-border payments, electronic funds transfers, accounting data entry, price lists; data and file management and database software; banking software, namely, downloadable software to monitor and improve cash flow, enable faster payments, allow customers to access bank account information and transact bank business ; computer software platforms for the digitalization and automation of account receivables processes and account payables processes, namely, the automation, exchange, creation, analysis, protection and facilitation of invoices, debit notes, credit notes, payments, payment instructions, cross-border payments, electronic funds transfers, accounting data entry and price lists; computer software relating to the handling of financial transactions, namely, computer software for use in clearing of financial transactions, software for implementing and recording financial transactions, software for facilitating secure credit card transactions, computer software for maintaining and managing information about financial transactions on peer-to-peer payment networks; e-commerce and e-payment software, namely, software for processing electronic bill payments, computer software to allow users to perform electronic payment transactions, software for providing authentication of parties to a financial transaction; software platforms to allow users to collect money, namely, computer software platforms for allowing users to collect electronic payment transactions, computer software platforms used in electronic commerce for processing electronic payments and authenticating the identity of payers, payment gateway software or linking e-commerce websites to credit card processing network; logistics software, namely, computer software to track sales, expenses, and payments, software to improve cash flow, automate business financial transactions, digitize financial documents and exchange invoices, debit notes,

credit notes, payments, payment instructions, cross-border payments, electronic funds transfers, accounting data entry and price lists ; computer software related to logistics, storage, freight transport, and calculation and evaluation of lead times for transports, emissions and transport costs; computer software for processing electronic orders, namely, computer software to create, customize, print, export, and e-mail purchase orders.

Services

Class 35

(1) Electronic order processing, namely, logistic management in the field of purchase order processing and shipping; systemisation of information into computer databases; computerised file management; compilation of information into computer databases, namely, business management services relating to information and data compiling and analyzing; computerized accounting services; business management services; business assistance, management and administrative services; business invoicing services; billing services; tax consultancy [accountancy]; transcription of messages; preparation of invoices; data processing services in the field of transportation; business administration services in the field of transportation; consultancy relating to business document management; office functions, namely, office administration; preparation of documents relating to business; providing consumer product advice relating to software; providing consumer product information relating to software; providing consumer product advice related to software for logistics, storage, freight transport, and calculation and evaluation of lead times for transports, emissions and transport costs.

Class 36

(2) Financial transfers and transactions, and payment services, namely, processing of bank transfer transactions, processing of cash transactions, processing of signature debit electronic transactions; electronic payment services involving electronic processing and subsequent transmission of bill payment data; electronic banking services; electronic banking via a global computer network [internet banking]; financial affairs services; computerised banking services; computerised financial information services, namely, providing financial planning services on-line from a computer database and the internet, providing financial management information via a secure information computer network; monetary affairs, namely, currency and foreign exchange services, digital currency exchange and transaction services for transferable electronic cash equivalent units having a specified cash value; tax services, namely, financial advice relating to tax; tax and duty payment services; planning of finances relating to taxation; financial advice relating to income tax.

Class 38

(3) Electronic order transmission services; telecommunication services, namely, communication by means of mobile phones, communications by telephone, communications by teleconferencing; data communications services, namely, electronic transmission of financial data via a global computer network; electronic transmission of data, namely, electronic transmission of financial data over electronic communications networks, providing electronic transmission of credit card transaction data and electronic payment data via a global computer network, providing electronic transmission of financial investment information via a computer network; electronic transmission of messages, namely, electronic exchange of messages via a global computer network, providing access to an internet website to enable the exchange of customer messages in the field of financial investment ; electronic transmission of documents, namely, electronic transmission of invoices, debit notes, credit notes, payments, payment instructions, cross-border payments, electronic funds transfers, accounting data entry and price lists ; communications services for the exchange of data in electronic form, namely, electronic exchange of messages using chat lines,

chatrooms and internet forums, multimedia messaging services [MMS], short message services (SMS), electronic exchange of images via a global network, Private Branch Exchange [PBX] services; message sending, namely, digital text messaging services, cellular text messaging services, instant messaging services; provision of access to content, websites and portals, namely, providing multiple user access to global computer information networks for the transfer and dissemination of information and files, providing access to a website providing users with information in the field of the digitalization and automation of AR (account receivables) processes and AP (account payables) processes, providing access to a website providing users with secure remote access to private computer networks; providing user access to computer programs in data networks; providing access to a global computer network for the transfer and dissemination of information; providing access to databases; providing telecommunications connections to a global computer network; exchange of messages via computer transmission; transmission and reception of messages by means of worldwide computer networks.

Class 41

(4) Organisation of webinars in the field of the digitalization and automation of business transactions, purchase-to-pay and order-to-cash processes, and global e-invoicing compliance; education services relating to computer software; training relating to computer software; training services concerned with the use of computer software; publishing of newsletters; providing online electronic publications in the field of computer software, not downloadable.

Class 42

(5) Software development, programming and implementation; computer programming; software development; software design; software research; hosting services, namely, cloud computing web hosting service, hosting computer websites; software as a service, namely, providing software as a services (SaaS) for hosting the computer software applications of others; rental of computer software; software as a service, namely, software as a service (SAAS) featuring software for electronic funds transfer and currency conversion, software as a service (SAAS) featuring non-downloadable computer software for the integration of artificial intelligence and machine learning in the field of Big Data for business data analytics and user behavior analytics; document data transfer from one computer format to another; database design and development; design and development of computer software for reading, transmitting and organizing data; development of systems for the processing of data; development of systems for the transmission of data; computer software technical support services; development of computer software application solutions; design, maintenance and updating of computer software; design and development of networks; provision of technical consultancy to the shipping industry; electronic storage of files and documents; development of data and file management and database software; development of banking software; development of computer software platforms; development of computer software relating to the handling of financial transactions; development of e-commerce and e-payment software; development of software platforms to allow users to collect money; development of logistics software; development of computer software related to logistics, storage, freight transport, and calculation and evaluation of lead times for transports, emissions and transport costs; development of electronic order processing software; design of data and file management and database software; design of banking software; design of computer software platforms; design of computer software relating to the handling of financial transactions; design of e-commerce and e-payment software; design of software platforms to allow users to collect money; design of logistics software; design of computer software related to logistics, storage, freight transport, and calculation and evaluation of lead times for transports, emissions and transport costs; design of electronic order processing software; development, design and updating of websites regarding logistics, storage, freight transports, as well as calculation and evaluation of

lead times for transports, emissions and transport costs; information relating to software, namely, providing consulting in the field of computer technology and software development via a global computer network, providing information in the field of computer software development.

Class 09

(1) Disposable syringes for laboratory use; reusable syringes for laboratory use; injection instruments without needles for laboratory use; jet injector for laboratory use; injection syringes [syringe barrels] for laboratory use; hypodermic syringes for laboratory use; intradermal syringes for laboratory use; intramuscular syringes for laboratory use; syringes for injections for laboratory use; veterinary apparatus and instruments for laboratory use, namely, disposable and reusable dispenser syringes for laboratory use; apparatus for injecting pharmaceutical preparations into the laboratory animals; transfection device, namely, laboratory injection syringes for transfection; intracellular drug delivery device for laboratory use; cell processing instrument to introduce substances into cell for laboratory use; instantaneous high pressure cell processing instrument for laboratory use; high pressure cell processing instrument for laboratory use; experimental injection devices, namely, a needle-less injection device for injecting pharmaceuticals into living organisms for laboratory use; experimental apparatus and instruments for use in the subcutaneous, intramuscular, intradermal and intravenous injection of medicines; laboratory experimental machines and apparatus for processing, measuring, and injecting liquids; laboratory experimental machines and apparatus for use in the field of bioscience and genetics research; laboratory apparatus and instruments, namely, high pressure injection syringes for processing and introducing substances into cells for research use, instantaneous high pressure injection syringes for processing cells for research use; parts and fittings of fire extinguishing apparatus; power distribution or control machines and apparatus, namely, electric power distribution units; electrical controlling devices, namely, electric control panels; electric apparatus for commutation, namely, commutators; circuit breakers.

Class 10

(2) Syringes for medical purposes and for injections; disposable syringes; reusable syringes for medical purposes and for injections; injection instruments without needles; jet injector for medical and veterinary use; injection syringes [syringe barrels]; hypodermic syringes; intradermal syringes; intramuscular syringes; syringes for injections; auto-injector pre-filled with medicines; medical self-

injectors; injector for transfection; injector for intracellular drug delivery; veterinary apparatus and instruments, namely, needle-less injection instruments for injecting pharmaceuticals; medical apparatus for introducing pharmaceutical preparations into the human body; pharmaceutical injection devices, namely, a needle-less injection device for injecting pharmaceuticals into living organisms; surgical and medical apparatus and medical instruments for use in the subcutaneous, intramuscular, intradermal and intravenous injection of medicines; medical apparatus and instruments, namely, needle-less injection instruments for injecting pharmaceuticals.

Class 12

(3) Gas generators for air bags for vehicles; igniters for gas generators for air bags for vehicles; gas generators for safety devices, namely, air bags and seat belts for automobiles; structural parts and fittings of automobiles; parts and fittings of aircraft; inflators for air bags for use in vehicles for the prevention of injury in accidents.

Class 13

(4) Pyrotechnic gas generators; pyrotechnic products and their peripherals, namely, pyrotechnic gas generators and pyrotechnical battery disconnection switch for use in electric automobiles and aircraft; gunpowder; explosives; explosives for automotive safety devices, namely, airbags; explosives for used in seat belt retractors for automobiles; detonators.

Services**Class 42**

Chemical research; research and development of new products for others; research in the field of mechanical engineering; scientific research in the fields of medical devices and laboratory instruments; research in the field of physics; rental of laboratory apparatus and instruments; testing, inspection or research on agriculture, livestock breeding or fisheries.

Trademark Types

Design
Position

Visual Representation

Trademark Description

The mark consists of a trade dress for the overall appearance of the exterior surface of a beverage can being packaging for the goods. The dotted lines forming the shape of the beverage can are not part of the mark and are merely intended to show the position of the mark. The lower portion of the mark is darker in contrast in comparison to the upper portion of the mark. The word "SPINDRIFT" appears in black in a stylized font at the top portion of the can. A circle appears at the center of the can outlined by two wavy borders. The words "SPARKLING WATER" and "& REAL SQUEEZED FRUIT" surround the circle. The wording "yup, that's it." appears in a stylized font under the circle at the lower portion of the can.

Goods

Class 29

(1) almond milk-based beverages; cashew milk-based beverages; dairy products; nut milk; peanut milk-based beverages

Trademark Description

The mark consists of a trade dress for the overall appearance of the exterior surface of a beverage can being packaging for the goods. The dotted lines forming the shape of the beverage can are not part of the mark and are merely intended to show the position of the mark. The lower portion of the mark is pink. The upper portion of the can is white. The words "raspberry lime" and "unsweetened" appear at the top rim of the can. "Raspberry lime" appears in pink surrounded by green asterisks on either side of the word and "unsweetened" appears in pink. The word "SPINDRIFT" appears in pink in a stylized font at the top portion of the can. A circle appears at the center of the can. A slice of lime appears at the center of the circle with an overlapping raspberry. The lime slice is in green and white. The raspberry appears in pink with white intersecting lines. The words "SPARKLING WATER" appear in pink and "& REAL SQUEEZED FRUIT" appears in white surrounding the center circle. The wording "yup, that's it." appears in yellow under the circle at the lower portion of the can.
