# Trademarks Journal

## Vol. 71 No. 3648

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

## TRADEMARK DETAILS

# AMGAS CAPTURE TECHNOLOGY (ACT)

### Trademark Type

Standard Characters

### Goods

#### Class 07

(1) Industrial equipment namely, machines for controlling and removing benzene, toluene, ethylbenzene, and xylenes (BTEX) and Hydrogen Sulfide (H<sub>2</sub>S) emissions from drilling fluids, oil, water, condensates, natural gas and vapor streams; industrial equipment namely, machines for controlling and removing toxic gases and toxic vapors, namely for controlling and removing toxic gases during: tank venting applications, well bleed downs, pig-trap bleed downs, truck loading and unloading and production testing operations

#### Class 11

(2) Industrial equipment namely, gas scrubbers for controlling and removing benzene, toluene, ethylbenzene, and xylenes (BTEX) and Hydrogen Sulfide (H<sub>2</sub>S) emissions from drilling fluids, oil, water, condensates, natural gas and vapor streams; industrial equipment namely, gas scrubbers for controlling and removing toxic gases and toxic vapors, namely for controlling and removing toxic gases during: tank venting applications, well bleed downs, pig-trap bleed downs, truck loading and unloading and production testing operations

### Services

#### Class 35

(1) Retail, wholesale and online sale of industrial equipment namely, machines for controlling and removing benzene, toluene, ethylbenzene and xylenes (BTEX) and Hydrogen sulfide (H<sub>2</sub>S) from drilling fluids, oil, water, condensates, natural gas and vapor streams; retail services by direct solicitation by sales agents in the field of industrial equipment namely, machines for controlling and removing benzene, toluene, ethylbenzene and xylenes (BTEX) and Hydrogen sulfide (H<sub>2</sub>S) from drilling fluids, oil, water, condensates, natural gas and vapor streams; retail, wholesale and online sale of industrial equipment namely, gas scrubbers for controlling and removing benzene, toluene, ethylbenzene and xylenes (BTEX) and Hydrogen sulfide (H<sub>2</sub>S) from drilling fluids, oil, water, condensates, natural gas and vapor streams; retail services by direct solicitation by sales agents in the field of industrial equipment namely, gas scrubbers for controlling and removing benzene, toluene, ethylbenzene and xylenes (BTEX) and Hydrogen sulfide (H<sub>2</sub>S) from drilling fluids, oil,

water, condensates, natural gas and vapor streams; retail wholesale and online sale of fluid and vapor cleaning systems namely, gas scrubbers; retail services by direct solicitation by sales agents in the field of fluid and vapor cleaning systems namely, gas scrubbers

**Class 37**

(2) Repair and maintenance of storage tanks, namely venting and degassing of fluid and gas storage vessels

**Class 39**

(3) Collection of hazardous waste; transportation of hazardous waste

**Class 40**

(4) Rental and leasing of industrial equipment namely, machines for controlling and removing benzene, toluene, ethylbenzene and xylenes (BTEX) and Hydrogen sulfide (H<sub>2</sub>S) from drilling fluids, oil, water, condensates, natural gas and vapor streams; rental and leasing of industrial equipment namely, gas scrubbers for controlling and removing benzene, toluene, ethylbenzene and xylenes (BTEX) and Hydrogen sulfide (H<sub>2</sub>S) from drilling fluids, oil, water, condensates, natural gas and vapor streams; rental and leasing of fluid and vapor cleaning systems namely, gas scrubbers; hazardous waste management namely, destruction of toxic waste; treatment of chemical waste fluid, gas and vapor treatment services; oil and gas well treatment services; treatment of chemical waste; waste gas treatment services; removal of hydrogen sulfide and other toxins from drilling fluids, oil, water, condensates, natural gas and vapor streams

### Goods

#### Class 07

(1) Machine-operated conveying and handling devices, in particular for lifting loads, in particular by vacuum or magnetism; machine-operated lifting devices, in particular lifting devices worn on the body (exoskeletons); machine-operated grippers, in particular for force-fit or form-fit gripping of objects, in particular machine-operated clamping grippers, machine-operated jaw grippers, machine-operated inside grippers, machine-operated needle grippers [machines or parts of machines]; machine-operated grippers for gripping by vacuum; machine-operated suction grippers; machine-operated tube lifters; machine parts, namely, suction grippers having flexible gripping surfaces, in particular having structures provided on the suction side; machine parts, namely, spring-mounted holders for suction grippers; machine parts, namely, covers for suction grippers; machine parts, namely, large-area suction grippers, in particular for large-area gripping of objects, in particular by vacuum; machine-operated handling devices including a plurality of suction grippers; machine parts, namely suction spiders; machine-operated magnetic grippers; machine-operated flow grippers, in particular for gripping by positive pressure, compressed gas, or compressed air; machine-operated clamping devices for fixing workpieces during workpiece machining, in particular by use of vacuum; clamping devices for use with machine tools; vacuum-operated pneumatic components being parts of gripping machines; vacuum-operated pneumatic components being parts of handling machines in the nature of manipulators; machine parts, namely vacuum generators; pumps and compressors as parts of machines, motors and engines; fans for machine engines; compressors for vacuum generation, in particular turbocompressors; machine parts being suction jet pumps, in particular pneumatically driven suction jet pumps; diaphragm pump machines; ball joints as parts of machines and installations; machine parts, namely flange connections for pipes; machine parts, namely pneumatic valves, solenoid valves, suction valves, non-return valves, manually actuated valves, valves operated by pressure changes, manual slide valves, flow valves; flow orifice plates, throttles for flowing fluids [machine parts]; machine parts, namely, pneumatically operated pressure switches, pneumatically operated vacuum switches, check valves, pressure reducers, cocks being valves of metal, force-operated valves, motor-operated valves, ball valves, valve diaphragms, rotary inlets, vacuum filters for machines, pneumatic distributors, bellows, vacuum seals; aprons for machines [machine parts]; motors and engines used in industrial applications; vacuum pumps and blowers; electric motors for

machines, electrical drives for machines; hooks, crane hooks as parts of machine-operated lifting apparatus; cranes, in particular slewing cranes, column-mounted slewing cranes, wall-mounted slewing cranes, overhead travelling cranes; stationary and mobile cranes; gantry cranes [cranes], in particular gantry cranes; machine-driven hoists, in particular wire rope hoists, chain hoists, belt drives; separators for liquids, water separators; transport belts, in particular telescoping transport belts, in particular for loading and reloading luggage; handles as parts of mechanically operated tools.

### **Class 08**

(2) Hand-operated conveying devices [conveyors]; hand-operated handling devices, in particular for lifting loads; hand-operated lifting devices, in particular lifting devices worn on the body (exoskeletons); hand-operated tube lifters and suction grippers; hand-operated hoists, in particular wire rope hoists, chain hoists; hand-operated grippers, in particular for force-fit or form-fit gripping of objects, in particular hand-operated clamping grippers, hand-operated jaw grippers, hand-operated inside grippers, hand-operated needle grippers, hand-operated box grippers; hand-operated magnetic grippers; hand-operated flow grippers; hand-operated vacuum grippers; hand-operated tools, namely, tensioners, in particular for fixing workpieces during workpiece processing.

### **Class 09**

(3) Measurement, detection, and monitoring instruments, devices, and controllers, namely for measuring, detecting and monitoring pressure, electric power and gas flow; manometers; electronic controllers for use with vacuum generators; sensors and detectors, in particular for measuring pressure and vacuum; sensors and detectors, in particular for measuring vacuum; sensors and detectors, in particular for measuring pressure; sensors, in particular optical sensors, in particular for object detection or object tracking; sensors and detectors, in particular for monitoring contact with objects; sensor gloves, in particular for motion detection or force detection; electrical pressure switches, electrical vacuum switches; electrical switches, in particular circuit breakers; electrical valve controllers; electric fuel cells and batteries, in particular redox flow batteries, in particular as an arrangement of a plurality of fuel cells or batteries, in particular for use as stationary fuel cells and batteries; electrodes for fuel cells; frames, housings, diaphragms, felts, bipolar plates for batteries; electronic controllers for batteries, in particular for controlling and monitoring of the batteries; mobile electric fuel cells and batteries, in particular as an arrangement of a plurality of fuel cells or batteries; vacuum accumulators, in particular for providing a temporary vacuum supply; solenoid valves; electronic control and regulation apparatus for conveyors, for handling devices, for lifting devices, for machine-operated or hand-operated grippers such as suction grippers, magnetic grippers, or clamping grippers, for tube lifters, for clamping devices for fixing workpieces, for vacuum generators and for ejectors (suction jet pumps), for fuel cells and batteries, the aforementioned electronic control and regulation apparatus also as remote controls; electronic control and regulation apparatus for vacuum generators and ejectors (suction jet pumps), in particular remote controls for the aforementioned devices; image recognition software; downloadable and recorded educational software containing topics of information relating to automation technology, manufacturing technology and handling technology; downloadable and recorded computer software for maintenance of automation technology, manufacturing technology and handling technology; downloadable and recorded computer software for evaluating image or video material, in particular for object recognition; downloadable and recorded computer software for logistics management in the field of purchase order processing and shipping; downloadable and recorded computer software for managing lease objects; downloadable and recorded computer software for managing rental objects.

### **Services**

**Class 35**

(1) Procuring of contracts for the purchase and sale of goods or for the provision of services; procuring of contracts for the purchase and sale of goods or for the provision of services via an electronic trading platform on the Internet; online marketing consulting in the field of automation industry, manufacturing industry and handling industry including online marketing consulting relating to automation technology, manufacturing technology and handling technology; data entry and data processing consultancy in the field of automation industry, manufacturing industry and handling industry including data entry and data processing consultancy relating to automation technology, manufacturing technology and handling technology; collection and systemization of business data into computer databases business appraisals and evaluations in business matters; business management consulting with relation to strategy, marketing, production, personnel and retail sale matters; business consultation in the field of marketing communication.

**Class 37**

(2) Installation of conveying devices, handling devices, lifting devices, machine- or hand-operated grippers such as suction grippers, magnetic grippers, or clamping grippers, tube lifters, clamping devices for fixing workpieces during workpiece machining, vacuum generators, and ejectors (suction jet pumps), fuel cells and batteries; repair of conveying devices, handling devices, lifting devices, machine- or hand-operated grippers such as suction grippers, magnetic grippers, or clamping grippers, tube lifters, clamping devices for fixing workpieces during workpiece machining, vacuum generators, and ejectors (suction jet pumps), fuel cells and batteries; maintenance of conveying devices, handling devices, lifting devices, machine- or hand-operated grippers such as suction grippers, magnetic grippers, or clamping grippers, tube lifters, clamping devices for fixing workpieces during workpiece machining, vacuum generators, and ejectors (suction jet pumps), fuel cells and batteries, the aforementioned repair services also as preventative maintenance.

#### Class 01

(1) Active chemical ingredients for use in the manufacture of pharmaceuticals; agricultural chemicals, except fungicides, herbicides, insecticides and parasiticides; adjuvants for use with agricultural chemicals; catalysts for use in the manufacture of industrial chemicals; chemical additives for compost; chemical additives for detergents; chemical additives for fertilizers; chemical additives for use in the manufacture and preservation of animal foodstuffs; chemical additives for use in the manufacture of animal foodstuffs; chemical additives for use in the manufacture of food; chemical additives for use in the manufacture of medicines; chemical additives for use in the manufacture of pharmaceuticals; chemical additives for use in the preparation of animal foodstuffs; chemical fertilizers; chemical intermediates for use in the manufacture of agricultural chemicals; chemical preparations for preserving foodstuffs; chemical preparations for use in the production of medicines; chemical preservatives for animal feed; chemical preservatives for food; chemical preservatives for the food industry; chemical substances for preserving foodstuffs; chemical substances for stabilising foodstuffs; chemicals for aquaculture; horticultural chemicals, except fungicides, herbicides, insecticides and parasiticides; amino acids, synthetic peptides and proteins for use in the manufacture of animal foodstuffs; amino acids, synthetic peptides and proteins for use in food manufacture; bacterial preparations for the food industry; bacterial preparations for use in food manufacture; bacterial preparations for use in forestry; bacterial preparations for use in horticulture; chemical preparations and materials for films, photography and printing, namely, chemicals for photographic film processing, photographic films, sensitized photographic films, chemical additives and chemical composition for developing photography, chemical additives for printing inks, chemical compositions for printing photographs; salts for industrial purposes, namely, ammonium salts, halides and halogen acid salts, magnesium salts, nickel salts, sodium chromate, sodium cyanide, sodium gold chloride, salts for colouring metal, salts for galvanic batteries, toning salts for photography, anhydrous sodium hydroxide for industrial purposes, raw salt, rock salt, salts from rare earth metals, organic acid salts, namely, sodium propionate, acetates, citrates, lactates, oxalates, tartrates, stearates, benzoates and formates for use in the manufacture of animal foodstuffs; starches for use in manufacturing and industry, namely, corn and potato starch for industrial purposes, sago palm starch for industrial purposes, starch for manufacturing washing preparations, starch for use in the manufacture of paper, starch for use in the manufacture of

textiles, starch paste for industrial purposes, starch for use in the manufacture of flame retardant foam; industrial detergents, industrial detergents for use in manufacturing processes; putties, filler and pastes for use in the manufacture of flame retardant foam, moulding compounds in the nature of synthetic putty, printing paste fillers for use in the manufacture of printing inks in the printing industry; synthetic resins, unprocessed; unprocessed plastics; unprocessed artificial resins, unprocessed artificial and synthetic resins; chemicals for use in agriculture, horticulture and forestry; fire extinguishing and fire prevention compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; chemical and organic compositions namely, proteins and antioxidants for use in the manufacture of food and beverages; substances for tanning animal skins and hides; adhesives for use in industry, namely, adhesives for the building industry, adhesives for use in the automobile industry, adhesives for use in the construction industry, adhesives for use in the consumer packaging industry, adhesives for use in the furniture industry, adhesives for use in the textile industry, adhesives for use in the manufacture of flame retardant foam; compost, manures, fertilizers; biological preparations for use in industry and science, namely, biological assays and kits for use in fields of biological and diagnostic testing for industrial, scientific and research use; biological microorganisms used in fermentation of silage; biological tissue specimens for use in scientific research; biological tissue, namely, blood, stem cells, umbilical cords and placentas for scientific and medical research use

### **Class 05**

(2) Pharmaceutical and veterinary preparations, namely, antibacterial pharmaceuticals, antidiabetic pharmaceuticals, pharmaceutical astringent, dermatological pharmaceutical preparations for the treatment of bacterial skin infections and for the treatment of dermatitis, skin pigmentation diseases and psoriasis, dermatological pharmaceutical preparations for the treatments of dermatitis, skin pigmentation diseases and psoriasis, pharmaceutical preparations for the treatment of dermatological diseases and disorders namely fungal skin infections, viral skin infections and parasitic skin infections, psoriasis, eczema, and sexually transmitted diseases, pharmaceutical appetite suppressants, pharmaceutical preparations for the treatment of infectious diseases, namely respiratory infections, eye infections; veterinary pharmaceutical preparations for the treatment of infectious diseases in poultry; medical and veterinary preparations, namely, drug delivery agents in the form of polymer-based oral tablets for the continuous release of a wide variety of pharmaceuticals; intestinal disorder medicine for the treatment of intestinal bacteria and parasites; drugs for intestinal diseases for the treatment of intestinal bacteria and parasites in animals; medical and veterinary preparations for the treatment of diarrhea, urinary incontinence, necrotic enteritis, leaky gut (impaired intestinal barrier function), intestinal inflammation (colitis) and a poor immune status; veterinary pharmaceutical preparations for the treatment of infectious diseases, namely, swine dysentery, bacterial enteritis, Bluecomb, pneumonia; amino acids preparations, synthetic peptides and proteins dietary supplements for medical and veterinary purposes; steroids; biological tissue cultures for medical and veterinary purposes; ferments for pharmaceutical purposes, namely, milk ferments for regulating the intestinal environment, milk ferments for maintaining immune function, milk ferments for maintaining brain cognitive function, milk ferments for vitality; brewer's yeast and nutritional starch for use as food supplements for dietetic and pharmaceutical purposes; digestive enzymes used to treat food allergies in pets; digestive enzymes used to treat exocrine pancreatic insufficiency (EPI) for veterinary purposes; digestive enzymes used to treat pancreatic disease for veterinary purposes; digestive enzymes used to treat small intestinal disease for veterinary purposes; bacterial preparations for the medical treatment of gastrointestinal disorders in animals; bacterial preparations for medical and veterinary purposes, namely, probiotic bacteria containing *Bacillus amyloliquefaciens* CECT 5940 for use as a food supplement and animal feed; bacterial preparations for medical use, namely for the

treatment of acne, dermatitis, eczema, carbuncle, cellulitis, rosacea, psoriasis, diaper rash, impetigo, pimples, blisters, mycosis, wounds, urinary tract infection, vaginitis and candidiasis, all of the foregoing containing probiotics; probiotic bacterial formulations for the treatment of gastrointestinal disorders; cultures of bacterial microorganisms for medical and veterinary research; nutritive additive to enhance fungi for purposes of pest management; bacteriological culture mediums; foodstuffs and dietetic substances for medical or veterinary purposes, namely, dietetic beverages for babies adapted for medical purposes, mineral supplements for foodstuffs, non-medical nutritional additives for animal foodstuffs, nutritional supplements for animal foodstuffs, albumen dietary supplements for medical purposes, dietary food supplements in the nature of ready-to-eat protein bars for medical purposes, dietary supplements for animals containing cannabinoids for medicinal purposes, dietary supplements for humans containing cannabinoids for medicinal purposes, dietetic food and substances adapted for medical use for the prevention and treatment of iron deficiency and anaemia in humans, dietetic preparations consisting of vitamins, minerals and trace elements, dietetic sugar for medical purposes, digestive enzymes used to treat pancreatic disease for veterinary purposes, digestive enzymes used to treat small intestinal disease for veterinary purposes, dietary supplements for animals, namely, probiotic bacteria containing *Bacillus amyloliquefaciens* CECT 5940, nutritional supplements for livestock feed; dietary and nutritional supplements for animals for maintaining a healthy digestive system; nutritional supplements for animal feed namely, amino acids, synthetic peptides and proteins; preparations for destroying vermin; fungicides; herbicides

### **Class 31**

(3) Foodstuffs for birds; foodstuffs for pets; foodstuffs for horses; foodstuffs for livestock; foodstuffs for marine animals; animal bedding and animal litter; formula starter feed for calves; animal foodstuffs containing amino acids, peptides and proteins, and mixtures thereof for birds; animal foodstuffs containing amino acids, peptides and proteins, and mixtures thereof for pets; animal foodstuffs containing amino acids, peptides and proteins, and mixtures thereof for horses; animal foodstuffs containing amino acids, peptides and proteins, and mixtures thereof for livestock; animal foodstuffs containing amino acids, peptides and proteins, and mixtures thereof for marine animals; animal feed for livestock; foodstuff, namely pellets, flakes and brine shrimp for use as fish food; yeast for animal consumption

### Goods

#### Class 03

(1) Essential oils for personal use; essential oils for flavoring beverages; essential oils for food flavoring and seasoning; CBD oils for cosmetic purposes; cosmetics; soaps namely beauty and body care soaps; shampoos;

#### Class 05

(2) Nutritional supplements for general health and wellbeing; homeopathic supplements for general health and wellbeing; herbal remedies and supplements for general health and wellbeing; vitamins;

#### Class 09

(3) Computer application software for computers and smart phones, namely, software for health, nutrition, and wellness recommendations and for monitoring nutrient intake;

#### Class 10

(4) Dosage dispenser for medical use

#### Class 11

(5) Water purifying units for domestic use; filters for water purifying devices; parts and fittings for water purifying units for domestic use

#### Class 21

(6) Beverage glassware; table glassware; reusable water bottles sold empty made of plastic and precious metals namely aluminum

#### Class 25

(7) Clothing and apparel namely shirts, hats, shorts, headwear namely caps, hats, visors and toques, sweatshirts;

#### Class 29

(8) Edible oils and fats; fruit oils; powdered oils and fats for food;

#### Class 30

(9) Coffee and tea namely single serving and multiple serving beverage cartridges, containing concentrates and powders for making coffee and tea;

**Class 32**

(10) Fruit juices; vegetable juices; herbal juices; sports drinks; drinking water; flavored water; soft drinks; carbonated drinks; sparkling drinks; concentrates, powders, syrups and preparations used in the preparation of beverages namely soft drinks, juices and flavoured waters; Beverage pods namely single serving and multiple serving beverage cartridges, containing concentrates and powders for making fruit drinks, sports drinks, vitamin enriched drinks in the nature of drinking water with vitamins, flavoured drinks in the nature of fruit-flavoured beverages, flavoured waters, health drinks namely water and juices containing nutritional supplements, health drinks, namely, water containing herbal supplements;

**Services****Class 41**

(1) Education and entertainment services that provide teaching and information in the field of health, nutrition, exercise, diet, and wellness;

**Class 42**

(2) Providing online nondownloadable software for diagnosing and tracking nutrition issues to improve health and performance via a website;

**Class 44**

(3) Providing information relating to health, nutrition, diet, exercise and wellness via a website

**Claims**

### Certification Mark Standard

The purpose of the Certified Manager of Commercial Properties (CMCP) credential is to acknowledge property professionals who have demonstrated competency in key foundational principles in property management and operations. The CMCP certification offers recognition that contributes to career advancement and brings added value to companies when on-boarding new property managers and assessing industry knowledge and career potential. CMCP Eligibility Requirements and Work Experience Requirements: To qualify for the certification exam, CMCP candidates must demonstrate the minimum work experience requirements related to commercial real estate property management. Commercial real estate is defined as properties used exclusively for business purposes but does include residential properties with at least five units. The amount of experience required varies based on education. There are three eligibility pathways: Four-year degree and 1 years' property management experience - Two-year degree and 2 years' property management experience - No degree and 4 years' property management experience Work experience is defined as an average of 30 hours/week or 130 hours/month. Candidates who work 15-29 hours/week can qualify by doubling the number of years to meet the minimum qualifications. For example, if a candidate has a 4-year college degree and works part-time (15-29 hours/week), he or she would need at least two years of work experience. Combinations of full-time and part-time experience will be evaluated on a case-by-case basis.

Design

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The letter 'D' takes the shape of a horseshoe magnet where the two poles of the magnet are black, and red. The remaining portion is white, with a red partial 11-point maple leaf situated at the 'U' section of the magnet. A ball-point pen forming the vertical stroke of the letter 'D' is red with a black rectangle shown on the upper pen body. The letters 'etect' next to the letter 'D' are red. The letters 'amet' next to the letters 'etect' are blue. The phrase 'manufacturer of detectable safety products' is blue.

### Disclaimer

The right to the exclusive use of the eleven point maple leaf is disclaimed apart from the trademark.

### Goods

#### Class 16

Writing pens and writing instruments, pencils, crayons, ball-point pens, paint brushes; paper and paper articles, namely, boxes of paper; stationery, namely, adhesive stickers, adhesive labels, clipboards; printed business forms; printed instructional and teaching materials in the field of food safety for the food industry; plastic pens impregnated with metal particles so they can be metal detectable; pens for writing purposes

### Goods

#### Class 16

(1) Waxed paper; paper and plastic cutlery, dishes and plates; paper bags; paper napkins; paper serviettes; paper towels; coffee filter baskets; coffee filter papers; paper plates and cups; plastic garbage and kitchen bags; plastic wrap

#### Class 29

(2) Baked beans; almond spreads; jams; jellies; jelly powder; antipasto, Caesar, chicken, egg, tuna, turkey and fruit and vegetable salads; frozen and canned meat, beef and pork and prepared meat, beef and pork products namely ham, bacon, bologna, salami, pepperoni, corned beef, pastrami, sausage and wieners; frozen and canned poultry and prepared poultry products; fresh, frozen and canned fish; fruit based snack food; fruit-based snack bars; potato chips; multi-grain snack food chips; canned, marinated and spiced olives; eggs; milk and milk products namely cream, cottage cheese, sour cream, yogurt, eggnog and butter; margarine; marmalades; mayonnaise; meat pies; frankfurters; bottled, tinned and dried fruits; peanut butter; pickles; prepared meat-based, poultry-based, seafood-based, pasta-based and vegetable-based meals; cheese; frozen entrees, namely meatballs; evaporated milk; coffee whiteners; milk products,

namely flavoured milk; raisins; cooking oil; cream cheese; dried soup mixes; soup; snack food nut-based, fruit-based, seafood-based, herb and spice based, vegetable-based bean, cheese and dairy-based dips; hors d'oeuvres; meat; prepared meat; pork; prepared meals consisting of cooked fruits and vegetables; prepared meals consisting of meat and vegetables; tofu, dried meat; bottled, tinned and frozen vegetables; canned pasta dishes; packaged prepared meals consisting primarily of fruits and vegetables; frozen prepared beef and poultry entrees; beef and chicken burgers and nuggets

### **Class 30**

(3) Baking chocolate; baking powder; baking soda; biscuits; bread; soups; soya and flax bars; spaghetti; spaghetti sauce; spices; spring rolls; sugar; sunflower oil; vegetable oil for cooking, syrup namely chocolate syrup, flavouring syrup, maple syrup, pancake syrup, table syrup and topping syrup; taco sauces; taco shells; tarts; tea; tea bags; tomato paste; tomato sauce; vegetable cooking spray; waffles; wheat-based snack bars; whipped topping; chocolate bars; chocolates; ketchup; salad dressing; salsa; sauces, namely barbecue, spaghetti, pasta, hollandaise, seafood, steak, béarnaise, horseradish, cranberry, marinade, tartar, seafood dipping and dessert sauces; sausages; flat bread; flour; honey; hot chocolate mix; ice cream; ice cream cones and cups; frozen ice cream confections; frozen ice cream novelties; frosting mix; frozen pizza; fruit cake; granola bars; granola-based snack bars; gravy; popcorn; noodles; muffins; relish; rice; rice cakes; rice-based snack bars; bread, cinnamon, egg, potato and sausage rolls; pepper; marshmallows; fresh pizza; pasta; pasta sauce; pie filling; pies; pizza mix; pudding; puff pastry appetizers; quiche; macaroni; macaroni and cheese; breakfast cereal; cereal based snack bars; cereal based snack food; candies; fresh and frozen pasta dishes; cocoa; coffee; dessert topping mix; desserts, namely sorbet, shortbread, puddings, cakes, pastries and crisps; cookies; crackers; desserts, namely sorbet; frozen waffles; frozen pasta dishes; fresh pasta; prepared pasta; frozen mashed potatoes; frozen pizza; buns; cake mix; cakes; pancake mix; crab meat; crackers; croutons; curry dip; ketchup, mustard; chutney, soy bean paste, ketchup, mustard, relish condiments; noodle based prepared meals; vinegar, dough, frozen desserts and dessert mixes, sugar and frozen dairy confectionery, candies, couscous, seasonings, all-purpose flour; buckwheat flour; corn meal; wheat flour; wheat germ for human consumption; rolled oats and wheat; egg rolls

### **Class 31**

(4) Fresh fruit and vegetables; fresh nuts; pet food; bird food, flaxseed for animal consumption; unprocessed grains for eating; wheat; oats; fresh fruits; combinations of fruit and nuts in bar form

### **Class 32**

(5) Non-alcoholic beer; beer; beverages, namely water, mineral water, spring water, soy-based drinks, sodas, pops, fruit juices, vegetable juices, non-alcoholic fruit sodas, carbonated and non-carbonated soft drinks, vegetable juices, non-alcoholic fruit beverages, juice concentrates, fruit drinks namely non-carbonated fruit-flavoured drinks, non-alcoholic vegetable beverages, and concentrates for making such beverages; fruit juices; carbonated and non-carbonated soft drinks; spring water; fruit drinks, namely non-carbonated fruit flavoured drinks

### **Services**

#### **Class 35**

(1) Operation of grocery stores and supermarkets; retail grocery store and supermarket services; administration of consumer loyalty programs; computerized, on-line ordering services in the field of food, groceries and supermarkets; computerized online ordering featuring groceries; online

grocery and supermarket retail services; online sales of groceries; Providing information in the field of groceries, the online ordering of groceries, grocery delivery, customer loyalty programs, and food products from a website

**Class 38**

(2) Providing access to an online community for registered users to participate in discussions and form virtual communities to engage in social networking services in the field of groceries, grocery delivery, online ordering of groceries via a website

**Class 39**

(3) Delivery of food by grocery stores and supermarkets

#### Class 09

(1) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely digital cameras, video cameras, beacons for signalling, cones for signalling, optical amplifiers, bathroom scales, scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking, life-saving and teaching apparatus and instruments, namely electrical generators, voltage regulators for electrical energy, current transformers, electrical voltage transformers, electrical power distribution blocks, namely power generating and distributing boxes for charging vehicles, electrical connection boxes, electrical circuit closers, inverters for power supply, fuses for power supply panels, electrical wires, electrical coils, electrical accumulators, current converters, current rectifiers, electrical relays, junction boxes, circuit breakers and circuit closers, photovoltaic solar modules, photovoltaic inverters, namely converters of direct current of photovoltaic energy from solar panels to alternating current, photovoltaic solar panels; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely fibre optic cables and lasers, radars, range finders, apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely electrical current transformers, electrical current converters, electrical current inverters, current rectifiers, electrical capacitors, electrical conductors for transformers, electrical panels; apparatus for charging electric accumulators, namely electrical storage batteries,

electrical capacitors, high-voltage battery chargers; scientific, measuring, signalling, checking and supervision apparatus and instruments, namely surveying instruments, scientific, measuring, signalling, checking and supervision apparatus and instruments, namely thermal detectors, fire and smoke detectors, proximity sensors, speed indicators, vehicle counting stations, namely Doppler traffic radar counters, traffic counters with magnetic sensors and vehicle shadow counters, namely traffic counters using vehicle shadow detection, traffic counters using power generation variation, namely phase indicators, tension and current variation indicators, road weather information stations, radiation sensors; electric apparatus and instruments for measuring, monitoring and checking devices for the generation of energy, namely electrical transformers, circuit breakers; electric apparatus and instruments for measuring, monitoring and checking domestic and industrial electrical energy consumption, namely wattmeters, ammeters, thermal power meters and solar power meters; electrical converters; electrical collectors; high-voltage power lines; fuses for power supply panels, fuses for electric current, fuse wires, electrical fuses; electrical control panels; electrical cables and conduits; material for conducting electricity, namely electric cables and wires, feeder cables, extension cables, fibre optic cables; electrical ducts; electricity conduits; switches, namely electric circuit closers and power switches; electrical connectors, namely electrical connection boxes, connecting electrical cables, electrical connectors, namely electrical line connectors; electricity meters; gas meters; heat control instruments, namely thermostats and electricity indicators, namely electricity meters; photovoltaic solar panels (photovoltaic modules); photovoltaic thermal panels for the generation of electricity; apparatus for monitoring domestic and industrial electrical energy consumption and software for use in the field of energy, namely electricity meters and software for monitoring the generation and consumption of domestic and industrial electrical energy.

### **Class 19**

(2) Non-metal building materials and products for the construction, maintenance, covering, rebuilding and renovation of buildings, engineering structures, roads, sidewalks, roadways, public squares and other road and traffic surfaces as well as all public works, namely binders for road maintenance, concrete and asphalt for building, asphalt patching compounds and asphalt paving compositions, paving for trafficable surfaces, namely modules consisting of photovoltaic cells for the generation of photovoltaic energy for use on trafficable surfaces, namely roads, sidewalks, roadways, parking spaces, road and traffic surfaces, cycling paths, pedestrian plazas and footpaths, airport runways and taxiways, docks, and railway tracks; bitumen, asphalt emulsions, bituminous coatings for roofing, bituminous products, namely bituminous coatings for roofs, buildings, engineering structures, roads, sidewalks, roadways, public squares and other road and traffic surfaces, colourable binders made from bitumen, bituminous products and colourable binders made from bitumen, namely bituminous coatings for roofs, buildings, building facades, engineering structures, roads, sidewalks, roadways, parking spaces and road and traffic surfaces; composite binders made from asphalt emulsions and coated for the construction, maintenance, stabilization, rebuilding, and renovation of roads, industrial floors and sports grounds, landing and parking areas, and other similar road and traffic surfaces, highways, sidewalks; cement; lime; mortars; concrete; ready-mixed concrete; concrete for cribbing edging; dry mortar; aggregate, namely rock and glass fragments used in the composition of construction materials for buildings and roads; coatings, facade coatings, ground-smoothing coatings, bituminous coatings and binders for the construction of roads, namely concrete road pavement boards, asphalt for roads, sidewalks, roadways, public squares and other road and traffic surfaces, tar; wall and side coverings, namely photovoltaic wall and side coverings (construction); photovoltaic cladding and

coverings, namely photovoltaic wallboards for construction, and insulation for walls and ceilings, roofs, buildings, building facades; profiles, frames and chassis for construction, namely structural beams made of plastic, PVC, wood.

## **Services**

### **Class 37**

(1) Construction of roofs, buildings, building facades, engineering structures, roads, sidewalks, roadways, parking spaces and road and traffic surfaces; provision of information related to the construction of roofs, buildings, building facades, roads, sidewalks, roadways, parking spaces and road and traffic surfaces; construction advice, namely consulting services for the construction of buildings and roads, advisory services relating to the supervision of building construction, dispensing of advice related to building construction; direction, namely supervision of construction work, supervision of construction; masonry; insulation services, namely insulation services in the field of residential and commercial construction; demolition of buildings; rental of worksite machinery, namely cranes, concrete construction machines, excavators, asphalt mixers and bitumen making machines; installation, maintenance and repair of machines and apparatus for electrical and solar energy distribution, namely electric generators, photovoltaic solar panels, thermoelectric modules and current transformers; installation, maintenance and repair of electric apparatus and installations, namely electric lighting fixtures, electric heating apparatus, air conditioning apparatus, namely air conditioners, electric apparatus, namely electrical converters, electrical transformers, photovoltaic panels, solar panels, wind turbines; construction, maintenance and repair of buildings, engineering structures, roofs, facades, roads, sidewalks, roadways, public squares, roadways and motorways, industrial floors and sports grounds and other similar road and traffic surfaces, namely cycling paths, landing and parking areas, which generate electricity using photovoltaic solar panels; maintenance and provision of installations for generating and distributing photovoltaic electricity and energy, namely electric power plants and plants for generating electricity from solar energy; maintenance and repair of thermal and electrical installations, namely electric power plants, photovoltaic power plants, nuclear, hydroelectric power plants, hydraulic plants, hydraulic, hydroelectric dams, offshore, marine and land wind farms, liquid hydrocarbon pipelines, namely crude and refined oil, hydrocarbon oil, gas pipelines, gas transport pipes, power line installations, oil installations, underwater turbine farms, photovoltaic parks, tidal power plants, geothermal power plants and biomass power plants for biofuel; technical consulting and information related to the installation, maintenance, renovation and repair of material and installations for the generation of energy namely thermal installations, nuclear, hydroelectric, hydraulic power plants, hydraulic, hydroelectric dams, offshore, marine and land wind farms, liquid hydrocarbon pipelines namely crude and refined oil, hydrocarbon oil, gas pipelines, gas transport pipes, power lines, oil installations, underwater turbine farms, photovoltaic parks, tidal power plants, geothermal power plants and biomass power plants for biofuel; supervision of the installation, maintenance, upkeep and repair of apparatus for generating, providing and distributing energy, namely electric generators, photovoltaic solar panels, thermoelectric modules and current transformers; maintenance and renovation of installations for generating photovoltaic, solar, thermal, nuclear and electrical energy, equipment and apparatus in the field of the generation of energy namely electric generators, photovoltaic solar panels, thermoelectric modules and, current transformers; advice for the construction of installations for generating photovoltaic, thermal, solar, nuclear and electrical energy, nuclear power plants, thermal, coal, nuclear, hydraulic, wind, photovoltaic power plants, thermal power plants, hydroelectric power plants, hydraulic plants, hydraulic dams, hydroelectric dams, offshore, marine and land wind farms, laying electric lines, underwater turbine farms, photovoltaic parks, tidal power plants, geothermal power plants and biomass power plants for biofuel.

**Class 39**

(2) Distribution of photovoltaic, thermal, solar, nuclear and electrical energy, public utility services consisting of distribution of photovoltaic, thermal, solar, nuclear and electrical energy.

**Class 40**

(3) Recycling of waste and trash; the generation of photovoltaic, thermal, solar, nuclear and electrical energy, gas, heating, nuclear power, thermal power, wind power, hydraulic power, hydroelectric power, underwater turbine power, petroleum, bioenergy, namely photovoltaic, thermal, solar, nuclear and electrical energy, renewable power, namely photovoltaic, thermal, solar, nuclear and electrical energy, biomass energy, namely photovoltaic, thermal, solar, nuclear and electrical energy, geothermal energy, solar energy; air deodorization; air purification; waste water purification; information related to the treatment of materials in the field of energy and waste treatment, namely recycling of waste, decontamination of hazardous materials; rental of installations featuring photovoltaic solar panels and solar collectors for the distribution of energy, electrical installations, namely electrical converters, electrical transformers, wind installations and underwater turbine installations, nuclear installations, energy and electricity generation installations, equipment and apparatus in the field of the generation of energy, namely photovoltaic, thermal, solar, nuclear, electrical energy; professional consulting related to the generation of energy, namely photovoltaic, thermal, solar, nuclear, electrical energy, gas, heating, nuclear energy, thermal energy, wind energy, hydraulic energy, hydroelectric energy, underwater turbine power, petroleum, bioenergy, namely photovoltaic, thermal, solar, nuclear, electrical energy, renewable energy, namely photovoltaic, thermal, solar, nuclear, electrical energy, biomass energy, namely photovoltaic, thermal, solar, nuclear, electrical energy, geothermal energy, solar energy.

#### **Class 05**

(1) dietary supplements for general health and well-being

#### **Class 25**

(2) Clothing, namely: shirts, pants, sweaters, hoodies, hats and toques.

**Application Number** 2,027,864  
**Language of Application** English

**Filing Date** 2020-05-13

## APPLICANT AND AGENT DETAILS

### Applicant

S.C. Johnson & Son, Inc.  
1525 Howe Street  
Racine, WI 53403-2236  
UNITED STATES OF AMERICA

### Agent

BERESKIN & PARR LLP/S.E.N.C.R.L., S.R.L.  
SCOTIA PLAZA, 40 KING STREET WEST,  
40th FLOOR, TORONTO, ONTARIO, M5H3Y2

## TRADEMARK DETAILS

# SC JOHNSON UNE ENTREPRISE FAMILIALE

### Trademark Type

Standard Characters

### Goods

#### Class 01

(1) Chemical spray preparations for stretching shoes; waterproofing chemical compositions for articles of leather; waterproofing chemical compositions for clothing; waterproofing chemicals for leather.

#### Class 02

(2) Dyes, colorants, mordants and inks for use in the manufacture of footwear and articles of leather.

#### Class 03

(3) Air fragrancing preparations; all purpose cleaners; all-purpose cleaning preparations; all-purpose stain removers for household purposes; aromatic essential oils; bleaching preparations for laundry use; carpet cleaning preparations; cleaning preparations for leather; cleaning preparations for suede; cleaning preparations for vinyl; cloths impregnated with a detergent for cleaning; cosmetic oils for the skin; detergents for dishwashing machines; disposable wipes impregnated with cleansing compounds for use on surface areas; dry-cleaning preparations; fabric stain removers; floor finishing preparations; floor polish; floor wax; floor wax removers; furniture wax; furniture wax removers; general use abrasives; glass cleaner; incense; laundry sheets impregnated with detergent; leather preservatives; leather preserving polishes; leather spot removers; liquid chemical drain openers; multi-surface cleaner; non-medicated soaps for personal use; plastic buffing compounds; polish for furniture and flooring; polishes and creams for leather; polishes for leather; polishes for shining shoes; polishing agents for preservation of leather; polishing creams; potpourri; room fragrancing preparations; room perfumes in spray form; scouring solutions; shoe polish and creams; toilet bowl cleaners; varnish-removing preparations.

#### Class 04

(4) Candles; candles containing insect repellent; perfumed candles; wax melts.

#### Class 05

(5) Air deodorants; air deodorizers; air purifying preparations; all purpose disinfectants; antifungals; carpet deodorizers; deodorants for textiles; insect repellents; insecticides; medicated ointments for

relieving itching and redness from insect bites; mosquito repellent coils; towelettes premoistened with insect repellent for use on the body.

**Class 08**

(6) Hand operated glass cleaning tool which holds cleaning pads.

**Class 11**

(7) Air freshener plugs; diffuser plugs for air deodorizers; electric night light to be plugged into wall outlets having a replaceable adhesive insert for catching insects; electric scented candles.

**Class 16**

(8) Adhesive tape for general bonding and repair purposes; garbage bags of plastics for household use; plastic food storage bags for household use; plastic wrap.

**Class 21**

(9) Cleaning and polishing cloths; cooking utensils; household scrubbing brushes; plastic storage containers for household or domestic use; shoe brushes; shoe horns; shoe trees.

**Class 25**

(10) Anti-slip soles; heel inserts; heel pieces for shoes; heel-pieces for stockings; inner soles; non-slip soles; socks; stockings; tights.

**Class 26**

(11) Shoe laces.

**Application Number** 2,027,893  
**Language of Application** English

**Filing Date** 2020-05-13

## APPLICANT AND AGENT DETAILS

### Applicant

#### Class 09

(1) Temperature meters for scientific use; temperature monitors for scientific purposes; data storage devices being blank magnetic disks, blank flash memory cards, secure digital (SD) memory cards, USB cards, tape drives and blank tapes for storage of computer data; blank discs for computers; industrial X-ray apparatus; optical character recognition apparatus; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; clamp meters for measuring electric current; meters for measuring electric current; multimeters for measuring electric current; meters for measuring electrical voltage; meters for measuring voltage; multimeters for measuring electrical voltage; computer operated multimeters for measuring electric current; computer operated electrical measuring instruments for measuring spectral properties of spectral sources; modules comprising electronic, optical, electronic and mechanical components for controlling light sources namely electric lights, infrared lamps, UV lamps, laser and LED lights; lasers for use in industrial printing, bonding, polymerization, etching, welding, engraving, hardening, disinfecting, surface finishing and coating applications; electronic components for integrated circuit cards; laser for use in SLS (selective laser sintering) in 3D-printing, in particular for 3D-printing of metallic powders or polymeric powders; LED driver; processors for ultraviolet lamps, in particularly for controlling of ultraviolet lamps for drying inks, conductive inks and coatings; electric power distribution units comprising of reflecting and refractive optic elements and electric cables; computer hardware and software for monitoring the real-time on-board performance of radiation curing systems for use in industrial and scientific application; computer hardware and software for monitoring the real-time on-board performance of photon delivery systems for use in industrial and scientific application; computer hardware and software for monitoring the real-time on-board performance of radiation in plant cultivation, printing, printing of conductive inks, disinfection processes, and surface finishing applications; photon delivery systems for laboratory use; photon delivery systems for industrial use; measuring apparatus and instruments comprised of laser lamps, flash tubes, arc lamps and gas discharge lamps for use in measuring distance; measuring apparatus and instruments comprised of laser lamps, flash tubes, arc lamps and gas discharge lamps for use in measuring temperature; measuring apparatus and

instruments comprised of laser lamps, flash tubes, arc lamps and gas discharge lamps for use in night-vision goggles; apparatus and instruments for conducting, switching, converting, storing, regulating and controlling electricity in light sources, namely in laser lamps, flash tubes, arc lamps and gas discharge lamps; computer hardware for data processing; optoelectronic modules for controlling special light sources in the fields of printing, welding, marking, bonding and coating; optical lanterns; optical filters and optical reflectors for electric lamps; electric ballasts, in particular for operating, regulating and controlling gas discharge lamps; measurement apparatus, in particular for measuring irradiance, including spectral irradiance, wavelength, intensity or dose, all the aforesaid variables particularly preferably in the field of UV light; measurement apparatus, in particular for determining the change in resistance of a material on irradiation with ultraviolet UV radiation and for detecting a radiation dose; computer hardware and computer network servers for controlling lamps; computer components and parts for UV-lamps, Vis-lamps, LED-lamps; lighting control systems, namely, electrical control systems for lighting systems and lighting ballasts; lighting control systems, namely wireless electrical control systems for lighting systems; computer power supplies; high-voltage power supplies; uninterruptible power supply apparatus; power cables; flashbulbs; flash-bulbs, namely for industrial applications, in particular for material processing, particularly of polymer materials or metal materials; dynamic voltage regulators for electric power; voltage regulators; static voltage regulators; cathodes; infrared detectors; infrared sensors; infrared thermometers; infrared filters for use in photography; infrared cameras; electronic equipment for detection of infrared waves; electrical and electronic components for UV-lamps, Vis-lamps, LED-lamps, IR-lamps and infrared heating systems; super luminescent laser diodes; lasers for additive manufacturing; lasers for bar code readers; lasers for capture microdissection; lasers for compact disc players; lasers for engraving; laser for use in industrial cutting of material; lasers for LIDAR-Systems; lasers for land surveying; lasers for lunar ranging; lasers for photochemistry; lasers for surveying; lasers for use as visual effects; lasers for use in firearm sights; lasers for use in industrial welding applications; lasers for use in industrial cutting applications; lasers to store and retrieve data from CDs and DVDs; military low power infrared lasers; military lasers for directed energy weapons; ultrashort pulse lasers for spectroscopy; laser for use in the production of semiconductors; high intensity pulse lasers for nuclear fusion; laser for use in industrial drilling; super luminescent laser diodes; laser for melting of adhesives; laser for printing applications; laser for bonding of material; laser for polymerization of monomeric and polymeric materials; laser for etching of surface; laser for surface hardening; laser for surface and room air disinfecting; laser for surface finishing; laser for surface coating; laser for laser pointers; lasers for detection of heat source of objects and living objects; lasers for surveying of heat source of objects and living objects; lasers for use in analytical instruments and apparatus, namely in microscopes, spectrometers and thermometers; lasers for use in scientific analytical instruments and apparatus for detection and measuring of physical effects namely surface properties of materials, composition of solid, liquid and gaseous materials, temperature, spectral properties of materials, surveying of chemicals reactions and process parameters in industrial applications; electrical circuits and circuit boards for controlling lamps and photon delivery systems; software for controlling lamps, namely for LED-lamps, IRlamps, lasers; software for tuning lamps, namely for LED-lamps, IR-lamps, lasers; simulation software for use in production and tuning of light sources, namely UV-lamps, Vis-lamps, UV/Vis-lamps, infrared-lamps, LEDlamps, fibre lamps, lasers, flash-lamps, solid state lighting and flash-bulbs; simulation computer software for tuning of light sources for use in the fields of semiconductor production, adhesive applications, welding applications, engraving applications, etching applications, drilling applications, melting applications, polymerization applications, surveying applications, LIDAR-Applications, sanitizing applications; simulation computer software for use in operating lamps; simulation software for measuring of the spectrum of lamps, in particular emission spectrum of lamps, in particular the emission spectrum of

lamps for industrial purposes, such as for disinfecting purposes, drying, welding, cutting, drilling and marking of materials and substrates; software for spectrum analyzers; light-emitting diodes; organic light emitting diodes; organic light emitting diodes for drying inks, adhesives and coatings; Ti-Sapphire lasers; lasers for scientific use namely neodymium lasers, infrared lasers, near-infrared lasers, near-infrared high energy lasers, ultraviolet high energy lasers, ultraviolet lasers; lasers for industrial use namely neodymium lasers, infrared lasers, nearinfrared lasers, near-infrared high energy lasers, ultraviolet high energy lasers, ultraviolet lasers; laser for welding, drilling, milling and etching; LED drivers; apparatus and instruments for controlling, accumulating, switching, transforming and regulating electricity, namely ballasts for IR and UV systems, power supplies, temperature control systems, pyrometers, trigger transformers; apparatus and instruments for accumulating electricity, namely capacitors, accumulators, and computer operated capacitors; apparatus and instruments for switching electricity, namely electric switches, electrical controllers and trigger transformers; apparatus and instruments for transforming electricity, namely transformers; apparatus and instruments for conducting electricity namely leads for lamps and emitters, special-purpose leads for special surroundings; flash lamps as pump source for pulsed or CW continuous modes, gas fill laserflash lamps as pump source for lasers with pulse durations in the millisecond; infrared flash lamp bulbs emitting flashes of light and pulsed light; ultraviolet flash lamp bulbs emitting flashes of light and pulsed light, visible light flash lamp bulbs emitting flashes of light and pulsed light.

### **Class 11**

(2) Electric lamps; infrared lamps, mercury-vapor lamps, tanning lamps, ultraviolet (UV) lamps for use in disinfecting surfaces and air, ultraviolet halogen metal vapor lamps, ultraviolet ray lamps, not for medical purposes, ultraviolet sun beds for cosmetic purposes, ultraviolet sun lamps for cosmetic purposes, infrared radiators, sun tanning beds with built-in ultraviolet lamps, high-pressure bulbs for tanning beds, tanning lamps, UV filter glasses for tanning beds; light emitting diodes [LED]; electric lighting fixtures; glow-discharge lamp bulbs; glow lamp bulbs; ultraviolet ray lamps, not for medical purposes; ultraviolet curing lamps; light bulbs, ultraviolet light bulbs, infrared light bulbs, ultraviolet radiation bulbs, infrared radiation bulbs; ultraviolet ray lamps, not for medical purposes, namely for printing, bonding of materials through melting or sintering, polymerization of monomers and polymeric material, etching, welding, engraving, hardening of surfaces, disinfecting of surfaces, surface finishing and coating of substrates; metal halide lamps; infrared radiation lamps; lamps and bulbs for use in laser printers; lamps, lasers, light-emitting diodes, solid state lights and high energy light sources for use in laser welding machines; light sources namely arc and flash lamps for laser excitation, light-emitting diodes, and organic light-emitting diodes; lamps and bulbs for use in engraving machines; light-emitting diodes and organic light-emitting diodes for use in semiconductor manufacturing machines; infrared radiators; infrared illuminators; processors for ultraviolet lamps, in particularly for controlling of ultraviolet lamps for drying inks, conductive inks and coatings; ultraviolet lamp processors primarily comprised of ultraviolet lamps for drying inks, adhesives and coatings; ultraviolet lamps primarily comprising electric light bulbs and also containing other parts therefore, namely, reflective and refractive optics and the optical coatings for use on ultraviolet lamps used therewith and AC electric plugs, used for ultra violet curing applications; ultraviolet lamps not for medical purposes primarily comprising lightemitting bulbs and other parts therefore, namely, electric power supply units, reflecting and refractive optics, interconnecting electric cables, and polymerizing optical coatings for use on ultraviolet lamps, sold as a unit; infrared, ultraviolet, visible-light and LED lamps for drying and printing on metals, plastic, glass, wood, hybrid materials and ceramic substrates; lamps for drying of coatings and printing of electric circuits on all kinds of substrates, in particular on plastic, SiC or silicon, lamps for drying of coatings on wafers; infrared emitters to produce heat in all kinds of material; infrared emitters to

produce heat in focused local areas; drying or heating lines for printed electronic inks; drying or heating lines for printed electronic metal containing inks, more particular for printing electronic conducting paths or electronic circuits; lighting apparatus and parts therefore, for industrial purposes, in particular infrared spotlights, not for medical purposes; lamps for laser system for welding, cutting, drilling and marking; UV lamps for disinfection, degradation of molecules and cleaning of air, in particular exhaust air, in particular in kitchens; UV lamps for disinfection, degradation of molecules and cleaning of air, in particular exhaust air, in particular gastronomy; ultraviolet (UV) light sources and lamps for odour neutralization for industrial purposes; UV solutions, namely UV light sources to decompose odours and clean exhaust air; infrared emitter; infrared (IR) emitter of medium wavelengths with high power, IR emitter for use under high-purity vacuum conditions; infrared (IR) emitter for use in production of semiconductors, in clean room applications, in production processes of photovoltaics, coating of glass, printing, coating; flash lights for use in lasers with pulses nano seconds, femto seconds or pico seconds; flash lights for use in lasers with multi laser beams, in particular delivering an energy up to mega joule; ultraviolet, LED and metal halide lamps for use in printing, heating and curing; electric heating and drying apparatus namely electric radiant heaters, electric radiators; radiation apparatus namely radiation emitters for sterilisation purposes; sun-tanning equipment, UV lamps and sun-tanning lamps for non-medical purposes; sun-tanning equipment namely UV filter glasses for tanning beds, lamp reflectors; apparatus for heating, steam generating, cooking, refrigerating, drying, disinfecting, ventilating, water supply and sanitary purposes namely electrical disinfection equipment for use in disinfecting surface and room air, ultraviolet (UV) lamps for use in disinfecting surfaces and room air, electrical disinfection equipment being sterilizers for the disinfection of hospitals, clinics, busses, airplanes, schools, offices, electrical sanitary equipment being sterilizers for the disinfection of hospitals, clinics, busses, airplanes, schools, offices, ultraviolet (UV) lamps for use in disinfecting surfaces, apparatus for purifying industrial water, drinking water purifiers for commercial purposes, ultraviolet sterilizers for water treatment; lighting apparatus for generating electromagnetic radiation, namely for use in the fields of welding, marking, printing, bonding, etching, polymerizing and coating; lighting systems with lighting apparatus and control elements for use in special light sources, namely for special light sources in the fields of printing, welding, marking, bonding; drying apparatus for use in electronics industry for drying of printed electrical circuits and electrical paths; lighting apparatus for the emission of electromagnetic radiation in the UV range; heat generation apparatus with flash lamps for melting, sintering, soldering, curing, drying, cleaning or activating surfaces for preparing further process steps or for modifying surface structure; light emitting drying apparatus for drying, sintering and melting, namely with flash lamps and lighting systems using ultraviolet (UV) radiation; light emitting lighting systems and lighting devices for lighting systems for sterilizing media, surfaces and fluids, namely systems and devices with flash lamps and gas discharge lamps, for the emission of ultraviolet (UV) radiation; light emitting marine apparatus emitting UV and Vis-radiation, namely for treating ballast water; luminous tubes for lighting; discharge lamps; ultraviolet (UV) lamps for use in disinfecting surfaces; ultraviolet ray lamps for cosmetic purposes; ultraviolet ray lamps, not for medical purposes; ultraviolet light (UV) water purification device; ultraviolet sterilizers for water treatment; ultraviolet sun beds for cosmetic purposes; ultraviolet sun lamps for cosmetic purposes; ultraviolet light sources for industrial technical applications, namely melting, evaporating, liquefying, drying, etching, engraving, sintering and analytical applications; light-emitting diode lamp modules; gas catalytic heaters; electric guns for drying of adhesives, coating, inks or printings; electric discharge lamps; sun and tanning beds; modules of light-emitting diode lamps; electric lamps; ultraviolet irradiators, namely for surface cleaning, activation and modification, for photochemical applications and for reducing pumping time in vacuum chambers; electric lighting apparatus namely, electric lighting fixtures, electric lamps, filaments for electric lamps, light bulbs, electric; apparatus for

lighting for industrial purposes made from quartz glass; heating elements; heating plates; electric fires; heating radiators; electric industrial heaters; portable electric heaters; thermal radiators for the heating of buildings; infrared heating panels; infrared radiant heaters; infrared illuminators; infrared lamp fixtures; infrared lighting fixtures; infrared radiators; arc lamps; germicidal burners; electric furnaces for industrial purposes; gas generating furnaces for industrial purposes; melting furnaces for industrial purposes; distillers for chemical processing; water distillation units; gas lamps; gas purification machines; lamp chimneys, in particular lamp chimneys for material processing, particularly of polymer materials or metal materials; electric discharge tubes for lighting; stoves (heating apparatus), in particular stoves for material processing, particularly of polymer materials or metal materials; pulsating light systems, namely electric lighting fixtures with rhythmic light effects for use in processing of materials namely polymer and metal materials; Pulsating light systems, namely electric lighting fixtures with rhythmic light effects for use as theatre spotlights; LEDs for use as underwater lights; LED flashlights; LED luminaires; Ultraviolet lamp processors primarily comprised of ultraviolet lamps for drying inks, conductive inks and coatings; ultraviolet lamps primarily comprising electric light bulbs and also containing other parts therefore, namely, reflective and refractive optics, interconnecting cables, optical coatings for use on ultraviolet lamps used therewith and AC electric plugs, used for ultra violet curing applications, sold as a unit; reflector part and fittings for lamps; marine apparatus emitting UV and Vis-radiation, namely for treating ballast water; IR-lamps for infrared heating systems; infrared heating systems; UV-lamps, for disinfecting purposes, surface finishing, drying, welding, cutting, drilling and marking of materials and substrates; ultraviolet systems for curing of chemical components, namely polymers, adhesives and polymers, metals and alloys; infrared systems for curing of chemical components, namely polymers, adhesives and polymers, metals and alloys.

## **Services**

### **Class 42**

Development of simulation computer programs for others; engineering services in the field of simulation of spectra of radiation sources; technological consultation and research in the field of productions systems and productions lines for drying of electronic semiconducting coatings and inks; technological consultation and research in the field of ultraviolet processing technology; design of ultraviolet curing production systems and productions lines intended to be used for polymerizing coatings, inks, powders, composite structures and gels using ultraviolet light and product development in the field of ultraviolet curing production systems and lines intended to be used for polymerizing coatings, inks, powders, composite structures and gels using ultraviolet light; technological advisory services in the field of radiation sources and simulation of spectra of radiation sources; providing technological information in the field of radiation sources and simulation of spectra of radiation sources; research and design services in the field of infrared and ultraviolet curing of materials; research, and design services in the field of ultraviolet curing of materials; industrial analysis and research services in the field of radiation sources and simulation of spectra of radiation sources; technological consultancy with regard to theoretical and practical aspects of complex fields relating to electromagnetic radiation, in particular in the fields of lighting engineering, infrared radiation technology and UV-radiation technology, engineering, including evaluations, appraisals, investigations and reports in the field of science and technology, in particular lighting engineering, infrared radiation and UV-radiation technology; creation and development of computer software and hardware; calibration of measuring apparatus, in particular measuring apparatus for determining the strength of electromagnetic radiation; research and design and development of computer hardware and software, in particular research in the field of the operation, effects and longevity of lighting systems, in particular for the emission of infrared radiation, laser or ultraviolet (UV) radiation; development of lighting systems in industrial

processes, in particular of lighting systems for the emission of infrared radiation, laser or ultraviolet (UV) radiation; calibration of electronic equipment, namely equipment for measuring light parameters of infrared radiation, laser and ultraviolet (UV) radiation; development of lighting systems in industrial processes, in particular of lighting systems for LEDlamps; scientific and technological services in the field of radiation sources and simulation of spectra of radiation sources; software design and development; design and development of computer hardware.

### Foreign Character Translation

The translation provided by the applicant of the Chinese word(s) JIN LONG YU is metal/gold imperial fish.

### Foreign Character Transliteration

The transliteration provided by the applicant of the Chinese character(s) is JIN LONG YU.

## Goods

### Class 29

(1) Edible oils; edible fats; margarine; shortening; edible fats, namely vegetable ghee and vanaspati; hydrogenated vegetable oils for cooking; peanuts, processed; peanut butter; preserved fruit; raisins; tinned fruits; vegetable salads, fruit salads, fruit and vegetable salads, meat salads; potato chips; dried vegetables; preserved vegetables; canned cooked vegetables; preserved mushrooms; tofu; preserved beans; albumen for culinary purposes; eggs; milk; milk beverages [milk predominating]; milk products; cheese; yogurt; crustaceans, not live; shellfish, not live; fish (food products made from); preserved fish; meat; poultry, not live; meat extracts; soups; fruit jellies; jams; jellies for food.

### Class 30

(2) Rice; flour; sugar; sugar products, namely bonbons, cane sugar, cube sugar, granulated sugar, liquid sugar, powdered sugar, raw sugar, sugar confectionery and sugar substitutes; sweetening agents, namely natural sweeteners, artificial sweeteners for culinary purposes and low calorie sweeteners; vegetable flavourings; beverage flavourings; fruit flavourings; dry seasonings; food seasonings; shrimp flavouring for food; molasses and molasses syrup for food; preparations made from cereals, namely cereal flour, cerealbased bars, cereal based snack bars and cereal crackers; essences for foodstuffs, namely tea essences; coffee essences; essences for making soft drinks (except etheric essences and essential oils); starch for food, starch syrup for food; corn starch;

honey; treacle; golden syrup; yeast; leaven; salt; baking powder; mustard; vinegar; mustard, ketchup, relish, soy sauce, vinegar, tamarind, chutney, chili oil, chow-chow and pimento; sauces, namely apple sauce, barbeque sauce, cheese sauce, chili sauces, salad dressings, fruit sauces, hot sauces, gravy sauces, pasta sauce, vegetable sauce and pizza sauce; salad dressings; mayonnaise; seasonings; spices

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The letters "ASIPI" and the Earth design element are in the colour blue (Pantone (R) Reflex Blue C). The continents on the Earth design are in the colour light blue (Pantone (R) 7683 C). The ribbon element to the right of the Earth design is in the colour green (Pantone (R) 347 C transitioning to Pantone (R) 356 C). Pantone (R) is a registered trademark.

### Goods

#### Class 09

(1) Downloadable electronic publications in the form of documents, namely, articles, books, newsletters and manuals in the field of intellectual property practice, promotion, advertising, association activities, professional development and education; and downloadable mobile applications (apps) for phones, smartphones and tablets providing content and programs in the field of intellectual property, promotion for others, advertising for others, activities, professional development and education

**Class 16**

(2) Bulletins, books, academic magazines, monographs and collections of academic articles in the field of intellectual property law, and on legal issues in general

**Services****Class 41**

Educational services, namely providing distance learning on intellectual property law issues; online publications, namely, statements and comment letters to government agencies, amicus curiae reports, model practice forms, books, newsletters and documents, and meeting presentations related to intellectual property law and practice, defense and professional development; organization of events for cultural and educational purposes, namely, workshops, round tables, conferences, seminars, and congresses on Intellectual Property issues, and in general on legal, economic, social, advertising, sales, professional development, office administration, and subjects that relate to Intellectual Property and Intellectual Property professional practice

### **Class 36**

(2) Payment processing services, namely, managing and tracking electronic payments made through credit card, debit card, gift card, pre-paid card, deferred payment card, and other forms of payment transactions, namely, cryptocurrency payment transactions for business purposes; electronic transfer of money for others; providing electronic processing of debit card payments; providing electronic processing of mobile debit card payments; electronic transfer of funds from prepaid cash cards and debit cards for funding online cash accounts; processing of electronic payment transactions involving funds drawn from prepaid cash cards and debit cards over a global computer network; clearing and reconciling of financial transactions via electronic communications networks, namely, the Internet, global communication networks and wireless networks; charitable fundraising services, namely, charitable investment services in the field of providing monetary donations and grants to arts, education, and youth programs

(8) electronic transfer of money for others; providing electronic processing of debit card payments; providing electronic processing of mobile debit card payments

### **Class 38**

(3) Telecommunications services, namely, electronic transmission of photos, videos in the nature of movies, television programs, news and sports, music recordings, audio books, computer graphics, animations, photographic images, artwork, multimedia content in the nature of data and information in the field of entertainment, namely, interactive multimedia computer games, podcasts, video and text messages and user uploaded video clips over global communications networks, the Internet and wireless communication networks; providing access to computer, electronic and online databases in the field of entertainment, namely, information relating to books, films, music, news, periodicals, sports, television and video games; broadcasting services over the internet and other communication networks, namely, uploading, posting, displaying, tagging, and electronically transmitting photos, videos, graphics, animations, multimedia content, images and data in the nature of text messages, audio voice messages, multimedia messages containing graphics, animations, user uploaded video clips and photographic images via computer, electronic, and online databases, via a global computer network and to mobile and tablet devices; streaming, broadcasting, webcasting and electronic transmission of audio content, namely sound effects, videos in the nature of movies, television programs, news and sports, computer graphics, photos, and audio-visual media content, namely, user-generated video clips, music recordings, multimedia computer games, podcasts, video and text messages and user uploaded video clips over the internet and other communication networks, namely, global communication networks and wireless networks; providing online chat rooms, forums and electronic bulletin boards for transmission of messages among users concerning user-defined content; providing online chat rooms, forums and

electronic bulletin boards for the transmission of messages in the field of general interest; providing access to online communication links via an Internet website portal which transfer website users to other local and global websites that feature entertainment information in the field of computer games, social introduction and networking services, entertainment services, namely, online photo sharing, video sharing and text message sharing services, entertainment, namely, live comedic performances, live dance performances, live musical performances, live theatrical performances, film screenings and sporting events and online social networking, entertainment, namely, books, films, music, news, periodicals, sports, television and video games, and technology and software development; streaming, broadcasting, webcasting and transmitting audio content, namely, sound effects, videos in the nature of user-generated video clips, movies, television programs, news and sports, computer graphics, photos, avatars, television shows, animated vignettes, and audio-visual media content, namely, music recordings, multimedia computer games, podcasts, video and text messages and user uploaded video clips over the internet or other communication networks, namely, global communication networks and wireless networks; electronic data interchange services, namely, providing multiple users access to global computer networks to facilitate electronic data interchange, namely, text messages and email through global computer networks; wireless communications services, namely, providing access to on-line chat lines and the streaming of television shows and movies via the internet; computer services, namely, computer aided electronic transmission via a computer network of text messages, static images, videos in the nature of user-generated video clips, movies, television programs, news and sports, and sound in the nature of music recordings through a portable electronic device, namely, smartphones, mobile phones and tablet computers; video-on-demand transmission services; providing information and advice regarding secure electronic communication, namely, secure text, photo-, and video-messaging services

(9) Providing online chat rooms, forums and electronic bulletin boards for transmission of messages among users concerning user-defined content; Providing online chat rooms, forums and electronic bulletin boards for the transmission of messages in the field of general interest

#### **Class 41**

(4) Publishing services, namely, publication of electronic journals and blogs containing user generated content online; creation, development, production and distribution of entertainment content, namely, multimedia content in the nature of interactive multimedia computer games, photographs, animations, videos in the nature of user-generated video clips, movies, television programs, and sports, artwork, text messages, computer graphics, photographic images, and television news programs; electronic publishing services, namely, publishing online works of others in the form of journals and blogs containing user-created photographs, videos, text and designs; providing information from a computer database or a global communication network in the fields of entertainment, namely, movies, television programs, musical concerts, sporting events, nightclubs, fashion parades, and music; providing online non-downloadable multimedia entertainment content in the form of avatars, graphic icons, symbols, fanciful designs, comics, phrases, and graphical depictions of people, places and things, namely, buildings and points of interest; providing non-downloadable online music; providing non-downloadable musical sound recordings, musical performances, musical videos, photographs, newsletters, books, magazines, electronic games, videos and other non-downloadable multimedia content, namely, films, television shows, animated cartoons and user generated video clips via a website; arranging and conducting award ceremonies designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of audio visual creative works; arranging of contests, namely, quizzes, random draws, sweepstakes, instant-wins, photo contests, and voting

contests; film and video production; multimedia entertainment services in the nature of recording, production, post-production and distribution of television, film and multimedia entertainment, namely, interactive multimedia computer games; producing and arranging live concerts, social entertainment events, namely, theatre and sporting events, in the nature of ice hockey, lacrosse, gridiron football, soccer, basketball, curling and baseball, live nightclub performances and other live show performances, namely, live musical concerts, comedy shows, and dance; providing web-based information in the nature of ticket information for entertainment and educational events, namely, theatre productions, musical concerts and lectures, sporting and cultural events; providing online information regarding television programming, entertainment, namely, movies, television programs, musical concerts, sporting events in the nature of ice hockey, lacrosse, gridiron football, soccer, basketball, curling and baseball, nightclubs, fashion parades, sports and cultural activities, in the nature of art exhibitions, dance festivals and community festivals; entertainment services, namely, providing non-downloadable photographic images, videos, namely, user-generated video clips, films, television shows and cartoons, music recordings, audio and video content in the nature of computer games and video games, and graphic files in the nature of graphic arts and graphic novels via a website; entertainment services, namely, providing non-downloadable audio, video and audiovisual content in the nature of movies, TV shows, animated cartoons and music recordings, photographic images, multimedia works in the nature of computer games and video games, and text files, by means of the internet, global telecommunications networks and wireless telecommunications networks; creation, development, production, post-production, and distribution of entertainment content, namely, multimedia content in the nature of computer games and video games, photographs, animations, videos in the nature of user-generated video clips, films, television shows, animation, artwork, text and graphic works in the nature of comic books, digital images, and news webcasts; film, animation, and video production; arranging and conducting educational conferences in the fields of technology and entertainment, namely, music, films, television, computer and video games; education services, namely, providing on-line tutorials, classes, courses and workshops in the field of creating, editing, sharing, sending, and monetizing digital photos, user-generated video clips, photographic images, emojis, avatars, emoticons, text messages, audio in the nature of music recordings, augmented reality content in the nature of augmented reality computer games, and video games to others via the global computer network; entertainment services in the nature of ongoing television series in the fields of comedy, crime, documentary, drama, horror, mystery, news, and romance; entertainment services in the nature of development, creation, production, distribution, and post production of television shows and multimedia entertainment content in the nature of animated cartoons, computer games and video games; production and distribution of television shows; providing online non downloadable video clips and other multimedia digital content in the nature of television episodes, short films, computer graphics, and still and moving images containing audio, video, artwork, and text from or related to an ongoing television series; providing non-downloadable television shows via a video-on-demand transmission services; entertainment services, namely, providing online computer and electronic games; providing online audio-visual entertainment information in the fields of motion pictures, television programming, films, music videos and music via a global computer network; providing information in the field of entertainment in the nature of information about computer and video games via a global computer network; creation, development, production and distribution of entertainment content, namely, multimedia content in the nature of computer and video games, animations, video footage, text files, still images, user generated video clips, and ongoing television series featuring comedy, drama, musical entertainment, sports, health and wellness, and news broadcasts online and distributed via global computer networks to mobile electronic devices in the nature of smartphones, tablet computers and handheld computers; arranging and conducting business conferences

(10) Publishing services, namely, publishing of electronic publications for others; providing non-downloadable online music; providing non-downloadable musical sound recordings, musical performances, musical videos, photographs, newsletters, books, magazines, electronic games, videos and other non-downloadable multimedia content, namely, films, television shows, animated cartoons and user-generated video clips via a website; arranging and conducting award ceremonies designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of audio-visual creative works; film and video production; entertainment services, namely, providing photographic images, user generated video clips, music videos, audio and video content in the nature of movies and television shows, and graphic arts via a web site; entertainment services, namely, providing a searchable database featuring audio, video, music, photographic images, multimedia works, files, text, and audiovisual content, namely, movies, TV shows, music videos, animated cartoons, comics, and video games by means of the internet, global telecommunications networks and wireless telecommunications networks

### **Class 42**

(5) Hosting digital content on the internet, namely, web hosting and hosting online web facilities for others for managing and sharing online photographs, videos, text, music and digital content, namely, movies, TV shows, music videos, animated cartoons, video games and user-generated video clips; computer services, namely, creating and designing web pages featuring virtual communities for registered users to participate in discussions and engage in social, business and community networking; application service provider (ASP) featuring software to enable or facilitate the uploading, downloading, streaming, editing, modifying, posting, displaying, linking, sharing, and transmission of photographs, videos in the nature of movies, television programs, sports and news programs, music and electronic media and information, namely, computer graphics, audio books and podcasts over the internet and computer communication networks in the fields of social media and social networking; application service provider (asp) services, namely, hosting computer software applications of others for conducting business transactions for use in electronic commerce in the field of retail store and wholesale store services; providing temporary use of non-downloadable software applications for photo and video sharing; providing software as a service (saas), namely, providing temporary use of on-line non-downloadable software for processing electronic payments; providing electronic computer generated codes to identify products, namely providing digital emblems that function like quick response codes to facilitate online retail services for others and facilitate e-commerce transactions, excluding electronic payment services; providing electronic verification of on-line orders of digital content and generating electronic permission codes which then allow users to access said digital content, namely, administrative processing of purchase orders, excluding electronic payment services; providing temporary use of on-line non-downloadable user authentication software that facilitates single sign-on technology for controlling user access to and communicating with computers and computer networks; information technology (IT) consulting services relating to secure electronic communications in the form of text, photo-, and video-sharing messages and voice messages; telecommunications technology consultancy, namely, technical consultancy relating to secure electronic communications in the form of photo- and video-sharing messages, text messages and voice messages; computer security consultancy relating to secure electronic communications; data security consultancy relating to secure electronic communications in the form of photo- and video-sharing messages, text messages and voice messages; computer security services in the nature of providing user authentication services relating to personal identification information using biometric hardware and software for online software applications and e-commerce transactions; providing user authentication services,

namely, providing user authentication of personal identification information using multi-factor authentication technology for online software applications and e-commerce transactions; providing user authentication services, namely, providing user authentication of personal identification information using single sign-on technology for online software applications and e-commerce transactions; providing temporary use of a non-downloadable web-based software application for use in creating, designing, tracking, analyzing, evaluating and monitoring advertising, marketing, and promotional content and materials; software as a service (SaaS) service featuring software for audience analytics; providing online tools, namely, non-downloadable software that give users the ability to create digital emblems in the nature of downloadable computer graphics and photographic images; computer services, namely, providing an interactive mobile application featuring software that allows users to manage their online photograph and social networking accounts; computer software development in the field of mobile applications; design and development of software in the field of mobile applications, videos and games; software as a service (SaaS) services featuring software in the nature of software development kits (SDK); providing user authentication services using single sign-on technology for online software application; providing software as a service (SaaS) for processing electronic payments

(11) computer services, namely, creating and designing web pages featuring virtual communities for registered users to participate in discussions and engage in social, business and community networking; computer security consultancy relating to secure electronic communications; computer security services in the nature of providing user authentication services relating to personal identification information using biometric hardware and software for online software applications and e-commerce transactions

#### **Class 45**

(6) Global computer network-based social introduction and social networking; providing social networking and social introduction information and services through computer databases accessible via a global computer network; licensing of intellectual property, namely, user created avatars, graphical icons, symbols, fanciful designs, comics, phrases, and graphical depictions of people, places and things; internet-based social introduction and social networking services accessible by means of downloadable mobile applications.

(12) Global computer network-based social introduction and social networking; providing social networking and social introduction information and services through computer databases accessible via a global computer network; licensing of intellectual property, namely, user created avatars, graphical icons, symbols, fanciful designs, comics, phrases, and graphical depictions of people, places and things

#### Class 09

Microprocessors; Computer software for providing users with information and analysis regarding their physical activity, fitness and general health, namely downloadable computer software in the form of a mobile application for accessing and viewing data, namely, for obtaining advice and assistance relating to sports and physical activities; Computer operating recorded programs; Smartwatches; Interactive touch screen terminals; Electronic integrated circuits; Wearable activity trackers; Virtual reality headsets; Earphones; Motion sensors; Electronic weighing scales for personal use.

### Services

#### Class 42

(1) Software as a service (SAAS) services, namely, computer software for athletes and coaches to track, analyze, enhance and improve performance data namely data for measuring the performance of athlete as sports analytics data and computer software that provides information for athletic and sports training; Document data transfer and conversion from one media to another;

computer software design; Cloud computing provider services for general storage of data; Electronic storage of medical records; Platform as a service (PAAS) featuring computer software platforms for providing users with information and analysis regarding their physical activity, fitness and general health namely computer software platforms for allowing users to access and view data, namely, for obtaining advice and assistance relating to sports and physical activities; Providing online non-downloadable computer software for tracking fitness, health and wellness goals and statistics; Providing online non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; Providing online non-downloadable software for creating personalized fitness training programs; Providing online non-downloadable software for providing personal training services, workouts and fitness assessments; Providing online non-downloadable software for use in accessing health information, health and wellness data, and medical records, for showing technology compatibility, and for downloading, storing, transmitting, evaluating, and reviewing health information, health and wellness data, and medical records in the fields of health and home care services for medical patients, medicine, and medical records.

#### **Class 44**

(2) Home health care services; Telemedicine services; Medical counselling relating to stress; Dietary and nutritional guidance; Pharmacy advice; Medical testing services, namely, fitness evaluation; Providing information in the field of nutrition via a website; Medical fitness evaluation; Remote monitoring of health and wellness data indicative of the health or condition of an individual or group of individuals for medical diagnosis and treatment purposes.

## TRADEMARK DETAILS

### Trademark Type

Design

### Visual Representation

### Trademark Description

The mark consists of the word element CloudDNS in orange and a figurative element representing a stylized picture of a part of a cloud above it in orange and yellow colour.

### Colour Claim

Colour is claimed as a feature of the trademark. The colours orange and yellow are claimed as a feature of the trademark. Orange for the word element; orange and yellow for the figurative element.

### Goods

#### Class 09

3D spectacles; DVD players; USB flash drives; fire escapes; solenoid valves [electromagnetic switches]; automatic indicators of low pressure in vehicle tyres; aerometers; asbestos screens for firemen; asbestos clothing for protection against fire; asbestos gloves for protection against accidents; azimuth instruments being telescopes; actinometers; accelerometers; electric accumulators for vehicles; accumulators, electric, for vehicles; accumulator boxes; acoustic signal alarms; acoustic couplers; acoustic conduits; horns for loudspeakers; warning alarm bells, electric; acoustic electric alarms; alidades; altimeters; ammeters; anemometers; downloadable and pre-recorded animated cartoons; anodes; anode lithium batteries; radio, telephone, and Internet antennas; anticathodes; air analysis apparatus namely air quality meters, air quality chemicals analyzers; food analysis apparatus namely apparatus for automatic chromatography and mass spectrometers; apparatus to check franking namely calculating scales for franking machines; intercommunication apparatus namely intercoms; dry-wet coupling fermentation apparatus for laboratory use; galvanisation apparatus namely current generators; glazing apparatus namely high gloss drying apparatus for photographic prints; global positioning systems [GPS] transmitters and

GPS receivers; breathing apparatus for underwater swimming; breathing apparatus, except for artificial respiration namely self-contained breathing apparatus (SCBA); distance recording apparatus, namely, electronic and laser distance meters; pressure measuring apparatus, namely pressure gauges, pressure meters and pressure sensors; speed measuring apparatus [photography], namely speed meters; distance measuring apparatus namely distance sensors; apparatus for measuring the thickness of leather, testing apparatus not for medical purposes, namely plastic testing machines; ionisation apparatus to neutralize electric charges, not for the treatment of air or water; boiler control instruments, namely pressure indicator plugs for valves, pressure relief valves and pressure switches; speed checking apparatus for vehicles namely speedometers; egg-candlers; magnetic resonance imaging [MRI] scanners, not for medical purposes; monitoring apparatus, other than for medical purposes, namely, firm alarm, gas alarm and carbon monoxide monitors; apparatus to check stamping mail; x-ray photographic art posters, other than for medical purposes; teleprompters; remote controllers for conveyor machines; satellite navigational apparatus, namely, earth satellites for use in geolocation navigation; apparatus and installations, for the production of x-rays, not for medical purposes, namely, x-ray security screening machines, x-rays for the production of art prints; weighing apparatus and instruments, namely, kitchen and bathroom scales; apertometers [optics]; audio and video receivers; audiovisual teaching apparatus, namely, vehicle drive training simulators; audio interfaces for stereos; audio mixers; acidimeters for batteries; rods for water diviners; automated teller machines [ATM]; barometers; storage batteries, electric; batteries, electric, for vehicles; high tension batteries; batteries for electronic cigarettes; batteries for lighting; baby monitors; baby scales; video baby monitors; cordless telephones; betatrons; ticket dispensers; binoculars; biochips; coils, electric; locks, electric; bullet-proof waistcoats; bullet-proof clothing; Geiger counters; thread counters; money counting and sorting machines; push buttons for bells; vacuum gauges; washing trays for photography; variometers; baby scales; scales with body mass analysers; eyeglass chains; wind socks for indicating wind direction; video screens; camcorders, video cassettes; video recorders; video telephones; viewfinders, photographic; screw-tapping gauges; viscosimeters; loudspeakers; high-frequency apparatus, namely, high-frequency switching power supplies; diving equipment, namely helmets; divers' masks; naval signalling apparatus namely signalling buoys; solderers' helmets; voltmeters; time recording apparatus namely chronographs, time clocks and time and date stamping machines; cell phone straps; wavemeters; gasometers; electric discharge tubes, other than for lighting; galvanic batteries; galvanic cells; galvanometers; surveying apparatus, namely lasers, levelling rods and magnetic compasses and instruments; surveying instruments; record players; phonograph records; downloadable graphics for mobile phones; encoded identification bracelets, magnetic; lightning conductors; graduated glassware; laser range finders; flowmeters; decompression chambers; decorative magnets; densimeters; stills for laboratory experiments; distillation column for laboratory scientific purposes; heat detectors; counterfeit coin detectors; smoke detectors; pocket calculators; joysticks for use with computers, other than for video games; juke boxes for computers; diagnostic apparatus, not for medical purposes, namely, optical inspection apparatus for inspection of food; photographic slides; diaphragm separators for use in water electrolyzers; climate control digital thermostats; digital photo frames; dictating machines; dynamometers; blank computer disks, magnetic; disk drives for computers; diffraction apparatus for microscopes microscopy; respiratory masks for the prevention of accident or injury, other than for artificial respiration; DNA chips; dosimeters; speaking tubes; electrical choking coils for electronics [impedance]; carpenters' rules; holders for electric coils; carriers for photographic dark plates; audio equalizers; electric and electronic effects units for musical instruments; electrified fences; electrified rails for mounting spot lights; electrical adapters, namely, camera adaptors, cable adaptors, plug adaptors; electric door bells; electric apparatus for commutation namely, telecommunications switching systems; electric installations for the remote

control of industrial operations namely remote control transmitters; electric wire harnesses for automobiles; electronic key fobs being remote control apparatus; fuses; electric sockets; luminous flashing safety lights; electric plugs; electro-dynamic apparatus for the remote control of signals namely satellite tethers; electro-dynamic apparatus for the remote control of railway points; electricity conduits; hydrogen electrolyzers; electromagnetic coils; electronic pocket translators; electronic tags for goods; electronic interactive whiteboards; amplifying valves; vacuum tubes for radios; electronic collars to train animals; electronic sheet music, downloadable; electronic pens [visual display units]; electronic publications, downloadable in the form of magazines, brochures, and newsletters; light-emitting electronic pointers; electronic access control systems for interlocking doors; electronic notice boards; electronic numeric displays; electronic agendas; downloadable emoticons for mobile phones; epidiascopes; test tubes; ergometers; temperature indicator labels, not for medical purposes; sound locating instruments namely sonar; security tokens [encryption devices]; mercury levels; lifesaving apparatus and equipment namely lifevests; wires, electric; juke boxes, musical; coin-operated mechanisms for operating gates for car parks or car parking lots; coin-operated mechanisms for television sets; igniting apparatus, electric, for igniting at a distance namely electric igniters used in connection with ballasts to start discharge lamps; charging stations for electric vehicles; battery chargers for electric storage batteries; chargers for electric vehicle batteries; chargers for electronic cigarettes; shutters for photography; saccharometers; protective helmets namely safety helmets; protective suits for aviators; protective industrial respiratory masks; protective films adapted for smartphones; workmen's protective face-shields; protection devices for personal use against accidents namely nets for protection against accident; protection devices against x-rays, not for medical purposes namely clothing for protection against radiation; protective films adapted for computer screens; sound alarms namely fire alarms, burglar alarms, baby alarms, door alarms, electronic exit alarms; sound reproduction apparatus namely loudspeakers; sound recording apparatus namely microphones, headphones, studio monitors, audio mixers, audio recorders; sound recording discs, namely black compact discs; sound recording strips namely channel strips for audio recording; sound recording carriers namely blank CDs, CD-ROMs and DVDs; sounding apparatus and machines namely sound amplifiers; sounding leads; sound transmitting electric cables; warning bells; signalling panels, luminous; electric buzzers; needles for record players; identification threads for electric wires; identification sheaths for electric wires; measuring rulers; measuring glassware namely cups and bowls; measuring apparatus namely measuring rods; surveying chains; measuring instruments namely tape measures; depth gauges; measuring devices, electric namely laser measuring tapes; satellite finder meters; data processing apparatus namely central processing units, computer motherboards, computer daughterboards, computer graphics boards, computer expansion boards, circuit boards, cables for electrical and optical signal transmission, modems, computer hardware, word processors, digital signal processors, sound processors, digital voice signal processors, graphics processor units, video processors, signal processors, computer memory expansion modules, computer monitors, computer operating systems, computer styluses, computer terminals, computer touch screens, external computer hard drives, supercomputers; power inverters [electricity]; electrical inductors [electricity]; water level indicators; quantity indicators namely liquid level indicators; electric loss indicators namely faulted circuit indicators; pressure indicators namely pressure sensors; incubators for bacteria culture; theft prevention installations, electric namely theft alarms; gas testing instruments namely gas analyzers and gas leak detectors; observation instruments namely telescopes; levelling instruments namely leveling rods; instruments containing eyepieces namely microscopes; material testing instruments and machines namely electronic equipment for inspection and detection of foreign material within containers; integrated circuits; interactive touch screen terminals; interfaces for computers; infrared detectors; starter cables for motors; cables, electric; ducting for electric cables; calibrating rings; calorimeters; sleeves for

laptops; eyeglasses cases; covers for personal digital assistants [PDAs]; cases for smartphones; covers for tablet computers; close-up lenses; rearview cameras for vehicles; weighing machines namely weighbridges; bathroom scales; covers for electric outlets; capillary tubes; memory cards for video game machines; blank smart cards being blank integrated circuit cards; video game cartridges; ink cartridges, unfilled, for printers and photocopiers; cassette players; riding helmets; accounting machines; cathodes; cathodic anti-corrosion apparatus namely, electronic device for eliminating corrosion from a boat lift in sea water; kilometer recorders for vehicles; cinematographic cameras; cinematographic film, exposed; oxygen transvasing apparatus namely oxygen regulators; cellular phones; coaxial cables; encoded key cards; encoded magnetic cards; current collectors, electric; compact disc players; blank compact discs [audio-video]; blank compact discs being read-only memory; comparators; directional compasses; compasses for measuring; computers; computer software, recorded to operate the hosting of computer websites; computer screen saver software, recorded or downloadable; computer hardware; notebook computers; computer keyboards; computer peripheral devices namely computer monitors, computer keyboards, computer mice, headphones; computer programs, downloadable to operate the hosting of computer websites; computer programs, recorded to operate the hosting of computer websites; computer software platforms, recorded and downloadable to operate the hosting of computer websites; computer software applications, downloadable to operate the hosting of computer websites; commutators, namely, telecommunications switching systems; converters, electric; condensers being capacitors; electrical contactors; contact lenses; traffic cones; nautical apparatus and instruments namely electronic position indicators for boats; correcting lenses [optics]; cosmographic instruments namely telescopes; diving suits; pedometers; galena crystals detectors for use in electronics detectors; circular slide rules; battery boxes; cabinets for loudspeakers; cases especially made for photographic apparatus and instruments; laboratory trays; ovens for laboratory use; laboratory robots; laboratory pipettes; laboratory centrifuges; logs namely electronic black boxes for recording data; lasers, not for medical purposes namely laser pointers, lasers for bar code readers; lactometers; darkroom lamps [photography]; flash-bulbs [photography]; laptop computers; blank and pre-recorded videotapes; head cleaning tapes for audio cassette recorders and video recorders; lenses for astrophotography; spectacle lenses; lens hoods; measuring rulers; squares for measuring; identity cards, magnetic; slide-rules; sounding lines; magnifying glasses [optics]; magic lanterns; decorative magnets; magnetic encoders; blank magnetic computer tapes and audio tapes; magnetic tape units for computers; blank magnetic smart cards; magnetic wires; tape recorders; crash test dummies; resuscitation mannequins [teaching apparatus]; manometers; marking gauges for joinery purposes; surveyors' levels; mathematical instruments being calculators; masts for wireless aerials; invoicing machines; mechanical signs; beacons, luminous; megaphones; copper wire, insulated; acoustic diaphragms; tone arms for record players; plane tables [surveying instruments]; measuring spoons; volumetric measuring apparatus namely volume sensors; metal detectors for industrial or military purposes; material for electricity mains namely electrical wires and cables; meteorological balloons; meteorological instruments; metronomes; mechanisms for counter-operated apparatus being for arcade games and for vending machines; mechanisms for coin-operated apparatus for vending machines, for operating gates for car parking lots and for laundry washers and dryers; micrometers; micrometer screws for optical instruments; microprocessors; microscopes; microtomes; microphones; trackballs [computer peripherals]; modems; parking meters; computer programs for operating computer monitors; apparatus for editing cinematographic film; marine compasses; weighbridges; nets for protection against accidents; downloadable music files; navigation apparatus for vehicles being on-board car navigational computers; navigational instruments being directional compasses; knee-pads for workers; neon signs; levels [instruments for determining the horizontal] being spirit levels; spirit levels; levelling staffs for surveying;

verniers; sheaths for electric cables; safety restraints, other than for vehicle seats and sports equipment namely lanyards for safety purposes for fall protection; objectives for optical lenses; selfie lenses; furniture especially made for laboratories; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; clothing especially made for laboratories; marking buoys; revolution counters; shoes for protection against accidents, irradiation and fire; teaching apparatus namely electronic touch display screens; teaching robots being humanoid robots with artificial intelligence; mirrors [optics]; mirrors for inspecting work; electricity limiters; ozonisers [ozonators]; octants, protractors [measuring instruments]; eyepieces namely safety glasses; ohmmeters; computer operating programs, recorded; optical apparatus and instruments being optical scanners; optical fibers [light conducting filaments]; blank optical discs; fibre optic cables; optical condensers; optical lanterns; optical lenses; telescopic sights for artillery; sighting telescopes for firearms; blank optical data disks; optical glass; optical lanterns; optical character readers; organic light-emitting diodes fold; oscillographs; plumb lines; reflecting safety discs to be worn on the body for the prevention of accidents; spectacles; sunglasses; goggles for sports; eyewear, radio pagers; pince-nez; periscopes; personal digital assistants [PDAs]; punched card machines for offices; printed circuit boards; printed circuits; piezoelectric voltage sensors; droppers for measuring, other than for medical or household purposes; pyrometers; planimeters; plates for batteries; wafers for integrated circuits; electronic plotters; grids for batteries; step-up transformers; mouse pads; wrist rests for use with computers; ear pads for headphones; fire alarms; fire boats; fire beaters; fire hose; fire extinguishers; fire extinguishing apparatus namely fire extinguishing balls; fire blankets; semi-conductors; polarimeters; wearable video display monitors; wearable computers, namely, smart watches; portable media players namely smartphone, MP3, and DVD players; walkie-talkies; personal stereos; wearable activity trackers; retorts' stands; cleaning disks and tape for phonograph records; cleaning disks and tape for sound recording discs; electric current cell switches; electric current switches; electric switchboxes; electric switchboards; transmitters of electronic signals being cable television, emergency signal, global positioning systems, radar, radio frequency, satellite, telephone signal transmitters; transmitting sets [telecommunication] namely for transmission of cable television, emergency signal, global positioning systems, radar, radio frequency, satellite, telephone telecommunications; teeth protectors namely mouth guards; spark-guards; protective helmets for sports; safety nets for the protection against accidents; safety tarpaulins; vehicle breakdown warning triangles; anti-theft warning apparatus namely theft alarms; circuit breakers; precision balances, namely, precision theodolites; precision measuring apparatus namely laser measuring tapes and scientific measuring instruments being conductivity meters; prisms for telescopes and microscopes [optics]; scientific prisms; headgear being protective safety helmets; printers for use with computers; hemline markers; pressure indicator plugs for valves; photography projection apparatus; transparency projection apparatus; projection screens; head guards for sports; mouth guards for sports; visors for helmets; anti-glare glasses; fire engines; fire pumps; sprinkler systems for fire protection; road signs, luminous or mechanical; radars; radiological apparatus for industrial purposes, namely, x-ray apparatus not for medical purpose; radiology screens for industrial purposes, namely, screens for protection against x-rays for industrial purposes; radar and radio frequency telecommunication transmitters; radios; vehicle radios; radiotelegraphy sets; radiotelephony sets; branch boxes being electric junction boxes; demagnetizing apparatus for magnetic tapes; electricity distribution consoles; electricity distribution boxes; electrical power distribution boards; petrol gauges; spectacle frames; frames for photographic transparencies; screens for photoengraving; stage lighting regulators; voltage surge protectors; voltage regulators for vehicles; electric light dimmers; speed regulators for record players; regulating apparatus, electric namely electric light dimmers; electric charge controllers being electricity reducers; photographic and movie film cutters; electrical resistors; time switches, automatic; relays, electric; X-ray apparatus for crystallography not for

medical purposes; X-ray tubes for neutralization not for medical purposes; X-ray films, exposed; rheostats; respirators for filtering air, retorts; refractometers; refractors; security surveillance robots; telepresence robots; downloadable ringtones for mobile phones; spools for photographic cameras; armatures for use in electrical apparatus [electricity]; gloves for divers; gloves for protection against accidents; gloves for protection against x-rays for industrial purposes; hand-held electronic dictionaries; steelyards [lever scales]; flash lamps for use in photograph; exposure meters [light meters]; reflective safety vests; screens for photography and projection screens; light-emitting diodes [LED]; quantum dot light-emitting diodes [QLED]; traffic-lights [signalling devices]; whistle alarms; dog whistles; connected bracelets being wearable activity trackers [measuring instruments]; sextants; electronic data gloves; fog signals, non-explosive; signals, luminous or mechanical; signalling whistles, signalling panels, luminous or mechanical; signalling buoys; signal bells; rescue laser signalling flares, signal lanterns; sirens; optical scanners, image scanners; speed indicators for vehicles; headphones; solar batteries; solar panels for the production of electricity; smartglasses; smart rings; smartphones; smartwatches; abacuses; calculating machines; salinometers; sonars; probes for scientific purposes being molecular probes; computer game software, recorded; computer game software, downloadable; lifejackets; life-saving capsules for natural disasters; lifeboats; life nets; survival blankets; life belts; rescue flares, non-explosive and nonpyrotechnic; life-saving rafts; life buoys; spectrograph apparatus; spectroscopes; alcoholmeters; sports whistles; satellites for scientific purposes; lighting ballasts; stereoscopes; stereoscopes; selfie sticks [hand-held monopods]; camera stands for photographic apparatus; stands adapted for laptops; fuse wire; needles for surveying compasses; stroboscopes; fire hose nozzles; subwoofers; sulfimeters; drying apparatus for photographic prints; drainers for use in photography; photographic drying racks; spherometers; accumulator jars; battery jars; containers for contact lenses; containers for microscope slides; electrical power connectors; fiber optic couplers for data processing equipment; connections for electric lines; wire connectors [electricity]; connections for electric lines; junction boxes [electricity]; junction sleeves for electric cables; electrical control panels; tablet computers; taximeters; ear plugs for swimmers; ear plugs for divers; tachometers; balancing apparatus namely precision balances for use in the weighing industry for measuring weight of electronic parts; steelyard balances; weights for use with weighing scales; televisions; automatic and manual telegraphs apparatus; telegraph wires; telecommunication apparatus in the form of jewellery being smart watches and smart bracelets; telemeters; telerupters being electromechanical relays; telescopes; teletypewriters; telephone receivers; telephones, smart phones and cell phones; telephone transmitters; telephone wires; answering machines; temperature indicators; theodolites; interactive touch screen terminals; thermal imaging cameras; thermionic tubes; household and laboratory thermometers, not for medical purposes; thermostats; thermostats for vehicles; thermo-hygrometers; crucibles for laboratory use; T-squares for measuring; current rectifiers; toner cartridges, unfilled, for printers and photocopiers; heat regulators; totalizers; transistors [electronic]; transponders; protractors gauges [measuring instruments]; electric transformers; simulators for the steering and control of vehicles; tripods for cameras; resuscitation training simulators; triodes; pitot tubes; photography darkrooms lamps; thin client computers; wah-wah pedals; enlarging apparatus being photography projectors; steering apparatus, automatic, for vehicles being electronic controls for vehicle steering; nanoparticle size analysers; ring sizers; finger sizers; acid hydrometers; height measuring instruments being height measuring sticks, height measuring scales, height measuring tapes; marine depth finders; inclinometers; lactodensimeters; densitometers; apparatus and instruments for astronomy being telescopes; urinometers; amplifying valves; particle accelerators; railway traffic safety appliances being railway signals; voting machines; remote controllers for computer servers; computer memory devices namely, computer memory expansion modules, computer memory boards, dynamic random-access memory (DRAM) modules and static random-access

memory (SRAM) modules; shutter releases for photography; egg timers [sandglasses]; anti-interference devices being static electricity eliminators; projectors for virtual keyboards; apparatus for changing record player needles; hands-free kits for phones; downloadable image files consisting of artwork, text messages, music, video clips, video games, and Internet Web links in the field of sports; facsimile machines; apparatus and instruments for physics being test weights, prisms for scientific purposes, ammeters, barometers and spectrometers; films, exposed; filters for respiratory masks; filters for ultraviolet rays, for photography; filters for use in photography; blank floppy disks; fluorescent screens; cameras [photography]; photovoltaic cells; photographic racks; photocopiers [photographic, electrostatic, thermic], photometers; phototelegraphy apparatus being facsimile machines and radiotelegraphy sets; hairdressing training heads [teaching apparatus]; heliographs; hygrometers; hydrometers; chemistry apparatus and instruments being liquid test tubes; holograms; chromatography apparatus for laboratory use; chronographs for use as specialized time recording apparatus; humanoid robots with artificial intelligence; central processing units [processors]; centering apparatus for photographic transparencies; cyclotrons; digital signs being electronic luminous signs; digital weather stations; bags adapted for laptops; time clocks [time recording devices]; black boxes [data recorders]; frequency meters; electronic book readers; readers namely electronic book readers, optical character readers; bar code readers; petri dishes; computer chips and electronic chips for the manufacture of integrated circuits; dressmakers' measures; virtual reality headsets; snorkels; eyeglass cords; peepholes [magnifying lenses] for doors; letter scales; slide calipers; nose clips for divers and swimmers.

## Services

### Class 38

(1) Telecommunication services namely Integrated Services Digital Networks (ISDN) being circuit-switched telephone networks; computer communication namely providing access to a global computer network and Internet access services; providing access to multimedia content online namely providing online forums for the transmission of messages, comments and multimedia content among users; provision of Internet access services; providing computer access to communication networks; broadcasting services namely video-on-demand services; automatic transfer of digital data using telecommunications channels namely providing multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information; audiovisual communication services namely television broadcasting; video communication services namely video conferencing; video transmission via digital networks namely video on demand transmissions, telephone relay services using on-screen video and providing access to a video sharing portal; remote transmission of audio signals by means of telecommunications namely radio broadcasting; remote transmission of data by means of telecommunications namely simulcasting broadcast television over global communication networks, the Internet and wireless networks; delivery of messages by electronic media namely email services and text message services; electronic communications services namely email services and text message services; communication services for the electronic transmission of data namely providing access to a global computer network; electronic transmission and retransmission of sounds, images, documents, messages and data, namely Internet access provider services; message sending, receiving and forwarding, interactive communication services namely short message services (SMS) and multimedia message services (MMS); interactive telecommunications services namely, communication by mobile phone; interactive transmission of video over digital networks namely interactive videotext services; cable transmission of sounds, images, signals and data namely cable television and radio broadcasting; communication by electronic means namely, communications by mobile phones; communications via multinational telecommunication networks namely, communications by mobile phones; communications

services namely email services and text message services; communications services for the exchange of data in electronic form namely email services, text messaging services, interactive videotext services, voice text services; communication services provided electronically namely email services and text message services; advisory services relating to communications equipment namely the operation and leasing of computer networking equipment, the operation and leasing of radio and television broadcasting equipment, the operation and leasing of mobile phones; mobile media services for providing video streaming content through mobile applications; network transmission of sounds, images, signals and data namely providing access to a global computer network; virtual chatrooms established via text messaging; providing electronic telecommunication connections namely providing access to a web, mail and news portal; transmission of data, messages and information namely transmission of email and text message services; transmission of sound and vision via satellite and interactive multimedia networks namely providing access to a worldwide computer network; computer-aided transmission of music and voice sound; transmission of music and voice via interactive multimedia networks; transmission of music, voice clips and personal video recordings over global computer networks; television broadcasting via interactive multimedia networks; transmission of information through video communication systems namely videoconferencing services; transmission of information in the audiovisual field being television programs, video conferencing, streaming through a website; provision of communications facilities for the interchange of digital data namely rental of television broadcasting facilities and video conferencing facilities; telecommunications services between computer networks namely providing access to a global computer network; telecommunications; telecommunication of information namely providing access to a web, mail, and news portal (including web pages); services for the electronic transmission of information namely email and text message transmission services; secured data, sound and image transmission services namely providing access to a website providing users with secure remote access to private computer networks; inter-active video text services; video uploading services; photo uploading services; delivery of email and text messages by audiovisual media; telematic data transmission and file transfer namely telematic in-vehicle communication service providing wireless vehicle navigation and tracking; digital transmission services for audio and video data namely video streaming of television shows, films, and documentaries; rental of telecommunication devices and equipment enabling connection to networks; rental of telecommunication equipment namely switches, telecommunication towers and antennas, fiber-optic cables, routers, voice over internet protocol (VoIP), and smartphones; provision of Internet access to content, websites and portals; provision of Internet access to data and or documents stored electronically in central files for remote consultation; provision of computer network access to electronic sites; providing access to Internet platforms; providing access to gambling and gaming websites on the Internet; providing access to websites on the Internet or any other communications network namely providing access to a web, mail and news portal; providing user access to portals on the Internet namely providing access to a web, mail and news portal; providing user access to platforms on the Internet namely providing access to a website providing users with secure remote access to private computer networks; provision of telecommunication access to video and audio content provided via an online video-on-demand service; provision of telecommunication access to video content provided via the Internet namely video on demand services and providing access to a video sharing portal; electrical data transmission of email, text messages, music, movies, television shows, music videos, news and sports webcasts over a global remote data processing network, including the Internet; video-on-demand transmission services; sending and receiving of electronic messages by email and text message; message sending via a website namely electronic exchange of messages using chat lines, chatrooms and Internet forums; computerised communication services namely electronic exchange of messages using chat lines, chatrooms and Internet forums; communications by

computer terminals namely email transmission of data and documents via computer terminals; computer intercommunication namely email transmission of data and documents; communication by computer namely email transmission of data and documents; on-line communication services namely email transmission of data and documents via computer terminals; on-line transmission of electronic publications via computer terminals; transmission and distribution of data or audiovisual images via a global computer network or the Internet namely transmission of emails, text messages, music, movies, television shows, music videos, news and sports webcasts; transmission of data, audio, video and multimedia files namely transmission of emails, text messages, music, movies, television shows, music videos, news and sports webcasts via the Internet; transmission of data, audio, video and multimedia files namely providing multiple user access to global computer information networks for the transfer and dissemination of information and downloadable and streaming files; data transmission and data broadcasting namely television and radio broadcasting; transmission of data or audio visual images, namely, emails, text messages, music, movies, television shows, music videos, news and sports webcasts via a global computer network or the Internet; transmission of emails, text messages, music, movies, television shows, music videos, news and sports webcasts by computer and electronic communication means; transmission of information on-line namely providing multiple user access to global computer information networks for the transfer and dissemination of information and files; transmission of multimedia content via the Internet, namely, transmission of emails, text messages, music, movies, television shows, music videos, news and sports webcasts; transmission of emails, text messages, music, movies, television shows, music videos, news and sports webcasts via the Internet; computer aided transmission of emails, text messages, and photographs via the Internet; exchange of messages via computer transmission namely electronic exchange of messages using chat lines, chatrooms and Internet forums; distribution of data or audio visual images via a global computer network or the Internet namely of news and radio podcasts; streaming audio and video material on the Internet namely video-on-demand services; providing streaming audio and video such as music, movies, television shows, music videos, news and sports webcasts via a global computer network; streaming of data, namely, streaming of music, movies, television shows, music videos, news and sports webcasts via a global computer network; Internet based telecommunication services namely providing access to the Internet; web conferencing services; access to content, websites and portals namely providing access to a web, mail and news portal; online messaging services namely providing access to chat lines, chatrooms, and Internet forums; broadcasting of television, film, music and radio content via the Internet.

### **Class 42**

(2) Information services relating to information technology, namely providing information in the fields of computer technology and software development via a global computer network; server hosting; application service provider services, namely, hosting of software on a global computer network for others; hosting websites on the Internet; cloud hosting provider services; private cloud hosting provider service; providing virtual computer environments through cloud computing; programming of operating software for accessing and using a cloud computing network; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; computer system analysis; recovery of computer data; graphic arts design; monitoring of computer systems by remote access; electronic data storage namely cloud computing provider services for general storage of data; providing cloud computing networks and applications; computer software engineering; wireless communications network engineering; installation of computer software; computer software consultancy; computer programming; information technology [IT] consultancy namely creating and designing website-based indexes of

information for others; computer technology consultancy; consultancy in the design and development of computer hardware; web site design consultancy; Internet security consultancy, computer security consultancy; data security consultancy; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems to detect breakdowns; providing search engines for the Internet; updating of computer software; computer rental; rental of computer software; rental of web servers; maintenance of computer software; providing information on computer technology and programming via a web site; web hosting of computer sites; computer software design; computer system design; research in the field of telecommunications technology namely computer hardware, computer software, computer networking and computer datacenter architecture; development of computer platforms; software development in the framework of software publishing; software as a service [SaaS] for cloud hosting; software as a service (SAAS) featuring software for running cloud computing based applications; creating and maintaining web sites for others; creating and designing website-based indexes of information for others [information technology services]; technological consultancy in the field of computer software development; telecommunications technology consultancy in the field of computer software development; data encryption services; information technology services namely troubleshooting of computer software problems provided on an outsourcing basis; computer software technical support services; troubleshooting of computer software problems; provision of technical support in the supervision of computing networks; provision of technical support in the operation of computing networks; technical support services relating to computer software and applications; technical supervision and inspection of computing networks, namely, monitoring technological functions of computer network systems; installation, repair and maintenance of computer software; design, maintenance and updating of computer software; installation, setting up and maintenance of computer software; design, maintenance, development and updating of computer software; installation and customisation of computer applications software; technical consultancy relating to the installation and maintenance of computer software; computer system monitoring services; design of graphic software systems; development of interactive multimedia software; design and development of computer hardware; advice relating to the design of computer hardware; advisory and information services relating to the design and development of computer hardware.

### **Class 45**

(3) Leasing of Internet domain names; registration of domain names [legal services]; registration of domain names for identification of users on a global computer network; registration of domain names for identification of users on a global computer network [legal service]; registration of domain names [legal services]; registration of domain names [legal services]; rental of Internet domain names; licensing [legal services] within the framework of software publishing; licensing of computer software [legal services]; mediation; monitoring of burglar and security alarms; online social networking services; licensing of intellectual property; arbitration services; online social networking services accessible by means of downloadable mobile applications; domain name registration advisory services; consultancy relating to the registration of domain names.

### **Claims**

Priority Filing Date: September 09, 2019, Country or Office: BULGARIA, Application No: 156262 in association with the same kind of goods and in association with the same kind of services

**Application Number** 2,043,289  
**Language of Application** English

**Filing Date** 2020-07-31

## TRADEMARK DETAILS

### Trademark Type

Design

### Visual Representation

The logo for AIXCELL features the word "aixcell" in a lowercase, sans-serif font. The letters "ai" and "cell" are in a dark blue color. The letter "x" is stylized, with a purple vertical line on the left and a turquoise vertical line on the right, intersecting in the center. The intersection point is filled with a solid blue color.

### Colour Claim

Colour is claimed as a feature of the trademark. The colors dark blue, turquoise, blue and purple are claimed as a feature of the mark. The mark consists of the wording "AIXCELL" with the letters "AI" and "CELL" featured in stylized dark blue font with the letter "X" featuring a purple left to right line, a turquoise right to left line, and where the two lines intersect is featured in blue.

### Goods

#### Class 07

(1) Industrial robots for welding, working metal, wood and plastic material; industrial machines for cultivating microorganisms and cells; incubators for cultivating cells and tissues; soil cultivators.

#### Class 09

(2) Laboratory apparatus for reading microplates, namely, microscopes; laboratory apparatus, namely, bioreactors, laboratory incubators and fermenters for culturing cells; laboratory apparatus, namely, robots, laboratory plate racks, laboratory microplates, laboratory stirrers, laboratory test tubes, laboratory transfer pipettes for manipulating, measuring, testing and analyzing laboratory samples of cells; cell culture apparatus for laboratory use, namely, an automated cell culturing system for manipulating laboratory samples of cells, culturing of laboratory samples of cells, conducting and documentation of assays and experiments with laboratory samples of cells; bioreactor for cell culturing; bioreactors for laboratory research use; laboratory incubators [other than for medical use]; laboratory pipettes; laboratory robots; laboratory trays; electronic regulating and control devices for the operation of an automated cell culturing system; electronic control devices for an automated cell culturing system; downloadable and recorded computer software for monitoring, analysing, controlling and running biotechnological installations for cultivating cells, namely, laboratory incubators, laboratory microplates and laboratory transfer pipettes for manipulating laboratory samples of cells, culturing of laboratory samples of cells, conducting and

documentation of assays and experiments with laboratory samples of cells; biotechnological installations for cultivating cells, namely, laboratory incubators, laboratory microplates and laboratory transfer pipettes for manipulating laboratory samples of cells, culturing of laboratory samples of cells, conducting and documentation of assays and experiments with laboratory samples of cells.

#### Class 09

computer hardware and downloadable computer software that retrieves information, analyzes data and machine learning in the field of digital damage detection and claims management, the foregoing for use by motor vehicle fleet operators that provide motor vehicle sharing services; computer software platforms for performing cluster computations in the field of digital damage detection and claims management; downloadable computer software for use in data management, collaborative data analysis, and statistics and machine learning, for general use; downloadable computer databases containing vehicle and driving data analytics, database management software, computer software for database integration, computer software for accessing databases, computer software for creating searchable databases of information and data; computer and communications networks, data networks and data transmission networks, namely, computer networking hardware, namely, network routers; computer software for accessing and connecting computer networks; virtual assistant software; downloadable computer software for machine learning used with AI-algorithms; humanoid robots with artificial intelligence; downloadable computer software for information sharing via hosted services and communications devices, namely, personal computers, mobile computers, mobile phones, mobile apps, and mobile communication and telecommunication apparatus, the foregoing for use by motor vehicle fleet operators that provide motor vehicle sharing services; downloadable computer software for real-time motor vehicle condition monitoring; downloadable application programming interface (API) software for use by motor vehicle fleet operators that provide motor vehicle sharing services; graphical user interface software; cloud-based Internet of Things [IoT] platform that comprises computer hardware modules for use with the IoT, computer application software for use in the implementation of the IoT and computer hardware modules for use in electronic devices using the IoT; electric sensors and infrared detectors; electric sensors and infrared detectors for sensing physical conditions of land vehicles, water and underwater vehicles and aircraft; electrical and electronic sensors, namely, photoelectric sensors; electric current sensors; magnetic and electromagnetic damage detection sensors; piezoelectric motion sensors, piezoelectric pressure sensors, piezoelectric vibration sensors; position sensors; liquid level sensors; motion sensors,

movement sensors, vibration sensors, distance sensors, proximity sensors, position detection sensors; object detecting sensors; humidity sensors, heat and temperature sensors, air temperature sensors; ultrasonic sensors; laser distance sensors; light sensors, optical sensors, infrared sensors, photoelectric sensors; pressure sensors; pollutant sensors; anti-theft alarm sensors, breach alarm sensors, touchscreen sensors; timing sensors; range sensors; mass flow sensors, fluid level sensors; on-off switch sensors; vehicle instrument measurement sensors; rotation speed controlling and speed measuring sensors, gyro sensors using GPS functions; sensors for measuring speed, acceleration sensors, shock sensors; electric sensors used in plant control; electric sensors for use with machine tools; electric sensors for engines and machines; electric sensors for use in the control of motors and engines, vehicle chassis, vehicle bodies, and engine compartments; position sensors for determining window and door shutter positions, door and window opening and closing detecting sensors; smart sensors for determining position, velocity, acceleration and temperature in vehicles; cloud-based Internet of Things [IoT] platform that comprises electric sensors for use with the IoT, electric sensors for use in the implementation of the IoT, electric sensors for use in electric devices using the IoT.

## **Services**

### **Class 35**

(1) business management consulting; fleet vehicle damage detection data processing services and fleet vehicle claims data processing services; database management services; computer-based business consulting in the field of fleet vehicle damage detection, troubleshooting, claims management and servicing and repair through information retrieval, data analytics and machine learning; business management analysis and business management consultancy; business processes management, in particular business management of vehicle fleets, business management of vehicle accidents, business supervision of physical conditions of vehicles, of vehicle driving characteristics and of vehicle driving misuse, interpretation of vehicle driving data for vehicle insurance, cost price analysis, statistical analysis and reporting, assessment analysis relating to business management on the condition and value of a vehicle; wholesale and retail store services featuring computer hardware and computer software for information retrieval, analysis and machine learning software, computer software platforms for performing cluster calculations, computer programmes for data processing, cooperative data analysis and statistics and machine learning, for general purposes, databases, computer software for database management, computer software for the integration of databases, computer software for authorizing access to data bases, computer software for creating searchable databases of information and data, computer and communications networks, data networks and data transmission networks, namely, computer networking hardware, network routers and network services, computer software for accessing and connecting computer networks, virtual assistant software, computer software for machine learning, artificial intelligence apparatus, computer software for sharing information using hosted services and communication devices, namely personal computers, mobile computers, mobile phones, mobile apps, mobile communication and telecommunication devices, computer software for realtime monitoring of conditions, computer software for use as an application programming interface (API), graphical user interface, computer software for user interfaces, computer hardware modules for use in electronic devices using the Internet of Things [IoT], computer application software for use in implementing the Internet of Things [IoT], computer hardware modules for use in electronic devices using the Internet of Things [IoT], sensors and detectors, sensors and detectors for the detection of the physical conditions of land vehicles, water and underwater vehicles and aircraft, electrical and electronic sensors, electric current sensors, magnetic and electromagnetic sensors, piezoelectric sensors, sensors for determining position, level sensors, motion sensors, vibration sensors, distance sensors, proximity

sensors, sensors for determining positions, object detection sensors, humidity sensors, heat and temperature sensors, air temperature sensors, ultrasonic sensors, laser sensors, light sensors, optical sensors, infrared detectors, photoelectric sensors, pressure sensors, pollutant sensors, alarm sensors, sensors for touch screens, timing sensors, range sensors, mass flow sensors, liquid level sensors, on-off sensors, sensors for measuring instruments, rotation measuring and control sensors, gyro sensors using GPS functions, sensors for measuring speed, acceleration sensors, impact sensors, sensors used in plant control, sensors for use with machine tools, sensors for engines and machines, sensors for use in the control of engines, vehicle chassis, bodies for vehicles, engine compartments, closing sensors, door and window opening and closing sensors, connected sensors, sensors for use with the Internet of Things [IoT], sensors for use in implementing the Internet of Things [IoT], sensors for use in electronic devices that use the Internet of Things [IoT].

### **Class 42**

(2) digitalization of real-time vehicle status information, real-time vehicle inspection, maintenance and repair processes, the foregoing for land vehicles, water vehicles and aircraft concerning physical conditions of land vehicles, water vehicles and aircraft; maintenance of computer software; design of computer database, installation of database software, hosting of databases; maintaining computer databases; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; providing temporary use of non-downloadable web-based applications for innovation and knowledge management of information aggregated in real-time; hosting of web and web-based applications for fleet management; hosting of web and mobile-based applications for damage assessment, claims management, fleet tracking and fleet asset management.

### Trademark Type

Standard Characters

### Goods

#### Class 01

(1) Chemical products for use in power generation and fuel treatment; chemicals for use in the treatment of waste, namely sterilizers for waste treatment.

#### Class 04

(2) Fuels, namely, ethanol fuel, fuel pellets, fuels derived from crude oil, methanol fuel, mixed alcohol fuel, nuclear fuel, shelled corn for fuel, solidified gas for fuel, uranium fuel for the use in commercial nuclear power plants, wood for use as a fuel, biogas, biofuel, biomass fuel, wood pellet fuel and electric energy from renewable sources; fossil fuels, namely, biodiesel fuel, diesel fuel, coal based fuel, coal dust being fuel, coke, peat for use as a fuel, petroleum, natural gas, bitumen, Heavy Fuel Oil (HFO), and fuel from crude oil; biomass fuels; gas, gaseous fuels; non chemical additives for fuels.

#### Class 06

(3) Metal containers and tanks for fuels, namely, fuel tanks; articles made of common metals for use in relation to power transmission lines, namely, wire of common metal alloys, fuse wires, telephone wires, electrical wires and cables, and non-electrical guy wires; pylons, namely, transmission towers of metal for power lines.

#### Class 07

(4) Apparatus and installations for power generation, namely, electric power generators, turbines for power generation, engines for the generation of electricity, internal combustion engines for power generation, and steam engine boilers for power generation; machines for use in the generation, transmission, distribution, supply and conservation of energy, namely, integrated fuel cell power generating subsystem comprised of pump control valves, pressure regulating valves, motor pumps and compressors, integrated fuel cell power generating system comprised of fuel cell stacks, automatic electronic control valves for regulating the flow of liquids and pressure sensors, and integrated fuel cell power generating systems and subsystems comprising of hydrocarbon

reformers and fluid and heat transfer piping therefor; installations for the utilisation of waste energy, namely, electric power generators using waste heat; parts and fittings for all the aforesaid goods; electricity generating installations, namely, power stations.

#### **Class 09**

(5) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating, monitoring or controlling electricity, namely, cameras for monitoring and inspecting equipment in a power station, power line conditioners, power cables, electric power controllers, electrical power switches, power units, namely, electronic power transformers, electric power supply units, power switches, and electricity control panels; fuel consumption meters; fuel measuring and dispensing equipment, namely, fuel consumption counters; parts and fittings for all the aforesaid goods.

#### **Class 11**

(6) Fuel processing installations, namely, installations for processing nuclear fuel and nuclear moderating material, installations for processing fossil fuels, and combustion installations for fossil fuels; waste fuel processing installations, namely, bioreactors for use in the treatment of waste and filters for waste gas purification, and waste disposal furnaces; parts and fittings for all the aforesaid goods.

#### **Class 12**

(7) Land vehicles and rail vehicles for the transportation of goods, namely freight cars, freight trains and wagons, cargo vans, cargo trailers, chemical tank trailers, and semi-trailer trucks; water vehicles, namely boats, ships, tankers, and barges for transportation of cargo by water; wagons; tipping apparatus for wagons, namely, tippers, tipplers, and dumpers; load carrying and lifting attachments for motor vehicles, namely elevating platforms for attachment to land vehicles; service trucks.

#### **Class 16**

(8) Printed matter, namely, printed booklets, printed brochures, printed calendars, printed newsletters, and printed pamphlets; printed educational and teaching materials in the field of energy generation, renewable energy and the management of power plants; printed guides in the field of energy generation, renewable energy and the management of power plants; stationery, namely, note paper, note pads, and notebooks.

#### **Class 19**

(9) Non metallic portable buildings containing electricity generating plants; wooden, plastic, and polymer composite posts and poles for power lines; coal tar; building materials made of fly ash; building materials made of fuel waste.

### **Services**

#### **Class 35**

(1) Retail services connected with the sale of electricity, energy, fuels, coal and associated products, namely, providing a service that allows customers to purchase energy, namely electricity and natural gas; business management of energy requirements for others; business consultancy and advisory services in the field of energy generation and the management of power plants; promoting public awareness of the need for energy efficiency and conservation; arranging, conducting and production of trade shows and exhibitions in the field of energy generation, renewable energy and the management of power plants.

#### **Class 37**

(2) Building, repair and maintenance of power stations, generating plants, and electricity power grids; on-site construction project management services; installation, repair and maintenance of fuel wagons and transportation systems, namely, installation, repair, and maintenance of transport containers used in the oil and gas industry; information and advisory services related to all the aforesaid.

### **Class 39**

(3) Distribution, namely, transport, delivery and storage of fuels, namely, ethanol fuel, fuel pellets, fuels derived from crude oil, methanol fuel, mixed alcohol fuel, nuclear fuel, shelled corn for fuel, solidified gas for fuel, uranium fuel for the use in commercial nuclear power plants, wood for use as fuel, biodiesel fuel, diesel fuel, coal based fuel, coal dust being fuel, coke, peat for use as fuel, petroleum, natural gas, bitumen, Heavy Fuel Oil (HFO), fuel from crude oil, biogas, biofuel, biomass fuel, wood pellet fuel, and electrical energy from renewable sources; energy supply services, namely, utility services; transmission of electricity and other energy sources, namely, natural gas, and distribution of electrical energy to residential and commercial users; collection, removal and storage of waste, namely, chemical waste, Fossil Fuel Combustion (FFC) waste, nuclear waste, and radioactive waste; transport and delivery of fuels, fuel waste and bi-products by road, rail, water and air; information and advisory services related to all the aforesaid.

### **Class 40**

(4) Power generation; production of energy; generation of energy from renewable sources; material treatment of biomass; water treatment, namely, treatment of waste water, water filtration and conditioning services; treatment of waste, namely, chemical waste, Fossil Fuel Combustion (FFC) waste, nuclear waste, radioactive waste, and waste wood and wood industry bi-products; processing and refinement of fuel materials; conversion and treatment of bi-products from power stations and cooling towers, namely energy recycling services that capture and convert wasted energy in to electricity and useful steam; information and advisory services related to all the aforesaid.

### **Class 41**

(5) Education and training services related to environmental assessment, renewable energy, and energy efficiency matters; education and training in the fields of power supply, waste management, alternative fuels, farming of fuel crops, occupational health and safety, engineering, namely, chemical engineering, civil engineering, industrial engineering, electrical engineering, and software engineering and construction, namely, the construction of electrical power generators and electricity and energy supply infrastructure; operation of a visitor centre, namely, visitor centre services promoting education in the field of power stations; organisation of conferences, seminars, exhibitions, events and competitions in the field of energy generation, renewable energy and the management of power plants; publication of printed matter in the field of energy generation, renewable energy and the management of power plants; and non downloadable on-line publications in the field of energy generation, renewable energy and the management of power plants.

### **Class 42**

(6) Prospecting and exploiting natural fuel resources; advisory, information and consultancy services relating to energy management and efficiency; technical project studies concerning energy efficiency; energy use and conservation consultancy; scientific and technological services and research and design services relating to power plants, power supply and alternative fuels; design of energy and power systems; testing of power generating plants, pipework and transmission lines; consultancy services in relation to compliance with industrial, environmental,

construction and health and safety laws and regulations; information and advisory services relating to all the aforesaid services.

### Foreign Character Translation

The translation provided by the applicant of the Chinese words WANG, YIN, GUO, and JI is NET and NETWORK for the word WANG, SILVER for the word YIN, COUNTRY and NATION for the word GUO and BORDER, BOUNDARY, and EDGE for the word JI.

### Foreign Character Transliteration

The transliteration provided by the applicant of the Chinese characters is WANG, YIN, GUO, and JI.

### Goods

#### Class 09

Computer games [software]; computer game programs; computer game software downloadable from the internet; pictures downloaded from the Internet; downloadable digital content in the form of electronic publications of brochures, handbooks, magazines, newsletters, and pamphlets; downloadable electronic publications, namely magazines, journals, newsletters and manuals in the field of computer games and video games; downloadable applications for mobile phones to download and play video games; smart glasses; smart watches; smart bracelets (measuring instruments); wearable activity trackers; virtual reality glasses; smart rings.

### Services

#### Class 35

(1) Computer file management; computerized database management; business intermediary services relating to the matching of computer game software providers and computer game users; operating marketplaces online for the exchange second hand goods; rental of advertising

billboards; online retail store services in the field of computer video games and video game software; retail services provided by department stores; business management of network security; advertising the goods and services of others.

### **Class 38**

(2) Streaming via the Internet of audio and video featuring music, movies, television shows, music video, news, computer video game competitions, and sports completions; television broadcasting services; electronic exchange of text messages, voice messages and video message via a global computer network; providing online chat room services; providing access to online chatrooms; providing access to online forums for the transmission of messages, comments, and multimedia content among users; internet access provider services; internet service provider services; providing internet access; providing access to internet platforms; telegraphic communication services; providing user access to global computer networks.

### **Class 41**

(3) Nightclub services; nightclub entertainment services; entertainment services provided by discotheques; karaoke services; casino services; providing casino facilities [gambling]; providing entertainment information in the field of video game tournaments and competitions; games as a service (GAAS) provider services featuring online non-downloadable video games and computer games; entertainment services in the form of horse races, and automobile races; children's adventure playground services; providing amusement arcade services; rental of indoor recreational facilities for playing video games and computer games and group recreation event; lottery services; operating and conducting lotteries; electronic game services provided by means of the internet.

### **Class 42**

(4) Computer software design; computer graphics design; computer program design; computer software updating; computer software maintenance; computer software rental; consultancy relating to the design of computer software; computer software consulting; computer system analysis; computer system design; computer programming for data processing; recovery of computer data; rental of memory space on servers; network server rental; planning and building websites; building and maintaining websites for others; hosting web sites providing computer games and video games; server hosting; computer security consultancy; consultancy relating to computer information security; computer network security consultancy; web design; hosting websites; creating or maintaining web pages for others; consultancy in the design and development of computer hardware; cloud computing provider services for general storage of data; providing cloud storage facilities for use as a data center for others; backup services for computer hard drive data; remote computer data backup; computer software and hardware consulting services in the field of information technology; software as a service featuring software for running cloud computing based applications; website design consultancy; software development in the framework of software publishing.

## TRADEMARK DETAILS

### Trademark Type

Three-dimensional (3-D)

### Visual Representation

### Trademark Description

The mark consists of a three-dimensional product packaging design comprised of the stylized design of a king chess piece, topped by a cross, protruding as a raised surface detail from the front of a champagne bottle. The king chess piece is positioned such that it extends from the center of the bottle's bottom up to the middle of the bottle. Behind the king chess piece and affixed to the bottle is a molded chess-shaped piece that illuminates the king chess piece. On the base of the chess piece, in stylized and raised script, is the wording "LE CHEMIN DU ROI". Centered beneath this, in smaller raised script and also on the base of the chess piece, is the wording "PRODUCT OF FRANCE". The matter shown in dotted lines is not claimed as a feature of the mark, but serves to show the position of the mark with respect to the bottle as a whole, and to show the placement of the mark on the goods.

### Disclaimer

The right to the exclusive use of the words "PRODUCT OF FRANCE" is disclaimed apart from the trademark.

## TRADEMARK DETAILS

### Trademark Type

Design

### Visual Representation

### Trademark Description

The mark consists of the main verbal element "nomadia". The letters "nomad" and "ia" appear in two different colours, above the baseline "SMART MOBILITY SOLUTIONS". The sign is completed with a figurative element representing a stylized bird.

### Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of a stylized bird above the term "nomadia", itself above the stylized words "SMART MOBILITY SOLUTIONS". The blue colour is used for the main body of the bird, for the letters "nomad" in the term "nomadia" and for the expression "SMART MOBILITY SOLUTIONS". The green colour is used for the letters "IA" in the term "nomadia" and for the line representing the belly of the bird.

### Goods

#### Class 09

Computer software and mobile applications for enterprise resource planning (ERP) in the field of supply chain management; enterprise software featuring technology for analyzing and overseeing the procurement and use of applications in order to optimize performance, engagement and efficiency; recorded interactive computer software for the management, tracking and communication of business management performance indicators; computer software and mobile applications for customer relationship management (CRM); software applications for the management and provision of customer relationship management services; downloadable mobile

application software for creating, printing, emailing and saving purchase orders, and for tracking the delivery of purchase orders; logistics management software and mobile applications in the fields of freight, supply chain and transport; software and mobile applications in the field of human resources management; software and mobile applications for tracking and optimizing product referrals; geographic information system (GIS) software; computerized maintenance management system (CMMS) software; recorded computer programs for creating, storing, managing, viewing, transmitting, reproducing and using a cartographic database.

### Goods

#### Class 01

(1) Chemical products for use in power generation and fuel treatment; chemicals for use in the treatment of waste, namely sterilizers for waste treatment.

#### Class 04

(2) Fuels, namely, ethanol fuel, fuel pellets, fuels derived from crude oil, methanol fuel, mixed alcohol fuel, nuclear fuel, shelled corn for fuel, solidified gas for fuel, uranium fuel for use in commercial nuclear power plants, wood for use as a fuel, biogas, biofuel, biomass fuel, wood pellet fuel, and electrical energy from renewable sources; fossil fuels, namely, biodiesel fuel, diesel fuel, coal based fuel, coal dust being fuel, coke, peat for use as a fuel, petroleum, natural gas, bitumen, Heavy Fuel Oil (HFO), and fuel from crude oil; biomass fuels; gas, gaseous fuels; non chemical additives for fuels.

#### Class 06

(3) Metal containers and tanks for fuels, namely, fuel tanks; articles made of common metals for use in relation to power transmission lines, namely, wire of common metal alloys, fuse wires, telephone wires, electrical wires and cables, and non-electrical guy wires; pylons, namely, transmission towers of metal for power lines.

#### Class 07

(4) Apparatus and installations for power generation, namely, electric power generators, turbines for power generation, engines for the generation of electricity, internal combustion engines for power generation, and steam engine boilers for power generation; machines for use in the generation, transmission, distribution, supply and conservation of energy, namely, integrated fuel

cell power generating subsystem comprised of pump control valves, pressure regulating valves, motor pumps and compressors, integrated fuel cell power generating system comprised of fuel cell stacks, automatic electronic control valves for regulating the flow of liquids and pressure sensors, and integrated fuel cell power generating systems and subsystems comprising of hydrocarbon reformers and fluid and heat transfer piping therefor; installations for the utilisation of waste energy, namely, electric power generators using waste heat; parts and fittings for all the aforesaid goods; electricity generating installations, namely power stations.

### **Class 09**

(5) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating, monitoring or controlling electricity, namely, cameras for monitoring and inspecting equipment in a power station, power line conditioners, power cables, electric power controllers, electrical power switches, electronic power transformers, electric power supply units, power switches, and electricity control panels; fuel consumption meters; fuel measuring and dispensing equipment, namely, fuel consumption counters; parts and fittings for all the aforesaid goods.

### **Class 11**

(6) Fuel processing installations, namely, installations for processing nuclear fuel and nuclear moderating material, installations for processing fossil fuels, and combustion installations for fossil fuels; waste fuel processing installations, namely, bioreactors for use in the treatment of waste, filters for waste gas purification, and waste disposal furnaces; parts and fittings for all the aforesaid goods.

### **Class 12**

(7) Land vehicles and rail vehicles for the transportation of goods, namely freight cars, freight trains and wagons, cargo vans, cargo trailers, chemical tank trailers, and semi-trailer trucks; water vehicles, namely boats, ships, tankers, and barges for transportation of cargo by water; wagons; tipping apparatus for wagons, namely, tippers, tipplers, and dumpers; load carrying and lifting attachments for motor vehicles, namely elevating platforms for attachment to land vehicles; service trucks.

### **Class 16**

(8) Printed matter, namely, printed booklets, printed brochures, printed calendars, printed newsletters, and printed pamphlets; printed educational and teaching materials in the field of energy generation, renewable energy and the management of power plants; printed guides in the field of energy generation, renewable energy and the management of power plants; stationery, namely, note paper, note pads, and notebooks.

### **Class 19**

(9) Non metallic portable buildings for containing electricity generating plants; wooden, plastic, and polymer composite posts and poles for power lines; coal tar; building materials made of fly ash; building materials made of fuel waste.

### **Services**

#### **Class 35**

(1) Retail services connected with the sale of electricity, energy, fuels and coal, namely, providing a service that allows customers to purchase energy, namely, electricity and natural gas; business management of energy requirements for others; business consultancy and advisory services in the field of energy generation and the management of power plants; promoting public awareness of

the need for energy efficiency and conservation; arranging, conducting and production of trade shows and exhibitions in the field of energy generation, renewable energy and the management of power plants.

### **Class 37**

(2) Building, repair and maintenance of power stations, generating plants, and electricity power grids; on-site construction project management services; installation, repair and maintenance of fuel wagons and transportation systems, namely, installation, repair, and maintenance of transport containers used in the oil and gas industry; information and advisory services related to all the aforesaid.

### **Class 39**

(3) Distribution, namely, transport, delivery, and storage of fuels, namely, ethanol fuel, fuel pellets, fuels derived from crude oil, methanol fuel, mixed alcohol fuel, nuclear fuel, shelled corn for fuel, solidified gas for fuel, uranium fuel for the use in commercial nuclear power plants, wood for use as fuel, biodiesel fuel, diesel fuel, coal based fuel, coal dust being fuel, coke, peat for use as fuel, petroleum, natural gas, bitumen, Heavy Fuel Oil (HFO), fuel from crude oil, biogas, biofuel, biomass fuel, wood pellet fuel, and electrical energy from renewable sources; energy supply services, namely, utility services; transmission and distribution of electricity and other energy sources, namely, natural gas, and distribution of electrical energy to residential and commercial users; collection, removal and storage of waste, namely, chemical waste, Fossil Fuel Combustion (FFC) waste, nuclear waste, and radioactive waste; transport and delivery of fuels, fuel waste and bi-products by road, rail, water and air; information and advisory services related to all the aforesaid.

### **Class 40**

(4) Power generation; production of energy; generation of energy from renewable sources; material treatment of biomass; water treatment, namely, treatment of waste water, water filtration and conditioning services; treatment of waste, namely, chemical waste, Fossil Fuel Combustion (FFC) waste, nuclear waste, radioactive waste, and waste wood and wood industry bi-products; processing and refinement of fuel materials; conversion and treatment of bi-products from power stations and cooling towers, namely, energy recycling services that capture and convert wasted energy into electricity and useful steam; information and advisory services related to all the aforesaid.

### **Class 41**

(5) Education and training services related to environmental assessment, renewable energy, and energy efficiency matters; education and training in the fields of power supply, waste management, alternative fuels, farming of fuel crops, occupational health and safety, engineering, namely, chemical engineering, civil engineering, industrial engineering, electrical engineering, and software engineering and construction, namely the construction of electrical power generators and electricity and electricity and energy supply infrastructure; provision of educational programs to visitors for education, entertainment and cultural purposes in the field of power stations and renewable energy; organisation of conferences, seminars, exhibitions, events and competitions in the field of energy generation, renewable energy and the management of power plants; publication of printed matter in the field of energy generation, renewable energy and the management of power plants; non downloadable on-line publications in the field of energy generation, renewable energy and the management of power plants.

### **Class 42**

(6) Prospecting and exploiting natural fuel resources; advisory, information and consultancy services relating to energy management and efficiency; project management of energy efficient projects in the field of alternative energy generation and the management of power plants; consultancy services relating to energy conservation management; scientific and technological services and research and design services relating to power plants, power supply and alternative fuels; design of energy and power systems; testing of power generating plants, pipework and transmission lines; information and advisory services relating to all the aforesaid services.

**Class 45**

(7) Consultancy services in the nature of reviewing standards and practices in relation to compliance with industrial, environmental, construction and health and safety laws and regulations.

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The rivers are dark blue. The mountains are outlined in grey. The terms "CHUM CHURUM" are in white surrounded by a grey rectangle. The Korean characters on the center-left are in black. The Korean characters on the center-right above the teardrop design are in dark blue. The teardrop design is also in dark blue. The remaining Korean characters on the right side are in grey with grey lines dividing them.

### Foreign Character Translation

The Applicant has advised that the Korean terms transliterated as Cheo-um-cheo-reom, Dae-gwallyeong-gi seuk, Am-ban-su-roman-deun, and Bu-deu-reo-un-so-ju mean like the beginning or just like the start, at the shore (coast) of Dae-gwallyeong, made from bedrock water, and soft soju, respectively.

### Foreign Character Transliteration

The transliteration provided by the applicant of the Korean characters is Cheo-um-cheo-reom, Dae-gwallyeong-gi-seuk, Am-ban-su-ro-man-deun, Bu-deu-reo-un-so-ju..

### Goods

## TRADEMARK DETAILS

### Trademark Type

Design

### Visual Representation

### Trademark Description

The mark consists of an inverted pyramid with a base line removed to form a stylized V to the left of a stylized spelling of the word Vicarious, which is disposed above the stylized spelling of the word Surgical.

### Goods

#### Class 05

(1) Surgical devices, namely, surgical gauze, surgical pads being surgical dressings, surgical dressings, surgical bandages, and surgical mesh comprised primarily of living tissue.

#### Class 09

(2) Computer console comprised of hardware used for lower gastrointestinal surgical and medical procedures; computer console comprised of hardware, software, controllers, control pedals for lower gastrointestinal surgical and medical procedures; computer console comprised of hardware used for surgical and medical procedures; recorded non-downloadable software for operating and controlling a surgical system having a surgeon's console, immersive display, sensors, tracking devices, robotic arms, cameras, and a patient side-cart; on-line, downloadable software for operating and controlling a surgical system having a surgeon's console, immersive display, sensors, tracking devices, robotic arms, cameras, and a patient side-cart; recorded non-downloadable computer software using artificial intelligence for surgery.

#### Class 10

(3) surgical robots; medical device, namely, a remote manipulation system consisting of a robotic arm, camera, and controllers to facilitate remote surgical procedures; medical device, namely, a remote manipulation system consisting of a robotic arm, camera, motors, support system being a

medical instrument stand, and controllers to facilitate remote surgical procedures; medical device, namely, computerized surgical manipulation system comprised of a surgeon's console, display, sensors, tracking devices, robotic arms, cameras, and a patient side-cart; medical device, namely, computerized surgical manipulation system comprised of a surgeon's console, display, force sensors, motion sensors, haptic feedback sensors, tracking devices, robotic arms, and cameras; medical device, namely, computerized surgical manipulation system used for medical and surgical procedures comprised of surgeon's immersive video display monitors used in direct association with surgical instruments, camera for medical purposes, camera image processing equipment being part of surgical instruments, surgical robotic arms, controllers to facilitate remote surgical procedures, used with surgical manipulation system software and computer console; surgical instruments, namely, laparoscopes, endoscopes, trocars, cannulas, cutters, clamps, scalpels, knives, light sources being lamps and LED devices used in direct association with surgical apparatus and instruments, cables and component parts for surgical apparatus and instruments, cable driven actuators used in direct association with surgical apparatus and instruments, electrosurgical instruments, electrocautery instruments, laser instruments, ultrasound instruments, lens cleaning brushes used in direct association with surgical apparatus and instruments, scrub brushes used in direct association with surgical apparatus and instruments, biopsy brushes used in direct association with surgical apparatus and instruments, clip applicators and clips used in direct association with surgical apparatus and instruments, tack applicators and tacks used in direct association with surgical apparatus and instruments, staplers, needle holders used in direct association with surgical apparatus and instruments, hemostats that clamp blood vessels to diminish or half blood flow, graspers used in direct association with surgical apparatus and instruments, curettes, instrument guides used in direct association with surgical apparatus and instruments, ligature passing and knotting instruments, needles, retractors, snares used in direct association with surgical apparatus and instruments, stylets being probes used in direct association with surgical apparatus and instruments, forceps, dissectors used in direct association with surgical apparatus and instruments, skinfold calipers, scissors, suction and irrigation probes, sterile drapes, instrument sheathing used in direct association with surgical apparatus and instruments, electrocautery generator used in direct association with surgical apparatus and instruments, suturing apparatus, lancets, spatulas, and strippers used in direct association with surgical apparatus and instruments; surgical instruments, namely, scalpels, scalpel blades and handles, staplers, tackers, clip applicators, electrocautery tools, forceps, grippers, needle holders, and graspers; robotically articulated camera used for lower gastrointestinal medical and surgical procedures; robotically articulated endoscopy camera for medical use; robotically articulated camera used for medical and surgical procedures; surgical apparatus and instruments for use in surgery, namely surgical instruments

## **Services**

### **Class 41**

(1) medical and surgical training and teaching for procedures using the surgical robotic software system; training in the use and operation of a surgical robotic system; training services related to maintenance and repair of a surgical robotic system and components; training services for sterilizing components of a surgical robotic system

### **Class 44**

(2) providing medical and surgical information in the field of surgical robots, training documents and associated surgical information in the field of surgical robots, data regarding surgical

procedures namely images of surgical procedures performed using a surgical robot, video of surgical procedures performed using a surgical robot, simulations of surgical procedures performed using a surgical robot via a website

**Application Number** 2,168,486  
**International Registration Number** 1645954

#### Class 10

(3) surgical robots; medical device, namely, a remote manipulation system consisting of a robotic arm, camera, and controllers to facilitate remote surgical procedures; medical device, namely, a remote manipulation system consisting of a robotic arm, camera, motors, support system being a medical instrument stand, and controllers to facilitate remote surgical procedures; computerized surgical manipulation system comprised of a surgeon's console, display, sensors, tracking devices, robotic arms, cameras, and a patient side-cart; computerized surgical manipulation system comprised of a surgeon's console, display, force sensors, motion sensors, haptic feedback sensors, tracking devices, robotic arms, and cameras; medical device, namely, computerized surgical manipulation system used for medical and surgical procedures comprised of surgeon's immersive video display monitors used in direct association with surgical instruments, camera for

medical purposes, camera image processing equipment being part of surgical instruments, surgical robotic arms, controllers to facilitate remote surgical procedures used with surgical manipulation system software and computer console; surgical instruments, namely, laparoscopes, endoscopes, trocars, cannulas, cutters, clamps, scalpels, knives, light sources being lamps and LED devices used in direct association with surgical apparatus and instruments, cables and component parts for surgical apparatus and instruments, cable driven actuators used in direct association with surgical apparatus and instruments, electrosurgical instruments, electrocautery instruments, laser instruments, ultrasound instruments, lens cleaning brushes used in direct association with surgical apparatus and instruments, scrub brushes used in direct association with surgical apparatus and instruments, biopsy brushes used in direct association with surgical apparatus and instruments, clip applicators and clips used in direct association with surgical apparatus and instruments, tack applicators and tacks used in direct association with surgical apparatus and instruments, staplers, needle holders used in direct association with surgical apparatus and instruments, hemostats that clamp blood vessels to diminish or half blood flow, graspers used in direct association with surgical apparatus and instruments, curettes, instrument guides used in direct association with surgical apparatus and instruments, ligature passing and knotting instruments, needles, retractors, snares used in direct association with surgical apparatus and instruments, stylets being probes used in direct association with surgical apparatus and instruments, forceps, dissectors used in direct association with surgical apparatus and instruments, skinfold calipers, scissors, suction and irrigation probes, sterile drapes, instrument sheathing used in direct association with surgical apparatus and instruments, electrocautery generator used in direct association with surgical apparatus and instruments, suturing apparatus, lancets, spatulas, and strippers used in direct association with surgical apparatus and instruments; surgical instruments, namely, scalpels, scalpel blades and handles, staplers, tackers, clip applicators, electrocautery tools, forceps, grippers, needle holders, and graspers; robotically articulated camera used for lower gastrointestinal medical and surgical procedures; robotically articulated endoscopy camera for medical use; robotically articulated camera used for medical and surgical procedures; surgical apparatus and instruments for use in surgery, namely surgical instruments

## **Services**

### **Class 41**

(1) medical and surgical training and teaching for procedures using the surgical robotic software system; training in the use and operation of a surgical robotic system; training services related to maintenance and repair of a surgical robotic system and components; training services for sterilizing components of a surgical robotic system

### **Class 44**

(2) providing medical and surgical information in the field of surgical robots, training documents and associated surgical information in the field of surgical robots, data regarding surgical procedures namely images of surgical procedures performed using a surgical robot, medical information in the form of videos of surgical procedures, namely videos of surgical procedures performed using a surgical robot, medical information in the form of simulations of surgical procedures, namely simulations of surgical procedures performed using a surgical robot via a website

### Visual Representation

### Trademark Description

The mark consists of the design of a stylized bee with two sets of stylized leaves on either side, all below the wording "BEE & WILLOW" in stylized all capital letters in an arc.

### Goods

#### Class 03

(1) Dish detergent; laundry soap; non-medicated body soaks; non-medicated hand soaps; scented linen sprays; scented products, namely, potpourri and fragrance sachets; soaps for household use; soaps for personal use; potpourri, non-medicated liquid soap; hand lotions; essential oils, namely, aromatic essential oils, essential oils for aromatherapy, essential oils for personal use; air fragrance reed diffusers; scented room sprays; incense.

#### Class 04

(2) Candles; scented candles; scented products, namely, scented granulated wax for use in candle warmers; wax melts.

#### Class 05

(3) Antibacterial soap; antibacterial hand lotion; insect repellents for humans and pets.

#### Class 06

(4) Non-luminous and non-mechanical metal signs for decoration; non-luminous and non-mechanical decorative street signs of metal; metal multiuse hooks for hanging home accessories; clothes hooks of metal; hat hooks of metal.

#### **Class 08**

(5) Flatware, namely, forks, knives, and spoons; cheese knives.

#### **Class 11**

(6) Lighting fixtures; candle lamps; floor lamps; sconce lighting fixtures; table lamps; portable fire pits; lanterns for lighting; electric holiday lights; electric night lights; battery operated electric candles; string lights for festive decoration; lighting for outdoor holiday sculptures and wire frame statues all made out of metal; household air cleaners; lamp shades.

#### **Class 14**

(7) Wall-mounted clocks, table clocks and desk clocks, all as and for home décor.

#### **Class 16**

(8) Paper towels; cookbook holders; wall decor, namely, art pictures and prints, printed art reproductions and paintings and collages.

#### **Class 18**

(9) Pet clothing.

#### **Class 19**

(10) Non-luminous and non-mechanical non-metal signs for decoration.

#### **Class 20**

(11) Drapery hardware, namely, traverse rods, poles, curtain hooks, curtain rods, and finials; bed headboards; beds; decorative mirrors; ottomans; sofas; wine racks; picture frames; bathroom furniture; bedroom furniture; cupboards being furniture; dining room furniture; entertainment centers being furniture; furniture chests; furniture partitions; furniture shelves; garden furniture; home furniture; kitchen furniture; living room furniture; metal wall units being furniture; nursery furniture; office furniture; outdoor furniture; pet furniture; tables; chairs; stools; bookshelves; night tables; bed headboards; bed frames; dressers; desks; bathroom vanities; pillows; indoor benches being household furniture; outdoor benches; furniture benches; chairs; étagères; shelves for books; stools; tables; end tables; bar carts; tiered carts, namely, bar carts, for household purposes; seat pads; seat cushions; luggage racks being furniture; beds for household pets; bed pillows; decorative centerpieces of plastic, wax, and wood; decorative pillows; drawer organizers for silverware.

#### **Class 21**

(12) Plastic storage baskets for household purposes; fabric storage baskets for household purposes; wood storage baskets for household purposes; plastic waste baskets; cloth laundry baskets; plastic laundry baskets; beverage containers; beverage glassware; thermal insulated beverage holders; cocktail glasses; drinking glasses, mugs; martini glasses; pint glasses; shot glasses; water glasses; wine glasses; coffee mugs; travel mugs; dinnerware; ceramic coasters; coasters of bamboo; coasters of cork; coasters of leather; coasters of metal; coasters of porcelain; coasters of rubber; drink coasters; glass coasters; plastic coasters; laundry hampers for domestic or household use; soap dishes; soap dispensers; toothbrush holders; vases; cutting boards; colanders; kitchen utensils, namely, wooden cooking spoons, spatulas, cooking strainers, cocktail strainers, juice strainers, tea strainers, wine strainers; bowls; mugs; mug trees; holders for kitchen utensils, namely, spatula, spoon, and turner holders; serving platters; countertop holders for paper

towels; cutlery tray; spice racks; spice jars sold empty; food storage canisters, for household use; pitchers; trivets; bread baskets for household purposes; spoon rests; fruit bowls; serveware, namely, serving platters, serving spoons, and serving bowls; kitchen organizing racks, namely, spice racks; snack trays in the nature of serving trays; napkin rings; figurines of glass; waste baskets; candy dishes; salt and pepper shakers; incense burners; artificial eggs; bath sponges; cheese boards; clay pots; clothes drying racks; cocktail shakers; decorative centerpieces of ceramic, earthenware, glass, porcelain, terra cotta; dinnerware, namely, plates, bowls, cups and saucers; dispensers for liquid soap; drinking cups; drinking glasses; electric essential oil diffusers; flower pots; flower vases and bowls; indoor terrariums for plants; mugs; plates; terrariums for plants.

**Class 24**

(13) Shower curtains; tablecloths of textile; kitchen towels; fabric table runners; throws; bath towels; beach towels; cloth towels; cotton towels; dish towels for drying; hand towels; microfiber towels; tea towels; towels of textile; pillow shams; comforters; quilts; bed skirts; duvet covers; fabric window coverings and treatments, namely, curtains, draperies, sheers, and valances; bed sheets; pillow cases; bath towels; bed blankets; curtains; table linen of textile, namely, coasters, napkins, place mats.

Position

### Visual Representation

### Trademark Description

The mark consists of the positioning of the colour design elements as applied to a three-dimensional can. The can shown in dashed lines does not form part of the trademark but is included merely to show the positioning of the design elements of the mark. Images of small water drops appear randomly throughout the trademark.

### Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of the colours teal, green, silver, red, grey, white, and blue and the positioning of the design elements as applied to a three-dimensional can, as shown in the visual representation. The top of the can displays a green band. The upper portion of the can is grey with images of frost in shades of teal appearing in the background. A red star lined in silver and white appears in the center of the mark. A thick teal curved band appears above the red star. The word "SILVER" is blue and appears vertically on the left side of the upper portion of the design. A silver line appears in the lower centre of the mark.

The bottom portion of the star breaks the silver line in two places. The bottom portion of the mark is silver-white and contains the letters "eine" in green and outlined in silver. The first "e" is incomplete.

## TRADEMARK DETAILS

### Trademark Types

Design  
Position

### Visual Representation

### Trademark Description

The mark consists of the positioning of two colour design elements as applied to a three-dimensional bottle. The bottle shown in dashed lines does not form part of the trademark but is included merely to show the positioning of the design elements of the mark.

### Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of the colours teal, green, silver, red, grey, white, and blue and the positioning of two design elements as applied to a three-dimensional bottle. The first design element appears on the neck of the bottle and features an oval outlined in teal. The interior of the oval appears frosted in the colour silver. There is a red star at the top of the oval. Within the oval, the word "HEINEKEN" is green and the word "SILVER" is blue. The second design element appears on the middle of the bottle and consists of a large oval outlined in teal with the top and bottom portions being separated by a white banner that is outlined in green and contains the word "HEINEKEN" in green. The white banner extends slightly beyond the teal oval and has small grey triangles at the top and bottom edges of the banner. A red star, lined in white, appears above the word "HEINEKEN" and extends into the upper portion of the

oval. A silver frost design appears behind the red star and eventually fades before reaching the teal border. The word "SILVER" appears in blue underneath the white banner. A silver frost design appears behind the word "SILVER" and eventually fades before reaching the teal border. The words "HEINEKEN SILVER" appear in silver above the top of the teal oval.

#### Class 09

Downloadable computer software for use as an application programming interface for the development, testing, and integration of blockchain software applications; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for ordering and purchasing goods and services of others via the internet, a global communications network and wireless communication network; downloadable e-commerce computer software to allow users to perform electronic business transactions via a global computer networks; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in application and database integration; downloadable software for managing and validating cryptocurrency transactions using blockchain technology; downloadable computer software, downloadable mobile application software, and downloadable computer application for mobile device and computers, all for use as a cryptocurrency wallet; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in authorizing access to databases; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of financial data and information; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all to allow customers to access financial account information on the internet; downloadable computer software for managing and validating cryptocurrency transactions using blockchain- based smart contracts; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for the development, deployment and management of computer software systems and software applications; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in electronic storage of data; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in the encryption of digital files; computer hardware; downloadable computer software,

downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for managing digital currency payment and exchange transactions; downloadable computer software for creating a decentralized and open source cryptocurrency for use in block-chained transactions; downloadable computer software for creating a decentralized and open source virtual currency for use in block-chained transactions; cryptocurrency hardware wallet; downloadable computer software development tools, namely, for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smart phones; computer software for use as an application programming interface (API) for use in building software applications; downloadable application programming interface (API) for use in building software applications for social networking and for data retrieval, upload, download, access and management; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of financial data and information; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all to allow users to perform online digital currency payment and exchange transactions; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in managing user portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for managing electronic payment transactions using distributed ledger technology (DLT); software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for implementing and recording financial transactions; software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in financial trading; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in financial exchange; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in accessing financial information and market data and trends; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in settling financial transactions; software for providing authentication of parties to a financial transaction; software for maintaining ledgers for financial transactions; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for the management of cryptographic security of electronic transmissions across computer networks; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for encrypting and enabling secure transmission of digital information relating to virtual currencies, digital and blockchain assets over the Internet; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for allowing users to calculate payment parameters related to financial

transactions; distributed ledger software for use in processing financial transactions; software for electronic funds transfer; software for currency conversion; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for the collection and distribution of financial data; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all to allow users to perform electronic payment transactions; computer software programs for connecting computers to local online databases and global computer networks; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for creating searchable databases of information and data; software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; software for creating and managing smart contracts; software for managing payment and exchange transactions; software and hardware for use as a digital currency wallet; software and hardware for use as a virtual currency wallet; software and hardware for use as a digital asset wallet; software and hardware for use as a digital token wallet; software and hardware for use as a crypto token wallet; software and hardware for use as a utility token wallet; software for creating a decentralized and open source digital currency for use in blockchain-based transactions; software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; software for creating a decentralized and open source digitized asset for use in blockchain-based transactions; software for creating a decentralized and open source digital token for use in blockchain-based transactions; software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens or utility tokens that allow users to buy from, and sell products and services to others; computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; software for creating, selling and managing blockchain-based tokens or appcoins; downloadable software for use in an electronic financial platform for the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transaction; software for processing electronic payments and for transferring funds to and from others; software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; computer software for interacting with blockchain platforms; downloadable computer software, downloadable mobile application software, and downloadable computer application software for mobile devices and computers, all for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; downloadable software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software for managing crypto currency and digital currency accounts; software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use in enabling the electronic transfer of funds to and from others; software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; software for developing, deploying, and managing software applications, and

integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software for use in facilitating the use of a blockchain or distributed electronic ledger to execute and record financial transactions, namely, financial trades made with the use of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; security token hardware; electronic currency converters; software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, PDA, and web-based environment; software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; software for use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; software for facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties; software for use as an application program interface (API) software for use in computer hardware device identification; software for use in authenticating user access to computers and computer networks; software for use in facilitating secure payment transactions; software for use in accessing, reading, tracking, and using blockchain technology; software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; software for network identification verification, authentication and management services for security purposes; authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards, debit cards and payment cards; encryption devices, namely, electronic encryption units; security tokens; software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens

## **Services**

### **Class 35**

(1) Marketing, advertising, and promotion services for others, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; business information management; provision of market research and information services; promoting the goods and services of others via computer and communication networks; business and advertising services, namely, advertising and business management consultancy, media buying services; market intelligence services; facilitating the exchange and sale of services and products of third parties via computer and communication networks; providing online marketplaces for sellers of goods and/or services; providing online facilities for connecting sellers with buyers; providing a website featuring an online marketplace for selling and trading virtual goods with other users; online trading services; arranging and conducting special events for commercial,

promotional or advertising purposes; arranging and conducting special events for business purposes; blockchain as a service, namely, providing business advice and information in the field of blockchain technology

### **Class 36**

(2) Financial services, namely, money lending, administration of transactions, trading of financial instruments and digital currency, and investment fund transfer and transaction services; financial services, namely, providing a virtual currency for use by users of an online community via a global computer network; financial services, namely, providing electronic transfer of virtual currency for use by users of an online community via a global computer network; financial transactions services, namely, providing secure commercial transactions and payment options; providing of financial transaction services via a global computer network; financial services, namely, virtual currency transfer services, cryptocurrency trading services, cryptocurrency exchange services and cryptocurrency payment processing services; financial services, namely, financial exchange of virtual currencies; financial services, namely payment transaction processing services; financial transaction processing services, namely, providing secure commercial transactions and payment options; providing a financial exchange for the trading of cryptocurrency, virtual currency, digital tokens, digital currency, decentralized application tokens and blockchain based assets; providing financial information in the fields of cryptocurrency, virtual currency, digital tokens, digital currency, decentralized application tokens and blockchain assets by electronic means; investment brokerage services; mortgage brokerage services; securities brokerage services; futures brokerage services; financial brokerage services for financial instruments, cryptocurrency and digital currency trading; currency dealing services; digital currency exchange services; cryptocurrency payment processing services; virtual currency exchange services; digital currency wallet and storage services; electronic banking services via a global computer network; currency trading; payment processing services, namely, processing of electronic payments from electronic wallet services; digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token trading services; digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transaction processing services for others; facilitating transfers of electronic cash equivalents; providing financial information in the nature of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token ratings; providing financial information in the fields of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token markets; news reporting services in the field of financial news; asset management services, namely, management of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; financial services, namely, providing a financial exchange for the trading of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; cryptocurrency trading services; cryptocurrency exchange services; cryptocurrency payment processing; electronic wallet services; processing electronic payments through electronic wallet services; currency transfer services; financial services, namely, providing electronic transfer of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; financial consultation in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing electronic processing and tracking of electronic funds transfers; currency exchange services; investment management services; money exchange services; management of digital asset investment portfolios; custodial services for financial institutions and funds; listing and trading of swaps and derivatives on digital currency, virtual

currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; monetary exchange; exchanging money; clearing and reconciling financial transactions; electronic funds transfer; electronic financial trading services; electronic financial trading, namely, trading of the field of digitized assets; providing on-demand and real-time financial information about digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing a website featuring financial information regarding digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token payments; electronic trading of financial instruments; electronic commerce payment services; Processing of credit card payments; Processing of debit card payments; Electronic credit card, debit card, and gift card transaction processing services; Insurance consultancy; Insurance services, namely underwriting in the field of financial services; Insurance claims processing

### **Class 42**

(3) Design and development of computer hardware and software; computer services, namely, providing online non-downloadable software, software as a service (SAAS) services featuring software, and platform as a service (PaaS) services featuring computer software platforms, all of use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, and managing digital currency payment and exchange transactions; application service provider (ASP) services for hosting the computer software applications of others; software as a service (SaaS) services featuring software for sending and receiving electronic messages, and for sending electronic message notification alerts and for facilitating electronic business transactions, namely, secure financial and commercial transactions and to facilitate payment options for users via the internet and communications networks; platform as a service (PaaS) services featuring software to allow users to perform business and e-commerce transactions, namely, secure financial and commercial transactions and to facilitate payment options for users via the internet and global communication networks; providing online non-downloadable cloud computing software for use in electronic storage of data; providing software enabling users to invest in digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing online non-downloadable software and software as a service (SaaS) services featuring software, and platform as a service (PaaS) services, all for use in managing electronic payment transactions using distributed ledger technology (DLT); providing software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token assets; providing software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; providing software for processing electronic payments and for transferring funds to and from others; providing software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; providing software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; providing online non-downloadable software and software as a service (SaaS) services featuring software, and platform as a service (PaaS) services, all for use in financial trading; providing online non-downloadable software and

software as a service (SaaS) services featuring software, and platform as a service (PaaS) services, all for use in financial exchange transactions; providing online non-downloadable software and software as a service (SaaS) services featuring software, and platform as a service (PaaS) services, all for use in accessing financial information and market data and trends; providing software for settling financial transactions, for providing authentication of parties to a financial transaction, for maintaining ledgers for financial transactions; providing software for the management of cryptographic security of electronic transmissions across computer networks; providing online non-downloadable software and software as a service (SaaS) services featuring software, and platform as a service (PaaS) services, all for providing, hosting, managing, developing and maintaining applications, software, websites and databases in the field of digital currency; providing online non-downloadable software and software as a service (SaaS) services featuring software, and platform as a service (PaaS) services, all for providing, hosting, managing, developing and maintaining applications, software, websites and databases in the field of cryptocurrency; providing online non-downloadable software and software as a service (SaaS) services featuring software, and platform as a service (PaaS) services, all for providing, hosting, managing, developing and maintaining applications, software, websites and databases in the field of virtual currency; providing temporary use of on-line non-downloadable computer software for use as an electronic digital currency wallet and storage services, namely, electronic storage of digital currency for others; providing software for digital currency payment and exchange transactions; providing distributed ledger software for use in processing financial transactions; providing software for electronic funds transfer; providing software for currency conversion; providing software for payment transactions; providing software for connecting computers to local databases and global computer networks; providing software for creating searchable databases of information and data; providing software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; providing software for creating and managing smart contracts; providing software for managing payment and exchange transactions; providing software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for use in enabling the electronic transfer of funds to and from others; providing software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; providing software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing software for creating a decentralized and open source digitized asset for use in blockchain-based transactions; providing software for creating a decentralized and open source digital token for use in blockchain-based transactions; providing software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; providing software for allowing users to calculate parameters related to financial transactions; distributed ledger platform software for use in processing financial transactions; providing software for electronic funds transfer and currency conversion; providing software for use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; providing a web portal featuring blogs and non- downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; providing a web portal for users to access information in the field of virtual currencies, digital and blockchain assets; platform as a service (PaaS), namely, computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto

tokens and utility tokens; software as a service (SaaS), namely, computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS), namely, computer software platforms for managing blockchain and token driven, distributed storage computer systems; software as a service (SaaS), namely, computer software platforms for managing blockchain and token driven, distributed storage computer systems; computer services, namely, providing a decentralized electronic file storage system and open source cloud storage platform; computer services, namely, providing a decentralized electronic object storage platform for end-to-end encrypted and powered by blockchain and blockchain payments; computer services, namely, providing secure, private encrypted cloud storage services; computer services, namely, providing electronic peer-to-peer data storage distributed across unused customer electronic storage resources; computer services, namely, providing open source decentralized cloud storage platform; data encryption services, namely, blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; distributed, electronic storage of electronic media, namely, data, documents, files, text, photos, images, graphics, music, audio, video, and multimedia content; providing software for use as a cryptocurrency wallet; providing software for democratically managing digital exchanges for virtual items through smart contracts; data mining; providing software for use in trading, clearing, transmitting, receiving, storing, confirmation, and financial trading risk management for exchange market transactions in the fields of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS), namely, software platforms for authenticating, facilitating, matching, processing, clearing, storing, receiving, tracking, transferring, and submitting trade data, exchanging of trading transaction details, and management of the overall trading lifecycle; software as a service (SaaS), namely, software platforms for authenticating, facilitating, matching, processing, clearing, storing, receiving, tracking, transferring, and submitting trade data, exchanging of trading transaction details, and management of the overall trading lifecycle; providing software for use with blockchain technology, namely, platform as a service (PaaS) featuring blockchain based software platforms, namely, software for transfer or exchange of virtual currencies for information and files using smart contracts and conducting transactions; software as a service (SaaS) services, namely, software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) services, namely, software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS), namely, software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; software as a service (SaaS), namely, software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; design, development and implementation of audit and security software for blockchain-based platforms; providing temporary use of non-downloadable computer e-commerce software to allow users to perform secure electronic business transactions via global computer network;

providing software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software platforms for decentralized blockchain style communication; software platforms for the tracking and support of data transactions; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software for blockchain; design, development, and implementation of software solutions for digital currency security; design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; providing temporary use of non-downloadable software for use in collecting, transferring, receiving, tracking, storing and transferring bitcoin; providing software for use in collecting, transferring, receiving, tracking, storing and transferring peer-to-peer currency; providing software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens or utility tokens that allow users to buy from, and sell products and services to others; providing software for use in accessing, reading, tracking, and using blockchain technology; technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; platform as a service (PaaS) featuring computer software platforms for compute, system and application development, deployment, and management; software as a service (SaaS) featuring computer software platforms for computer system and application development, deployment, and management; providing software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing cloud-based computer network identification verification, authentication and management services for security purposes; secure hosted management, storage and administration of passwords, credentials and identity information relating to persons, accounts and devices for security purposes; providing authentication software for controlling access to and communications with computers and computer networks; providing software for use in the exchange of virtual items; providing software for selling, trading and managing blockchain-based tokens or appcoins; providing a digital exchange, namely, an online platform for the transfer and exchange of digital currencies and digitized assets; providing software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing cloud-based network identification verification, authentication and management services for security purposes; providing software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; providing software for facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties; authentication services namely, internet authentication services; providing authentication personal identification information; authentication services, namely, user authentication services; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; application service provider (ASP) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; user authentication services using blockchain technology; providing user authentication services in e-commerce transactions

**Class 45**

(4) Authentication services, namely, identity validation services; authentication services, namely providing authentication of personal or company identification information for security purposes; online social networking services; online social investment network in the nature of an on-line social networking services in the field of investments; identification verification services; providing a website featuring information on the development of privacy, security, blockchain and distributed ledger technologies, and data governance law; regulatory compliance consultancy in the field of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token applications; online social networking service for investors allowing financial trades and exchange of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens

**Claims**

Priority Filing Date: November 15, 2021, Country or Office: JAMAICA, Application No: 84944 in association with the same kind of goods and in association with the same kind of services

**Application Number** 2,186,400  
**International Registration Number** 1662149  
**Language of Application** English

**Filing Date** 2022-01-19

## TRADEMARK DETAILS

### Trademark Type

Position

### Visual Representation

### Trademark Description

The trademark consists of the position of a fanciful woman's head design along with the word Gavrilovic in a banner and two peppers applied to a lid of a three-dimensional container, as shown in the visual representation. The container shown in dashed lines does not form part of the trademark but is included merely to show the positioning of the design.

### Colour Claim

Colour is claimed as a feature of the trademark. Colour is being claimed as a feature of the trademark. The trademark consists of the word GAVRILOVIC in white placed on a red and gold banner. The woman's head on the right side consists of the colours red, white gold, yellow, ochre, brown, dark brown, bright blue, dark blue and black. The peppers on the left side consist of the colours green, orange and red. The background is red.

### Goods

#### Class 29

All sorts of pâtés being pork liver pâtés, chicken pâtés, pork pâtés and turkey pâtés

### Claims

Priority Filing Date: December 08, 2021, Country or Office: CROATIA, Application No: Z20211433A in association with the same kind of goods

## TRADEMARK DETAILS

# HYDROW WAVE

### Trademark Type

Standard Characters

### Goods

#### Class 09

(1) Downloadable mobile applications for exercise and fitness tracking.

#### Class 28

(2) Exercise and fitness equipment, namely, rowing machines.

### Services

#### Class 41

Consulting services in the fields of fitness and exercise; health club services, namely, providing instruction and equipment in the field of physical exercise; health clubs for physical exercise; providing exercise classes in the field of rowing; providing information regarding exercise and fitness via an on-line searchable database; providing information about exercise and fitness via a website; providing information about exercise via a website; providing information in the field of exercise via an interactive website; providing non-downloadable educational information, brochures, and guides in the field of physical exercise; providing physical fitness and exercise service, namely, indoor cycling and yoga instruction.

### Claims

Priority Filing Date: December 13, 2021, Country or Office: UNITED STATES OF AMERICA, Application No: 97169335 in association with the same kind of goods and in association with the same kind of services

**Application Number** 2,186,580  
**International Registration Number** 1662323  
**Language of Application** English

**Filing Date** 2022-03-28

#### Class 09

Apparatus and instruments for the conduction, distribution, conversion, storage, regulation and management of electricity, namely, autotransformers, battery monitors, solar panels for production of electricity, automatic transfer switches, electric control panels, distribution boxes for electrical power, electric cables, electric relays; apparatus and instruments for accumulating and storing electricity, namely, accumulators being electrical storage batteries; apparatus and instruments for controlling electricity, namely, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; photovoltaic installations for generating solar electricity; electric cables and wires; electric cords for adapters; electric cords for splitters; electrical power inlets; junction boxes for electric wires; measuring, detecting, monitoring and controlling devices, namely, current meters, electricity meters, voltage detectors, electrical charging station meters for electrical monitoring, energy meters for tracking and monitoring energy usage; electricity measuring instruments, namely, electricity meters; electric controllers and electric regulators, namely, electrical charge controllers and voltage regulators; sensors, detectors and monitoring instruments, namely, electricity sensors, detector and monitors; solar charge controllers; USB dongles being wireless network adapters; autotransformers; galvanic isolators; solar home systems being photovoltaic apparatus for generating solar electricity; inverters for power supply; photovoltaic inverters; electrical inverters; dc/ac inverters; ac/dc inverters; inverters for power supply; inverters used in solar power generation; isolation transformers; chargers for general purpose batteries; current collectors; current transformers; current meters; current limiters; current converters; current shunts; current breakers; current rectifiers; current testers; fault current breakers; alternating current adapters; electric current adapters; current overload protectors; direct current converters; dc-dc converters; electric current sensors; ac current sensors; energy meters, namely, electric current meters; electric current transformers; high voltage transformers; voltage stabilizers; voltage regulators; voltage dividers; voltage meters; voltage limiters; voltage detectors; voltage testers; high voltage transformers; voltage monitor modules; induction voltage regulators; voltage surge suppressors; static voltage regulators; maximum power point trackers; electric

current switches; electric current rectifiers; fuses for electric current; electric current control devices; instruments for distributing electric current, namely, electrical distribution boxes and power distribution panels; voltage converters; voltage multipliers; voltage-to-current converters; voltage stabilizing power supply; voltage regulators for vehicles; high voltage power supplies; low voltage power supplies; distribution amplifiers; distribution transformers; electrical power distribution boards; electricity distribution boards; electricity distribution consoles; electric power distribution units; panels for the distribution of electricity; power line conditioners; power modules for photovoltaic power generation; power connectors; power adapters, namely, ac adapters; electrical power distribution systems; power amplifiers; power controllers, namely, solar charge controllers; power capacitors; power switches; electrical power analyzers; power testers, namely, current testers and voltage testers; power stabilisers, namely, voltage stabilizers; power system meters; power cables; power banks; power wires; electric power distribution units; power units, namely, electrical transformers; automotive battery power packs; electrical power plug adaptors; power units, namely, electric batteries for powering electric vehicles; power line protectors, namely, surge protectors and voltage surge protectors; power line conditioners; static power convertors; battery power packs for electrical transformers; electric power analyzers; power distributing boxes; electronic power controllers for solar panels; outdoor power relays; electronic power transformers; underwater power cables; power regulating apparatus, namely, voltage regulators for electric power; low power microcontrollers; electric power converters; electrical power distributors; electrical distributing busbars; high current distributors; switching power supply apparatus, namely, power switches; electrical power distribution blocks; electric power supply sockets; electrical power outlet boxes; electric mains power units, namely, AC power supply; power-line transmission apparatus, namely, insulating sleeves for electric power lines; electrical power extension cords; power transformers for amplification; ac/dc power supplies; dc input power supplies; high-voltage power supplies; low voltage power supplies; accumulators for photovoltaic power; solar-powered battery chargers; solar powered rechargeable batteries; distribution boxes for electrical power; voltage regulators for electric power; high-frequency switching power supplies; uninterruptible power supply apparatus [battery]; modules for photovoltaic power generation; apparatus for improving power efficiency, namely, low voltage converter, low and medium voltage circuit breakers; crystalline silicon solar power cells; portable power supplies, namely, rechargeable batteries for electric vehicles; apparatus for diagnosing electrical power installations, namely, multimeters, voltage detectors, voltage testers, circuit testers, hipot testers, current testers, electrical power testers; electric batteries for powering electric vehicles; measurement apparatus, namely, meters for measuring electrical resistance, meters for measuring electric current and meters for measuring electrical voltage; data loggers and recorders; computer networking and data communications equipment, namely, computer network hubs, switches and routers, computer network server; controller area network (CAN) bus, namely, a communication system comprised of network interface hardware and microcontrollers; computer networks comprised of network servers and routers; electrical and mechanical data processing equipment and accessories, namely, computers, network servers, computer routers; sensors, namely, acceleration sensors, camera sensors, distance sensors, motion sensors, temperature sensors and pressure sensors; temperature sensor controllers; electronic sensors for measuring electricity; infrared sensors; voltage detectors; electric monitoring apparatus, namely, voltage monitoring units; electric voltage monitoring units; voltage monitoring units; electronic measurement sensors; electric monitoring control apparatus, namely, bidirectional meters for electricity monitoring and direct electrical current monitoring modules; electric control panels for the control of electricity; electric control panels for energy management; electronic apparatus for the remote control of signals; computer software for controlling and managing electricity; apparatus and instruments for controlling the use of electricity, namely, electricity limiter; wireless controllers to remotely monitor

and control the function and status of electrical, electronic, and mechanical devices and systems, namely, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; remote controls for controlling voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; programmable controls, namely, programmable control panels for solar panels; microprocessor controls; electrical controls for solar panels; remote controllers for solar panels; multiport electrical charge controllers; power inverter controllers; programmable logic controllers; electrical charge controllers; energy control devices, namely, energy meters for tracking and monitoring energy usage; electronic control systems consisting of control panels, meters, sensors, timers, relays, transformers, transmitters, transducers, data loggers, controllers, signal conditioners and data recorders for use in the management of electricity; stud-type electrical dual terminal blocks; stud-type electrical terminal blocks; automatic control apparatus, namely, automatic time switches; electric control panels; electric control apparatus, namely, electric control panels and electric current control devices; process controlling software, namely, downloadable computer software for process control; electric power controllers, namely, electrical charge controllers; software for operating and managing integrated circuit components; auxiliary battery packs for automobiles; automatic transfer switches; dc distribution systems, namely, power distribution panels; battery adapters for electric vehicles; battery booster cables; battery boxes; battery cables; battery cases; battery chargers, namely, automotive battery chargers, battery chargers for mobile phones, battery chargers for smartphones and battery chargers for laptop computers; battery charging devices for motor vehicles; battery charging equipment, namely, battery jump starters and battery clamps; battery compensation chargers, namely, automotive battery chargers; battery jars; battery jump starters; battery leads, namely, jump leads for batteries; battery packs for automobiles; automotive battery preheaters; battery separators; battery starters; battery terminals; battery management systems; battery terminal protectors; battery isolators; battery connectors; battery switches; software for use with voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters for the conduction, distribution, conversion, storage, regulation and management of electricity; software for monitoring, analysing, controlling and running physical world operations, namely, for monitoring, analysing, controlling and running machines in the power generation industry; electrical engineering software for computer aided design (CAD), electrical engineering software for the monitoring and operation of electrical power grids; networking software, namely, computer software for administration of computer networks; computer network hardware; computer bus network, namely, LAN (local operating network) hardware; network management control apparatus, namely, computers for network management; network management computer software; network communication apparatus, namely, computer network hubs, switches and routers; software for remote diagnostics of computers, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; diagnostic apparatus, not for medical purposes, namely, computer utility programs for providing diagnostic details on devices installed in a computer system; testing apparatus for diagnostic purposes [other than medical], namely, battery testers, circuit testers, current testers and voltage testers; cellular modem; cellular network modem; gps receivers; automatic solar tracking sensors; electronic sensors for measuring solar radiation; solar energy collectors for electricity generation; photovoltaic apparatus and installations for generating solar electricity, namely, solar cells and panels for electricity generation; photovoltaic apparatus for converting solar radiation to electrical energy, namely, solar panels; battery monitors; computer monitor screens; tablet monitors; touchscreen monitors; monitoring instruments, namely, voltage monitoring units; monitoring apparatus and instruments, namely, computer hardware for monitoring the conduction, distribution, conversion, storage, regulation and management of electricity; temperature monitors for industrial

purposes; temperature monitors for household purposes; nonintrusive load monitoring [nilm] apparatus, namely, electricity load monitors; apparatus for monitoring electrical energy consumption, namely, electricity meters; monitoring apparatus, other than for medical purposes, namely, bidirectional meters for electricity monitoring; software for electricity meters for measuring, monitoring and analyzing electricity consumption; power relays; midi fuses, namely, bolt-down electrical fuses for heavy currents; mega fuses, namely, bolt-down electrical fuses for heavy currents; field effect transistors (fet); buck-boost converters, namely, DC to DC converters; solar cells; photovoltaic solar modules; load break isolators, namely, electrical disconnect switches; electric transformers; electric voltage transformers; uninterruptible electronic power supplies; electric power dividers, namely, voltage dividers; regulated power supply apparatus, namely, voltage regulators for electric power; battery balancers, namely, voltage regulators; battery combiners for connecting multiple power banks for the purpose of sharing a charging voltage between the power banks; software for monitoring and controlling the operation of battery monitors; software for monitoring power inverters; software for monitoring electric power inverters.

#### Class 09

Apparatus and instruments for the conduction, distribution, conversion, storage, regulation and management of electricity, namely, autotransformers, battery monitors, solar panels for production of electricity, automatic transfer switches, electric control panels, distribution boxes for electrical power, electric cables, electric relays; apparatus and instruments for accumulating and storing electricity, namely, accumulators being electrical storage batteries; apparatus and instruments for controlling electricity, namely, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; photovoltaic installations for generating solar electricity; electric cables and wires; adapter cords; splitter cords; electrical power inlets; wire boxes, namely, junction boxes for electric wires; measuring, detecting, monitoring and controlling devices, namely, current meters, electricity meters, voltage detectors, electrical charging station meters for electrical monitoring, energy meters for tracking and monitoring energy usage; electricity measuring instruments, namely, electricity meters; controllers and energy regulators, namely, electrical charge controllers and voltage regulators; sensors, detectors and monitoring instruments, namely, electricity sensors, detector and monitors; solar charge controllers; USB dongles being wireless network adapters; autotransformers; galvanic isolators; solar home systems being photovoltaic installations for generating solar electricity; inverters for power supply; photovoltaic inverters; electrical inverters; dc/ac inverters; ac/dc inverters; inverters for power supply; inverters used in solar power generation; isolation transformers; chargers for general purpose batteries; current collectors; current transformers; current meters; current limiters; current converters; current shunts; current breakers; current rectifiers; current testers; fault current breakers; alternating current adaptors; electric current adaptors; current overload protectors; direct current converters; dc-dc converters; electric current sensors; ac current sensors; energy meters, namely, electric current meters; electric current transformers; high voltage transformers; voltage stabilizers; voltage regulators; voltage dividers; voltage meters; voltage limiters; voltage detectors; voltage testers; high voltage transformers; voltage monitor modules; induction voltage regulators; voltage surge suppressors; static voltage regulators; maximum power point trackers; electric

current switches; electric current rectifiers; fuses for electric current; electric current control devices; instruments for distributing electric current, namely, electrical distribution boxes and power distribution panels; voltage converters; voltage multipliers; voltage-to-current converters; voltage stabilizing power supply; voltage regulators for vehicles; high voltage power supplies; low voltage power supplies; distribution amplifiers; distribution transformers; electrical power distribution boards; electricity distribution boards; electricity distribution consoles; electric power distribution units; panels for the distribution of electricity; power line conditioners; power modules for photovoltaic power generation; power connectors; power adapters, namely, ac adapters; electrical power distribution systems; power amplifiers; power controllers, namely, solar charge controllers; power capacitors; power switches; electrical power analyzers; power testers, namely, current testers and voltage testers; power stabilisers, namely, voltage stabilizers; power system meters; power cables; power banks; power wires; electric power distribution units; power units, namely, electrical transformers; automotive battery power packs; electrical power plug adaptors; power units, namely, electric batteries for powering electric vehicles; power line protectors, namely, surge protectors and voltage surge protectors; power line conditioners; static power convertors; battery power packs for electrical transformers; electric power analyzers; power distributing boxes; electronic power controllers for solar panels; outdoor power relays; electronic power transformers; underwater power cables; power regulating apparatus, namely, voltage regulators for electric power; low power microcontrollers; electric power converters; electrical power distributors; electrical distributing busbars; high current distributors; switching power supply apparatus, namely, power switches; electrical power distribution blocks; electric power supply sockets; electrical power outlet boxes; electric mains power units, namely, AC power supply units; power-line transmission apparatus, namely, insulating sleeves for electric power lines; electrical power extension cords; power transformers for amplification; ac/dc power supplies; dc input power supplies; high-voltage power supplies; low voltage power supplies; accumulators for photovoltaic power; solar-powered battery chargers; solar powered rechargeable batteries; distribution boxes for electrical power; voltage regulators for electric power; high-frequency switching power supplies; uninterruptible power supply apparatus [battery]; modules for photovoltaic power generation; apparatus for improving power efficiency, namely, low voltage converter, low and medium voltage circuit breakers; crystalline silicon solar power cells; portable power supplies, namely, rechargeable batteries for electric vehicles; apparatus for diagnosing electrical power installations, namely, multimeters, voltage detectors, voltage testers, circuit testers, hipot testers, current testers, electrical power testers; electric batteries for powering electric vehicles; measurement apparatus, namely, meters for measuring electrical resistance, meters for measuring electric current and meters for measuring electrical voltage; data loggers and recorders; computer networking and data communications equipment, namely, computer network hubs, switches and routers, computer network server; controller area network (CAN) bus, namely, a communication system comprised of network interface hardware and microcontrollers; computer networks comprised of network servers and routers; electrical and mechanical data processing equipment and accessories, namely, computers, network servers, computer routers; sensors, namely, acceleration sensors, camera sensors, distance sensors, motion sensors, temperature sensors and pressure sensors; temperature sensor controllers; electronic sensors for measuring electricity; infrared sensors; voltage detectors; electric monitoring apparatus, namely, voltage monitoring units; electric voltage monitoring units; voltage monitoring units; electronic measurement sensors; electric monitoring control apparatus, namely, bidirectional meters for electricity monitoring and direct electrical current monitoring modules; electric control panels for the control of electricity; electric control panels for energy management; electronic apparatus for the remote control of signals; computer software for controlling and managing electricity; apparatus and instruments for controlling the use of electricity, namely, electricity limiter; wireless controllers to remotely monitor

and control the function and status of electrical, electronic, and mechanical devices and systems, namely, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; remote controls for controlling voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; programmable controls, namely, programmable control panels for solar panels; microprocessor controls; electrical controls for solar panels; remote controllers for solar panels; multiport electrical charge controllers; power inverter controllers; programmable logic controllers; electrical charge controllers; energy control devices, namely, energy meters for tracking and monitoring energy usage; electronic control systems consisting of control panels, meters, sensors, timers, relays, transformers, transmitters, transducers, data loggers, controllers, signal conditioners and data recorders for use in the management of electricity; dual terminal studs; terminal studs; automatic control apparatus, namely, automatic time switches; electric control panels; electric control apparatus, namely, electric control panels and electric current control devices; process controlling software, namely, downloadable computer software for process control; electric power controllers, namely, electrical charge controllers; software for operating and managing integrated circuit components; auxiliary battery packs for automobiles; automatic transfer switches; dc distribution systems, namely, power distribution panels; battery adapters for electric vehicles; battery booster cables; battery boxes; battery cables; battery cases; battery chargers, namely, automotive battery chargers, battery chargers for mobile phones, battery chargers for smartphones and battery chargers for laptop computers; battery charging devices for motor vehicles; battery charging equipment, namely, battery jump starters and battery clamps; battery compensation chargers, namely, automotive battery chargers; battery jars; battery jump starters; battery leads, namely, jump leads for batteries; battery packs for automobiles; automotive battery preheaters; battery separators; battery starters; battery terminals; battery management systems; battery terminal protectors; battery isolators; battery connectors; battery switches; software for use with voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters for the conduction, distribution, conversion, storage, regulation and management of electricity; software for monitoring, analysing, controlling and running physical world operations, namely, for monitoring, analysing, controlling and running machines in the power generation industry; electrical engineering software for computer aided design (CAD), electrical engineering software for the monitoring and operation of electrical power grids; networking software, namely, computer software for administration of computer networks; computer network hardware; computer bus networks, namely, LAN (local operating network) hardware; network management apparatus, namely, computers for network management; network management computer software; network communication apparatus, namely, computer network hubs, switches and routers; software for remote diagnostics of computers, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; diagnostic apparatus, not for medical purposes, namely, computer utility programs for providing diagnostic details on devices installed in a computer system; testing apparatus for diagnostic purposes [other than medical], namely, battery testers, circuit testers, current testers and voltage testers; cellular modems; cellular network modems; gps receivers; automatic solar tracking sensors; electronic sensors for measuring solar radiation; solar energy collectors for electricity generation; photovoltaic apparatus and installations for generating solar electricity, namely, solar cells and panels for electricity generation; photovoltaic apparatus for converting solar radiation to electrical energy, namely, solar panels; battery monitors; computer monitor screens; tablet monitors; touchscreen monitors; monitoring instruments, namely, voltage monitoring units; monitoring apparatus and instruments, namely, computer hardware for monitoring the conduction, distribution, conversion, storage, regulation and management of electricity; temperature monitors for industrial purposes; temperature monitors for household purposes; nonintrusive load monitoring

[nilm] apparatus, namely, electricity load monitors; apparatus for monitoring electrical energy consumption, namely, electricity meters; monitoring apparatus, other than for medical purposes, namely, bidirectional meters for electricity monitoring; software for electricity meters for measuring, monitoring and analyzing electricity consumption; power relays; midi fuses, namely, bolt-down electrical fuses for heavy currents; mega fuses namely, bolt-down electrical fuses for heavy currents; field effect transistors (fet); buck-boost converters, namely, DC to DC converters; solar cells; photovoltaic solar modules; load break isolators, namely, electrical disconnect switches; electric transformers; electric voltage transformers; uninterruptible electronic power supplies; electric power dividers, namely, voltage dividers; regulated power supply apparatus, namely, voltage regulators for electric power; battery balancers, namely, voltage regulators; battery combiners for connecting multiple power banks for the purpose of sharing a charging voltage between the power banks; software for monitoring and controlling the operation of battery monitors; software for monitoring power inverters; software for monitoring electric power inverters.

### Colour Claim

Colour is claimed as a feature of the trademark. The G Design is divided into four distinct colour components: purple (lower right), pink (top left), green (lower left) and blue (upper right).

### Goods

#### Class 09

downloadable software and mobile applications for requesting insurance quotes, managing insurance policies, and for the submission of insurance claims for administrative processing

### Services

#### Class 35

(1) administrative processing of insurance claims; administrative services relating to dental health insurance; administrative services relating to home, accident and fire insurance; insurance claims auditing services; insurance plan administration; medical records coding services for others for purposes of reimbursement from insurance; outsourcing of insurance services; providing analysis of market research statistics to assist health insurers and payers in the field of data analytics;

providing business investigation services in the nature of investigating dental patient insurance information for dental offices

### **Class 36**

(2) accident insurance brokerage; accident insurance consultancy; accident insurance information; accident insurance services; accident insurance underwriting; accident insurance underwriting services; administering accidental death insurance policies; administering health insurance policies; administering life insurance policies; advisory services relating to insurance and reinsurance; agricultural insurance agency services; appraisals for insurance claims of personal property; appraisals for insurance claims of real estate; assessing insurance claims; brokerage of health, life and travel insurance; buildings insurance services; cancellation insurance services relating to holiday travels and accommodation; car insurance brokerage; car insurance consultancy; car insurance information; car insurance underwriting; caravan insurance services; casualty insurance services; civil liability insurance; claim adjustment for non-life insurance; collection of insurance premiums; consultancy services relating to insurance for pets; consulting services in the field of financial processing and assessment of health insurance claims for health insurers, administrators and payers; critical care insurance services; dental insurance services; design and development of insurance policies for others; disability insurance services; financial administration of insurance; financial advisory services relating to insurance contracts; financial evaluation for insurance purposes; fire insurance services; fire insurance underwriting; general liability insurance services; guarantee insurance services; health insurance services; health insurance underwriting; home insurance agency services; indemnity insurance services; insurance brokerage; insurance claims adjusting; insurance claims administration; insurance claims assessment and administration services; insurance claims processing; insurance consultation; insurance for businesses; insurance for offices; insurance premium rate computing; insurance risk management; insurance services; insurance services related to casualty insurance; insurance services related to property insurance; insurance subrogation; insurance underwriting; insurance underwriting services; insurance underwriting, including, acting as a managing general agent in the sale of insurance services, including, construction insurance, loss of profit insurance, third party liability, indemnity insurance and professional liability insurance; life insurance brokerage; life insurance services; life insurance underwriting; life insurance underwriting services; medical insurance; medical insurance brokerage services; mortgage banking insurance services; mortgage insurance services; motor vehicle insurance services; motor vehicle insurance underwriting; pet insurance services; pet insurance underwriting; processing mortgage insurance policy refunds; processing of insurance claims and payment data; property insurance services; providing advice to better understand various insurance products; providing information about healthcare insurance plans; providing information about life insurance; providing information in insurance matters; providing information in the field of insurance via a website; providing information in the field of life insurance via an interactive website; providing information via the internet on insurance and insurance services; providing insurance information; providing insurance information and consultancy; providing purchase protection insurance for goods purchased using credit cards; providing vehicle insurance rate quotes; provision of underwriting and insurance claims administration management in the field of property-casualty insurance; real estate insurance services; settlement of insurance claims; settlement of reinsurance claims; transport insurance services; travel insurance services; variable insurance investment services; vehicle insurance services; vehicle insurance underwriting; warranty insurance services

### **Class 38**

(3) providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information

**Class 42**

(4) providing computer systems connectivity services to assist health insurers and payers; providing online trading platform for trade claims brokerage; providing software as a service, namely providing others with computer software and mobile device software applications for implementing and recording financial transactions in data networks; providing temporary use of non-downloadable software for analyzing financial data and generating reports; technical development of prescription drug programs designed to process claims for medical products used by consumers

**Class 45**

(5) fraud detection services in the field of health care insurance; fraud detection services in the field of insurance; investigation services related to insurance claims

**Application Number** 2,218,618  
**Language of Application** English

**Filing Date** 2022-10-27

Colour is claimed as a feature of the trademark. The terms "victron energy BLUE POWER" are black. The design element to the left of the terms "victron energy BLUE POWER" is blue.

### Goods

#### Class 09

Apparatus and instruments for the conduction, distribution, conversion, storage, regulation and management of electricity, namely, autotransformers, battery monitors, solar panels for production of electricity, automatic transfer switches, electric control panels, distribution boxes for electrical power, electric cables, electric relays; apparatus and instruments for accumulating and storing electricity, namely, accumulators being electrical storage batteries; apparatus and instruments for controlling electricity, namely, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; photovoltaic installations for generating solar electricity; electric cables and wires; electric cables for adapters; electric cables for splitters; electrical power inlets; junction boxes for electric wires; measuring, detecting, monitoring and controlling devices, namely, current meters, electricity meters, voltage detectors, electrical charging station meters for electrical monitoring, energy meters for tracking and monitoring energy usage; electricity measuring instruments, namely, electricity meters; controllers and energy regulators, namely, electrical charge controllers and voltage regulators; sensors, detectors and monitoring instruments, namely, electricity sensors, detector and monitors; solar charge controllers; USB dongles being wireless network adapters; autotransformers; galvanic isolators; photovoltaic apparatus and installations for generating solar electricity for home use; inverters for power supply; photovoltaic inverters; electrical inverters; DC/AC inverters; AC/DC inverters; inverters for power supply; inverters used in solar power generation; isolation transformers; chargers for general purpose batteries; current collectors; current transformers; current meters; current limiters; current converters; current shunts; current breakers; current rectifiers; current testers; fault current breakers; alternating current adaptors; electric current

adaptors; current overload protectors; direct current converters; DC-DC converters; electric current sensors; ac current sensors; energy meters, namely, electric current meters; electric current transformers; high voltage transformers; voltage stabilizers; voltage regulators; voltage dividers; voltage meters; voltage limiters; voltage detectors; voltage testers; high voltage transformers; voltage monitor modules; induction voltage regulators; voltage surge suppressors; static voltage regulators; maximum power point trackers; electric current switches; electric current rectifiers; fuses for electric current; electric current control devices; instruments for distributing electric current, namely, electrical distribution boxes and power distribution panels; voltage converters; voltage multipliers; voltage-to-current converters; voltage stabilizing power supply; voltage regulators for vehicles; high voltage power supplies; low voltage power supplies; distribution amplifiers; distribution transformers; electrical power distribution boards; electricity distribution boards; electricity distribution consoles; electric power distribution units; panels for the distribution of electricity; power line conditioners; power modules for photovoltaic power generation; power connectors; power adapters, namely, ac adapters; electrical power distribution systems; power amplifiers; power controllers, namely, solar charge controllers; power capacitors; power switches; electrical power analyzers; power testers, namely, current testers and voltage testers; power stabilisers, namely, voltage stabilizers; power system meters; power cables; power banks; power wires; electric power distribution units; power units, namely, electrical transformers; automotive battery power packs; electrical power plug adaptors; power units, namely, electric batteries for powering electric vehicles; power line protectors, namely, surge protectors and voltage surge protectors; power line conditioners; static power converters; battery power packs for electrical transformers; electric power analyzers; power distributing boxes; electronic power controllers for solar panels; outdoor power relays; electronic power transformers; underwater power cables; power regulating apparatus, namely, voltage regulators for electric power; low power microcontrollers; electric power converters; electrical power distributors; electrical distributing busbars; high current distributors; switching power supply apparatus, namely, power switches; electrical power distribution blocks; electric power supply sockets; electrical power outlet boxes; electric mains power units, namely, AC power supply units; power-line transmission apparatus, namely, insulating sleeves for electric power lines; electrical power extension cords; power transformers for amplification; AC/DC power supplies; DC input power supplies; high-voltage power supplies; low-voltage power supplies; accumulators for photovoltaic power; solar-powered battery chargers; solar-powered rechargeable batteries; distribution boxes for electrical power; voltage regulators for electric power; high-frequency switching power supplies; uninterruptible power supply apparatus [battery]; modules for photovoltaic power generation; apparatus for improving power efficiency, namely, low voltage converter, low and medium voltage circuit breakers; crystalline silicon solar power cells; portable power supplies, namely, rechargeable batteries for electric vehicles; apparatus for diagnosing electrical power installations, namely, multimeters, voltage detectors, voltage testers, circuit testers, hipot testers, current testers, electrical power testers; electric batteries for powering electric vehicles; measurement apparatus, namely, meters for measuring electrical resistance, meters for measuring electric current and meters for measuring electrical voltage; data loggers and recorders; computer networking and data communications equipment, namely, computer network hubs, switches and routers, computer network server; controller area network (CAN) bus, namely, a communication system comprised of network interface hardware and microcontrollers; computer networks comprised of network servers and routers; electrical and mechanical data processing equipment and accessories, namely, computers, network servers, computer routers; sensors, namely, acceleration sensors, camera sensors, distance sensors, motion sensors, temperature sensors and pressure sensors; temperature sensor controllers; electronic sensors for measuring electricity; infrared sensors; voltage detectors; electric monitoring apparatus, namely, voltage monitoring units; electric voltage

monitoring units; voltage monitoring units; electronic measurement sensors; electric monitoring control apparatus, namely, bidirectional meters for electricity monitoring and direct electrical current monitoring modules; electric control panels for the control of electricity; electric control panels for energy management; electronic apparatus for the remote control of signals; computer software for controlling and managing electricity; apparatus and instruments for controlling the use of electricity, namely, electricity limiter; wireless controllers to remotely monitor and control the function and status of electrical, electronic, and mechanical devices and systems, namely, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; remote controls for controlling voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; programmable controls, namely, programmable control panels for solar panels; microprocessor controls; electrical controls for solar panels; remote controllers for solar panels; multiport electrical charge controllers; power inverter controllers; programmable logic controllers; electrical charge controllers; energy control devices, namely, energy meters for tracking and monitoring energy usage; electronic control systems consisting of control panels, meters, sensors, timers, relays, transformers, transmitters, transducers, data loggers, controllers, signal conditioners and data recorders for use in the management of electricity; electrical terminal blocks being dual studs with bus bar; electrical terminal blocks being studs with bus bar; automatic control apparatus, namely, automatic time switches; electric control panels; electric control apparatus, namely, electric control panels and electric current control devices; process controlling software, namely, downloadable computer software for process control; electric power controllers, namely, electrical charge controllers; software for operating and managing integrated circuit components; auxiliary battery packs for automobiles; automatic transfer switches; DC distribution systems, namely, power distribution panels; battery adapters for electric vehicles; battery booster cables; battery boxes; battery cables; battery cases; battery chargers, namely, automotive battery chargers, battery chargers for mobile phones, battery chargers for smartphones and battery chargers for laptop computers; battery charging devices for motor vehicles; battery charging equipment, namely, battery jump starters and battery clamps; battery compensation chargers, namely, automotive battery chargers; battery jars; battery jump starters; battery leads, namely, jump leads for batteries; battery packs for automobiles; automotive battery preheaters; battery separators; battery starters; battery terminals; battery management systems; battery terminal protectors; battery isolators; battery connectors; battery switches; software for use with voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters for the conduction, distribution, conversion, storage, regulation and management of electricity; software for monitoring, analysing, controlling and running physical world operations, namely, for monitoring, analysing, controlling and running machines in the power generation industry; electrical engineering software for computer aided design (CAD), electrical engineering software for the monitoring and operation of electrical power grids; networking software, namely, computer software for administration of computer networks; computer network hardware; computer bus network, namely, LAN (local operating network) hardware; network management apparatus, namely, computers for network management; network management computer software; network communication apparatus, namely, computer network hubs, switches and routers; software for remote diagnostics of computers, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; diagnostic apparatus, not for medical purposes, computer utility programs for providing diagnostic details on devices installed in a computer system; testing apparatus for diagnostic purposes [other than medical], namely, battery testers, circuit testers, current testers and voltage testers; cellular modem; cellular network modem; GPS receivers; automatic solar tracking sensors; electronic sensors for measuring solar radiation; solar energy collectors for electricity generation; photovoltaic apparatus and installations

for generating solar electricity, namely, solar cells and panels for electricity generation; photovoltaic apparatus for converting solar radiation to electrical energy, namely, solar panels; battery monitors; computer monitor screens; tablet monitors; touchscreen monitors; monitoring instruments, namely, voltage monitoring units; monitoring apparatus and instruments, namely, computer hardware for monitoring the conduction, distribution, conversion, storage, regulation and management of electricity; temperature monitors for industrial purposes; temperature monitors for household purposes; nonintrusive load monitoring [NILM] apparatus, namely, electricity load monitors; apparatus for monitoring electrical energy consumption, namely, electricity meters; monitoring apparatus, other than for medical purposes, namely, bidirectional meters for electricity monitoring; software for electricity meters for measuring, monitoring and analyzing electricity consumption; power relays; midi fuses, namely, bolt-down electrical fuses for heavy currents; mega fuses, namely, bolt-down electrical fuses for heavy currents; field effect transistors (FET); buck-boost converters, namely, DC to DC converters; solar cells; photovoltaic solar modules; load break isolators, namely, electrical disconnect switches; electric transformers; electric voltage transformers; uninterruptible electronic power supplies; electric power dividers, namely, voltage dividers; regulated power supply apparatus, namely, voltage regulators for electric power; battery balancers, namely, voltage regulators; battery combiners for connecting multiple power banks for the purpose of sharing a charging voltage between the power banks; software for monitoring and controlling the operation of battery monitors; software for monitoring power inverters; software for monitoring electric power inverters.

### Goods

#### Class 07

(1) Power generation plants and equipment, namely gas and steam turbine power plants, wind and hydroelectric power plants, solar power plants [generators], and parts for the foregoing; centrifuges; electric power supply generators; electric motors for machines and parts thereof, except for land vehicles; electric azimuth thrusters for ships; electric power generators for ships equipped with electric azimuth thrusters; diesel motors for ships equipped with azimuth thrusters; mechanical oil and gas production and mining equipment, namely, oil well pumping machines, high pressure pumps for use in oil or gas well hydraulic fracturing operations, mine borers, mining bits; pumps, compressors and fans as parts of machines, machine engines, motors, engines and hydrogen and carbon dioxide compressors and pipelines; machines and machine tools for power generation and distribution, namely, turbines for generation of electricity, other than for land vehicles, high-voltage generators, windmills, windmill pumps, solar power generators, electrical generators using solar cells, electric generators, turbine generators, current generators, electric power generators, gas operated power generators, steam operated power generators, generators for wind turbines; combustion engines for power generation, except for land vehicles; turbines, namely, hydraulic turbines, turbine generators, turbines for generation of electricity, turbines for steam plants, gas turbines for generation of electricity, wind turbines, turbine expanders for gaseous fuels, steam turbines for generation of electricity (not for land vehicles); vessels being machine components, namely, compressed air machine components, namely pumps and valves being parts of machines operated pneumatically and by air; pressure valves being parts of machines, pressure switches being parts of machines, pressure transducers being parts of machines; mechanical devices and machines, namely, conveying and handling machines for automatic handling of machine tools and workpieces for energy-technology industry; bushings being parts of machines; energy storage systems based on hydrogen, namely gas generating machines by electrolysis.

#### Class 09

(2) Electronic control systems and units, namely, power controllers for electricity generators, electrical controlling devices and electronic measuring devices, namely, electronic current switches

and meters for measuring electric current, electric power and electric voltage; mounting systems, namely mounts specially adapted for electric switch and control cabinets; data acquisition, processing, transmission, storage and output devices, namely, universal computers, central processing units, personal computers, computer workstations comprising computer hardware components, computer peripherals being computers, computer display screens; data processing programs being recorded computer software for data processing, namely, computer software for use in data management in the field of electrical engineering and for use in the energy generation sector and industrial process industry, software for monitoring electrical power; electric and electronic apparatus and equipment for process control systems, namely, process controllers in the nature of power controllers for use in the fields of electrical power generation and industrial process automation and recorded industrial process automation control software for use in electricity power plants for remotely controlling industrial equipment and machinery; servicing equipment and automated machinery for power plant engineering, namely, pipe testing equipment, and testing equipment to examine rotor discs, machine parts, pipe weldings and power generators; equipment for non-destructive testing of materials in power plants, namely, electronic testers for testing compression, density, strength, hardness and tensile characteristics of industrial materials; eddy-current test equipment; ultrasonic test equipment; leakage detectors, namely, electrical leakage detection hardware; process control equipment, in particular, flow meters, pressure gauges, electrical controllers for controlling electrical installations, electric switch actuators; electrical and electronic devices for analytical purposes such as systems analysis, chromatography, and X-ray analysis, namely, industrial x-ray apparatus; X-ray equipment for technical purposes, in particular industrial X-ray apparatus; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling the distribution and use of electricity in particular, current switches, pressure switches, differential switches, power switches, piezoelectric switches, computer network switches, electric transformers, power transformers, current transformers, high-voltage transformers, electronic power transformers, voltage regulators for electric power, voltage regulators, electrical charge controllers, electric control panels, power distribution panels, electricity meters, gas meters, flow meters, circuit testers, circuit breakers, circuit closer, electrical bushings, electrical ducts, electrical conductors for transformers, electric current switches, electric accumulators for central processing units; high-voltage, medium-voltage and low-voltage circuit-breakers and switchgear; switch cabinets; high-voltage direct-current transmission systems for distributing, transmitting, converting electric current, power distributing boxes, power distribution panels, circuit breakers, switchgears, electronic monitors and monitor modules for monitoring electrical current; electric rectifiers and inverters; instrumentation and control equipment and devices, namely, electrical controllers for switchgear and power system control; transformers, in particular current transformers, distribution transformers, electric transformers, electrical transformers, electric voltage transformers, high voltage transformers, power transformers; electronic power transformers; electrical instrument transformers; electric coils; power cables and lines; electronic dynamometers and torque measuring equipment, in particular digital and analogue torque sensors; electronic load indicators; solar energy collectors for electricity generation; emergency power supply units, namely, AC and DC power supplies, low-voltage power supplies, high-voltage power supplies; electrical, electronic and ceramic components and devices, namely, ceramic fuses and subassemblies consisting thereof, namely, electrical power connectors, electrical contactors, electrical sensors for detecting electric current; electric batteries, namely, lithium-ion electrical storage batteries; fuel cells; electric accumulators for industrial purposes, namely, accumulators being electrical storage batteries, accumulators for central processing units, plates for electric accumulators; solar cells; solar photovoltaic power plants made of solar cells; sensors, namely, automatic solar tracking sensors, gas sensors, humidity sensors, infrared sensors, liquid level sensors, motion sensors, optical

sensors, current and voltage sensors, thermal sensors, velocity sensors, acceleration sensors, temperature sensors, pollutant sensors, proximity sensors, distance sensors, pressure sensors, oil level sensors, electrical sensors for measuring solar radiation, vibration sensors for installation in windmill housings; energy storage systems based on electricity distribution and transmission systems comprised of resistors for distributing electric current, electric current switches, current converters, current transformers, fuel cells, lithium-ion electrical storage batteries, electric capacitors; water electrolyzers, hydrogen electrolyzers, anodes for use in water electrolyzers, cathodes for use in water electrolyzers, electrolytic cells, high temperature electrolyzers; recorded data stored and processed on computer hardware in the fields of energy conversion, transport, storage and use; electrical and electronic signaling, measuring, metering, recording, monitoring, open and closed-loop control and switching apparatus, namely, electronic meters for measuring electric quantities, electronic monitors for monitoring electric quantities and electrical signals, electricity meters, electrical current switches, electric current converters, circuit breakers; devices and instruments for electricity regulation, accumulation and storage, namely, capacitors, electricity conduits, electricity distribution consoles, electricity limiter, electrical relays, voltage regulators, lithium-ion electric storage batteries; computer hardware and computer software systems for the operation of commercial and industrial plants and infrastructures, in particular related to computer hardware and software for the automation of industrial machines, power generation and power distribution.

### **Class 11**

(3) Steam generation, drying and cooling systems comprised of ventilating fans, steam generators, and cooling evaporators in the field of energy generation and energy storage installations and ventilation systems and their components and fittings, the aforesaid goods not relating to or not as parts of surface heating and surface cooling systems; water supply systems, comprised of regulating accessories for water supply in the nature of metered valves and pressure regulators for water installations, supply pipelines, cooling water tanks, hot water tanks, wastewater tanks, the aforesaid goods not relating to or not as parts of surface heating and surface cooling systems; water cleaning, desalination and conditioning systems, the aforesaid goods not relating to or not as parts of surface heating and surface cooling systems.

### **Services**

#### **Class 37**

(1) Installation, assembly services relating to the installation, maintenance, inspection prior to repair, and repair of systems, products and equipment used for power generation, transmission and distribution, electrical engineering, electronics, information technology and mechanical engineering, except for software, namely, gas and steam turbine power plants, wind and hydroelectric power plants, solar powered energy electricity generators, centrifuges, electric power supply generators, electric motors for machines and parts thereof, except for land vehicles, electric power generators for ships, diesel motors for ships, mechanical equipment for oil and gas production activities as well as for mining work, namely, oil well pumping machines, high pressure pumps for use in oil or gas well hydraulic fracturing operations, mine borers, mining bits, pumps, compressors and fans as parts of machines, machine engines, motors and engines and hydrogen and carbon dioxide compressors and pipelines, machines and machine tools for power generation and distribution, turbines other than for land vehicles, solar power generators high-voltage generators, windmills, windmill pumps, electrical generators using solar cells, electric generators, turbines generators, current generators, electric power generators, gas operated power generators, steam operated power generators, generators for wind turbines, combustion engines for power generation, other than for land vehicles, turbines, vessels being machine components,

namely, compressed air machine components, namely pumps and valves being parts of machines operated pneumatically and by air, pressure regulating valves, pressure sensing valves being parts of machines, pressure transducers being parts of machines, mechanical devices and machines, namely, conveying and handling machines for automatic handling of machine tools and workpieces for energy-technology industry, bushings being parts of machines, electronic control systems and units, namely, power controllers for electricity generators, electrical controlling devices and electronic measuring devices, namely, electronic current switches and meters for measuring electric current, electric power and electric voltage, mounting systems specially adapted for electric switch and control cabinets, data acquisition, processing, transmission, storage and output devices, namely, central processing units, personal computers, computer workstations comprising computer hardware, computer peripherals in the nature of computers, keyboards, printers and computer display screens, electric and electronic apparatus and equipment for process control systems, namely, process controllers in the nature of power controllers for use in the fields of electrical power generation and industrial process automation, control software for use in power plants for remotely controlling industrial equipment and machinery, servicing equipment and automated machinery for power plant engineering, equipment for non-destructive testing of materials in power plants, namely, electronic testers for testing compression, density, strength, hardness and tensile characteristics of industrial materials, electrical eddy-current test equipment, leakage detectors, ultrasonic test equipment, process control equipment, in particular , flow meters, pressure gauges, electrical controllers for controlling electrical installations, electric switch actuators, electric valve actuators, electrical and electronic devices for analytical purposes such as systems analysis, chromatography, and X-ray analysis, namely, industrial x-ray apparatus, X-ray equipment for technical purposes, in particular industrial X-ray apparatus, apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling the distribution and use of electricity, in particular, current switches, pressure switches, differential switches, power switches, piezoelectric switches, computer network switches, electric transformers, power transformers, current transformers, high-voltage transformers, electronic power transformers, voltage regulators for electric power, voltage regulators, electrical charge controllers, electric control panels, power distribution panels, electricity meters, gas meters, flow meters, circuit testers, circuit breakers, circuit closer, electrical bushings, electrical ducts, electrical conductors for transformers, electric current switches, electric accumulators for central processing units, high-voltage, medium-voltage and low-voltage circuit-breakers and switchgear, switch cabinets, high-voltage direct-current transmission systems comprised of apparatus and instruments for distributing electric current, power distributing boxes, power distribution panels, circuit breakers, switchgears, electronic monitors and monitor modules for monitoring electrical current, electric rectifiers and inverters, instrumentation and control equipment and devices, namely, electrical controllers for switchgear and power system control , power cables and lines, electric, power, high-voltage and current transformers, electronic dynamometers and torque measuring equipment, namely, torque meters and digital torque gauges, electronic load indicators, solar collectors, emergency power supply units, namely, AC and DC power supplies, low-voltage power supplies, high-voltage power supplies, electrical, electronic and ceramic components and devices consisting thereof, namely, ceramic fuses and subassemblies consisting thereof, namely, electrical power connectors, electrical contactors, electrical sensors for detecting electric current, energy storage, distribution and transmission systems comprised of resistors for distributing electric current, electric current switches, current converters, current transformers, fuel cells, lithium-ion electrical storage batteries, electric capacitors, accumulators being electrical storage batteries, sensors, namely, automatic solar tracking sensors, gas sensors, humidity sensors, infrared sensors, liquid level sensors, motion sensors, optical sensors, current and voltage sensors, thermal sensors, velocity sensors,

acceleration sensors, temperature sensors, pollutant sensors, proximity sensors, distance sensors, pressure sensors, oil level sensors, electronic sensors for measuring solar radiation, vibration sensors, electrolyzers, in particular water electrolyzers, hydrogen electrolyzers, anodes for use in water electrolyzers, cathodes for use in water electrolyzers, electrolytic cells, high temperature electrolyzers, recorded data stored and processed on computer hardware in the fields of energy conversion, transport, and storage and use, electrical and electronic signaling, measuring, metering, recording, monitoring, open and closed-loop control and switching apparatus, namely, electronic devices meters for measuring electric quantities, electronic monitors for monitoring electric quantities and electrical signals, electricity meters, electrical switches, electric current converters, circuit breakers, computer hardware, computer hardware for storing and processing recorded data, electrical and electronic signaling, measuring, metering, recording, monitoring, open and closed-loop control and switching devices, namely, electronic devices for measuring electric current in the nature of electronic monitors for monitoring electric current and electrical signals, electric current meters, electrical current switches, electric current converters, circuit breakers, computer hardware, electronic devices for measuring electric current, namely, alternating electrical current monitor modules, electronic monitors for monitoring electric current and electrical signals, electric current meters, electrical current switches, electric current converters, circuit breakers, computer hardware, steam generation, drying, cooling and ventilation systems and their components and fittings, namely, steam generators, cooling evaporators, air conditioning units, air cooling and ventilation apparatus and instruments in the nature ventilating fans and structural components thereof, water supply systems, comprised of regulating accessories for water supply in the nature of metered valves and pressure regulators, water cleaning, desalination and conditioning systems and electric azimuth thrusters for ships, water supply pipelines, cooling water tanks; laying of cables.

#### **Class 40**

(2) Generation of energy, namely production of energy; technical consultancy in the field of production of energy, conversion of energy, and power generation; leasing of products and systems, namely, of energy conversion equipment, in particular turbines, compressors, and electrolyzers used in the production of energy and electrical generation engineering, electronics for use in energy production, and computer information technology, namely, integrated circuits, semiconductor switches, 3D printer, computers, and computer hardware.

#### **Class 42**

(3) Research and development for third parties in the fields of electrical engineering, electronics for use in energy production, namely, integrated circuits, semiconductor switches, 3D printer, computers, and computer hardware, information technology in the field of production of energy, medical engineering, physics, chemistry and mechanical engineering; technical design, planning electrical engineering, and technological consulting services all in the field of power and energy supply and technical support, namely monitoring technological functions in the fields of electrical engineering, electronics for use in energy production, namely, integrated circuits, semiconductor switches, 3D printer, computers, and computer hardware, information technology in the field of energy production, physics, chemistry and mechanical engineering; construction, design and engineering planning, and consulting relating to, clean energy certification services and business model consulting; computer programming; leasing of products and systems, namely of computer software used in energy and electrical engineering, electronics, information technology as well as medical engineering; materials testing; computer software technical support services for remote and on-site data center infrastructure management in the field of monitoring, administration and management of public and private cloud computing IT and application systems; design and development of databases; software as a service (SaaS) featuring software for use in data

management in the field of electrical engineering and for use in the energy generation sector and industrial process industry; platform as a service (PaaS) featuring computer software platforms for use in data management in the field of electrical engineering and for use in the energy generation sector and industrial process industry.

**Claims**

Priority Filing Date: October 01, 2021, Country or Office: EUIPO (EU), Application No: 018569004 in association with the same kind of goods and in association with the same kind of services

**Application Number** 2,227,509  
**Language of Application** French

#### Class 09

Apparatus and instruments for the conduction, distribution, conversion, storage, regulation and management of electricity, namely, autotransformers, battery monitors, solar panels for production of electricity, automatic transfer switches, electric control panels, distribution boxes for electrical power, electric cables, electric relays; apparatus and instruments for accumulating and storing electricity, namely, accumulators being electrical storage batteries; apparatus and instruments for controlling electricity, namely, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; photovoltaic installations for generating solar electricity; electric cables and wires; electric cables for adapters; electric cables for splitters; electrical power inlets; junction boxes for electric wires; measuring, detecting, monitoring and controlling devices, namely, current meters, electricity meters, voltage detectors, electrical charging station meters for electrical monitoring, energy meters for tracking and monitoring energy usage; electricity measuring instruments, namely, electricity meters; electric controllers and electric regulators, namely, electrical charge controllers and voltage regulators; sensors, detectors and monitoring instruments, namely, electricity sensors, detector and monitors; solar charge controllers; USB dongles being wireless network adapters; autotransformers; galvanic isolators; solar home systems being photovoltaic apparatus for generating solar electricity; inverters for power supply; photovoltaic inverters; electrical inverters; DC/AC inverters; AC/DC inverters; inverters for power supply; inverters used in solar power generation; isolation transformers; chargers for general purpose batteries; current collectors; current transformers; current meters; current limiters; current converters; current shunts; current breakers; current rectifiers; current testers; fault current breakers; alternating current adaptors; electric current adaptors; current overload protectors; direct current converters; DC-DC converters; electric current sensors; AC current sensors; energy meters, namely, electric current meters; electric current transformers; high voltage transformers; voltage stabilizers; voltage regulators; voltage dividers; voltage meters; voltage limiters; voltage detectors; voltage testers; high voltage transformers; voltage monitor modules; induction voltage regulators; voltage surge suppressors; static voltage

regulators; maximum power point trackers; electric current switches; electric current rectifiers; fuses for electric current; electric current control devices; instruments for distributing electric current, namely, electrical distribution boxes and power distribution panels; voltage converters; voltage multipliers; voltage-to-current converters; voltage stabilizing power supply; voltage regulators for vehicles; high voltage power supplies; low voltage power supplies; distribution amplifiers; distribution transformers; electrical power distribution boards; electricity distribution boards; electricity distribution consoles; electric power distribution units; panels for the distribution of electricity; power line conditioners; power modules for photovoltaic power generation; power connectors; power adapters, namely, ac adapters; electrical power distribution systems; power amplifiers; power controllers, namely, solar charge controllers; power capacitors; power switches; electrical power analyzers; power testers, namely, current testers and voltage testers; power stabilisers, namely, voltage stabilizers; power system meters; power cables; power banks; power wires; electric power distribution units; power units, namely, electrical transformers; automotive battery power packs; electrical power plug adaptors; power units, namely, electric batteries for powering electric vehicles; power line protectors, namely, surge protectors and voltage surge protectors; power line conditioners; static power convertors; battery power packs for electrical transformers; electric power analyzers; power distributing boxes; electronic power controllers for solar panels; outdoor power relays; electronic power transformers; underwater power cables; power regulating apparatus, namely, voltage regulators for electric power; low power microcontrollers; electric power converters; electrical power distributors; electrical distributing busbars; high current distributors; switching power supply apparatus, namely, power switches; electrical power distribution blocks; electric power supply sockets; electrical power outlet boxes; electric mains power units, namely, AC power supply units; power-line transmission apparatus, namely, insulating sleeves for electric power lines; electrical power extension cords; power transformers for amplification; AC/DC power supplies; DC input power supplies; high-voltage power supplies; low-voltage power supplies; accumulators for photovoltaic power; solar-powered battery chargers; solar-powered rechargeable batteries; distribution boxes for electrical power; voltage regulators for electric power; high-frequency switching power supplies; uninterruptible power supply apparatus [battery]; modules for photovoltaic power generation; apparatus for improving power efficiency, namely, low voltage converter, low and medium voltage circuit breakers; crystalline silicon solar power cells; portable power supplies, namely, rechargeable batteries for electric vehicles; apparatus for diagnosing electrical power installations, namely, multimeters, voltage detectors, voltage testers, circuit testers, hipot testers, current testers, electrical power testers; electric batteries for powering electric vehicles; measurement apparatus, namely, meters for measuring electrical resistance, meters for measuring electric current and meters for measuring electrical voltage; data loggers and recorders; computer networking and data communications equipment, namely, computer network hubs, switches and routers, computer network server; controller area network (CAN) bus, namely, a communication system comprised of network interface hardware and microcontrollers; computer networks comprised of network servers and routers; electrical and mechanical data processing equipment and accessories, namely, computers, network servers, computer routers; sensors, namely, acceleration sensors, camera sensors, distance sensors, motion sensors, temperature sensors and pressure sensors; temperature sensor controllers; electronic sensors for measuring electricity; infrared sensors; voltage detectors; electric monitoring apparatus, namely, voltage monitoring units; electric voltage monitoring units; voltage monitoring units; electronic measurement sensors; electric monitoring control apparatus, namely, bidirectional meters for electricity monitoring and direct electrical current monitoring modules; electric control panels for the control of electricity; electric control panels for energy management; electronic apparatus for the remote control of signals; computer software for controlling and managing electricity; apparatus and instruments for controlling the use

of electricity, namely, electricity limiter; wireless controllers to remotely monitor and control the function and status of electrical, electronic, and mechanical devices and systems, namely, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; remote controls for controlling voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; programmable controls, namely, programmable control panels for solar panels; microprocessor controls; electrical controls for solar panels; remote controllers for solar panels; multiport electrical charge controllers; power inverter controllers; programmable logic controllers; electrical charge controllers; energy control devices, namely, energy meters for tracking and monitoring energy usage; electronic control systems consisting of control panels, meters, sensors, timers, relays, transformers, transmitters, transducers, data loggers, controllers, signal conditioners and data recorders for use in the management of electricity; electrical terminal blocks being studs with bus bar; stud-type electrical terminal blocks; automatic control apparatus, namely, automatic time switches; electric control panels; electric control apparatus, namely, electric control panels and electric current control devices; process controlling software, namely, downloadable computer software for process control; electric power controllers, namely, electrical charge controllers; software for operating and managing integrated circuit components; auxiliary battery packs for automobiles; automatic transfer switches; DC distribution systems, namely, power distribution panels; battery adapters for electric vehicles; battery booster cables; battery boxes; battery cables; battery cases; battery chargers, namely, automotive battery chargers, battery chargers for mobile phones, battery chargers for smartphones and battery chargers for laptop computers; battery charging devices for motor vehicles; battery charging equipment, namely, battery jump starters and battery clamps; battery compensation chargers, namely, automotive battery chargers; battery jars; battery jump starters; battery leads, namely, jump leads for batteries; battery packs for automobiles; automotive battery preheaters; battery separators; battery starters; battery terminals; battery management systems; battery terminal protectors; battery isolators; battery connectors; battery switches; software for use with voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters for the conduction, distribution, conversion, storage, regulation and management of electricity; software for monitoring, analysing, controlling and running physical world operations, namely, for monitoring, analysing, controlling and running machines in the power generation industry; electrical engineering software for computer aided design (CAD), electrical engineering software for the monitoring and operation of electrical power grids; networking software, namely, computer software for administration of computer networks; computer network hardware; computer bus network, namely, LAN (local operating network) hardware; network management control apparatus, namely, computers for network management; network management computer software; network communication apparatus, namely, computer network hubs, switches and routers; software for remote diagnostics of computers, voltage regulators, distribution transformers, electricity conduits, electricity distribution consoles, and electricity limiter and meters; diagnostic apparatus, not for medical purposes, namely, computer utility programs for providing diagnostic details on devices installed in a computer system; testing apparatus for diagnostic purposes [other than medical], namely, battery testers, circuit testers, current testers and voltage testers; cellular modem; cellular network modem; gps receivers; automatic solar tracking sensors; electronic sensors for measuring solar radiation; solar energy collectors for electricity generation; photovoltaic apparatus and installations for generating solar electricity, namely, solar cells and panels for electricity generation; photovoltaic apparatus for converting solar radiation to electrical energy, namely, solar panels; battery monitors; computer monitor screens; tablet monitors; touchscreen monitors; monitoring instruments, namely, voltage monitoring units; monitoring apparatus and instruments, namely, computer hardware for monitoring the conduction, distribution, conversion, storage, regulation and

management of electricity; temperature monitors for industrial purposes; temperature monitors for household purposes; nonintrusive load monitoring [NILM] apparatus, namely, electricity load monitors; apparatus for monitoring electrical energy consumption, namely, electricity meters; monitoring apparatus, other than for medical purposes, namely, bidirectional meters for electricity monitoring; software for electricity meters for measuring, monitoring and analyzing electricity consumption; power relays; midi fuses, namely, bolt-down electrical fuses for heavy currents; mega fuses, namely, bolt-down electrical fuses for heavy currents; field effect transistors (FET); buck-boost converters, namely, DC to DC converters; solar cells; photovoltaic solar modules; load break isolators, namely, electrical disconnect switches; electric transformers; electric voltage transformers; uninterruptible electronic power supplies; electric power dividers, namely, voltage dividers; regulated power supply apparatus, namely, voltage regulators for electric power; battery balancers, namely, voltage regulators; battery combiners for connecting multiple power banks for the purpose of sharing a charging voltage between the power banks; software for monitoring and controlling the operation of battery monitors; software for monitoring power inverters; software for monitoring electric power inverters.

### Trademark Description

The mark consists of two hexagons, with the smaller hexagon inside of a larger hollow hexagon with a hexagonal gap between the two. An arrow extends and points downward from the bottom most apex of the smaller hexagon. A horizontal line with smaller vertical lines at either end sits below the downward pointing arrow. The smaller hexagon is divided into six equilateral triangles of equal size, with each triangle a different color starting with Orange on the top right at the position of twelve on a clockface and then continuing clockwise with Red, Purple, Blue, Light Blue, and Green. The larger hexagon is made up of thirty-six right triangles of equal size with each triangle a different color. The color of the triangle on the top right side of the hexagon at the position of twelve on a clockface is Orange (RGB value F8C022), and then (moving clockwise) are Orange (RGB value FFCB05), Orange (RGB value F8BE29), Orange (RGB value F6B238), Orange (RGB value EB833E), Orange (RGB value EC5E33), Red (RGB value E6442F), Red (RGB value E5272C), Red (RGB value EB553A), Magenta (RGB value E92B57), Magenta (RGB value E62A88), Magenta (RGB value E73B78), Magenta (RGB value E33A84), Magenta (RGB value D62173), Magenta (RGB value D02980), Purple (RGB value AF4693), Purple (RGB value 933488), Purple (RGB value 563992), Blue (RGB value 485CA3), Blue (RGB value 3669AF), Blue

(RGB value 1057A1), Blue (RGB value 0067AD), Blue (RGB value 008FC9), Blue (RGB value 0087B4), Blue (RGB value 00A8E2), Blue (RGB value 00B3EC), Teal (RGB value 26B6C4), Teal (RGB value 56BFAE), Teal (RGB value 2EA484), Green (RGB value 37AB65), Green (RGB value 37AA54), Green (RGB value 6CB856), Green (RGB value B0CD41), Green (RGB value CFD832), Yellow (RGB value F7E224), and finally Yellow (RGB value FFF200) on the top left. The color of the top of the downward pointing arrow gradates from purple, blue and then moving (downward) to green. The color of the horizontal lines is green. The color of the smaller vertical lines on either end of the horizontal line gradates from blue to green. All instances of the color white appearing in the background and in the hexagonal gap between the inner and outer hexagons is background or transparent area only and is not claimed as a feature of the mark.

### **Colour Claim**

The color(s) orange, red, magenta, purple, blue, teal, green and yellow is/are claimed as a feature of the mark. The mark consists of two hexagons, with the smaller hexagon inside of a larger hollow hexagon with a hexagonal gap between the two. An arrow extends and points downward from the bottom most apex of the smaller hexagon. A horizontal line with smaller vertical lines at either end sits below the downward pointing arrow. The smaller hexagon is divided into six equilateral triangles of equal size, with each triangle a different color starting with Orange on the top right at the position of twelve on a clockface and then continuing clockwise with Red, Purple, Blue, Light Blue, and Green. The larger hexagon is made up of thirty-six right triangles of equal size with each triangle a different color. The color of the triangle on the top right side of the hexagon at the position of twelve on a clockface is Orange (RGB value F8C022), and then (moving clockwise) are Orange (RGB value FFCB05), Orange (RGB value F8BE29), Orange (RGB value F6B238), Orange (RGB value EB833E), Orange (RGB value EC5E33), Red (RGB value E6442F), Red (RGB value E5272C), Red (RGB value EB553A), Magenta (RGB value E92B57), Magenta (RGB value E62A88), Magenta (RGB value E73B78), Magenta (RGB value E33A84), Magenta (RGB value D62173), Magenta (RGB value D02980), Purple (RGB value AF4693), Purple (RGB value 933488), Purple (RGB value 563992), Blue (RGB value 485CA3), Blue (RGB value 3669AF), Blue (RGB value 1057A1), Blue (RGB value 0067AD), Blue (RGB value 008FC9), Blue (RGB value 0087B4), Blue (RGB value 00A8E2), Blue (RGB value 00B3EC), Teal (RGB value 26B6C4), Teal (RGB value 56BFAE), Teal (RGB value 2EA484), Green (RGB value 37AB65), Green (RGB value 37AA54), Green (RGB value 6CB856), Green (RGB value B0CD41), Green (RGB value CFD832), Yellow (RGB value F7E224), and finally Yellow (RGB value FFF200) on the top left. The color of the top of the downward pointing arrow gradates from purple, blue and then moving (downward) to green. The color of the horizontal lines is green. The color of the smaller vertical lines on either end of the horizontal line gradates from blue to green. All instances of the color white appearing in the background and in the hexagonal gap between the inner and outer hexagons is background or transparent area only and is not claimed as a feature of the mark.
