POPULATION, TECHNOLOGY AND RESOURCES

Report No. 25, Science Council of Canada. This report is addressed to the public in order to point out that Canadians must now discard some hitherto popular myths about Canada: namely, that its agricultural potential is more or less infinite, and that its resources and land area will always support a virtually open-door immigration policy. Addresses those issues related to the question of population size which have a scientific or technological component. Proposes certain measures to be adopted in the future.
