This history of the Fisheries Research Board examines the aims and achievements of its research, its attempts to deal with the often conflicting demands of pure and applied science, and its confrontations with a frequently uncomprehending and dissatisfied government. The people who shaped and sustained the organization figure prominently in the account. Appendices. Index. Numerous black and white photographs.

EMPLOYEE FITNESS

An informative guide to setting up physical fitness programs at work, this attractive manual is part of the Government's campaign to improve physical fitness in Canada. As well as describing the importance of physical fitness, the book guides employers on how to establish fitness programs for employees, emphasizing the benefits both for the company and the individual. In clear, concise text and with numerous black and white photographs, the book describes facilities, administration, programs, leadership, motivation, legal aspects, etc. Foreword by the Hon. Iona Campagnolo. Interesting references to practical experiences. Bibliography, appendices. Paperbound. 15cm x 23cm. 130pp. H93-43-1977. \$3.50

NORTHERN FRONTIER, NORTHERN HOMELAND, VOLUME 2, TERMS AND CONDITIONS

The second and final volume of Judge Berger's report of the Mackenzie Valley Pipeline Inquiry. As beautiful and well-written as the first report, Volume 2 sets out the terms and conditions that should be imposed if, in 10 years, a pipeline is built and an energy corridor established in the Mackenzie Valley. Although the report discusses the Mackenzie Valley route, the recommendations will be used as a basis for the approved Alaska Highway route. The book includes an appendix on the process of the Inquiry and the place of commissions of inquiry in government decision-making. Extensive bibliography. Maps. Tables. Paperbound. 21.5cm x 28cm. 268pp. CP32-25-1977-2. \$5.00
