Trademarks Journal

Vol. 71 No. 3656

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim

Colour is claimed as a feature of the trademark. The colour green is claimed as a feature of the mark. The mark consists of two curved green arrows formed to resemble a circle. Within the circle is a smaller circle that is lightly shaded in green with the stylized green wording "GREEN CAR CARE", displayed at the bottom curve of the circle. Within that circle is a smaller circle, which is outlined in green. The smaller circle shows a partial front view of a car on the right inner curve of the circle. The body of the car is outlined green with a green front window and green headlight. Above and to the left of the car appear two green cylindrical figures that resemble washing brushes. The smaller circle is closed at the top curve by two leaves outlined in green. The colour white in the mark represents the background and a transparent area and is not a claimed feature of the mark.

Computer software to record financial interests in mobile assets in the aerospace industry including satellites, space stations, space shuttles, aircraft, and parts thereof; Computer software to record financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; downloadable computer software to record financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; downloadable computer software to record financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; computer software for creating searchable databases of information and data; database management software; computer software for accessing, browsing and searching online databases; computer software for data processing information relating to financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; computer software for data processing information relating to financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; computer software to automate data warehousing; computer software for use in the registration of financial interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; computer software for use in the registration of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; computer software for providing access to online, virtual meeting rooms to facilitate registration and transfer of mobile assets namely aircraft, railway rolling stock, mining

equipment, agricultural equipment and construction equipment, and parts thereof; computer software for providing access to online, virtual meeting rooms to facilitate registration and transfer of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; computer software for providing access to online, virtual data rooms that enable uploading of and managing access to documents and information, coordinating users, accepting consents, accepting payments, and managing registration of assets; computer software for use in connection with the recording of legal, financial, business and other economic transactions in databases, namely blockchain databases; computer software to enable connection to databases, computer networks, global computer networks and the Internet; computer software for the wireless exchange of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof ; computer software for the wireless exchange of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; network management apparatus and software namely computer network hubs, switches and routers and computer software for administration of computer networks; computer software for use in providing multiple user access to a global computer information network; computer software enabling the exchange of data between financiers and other parties involved in the purchasing and leasing of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; computer software enabling the exchange of data between financiers and other parties involved in the purchasing and leasing of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; computer software for creating and authenticating electronic signatures and electronic signature information; computer software for creating and authenticating digital signatures; computer software for user authentication in electronic documents; computer software for user authentication in digital transactions; computer software for creating searchable databases of information and data; computer software for authorizing access to interactive databases; electronic databases, namely those recorded on computer media in the field of aerospace; VPN (virtual private network) operating software; WAN (wide area network) operating software; downloadable electronic publications namely electronic brochures, reports and newsletters.

Services

Class 35

(1) Business advisory services in the field of the aerospace industry, including in relation to the registration of interests in mobile assets including satellites, space stations, space shuttles, aircraft, and parts thereof; business information services in relation to the registration of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; business information services in the field of the aerospace industry, including in relation to the registration of interests in mobile assets including satellites, space stations, space shuttles, aircraft, and parts thereof; business information services in relation to the registration of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing administration services via an online portal for registration of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing administration services via an online portal for registration of interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; providing on-line administration services via a website featuring on-line registration services for mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, parts thereof, and interests therein; providing on-line administration services via a website featuring on-line registration

services for mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, parts thereof, and interests therein; providing online administration services via a website relating to mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing online administration services via a website relating to mobile assets in the aerospace industry, including, space stations, space shuttles, aircraft, and parts thereof; administration services relating to the registration of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof, in advance of submitting a registration application to a registry or registration authority; administration services relating to the registration of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof, in advance of submitting a registration application to a registry or registration authority; compilation and maintenance of commercial information into computerised registers relating to mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; compilation and maintenance of commercial information into computerised registers relating to mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; mobile asset pre-positioning administration services, namely collection, systematization and compilation of commercial information stored in computer databases relating to the registration of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; mobile asset pre-positioning administration services, namely collection, systematization and compilation of commercial information stored in computer databases relating to the registration of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; on-line administration services relating to mobile asset registration, namely relating to title, and mobile asset pre-registration services, namely all such services relating to aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; on-line administration services relating to mobile asset registration, namely relating to title, and mobile asset pre registration services, namely all such services relating to mobile assets in the aerospace industry including satellites, space stations, space shuttles, aircraft, and parts thereof; on-line administration services relating to registration of interests, namely those relating to title, of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof via an online portal; on-line administration services relating to registration of interests, namely those relating to title, of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof via an online portal; administration services relating to on-line mobile asset registration services, namely relating to title, of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, parts thereof, and interests therein, via a website; administration services relating to on-line mobile asset registration services, relating to title, of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, parts thereof, and interests therein via a website; management and compilation of computer databases; systemization of information into computer databases; management of computer databases; provision of computerized information relating to business records in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; provision of computerized information relating to business records in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; commercial information provided by means of a computer database in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; commercial information provided by means of a computer

database in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; compiling indexes of information for commercial purposes in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; compiling indexes of information for commercial purposes in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; compiling and retrieving data and information in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; compiling and retrieving data and information in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; analysis of business data and business information in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; analysis of business data and business information in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; compiling and retrieving data and information from a computer database and the Internet in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; compiling and retrieving data and information from a computer database and the Internet in the field of financial interests in mobile assets, namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; analysis of business data and information from a computer database and the Internet in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; analysis of business data and information from a computer database and the Internet in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; maintaining a registry of business information in the field of financial interests mobile assets in the aerospace industry; updating of business information in registries in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; maintaining a registry of business information in the field of financial interests mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; maintenance of information in registries for others in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; maintenance of information in registries for others in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; updating and maintenance of data in computer databases; updating and maintenance of information relating finance and financial charges in registries or in computer databases in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; updating and maintenance of information relating finance and financial charges in registries or in computer databases in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; compiling indexes of commercial information in the field of industrial asset management of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; compiling indexes of commercial information in the field of industrial asset management of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; compiling statistics and providing statistical information for commercial purposes; compiling indexes of financial information in the field of industrial asset

management of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; compiling indexes of financial information in the field of industrial asset management of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; information, advisory and consultancy services relating to all of the aforesaid.

Class 36

(2) Financial services namely lending of money, debt settlement and electronic transfer of crypto assets; financial management; business appraisals and evaluation; financial asset management; asset management for third parties; asset-based financing of loans; personal and real-estate asset evaluation; commercial real estate leasing; financial services for the purchase and development of property; financial services relating to the acquisition and leasing of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; financial services relating to the acquisition and leasing of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; escrow services for the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; registration of securities; provision of financial information in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; provision of financial information in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; financial services, namely, registration of financial title, charges and interests; financial services, namely, registration of financial title, charges and interests, in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof, such services provided online; financial services, namely, registration of financial title, charges and interests, in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof, such services provided online; information, advisory and consultancy services relating to all of the aforesaid.

Class 38

(3) Telecommunications services namely peer-to-peer network computer services, namely, electronic transmission of financial data over electronic communications networks; providing access to computer databases; providing access to a global computer network for the transfer and dissemination of information; transmission of financial information relating to interests in mobile assets in the aerospace industry via the internet, including satellites, space stations, space shuttles, aircraft, and parts thereof ; transmission of financial information relating to interests in mobile assets via the internet, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; leasing access to computer databases; rental of access time to global computer networks; providing virtual private network (VPN) services; providing WAN (wide area network) services; telecommunications services for the distribution of data, namely the distribution of blockchain databases and electronic files containing data relating to economic transactions; providing virtual private network services for the purpose of transacting using smart contracts; electronic exchange of data regarding financial interests in mobile assets in the aerospace industry stored in databases accessible via telecommunication networks, including satellites, space stations, space shuttles, aircraft, and parts thereof; electronic exchange of data regarding financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof, stored in databases accessible via telecommunication networks; providing access to content, websites and portals in the field of financial interests in mobile assets in the aerospace industry on the Internet, including satellites, space stations, space shuttles, aircraft, and parts thereof;

providing access to content, websites and portals in the field of financial interests in mobile assets on the Internet, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing user access to platforms in the field of financial interests in mobile assets in the aerospace industry on the Internet, including satellites, space stations, space shuttles, aircraft, and parts thereof; providing user access to platforms in the field of financial interests in mobile assets on the Internet, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing access to online, virtual meeting rooms for pre-positioning and pre-registration of mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing access to online, virtual meeting rooms for pre-positioning and pre-registration of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; providing access to online, virtual meeting rooms to enable users to determine ownership of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing access to online, virtual meeting rooms to enable users to determine ownership of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; providing access to on-line, virtual data rooms that enable uploading of and managing access to documents and information, coordinating users, accepting consents, accepting payments, and managing registration of assets, all relating to mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing access to on-line, virtual data rooms that enable uploading of and managing access to documents and information, coordinating users, accepting consents, accepting payments, and managing registration of assets, all relating to mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; providing access to an online portal for registration of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing access to an online portal for registration of interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; providing access to an on-line portal that allows users to compile the information required to effect the registration of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof, in advance of submitting a registration application to a registry or registration authority; providing access to an on-line portal that allows users to compile the information required to effect the registration of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof, in advance of submitting a registration application to a registry or registration authority; providing access to a website featuring on-line registration services for mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, parts thereof, and interests therein; providing access to a website featuring on-line registration services for mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, parts thereof, and interests therein; providing access to content, websites and portals on the Internet to enable users to select and order information relating to the registration of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing access to content, websites and portals on the Internet to enable users to select and order information relating to the registration of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; cloud based telecommunication services; providing access to databases for the recording of legal, financial, business and other economic transactions; information, advisory and consultancy services relating to all of the aforesaid.

Class 42

(4) Computer programming; design and development of databases; design and development of computer software; design and development of computer database software; providing online, non-downloadable software for the registration and recordal of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; platform as a service (PAAS) featuring software for the registration and recordal of interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; platform as a service (PAAS) featuring software for the registration of financial title, charges and financial interests in aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; platform as a service (PAAS) featuring software for the registration of financial title, charges and financial interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; providing temporary use of online non-downloadable software software for the registration and recordal of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; software as a service (SAAS) featuring software for the registration and recordal of interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; software as a service (SAAS) featuring software for the registration of financial title, charges and financial interests in aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; software as a service (SAAS) featuring software for the registration of financial title, charges and financial interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; providing temporary use of online non-downloadable software for database management; providing temporary use of online nondownloadable software for the management of information for the registration and recordal of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; software as a service (SAAS) featuring software for the registration and recordal of interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; software as a service (SAAS) featuring software for the registration of financial title, charges and financial interests in aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; software as a service (SAAS) featuring software for the registration of financial title, charges and financial interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; maintenance and updating of database software; hosting of databases; hosting of portals on the Internet; hosting an online portal for registration of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; hosting an online portal for registration of interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; hosting an on-line portal that allows users to compile the information required to effect the registration of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof, in advance of submitting a registration application to a registry or registration authority; hosting an on-line portal that allows users to compile the information required to effect the registration of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof, in advance of submitting a registration application to a registry or registration authority; hosting of an online portal that allows users to assemble the information required to effect the registration of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof, in advance of submitting a registration application to a registry or registration authority; hosting of an online portal that allows users to

assemble the information required to effect the registration of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof, in advance of submitting a registration application to a registry or registration authority; hosting a website featuring online registration services for mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, parts thereof, and interests therein; hosting a website featuring online registration services for mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, parts thereof, and interests therein; hosting an online portal to enable users to select and order information relating to the registration of mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; hosting an online portal to enable users to select and order information relating to the registration of mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; hosting of websites; creating and designing website-based indexes of information for others [information technology services]; platform as a service [PaaS] featuring software for the registration and recordal of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; platform as a service (PAAS) featuring software for the registration and recordal of interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; platform as a service (PAAS) featuring software for the registration of financial title, charges and financial interests in aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; platform as a service (PAAS) featuring software for the registration of financial title, charges and financial interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; software as a service [SaaS] featuring software for the registration and recordal of interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; software as a service (SAAS) featuring software for the registration and recordal of interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; software as a service (SAAS) featuring software for the registration of financial title, charges and financial interests in aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; software as a service (SAAS) featuring software for the registration of financial title, charges and financial interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; providing temporary use of non-downloadable computer software to enable the recording of legal, financial, business and other economic transactions in databases, namely in blockchain databases; the design and hosting of databases for the recording of legal, financial, business and other economic transactions; providing online non-downloadable software for digital asset management in the field of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; providing online non-downloadable software for digital asset management in the field of financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; providing temporary use of non-downloadable software for registration of financial title, charges and financial interests in the aerospace industries; technical data analysis of financial interests mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; technical data analysis of financial interests mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; technical data analysis relating to the registration of financial interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; electronic storage of data and information regarding financial interests in mobile assets in the aerospace industry, including

satellites, space stations, space shuttles, aircraft, and parts thereof; electronic storage of data and information regarding financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; electronic storage of data and information regarding financial interests in mobile assets in the aerospace industry, including, satellites, space stations, space shuttles, aircraft, and parts thereof from a computer database or the Internet; electronic storage of data and information regarding financial interests in mobile assets, namely, aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof from a computer database or the Internet; technical data analysis relating to the registration of financial interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; computer security services for administering digital certificates [trust service provider (TSP)]; electronic signature verification services using technology to authenticate user identity; digital signature verification services using technology to authenticate user identity; computer security services in the nature of administering digital certificates; computer security services for user authentication in electronic documents; computer security services for user authentication in digital transactions; providing temporary use of non-downloadable computer software for creating and authenticating electronic signatures; providing temporary use of nondownloadable computer software for creating and authenticating digital signatures; providing temporary use of non-downloadable computer software for user authentication in electronic documents; providing temporary use of non-downloadable computer software for user authentication in digital transactions; information technology [IT] consultancy regarding software and databases used for recording and registering financial interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; information technology [IT] consultancy regarding software and databases used for recording and registering financial interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; outsource service providers in the field of information technology regarding software and databases used for recording and registering financial interests in mobile assets namely aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; outsource service providers in the field of information technology regarding software and databases used for recording and registering financial interests in the aerospace industry, namely satellites, space stations, space shuttles, aircraft, and parts thereof; electronic signature verification services; digital signature verification services; information, advisory and consultancy services relating to all of the aforesaid.

Class 45

(5) Legal services in the nature of registration and pre-registration services relating to mobile assets including aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof; legal services in the nature of registration and pre-registration services relating to mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof; information, advisory and consultancy services relating to all of the aforesaid; all the aforesaid also provided via a website; legal services in the nature of registration of interests in mobile assets including aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, and parts thereof via an online portal; legal services in the nature of registration of interests in mobile assets in the aerospace industry, including satellites, space stations, space shuttles, aircraft, and parts thereof via an online portal; legal services in the nature of on-line registration services for mobile assets including aircraft, railway rolling stock, mining equipment, agricultural equipment and construction equipment, parts thereof, and interests therein, via a website; legal services in the nature of on-line registration services for mobile assets in the aerospace industry, including satellites, space

stations, space shuttles, aircraft, parts thereof, and interests therein via a website; information, advisory and consultancy services relating to all of the aforesaid.

Trademark Description

The mark consists of a two-toned circular ring. Three-quarters (top, left, and bottom) of the ring are in a darker shade, resembling the letter C. The remaining (right) quarter of the ring is in a lighter shade, completing the circle. The dark and light segments of the ring are separated by a small space. Surrounding the ring are eight half-circles facing outwards and evenly spaced at the cardinal and ordinal points of the ring. The colors of the half circles are the same as the color of the portion of the ring to which they are adjacent, such that the half circles surrounding the darker C-shaped portion of the ring are the same darker shade, and the one half circle next to the lighter portion of the ring is the same lighter shade.

(3) Medical equipment for the manufacturing of autologous and allogeneic biological cell therapies for medical and non-veterinary purposes, namely, fully integrated system for use in the creation and regeneration of autologous and allogeneic biological cell therapies for medical purposes; disposable singleuse containers for solutions used for the manufacturing of autologous and allogeneic biological cell therapies, namely, bags, pouches, cartridges, rigid and semi-rigid containers for concentrates and solutions in solid or liquid form for medical use.

Services

Class 37

(1) Installation, repair and maintenance services of medical and scientific apparatus and instruments used with biomanufacturing equipment for autologous and allogeneic biological cell therapies in the field of biotechnology.

Class 40

(2) Custom manufacture of therapeutic drugs for others, namely, custom manufacture of biological cell therapies and cancer therapies to the order and specification of others; custom manufacturing for others, namely, manufacturing of pharmaceuticals and veterinary reagents to the order and specification of others in the field of health care, for the treatment of humans and animals suffering from diseases treated by biological cell therapy and regenerative medicine products, namely, medicines for human purposes including medicines for research and scientific purposes, biological products for research and scientific purposes, preparations for cell culture therapy and medicines for innovative therapies, namely, gene therapies, cell therapies, viral vectors, vaccines,

oligonucleotides, and proteins using biological organisms in the manufacturing process; custom production of chemicals, ingredients for pharmaceuticals, and biological cells for research and scientific purposes for others; treatment of materials in the nature of biological cells by means of processing them; manufacture of reagents for biological cell therapies to the order and specification of others.

Class 42

(3) Research and development services in the field of cell therapies; scientific research in human and animal cell therapy; providing a bioinformatics platform as a service (paas) featuring computer software for sequence data analysis in the field of manufacturing therapeutics; medical and scientific research information in the field of cell therapy; medical and scientific research in the field of cell therapy; technical consultancy assessments in the medical field relating to design, namely, technical design consultation in the field of manufacture of advanced therapy and cell therapy medications; technical medical and scientific research in the field of manufacture of advanced therapy and cell therapy medications; software as a service (saas) services featuring software in the field of manufacture of advanced therapy and cell therapy medications for assisting in the diagnosis of medical conditions by providing scientific and technical information in the field of biomanufacturing and biotechnology; cloud computing providing software for database management for use in assisting in the diagnosis of medical conditions; providing search engines for the internet in the medical field and manufacturing of advanced therapy and cell therapy medications fields; computer services, namely, the creation for registered users of virtual communities allowing the organization of groups and events, the participation to discussion, and the involvement into the social, business and community networking in the medical field and manufacturing of advanced therapy and cell therapy medications fields; computer services, namely, electronic hosting of online web facilities for the organization by third parties of colloquiums, events and interactive discussions, via communication networks in the medical field and manufacturing of advanced therapy and cell therapy medications fields; hosting digital content for users account in the internet in the medical field and manufacturing of advanced therapy and cell therapy medications fields; designing online forums in the field of manufacture of advanced therapy and cell; software as a service (saas) services, namely, hosting software for use by others for managing supply chains and logistics, tracking and delivering custom cell and gene therapies; software as a service (saas) services, namely, hosting software for use by others for managing cold chain and vein-to-vein supply chains and logistics, tracking and delivering custom cell and gene therapies; software as a service (saas) services featuring non-downloadable software for ordering, tracking, scheduling, production, manufacturing, business intelligence, and delivery of custom cell and gene therapies; software as a service (saas) services featuring software for the processing, separation, isolation, enrichment, depletion, cell activation, genetic modification, detection, screening, analysis and counting of material.

Class 44

(4) Stem cell therapy services; diagnostic and therapeutic services in the field of genome sequencing and cell therapy, namely, genetic testing of humans for health assessment, diagnostic or treatment purposes; cell therapy services for the treatment of hematological malignancies; administration of cell therapy services for the treatment of hematological malignancies; autologous and allogeneic biological cell therapy services for medical treatment purposes.

accidents; clothing for protection against accidents, irradiation and fire; clothing for protection against biological hazards; clothing for protection against chemicals; clothing for protection against chemicals and radiation; clothing for protection against fire; clothing for protection against injury; clothing for protection against irradiation; clothing for protection against radiation; clothing incorporating LEDs, for the prevention of accidents; cloud servers; cloud storage gateways; CMOS Image Sensor; coaxial attenuators; coaxial cable splitters; coaxial cables; coaxial cables incorporating filters; coaxial connection gender changers; coaxial relays; cocktail measuring cups; coelostats; coffee densitometers; coin and banknote proofing machines; coin batteries for consumer electronic devices; coin changers; coin counting and sorting machines; coin counting machines; coin sorters; coin sorting machines; coin-operated mechanisms for arcade games; coin-operated mechanisms for operating gates for car parking lots; coin-operated mechanisms for operating photo booths; coin-operated mechanisms for photo booths; coin-operated mechanisms for television sets; coin-operated mechanisms for vending machines; coin-operated musical automata; collimators; color blindness correction glasses; color filters for liquid crystal displays; color filters for television and motion picture film cameras; color laser printers; color separation film; colorimeters; coloring and drawing computer programs featuring learning activities of creative expression for children; colour blindness correction glasses; colour filters for liquid crystal display [LCD] screens; colour filters for television and cinematographic cameras; colour filters for television and motion picture film cameras; colour laser printers; colour printers; colour separation films; combination carbon monoxide and smoke detectors; combination video players and recorders; combustible gas concentration detectors; combustion boats for laboratory use; combustion spoons for laboratory use; communication modems; communication software to access data stored on an oximeter and transfer data to another device; communications computers; communications software for monitoring and managing electrical charging stations and networks; compact digital cameras; compact disc boxes; compact disc cases; compact disc drives for computers; compact disc players; compact disc recorders; compact discs containing computer games; compact discs containing encyclopedias; compact discs containing music; compact discs featuring music; compact discs featuring music and spoken word in the form of poetry; compact disks containing instruction manuals in welding; comparators; compiler software; component parts of batteries, namely, vent caps; component video cables; compressed air bailout units for diving; computed radiography phosphor scanners not for medical use; computer accelerator boards; computer anti-virus software; computer application software for handheld computers that allows users to access and browse online profiles of pet care service providers; computer application software for mobile phones and other wireless devices, namely, software for viewing, monitoring, and analyzing video streams and to receive alert notifications; computer application software for mobile phones for use in database management; computer application software for mobile phones that allows users to access and browse online profiles of pet care service providers; computer application software for mobile phones that allows users to remotely manage and control advertisements on electronic advertising displays; computer application software for mobile phones to allow users to view menu selections and pay for orders by scanning a quick response code; computer application software for mobile phones, namely, software for logistics management in the fields of freight, supply chain and transportation; computer application software for operating multi function printers from mobile telephones, tablet computers, handheld computers, and personal digital assistants; computer application software for operating photocopiers from mobile telephones, tablet computers, handheld computers, and personal digital assistants; computer application software for operating printers and inkjet printers from mobile telephones, tablet computers, handheld computers, and personal digital assistants; computer application software for processing and analysis of magnetic resonance imaging (MRI); computer application software for route planning and driver assistance, for use on mobile phones, portable media players, handheld computers and in automobiles;

computer application software for searching, retrieving, viewing, booking, renting and leasing of meeting rooms; computer application software for searching, retrieving, viewing, booking, renting and leasing of office space; computer application software for searching, retrieving, viewing, booking, renting and leasing of real estate; computer application software for searching, retrieving, viewing, booking, renting and leasing of workspace; computer application software for smart phones, tablets and handheld computers, namely, software for users to obtain, access and coordinate physical fitness training; computer application software for streaming audio-visual media recordings featuring topics of instruction in the field of material science via the internet; computer application software for streaming audio-visual media recordings featuring topics of instruction in the fields of mechanical engineering, chemical engineering and electrical engineering via the internet; computer application software for tablet devices that allows users to access and browse online profiles of pet care service providers; computer application software in playing video and computer games; computer application software that gives computer users the ability to upload, exchange and share videos via the internet; computer application software to allow merchants to manage and track customer payments, track staff performance, and create promotional campaigns; computer assisted medical interventions information database recorded on computer media; computer bags; computer buffers; computer cables; computer card adapters; computer carrying cases; computer cases; computer central processing units; computer chassis; computer chatbot software for simulating conversations; computer chips; computer chipsets for use in digital subscriber line [DSL] data transmission systems; computer chipsets for use in transmitting data to and from a central processing unit; computer circuit boards; computer communications software to allow customers to access bank account information and transact bank business; computer database servers; computer daughterboards; computer digital maps; computer disc drives; computer disk drives and drivers; computer disk/disc drives; computer display monitors; computer display screens; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer expansion boards; computer fax modem cards; computer fingerprint imaging software; computer fingerprint scanning software; computer firewall software; computer firmware for programming of function of hardware computer network; computer firmware for remote monitoring of function of hardware and computer network; computer firmware for the delivery of automated business processes in the field of customer relationship management; computer firmware for use in customer relationship management; computer firmware for use in the delivery of automated business processes in the field of financial investment services; computer game cartridges; computer game cartridges and discs; computer game cassettes; computer game discs; computer game programmes; computer game programs; computer game programs downloadable via the Internet; computer game software; computer game software downloadable from a global computer network; computer game software for game machines; computer game software for playing online betting games; computer game software for playing online casino games; computer game software for playing online gambling games; computer game software for playing online games of skill; computer game software for playing online lottery games; computer game software for playing online prize games; computer game software for use on cellular phones; computer game software for use on handheld computers and tablet computers; computer game software for use on mobile and cellular phones; computer game software for use on mobile phones; computer game software, downloadable; computer game software, recorded or downloadable; computer game tapes; computer games; computer games downloadable from a global computer network; computer games for use on cell phones and other handheld wireless devices; computer games for use on gaming machines; computer games for use on mobile and cellular phones; computer games for use on notebook computers; computer games for use on personal computers; computer games for use on slot machines; computer games for use on tablet computers; computer games for use on video lottery

terminals; computer games for use with computers; computer games in the field of basketball; computer gaming software for recreational game playing purposes; computer glasses being anti-blue light eyeglasses; computer graphics boards; computer graphics cards; computer hard drive enclosures; computer hardware; computer hardware and computer network servers for conducting financial transaction; computer hardware and computer software for database management; computer hardware and computer software for retail inventory management, sold as a unit; computer hardware and downloadable software for human biometric data collection using sensors for medical use; computer hardware and downloadable software for receiving, processing, transmitting, and displaying data from medical testing devices, namely, in vitro diagnostic devices; computer hardware and software and sensors for controlling and regulating engine, clutch and transmission functions in order to optimize fuel consumption in land vehicles; computer hardware and software for charging electric storage batteries and electric batteries for vehicles; computer hardware and software for charging electric vehicle batteries; computer hardware and software for controlling and regulating activation and deactivation of a freewheel function in order to reduce fuel consumption in land vehicles; computer hardware and software for database management; computer hardware and software for processing digital music files; computer hardware and software for processing financial payments for electric vehicle charging stations; computer hardware and software for processing financial payments for electricity; computer hardware and software for setting up and configuring local area networks; computer hardware and software for setting up and configuring wide area networks; computer hardware and software system for tracking people, objects and pets using GPS data on a device on the tracked people, objects and pets; computer hardware and software to view virtual images in augmented reality; computer hardware device for hologram projection; computer hardware for accessing, transmitting and displaying audio-visual data between digital media streaming devices and televisions and monitors; computer hardware for cryptocurrency mining; computer hardware for data processing; computer hardware for network access servers; computer hardware for telecommunications; computer hardware for tracking driver behavior; computer hardware for tracking driver behaviour; computer hardware for use in accessing, viewing and controlling streaming and static audiovisual content over digital media streaming devices; computer hardware memory modules for use in electronic devices using the internet of things; computer hardware modules for use in electronic devices using the internet of things; computer hardware to allow users to perform electronic business transactions via a global computer network; computer hardware, namely, wireless network extenders; computer hardware, namely, wireless network repeaters; computer heat sinks; computer housings; computer interface boards; computer interface cards; computer keyboard covers; computer keyboard keycaps; computer keyboards; computer keypads; computer memory boards; computer memory expansion modules; computer mice; computer monitor arms; computer monitor frames; computer monitors; computer motherboards; computer motherboards and daughterboards; computer mouse; computer mouse mats; computer mouse pads; computer network adapters; computer network adaptors; computer network bridges; computer network hubs; computer network hubs, switches and routers; computer network routers; computer network server; computer network switches; computer network-attached storage [NAS] hardware; computer operating programmes; computer operating programs; computer operating recorded programs; computer operating software for operating set-top boxes and digital video recorders and players; computer operating software for x-ray screening in the field of security; computer operating system interface software; computer operating system programs for wearable electronic devices; computer operating system software; computer operating systems; computer parallel ports; computer power supplies; computer power supplies plug adapters protective films adapted for smartphones; computer printers; computer program for the compilation of credit reporting data; computer programmes for document management; computer programmes for printing purposes;

computer programming software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; computer programs (cad/cam) recorded on software designed for use in construction and automated manufacturing; computer programs and computer software for electronic trading of securities; computer programs and software for image processing; computer programs featuring badges for use in online virtual worlds; computer programs featuring characters for use in online virtual worlds; computer programs featuring clothes and accessories for use in online virtual worlds; computer programs featuring emojis for use in online virtual worlds; computer programs featuring food for use in online virtual worlds and food ordering and delivery in the real world; computer programs featuring Proof of Attendance Protocols (POAPs) and non-fungible token (NFT) badges; computer programs featuring stickers for use in online virtual worlds; computer programs featuring virtual beauty products being skin care preparations, sun care preparations and cosmetics for use in an online virtual world; computer programs for accessing information in the field of dietary supplements; computer programs for accessing information in the field of skin care information; computer programs for connecting to remote computers and computer networks; computer programs for editing images, sound and video; computer programs for enterprise resource planning (ERP) in the field of supply chain management; computer programs for language translations and training; computer programs for network management; computer programs for processing digital music files; computer programs for searching remotely for content on computers and computer networks; computer programs for searching the contents of computers and computer networks by remote control; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; computer programs for use in teaching children to read; computer programs for use in the operation of non-medical ultrasound detectors; computer programs for use in the operation of sensors for medical use to gather human biometric data; computer programs for user interface design; computer programs for using the Internet and the World Wide Web; computer programs used for electronic cash register systems; computer routers; computer scanners; computer screen filters; computer screen saver software; computer screen saver software, recorded or downloadable; computer screen savers; computer screens; computer screensaver software; computer search engine software; computer serial ports; computer servers; computer shells; computer simulation game software for playing golf; computer skins, namely, fitted plastic film for covering and providing a scratch proof barrier for computers; computer software and applications for electric vehicle navigation; computer software and computer hardware for scheduling, planning, organizing, and managing heavy equipment reservations; computer software and computer programs for use in credit card and debit card payment processing; computer software and databases for use in diagnosis, repair and configuration of computers; computer software and firmware for playing games of chance on dedicated gaming consoles; computer software and firmware for playing games of chance on reel based slot machines; computer software and firmware for playing games of chance on video based slot machines; computer software and firmware for playing games of chance on video lottery terminals; computer software and hardware platforms for cooperative intelligent transport systems; computer software and hardware platforms for intelligent transport systems; computer software and software applications for accessing medical and health information; computer software and software applications for controlling and managing access to patient medical information; computer software and software applications for use in the diagnosis, monitoring and treatment of medical and health information; computer software application for electric vehicle chargers; computer software applications for the management and provision of customer relationship management; computer software applications for the management and provision of financial investment services; computer software applications for the sale, order and delivery of restaurant and take-away restaurant meals; computer software featuring mathematical algorithms and indices for use in analyzing and

evaluating dairy cow health and productivity; computer software for accessing email and text messages; computer software for accessing information directories that may be downloaded from the global computer network; computer software for accessing information in the field of skin care; computer software for accessing, browsing and searching online databases; computer software for accessing, querying and analyzing information stored in databases and data warehouses; computer software for accessing, querying and analyzing information stored in databases, namely data in the field of chemistry and chemical biology experiments; computer software for administering employee payroll; computer software for administration of computer local area networks; computer software for administration of computer networks; computer software for allowing players to exchange text messages using chat lines via the internet; computer software for allowing players to exchange text messages using chatrooms via the internet; computer software for allowing players to exchange text messages using Internet forums via the internet; computer software for application and database integration; computer software for assessing cognitive brain function and detection of memory deficit for use in providing medical diagnosis and course of treatment for individuals with memory impairments; computer software for assisting developers in creating program code for use in mobile internet applications and client interfaces; computer software for assisting developers in creating program code for use in multiple application programs; computer software for authorising access to data bases; computer software for authorising access to databases; computer software for biometric gait recognition analysis; computer software for bitcoin data mining; computer software for blockchain data mining; computer software for business data mining; computer software for calculation of operational and status data collected from metalworking machines and metalworking tools for use in determining the status of such machines and tools and for optimizing the use and efficiency of such machines and tools; computer software for collecting processing, extracting and analyzing magnetometric and geophysical data; computer software for collecting, processing, extracting and analysing data for farm management; computer software for computer-aided design/computer-aided manufacturing [CAD/CAM]; computer software for connecting computers and for enabling cloud computing; computer software for contact tracing and tracking of COVID-19 and other infectious diseases; computer software for controlling and managing access server applications; computer software for controlling and managing patient medical information; computer software for controlling and operating laser rangefinders; computer software for controlling point-of-sale terminals; computer software for converting document images into electronic formats; computer software for creating 3d virtual reality plans, models, and technical specifications for use in construction and architectural design; computer software for creating advertising signage content for third parties; computer software for creating and editing music; computer software for creating and editing music and sounds; computer software for creating and inserting metatags into documents and information; computer software for creating computer games; computer software for creating crypto currency accounts; computer software for creating digitized patterns; computer software for creating maps; computer software for creating music; computer software for creating searchable databases; computer software for creating searchable databases of information and data; computer software for creating video games; computer software for creating, sending and receiving e-mail; computer software for cross blockchain transfers; computer software for cryptocurrency asset management; computer software for customizing wireless network access for end users; computer software for data deduplication; computer software for data security; computer software for database management; computer software for designing, planning and executing experiments in the fields of chemistry and chemical biology; computer software for developing, building, and operating consumer blockchain applications; computer software for digital animation and special effects of images; computer software for digital messaging for accessing live online chat services; computer software for displaying orders and driver locations on

maps; computer software for document management; computer software for editing images, sound, and video; computer software for editing music and for editing digital audio recordings; computer software for electronic trading of currency; computer software for electronic trading of virtual currency; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for formulating animal feed; computer software for global positioning systems; computer software for graphic designing and editing; computer software for image processing; computer software for interacting with blockchain platforms; computer software for inventory management; computer software for language training; computer software for language translations; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for logistics, namely, software for tracking food deliveries; computer software for maintaining and managing information about financial transactions on distributed public ledgers; computer software for maintaining and managing information about financial transactions on peer-to-peer payment networks; computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; computer software for managing retail store customer accounts; computer software for managing transactional data, providing statistical analysis, and producing notifications and reports in the field of warehousing and distribution; computer software for mathematical calculation; computer software for medical imaging; computer software for monitoring computer network access and activity; computer software for monitoring patient medical information; computer software for oil and gas reservoir analysis; computer software for operating an electronic coffee maker; computer software for operating automobile fuel cell batteries; computer software for operating computer games on the internet; computer software for operating fuel cell system stacks; computer software for operating printers, inkjet printers, multi function printers, and photocopiers; computer software for operating system programs; computer software for operating three dimensional printers; computer software for optical character recognition; computer software for ordering, tracking, and reviewing whole bean and ground coffees; computer software for organising food recipes, monitoring calorie intake, and weigh control; computer software for organizing and viewing digital images and photographs; computer software for organizing, archiving and searching information about consumers' prior purchases of consumer products; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for processing digital music files; computer software for producing financial models; computer software for project management; computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; computer software for pulmonary, cardiovascular and edema analysis for use in small animal research studies; computer software for recording and displaying motor racing information; computer software for redistricting, namely, aggregating smaller geographical areas into multiple larger areas; computer software for running computer games on the internet; computer software for running development programs and application programs in a common development environment; computer software for scanning, digitizing, altering and retouching of photographs; computer software for scientific analysis of genetic sequences; computer software for storing, managing, tracking, analyzing, and reporting data in the fields of chemistry experiments and chemical biology experiments; computer software for synchronizing data between hand-held or portable computers and host computers; computer software for tax planning, tax calculation, tax return preparation and tax return filing; computer software for text editing; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for the design, development and updating of digital electronic labels; computer software for the integration of chemical data from experiments in the fields of chemistry and chemical biology; computer software for the management of commercial printing companies; computer

software for the management of cryptographic security of electronic transmissions across computer networks; computer software for the management of sales; computer software for the operation of camera drones; computer software for the presentation of interactive visual maps and the creation of geofence areas on an interactive map; computer software for training in the field of computer repair; computer software for training in the field of electronics repair; computer software for two or three-dimensional simulation for use in design and development of industrial products; computer software for use as a spreadsheet; computer software for use as an application programming interface (API) for use in the fields of image content analysis; computer software for use as an application programming interface (API) for use in the fields of natural language processing; computer software for use as an application programming interface (API) for use in the fields of speech recognition; computer software for use as an application programming interface (API) for use in the fields of virtualization; computer software for use in analyzing and benchmarking cybersecurity risk; computer software for use in cancer diagnosis; computer software for use in clearing of financial transactions; computer software for use in cognitive training and teaching new skills to individuals with learning and memory impairments; computer software for use in conducting psychological and neurological assessments and examinations; computer software for use in controlling and improving computer processing speed; computer software for use in creating and designing web sites; computer software for use in creating and designing websites; computer software for use in customer relationship management (CRM); computer software for use in database management; computer software for use in electronic storage and display of financial transactions and exchange of data in the field of foreign exchange services; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in heavy equipment rental, leasing, auctioning and purchasing services; computer software for use in integrated circuit design; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in map making; computer software for use in migrating between different computer network operating systems; computer software for use in navigation for and location identification of a delivery vehicle; computer software for use in operating and programming computer printers, thermal printers and electronic label printing machines; computer software for use in planning and booking competency tests; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for use in providing multiple user access to a global computer information network; computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity; computer software for use in the encryption and decryption of digital files; computer software for use in the management of payroll; computer software for use in tracking of shopping carts; computer software for use in tracking the location and maintenance history of shopping carts; computer software for validating address and zone information; computer software for video editing; computer software for virtual telephone cards; computer software for visual art designing and editing; computer software for visualization in the nature of graphical representation and analysis of satellites; computer software for voice recognition for use in connection with the transmission of voice; computer software for word processing; computer software in the field of human resource management; computer software in the field of personnel management; computer software in the field of retrieval and delivery of recyclable material, and recycling services; computer software namely non-fungible tokens for facilitating commercial transactions; computer software platforms for hosting an electronic contact centre; computer software platforms for providing access to crypto-collectibles; computer software platforms for providing access to non-fungible tokens; computer software platforms for social networking; computer software that allows transmission of graphics to mobile telephones; computer software that provides real-time, integrated business management intelligence by combining information

from various databases; computer software to allow users to perform electronic payment transactions; computer software to automate data warehousing; computer software to calculate and charge sales tax and to create reports to pay sales tax to appropriate tax agencies; computer software to create and manage budgets; computer software to create price quote estimates and transfer price quote estimates to invoices; computer software to create, customize, import and export magnetometric and geophysical data; computer software to create, customize, print, export, and e-mail financial reports, business reports, balance sheets, profit and loss statements, cash flow statements, and taxable sales reports; computer software to create, customize, print, export, and e-mail purchase orders; computer software to create, print, and track checks and purchase orders; computer software to design and monitor pharmaceutical treatment plans, track patient compliance and verify treatment outcomes of prescription medication; computer software to enable accessing information in electronic form via computer and communication networks in the field of news; computer software to enable downloading information in electronic form via computer and communication networks in the field of news; computer software to enable providing information in electronic form via computer and communication networks in the field of news; computer software to enable sharing information in electronic form via computer and communication networks in the field of news; computer software to enable sharing information in electronic form via computer and communication networks in the field of heavy equipment rental, auction and acquisition; computer software to enable teleconferencing services; computer software to enable the transmission of photographs to cell phones; computer software to enable the transmission of photographs to cellular phones; computer software to enable the transmission of photographs to cellular telephones; computer software to enable the transmission of photographs to mobile phones; computer software to enable the transmission of photographs to mobile telephones; computer software to enable uploading information in electronic form via computer and communication networks in the field of news; computer software to enable videoconferencing services; computer software to manage customer lists, e-mail and print sales forms, and track running balances; computer software to track sales, expenses, and payments; computer software used for running cloud computing based applications; computer software used to manage and avoid the risk of operator distraction and fatigue by sending real time alerts to operator in the vehicle; computer software, namely cryptocurrency blockchain for peer-to-peer sharing of financial data; computer software, namely cryptocurrency tokens for facilitating commercial transactions; computer software, namely, game engine software for video game development and operation; computer speakers; computer stands; computer stands specially designed for holding a computer, printer and accessories; computer storage area network (SAN) servers; computer stylus; computer styluses; computer system software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; computer systems for vehicle safety and security for autonomous vehicles; computer terminals for banking purposes; computer touch screens; computer touchscreens; computer user manuals in electronic format; computer user manuals in the form of downloadable electronic publications; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for data compression; computer utility programs for file management; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer utility virus protection programs; computer video games; computer video games downloaded via the internet; computer virtualization software; computer virtualization software for running a virtual desktop infrastructure (VDI) through a computer network; computer whiteboards; computer workstations comprising computer, monitor, and printer; computer x-ray image interpretation

software for the training and certification of x-ray screening operators in the field of security; computer-aided manufacturing (CAM) software for general use; computer-controlled steering system for recreational vehicles featuring smart technology; computer-generated holograms; computerised personal organisers; computerized interactive indoor training golf simulators; computerized time clocks with fingerprint recognition; computerized vehicle engine analyzers; computers; computers and computer hardware; computers and computer hardware for installation within a motor vehicle for wirelessly transmitting and receiving information and data about the vehicle, its occupants, and its environment; computers and instructional manuals in electronic format sold as a unit; computers for managing control devices for aircraft; computers for use in data management; computers to read periodicals; computing hardware consisting of tactile and touch screens, central processing units and cameras; concentration meters; concrete testing machines; conductive fibers, namely, fluoride glass fibers; conference microphone speakers; conference phones; connecting electrical cables; connections for electric lines; connectors for electronic circuits; constant humidity incubators for laboratory use; constant temperature incubators for laboratory use; contact lens blanks; contact lens cases; contact lens containers; contact lens containers and carrying cases; contact lenses; containers for contact lenses; containers for microscope slides; continuity testers; contour gauges; contoured prism eyeglass lenses to alleviate symptoms of misalignment and to provide relief for hard-working eyes; contrast enhancement filters for electronic display readout windows; control boards being electrical circuit boards; control cabinets specially adapted for vehicle traffic control equipment; control panels for elevators; control panels for security alarms; controller circuit boards; conventional electricity meters; converters for electric plugs; convex security mirrors; coolant-temperature sensors; cooling pads for laptop computers; coordinate-measuring machines; copper panels for circuit boards; corded telephones; cordless telephone holders; cordless telephones; cords for eyeglasses; cords for eyeglasses and sunglasses; cords for pince-nez; cords for spectacles; cords for sunglasses; correcting lenses; corrective eyeglasses; corrective glasses; corrective spectacles; cotton swabs for laboratory use; counterfeit coin detectors; counterfeit money detection light to be used in retail stores and banks; cover for an electric door bell that attaches to the doorbell to block its use; cover glass for microscope slides; covers for binoculars; covers for camcorders; covers for cameras; covers for cellular phones; covers for cellular phones; covers for cellular telephones; covers for cellular telephones; covers for compact discs; covers for compact discs; covers for computer keyboards; covers for computer keyboards; covers for digital media players; covers for digital media players; covers for electric outlets; covers for electric outlets; covers for electronic agendas; covers for electronic agendas; covers for electronic diaries; covers for electronic diaries; covers for laptop computers; covers for laptop computers; covers for laptops; covers for laptops; covers for mobile telephones; covers for mobile telephones; covers for MP3 players; covers for MP3 players; covers for personal digital assistants; covers for personal digital assistants; covers for personal digital assistants [PDAs]; covers for personal digital assistants [PDAs]; covers for smartphones; covers for smartphones; covers for tablet computers; covers for tablet computers; covers for telephone receivers; covers for telephone receivers; covers for the prongs of electric plugs; covers for the prongs of electric plugs; covers for video cameras; covers for video cameras; crack meters; crack meters; craft magnets; craft magnets; crash helmets; crash helmets; crash helmets for motorcyclists; crash helmets for motorcyclists; crash test dummies; crash test dummies; credit card and debit card readers and scanners; credit card and debit card readers and scanners; credit card encoding machines; credit card encoding machines; credit card reading machines; credit card reading machines; credit card terminals; credit card terminals; credit card-style USB flash drives; credit card-style USB flash drives; credit screening software; credit screening software; cross beam depth gauges; cross beam depth gauges; crossbow scopes; crossbow scopes; crucibles for laboratory use; crucibles for laboratory use; cruise controls for motor vehicles; cruise controls for

motor vehicles; cruise controls for motorcycles; cruise controls for motorcycles; cryptocurrency hardware wallets; cryptocurrency hardware wallets; crystalline silicon solar cells; crystalline silicon solar cells; cupels for laboratory use; cupels for laboratory use; currency counting machines; currency counting machines; currency detectors; currency detectors; currency recognition machines; currency recognition machines; currency sorting machines; currency sorting machines; current breakers; current breakers; current collectors; current collectors; current converters; current converters; current limiters; current limiters; current limiting reactors; current limiting reactors; current meters; current meters; current plugs; current plugs; current pulse generators; current pulse generators; current rectifiers; current rectifiers; current switches; current switches; current testers; current testers; current transformers; current transformers; customer self service electronic checkout stations for point of sale; customer self service electronic checkout stations for point of sale; customer self-service electronic checkout stations for point of sale using artificial intelligence; customer self-service electronic checkout stations for point of sale using artificial intelligence; cut-out switches; cut-out switches; cuvettes for laboratory use; cuvettes for laboratory use; cycle computers; cycle computers; cycle meters; cycle meters; cycling computers; cycling computers; cyclists' glasses; cyclists' glasses; cyclocomputers; cyclocomputers; cyclometers; cyclometers; cyclotrons; cyclotrons; cryogenic turbine meters; cryogenic turbine meters; D-cell batteries; D-cell batteries; daisy wheel printers; daisy wheel printers; darkroom lamps; darkroom lamps; dashboard cameras; dashboard cameras; data cables; data cables; data compression software; data compression software; data gloves for wireless interaction with a computer or remote device; data gloves for wireless interaction with a computer or remote device; data gloves incorporating haptic sensors; data gloves incorporating haptic sensors; data gloves incorporating motion sensors; data gloves incorporating motion sensors; data gloves incorporating position sensors; data gloves incorporating position sensors; data loggers; data loggers; data meters; data meters; data multiplexer; data multiplexer; data storage devices being cassettes; data storage devices being cassettes; data storage devices being floppy disks; data storage devices being floppy disks; data storage devices being magnetic tapes; data storage devices being magnetic tapes; data synchronization cables; data synchronization cables; data transmission cables; data transmission cables; database management software; database management software; database management software in the field of baseball cards; database management software in the field of baseball cards; daughterboards; daughterboards; DC input power supplies; DC input power supplies; DC to AC converters; DC to AC converters; DC to AC inverters; DC to AC inverters; DC /AC inverters; DC/AC inverters; DC/DC converters; DC/DC converters; decantation pears for laboratory use; decantation pears for laboratory use; decibel meters; decibel meters; decision circuits; decision circuits; decoder software; decoder software; decompression chambers; decompression chambers; decorative covers for smoke detectors; decorative covers for smoke detectors; decorative dials for thermostats; decorative dials for thermostats; decorative fridge magnets; decorative fridge magnets; decorative magnets; decorative magnets; decorative magnets in the shape of animals; decorative magnets in the shape of animals; decorative magnets in the shape of letters; decorative magnets in the shape of letters; decorative magnets in the shape of numbers; decorative magnets in the shape of numbers; decorative refrigerator magnets; decorative refrigerator magnets; decorative switch plate covers; decorative switch plate covers; decorative wind socks for indicating wind direction; decorative wind socks for indicating wind direction; dedicated servers; dedicated servers; degaussers; degaussers; demagnetizers; demagnetizers; demagnetizers for magnetic tapes; demagnetizers for magnetic tapes; demagnetizing apparatus for magnetic tapes; demagnetizing apparatus for magnetic tapes; demodulators; demodulators; demultiplexers; demultiplexers; densimeters; densimeters; densitometers; densitometers; depth gauges; depth gauges; desk and car mounted units incorporating a loudspeaker to allow audio cassette and compact disc players to be used hands-

free; desk and car mounted units incorporating a loudspeaker to allow audio cassette and compact disc players to be used hands-free; desk and car mounted units incorporating a loudspeaker to allow digital music players to be used hands-free; desk and car mounted units incorporating a loudspeaker to allow digital music players to be used hands-free; desk mounted unit incorporating a loudspeaker to allow a telephone handset to be used hands-free; desk mounted unit incorporating a loudspeaker to allow a telephone handset to be used hands-free; desk or car mounted units incorporating a loudspeaker to allow a telephone handset to be used hands-free; desk or car mounted units incorporating a loudspeaker to allow a telephone handset to be used hands-free; desktop computers; desktop computers; desktop printers; desktop printers; desktop publishing software; desktop publishing software; devices for generating smoke for signaling; devices for generating smoke for signaling; devices for measurement of the flow rate and volume of liquid hydrogen; devices for measurement of the flow rate and volume of liquid hydrogen; diagnostic biomolecule and DNA sequence detection devices for scientific research purposes; diagnostic biomolecule and DNA sequence detection devices for scientific research purposes; diagnostic biomolecule and DNA sequence readers of biomolecule and DNA sequence testing results for scientific research purposes; diagnostic biomolecule and DNA sequence readers of biomolecule and DNA sequence testing results for scientific research purposes; diagnostic computer software for processing and reporting fuel cell current and voltage testing information for use in fuel cell test stations; diagnostic computer software for processing and reporting fuel cell current and voltage testing information for use in fuel cell test stations; diagnostic instrument composed of video and still image cameras and mirrors for use in the collection of vehicle condition and diagnostic data; diagnostic instrument composed of video and still image cameras and mirrors for use in the collection of vehicle condition and diagnostic data; diagrams for model aircraft circuits; diagrams for model aircraft circuits; dial gauges; dial gauges; diaphragm separators for use in water electrolyzers; diaphragm separators for use in water electrolyzers; dictating machines; dictating machines; dictation machines; dictation machines; dictionaries in electronic form; dictionaries in electronic form; diesel fuel injector testers; diesel fuel injector testers; diesel injector testers; diesel injector testers; diesel oil emission testers; diesel oil emission testers; diesel-engine exhaust test instruments; diesel-engine exhaust test instruments; differential switches; differential switches; digital audio broadcasting [DAB] radios; digital audio broadcasting [DAB] radios; digital audio receivers used for streaming audio data to hearing aids; digital audio receivers used for streaming audio data to hearing aids; digital audio tape players; digital audio tape players; digital audio tape recorders; digital audio tape recorders; digital audiotape players; digital audiotape players; digital bathroom scales; digital bathroom scales; digital book readers; digital book readers; digital books downloadable from the Internet; digital books downloadable from the Internet; digital camcorders; digital camcorders; digital camera cases; digital camera cases; digital camera lights; digital camera lights; digital camera memory cards; digital camera memory cards; digital cameras; digital cameras; digital cameras for industrial use; digital cameras for industrial use; digital cellular phones; digital cellular phones; digital cellular telephones; digital cellular telephones; digital color copiers; digital color copiers; digital color photocopiers; digital color photocopiers; digital color printers; digital color printers; digital colour copiers; digital colour copiers; digital colour photocopiers; digital colour photocopiers; digital colour printers; digital colour printers; digital compact disc players; digital compact disc players; digital disc drives; digital disc drives; digital disk drives; digital disk drives; digital door lock; digital door lock; digital door locks; digital door locks; digital egg timers; digital egg timers; digital electronic labels; digital electronic labels; digital event recorders for seismic data; digital event recorders for seismic data; digital film scanners; digital film scanners; digital force gauges; digital force gauges; digital function generators; digital function generators; digital humidity sensors; digital humidity sensors; digital indicators; digital indicators; digital input and output scanners; digital input and output scanners;

digital karaoke mixers; digital karaoke mixers; digital laser levels; digital laser levels; digital liquid level sensors; digital liquid level sensors; digital locks; digital locks; digital maps for autonomous vehicles; digital maps for autonomous vehicles; digital meat thermometers; digital meat thermometers; digital media, namely, downloadable audio and audiovisual recordings in the field of exercise and fitness; digital media, namely, downloadable audio and audiovisual recordings in the field of exercise and fitness; digital mixing desks; digital mixing desks; digital mobile phones; digital mobile phones; digital mobile telephones; digital mobile telephones; digital music downloadable from internet; digital music downloadable from internet; digital music downloadable from the Internet; digital music downloadable from the Internet; digital music players; digital music players; digital notepads; digital notepads; digital organizers; digital organizers; digital padlocks; digital padlocks; digital panel meters; digital panel meters; digital pH meters; digital pH meters; digital photo cameras; digital photo cameras; digital photo frames; digital photo frames; digital photo printers; digital photo printers; digital photo viewers; digital photo viewers; digital photo-optical systems; digital photo-optical systems; digital plotters; digital plotters; digital radios incorporating clocks; digital radios incorporating clocks; digital school yearbooks; digital school yearbooks; digital signage display panels; digital signage display panels; digital signage monitors; digital signage monitors; digital signal processors; digital signal processors; digital single lens reflex cameras; digital single lens reflex cameras; digital single-lens reflex (dslr) cameras; digital single-lens reflex (dslr) cameras; digital sound processors; digital sound processors; digital spoon scales; digital spoon scales; digital still cameras; digital still cameras; digital subscriber line access multiplexers; digital subscriber line access multiplexers; digital tablets; digital tablets; digital taxi top advertising display units; digital taxi top advertising display units; digital telephones; digital telephones; digital thermometers, not for medical purposes; digital thermometers, not for medical purposes; digital to analogue converters; digital to analogue converters; digital torque gauges; digital torque gauges; digital versatile disc drives; digital versatile disc drives; digital versatile disc player; digital versatile disc player; digital versatile disc players; digital versatile disc players; digital versatile disc recorders; digital versatile disc recorders; digital versatile discs containing recordings of television shows and movies; digital versatile discs containing recordings of television shows and movies; digital video and audio recordings of courses, and downloadable podcasts in the field of legal matters and for continuing legal education; digital video and audio recordings of courses, and downloadable podcasts in the field of legal matters and for continuing legal education; digital video cameras; digital video cameras; digital video disk players; digital video disk players; digital video eyewear; digital video eyewear; digital video players; digital video players; digital video recorders; digital video recorders; digital video recording software for IP (Internet protocol) video surveillance; digital video recording software for IP (Internet protocol) video surveillance; digital voice recorders; digital voice recorders; digital voice signal processors; digital voice signal processors; digital weather stations; digital weather stations; digital-to-analog converters; digital-to-analog converters; digital-to-analogue converters; digital-to-analogue converters; digitizer tablets; digitizer tablets; digitizing tablets; digitizing tablets; dimmer switches; dimmer switches; diode AC switches; diode AC switches; diode alternating current switches; diode alternating current switches; diode arrays; diode arrays; diode assemblies; diode assemblies; direct current converters; direct current converters; direct electrical current monitoring modules; direct electrical current monitoring modules; direct-to-home satellite receivers; direct-to-home satellite receivers; direction beacons; direction beacons; direction-finders; direction-finders; directional compasses; directional compasses; disc storage containers; disc storage containers; discs bearing computer game software; discs bearing computer game software; discs bearing video recordings; discs bearing video recordings; dish aerials; dish aerials; dish antennas; dish antennas; disk drive arrays and enclosures; disk drive arrays and enclosures; disk drives for computers; disk drives for computers; dispensers of predetermined portions of fluids for dosing purposes; dispensers of predetermined

portions of fluids for dosing purposes; dispensers of predetermined portions of powder for dosing purposes; dispensers of predetermined portions of powder for dosing purposes; dispensers of predetermined portions of solid granules for dosing purposes; dispensers of predetermined portions of solid granules for dosing purposes; dispersion shifted optical fibres; dispersion shifted optical fibres; display monitors; display monitors; display screen filters; display screen filters; display screen filters adapted for use with computer monitors; display screen filters adapted for use with computer monitors; display screen filters adapted for use with tablet computers; display screen filters adapted for use with tablet computers; display screen filters adapted for use with televisions; display screen filters adapted for use with televisions; displays for mobile phones; displays for mobile phones; displays for smartphones; displays for smartphones; disposable cameras; disposable cameras; disposable computer keyboard covers; disposable computer keyboard covers; disposable dispenser syringes for laboratory use; disposable dispenser syringes for laboratory use; disposable gloves for laboratory use; disposable gloves for laboratory use; disposable latex gloves for laboratory use; disposable latex gloves for laboratory use; disposable plastic bioreactors for cell culture; disposable plastic bioreactors for cell culture; disposable plastic bioreactors for culturing cells; disposable plastic bioreactors for culturing cells; disposable plastic gloves for laboratory use; disposable plastic gloves for laboratory use; distance sensors; distance sensors; distillation columns for laboratory use; distillation columns for laboratory use; distribution amplifiers; distribution amplifiers; distribution boxes for electrical power; distribution boxes for electrical power; distribution transformers; distribution transformers; dive computers; dive computers; dive skins; dive skins; divers masks; divers masks; divers' face masks; divers' face masks; divers' masks; divers' masks; diving boots; diving boots; diving gloves; diving gloves; diving goggles; diving goggles; diving heel straps; diving heel straps; diving helmets; diving helmets; diving masks; diving masks; diving regulators; diving regulators; diving snorkels; diving snorkels; diving suits; diving suits; diving weight belts; diving weight belts; diving weights; diving weights; DMB (Digital Multimedia Broadcasting) televisions; DMB (Digital Multimedia Broadcasting) televisions; DMB televisions; DMB televisions; DNA chips; DNA chips; DNA microarrays for laboratory use; DNA microarrays for laboratory use; docking stations for cell phones; docking stations for cell phones; docking stations for cellular phones; docking stations for cellular phones; docking stations for digital music players; docking stations for digital music players; docking stations for laptops; docking stations for laptops; docking stations for mobile phones; docking stations for mobile phones; docking stations for MP3 players; docking stations for MP3 players; docking stations for smartphones; docking stations for smartphones; dog whistles; dog whistles; dongles being computer hardware for preventing the unauthorized copying or use of computer software; dongles being computer hardware for preventing the unauthorized copying or use of computer software; door alarms; door alarms; door chimes; door chimes; dosage dispensers; dosage dispensers; dosimeters; dosimeters; dosimeters for liquids; dosimeters for liquids; dosimeters for solids; dosimeters for solids; dot matrix printers; dot matrix printers; downloadable and recorded computer application security software for protecting people from identity theft for use on mobile devices; downloadable and recorded computer application security software for protecting people from identity theft for use on mobile devices; downloadable and recorded computer security software for guarding users of computers and remote access devices from identity theft using anti-keyboard logger and keyboard stroke encryption; downloadable and recorded computer security software for guarding users of computers and remote access devices from identity theft using anti-keyboard logger and keyboard stroke encryption; downloadable and recorded computer software for encryption of digital files; downloadable and recorded computer software for encryption of digital files; downloadable and recorded computer software for receiving digital video over a communication network; downloadable and recorded computer software for receiving digital video over a communication network; downloadable and recorded computer

software for use in organizing, transmitting, receiving, playing, storing and reviewing audio files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing audio files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing image files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing image files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing video files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing video files; downloadable and recorded computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity assessment and protection; downloadable and recorded computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity assessment and protection; downloadable animated cartoons; downloadable animated cartoons; downloadable application for mobile phones to download video games via the internet; downloadable application for mobile phones to download video games via the internet; downloadable application programming interface software used for connecting businesses to their customers financial software, payroll and point of sale systems; downloadable application programming interface software used for connecting businesses to their customers financial software, payroll and point of sale systems; downloadable applications for handheld computers to download music, movie and television graphics; downloadable applications for handheld computers to download music, movie and television graphics; downloadable applications for handheld computers to download video games; downloadable applications for handheld computers to download video games; downloadable applications for handheld computers to edit photographs; downloadable applications for handheld computers to edit photographs; downloadable applications for handheld computers to enable the streaming of movies and television shows; downloadable applications for handheld computers to enable the streaming of movies and television shows; downloadable applications for handheld computers to enable the streaming of music; downloadable applications for handheld computers to enable the streaming of music; downloadable applications for handheld computers to read periodicals; downloadable applications for handheld computers to read periodicals; downloadable applications for handheld computers to take and edit photographs; downloadable applications for handheld computers to take and edit photographs; downloadable applications for handheld computers, tablet computers and mobile phones to enable the streaming of movies and television shows; downloadable applications for handheld computers, tablet computers and mobile phones to enable the streaming of movies and television shows; downloadable applications for laptop computers to enable the downloading and playing of video games; downloadable applications for laptop computers to enable the downloading and playing of video games; downloadable applications for laptop computers to enable the streaming of movies and television shows; downloadable applications for laptop computers to enable the streaming of movies and television shows; downloadable applications for laptop computers to enable the streaming of music; downloadable applications for laptop computers to enable the streaming of music; downloadable applications for laptop computers to provide access to the internet; downloadable applications for laptop computers to provide access to the internet; downloadable applications for laptop computers to read periodicals; downloadable applications for laptop computers to read periodicals; downloadable applications for mobile phones and tablet computers for accessing, monitoring and tracking personalized electricity usage and billing information; downloadable applications for mobile phones and tablet computers for accessing, monitoring and tracking personalized electricity usage and billing information; downloadable applications for mobile phones to download and play video games; downloadable applications for mobile phones to download and play video games; downloadable applications for mobile phones to download course materials in the form of digital
