Federal Government Enquiry Points9

Introduction

Note: This directory is in large print to assist persons with visual disabilities.

Info Source: Directory of Federal Government Enquiry Points is intended for use by the public and by public service employees who respond to reference enquiries. It contains one section entitled “Federal Government Enquiry Points”.

Federal Government Enquiry Points This section lists addresses and phone numbers for federal departments and agencies. Other institutions associated with the federal government are included. Altogether, there are approximately 280 institutions listed.

Most entries include general enquiry and fax numbers. Some include numbers for Telecommunications Devices for the Hearing- and Speech-Impaired (TTY), communications and publications units, departmental libraries, personnel enquiries, Internet sites and E-mail addresses.

To contact local or regional federal offices, consult the blue pages in your local telephone book.

Handling Enquiries

The following are guidelines for federal government employees when responding to public enquiries:

- Allow callers to explain in detail the information they require before referring them to another number. Ask questions if necessary.
- Some Canadians do not understand federal government structure. Before referring callers, explain to them whom they are being referred to and why.

- Direct callers to the government listings in their local telephone book for enquiries about provincial matters or requests best handled by a regional or local office.
- Suggest that callers consult their local library which may hold or be able to obtain published government information.
- If you are unable to help them, refer the callers to Information on the Government of Canada.
