Trademarks Journal

2024-07-31 — Vol. 71 No. 3640

Trademarks Journal

Vol. 71 No. 3640

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

TRADEMARK DETAILS**Trademark Type**

Design

Visual Representation**Goods****Class 07**

(1) Couplings and transmission belts other than for land vehicles namely, machine couplings and transmission components; Transmissions other than for land vehicles namely, transmissions for machines; Couplers other than for land vehicles, namely, machine couplings; Motor starters; Dynamos; sparking plus for internal combustion engines; Glow plugs for diesel engines; Friction wheels and anti-friction bearings for machines, motors and engines; Carbon brushes, in particular for alternators, electric motors and dynamos; Fans for motors and engines; Hydraulic actuators for controlling clutches; Electric Motors for machines; Hydraulic and pneumatic controllers for apparatus for heating, refrigerating, ventilating, conditioning, air conditioning and demisting for vehicles namely blower motors for heating, ventilation and air conditioning systems; Electric generators; Compressed air dryers for vehicle engines; Filters for cleaning cooling air, for engines; Oil filters, fuel filters; Plunger pistons (parts of machines); equipment for eliminating pollutant gases, namely, de-pollutant installation for vehicles gas exhaust namely anti-pollution catalytic converters for motors and engines; Vacuum cleaners; Vacuum cleaner attachments for disseminating perfumes and disinfectants; Fuel catalysts for motors and engines namely fuel economizers for motors and engines; Cartridges for filtering machines other than for land vehicles, namely, air and oil filtering machines namely oil filters and filters for cleaning air for engines; clack valves being parts of machines; Fan belts for motors and engines; Belts for motors and engines; hydraulic and pneumatic jacks; Cylinder heads for engines; Cylinders for motors and engines; Pistons for cylinders; Starters for motors and engines; Drain cocks; Heat exchangers being parts of machines; Exhausts mufflers for motors and engines; Engine and motor injectors; Joints being parts of engines; pressure washing apparatus, namely, high pressure washers, pressure washers;

Washing installations for vehicles; Hydraulic and pneumatic lifts for moving, parking and storing land vehicles; Machine fly-wheels; Pistons (parts of machines or and engines); compressed air pumps for garage installations; Pressure control valves being parts of machines; Radiators for motors and engines; Turbocompressors; Compressors for machines and motors; fuel and gasoline dispensing pumps for service stations; Pressure control valves being parts of machines; Valves being parts of machines; Exhaust pipes as part of vehicle exhaust system; Motors for driving gear for opening and closing vehicle doors; Machines for eliminating polluting gases by photocatalysis namely anti-pollution catalytic converters for motors and engines; Radiators for vehicles; Fittings for equipping vehicles and for vehicle trim, namely exhausts clamps, exhaust mufflers for motors, starters for motors and engines; Carburettor feeders; Air pressure pumps for using with engines namely compressed air pumps; Carburettors; Air condensers; Catalytic converters; Mufflers for motors and engines; fuel and gasoline dispensing pumps for service stations; Door closers, electric; Hydraulic and pneumatic automatic opening and closing mechanisms for vehicle windows, vehicle doors, and roofs of vehicles; Ignition coils; Igniting distributors; Air intake regulating flaps for vehicle radiators (radiator parts for regulating air intake); Fuel economisers for motors and engines, namely fuel injection systems for engines, fuel injectors; hydraulic couplers for land vehicles; Flywheels for automobile engines; Flywheels for automobile engines with torsion shock absorbers;

Class 09

(2) Electric and electronic apparatus, instruments and equipment for vehicles, namely, actuators for windshield wipers, headlights, heating and air conditioning, seat adjustment, window regulators, sunroofs, radio and navigation systems for cruise control; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, electrical conductors for electric motors, electromagnetic switches, electric transformers, electric voltage transformers, electric accumulators, electronic controllers for flight control systems; Apparatus for recording, transmission and reproduction of sound and images, namely prerecorded magnetic recording tapes, namely pre-recorded audio tapes featuring music; prerecorded optical and sound recording disks, namely optical disks featuring music, blank record disks; Magnetic data media, blank compact discs, DVD recorders and blank audio tapes; lasers to store and retrieve data from CDs and DVDs; and computers; automatic calculators, data readers, namely data processing equipment, namely, computer programs and software for image processing, computers; recorded Computer software for operating motor vehicle computers; Illuminated signs for vehicles; cameras; radar detectors, transmitters and receivers; Speed meters; Sonars; laser detectors; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; Electronic hardware and equipment for assistance, driving, navigation, active safety, evasive manoeuvres, emergency braking of land vehicles, namely laser scanners for the detection of stationary and mobile obstacles; Electric, electronic or and optical equipment and apparatus for assisting the driving, navigation and active safety of land vehicles, namely dashboard cameras, dashboard mounts for navigation devices, touchscreens for vehicle dashboards, digital screens for vehicle dashboards, touchscreens placed on the steering wheel of land vehicles; computer software for database management; computer operating system software; computer hardware; radar; Recorded integrated circuit, recorded smart cards, namely, recorded integrated circuit; electronic position Sensors for assisting, driving and navigating land vehicles; electronic calculators for on-board ground diagnostic; on-board diagnostic systems and remote-controlled diagnostic systems both comprised of radio signal transmitters and computers software for use in diagnosing vehicle systems and data processing units; Electric and electronic equipment and instruments, namely electronic computers for vehicles for the control, management and regulation of air conditioning, ventilation, de-icing and heating

apparatus for motor vehicles; Computer software platforms, recorded and downloadable, namely, computer programs for monitoring automotive functions; Systems for communication between vehicles and road infrastructures comprised of radio signal transmitters, radio signal receivers, data processors, cameras, infrared cameras, computers, recorded computer software for operating motor vehicle computers, electronic and other digital media player, namely, digital processing units with image processing capabilities, namely, computer programs and software for image processing, warning signals in the form of lights and audio signals, visual and audio distance sensors, radars comprised primarily of speed and distance detection radars, obstacle detection sensors, modules for projecting visible and infrared light; optical signal transmitting electronic apparatus for land vehicles, namely, alarms; Recorded optical data discs, recorded magnetic data tapes, namely pre-recorded optical discs containing music, pre-recorded audio tapes featuring music; Radio transmitters (telecommunication); satellite transmitters of electronic signals; Multimedia software for providing vehicle passengers with information and entertainment, namely, weather information, music, movies; Keyless vehicle access and starter systems; Automatic and remote starter systems for vehicle units; Wireless base station, namely antennas for radio, satellite antennas; Radio transmitters; Radio receivers; wireless monitoring, regulation, control and connection transmitters between electronic apparatus, namely laser scanner for detecting static and/or moving obstacles, radars, reversing detectors for vehicles, anti-collision and shock-prevention detectors for vehicles, video cameras, infrared sensors, anti-collision and shock-prevention radars for vehicles and a land vehicle; Electric and electronic locks for vehicles; Computer software for opening and closing doors, boots, bonnets and roofs of motor vehicles; data processing hardware for opening and closing doors, boot, bonnet and roof of motor vehicles; computer operating programs for communication between a motor vehicle and a mobile telephone; Computer software for communication between a motor vehicle and mobile telephone; electric and electronic apparatus, instruments and equipment for vehicles, namely, actuators for windshield wipers, headlights, heating and air conditioning, seat adjustment, window regulators, sunroofs, radio and navigation systems for cruise control; optical, electric and electronic cabling, including in pre-assembled form, in particular for vehicles and all signal transmitters of sound, data, image and information transmission in vehicles by means of multiplexing, coupling and other means; Carrier currents radio transmitters; Wireless networking hardware for electronic apparatus, namely computer network adapters, computer hardware for network access servers; Fuse boxes, traditional, with semiconductors, electric interconnection boxes; On-board communication networks for vehicles, in particular multiplexed, namely electric cables and optical fibres; On-board electrical, electronic and optical equipment for vehicles, namely electrical cables and optical fibres; audio/video Connectors; Electric cable connectors; Interface links, namely, computer interface boards; on-board electric, electronic and optical equipment for land vehicles, for conducting, signaling, controlling, information and security as well as processing related information and signals, sounds, images, data, namely, data processors, cameras, infrared cameras, computers, recorded computer software for operating motor vehicle computers, electronic and digital processing units with image processing capabilities, warning signals in the form of lights and audio signals, visual and audio distance sensors, radars comprised primarily of speed and distance detection radars, obstacle detection sensors, modules for projecting visible and infrared light; Position, angle, coupling and rotation speed sensors; Headlight beam regulating devices; DC-DC converters; ultracapacitors; Rectifiers, namely, diode bridges, and exchangers for diodes and modules; Diode bridges; Electric and electronic light dimmers; electric accumulators for vehicles; Electric relays and switches; Printed circuits; Deflection yokes; light-emitting diodes and semiconductors; Rectifiers, namely diode bridges, electronic ignition modules; Electronic ignition modules; Electromagnetic relays; distance measuring sensors; Electric wire harnesses; Ignition sets; Remote-control transmitters comprised of electric switches, computers, computer software

for use in activating remote controls and data processors; Electronic badges; Electric switchgear; electric switches, namely, commutators; On-board computers for vehicles; Navigational aids comprising a compact disc and other digital media player, namely, digital processing units with image processing capabilities, liquid crystal display, microphone, keyboard, loudspeakers, headphones; Electric control lever switches; communication devices, namely, electronic navigational and positioning apparatus and instruments for communication between a motor vehicle and a fixed station; electronic cards, namely electronic identification cards, computer graphics cards; Electronic circuit boxes; Commutators under the steering wheel, namely communications computers; Directional indicator exchanges, namely indicator lights for telecommunication apparatus; power supply, namely computer power supplies; blank record disks; Integrated circuits; Fiber optic cables; Coaxial cables; Distance recording sensors; on-board electric, electronic and optical equipment for land vehicles, for conducting, signaling, controlling, information and security as well as processing related information and signals, sounds, images, data, namely, data processors, namely, word processors, video processors, cameras, infrared cameras, computers, recorded computer software for operating motor vehicle computers, electronic and digital processing units with image processing capabilities, warning signals in the form of lights and audio signals, visual and audio distance sensors, radars comprised primarily of speed and distance detection radars, obstacle detection sensors, modules for projecting visible and infrared light; reading devices for data processing, namely card punching and sorting machines for data processing; optical Spectacles for eye tests; Sides for optical spectacles; eyeglass nose pads; eyeglasses Lenses; Power corrective eyeglasses lenses, filters for optical spectacle lenses; car and truck Light-emitting diode signalling systems, including high-power light-emitting diode signalling systems; Magnetic data media, recording discs, optical discs, namely, prerecorded audio tapes featuring music, prerecorded music compact discs; computers; electric batteries for vehicles; Electric wires; Relays, electric; on-board and ground Diagnostic calculators; interface cards for data processing equipment in the form of printed circuits; GPS navigation device, namely GPS receivers, GPS transmitters; for land vehicles; Electric and electronic support plates and optical cabling, including in preassembled form, in particular for vehicles, and optical, electric and electronic wiring systems, including in pre-assembled form, especially for vehicles and all parts for transmission by means of multiplexing, coupling and other means, for signals, sounds, images, data and for information on vehicles comprised of connectors for the direct integration of electric and electronic components and data communication directly into the vehicle harness, carrier currents for electronic apparatus, namely, currents converters, current rectifiers; command, regulation, control systems between electronic apparatus and land vehicles; On-board communication networks for vehicles, Microphones; Headphones; Electric terminal lugs; electrical junction boxes; electronic sensors for assisting, driving and navigating land vehicles; Electric and electronic controls for assisting, driving and navigating land vehicles; Transponders; Alarms with ultrasonic detectors; apparatus for analyzing air temperature and quality namely sensors for determining temperature and measuring air quality; Starter cables for motors; automotive fuses; Cell phones; multimedia equipment, namely, audio-video receivers, audio and video transmitters, video tape players; Headlight tilting adjusters; Signal light indicators; Electronic and digital position indicators for valves and taps, and parts therefor; Capacitors; Batteries for vehicles; interface cards for data processing equipment in the form of printed circuits; GPS navigation device, namely global positioning system (GPS) satellites, for land vehicles for assisting, driving and navigating land vehicles; Fuse boxes, traditional, with semiconductors, electric interconnection boxes; On-board communication networks for vehicles namely onboard computers, microphones for communication devices, communications computers; security surveillance robots; Electric and electronic apparatus, instruments and equipment for vehicles, namely controls for windscreen wipers, headlights, heating and air-conditioning, seat adjustment, window winders, sunroofs, radios and

navigation devices, speed regulators; Combined car radio, navigation and air conditioning systems; Optical character readers; Distance measuring sensors; Modems; computer monitors; Global Positioning System [GPS] receivers; global positioning system (GPS) transmitters; Computers; Simulators for the steering and control of vehicles; electronic cards, namely, electronic identification cards; Devices for regulating headlight beams; Lighting intensity variators, in particular stop lights for braking; transmitters and receivers for communication via telephone link and the Internet and displaying of data on in-car telephone handset cradles and other devices, namely telephone, mobile telephone, pocket computer, and electronic agenda; Receiving antennae, transmitting antennae, namely car antennas, antennas for radio and television; Head-up display screens; Lateral path monitoring systems, namely video monitors, computer monitors; Road marking detection devices; liquid crystal display panels; Blind spot and lane changing assistance monitoring systems; Electronic remote controls for lighting, signalling and cameras; Sun lenses, polarising lenses, filtering lenses, tinted lenses, coloured lenses, photosensitive lenses, photochromic lenses; warning signals in the form of lights and audio signals, namely vehicle breakdown warning lamps; distance sensors, radar detectors, obstacle detection sensors, namely distance sensors, motion sensors, modules for projecting visible and infrared light, namely rectifier modules, integrated circuit modules; Light meters; Spectacles; Spectacle frames; Circuit breakers; Battery main switches (upon stop and in case of shock); Electronic battery management devices, namely, equipment for electronic battery control, namely, battery control units for use in motor vehicles; Fuse boxes, traditional, with semiconductors, electric interconnection boxes; On-board communication networks for vehicles, in particular multiplexed networks and namely apparatus and instruments for mobile telephones being hands-free kits comprising a microphone and earphones (wired and wireless); Liquid level gauges; Oil level sensors; Temperature sensors; Rain sensors; Dirt sensors; Pressure sensors; radar detectors; motion detectors; Light-emitting diode signalling systems, namely light-emitting diode monitors, light emitting diode displays; Electric and electronic regulators for alternators; Power electronic devices namely power inverters and current converters; Rectifiers, namely diode bridges, Peltier modules, radiators and exchangers for diodes and modules; computer hardware for the downloading and updating of computer software; Ignition batteries; Anti-interference capacitors; Electric and/or electronic clutch controls; Electric or and electronic gearbox controls; electric control panels; Navigational aids, namely a compact disc and other digital data carrier, namely, electronics and digital technology players, liquid crystal display, microphone, keyboard, loudspeakers, headphones; Parking aids, namely parking assistance radars, vehicle reversing sensors, anti collision and shockproof sensors for vehicles, electronic devices, namely laser, video cameras, infrared sensors, anti-collision and shockproof radars for vehicles, transmitters, ultrasound wave receivers; Obstacle detection devices, namely distance sensors, motion sensors; Electronic engine thermoregulation; electronic or and digital water, fuel and oil level indicators for valves and faucets, and parts thereof; laser speed detectors for vehicles, speed regulators; time recorders for vehicles; sound recorders for vehicles; Milage recorders for vehicles; Petrol gauges; Fire alarms; temperature indicators; Electric loss indicators for vehicles; Pressure indicator plugs for valves; Speed indicators; Barcode readers and optical readers; Electronic notice boards; Taximeters; Decelerometers; Computer testing equipment, namely, handheld diagnostic scanners for automobile; Lighting intensity variators, in particular stop lights for braking; Electronic control modules for electric motors; systems for detecting, processing, signaling and following stationary and moving objects around a vehicle comprised of data processors, cameras, infrared cameras, computers, recorded computer software for operating motor vehicle computers, electronic and digital processing units with image processing capabilities, warning signals to the form of lights and audio signals, visual and audio distance sensors, radars comprised primarily of speed and distance detection radars, obstacle detection sensors, modules for projecting visible and infrared light; Integrated electronic driver

assistance systems, namely electronic assistance systems for parking, reversing and blind spot detection and electronic automatic braking systems; Automatic and remote lock and release systems for vehicle doors; Remote-controlled vehicle heating and air conditioning systems using an electronic badge, and combined with other devices such as telephone, pocket computer and electronic diary; computer hardware for the recovery of certain vehicle data on the badge; display screen filters adapted for use with computer monitors; computer operating system software; flatscreens namely video screens, touch screens; Compact disc players, including video compact disc players; Signal light indicators, torque converter control devices for vehicles, control devices for brakes and braking installations for vehicles; Measuring, signalling, position indicating, detection, checking (supervision), life-saving, safety apparatus and instruments, namely sensors and detector units for use in controlling the actuation and operation of automotive safety apparatus and equipment; computer operating systems for vehicle steering assistance; computer operating systems for vehicle parking assistance; Computer software for detecting and alerting continuous and intermittent crossing of lines by vehicles; GPS receivers, Telephones; Cell phones; Remote-controlled vehicle heating and air-conditioning systems using a badge, a handset and other apparatus such as telephones, mobile telephones, pocket computers and electronic agendas; computer hardware for the recovery of certain vehicle data on the badge and handset with other apparatus such as telephones, mobile telephones, pocket computers and electronic agendas; computer hardware for the recovery of certain vehicle data on the badge; transmitters and receivers for communication, namely microphones for communication devices; via telephone link and the Internet and displaying of data on handset or a telephone, mobile telephone, pocket computer and electronic agenda; Video sensors, namely cameras with linear image sensors; Camcorders; electrical connection devices, namely, connections for electric lines, electrical connection boxes, batteries and protective cases for mobile telephones, and camcorders; Computer software for vehicle steering assistance; Computer software for vehicle parking assistance; Computer software for detecting and alerting continuous and intermittent crossing of lines by vehicles; Computer software for detecting, recognising and reading road traffic signs; Vehicle navigation software; Telephones; Computer software for communication between a motor vehicle and a fixed station; Computer software for communication between a motor vehicle and a mobile telephone; Computer software for automatic and remote ignition of vehicle components; Computer software for keyless vehicle access and ignition; Computer software for automatic opening and closing of vehicle doors, boot, bonnet, roof; Computer software for remote-controlled vehicle heating and air-conditioning systems using a badge, a handset and other apparatus such as telephones, mobile telephones, pocket computers, electronic agendas; Computer software for the recovery of certain vehicle data on the badge and handset with other apparatus such as telephones, mobile telephones, pocket computers, electronic agendas; Voice recognition software, Speech synthesis software; Combined car radio, navigation and air-conditioning control systems; Anti-pinch systems for electric window winders and sunroofs; Power electronics, namely power inverters and current converters; instrument panel, namely revolution counters; Remote-controlled vehicle heating and air-conditioning systems using a badge, and combined with other devices such as telephone, pocket computer and electronic diary; windshields featuring a video and picture display screen for viewing data and images; Combined car radio, navigation and air conditioning systems; Battery disconnect switches (upon stopping and in case of impact); Fuse boxes, traditional, with semiconductors, electric interconnection boxes; Light emitting diode signalling systems, including high-power light-emitting diode signalling systems; DC-DC converters (for transforming the voltage from a direct current); Rectifiers, namely diode bridges, Peltier modules, exchangers for diodes and modules; batteries for electrical and electronic power steering; batteries for electronic assisted suspension; Anti-interference capacitors; Electric and electronic gearbox controls; speed indicators, multifunction display screens, liquid crystal displays, on-board

computers for vehicles, navigational aids comprising a compact disc reader, a liquid crystal display screen, a microphone, a keyboard, loudspeakers and earphones; Liquid crystal display; Parking assistance systems, namely parking assistance radars, vehicle reversing sensors, and anti-collision and anti-impact sensors for vehicles, Electronic devices, namely lidar, Camcorders, Infrared sensor, anti-collision and shockproof radars for vehicles, Ultrasonic wave receivers and transmitters; Parking assistance and automated parking systems; Obstacle detection devices, namely motion sensors; transmitters and receivers for communication between a motor vehicle and a fixed station; Intermittent lighting modules for blinkers; Electronic thermoregulators for motors and engines; Electronic controllers of valves, pumps and fans for vehicles; Bar code readers; Lighting intensity variators, in particular stop lights for braking; Integrated electronic driver assistance systems, namely electronic assistance systems for parking, reversing and blind spot detection and electronic automatic braking systems; Pre-collision detection and collision avoidance systems; Automatic and remote lock and release systems for vehicle doors; Automatic and remote starter systems for vehicle units; Keyless vehicle access and starter systems; software for the remote control of vehicle heating and air conditioning systems by means of an electronic badge, and combined with another device such as a telephone, pocket computer and electronic organiser; software for the recovery of certain vehicle data on the badge; antennas, namely satellite antennas, antennas for radio, car antennas; Parking aids and automated parking systems, namely parking assistance radars, vehicle reversing sensors, anti-collision sensors for vehicles, anti-collision radars for vehicles, ultrasound transmitters and receivers; Burglar alarms; Indicators of low pressure in vehicle tyres; electronic keys for automobiles, namely Encoded key cards; automotive Battery chargers; Electronic devices for reading, transmitting and processing data from signalling panels, namely laser scanner, radars, detectors, video cameras, infrared sensors, anti-collision and shock-prevention radars for vehicles; Electronic devices for reading, transmitting and processing data transmitted by a vehicle namely laser scanner, radars, detectors, video cameras, infrared sensors, anti-collision and shock-prevention radars for vehicles; Electromagnets, in particular for portage; Control and checking components and devices, namely, control and connection transmitters between electronic apparatus and a land vehicle and control panels for heating, refrigerating, airing, ventilating, air conditioning and demisting apparatus for vehicles; Capacitors; Light-emitting diode signalling systems, including high-power light-emitting diode signalling systems; decelerometers for checking the effectiveness of a vehicle braking device; On-board ground diagnostic calculators; Electric and electronic controllers, namely actuators, materials and equipment, namely GPS navigation assistance devices, namely GPS receivers, GPS transmitters, for assisting, driving and navigating land vehicles; Wire for aerials, Namely connecting cables; Head-up displays; Air ozonisers; Electromechanical actuators for locking doors, adjusting the position of seats, rearview mirrors and headlights, and operating sunroofs and window winders; Machines for eliminating polluting gases; Electronic devices namely, linear actuators for opening and closing doors, boots, bonnets and roofs of motor vehicles; Electronic devices namely, linear actuators for opening and closing vehicle locks; software for control of brakes and braking installations for vehicles; Vehicle climate-control systems for air cooling; Light-emitting diode lighting systems, including high-power light-emitting diode lighting systems; Headlight inclination adjusters;

Class 11

(3) Electric radiator not for motors and engines, heating, refrigerating, airing, ventilating, air conditioning and defogging apparatus, namely, climate controls for controlling, managing, regulating and checking air conditioning, ventilation, de-icing and heating apparatus for motor vehicles for vehicles, their command and control parts and systems, namely, thermostatic valves, fan units, and air regulating shutters; Lighting installations, namely, vehicle headlights; Headlight

panes; Vehicle headlamps; Ceiling lights; headlamps for vehicles; signaling lights for vehicles; Hot air ovens; Air conditioning apparatus for vehicles; Convection air conditioners; Temperature exchangers; heating radiators, Finned tubes for vehicle heating, heating Boilers; Installations for central heating; Heating, refrigerating, aerating, ventilating, conditioning, air-conditioning and demisting apparatus for vehicles; waste heat exchangers; Fans being parts of air-conditioning installations; Heat accumulators; Air purifying units; Air deodorising units; Filters for air conditioning; Air filtering installations; Light bulbs; Light bulbs for directional signals for vehicles; Light bulbs, electric; Heating radiators for defrosting vehicle windows; Fitted anti-glare devices for automobile headlamps; Heating defrosters for vehicle windows; Radiator caps; Heat regenerators; Air conditioners for vehicles; Air conditioners for vehicles; Defrosters for vehicles; Level controlling valves in tanks; Pressure water tanks; evaporative air coolers; electric radiators for heating; heat sinks for use in heating and cooling apparatus; Lighting installations, namely, lighting fixtures, Spotlight installations; Anti-dazzle lighting systems, for other drivers; Anti-dazzle lighting systems relating to other drivers; Air inlet adjustment flaps for radiators; Heating and ventilating installations comprising a device for dispensing fragrances and scents in a vehicle passenger compartment, heating, airing, ventilating, air conditioning and demisting apparatus for vehicles comprising a device for dispensing fragrances and scents in a vehicle passenger compartment; Heating and ventilating installations comprising a device for dispensing anti-allergenic preparations in a vehicle passenger compartment, heating, airing, ventilating, air conditioning and demisting apparatus for vehicles comprising a device for dispensing anti-allergenic preparations in a vehicle passenger compartment; Heating and ventilating installations comprising a device for dispensing air purifying preparations in a vehicle passenger compartment, heating, airing, ventilating, air conditioning and demisting apparatus for vehicles comprising a device for dispensing air purifying preparations in a vehicle passenger compartment; Vehicle air conditioning installations comprising a device for dispensing fragrances and scents in a vehicle passenger compartment; Air conditioners for land vehicle passenger compartments; Air impellers for ventilation; Light-emitting diode lighting systems, including high-power light-emitting diode lighting systems; Sprayers, namely, atomizer, humidifier; Air heating unit heaters, namely, electric space heaters; Electric and electronic air driers; Air sterilisers; ventilator fans for air-conditioning; electric air conditioning Fans for personal use; anti dazzle vehicle lights; Electric and electronic apparatus, instruments, devices and equipment for vehicles, namely headlights.

Class 12

(4) Land vehicles, namely motor cars for transport on land; Vehicles, apparatus for locomotion by land, namely, cars, trucks, vans, automobiles; Driverless cars, namely autonomous cars; Engines and motors, powertrains, Clutches, Drive mechanisms, Friction disks, Clutch-release bearings, Hydraulic clutch controls, Electric clutch controls, Electronic actuators, Hydraulic clutch controls, Couplers, Torque converters for vehicles, Automobile parts and components for checking and controls, namely, checking and control devices and parts thereof, especially mechanical, hydraulic, pneumatic, electrical, electrostatic, electromagnetic devices; Hydrodynamic brakes and retarders, and eddy current brakes and retarders for vehicles namely brake systems for motor vehicles; Safety belts for vehicle passengers; Fittings for equipping vehicles and for vehicle trim, namely bonnets, doors, bumpers, steering wheels, windscreens, windows, hoods for vehicles, exhausts, gearboxes, axles for vehicles, wheels, wheel rims, tyres, inner tubes, studs for tyres, hub caps, balance weights for wheels, air pumps, motor vehicle chains, seats, seat covers, safety seats for children, head-rests for seats, trailer hitches, luggage carriers, ski carriers; Electric and electronic power steering; Electronic powered suspension; Brake linings; Steering locks; Horns for automobiles; Support plates for land vehicles; Electric drives for vehicles; Gear motors for land vehicles; Windscreen washers; Windscreen washer bottles; Non-locking tank caps; Brake

cylinders and hydraulic clutch controls; Brake and clutch master cylinders; Vehicle door handles; Clutch torsion shock absorbers; Hydraulic clutch controls; Clutch controls, electric; Electronic and hydraulic actuators for clutch controls; Torque converters for vehicles; brake retarders; Brakes and braking installations for vehicles, their command and control parts and devices; Windscreen wipers and their components such as windscreen wiper blades, Connectors and fastening systems for windscreen wiper blades, arms, Deflectors, Transmission assemblies for land vehicles; Transmission components for windscreen wipers namely windscreen wiper brushes, connectors and systems for attaching windscreen wiper brushes, windscreen wiper; Support plates for windscreen wipers; Electric motors for motor cars; Reversing alarms for vehicles; Gearboxes for land vehicles, hydraulic circuits for vehicles; linings for vehicles; Electronic and hydraulic actuators for clutch controls; Torque converter for vehicles, their command and control parts and devices thereof; Brake shoes, booklets and brake segments, brake disks; Automatic gearboxes; Windscreens integrating a screen for the display of information and images; Rearview mirrors with videocamera, with display, with signal lights; Caps for fuel tanks, with locks; Motors for land vehicles; Suspension shock absorbers for vehicles; Chassis and bumpers for vehicles; Electric land vehicles, namely motor cars for transport on land; Hydraulic actuators for assisting, driving and navigating land vehicles; Brakes and braking installations for vehicles, command, regulation and control organs and devices for assisting, driving and navigating land vehicles, namely, apparatus for locomotion by land, air or water, namely, cars, trucks, vans, automobiles; Electromechanical actuators for assisting, driving and navigating land vehicles; Windscreens; Rearview mirrors; Dashboards for land vehicles; Electronic and hydraulic actuators for assisting, driving and navigating land vehicles; Torque converters for land vehicles; Horns for vehicles; Propulsion mechanisms namely, drives for motors for land vehicles; Electrical apparatus for cleaning and washing vehicle windscreens namely, liquid and air spraying devices; Electrical apparatus for cleaning and washing rear vehicle windows namely, liquid and air spraying devices; Electrical apparatus for cleaning and washing vehicle cameras namely, liquid and air spraying devices; Electrical apparatus for cleaning and washing front and rear vehicle headlights namely, liquid and air spraying devices; Rechargeable hybrid electric vehicles; Couplings for land vehicles; Anti-theft alarms for vehicles; Anti-glare devices for vehicles; Bodies for vehicles; Headlight wipers; Direction signals for vehicles; Headlight washers; Headlight wipers; Vehicle parts and components of metal; Hydraulic and pneumatic controls for hydraulic clutches for land vehicles; Clutch mechanisms for land vehicles; Friction discs for land vehicles; Clutch release bearings for land vehicles; Hydraulic clutch controls for land vehicles; Electric clutch controls for land vehicles; Electronic and hydraulic clutch control actuators for land vehicles; Torque converters for land vehicles; Brake shoes, brake pads and brake segments, and brake discs for vehicles; Shoes, blocks, washers, sectors, discs, bands, linings and rollers made of and coated with friction and anti-friction bodies, all being vehicle parts; Rearview mirrors with videocamera, with display, with signal lights; Cigar lighters for automobiles; Electric steering column locks for vehicles; Electric and/or electronic power steering; Electronic assisted suspension for land vehicles; Automatic gearboxes for land vehicles; Vehicle headlight washers; Vehicle headlight wipers; Electronic automatic brake discs, namely, brake discs; Electronic automatic steering gears for land vehicles; automatic guided vehicles; Variable speed belt drives

Claims

Priority Filing Date: December 02, 2016, Country or Office: EUIPO (EU), Application No: 016127292 in association with the same kind of goods

Application Number 1,862,405
Language of Application English

Filing Date 2017-10-12

APPLICANT AND AGENT DETAILS

Applicant

Danco, Inc.
2727 Chemsearch Boulevard
Irving, TX 75062
UNITED STATES OF AMERICA

Agent

MARKS & CLERK
33 Yonge Street, , Suite 300, Toronto,

CERTIFICATION MARK DETAILS

CDTC

Trademark Type

Standard Characters

Certification Mark Standard

The CDTC certification mark is a sign used/proposed to be used for the purpose of distinguishing the production of compliant traffic signs that are a defined standard. Specifically, the certification mark, as used or intended to be used by persons authorized by the certifier, certifies or is intended to certify that the services provided have met the standards for producing specification compliant traffic signs. Attached are the defined standards for businesses to become a Certified Digital Traffic Converter (CDTC).

Services

Class 40

custom printing and digital printing of luminous traffic signs, reflective traffic signs and reflective inlays for traffic signs

Goods

Class 06

(1) Common metals and their alloys; ores of metal; metal materials for building and construction purposes, namely, metal materials for racks for storage of goods; non-electric cables and wires of common metal; metal hardware, namely, transport rails of metal and metal cable wire; metal containers for transport or storage, namely, packaging containers of metals, metal trays for the tobacco industry, metallic packaging films, metallic packaging foils and metallic packaging blisters; safes.

Class 07

(2) Machines, namely machines for humidifying tobacco and tobacco products; filling machines, namely machines for filling tobacco into cigarettes, cigars and cigarillos; machines for the pharmaceutical industry, namely automatic industrial labeling machines for applying bar code labels to containers and bottles for the pharmaceutical industry; machines for applying codes on pharmaceutical products and pharmaceutical packagings; machines for processing of filtering materials for tobacco products; automatic industrial machines for picking up goods, namely, stacker cranes, layer picking machines and palletizers; machines for filling cartridges for electronic smoking equipment; envelope stuffing and inserting packaging machines; machines for depalletising goods, namely robotic arms for depalletizing; automatic industrial product labelling machines for applying labels to industrial packaging; power-operated industrial machines for gripping parcels; machines for lifting goods, namely power-operated lifts used to transport and

place portable crates, pallets, bins, boxes and storage containers; machines for palletizing goods, namely robotic arms for palletizing; machines for sorting pharmaceutical products and in particular for sorting tablets, dragees and capsules; machines for transporting pharmaceutical products, pharmaceutical containers and packagings; machines for transporting goods, namely pneumatic transporters; machines for filling electronic cigarettes; electronic printing machines for printing labels on containers and packaging for commercial use; machines for manufacturing and filling inhalers and/or components thereof; machines for manufacturing and filling smokers' articles; machines for manufacturing electronic cigarettes and parts thereof; machines for manufacturing tissue paper products; machines for manufacturing paper; machines for manufacturing paper products, namely, paper bags, paper bottle wrappers, paper containers, envelopes and paper towels; machines for manufacturing pharmaceutical products, namely, rotary tablet press machines; filling machines for pharmaceuticals; machines for manufacturing toilet paper; machines for manufacturing drinking straws; machines for manufacturing vaporizers; machines for manufacturing packagings for pharmaceutical products; machines for producing cigarettes; machines for producing cigarillos; machines for producing cigars; machines for the commissioning of goods, namely, order-picking machines for warehouses for use in supply chain logistics management; machines for cleaning pharmaceutical containers; machines for processing tissue papers; machines for processing paper; machines for processing tobacco leaves; tobacco mixing machines for commercial use; cross belt sorting conveyors; rack operating machines, namely, stacker cranes for warehouse applications; tobacco cutting machines; paper cutting machines; pulp sifting machines; machines for sorting pharmaceutical products and pharmaceutical packagings, namely, pharmaceutical bottles and containers; machines for sorting tobacco products and parts of tobacco products, namely, tobacco, cigarettes, cigars and cigarette filters; tobacco cutting machines and tobacco processing machines; machine tools for the tobacco industry; machine tools for the packaging industry; machine tools for the paper manufacturing industry; machine tools being conveyors for handling, gripping and conveying goods for supply chain logistics applications; power operated tools; electric motors for machines; motors used in industrial applications; propulsion mechanisms, other than for land vehicles, namely, electric propulsion mechanisms for machines; machine coupling and transmission components (except for land vehicles); machines and components thereof for the tobacco processing and cigarette and cigar industry; machines for the treatment of tobacco; machines for the manufacture of filters for tobacco products; conveyors [machines]; packaging machines; machines for manufacturing paper, including machines for manufacturing cardboard, tissue and non-woven material; automatic machines for thermoforming and processing of plastics; die-cutting machines; die-stamping machines; industrial label printing machines; machines for processing print products namely, machines for folding and stapling paper; stapling presses [other than for surgical or stationery use]; stacking machines, namely cargo handling robots for use in warehouses for stacking goods; flexographic printing machines; 3D printing machines; collating machines for the printing industry; digital printing machines for textile industry; industrial label printing machines; printing machines for printing on packaging; palletizers; palletising robots (machines); electro-chemical discharge machines for metalworking; laser machines for the inspection of pharmaceutical packaging; tool grinding machines; grinding machines for metalworking; sorting machines for tobacco products and cigarette filters.

Class 09

(3) Instruments, namely, measuring instruments for measuring physical parameters on cigarettes, cigars and filter rods, namely, pressure drop testers, measuring devices for automatic determination of filling power and density of cut or expanded tobacco as well as of hardness of cigarettes and filter rods, measuring devices for automatic determination of hardness of cigarettes

and filter rods, measuring devices used to test the stability of plain and filter cigarette ends, moisture testers to measure the moisture of individual filter rods, cigarettes and industry manufactured cigars using microwave resonance technique, weighing apparatus for determination of the weight of cigarettes and filter rods, apparatus for measuring the length, shape, diameter, circumference, ovality and aspect ratio of cigarettes, filter rods and parts of cigarettes, apparatus for measuring the ignition propensity of cigarettes, cigars and tobacco products, apparatus for measuring the paper porosity, air permeability and the burn rate of cigarette paper, apparatus for analyzing the smoking puff of tobacco products, and apparatus for measuring the filter ventilation through the tipping paper of cigarettes and cigars; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electricity conduits, electricity generators, electric converters, electric transformers; apparatus for recording, transmission or reproduction of sound or images, namely, cameras; downloadable media, namely computer software user manuals in the form of downloadable electronic publications; downloadable media, namely computer application software for controlling the operation of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing commercial packaging; downloadable media, namely downloadable digital content in the form of electronic publications of newsletters; downloadable media, namely downloadable digital content in the form of electronic publications of brochures; downloadable media, namely downloadable digital content in the form of electronic publications of books; computer software for monitoring and analyzing downtimes, speed losses and the performance of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; computer software for monitoring, controlling and operating machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software to automate data warehousing; computer software for the collection of statistical production data of machines in the field of tissue production, paper and cardboard production, steel production, glass production, tobacco production, production of packaging, food and beverage production and in the field of handling and conveying goods in the production process; computer software for two or three-dimensional simulation for use in design and development of industrial products; computer software for use in controlling and improving computer processing speed; computer software for processing digital images; computer software for database management; computer programs (cad /cam) recorded on software designed for use in construction and automated manufacturing; computer software for use in diagnosis, repair and configuration of computers; computer software for controlling and managing access server applications; computer software for logistics, namely, software for tracking documents, packages and freight and for managing warehouses; computer software for optical character recognition; facilities management software to control building environmental access and security systems; recorded and downloadable computer software used to process voice commands for communication devices, namely, mobile phones, smartphones and tablet computers; recorded and downloadable computer software for searching a user's mobile phone, computer, tablet, or other portable electronic communication devices for documents, files, and other stored information using voice commands; downloadable computer software for mobile phones and mobile devices, namely, cellular phones and tablet computers that allows the user to search the mobile phones, cellular phones and tablet computers' content for information, contacts, and applications; recorded and downloadable computer software for processing electronic payment transactions via wireless networks, global computer networks and mobile

telecommunication devices; recorded and downloadable computer software for browsing and accessing digital content, namely, computer software, computer games, audio works, visual works, audiovisual works and electronic publications, all in the form of books, movies, and music; downloadable computer software for providing a personal voice-enabled digital assistant; recorded and downloadable voice recognition software; recorded and downloadable computer software for use in gathering, recording, storing, analyzing and evaluating data relating to tobacco processing and cigarette manufacturing and packaging, namely, production and waste data, machine performance data and production quality data; computer programs, recorded and downloadable, for data evaluation and support for production processes and material logistics relating to tobacco processing and cigarette manufacturing and packaging; recorded and downloadable computer software for accessing and searching online databases and websites; recorded and downloadable computer software for accessing and searching online databases and websites using image capture; recorded and downloadable image recognition software; recorded and downloadable computer software for facial and object recognition; recorded and downloadable computer software for automating capturing of photos and videos; recorded and downloadable computer software for transferring, recording, capturing, storing, viewing, editing, processing, automatically selecting, and sharing videos and photos; recorded and downloadable computer software for managing, networking, collaborating within and providing remote access to databases; computer programs, recorded and downloadable, for data evaluation and support for production processes and material logistics relating to pharmaceutical manufacturing and pharmaceutical packaging; recorded and downloadable computer software for conducting operational procedures in the nature of business processes and for controlling operating of machines for sorting, manufacturing, packaging and labelling tobacco products; computer programs, recorded and downloadable, for data evaluation and support for production processes and material logistics relating to tissue product and hygiene product manufacturing and packaging; computers; computer peripheral devices, namely computer display monitors, computer scanners, bar code scanners, network routers and wireless routers; electronic publications namely, books, magazines and manuals featuring information in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging recorded on computer media; electronic databases in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics, pharmaceutical production and packaging and machine data recorded on computer media; testers for measuring the temperature, pressure, position and form of workpieces in a machine tool; ultrasonic sensors; temperature sensors; pressure sensors; acceleration sensors; motion sensors; LED position sensors; motion recognizing sensors; optical position sensors; sensors for determining position; sensors for determining velocity; time-of-flight sensors; infrared sensors; capacitance sensors; conductivity sensors; pressure sensors; heat sensors; humidity sensors; speed sensors; brightness sensors; magnetic field sensors; hall sensors; optical control apparatus, namely, optical sensors; metal detectors; lasers for bar code readers; lasers for surveying; lasers for use in industrial cutting applications; electric apparatus for electricity commutation, namely, electricity distribution consoles and control cabinets; electrical and electronic control systems for controlling machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the

industry for producing commercial packaging; digital thermometers, not for medical purposes; camcorders; step counters; revolution counters; particle counters for measuring air quality; measuring apparatus, namely, lasers for measuring tobacco and cigarette filters; chips, namely, integrated circuits for controlling industrial manufacturing machines.

Class 11

(4) Devices and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating and water supply as well as sanitary purposes, namely, LED lamps, LED work lights, light bulbs, light panels, lighting apparatus, especially electric lamps and luminaires, tobacco drying machines.

Class 12

(5) Vehicles, namely automated guided vehicles and rail guided vehicles for use in supply chain logistics and transportation logistics, forklift trucks, aircraft, automobiles, bicycles, motorcycles, rolling stock for railways.

Class 16

(6) Paper; cardboard; printed matter, namely, books, magazines and manuals featuring information in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; bookbinding material; photographs [printed]; paintbrushes; instructional and teaching materials, namely, printed educational materials, manuals, and books in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; foils and bags of plastic for wrapping and packaging; printing fonts; printing blocks.

Class 20

(7) Furniture, namely storage racks, furniture shelves and moveable metal storage racks; picture frames; containers, not of metal, for storage; bone, horn, whalebone and mother-of-pearl, unworked or semi-worked.

Services

Class 35

(1) Business management; business administration; retail store services, wholesale store services, mail order services, online retail store services, online wholesale store services and online mail order services featuring computer software for the controlling and monitoring of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, computer software for industrial applications in the field of pharmaceutical and biotech industries, machines for producing pharmaceuticals and pharmaceutical packaging as well as

inspection machines for use in the pharmaceutical business, pharmaceutical packaging, computer software, computer hardware, machines, conveyors and robotic solutions for industrial applications in the field of supply chain logistics, automated guided vehicles, rail guided vehicles and forklift trucks for supply chain logistics and transportation logistics, machines for producing and processing tissue products and hygienic paper products, machines, measuring devices, computer software and hardware for the tobacco industry; business consultancy and advisory services in the field of logistics, supply chain, product packaging, production systems and distribution systems; data processing services in the fields of supply chain logistics, inventory management and control, producing pharmaceuticals and pharmaceutical packagings, control of machines for the tobacco industry and paper making industry; business project management, also in the field of IT; business organization consultancy; business organization consultancy with regard to production planning for third parties.

Class 37

(2) Building construction; installation and repair of machines for humidifying tobacco and tobacco products, filling machines, machines for handling material to be conveyed, machines for the pharmaceutical industry, machines for applying codes on pharmaceutical products and pharmaceutical packaging, machines for processing of filtering materials for tobacco products, machines for picking up goods, machines for loading and unloading goods, machines for filling cartridges for electronic smoking equipment, machines for inserting prospectuses in packagings, machines for depalletising goods, product labelling machines, machines for gripping goods, machines for lifting goods, machines for palletising goods, machines for sorting pharmaceutical products and in particular for sorting tablets, dragees and capsules, machines for transporting pharmaceutical products, pharmaceutical containers and packagings, machines for transporting goods, machines for filling electronic cigarettes, machines for the labelling and printing of containers and packaging, machines for manufacturing and filling inhalers and/or components thereof, machines for manufacturing and filling smokers' articles, machines for manufacturing electronic cigarettes and parts thereof, machines for manufacturing tissue paper products, machines for manufacturing paper products, machines for manufacturing pharmaceutical products, machines for manufacturing toilet paper, machines for manufacturing drinking straws, machines for manufacturing vaporizers, machines for manufacturing packaging for pharmaceutical products, machines for producing cigarettes, machines for producing cigarillos, machines for producing cigars, machines for the commissioning of goods, machines for cleaning pharmaceutical containers, machines for processing tissue papers, machines for processing paper, machines for processing tobacco leaves, mixing machines, cross belt sorter machines, rack operating machines, cutting machines, sifting machines, sorting machines, tobacco cutting machines, tobacco processing machines and external and internal thread grinding machines, banding machines, belt conveyors, pneumatic transporters, conveyor belts, conveying chains, conveyors, transporters, bobbin splicing and changeover machines, printing machines, plunge grinding machines, electric discharge machines, filter attachment machines, staplers, machines for manufacturing hygiene products and hygienic paper products, machines for manufacturing paper, machines for manufacturing paper goods, high-speed grinding machines, power operated tools, machine coupling and transmission components, agricultural implements, laser machines, mechanical conveyor belts for loading machines with goods and articles for further processing, mechanical tray fillers and dischargers, machines for the graphics industry, machines and installations consisting thereof for treating and processing tobacco, machines and mechanical apparatus for processing cardboard, tissue or plastic, machines and mechanical apparatus for manufacturing and/or processing flat material cuts, folded box cuts, envelopes, mailing bags, labels, sanitary articles, tissue articles and household cloths, machines and machines parts for the

food, paper, cardboard and hygienic goods processing industries, machines and machines parts for the tobacco processing, cigarette and cigar industries, machines for manufacturing packaging materials, machines for arranging and aligning packaged goods, machines for manufacturing filters for tobacco products, machines for processing print products, material roll replacement devices, engines, palletising robots, palletising machines, polygon grinding machines, embossing machines, production grinding machines, groove grinding machines, grinding machines, laser machining machines, sorting machines for tobacco products and cigarette filters, stamping presses, stacking machines, propulsion mechanisms, vehicles for use on land, universal cylindrical grinding machines, vending machines, packaging machines, roll grinding machines, machine tools, tool grinding machines, instruments, namely, measuring instruments for measuring physical parameters on cigarettes, cigars and filter rods, namely, pressure drop testers, measuring devices for automatic determination of filling power and density of cut or expanded tobacco as well as of hardness of cigarettes and filter rods, measuring devices for automatic determination of hardness of cigarettes and filter rods, measuring devices used to test the stability of plain and filter cigarette ends, moisture testers to measure the moisture of individual filter rods, cigarettes and industry manufactured cigars using microwave resonance technique, weighing scales for determination of the weight of cigarettes and filter rods, apparatus for measuring the length, shape, diameter, circumference, ovality and aspect ratio of cigarettes, filter rods and parts of cigarettes, apparatus for measuring the ignition propensity of cigarettes, cigars and tobacco products, apparatus for measuring the paper porosity, air permeability and the burn rate of cigarette paper, analyzers for analyzing the smoking puff of tobacco products, and apparatus for measuring the filter ventilation through the tipping paper of cigarettes and cigars, material testing and measuring instruments and machines, namely, testers for measuring the temperature, pressure, position and form of workpieces in a machine tool, ultrasonic sensors, temperature sensors, pressure sensors, acceleration sensors, motion sensors, LED position sensors, motion recognizing sensors, optical position sensors, sensors for determining position, sensors for determining velocity, time-of-flight sensors, infrared sensors, capacitance sensors, conductivity sensors, pressure sensors, heat sensors, humidity sensors, speed sensors, brightness sensors, magnetic field sensors, hall sensors, optical control apparatus, namely, optical sensors, lasers for bar code readers, lasers for surveying, lasers for use in industrial cutting applications, electric apparatus for electricity commutation, namely, electricity distribution consoles and control cabinets, control panels and control cabinets for machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, electrical and electronic control systems for controlling machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, measuring instruments and apparatus, temperature gauges, thermometers, camcorders, counters, measuring and sorting instruments for tobacco products and cigarette filters, chips [integrated circuits], LED lamps; LED work lights; light bulbs; light panels; lighting apparatus, especially electric lamps and luminaires; tobacco drying machines, vehicles, vehicles, namely automated guided vehicles and rail guided vehicles for use in supply chain logistics and transportation logistics, forklift trucks, aircraft, automobiles, bicycles, motorcycles, rolling stock for railways, furniture, namely storage racks, furniture shelves and moveable metal storage racks, containers for storage or transport as well as industrial robots for appliances relating to the movement and transport of goods.

Class 41

(3) Educational services, namely, conducting education programs in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain software,

computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; training in the use and operation of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; cultural activities in the form of exhibitions in the field of industrial machinery; training services in the field of tobacco production, packaging, labelling, manufacturing and processing; arranging and conducting seminars, workshops and educational conferences in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; electronic publishing services, namely, on-line publication of text and graphic works of others featuring information in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging , supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging recorded on computer media.

Class 42

(4) Scientific and technological services namely, research and design in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; industrial analysis services consisting of testing, analysis, and evaluation of the goods of others to assure compliance with industry standards; industrial research in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel

industry, the food and beverage industry, the glass industry and the industry for producing packaging; providing quality control for the tobacco industry; providing quality control for the packaging industry; providing quality control for the paper making industry; providing quality control for the supply chain logistics industry; providing authentication services, namely, quality certification in the field of pharmaceuticals; design and development of computer hardware and software; engineering services, namely, mechanical engineering; information technology [IT] engineering, namely computer software engineering and computer hardware engineering; technical research projects and studies in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; design, development and servicing of computer software; advisory services relating to computer programming; writing of data processing programs; engineering surveying services; mechanical research; technical engineering project planning, products development and technological consultancy in the fields of new pharmaceutical packagings, tobacco products, internal supply chain logistics and paper making; updating, rental and servicing of computer software; software as a service (SAAS) services, namely, hosting software for use by others for controlling industrial processes and for processing and visualization of corporate data in the field of control technology, automation technology, drive technology, logistics facilities, material management, warehouse management, transport management, storing position management and the flow of goods, for controlling industrial processes and for processing and visualization of corporate data in the field of logistics facilities, material management, warehouse management, transport management, storing position management and the flow of goods, to process voice commands for communication devices, namely, mobile phones, smartphones and tablet computers, for providing a personal voice-enabled digital assistant, for voice recognition software, for use in gathering, recording, storing, analyzing and evaluating data relating to tobacco processing and cigarette manufacturing and packaging, namely, production and waste data, machine performance data and production quality data, computer programs, for data evaluation and support for production processes and material logistics relating to tobacco processing and cigarette manufacturing and packaging, for controlling, regulating, optimizing and diagnosing machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, for controlling industrial processes and for processing and visualization of corporate data in the field of control technology, automation technology, drive technology, for accessing and searching online databases and websites, for searching a user's mobile phone, computer, tablet, or other portable electronic communication devices for documents, files, and other stored information using voice commands, for mobile phones and mobile devices, namely, cellular phones and tablet computers that allows the user to search the mobile phones, cellular phones and tablet computers' content for information, contacts, and applications, for accessing and searching online databases and websites using image capture, for optical character recognition usage, for facilitating electronic commercial transactions via wireless networks, global computer networks and mobile telecommunication devices, for facial and object recognition, for automating capturing of photos and videos, for transferring, recording, capturing, storing, viewing, editing, processing, automatically selecting, and sharing videos and photos for browsing and accessing digital content, namely, computer software, computer games, audio works, visual works,

audiovisual works and electronic publications, all in the form of books, movies, and music, for managing, networking, collaborating within and providing remote access to databases, computer programs, for data evaluation and support for production processes and material logistics relating to pharmaceutical manufacturing and pharmaceutical packaging, for conducting operational procedures in the nature of business processes and for controlling operating and production equipment, and computer programs, and for data evaluation and support for production processes and material logistics relating to tissue product and hygiene product manufacturing and packaging; rental of computers, computer software and web servers; server administration for computer software-based systems for others; technical consultation services in the field of packaging technology and packaging design; services of a packaging designer; quality control of pharmaceutical products; conducting medical studies for pharmaceuticals; development of pharmaceutical preparations and medicines; research on the subject of pharmaceuticals; technological consultancy in the field of the packaging of pharmaceutical products.

Claims

Priority Filing Date: January 08, 2020, Country or Office: GERMANY, Application No: 30 2020 000 552 in association with the same kind of goods and in association with the same kind of services

Application Number 2,063,335
International Registration Number 1559631
Language of Application English

Filing Date 2020-07-08

APPLICANT AND AGENT DETAILS

Applicant

Körber AG
Anckelmannsplatz 1
20537 Hamburg
GERMANY

Agent

SMART & BIGGAR LP

TRADEMARK DETAILS

KÖRBER

Trademark Type

Standard Characters

Goods

Class 06

(1) Common metals and their alloys; ores of metal; metal materials for building and construction purposes, namely, metal materials for racks for storage of goods; non-electric cables and wires of common metal; metal hardware, namely, transport rails of metal and metal cable wire; metal containers for transport or storage, namely, packaging containers of metals, metal trays for the tobacco industry, metallic packaging films, metallic packaging foils and metallic packaging blisters; safes.

Class 07

(2) Machines, namely machines for humidifying tobacco and tobacco products; filling machines, namely machines for filling tobacco into cigarettes, cigars and cigarillos; machines for the pharmaceutical industry, namely automatic industrial labeling machines for applying bar code labels to containers and bottles for the pharmaceutical industry; machines for applying codes on pharmaceutical products and pharmaceutical packagings; machines for processing of filtering materials for tobacco products; automatic industrial machines for picking up goods, namely, stacker cranes, layer picking machines and palletizers; machines for filling cartridges for electronic smoking equipment; envelope stuffing and inserting packaging machines; machines for depalletising goods, namely robotic arms for depalletizing; automatic industrial product labelling machines for applying labels to industrial packaging; power-operated industrial machines for gripping parcels; machines for lifting goods, namely power-operated lifts used to transport and place portable crates, pallets, bins, boxes and storage containers; machines for palletizing goods, namely robotic arms for palletizing; machines for sorting pharmaceutical products and in particular for sorting tablets, dragees and capsules; machines for transporting pharmaceutical products, pharmaceutical containers and packagings; machines for transporting goods, namely pneumatic transporters; machines for filling electronic cigarettes; electronic printing machines for printing labels on containers and packaging for commercial use; machines for manufacturing and filling inhalers and/or components thereof; machines for manufacturing and filling smokers' articles; machines for manufacturing electronic cigarettes and parts thereof; machines for manufacturing tissue paper products; machines for manufacturing paper; machines for manufacturing paper

products, namely, paper bags, paper bottle wrappers, paper containers, envelopes and paper towels; machines for manufacturing pharmaceutical products, namely, rotary tablet press machines; filling machines for pharmaceuticals; machines for manufacturing toilet paper; machines for manufacturing drinking straws; machines for manufacturing vaporizers; machines for manufacturing packagings for pharmaceutical products; machines for producing cigarettes; machines for producing cigarillos; machines for producing cigars; machines for the commissioning of goods, namely, order-picking machines for warehouses for use in supply chain logistics management; machines for cleaning pharmaceutical containers; machines for processing tissue papers; machines for processing paper; machines for processing tobacco leaves; tobacco mixing machines for commercial use; cross belt sorting conveyors; rack operating machines, namely, stacker cranes for warehouse applications; tobacco cutting machines; paper cutting machines; pulp sifting machines; machines for sorting pharmaceutical products and pharmaceutical packagings, namely, pharmaceutical bottles and containers; machines for sorting tobacco products and parts of tobacco products, namely, tobacco, cigarettes, cigars and cigarette filters; tobacco cutting machines and tobacco processing machines; machine tools for the tobacco industry; machine tools for the packaging industry; machine tools for the paper manufacturing industry; machine tools being conveyors for handling, gripping and conveying goods for supply chain logistics applications; power operated tools; electric motors for machines; motors used in industrial applications; propulsion mechanisms, other than for land vehicles, namely, electric propulsion mechanisms for machines; machine coupling and transmission components (except for land vehicles); machines and components thereof for the tobacco processing and cigarette and cigar industry; machines for the treatment of tobacco; machines for the manufacture of filters for tobacco products; conveyors [machines]; packaging machines; machines for manufacturing paper, including machines for manufacturing cardboard, tissue and non-woven material; automatic machines for thermoforming and processing of plastics; die-cutting machines; die-stamping machines; industrial label printing machines; machines for processing print products namely, machines for folding and stapling paper; stapling presses [other than for surgical or stationery use]; stacking machines, namely cargo handling robots for use in warehouses for stacking goods; flexographic printing machines; 3D printing machines; collating machines for the printing industry; digital printing machines for textile industry; industrial label printing machines; printing machines for printing on packaging; palletizers; palletising robots (machines); electro-chemical discharge machines for metalworking; laser machines for the inspection of pharmaceutical packaging; tool grinding machines; grinding machines for metalworking; sorting machines for tobacco products and cigarette filters.

Class 09

(3) Instruments, namely, measuring instruments for measuring physical parameters on cigarettes, cigars and filter rods, namely, pressure drop testers, measuring devices for automatic determination of filling power and density of cut or expanded tobacco as well as of hardness of cigarettes and filter rods, measuring devices for automatic determination of hardness of cigarettes and filter rods, measuring devices used to test the stability of plain and filter cigarette ends, moisture testers to measure the moisture of individual filter rods, cigarettes and industry manufactured cigars using microwave resonance technique, weighing apparatus for determination of the weight of cigarettes and filter rods, apparatus for measuring the length, shape, diameter, circumference, ovality and aspect ratio of cigarettes, filter rods and parts of cigarettes, apparatus for measuring the ignition propensity of cigarettes, cigars and tobacco products, apparatus for measuring the paper porosity, air permeability and the burn rate of cigarette paper, apparatus for analyzing the smoking puff of tobacco products, and apparatus for measuring the filter ventilation through the tipping paper of cigarettes and cigars; apparatus and instruments for conducting,

switching, transforming, accumulating, regulating or controlling electricity, namely, electricity conduits, electricity generators, electric converters, electric transformers; apparatus for recording, transmission or reproduction of sound or images, namely, cameras; downloadable media, namely computer software user manuals in the form of downloadable electronic publications; downloadable media, namely computer application software for controlling the operation of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing commercial packaging; downloadable media, namely downloadable digital content in the form of electronic publications of newsletters; downloadable media, namely downloadable digital content in the form of electronic publications of brochures; downloadable media, namely downloadable digital content in the form of electronic publications of books; computer software for monitoring and analyzing downtimes, speed losses and the performance of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; computer software for monitoring, controlling and operating machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software to automate data warehousing; computer software for the collection of statistical production data of machines in the field of tissue production, paper and cardboard production, steel production, glass production, tobacco production, production of packaging, food and beverage production and in the field of handling and conveying goods in the production process; computer software for two or three-dimensional simulation for use in design and development of industrial products; computer software for use in controlling and improving computer processing speed; computer software for processing digital images; computer software for database management; computer programs (cad /cam) recorded on software designed for use in construction and automated manufacturing; computer software for use in diagnosis, repair and configuration of computers; computer software for controlling and managing access server applications; computer software for logistics, namely, software for tracking documents, packages and freight and for managing warehouses; computer software for optical character recognition; facilities management software to control building environmental access and security systems; recorded and downloadable computer software used to process voice commands for communication devices, namely, mobile phones, smartphones and tablet computers; recorded and downloadable computer software for searching a user's mobile phone, computer, tablet, or other portable electronic communication devices for documents, files, and other stored information using voice commands; downloadable computer software for mobile phones and mobile devices, namely, cellular phones and tablet computers that allows the user to search the mobile phones, cellular phones and tablet computers' content for information, contacts, and applications; recorded and downloadable computer software for processing electronic payment transactions via wireless networks, global computer networks and mobile telecommunication devices; recorded and downloadable computer software for browsing and accessing digital content, namely, computer software, computer games, audio works, visual works, audiovisual works and electronic publications, all in the form of books, movies, and music; downloadable computer software for providing a personal voice-enabled digital assistant; recorded and downloadable voice recognition software; recorded and downloadable computer software for use in gathering, recording, storing, analyzing and evaluating data relating to tobacco processing and cigarette manufacturing and packaging, namely, production and waste data, machine performance data and production quality data; computer programs, recorded and downloadable, for data evaluation and support for production processes and material logistics relating to tobacco

processing and cigarette manufacturing and packaging; recorded and downloadable computer software for accessing and searching online databases and websites; recorded and downloadable computer software for accessing and searching online databases and websites using image capture; recorded and downloadable image recognition software; recorded and downloadable computer software for facial and object recognition; recorded and downloadable computer software for automating capturing of photos and videos; recorded and downloadable computer software for transferring, recording, capturing, storing, viewing, editing, processing, automatically selecting, and sharing videos and photos; recorded and downloadable computer software for managing, networking, collaborating within and providing remote access to databases; computer programs, recorded and downloadable, for data evaluation and support for production processes and material logistics relating to pharmaceutical manufacturing and pharmaceutical packaging; recorded and downloadable computer software for conducting operational procedures in the nature of business processes and for controlling operating of machines for sorting, manufacturing, packaging and labelling tobacco products; computer programs, recorded and downloadable, for data evaluation and support for production processes and material logistics relating to tissue product and hygiene product manufacturing and packaging; computers; computer peripheral devices, namely computer display monitors, computer scanners, bar code scanners, network routers and wireless routers; electronic publications namely, books, magazines and manuals featuring information in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging recorded on computer media; electronic databases in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics, pharmaceutical production and packaging and machine data recorded on computer media; testers for measuring the temperature, pressure, position and form of workpieces in a machine tool; ultrasonic sensors; temperature sensors; pressure sensors; acceleration sensors; motion sensors; LED position sensors; motion recognizing sensors; optical position sensors; sensors for determining position; sensors for determining velocity; time-of-flight sensors; infrared sensors; capacitance sensors; conductivity sensors; pressure sensors; heat sensors; humidity sensors; speed sensors; brightness sensors; magnetic field sensors; hall sensors; optical control apparatus, namely, optical sensors; metal detectors; lasers for bar code readers; lasers for surveying; lasers for use in industrial cutting applications; electric apparatus for electricity commutation, namely, electricity distribution consoles and control cabinets; electrical and electronic control systems for controlling machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing commercial packaging; digital thermometers, not for medical purposes; camcorders; step counters; revolution counters; particle counters for measuring air quality; measuring apparatus, namely, lasers for measuring tobacco and cigarette filters; chips, namely, integrated circuits for controlling industrial manufacturing machines.

Class 11

(4) Devices and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating and water supply as well as sanitary purposes, namely, LED lamps, LED work lights, light bulbs, light panels, lighting apparatus, especially electric lamps and luminaires, tobacco drying machines.

Class 12

(5) Vehicles, namely automated guided vehicles and rail guided vehicles for use in supply chain logistics and transportation logistics, forklift trucks, aircraft, automobiles, bicycles, motorcycles, rolling stock for railways.

Class 16

(6) Paper; cardboard; printed matter, namely, books, magazines and manuals featuring information in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; bookbinding material; photographs [printed]; paintbrushes; instructional and teaching materials, namely, printed educational materials, manuals, and books in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; foils and bags of plastic for wrapping and packaging; printing fonts; printing blocks.

Class 20

(7) Furniture, namely storage racks, furniture shelves and moveable metal storage racks; picture frames; containers, not of metal, for storage; bone, horn, whalebone and mother-of-pearl, unworked or semi-worked.

Services

Class 35

(1) Business management; business administration; retail store services, wholesale store services, mail order services, online retail store services, online wholesale store services and online mail order services featuring computer software for the controlling and monitoring of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, computer software for industrial applications in the field of pharmaceutical and biotech industries, machines for producing pharmaceuticals and pharmaceutical packaging as well as inspection machines for use in the pharmaceutical business, pharmaceutical packaging, computer software, computer hardware, machines, conveyors and robotic solutions for industrial applications in the field of supply chain logistics, automated guided vehicles, rail guided vehicles and forklift trucks for supply chain logistics and transportation logistics, machines for producing and processing tissue products and hygienic paper products, machines, measuring devices, computer

software and hardware for the tobacco industry; business consultancy and advisory services in the field of logistics, supply chain, product packaging, production systems and distribution systems; data processing services in the fields of supply chain logistics, inventory management and control, producing pharmaceuticals and pharmaceutical packagings, control of machines for the tobacco industry and paper making industry; business project management, also in the field of IT; business organization consultancy; business organization consultancy with regard to production planning for third parties.

Class 37

(2) Building construction; installation and repair of machines for humidifying tobacco and tobacco products, filling machines, machines for handling material to be conveyed, machines for the pharmaceutical industry, machines for applying codes on pharmaceutical products and pharmaceutical packaging, machines for processing of filtering materials for tobacco products, machines for picking up goods, machines for loading and unloading goods, machines for filling cartridges for electronic smoking equipment, machines for inserting prospectuses in packagings, machines for depalletising goods, product labelling machines, machines for gripping goods, machines for lifting goods, machines for palletising goods, machines for sorting pharmaceutical products and in particular for sorting tablets, dragees and capsules, machines for transporting pharmaceutical products, pharmaceutical containers and packagings, machines for transporting goods, machines for filling electronic cigarettes, machines for the labelling and printing of containers and packaging, machines for manufacturing and filling inhalers and/or components thereof, machines for manufacturing and filling smokers' articles, machines for manufacturing electronic cigarettes and parts thereof, machines for manufacturing tissue paper products, machines for manufacturing paper products, machines for manufacturing pharmaceutical products, machines for manufacturing toilet paper, machines for manufacturing drinking straws, machines for manufacturing vaporizers, machines for manufacturing packaging for pharmaceutical products, machines for producing cigarettes, machines for producing cigarillos, machines for producing cigars, machines for the commissioning of goods, machines for cleaning pharmaceutical containers, machines for processing tissue papers, machines for processing paper, machines for processing tobacco leaves, mixing machines, cross belt sorter machines, rack operating machines, cutting machines, sifting machines, sorting machines, tobacco cutting machines, tobacco processing machines and external and internal thread grinding machines, banding machines, belt conveyors, pneumatic transporters, conveyor belts, conveying chains, conveyors, transporters, bobbin splicing and changeover machines, printing machines, plunge grinding machines, electric discharge machines, filter attachment machines, staplers, machines for manufacturing hygiene products and hygienic paper products, machines for manufacturing paper, machines for manufacturing paper goods, high-speed grinding machines, power operated tools, machine coupling and transmission components, agricultural implements, laser machines, mechanical conveyor belts for loading machines with goods and articles for further processing, mechanical tray fillers and dischargers, machines for the graphics industry, machines and installations consisting thereof for treating and processing tobacco, machines and mechanical apparatus for processing cardboard, tissue or plastic, machines and mechanical apparatus for manufacturing and/or processing flat material cuts, folded box cuts, envelopes, mailing bags, labels, sanitary articles, tissue articles and household cloths, machines and machines parts for the food, paper, cardboard and hygienic goods processing industries, machines and machines parts for the tobacco processing, cigarette and cigar industries, machines for manufacturing packaging materials, machines for arranging and aligning packaged goods, machines for manufacturing filters for tobacco products, machines for processing print products, material roll replacement devices, engines, palletising robots, palletising machines, polygon grinding machines, embossing

machines, production grinding machines, groove grinding machines, grinding machines, laser machining machines, sorting machines for tobacco products and cigarette filters, stamping presses, stacking machines, propulsion mechanisms, vehicles for use on land, universal cylindrical grinding machines, vending machines, packaging machines, roll grinding machines, machine tools, tool grinding machines, instruments, namely, measuring instruments for measuring physical parameters on cigarettes, cigars and filter rods, namely, pressure drop testers, measuring devices for automatic determination of filling power and density of cut or expanded tobacco as well as of hardness of cigarettes and filter rods, measuring devices for automatic determination of hardness of cigarettes and filter rods, measuring devices used to test the stability of plain and filter cigarette ends, moisture testers to measure the moisture of individual filter rods, cigarettes and industry manufactured cigars using microwave resonance technique, weighing scales for determination of the weight of cigarettes and filter rods, apparatus for measuring the length, shape, diameter, circumference, ovality and aspect ratio of cigarettes, filter rods and parts of cigarettes, apparatus for measuring the ignition propensity of cigarettes, cigars and tobacco products, apparatus for measuring the paper porosity, air permeability and the burn rate of cigarette paper, analyzers for analyzing the smoking puff of tobacco products, and apparatus for measuring the filter ventilation through the tipping paper of cigarettes and cigars, material testing and measuring instruments and machines, namely, testers for measuring the temperature, pressure, position and form of workpieces in a machine tool, ultrasonic sensors, temperature sensors, pressure sensors, acceleration sensors, motion sensors, LED position sensors, motion recognizing sensors, optical position sensors, sensors for determining position, sensors for determining velocity, time-of-flight sensors, infrared sensors, capacitance sensors, conductivity sensors, pressure sensors, heat sensors, humidity sensors, speed sensors, brightness sensors, magnetic field sensors, hall sensors, optical control apparatus, namely, optical sensors, lasers for bar code readers, lasers for surveying, lasers for use in industrial cutting applications, electric apparatus for electricity commutation, namely, electricity distribution consoles and control cabinets, control panels and control cabinets for machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, electrical and electronic control systems for controlling machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, measuring instruments and apparatus, temperature gauges, thermometers, camcorders, counters, measuring and sorting instruments for tobacco products and cigarette filters, chips [integrated circuits], LED lamps; LED work lights; light bulbs; light panels; lighting apparatus, especially electric lamps and luminaires; tobacco drying machines, vehicles, vehicles, namely automated guided vehicles and rail guided vehicles for use in supply chain logistics and transportation logistics, forklift trucks, aircraft, automobiles, bicycles, motorcycles, rolling stock for railways, furniture, namely storage racks, furniture shelves and moveable metal storage racks, containers for storage or transport as well as industrial robots for appliances relating to the movement and transport of goods.

Class 41

(3) Educational services, namely, conducting education programs in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the

paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; training in the use and operation of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; cultural activities in the form of exhibitions in the field of industrial machinery; training services in the field of tobacco production, packaging, labelling, manufacturing and processing; arranging and conducting seminars, workshops and educational conferences in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; electronic publishing services, namely, on-line publication of text and graphic works of others featuring information in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging recorded on computer media.

Class 42

(4) Scientific and technological services namely, research and design in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; industrial analysis services consisting of testing, analysis, and evaluation of the goods of others to assure compliance with industry standards; industrial research in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; providing quality control for the tobacco industry; providing quality control for the packaging industry; providing quality control for the paper making industry; providing quality control for the supply chain logistics industry; providing authentication services, namely, quality certification in the field of pharmaceuticals; design and development of computer hardware and

software; engineering services, namely, mechanical engineering; information technology [IT] engineering, namely computer software engineering and computer hardware engineering; technical research projects and studies in the field of tobacco production and packaging, tissue and hygienic paper production and packaging, supply chain logistics software, computer hardware and machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, supply chain logistics, production of pharmaceuticals and pharmaceutical packaging, and software for controlling and diagnosing performance problems of machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging; design, development and servicing of computer software; advisory services relating to computer programming; writing of data processing programs; engineering surveying services; mechanical research; technical engineering project planning, products development and technological consultancy in the fields of new pharmaceutical packagings, tobacco products, internal supply chain logistics and paper making; updating, rental and servicing of computer software; software as a service (SAAS) services, namely, hosting software for use by others for controlling industrial processes and for processing and visualization of corporate data in the field of control technology, automation technology, drive technology, logistics facilities, material management, warehouse management, transport management, storing position management and the flow of goods, for controlling industrial processes and for processing and visualization of corporate data in the field of logistics facilities, material management, warehouse management, transport management, storing position management and the flow of goods, to process voice commands for communication devices, namely, mobile phones, smartphones and tablet computers, for providing a personal voice-enabled digital assistant, for voice recognition software, for use in gathering, recording, storing, analyzing and evaluating data relating to tobacco processing and cigarette manufacturing and packaging, namely, production and waste data, machine performance data and production quality data, computer programs, for data evaluation and support for production processes and material logistics relating to tobacco processing and cigarette manufacturing and packaging, for controlling, regulating, optimizing and diagnosing machines in the tobacco industry, the tissue manufacturing industry, the paper and cardboard industry, the steel industry, the food and beverage industry, the glass industry and the industry for producing packaging, for controlling industrial processes and for processing and visualization of corporate data in the field of control technology, automation technology, drive technology, for accessing and searching online databases and websites, for searching a user's mobile phone, computer, tablet, or other portable electronic communication devices for documents, files, and other stored information using voice commands, for mobile phones and mobile devices, namely, cellular phones and tablet computers that allows the user to search the mobile phones, cellular phones and tablet computers' content for information, contacts, and applications, for accessing and searching online databases and websites using image capture, for optical character recognition usage, for facilitating electronic commercial transactions via wireless networks, global computer networks and mobile telecommunication devices, for facial and object recognition, for automating capturing of photos and videos, for transferring, recording, capturing, storing, viewing, editing, processing, automatically selecting, and sharing videos and photos for browsing and accessing digital content, namely, computer software, computer games, audio works, visual works, audiovisual works and electronic publications, all in the form of books, movies, and music, for managing, networking, collaborating within and providing remote access to databases, computer programs, for data evaluation and support for production processes and material logistics relating to pharmaceutical manufacturing and pharmaceutical packaging, for conducting operational procedures in the nature of business processes and for controlling operating and production

equipment, and computer programs, and for data evaluation and support for production processes and material logistics relating to tissue product and hygiene product manufacturing and packaging; rental of computers, computer software and web servers; server administration for computer software-based systems for others; technical consultation services in the field of packaging technology and packaging design; services of a packaging designer; quality control of pharmaceutical products; conducting medical studies for pharmaceuticals; development of pharmaceutical preparations and medicines; research on the subject of pharmaceuticals; technological consultancy in the field of the packaging of pharmaceutical products.

Colour is claimed as a feature of the trademark. Blue and green. A blue star and a curvy blue line through a green heart.

Goods

Class 01

(1) Chemical and biochemical products for biotechnological purposes, namely, chemical and biochemical substances for molecular biological use, namely, for use in the isolation, purification, modification and extraction of DNA and RNA, and rRNA depletion kits containing buffers and chemical reagents for molecular biological use; chemical reagents for scientific purposes for purifying and analyzing samples for use in the fields of molecular biology, chemistry, biochemistry, drug discovery, pharmacology, toxicology, molecular pathology, disease research, genomics and proteomics; chemical, biochemical and biotechnological substances for industrial and scientific purposes, namely, polypeptides and proteins for use in connection with molecular biological applications for DNA (deoxyribonucleic acid) treatment, RNA (ribonucleic acid) treatment and protein treatment; chemical, biochemical and biotechnological preparations for diagnostic and

scientific purposes, laboratory reagents for scientific use and diagnostic reagents for clinical or medical laboratory use, all the aforesaid goods, in particular for the treatment and purification of samples of human, animal and plant cells and tissues and samples of microorganisms and of extracts therefrom for industrial and scientific purposes; diagnostic reagents for in vitro use in clinical chemistry; enzymes, other than for medical and veterinary purposes, namely, for use in test kits for laboratory research and for use in carrying out DNA labeling, DNA replication, DNA analysis or RNA labeling, RNA replication, RNA analysis and for enzyme preparations for RNA treatment.

Class 05

(2) Veterinary products, namely, veterinary diagnostic reagents; pharmaceutical preparations, namely, nucleic acid sequences and proteins used for medical and veterinary purposes, for use in determining genotypes, profiling biopolymer, detecting disease, determining disease progression, and determining responses to drugs; diagnostic reagents for medical use in diagnosing inflammation, infection, central nervous system diseases, cardiovascular, neurological, endocrine, autoimmune and genetic diseases, and cancer, comprised of reagents, processing chemicals and nucleic acid molecules; medical diagnostic test kits composed of medical diagnostic reagents for the detection of pathogens in the environment; clinical and diagnostic reagents and preparations for medical and veterinary purposes; medical diagnostic test kits composed of medical diagnostic reagents to identify, quantify and analyze dna and rna; reagents and enzymes for performing dna or rna analyzes for medical purposes.

Class 09

(3) Scientific apparatus, instruments and devices, namely, magnetic cell separators and single cell handling devices for research and diagnostic purposes; software, namely, software for data analysis in the field of RNA and DNA analysis, namely, for Next Generation Sequencing data analysis, software for the analysis of bioinformatic data, sequence data on fragmented sequence information, for pcr analysis and for next generation sequencing; chromatographic columns for scientific or laboratory use; all the aforesaid goods for industrial and scientific purposes, in particular for molecular biological purposes for DNA (deoxyribonucleic acid) treatment, RNA (ribonucleic acid) treatment and protein treatment or for the purification of these molecules, and for reagent kits for industrial and scientific purposes, in particular for DNA (deoxyribonucleic acid) treatment, RNA (ribonucleic acid) treatment and protein treatment or purification of these molecules; laboratory equipment, in particular automated microfluidic and macrofluidic devices, namely, magnetic cell separators and single cell handling devices for the isolation, preparation, marking, replication or screening of genetic material or RNA or proteins.

Services

Class 42

Scientific research and development, namely, in the field of molecular biology, genetics and diseases research, development and diagnostics; product and computer software design services in the field of molecular biology, genetics and diseases research, development and diagnostics; scientific and technological services, namely scientific analysis in the field of research, development and diagnostics relating to genomics, transcriptomics, proteomics and genetic engineering; design of pharmaceutical and medical diagnostic products and biochemical and biotechnological preparations relating to genomics, transcriptomics, proteomics and genetic engineering; scientific and technological services, namely scientific research, development, diagnostics and analysis in the field of diagnostic chemicals and reagents, sorting of nucleotides, separation processes and purification processes, chemical screening analyzes and conducting diagnostic, forensic and genetic-medical tests for others; scientific research and development for

others in the field of diagnostic chemical agents and reagents for use as diagnostic, therapeutic preparations and chemical screening and diagnostics for others; conducting quality control tests and quality control of scientific analyzes relating to nucleic acids; scientific analyzes in relation to nucleic acids, in particular for detection purposes; scientific and technological services, in particular scientific and technological services for the treatment of nucleic acids and proteins, in particular separation, purification, isolation, labeling and amplification of the aforesaid molecules; development of computer software for data analysis for the analysis of bioinformatic data, sequence data and fragmented sequence information, and development of software for pcr analysis and next generation sequencing; scientific analyzes of bioinformatic data, sequence data and fragmented sequence information, especially in the context of next generation sequencing.

Trademark Types

Design
Position

Visual Representation

Trademark Description

The trademark is a two-dimensional design which consists of, the colour orange applied to the whole capsule design and, on one end, a design of two round tablets arranged one adjacent to the other, half in white and half in orange, superimposed over a white capsule and, on the other end, the number 82 in white, as shown in the visual representation of the trademark. The capsule shape shown in dashed lines does not form part of the trademark but is included merely to show the positioning of the trademark.

Colour Claim

Colour is claimed as a feature of the trademark. The color orange is applied to the whole capsule design. The design element consisting of two round tablets arranged one adjacent to the other, is half in white and half in orange, and superimposed over a white capsule. The number 82 is in white.

Goods

Class 05

Pharmaceutical preparations and substances for the prevention and treatment of bone, cardiovascular, hematological, hepatological, immunological, gastrointestinal, musculoskeletal, nephrological, oncological, ophthalmic, pulmonary, renal, respiratory, and urological diseases and disorders; Pharmaceutical preparations for the treatment of central nervous system [CNS] diseases; Pharmaceutical preparations for the prevention and treatment of dermatological

diseases and disorders, namely bacterial skin infections, fungal skin infections, viral skin infections, parasitic skin infections, psoriasis, eczema, and dermatitis; Pharmaceutical preparations and substances for the prevention and treatment of diseases and disorders of the endocrine system, namely, glucagonoma, growth and thyroid disorders, diabetes, metabolic syndrome, obesity, weight loss and weight management; Pharmaceutical preparations and substances for the prevention and treatment of genitourinary diseases and disorders, namely, infertility, sexually transmitted diseases, inflammatory pelvic diseases; Pharmaceutical preparations and substances for the prevention and treatment of gynecological diseases and disorders, namely amenorrhoea, dysmenorrhoea and diseases and disorders relating to sexual reproduction and fertility; Pharmaceutical preparations and substances for the prevention and treatment of metabolic diseases and disorders, namely, diabetes, obesity, hyperlipidemia, insulin resistance, metabolic syndrome, hypoglycaemia, gout, osteoarthritis, muscular dystrophy, anemia, arthritis, obesity and hypothyroidism; Pharmaceutical preparations and substances for the prevention and treatment of neurological diseases and disorders, namely, schizophrenia pain, neuropathic pain; Pharmaceutical preparations and substances for the prevention and treatment of psychiatric diseases and disorders, namely, mood disorders, anxiety disorders, cognitive disorders, schizophrenia, psychoses and bipolar disorders; Pharmaceutical preparations and substances for the prevention and treatment of Respiratory Syncytial Virus (RSV); Pharmaceutical preparations substances for the prevention and treatment of autoimmune diseases, asthma, cancer and tumors, chronic cough, diabetes, hypertension, insomnia, intestinal infections, skin disorders, namely, dermatitis, skin pigmentation diseases, psoriasis, acne, rosacea, ichthyosis, urticaria and urinary incontinence; Pharmaceutical preparations, namely, anti-bacterials, antibiotics, anti-fungals, anti-infectives, anti-inflammatories, anti-parasitics, and antivirals; Human vaccine preparations; Inhaled pharmaceutical preparations for the prevention and treatment of cardiovascular diseases and disorders

CERTIFICATION MARK DETAILS

Tidal Bay

Trademark Type

Standard Characters

Certification Mark Standard

1. The licensee shall hold a licence issued by the Winery Association of Nova Scotia (WANS); 2. The licensee must be accepted by the Government of Nova Scotia as a "farm winery" or a "small farm winery"; 3. The licensee must produce the wine entirely from grapes grown within the Province of Nova Scotia; 4. The licensee must ferment and blend the wine entirely within the Province of Nova Scotia; 5. The licensee must prepare the wine for bottling and bottle the wine entirely within the Province of Nova Scotia; 6. 4.0 tonnes/acre is the maximum yield of the vineyard from which the grapes are grown, unless exempted by the Board of WANS, on the recommendation of the Technical Committee of WANS; 7. Pressing of the grapes must only be done with a membrane, wedge or basket press (vertical or horizontal permitted); 8. Cool fermentation is required; 9. Chaptalization is permitted only to result in a maximum 2.0% increase in alcoholic content of the wine, but a licensee must not otherwise fortify the wine alcoholically; 10. The wine will be vinified in containers constructed of stainless steel or other inert material, provided that a licensee may use not more than 20.0% new oak barriques for fermentation or storage; 11. The final alcoholic content of the bottled wine shall be not less than 9.0% and not more than 11.0% and shall be disclosed on the principal label of the bottle; 12. The total acidity of the wine, when bottled, must not be less than 7.5 g/L, measured as tartaric. No acidic additions are permitted; 13. The sugar content of the wine, when bottled, must be 20 g/L or less than 20 g/L, however, a wine bottled with high acidity may exceed the maximum sugar content, provided that the sugar content does not exceed twice the total acidity of the wine, measured as tartaric; 14. When pressed, the Brix level of grapes transferred to the fermentation vessel shall not be less than 14.0 Brix, provided that when a licensee elects to achieve a balance between sweetness and acidity naturally, such licensee may be exempted from such minimum by the Sensory Evaluation Panel; 15. The turbidity of the wine, when bottled, must be 5 NTU or less than 5 NTU, however, this requirement shall not apply to wine which is labelled "with lees"; 16. Notwithstanding s. 15, the turbidity of wine which is labelled "unfiltered", when bottled, must be 20 NTU or less than 20 NTU; 17. The wine, when bottled, must be a vintage wine, dated to its harvest year, which date shall be disclosed on the principal label of the bottle; 18. Each winery is permitted to produce one wine only which is labelled as a "Tidal Bay" wine; 19. For bottling in glass, the wine must be bottled in the bottle style which is commonly known as "Bordeaux" and in the glass colour which is commonly known as "flint"; 20. The wine must be

bottled in glass, aluminum cans or kegs. The kegs are for winery use only and cannot be sold by the licensee or any third party to a customer;21. With the exception of kegs, the wine must be bottled in one of the following three sizes: 250 ml., 750 ml. or 1500 ml. 22. The words "Tidal Bay" shall be prominently presented on the principal label of the bottle, either capitalized or all in upper case text and shall not be labelled as "Reserve" or any term of similar meaning;23. There shall be no varietal references on the principal label of the bottle; 24. The wine must be approved by the Independent Tasting Panel of WANS as having the taste, character and aroma generally associated with Tidal Bay wines;

Colour Claim

Colour is claimed as a feature of the trademark. The colours white, black, yellow and green are claimed as a feature of the mark. The mark consists of the word STARRY in stylized white letters on a black background. A white diamond design resides within the initial letter S. The words LEMON LIME in black appear underneath the STARRY design. STARRY LEMON LIME resides on a design whereby the top portion is a yellow lemon and the bottom portion is a green lime. Five black dots and one black diamond design appear in the top yellow portion. Four black dots and one diamond design appear in the bottom green portion. A black outline surrounds the entire STARRY LEMON LIME design. Three yellow dots and two diamond designs appear to the left of the yellow lemon portion. Three green dots and two diamond designs appear to the right of the green lime portion.
